A majority of the shares entitled to vote, present in person or represented by proxy, shall constitute a quorum at the Annual Meeting. Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum.

An abstention, broker non-vote or instructions on the proxy card to withhold a vote will have no effect on the election of directors under Wisconsin law. As to any other matter which properly comes before the meeting, approval is required by a majority of the shares represented at the meeting if a quorum of those shares is present. The Committee will consider nominees suggested by shareholders. It is suggested that any such nominees be brought to the attention of the Secretary.

Other Information About The Board

The Board of Directors has the responsibility to elect the Officers, establish corporate policies and to oversee the overall performance of the Company. Members of the Board are kept informed by written reports and financial data sent to them each month, as well as by oral and written operating, planning and financial reports given to them by Company Officers and others at Board and committee meetings.

For 2003, the annual fee has been increased to \$22,000.

6

There are four regularly scheduled Board of Directors meetings per year. In 2002, two special Board Meetings were held. Report of Audit Committee

The Audit Committee of the Board of Directors (the Audit Committee) as described on page 5 is composed entirely of independent Non-Employee Directors. The Audit Committee operates under an amended written charter adopted by the Board of Directors on January 31, 2003, attached as Exhibit A.

The Audit Committee has reviewed and discussed the Company's audited financial statements with management for the fiscal year ended December 31, 2002. The Audit Committee has discussed with Deloitte & Touche LLP, the Company's independent auditors, the matters required to be discussed by the Statement on Auditing Standards No. 61, as modified or supplemented. The Audit Committee has reviewed and discussed with the independent auditors independence matters, including the written disclosures and the letter from Deloitte & Touche LLP, required by Independence Standards Board Standard No. 1 as modified or supplemented. During fiscal year 2002, the Company's former independent auditors, Arthur Andersen LLP, were dismissed. The Audit Committee appointed, after an extensive interview process, and the Board of Directors approved, on July 19, 2002, Deloitte & Touche as the Company's independent auditors.

For fiscal year 2002, fees for services provided by Deloitte and Touche LLP were as follows:

<u>Audit Fees</u>	<u>Financial Information Systems Design and Implementation Fees</u>	<u>All Other Fees (1)</u>	<u>Total</u>
\$205,832	\$0	\$105,095	\$310,927

(1) These services consisted primarily of income tax and employee benefit plans compliance services.

Based on these reviews and discussions, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2002, for filing with the Securities and Exchange Commission.

This report of the Audit Committee has been presented by the following named Directors comprising the Audit Committee for the fiscal year ended December 31, 2002:

Report of Compensation and Human Resources Committee on Annual Compensation

The Compensation and Human Resources Committee of the Board of Directors (the Compensation and Human Resources Committee) as described on Page 5 is composed entirely of independent Non-Employee Directors. The Compensation and Human Resources Committee is responsible for setting and administering the policies which govern both annual compensation and stock option programs. The following is an overview of those compensation policies.

Overall Policy for Named Executive Officers' Compensation. The Compensation and Human Resources Committee maintains executive salary and benefits at a level that will permit the Company to attract and retain the highest quality individuals for its key executive positions, taking into consideration the prevailing competitive job market, the current and projected size of the Company, its ability to pay and the relationship of the resulting executive compensation to other non-executive compensation in the Company.

7

Named Executive Officers' overall compensation for 2002 consisted of a cash salary and a performance bonus.

Named Executive Officers' Incentive Bonus. The bonus program is an economic value added type program, which the Company calls Shareholder Value Added (SVA). The program provides bonuses based on a comparison of actual annual SVA to target SVA for that respective fiscal year. If actual SVA equals target SVA, the executive earns the target bonus. The target bonus depends upon job responsibility and is approved by the Compensation and Human Resources Committee. Performance above target SVA earns a bonus more than the target bonus

while performance below target SVA earns a bonus less than the target bonus. SVA is calculated by subtracting a charge for the average net capital employed by the Company during a fiscal year from the net operating profit after tax (NOPAT) generated by the Company in that same fiscal year. For years prior to 2001, bonuses for the above-named officers were based exclusively on Return on Average Shareholders Equity (ROE). In addition, discretionary bonuses may also be granted by the Board of Directors.

