NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts)

(unaudited)

NOTE 1 – BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with United States of America (“U.S.”) generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and related notes of Hudson Global, Inc. and its subsidiaries (the “Company”) filed in its Annual Report on Form 10-K for the year ended December 31, 2013.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of operating revenues and expenses. These estimates are based on management’s knowledge and judgments. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the Company’s financial position, results of operations and cash flows at the dates and for the periods presented have been included. The results of operations for interim periods are not necessarily indicative of the results of operations for the full year. The Condensed Consolidated Financial Statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All significant intra-entity balances and transactions between and among the Company and its subsidiaries have been eliminated in consolidation.

Certain prior year amounts have been reclassified to conform to the current period presentation.

NOTE 3 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-11, "Presentation of Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, an amendment to FASB Accounting Standards Codification Topic 740, Income Taxes" ("ASU 2013-11"). ASU 2013-11 clarifies that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed. The Company adopted the ASU 2013-11 prospectively on January 1, 2014. As of March 31, 2014, the Company reclassified \$713 of its unrecognized tax benefit as a reduction to a deferred tax asset for a net operating loss carryforward in the Condensed Consolidated Balance Sheet.

There have been no new accounting pronouncements not yet effective that have significance, or potential significance, to the Company's Condensed Consolidated Financial Statements.

NOTE 4 – REVENUE, DIRECT COSTS AND GROSS MARGIN

The Company's revenue, direct costs and gross margin were as follows:

	Three Months Ended March 31, 2014

(1) Direct costs in Temporary Contracting include the direct staffing costs of salaries, payroll taxes, employee benefits, travel expenses, rent and insurance costs for the Company's contractors and reimbursed out-of-pocket expenses and other direct costs. Other than reimbursed out-of-pocket expenses, there are no other direct costs associated with the

Permanent Recruitment and Other category. Gross margin represents revenue less direct costs. The region where services are provided, the mix of contracting and permanent recruitment, and the functional nature of the staffing services provided can affect gross margin. The salaries, commissions, payroll taxes and employee benefits related to recruitment professionals are included under the caption "Selling, general and administrative expenses" in the Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss).

NOTE 5 – STOCK-BASED COMPENSATION

Incentive Compensation Plan

The Company maintains the Hudson Global, Inc. 2009 Incentive Stock and Awards Plan, as amended and restated April 26, 2012 (the “ISAP”), pursuant to which it can issue equity-based compensation incentives to eligible participants. The ISAP permits the granting of stock options, restricted stock, restricted stock units, and other types of equity-based awards. The Compensation Committee of the Company’s Board of Directors (the “Compensation Committee”) will establish such conditions as it deems appropriate on the granting or vesting of stock options, restricted stock, restricted stock units and other types of equity-based awards. The Company grants primarily restricted stock to its employees, although the Company has recently also granted restricted stock units to certain of its employees. A restricted stock unit is equivalent to one share of the Company’s common stock and is payable only in common stock of the Company issued under the ISAP.

The Compensation Committee administers the ISAP and may designate any of the following as a participant under the ISAP: any officer or other employee of the Company or its affiliates or individuals engaged to become an officer or employee; consultants or other independent contractors who provide services to the Company or its affiliates; and non-employee directors of the Company. As of March 31, 2014, there were 2,646,103 shares of the Company’s common stock available for future issuance under the ISAP.

A summary of the quantity and vesting conditions for stock-based awards granted to the Company’s employees for the three months ended March 31, 2014 was as follows:

Vesting conditions	Number of Shares of Restricted Stock Granted
Vest 100% on the third anniversary of the grant date with service conditions only	5,000

The Company also maintains the Director Deferred Share Plan (the “Director Plan”) pursuant to which it can issue restricted stock units to its non-employee directors. A restricted stock unit is equivalent to one share of the Company’s common stock and is payable only in common stock issued under the ISAP upon a director ceasing service as a member of the Board of Directors of the Company. The restricted stock units vest immediately upon grant and are credited to each of the non-employee director’s retirement accounts under the Director Plan. During the three months ended March 31, 2014, the Company did not grant any restricted stock units to its non-employee directors pursuant to the Director Plan.