General Measures Used to Determine Compensation for the Chief Executive Officer. The cash salary compensation, bonus and stock option programs are determined by annually comparing the Chief Executive Officer's position to those of similar chief executive officers for companies of comparable size and type as reported in one or more representative management compensation studies, taking into consideration geographic location, inflation and the responsibilities commensurate with the position.

Criteria Used in Determining Compensation of the Named Executive Officers, other than the Chief Executive Officer. The criteria for determining the cash salary, annual performance bonus and stock options for the other Named Executive Officers is basically the same as outlined above for the Chief Executive Officer except that the annual performance bonus payouts are factored down depending on position responsibility. Option grants may also vary.

Stock Option Philosophy. Stock options for Named Executive Officers, including the Chief Executive Officer, have been historically granted on a periodic basis to accomplish a diverse set of goals, namely, to advance the Company's growth and success by attracting well-qualified Executives upon whose judgment the Company is dependent for the successful conduct of its operations and to provide such Executives with incentives to put forth maximum effort for the long-term success of the Company's business. The size and term are based on competitive practice and position levels to ensure retention and alignment of the Named Executive Officers' long-range interests with those of the shareholders and the opportunity for the Named Executive Officers to build a meaningful stake in the Company.

This overview of the Company's compensation policies has been presented by the following named Directors comprising the Compensation and Human Resources Committee for the fiscal year ended December 31, 2002.

John A. McKay, Chairman
John M. Eldred
Paul W. Jones

Packard and Knueppel \$50,293 and \$30,176, respectively, for payments in lieu of dividends on shares related to the exercise of stock options in 2002, the delivery of which shares was delayed until normal retirement. For Messrs. Eisenreich and Schuster, the amounts shown include \$424 and \$180, respectively, for term life insurance premiums and for Mr. Eisenreich \$5,500 for vested and non-vested contributions to the Marathon Electric Salaried Employees 401K Savings Plan.

Ownership Of Company Stock And Stock Equivalents By Named Executive Officers

To encourage growth in shareholder value, the Company believes that the Named Executive Officers, who are in a position to make a substantial contribution to the long-term success of the Company should have a significant stake in its on-going success through stock ownership. This focuses attention on managing the Company as an owner with an equity position in the business.

Stock Option Plans

In order to provide long-term incentives to Directors, Officers and Key Employees of the Company, stock option plans have been adopted by the Board of Directors and previously approved by the Shareholders. The following listed plan is the only plan with shares available for grants.

1998 Stock Option Plan, as amended (the 1998 Plan). (1,000,000 shares were approved for distribution). The 1998 Plan provides long-term incentives to Directors, Named Executive Officers and Key Employees of the Company. Administration and selection criteria for awarding Grants is determined by the Board of Directors or a committee of two or more Non-Employee Directors.

Option Grants in Fiscal 2002

Pursuant to the stock option plan stated above, options to purchase Common Stock of the Company are granted to the Named Executive Officers, Directors and Key Employees of the Company and its subsidiaries. Stock options totaling 56,850 shares were granted to Key Employees and one Named Executive Officer in 2002. As of December 31, 2002, the fair market value of the Company's stock was \$20.70.

SUMMARY OF BENEFIT PLANS

The Company has certain plans which provide, or may provide, compensation and benefits to Named Executive Officers of the Company, which are described below. These plans are principally the Company's Profit Sharing Plan, Target Supplemental Retirement Plan and Supplemental Disability Insurance.

Profit Sharing Plan

The Company makes an annual discretionary contribution to its tax-qualified Profit Sharing Plan which covers certain hourly and salaried employees, including Messrs. Packard, Knueppel and Kaplan. Eligible employees become participants in the Profit Sharing Plan on the first January 1 or July 1 after completing twelve (12) months of service and being credited with at least 1,000 hours of service. The Company's contribution to the Profit Sharing Plan is allocated to participants according to a formula based upon participant compensation and years of service with the Company. Under the formula, the amount of compensation that may be taken into account with respect to any highly compensated Participant, including all Named Executive Officers, is limited to \$200,000 and complies with government regulations. Amounts allocated to the Company's applicable Named Executive Officers for 2002 are included in the Summary Compensation Table.