For the three months ended March 31, 2014 and 2013, the Company’s stock-based compensation expense related to stock options, restricted stock and restricted stock units was as follows:

	Three Months Ended March 31,	
	2014	2013
Stock options	\$57	\$144
Restricted stock	409	480
Restricted stock units	30	50
Total	\$496	\$674

Stock Options

As of March 31, 2014, the Company had approximately \$27 of unrecognized stock-based compensation expense related to outstanding unvested stock options. The Company expects to recognize that cost over a weighted average service period of 0.12 years.

Defined Contribution Plan and Employer-matching contributions

The Company maintains the Hudson Global, Inc. 401(k) Savings Plan (the "401(k) plan"). The 401(k) plan allows eligible employees to contribute up to 15% of their earnings to the 401(k) plan. The Company has the discretion to match employees' contributions up to 3% of the employees' earnings through a contribution of the Company's common stock to the 401(k) plan. Vesting of the Company's contribution occurs over a five-year period. For the three months ended March 31, 2014 and 2013, the Company's current year expenses and contributions to satisfy the prior years' employer-matching liability for the 401(k) plan were as follows:

NOTE 6 – INCOME TAXES

Under Accounting Standards Codification ("ASC") 270, "Interim Reporting", and ASC 740-270, "Income Taxes – Intra Period Tax Allocation", the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss for the full year where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of ASC 270 and ASC 740-270 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Effective Tax Rate

The provision for income taxes for the three months ended March 31, 2014 was \$524 on a pre-tax loss of \$4,020, compared to a benefit from income taxes of \$177 on pre-tax loss of \$8,418 for the same period in 2013. The Company's effective income tax rate was negative 13.0% and positive 2.1% for the three months ended March 31, 2014 and 2013, respectively. For three months ended March 31, 2014, the effective tax rate differed from the U.S. Federal statutory rate of 35% due to the inability of the Company to recognize tax benefits on losses in the U.S. and tax provision recorded for certain foreign jurisdictions where the Company has positive earnings. For the three months ended March 31, 2013, the reason the effective tax rate differed from the U.S. Federal statutory rate of 35% was due primarily to the Company's inability to benefit from losses in certain foreign jurisdictions.

Uncertain Tax Positions

As of March 31, 2014 and December 31, 2013, the Company had \$2,909 and \$3,872, respectively, of unrecognized tax benefits, including interest and penalties, which if recognized in the future, would lower the Company's annual effective income tax rate. Accrued interest and penalties were \$747 and \$786 as of March 31, 2014 and December 31, 2013, respectively. Estimated interest and penalties are classified as part of the provision for income taxes in the Company's Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss) and totaled to a benefit of \$5 and a provision of \$19 for the three months ended March 31, 2014 and 2013, respectively.

In many cases, the Company's unrecognized tax benefits are related to tax years that remain subject to examination by the relevant tax authorities. Tax years with net operating losses ("NOLs") remain open until such losses expire or until the statutes of limitations for those years when the NOLs are used expire. As of March 31, 2014, the Company's open tax years, which remain subject to examination by the relevant tax authorities, were principally as follows:

	Year
Earliest tax years which remain subject to examination by the relevant tax authorities:	
U.S. Federal	2010
Majority of U.S. state and local jurisdictions	2009
United Kingdom	2012
Australia	2009
Majority of other non-U.S. jurisdictions	2008

The Company believes that its tax reserves are adequate for all years that remain subject to examination or are currently under examination.

Based on information available as of March 31, 2014, it is reasonably possible that the total amount of unrecognized tax benefits could decrease in the range of \$500 to \$700 over the next 12 months as a result of projected resolutions of global tax examinations and controversies and potential expirations of the applicable statutes of limitations.

NOTE 7 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share ("EPS") is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding during the period. When the effects are not anti-dilutive, diluted earnings (loss) per share is computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding and the impact of all dilutive potential common shares, primarily stock options "in-the-money" and unvested restricted stock. The dilutive impact of stock options, unvested restricted stock, and unvested restricted stock units is determined by applying the "treasury stock" method. Performance-based restricted stock awards are included in the computation of diluted earnings per share only to the extent that the underlying performance conditions: (i) are satisfied prior to the end of the reporting period; or (ii) would be satisfied if the end of the reporting period were the end of the related performance period and the result would be dilutive under the treasury stock method. Stock awards subject to vesting or exercisability based on the achievement of market conditions are included in the computation of diluted earnings per share only when the market conditions are met.