A participant must be employed on the last day of the year and be credited with 1,000 hours of service during the year to be eligible for an allocation. Company contributions vest at 20% per year beginning after the completion of three years of service. Participants have the option to direct the investment of their accounts in 10% increments. Ten fund options are available including various fixed income, bond, and equity funds and a REGAL-BELOIT CORPORATION stock fund. Distributions from the Plan are made generally upon termination of service for any reason in the form of a single sum payment in cash or in REGAL-BELOIT CORPORATION stock, provided a participant's vested interest includes a minimum of 100 shares.

Although not included in this Profit Sharing Plan, Mr. Eisenreich participates in the Marathon Electric Salaried Employees 401K Savings Plan, which allows an eligible employee to receive a Company match of \$0.50 on the dollar up to 5% of pay.

Target Supplemental Retirement Plan

The Target Supplemental Retirement Plan (TSRP) limits participants to Officers and selected Key Employees who are designated by the Compensation and Human Resources Committee.

Messrs. Packard, Knueppel, Kaplan and Schuster, among the Named Executive Officers, participate in the TSRP. Under the TSRP, participants are entitled, upon normal or approved early retirement, to receive a target supplemental retirement benefit, which, together with social security and a hypothetical profit sharing plan balance annualized over fifteen (15) years, equals two percent (2%) of the final five (5) years average salary times years of service with the Company, up to a maximum of 30 years or 60% income replacement. Consequently, unless reduced as described below, the estimated annual target supplemental retirement benefits to TSRP participants will approximate those shown in the column of the following table which sets forth estimated benefits for participants with various years of credited service.

13

These benefits will be reduced by the annual Social Security payment and the annualized hypothetical profit sharing balance.

Average Annual Earnings For The Final Five Years Of Service	Years of Credited Service				
	10	15	20	25	30
\$100,000	\$ 20,000	\$ 30,000	\$ 40,000	\$ 50,000	\$ 60,000
\$200,000	40,000	60,000	80,000	100,000	120,000
\$300,000	60,000	90,000	120,000	150,000	180,000
\$400,000	80,000	120,000	160,000	200,000	240,000
\$500,000	100,000	150,000	200,000	250,000	300,000

The TSRP participant needs a minimum of 15 years of continuous service and have reached the age of 62 to qualify for early retirement benefits. However, the Compensation and Human Resources Committee has the discretion to grant additional years of service and/or revise the retirement age requirement for a participant to qualify for benefits.

The TSRP is designed to provide a participant a retirement benefit that is comparable in replacement income percentage provided to lower paid employees. The TSRP does this by supplementing retirement income which is lost to higher paid employees due to social security caps and limits on income considered for the Company's Qualified Retirement Plans.

Supplemental Disability

The Company also provides supplemental disability insurance for Messrs. Packard and Knueppel among the Named Executive Officers and salaried employees. The Plan provides compensation to a participating disabled Named Executive Officer at the rate of 100% of his normal salary for the first 12 months of total disability and 60% thereafter. None of the Company's participating Named Executive Officers received disability benefits during 2002.

Executive Termination Benefits Agreements

The Company has no employment contracts with any Named Executive Officers of the Company. However, the Company has termination benefits (change of control) agreements (the Agreements) with Messrs. Packard, Knueppel and Kaplan, among the Named Executive Officers of the Company. The benefits provided by the Agreements are triggered by the termination of the individual who is a party to an Agreement within three years following a change in control of the Company, if the individual's employment with the Company is terminated not for cause or if the individual terminates his employment with good reason, as defined in the Agreements. If the individual's employment is terminated for cause, or as a consequence of death or disability, the Agreement is not triggered. The employment period is three years commencing with the change in control. The Agreement provides that upon such termination, the termination payment shall be a severance payment equal to three times the individual's annual salary then in effect plus the amount of the individual's highest annual bonus award during the previous three years and the value of all fringe benefits.

PROPOSAL 2: APPROVAL OF 2003 EQUITY INCENTIVE PLAN

The complete text of the 2003 Equity Incentive Plan (the 2003 Plan) is set forth in Exhibit B. The following summary description of the material features of the 2003 Plan is qualified in its entirety by reference to the full text of the 2003 Plan.

On January 31, 2003, the Board of Directors adopted the 2003 Plan. Subject to shareholder approval, the 2003 Plan will become effective on April 22, 2003. The purpose of the 2003 Plan is to both attract and retain Non-Employee Directors, Officers, key executives and other management employees by granting stock options including incentive stock options and nonqualified stock options, stock appreciation rights, performance shares, performance units or restricted stock, thereby providing long-term incentives tied to the success of the Company.

The maximum number of shares of Common Stock that are available for Grants under the 2003 Plan is 1,500,000 shares, subject to adjustment. The 2003 Plan will terminate on April 22, 2013. The Board of Directors may terminate or amend the 2003 Plan in whole or in part at any time. However, the Board may not, without approval of a majority of the shareholders, increase the maximum number of shares reserved under the 2003 Plan, extend the maximum 10-year period during which stock option Grants (the Grant) may be granted under the 2003 Plan or reduce the exercise price per share at which ISOs may be granted below 100% of the fair market value of the Common Stock on the date of Grant. If any shares subject to awards granted under the 2003 Plan, or to which any award relates, are forfeited or if an award otherwise terminates, expires or is canceled prior to the delivery of all of the shares or other consideration issuable or payable pursuant to the award, such shares will be available for the granting of new awards under the 2003 Plan. In addition, if shares subject to awards granted under the Company's 1998 Stock Option Plan, as amended, would again become available for new awards under the terms of such prior plan if the prior plan were still in effect, then those shares will be available for the purpose of awarding grants under this 2003 Plan, thereby increasing the total number of shares available under this 2003 Plan. Any such shares will not be available for future awards under the terms of the 1998 Stock Option Plan, as amended.

Eligible Participants. Persons eligible to participate in the 2003 Plan shall be all Officers, key executives and other management employees of the Company and its subsidiaries who are responsible for or contribute to the management, growth and/or profitability of the Company (the Participants). Approximately 250 persons are currently eligible to receive grants under the 2003 Plan. The number of eligible participants may increase over time based upon future growth of the Company. Other than the automatic grants of stock options to Non-Employee Directors, the Company cannot currently determine the number of shares or the type of shares that may be granted to eligible Participants under the 2003 Plan in the future. Such determinations will be made from time to time by the Committee.

Administration. The 2003 Plan will be administered by the Compensation and Human Resources Committee consisting of two or more Outside Directors as defined in Section 162 (m) of the Internal Revenue Code, as amended and Non-Employee Directors as defined in Rule 16b-3 of the Securities Exchange Act of 1934 (the Non-Employee Directors) hereinafter collectively called the Committee . Among the powers vested in the Committee is the exclusive authority to interpret the provisions of this 2003 Plan, and to prescribe such rules, regulations, agreements, guidelines and instruments for administering this 2003 Plan.

Under the 2003 Plan, to the extent permitted by applicable law, the Committee may delegate to one or more executive officers of the Company any or all the authority and responsibility of the Committee in connection with the 2003 Plan other than with respect to those persons who file reports under Section 16 of the Exchange Act (e.g., executive officers and directors of the Company). The Board may also delegate authority and responsibility under the 2003 Plan to another Board committee comprised only of Non-Employee Directors. Subject to the express terms of the 2003 Plan, determinations and interpretations with respect thereto will be in the sole discretion of the Committee, whose determinations and interpretations will be binding on all parties.

Non-Employee Director Grants. Under the 2003 Plan, each individual Non-Employee Director will automatically be granted NSOs to purchase 20,000 shares of Common Stock at 100% of the fair market value at the closing sale price as of the date corresponding to the Annual Shareholders Meeting in April, 2004. Four thousand (4,000) shares of the Grants to each Non-Employee Director will immediately be exercisable (i.e., vest). The remainder will become exercisable in the amount of 4,000 shares per year on the date of the Annual Shareholders Meeting in each of the next four years as long as the Non-Employee Director remains in office.

If a Non-Employee Director is initially elected at an Annual Shareholders Meeting subsequent to April 2004, or appointed after such Shareholders Meeting, but prior to the next Annual Shareholders Meeting, then on the date of election or appointment, a Director will automatically be granted NSOs to purchase such number of shares of Common Stock equal to the prorata balance of 20,000 shares of Common Stock for the remainder of the five-year period. The Director's Grant shall be at 100% of the fair market value at the closing stock price on the date of election or appointment.

Unexercised options granted to Non-Employee Directors shall terminate on the earlier of ten (10) years after the date of Grant or ninety (90) days after the Non-Employee Director ceases to be a member of the Company's Board of Directors, unless removed for Cause.