A reconciliation of the numerators and denominators of the basic and diluted earnings (loss) per share calculations for the three months ended March 31, 2014 and 2013 were as follows:

	Three Months Ended March 31,	
	2014	2013
Earnings (loss) per share ("EPS"):		
Basic	\$ (0.14) \$ (0.25
Diluted	\$ (0.14) \$ (0.25
EPS numerator - basic and diluted:		
Net income (loss)	\$ (4,544) \$ (8,241
EPS denominator (in thousands):		
Weighted average common stock outstanding - basic	32,641	32,344
Common stock equivalents: stock options and other stock-based awards (a)	—	—
Weighted average number of common stock outstanding - diluted	32,641	32,344

For the periods in which net losses are presented, the diluted weighted average number of shares of common stock outstanding did not differ from the basic weighted average number of shares of common stock outstanding because (a) the effects of any potential common stock equivalents (see Note 5 for further details on outstanding stock options, unvested restricted stock units and unvested restricted stock) were anti-dilutive and therefore not included in the calculation of the denominator of dilutive earnings per share.

The weighted average number of shares outstanding used in the computation of diluted net income (loss) per share for the three months ended March 31, 2014 and 2013 did not include the effect of the following potentially outstanding shares of common stock because the effect would have been anti-dilutive:

	Three Months Ended	
	March 31,

Unvested restricted stock	423,261	399,193

NOTE 11 – BUSINESS REORGANIZATION EXPENSES

Initiated in 2012 and extended during 2013, the Company took steps to accelerate its strategic initiatives with the implementation of the 2012 plan of reorganization ("2012 Plan"). The Company's 2012 Plan is focused on (1) redirecting resources to high-potential strategic businesses, (2) optimizing operations in under-performing sectors and markets to deliver improved performance, re-engineering of the delivery model, and consolidating operations globally, and (3) streamlining back office support areas and business processes, and establishing global centers of excellence, to gain efficiencies of operation. For the three months ended March 31, 2014, restructuring charges associated with these initiatives for the 2012 Plan primarily included employee separation costs and a lease termination payment for an office in the U.S. The actions identified above were completed in the three months ended March 31, 2014.

The Company's Board previously approved other reorganization plans in 2009, 2008 and 2006 ("Previous Plans") to streamline the Company's support operations and the Previous Plans included actions to reduce support functions to match them to the scale of the business, to exit underutilized properties and to eliminate contracts for certain discontinued services. These actions resulted in costs for lease termination payments, employee termination benefits and contract cancellations. Business reorganization expenses for the three months ended March 31, 2014 and 2013 by plan were as follows:

	Three Months Ended March 31,	
	2014	2013

The following table contains amounts for Changes in Estimate, Additional Charges, and Payments related to prior restructuring plans that were incurred or recovered during the three months ended March 31, 2014. The amounts in the "Changes in Estimate" and "Additional Charges" columns are classified as business reorganization expenses in the Company's Condensed Consolidated Statements of Operations and Other Comprehensive Income (Loss). Amounts in the "Payments" column represent primarily the cash payments associated with the reorganization plans. Changes in the accrued business reorganization expenses for the three months ended March 31, 2014 were as follows:

NOTE 12 – COMMITMENTS AND CONTINGENCIES

Consulting, Employment and Non-compete Agreements

The Company has entered into various consulting, and employment agreements with certain key members of management. These agreements generally (i) are one year in length, (ii) contain restrictive covenants, (iii) under certain circumstances, provide for compensation and subject to providing the Company with a release, severance payments, and (iv) are automatically renewed annually unless either party gives sufficient notice of termination.

Litigation and Complaints

The Company is subject, from time to time, to various claims, lawsuits, contracts disputes and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities arising in the ordinary course of business. The Company routinely monitors claims such as these, and records provisions for losses when the claim becomes probable and the amount due is estimable. Although the outcome of these claims cannot be determined, the Company believes that the final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were \$334 and \$745 as of March 31, 2014 and December 31, 2013, respectively.