Grants. Grants under the 2003 Plan refer to shares of the Company's Common Stock. Grants include Options, which may be Incentive Stock Options (ISO) or Nonqualified Stock Options (NSO), Restricted Stock, Stock Appreciation Rights, Performance Shares or Performance Units or any combination thereof. The Committee shall determine the methods and forms of payment and the requirements for exercising an Option as to each Grant. However, only employees may receive Grants of ISOs. The option price per share shall be 100% of the fair market value of the Shares as determined on the date the option is granted. If there is no sale on the date of Grant, the fair market value of the stock shall be the closing sale price of the stock on the last preceding date on which there was a sale. Options must terminate ten (10) years after the date of Grant. Except as otherwise provided by the Committee, Grants under the 2003 Plan or any rights or interest shall not be assigned or transferred except by will or the laws of descent and distribution during the lifetime of the Participant or Non-Employee Director.

The 2003 Plan provides that in any single fiscal year, no Participant may be granted Options, with or without any related Stock Appreciation Rights, or Stock Appreciation Rights unrelated to Options for more than 300,000 Shares; receive a Restricted Stock Grant for more than 200,000 Shares; receive Performance Shares for more than 200,000 shares; receive a Performance Units Grant that exceeds \$3,000,000 in designated dollar value and/or the value based on the fair market value of Shares which exceeds 200,000 Shares.

Stock Appreciation Rights. The Committee may grant Stock Appreciation Rights (SAR) to any Participant. An SAR entitles the Participant to receive the appreciation in the number or Fair Market Value of Shares on the date of exercise or a combination of Shares and cash without payment to the Company. Each SAR may relate to all or a portion of a specific Option granted under the 2003 Plan. An SAR may also be granted independently of an Option and the exercise price shall be the Fair Market Value of a Share on the date of the Grant. The Committee also has the discretion to fix an exercise price in excess of the Fair Market Value of a Share on the date of Grant.

Restricted Stock, Performance Shares or Performance Units. The Committee may determine appropriate terms and conditions for awarding Restricted Stock, Performance Shares or Performance Units, including a condition for the achievement of one or more Performance Goals, to a Participant. If an award of Restricted Stock to a Participant requires the achievement of Performance Goals, there will be a restriction period of at least one year. Restricted Stock granted without Performance Goals shall have a restriction period of at least three years. The Committee may accelerate the imposition of the restrictions or determine that all or a portion of the Performance Goals are deemed achieved upon the death, disability or retirement of a Participant. Performance Units may be paid in cash, Shares or a combination of cash and Shares as determined by the Committee.

Vesting. The Committee, in its sole discretion, shall determine any vesting requirements applicable to each Grant. However, the Committee has no discretion to alter the provisions governing options granted to Non-Employee Directors.

Termination and Amendment. The Board may amend or terminate the 2003 Plan at any time subject to certain limitations as follows: Non-Employee Director Grants may not be amended more than once every six (6) months other than to conform to changes in applicable law. Amendments to the 2003 Plan must be approved by Shareholders if required by applicable law or stock exchange rules. Shareholders must approve amendments to material increases in the number of Shares or shorten the restriction periods for Performance or Restricted Stock Grants.

Amendment, Modification or Cancellation of Grants. The Committee may waive any restrictions or conditions which apply to any Grant or the exercise of the Grant, subject to the prohibition on repricing, and may also modify, amend, or cancel any other terms and conditions applicable to any Grant by mutual agreement with the Participant provided that the amendment or modification does not increase the maximum number of Shares which can be issued under the 2003 Plan, except as may be adjusted under the Adjustment Provisions or Change of Control provisions. Participant or Non-Employee Director consent is not necessary for the Committee to cancel a Grant under an Adjustment of Shares. The Committee has sole discretion to alter Performance Goals subject to Shareholder approval if required for a Grant to qualify for the performance-based exemption provided by Section 162(m) of the Internal Revenue Code, as amended. However, the Committee may issue Grants which do not qualify for the performance-based exemption without satisfying the requirement under Section 162(m).

Repricing Prohibited. Outstanding Options or Stock Appreciation Rights granted under this 2003 Plan may not be repriced (i.e., by reducing the exercise price) by the Committee or any other person after the date of Grant. Neither a Participant nor a Non-Employee Director may surrender an outstanding Option or SAR granted under this 2003 Plan as consideration for the grant of a new Option or SAR with a lower exercise price.

Adjustment Provisions; Change of Control. If a transaction or event such as recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase, or exchange of Shares, issuance of warrants or other rights to purchase Shares affects the Shares, the Committee may make appropriate adjustments to prevent dilution or enlargement of the benefits or potential benefits available under the 2003 Plan. Adjustments may be made to the number and type of Shares subject to the 2003 Plan and outstanding Grants, and the purchase or exercise price with respect to any Grant.

The Committee may also determine a cash payment amount to the holder of an outstanding Grant in exchange for cancellation of all or a part of a Grant effective at such time specified by the Committee. However, if the event or transaction creates a Change of Control, then payment shall be the greatest amount the holder could have received under the Change of Control provisions and if the Committee determines it is necessary, each Share of a Grant may be substituted by the number and kind of shares, other securities, cash or other property to which holders of Common Stock are or will be entitled. However, Grants of ISOs may not be adjusted if this would cause the 2003 Plan to violate Code Section 422(b).

In the event of a Change of Control, a holder of an Option may exercise the Option in full, even if the Option was not exercisable, and shall have the right to receive, upon 60 days' written notice to the Company after the Change of Control, cash equal to the excess of the Change of Control Price of the Shares covered under the surrendered Option over the exercise price of such Shares under the Grant. On the date of the Change of Control, Restricted Stock which was not vested shall become vested (i.e., exercisable) upon 60 days' written notice to the Company. In exchange for the surrendered Restricted Stock, the holder shall receive cash equal to the Change of Control Price of the Restricted Stock. Within 60 days after the Change of Control, upon written notice to the Company, a holder of a Performance Share and/or Performance Unit with an unexpired performance period, shall receive cash equal to the elapsed fractional months of the performance period of the total number of months in the performance period. Each holder will also receive cash for each Performance Share and/or Performance unit which was earned but not paid.

Termination of Employment. In the event a Participant terminates his or her employment with the Company, whether voluntarily or otherwise but not by reason of death, disability or retirement, each prior unexpired or uncanceled Grant to the extent exercisable as of the date of termination, shall terminate thirty (30) days after the Participant's date of termination or as determined by the Committee.

If a Participant's employment is terminated or a Non-Employee Director is removed as a member of the Board of Directors for Cause, each unexpired or uncanceled Grant, to the extent not previously exercised by him or her, shall terminate immediately. The term "Cause" is defined as: the commission by a Participant or Non-Employee Director of any act or omission that would constitute a felony under federal, state or equivalent foreign law, or fraud, dishonesty, theft, embezzlement, disclosure of trade secrets or confidential information or other acts or omissions that result in a breach of any fiduciary duty to the Company.

Federal Income Tax Consequences. The following brief discussion is a summary of the Company's understanding of the Federal Income Tax consequences based upon the applicable provisions of the Internal Revenue Code in effect on the date hereof. The summary is not exhaustive and does not explain foreign, state or local tax consequences.

Incentive Stock Options. In general, neither a Participant nor the Company will realize federal income tax consequences at the time an ISO is granted or exercised. However, to the extent that the amount by which the fair market value of the shares acquired upon the exercise of any ISO exceeds the option price as of the date of exercise, Participants may be subject to the alternative minimum tax. If a Participant holds shares for a minimum of two years from the date of the grant of the option and a minimum of one year from the date of exercise, then (a) any gain upon the subsequent disposition of the shares will be taxed to the Participant as a long-term capital gain, and any loss sustained will be a long-term loss, and (b) no deduction will be allowed to the Company for federal income tax purposes.

If a Participant disposes of shares acquired upon the exercise of an ISO before the expiration of the holding periods described above, then generally (a) the Participant will be taxed as if compensation income had been received in the year of disposition in an amount equal to the excess, if any, of the fair market value of the shares on the exercise date (or, if less, the amount realized on the disposition of the shares) over the option price paid for such shares, and (b) the Company will generally be entitled to a corresponding deduction in that year.

Nonqualified Stock Options. Generally, neither a Participant nor the Company will recognize taxable income at the time an NSO is granted. At the time of exercise of the NSO, taxable income will be realized. The Company will generally be entitled to a deduction. The amount of income and the Company's deduction will be equal to the difference between the NSO exercise price and the fair market value of the shares on the date of exercise. The income realized will be taxed at ordinary income tax rates for federal income tax purposes.