Asset Retirement Obligations

The Company has certain asset retirement obligations that are primarily the result of legal obligations for the removal of leasehold improvements and restoration of premises to their original condition upon termination of leases. The asset retirement obligations are included under the caption "Other non-current liabilities" in the Condensed Consolidated Balance Sheets. The Company's asset retirement obligations that are included in the Condensed Consolidated Balance Sheets as of March 31, 2014 and December 31, 2013 were as follows:

The Company and certain of its North American and U.K. subsidiaries ("Loan Parties") have a senior secured revolving credit facility (as amended, the "Revolver Agreement") with RBS Citizens Business Capital, a division of RBS Asset Finance, Inc. ("RBS"). The Revolver Agreement provides the Company with the ability to borrow up to \$40,000, including the issuance of letters of credit. The Company may increase the maximum borrowing amount to \$50,000, subject to certain conditions, including lender acceptance. Extensions of credit are based on a percentage of the eligible accounts receivable from the Company's U.K. and North American operations, less required reserves. The maturity date of the Revolver Agreement is August 5, 2014 and will not be renewed with RBS. The Company is actively working to replace the Revolver Agreement with a credit facility with another lender. Borrowings under the Revolver Agreement are secured by substantially all of the assets of the Company and can be made with an interest rate based on a base rate plus an applicable margin or on the LIBOR rate for the applicable period plus an applicable margin. The applicable margin for each rate is based on the Company's Fixed Charge Coverage Ratio (as defined in the Revolver Agreement) and is determined as follows:

Securities and Exchange Commission ("SEC") Regulation S-K 229.10(e)1(ii)(A) defines EBITDA as earnings before interest, taxes, depreciation and amortization. EBITDA is presented to provide additional information to investors about the Company's operations on a basis consistent with the measures that the Company uses to manage its operations and evaluate its performance. Management also uses this measurement to evaluate working capital requirements. Executive Overview

The Company has expertise in recruiting mid-level professional talent across all management disciplines in a wide range of industries. The Company matches clients and candidates to address client needs on a part time, full time and interim basis. Part of that expertise is derived from research on hiring trends and the Company's clients' current successes and challenges with their staff. This research has helped enhance the Company's understanding about the number of new hires that do not meet our clients' long-term goals, the reasons why, and the resulting costs to the Company's clients. With operations in 20 countries, and relationships with specialized professionals around the globe, the Company brings a strong ability to match talent with opportunities by assessing, recruiting, developing and engaging the best and brightest people for the Company's clients. The Company combines broad geographic presence, world-class talent solutions and a tailored, consultative approach to help businesses and professionals achieve maximum performance. The Company's focus is to continually upgrade its service offerings, delivery capability and assessment tools to make candidates more successful in achieving its clients' business requirements.

The Company's proprietary frameworks, assessment tools and leadership development programs, coupled with its broad geographic footprint, have allowed the Company to design and implement regional and global recruitment solutions that the Company believes greatly enhance the quality of its client's hiring.

To accelerate the implementation of the Company's strategy, we have engaged in the following initiatives:

- Investing in the core businesses and practices that present the greatest potential for profitable growth.
- Further improve the Company's cost structure and efficiency of its support functions and infrastructure.
- Build and differentiate our brand through our unique talent solutions offerings.

On April 29, 2014, the Company's Board of Directors authorized management to explore opportunities to divest the Company's Legal eDiscovery business. The purpose of this action is to refocus the Company's core business to maximize stockholder value. On April 30, 2014, the Company's management, under the aforementioned authorization by its Board of Directors, engaged Duff & Phelps Securities, LLC to assist the Company and its Board of Directors in reviewing the Company's Legal eDiscovery business and financial performance, including its possible sale. The Board of Directors continues to examine ways in which the Company can refocus on its core business.

Index

In addition, the Company also engaged AlixPartners, LLP, a premier consulting firm in the areas of organization design and operational improvements, to assist management in a comprehensive assessment of the Company's organization and operations. The engagement with AlixPartners is focused on identifying opportunities to better align the organization model to support future growth, and to identify actions that can improve operating efficiencies and effectiveness. At this stage, the Company cannot quantify the impact these potential actions could have on its financial statements.

Current Market Conditions

Economic conditions in most of the world's major markets remain mixed. Conditions in the U.S. and Western Europe continued to improve during the first quarter of 2014, but slower growth in China has continued to weaken economic conditions in the rest of the Asia Pacific region, most notably in Australia. In addition, recent military activity and civil unrest in the Ukraine may adversely affect market conditions, especially in Central and Eastern Europe.