Upon a subsequent disposition of the shares acquired upon exercise of the NSO, short or long-term capital gain or loss, as determined by the holding period of the shares, will be realized in an amount of the difference between the proceeds of sale and the fair market value of the shares on the date of exercise.

Stock Appreciation Rights. The grant of a SAR does not give rise to any income tax consequences to either the Company or the Participant. Upon the exercise of a SAR, the Participant recognizes ordinary income equal to the amount of any cash plus the fair market value of any shares of Common Stock received. The Company is generally allowed a deduction in an amount equal to the income recognized by the Participant.

Restricted Stock Grants. A Participant who has been awarded a Restricted Stock Grant under the 2003 Plan and does not make an election under Section 83(b) of the Code will not recognize taxable income at the time of the Grant. At the time any transfer or forfeiture restrictions applicable to the Restricted Stock Grant lapse, the Participant will recognize ordinary income and the Company will be entitled to a corresponding deduction equal to the fair market value of the stock at such time. Any dividend paid to the Participant on the Restricted Stock at or prior to such time will be ordinary compensation income to the Participant and deductible by the Company.

A Participant of a Restricted Stock Grant who makes an election under Section 83(b) of the Code will recognize ordinary income at the time of the Grant and the Company will be entitled to a corresponding deduction equal to the fair market value of the Common Stock at such time. Any dividends subsequently paid to the Participant on the Restricted Stock will be dividend income to the Participant and not deductible by the Company. If the Participant makes a Section 83(b) election, there are no federal income tax consequences either to the Participant or the Company at the time any transfer or forfeiture restrictions applicable to the Restricted Stock Grant lapse.

Performance Units and Performance Shares. The grant of a Performance Unit or Performance Share does not give rise to any tax consequences to either the Company or the Participant. Upon payment of cash pursuant to a Performance Unit, the Participant recognizes ordinary income equal to the amount of the payment and the Company is generally allowed a deduction in an equal amount. Upon the issuance of the Company's Common Stock pursuant to a Performance Share award, generally the Participant recognizes ordinary income equal to the fair market value of the shares received, or if received subject to certain restrictions, the fair market value of the shares when no longer restricted. The Participant recognizes ordinary income on the receipt of any dividend equivalents that may be paid on Performance Shares. A deduction from taxable income is allowed to the Company in an amount equal to the amount of ordinary income recognized by the Participant with respect to Performance Shares.

Using stock to exercise options. A Participant may use previously owned shares of Common Stock of the Company to pay all or part of the exercise price of an ISO or NSO. By using previously owned stock, a Participant defers the recognized gain on the surrendered shares for tax purposes. Such a Grant exercise is treated as a tax-free exchange with respect to the number of shares received on the Grant exercised which equals the number of shares surrendered. The Participant's basis in these shares is the same as the basis in the shares surrendered. The capital gain holding period on these shares continues from the date when the surrendered shares were acquired. Additional shares received on the exercise will trigger ordinary income taxation equal to the fair market value of the additional shares over the consideration paid by the Participant in connection with the exercise of an NSO Grant. The Participant's basis in the additional shares is equal to their fair market value on the date the shares were received. The capital gain holding period on such shares commences on that date. By using previously owned stock to pay the exercise price of an ISO, a Participant defers tax recognition of gain on the surrendered shares. However, if a Participant surrenders previously owned stock to pay for all or part of the exercise price of an ISO which has not been held for the statutory holding period, the surrendered stock will be treated as a disqualifying disposition of the prior ISO with the tax consequences described above and complex tax rules apply, especially regarding a Participant's basis in the shares received on the exercise.

Compliance with applicable laws. The Committee will comply with all applicable laws, rules and regulations including the Internal Revenue Code of 1986, as amended and the Securities Exchange Act of 1934, as amended or any successor provisions or other regulatory requirements. To the extent required, the 2003 Plan is designed to comply with Section 162(m) of the Code to qualify future performance based compensation and to qualify under Section 16 of the Exchange Act.

On January 31, 2003, the closing price per share of the Company's Common Stock on the American Stock Exchange was \$19.20.

The affirmative vote of shareholders of a majority of the shares represented at the Annual Shareholders Meeting, in person or by proxy, will be required for approval of the 2003 Equity Incentive Plan.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE APPROVAL OF THE 2003 EQUITY INCENTIVE PLAN.