These conditions contributed to mixed financial performance for the Company for the first quarter 2014 in most of the major markets in which it operates. On a constant currency basis, the Company's first quarter 2014 revenue declined by 1.4% compared to the same period in 2013, although revenue for Hudson Asia Pacific and Hudson Europe increased by 11.4% and 2.9%, respectively. If the current conditions persist, the Company may continue to experience diminished operating results and see a negative impact on its results of operations. The Company closely monitors the conditions in its markets and responds, as appropriate, to the environment in which the Company operates. At this time, the Company is unable to accurately predict the outcome of these events or changes in general economic conditions and their effect on the demand for the Company's services.

Financial Performance

The following is a summary of the highlights for the three months ended March 31, 2014 and 2013. This summary should be considered in the context of the additional disclosures in this MD&A.

The decrease in contracting revenue was partially offset by an increase in permanent recruitment revenue of \$3.8 million (up 14.6% compared to the same period in 2013) and an increase in talent management revenue of \$1.9 million (up 20.1% compared to the same period in 2013).

The increases were partially offset by a decrease in contracting gross margin of \$3.9 million (down 17.4% compared to the same period in 2013).

Selling, general and administrative expenses and other non-operating income (expense) ("SG&A and Non-Op") were \$59.8 million for the three months ended March 31, 2014, compared to \$61.3 million for the same period in 2013, a decrease of \$1.5 million, or 2.5%. Constant Currency

The Company operates on a global basis, with the majority of its gross margin generated outside of the U.S. Accordingly, fluctuations in foreign currency exchange rates can affect the Company's results of operations. For the discussion of reportable segment results of operations, the Company uses constant currency information. Constant currency compares financial results between periods as if exchange rates had remained constant period-over-period. The Company defines the term "constant currency" to mean that financial data for a previously reported period are translated into U.S. dollars using the same foreign currency exchange rates that were used to translate financial data for the current period. The Company's management reviews and analyzes business results in constant currency and believes these results better represent the Company's underlying business trends. Changes in foreign currency exchange rates generally impact only reported earnings.

Changes in revenue, gross margin, SG&A and Non-Op, business reorganization expenses, operating income (loss), net income (loss) and EBITDA (loss) include the effect of changes in foreign currency exchange rates. The tables below summarize the impact of foreign currency exchange adjustments on the Company's operating results for the three months ended March 31, 2014 and 2013.

SG&A and Non-Op is a measure that management uses to evaluate the segments' expenses, which include the following captions on the Condensed Consolidated Statements of Operations and Other Comprehensive Income (a) (Loss): Selling, general and administrative expenses; and other income (expense), net. Corporate management service allocations are included in the segments' other income (expense).

(b) See EBITDA reconciliation in the following section.

Use of EBITDA (Non-GAAP measure)

Management believes EBITDA is a meaningful indicator of the Company's performance that provides useful information to investors regarding the Company's financial condition and results of operations. Management also considers EBITDA to be the best indicator of operating performance and most comparable measure across the regions in which we operate. Management also uses this measure to evaluate capital needs and working capital requirements. EBITDA should not be considered in isolation or as a substitute for operating income, or net income prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") or as a measure of the Company's profitability. EBITDA is derived from net income (loss) adjusted for the provision for (benefit from) income taxes, interest expense (income), and depreciation and amortization.

The reconciliation of EBITDA to the most directly comparable GAAP financial measure is provided in the table below:

Temporary contracting gross margin is derived by deducting the direct costs of temporary contracting from temporary contracting revenue. The Company's calculation of gross margin may differ from that of other companies. See Note 4 to the Condensed Consolidated Financial Statements for direct costs and gross margin information.

	2014 As reported	2013 As reported		
Hudson Americas Revenue	\$26.9	\$37.2	\$(10.4)	(27.8)%

For the three months ended March 31, 2014, temporary contracting revenue decreased \$11.2 million, or 31.6%, as compared to the same period in 2013. Permanent recruitment revenue increased \$0.8 million for the three months ended March 31, 2014, or 44.2%, as compared to the same period in 2013.

The decline in temporary contracting revenue was primarily in Legal, which decreased \$8.8 million, or 37.5%. The decline in Legal contracting revenue resulted principally from shifting in clients' demand to technology integrated legal solution that is currently not offered by the Company. Essentially all of the increase in permanent recruitment revenue was attributable to new RPO clients acquired in the second half of 2013.

Gross Margin

\$ in millions	Three Months Ended March 31,		Change in amount	Change in %
	2014 As reported	2013 As reported		
Hudson Americas Gross margin	\$6.7	\$8.1	\$(1.5)	(18.1)%
Gross margin as a percentage of revenue	24.8	% 21.9	% N/A	N/A
Temporary contracting gross margin as a percentage of temporary contracting revenue	16.8	% 18.0	% N/A	N/A

For the three months ended March 31, 2014, temporary contracting gross margin decreased \$2.3 million, or 36.2%, as compared to the same period in 2013. The decrease in temporary contracting gross margin was partially offset by an increase in permanent recruitment gross margin of \$0.8 million, or 46.7%, as compared to the same period in 2013. The decrease in temporary contracting and the increase in permanent recruitment gross margin for the three months ended March 31, 2014 were attributable to the same factors as described above for revenue.

For the three months ended March 31, 2014, total gross margin as a percentage of revenue was 24.8%, as compared to 21.9% for the same period in 2013. The improvement was principally due to higher proportional permanent recruitment revenue. For the three months ended March 31, 2014, temporary contracting experienced 7% increase in average bill rate, but temporary contracting gross margin as a percentage of revenue decreased to 16.8%, as compared to 18.0% for the same period in 2013. The decrease in temporary contracting gross margin as a percentage of revenue resulted from lower sales volumes relative to fixed direct costs.

SG&A and Non-Op as a percentage of revenue	28.6	% 24.5	% N/A	N/A

An overall headcount decrease of approximately 22%, lower gross margin-related compensation and reduced corporate management fees resulted in lower SG&A and Non-Op for the three months ended March 31, 2014 as compared to the same period in 2013. The lower SG&A and Non-Op expenses offset almost the entire decline in gross margin for the three months ended March 31, 2014.

For the three months ended March 31, 2014, SG&A and Non-Op, as a percentage of revenue, was 28.6%, as compared to 24.5% for the same period in 2013. The increase in SG&A and Non-Op, as a percentage of revenue, for the three months ended March 31, 2014 was due principally to a larger decline in temporary contracting revenue as described above.

Business Reorganization Expenses

For the three months ended March 31, 2014, business reorganization expenses were approximately \$0.1 million as compared to none for the same periods in 2013. The business reorganization expenses incurred for the three months ended March 31, 2014 were primarily related to exit costs associated with an office in California.

The increase in EBITDA loss for the three months ended March 31, 2014 was principally due to decline in gross margin that was mostly offset by the reduction of SG&A and Non-Op and the current period business reorganization expense as described above.

For the three months ended March 31, 2014, operating loss was \$1.0 million, as compared to \$0.6 million for the same period in 2013. The difference between operating loss and EBITDA (loss) for the three months ended March 31, 2014 and 2013 was principally due to corporate management fees and depreciation.

In Australia, revenue increased \$6.0 million or 16.5% for the three months ended March 31, 2014, as compared to the same period in 2013. The increase in revenue in Australia was primarily in temporary contracting and talent management revenue, which increased \$3.9 million and \$1.4 million, or 13.5% and 64.0%, respectively, for the three months ended March 31, 2014, as compared to the same period in 2013. The increases in temporary contracting revenue were primarily due to the RPO practice from new clients as well as from existing clients in public and financial sector. The increase in talent management revenue was due to an increase in assessment and development services resulting from improved rate of winning new clients and client retention.

In Asia, revenue increased \$0.5 million or 7.6%, for the three months ended March 31, 2014, as compared to the same period in 2013. The increase in revenue in Asia was primarily in China, which increased \$0.8 million or 20.3% for the three months ended March 31, 2014, as compared to the same period in 2013, and was led by the RPO, IT and accounting & finance practices. The increase in China was partially offset by decreases in Singapore and Hong Kong.

Temporary contracting gross margin as a percentage of temporary contracting revenue	12.6	% 16.6	% N/A	N/A	

For the three months ended March 31, 2014, the increase in gross margin was led by permanent recruitment, which increased \$1.4 million or 12.6% as compared to the same period in 2013. The increase in gross margin for the three months ended March 31, 2014 were attributable to the same factors as described above for the increase in revenue.

Total gross margin as a percentage of revenue was 37.1% for the three months ended March 31, 2013, as compared to 38.9% for the same period in 2013. The declines in total gross margin as a percentage of revenue for the three months ended March 31, 2014 resulted from the shift in mix toward more temporary contracting. For the three months ended March 31, 2014, temporary contracting gross margin as a percentage of revenue was 12.6%, as compared to 16.6% for the same period in 2013. The changes in the temporary contracting gross margin percentage for the three months ended March 31, 2014 resulted primarily from a shift in mix to lower margin, high volume RPO business. In RPO practice, the Company generally charges a fixed fee to its client for the costs of consultants working at the clients' premises. As a result, the Company generally charges a lower fee on temporary contracting revenue as compared to

the traditional temporary contracting projects.

Provision for (Benefit from) Income Taxes

The provision for income taxes for the three months ended March 31, 2014 was \$0.5 million on \$4.0 million of pre-tax loss, as compared to an income tax benefit of \$0.2 million on \$8.4 million of pre-tax loss for the same period in 2013. The effective tax rate for the three months ended March 31, 2014 was negative 13.0%, as compared to 2.1% for the same period in 2013. The difference in the effective tax rate for three months ended March 31, 2014 from the U.S. Federal statutory rate of 35% was primarily due to the Company's inability to recognize tax benefits on losses in the U.S. and the provision recorded for certain foreign jurisdictions where the Company has positive earnings. For the three months ended March 31, 2013, the effective tax rate difference from the U.S. Federal statutory rate of 35% was primarily attributable to the Company's inability to benefit from losses in certain foreign jurisdictions.

The increase in net cash used by operating activities resulted principally from an increase in accounts receivable due to revenue being more heavily weighted toward the end of the quarter, partially offset by lower net loss for the current period.

Cash Flows from Investing Activities

For the three months ended March 31, 2014, net cash used in investing activities was \$1.5 million, as compared to net cash used in investing activities of \$0.9 million for the same period in 2013, an increase in net cash used in investing activities of \$0.6 million. Cash Flows from Financing Activities

For the three months ended March 31, 2014, net cash used in financing activities was \$0.2 million, compared to net cash used in financing activities of \$0.5 million for the same period in 2013, a decrease in net cash used in financing activities of \$0.3 million. The decrease in net cash used in financing activities was primarily attributable to lower cash usage on treasury stock activities from employees' stock-based awards vesting in the current period.

Credit Agreements

Credit Agreement with RBS Citizens Business Capital

The Company and certain of its North American and U.K. subsidiaries ("Loan Parties") entered into a senior secured revolving credit facility (as amended, the "Revolver Agreement") with RBS Citizens Business Capital, a division of RBS Asset Finance, Inc. ("RBS"). The Revolver Agreement provides the Company with the ability to borrow up to \$40.0 million, including the issuance of letters of credit. The Company may increase the maximum borrowing amount to \$50.0 million, subject to certain conditions, including lender acceptance. Extensions of credit are based on a percentage of the eligible accounts receivable from the Company's U.K. and North American operations, less required reserves. The maturity date of the Revolver Agreement is August 5, 2014 and will not be renewed with RBS. The Company is actively working to replace this facility with another lender. Borrowings under the Revolver Agreement are secured by substantially all of the assets of the Company and can be made with an interest rate based on a base rate plus an applicable margin or on the LIBOR rate for the applicable period plus an applicable margin. The applicable margin for each rate is based on the Company's Fixed Charge Coverage Ratio (as defined in the Revolver Agreement) and is determined as follows:

Level	Fixed Charge Coverage Ratio	Base Rate Revolving Loans	LIBOR Revolving Loans or Letter of Credit Obligations
I	Greater than or equal to 1.25:1.0	1.25	% 2.25 %

Credit Agreement with Westpac Banking Corporation

Certain Australian and New Zealand subsidiaries of the Company have a facility agreement with Westpac Banking Corporation and Westpac New Zealand Limited (collectively, “Westpac”). On September 30, 2013, the Company and certain of its Australian and New Zealand subsidiaries entered into a waiver letter to waive compliance with a financial covenant contained in the facility agreement at the September 30, 2013 and December 31, 2013 testing dates, and on December 19, 2013, the Company and certain of its Australian and New Zealand subsidiaries entered into a Deed of Variation to the facility agreement (as amended, the “Facility Agreement”) to amend certain terms and conditions of the Facility Agreement.

The Facility Agreement provides three tranches: (1) an invoice discounting facility of up to \$13.9 million (AUD20 million) (“Tranche A”) for an Australian subsidiary of the Company, which is based on an agreed percentage of eligible accounts receivable; (2) an overdraft facility of up to \$3.0 million (NZD3.5 million) (“Tranche B”) for a New Zealand subsidiary of the Company; and (3) a financial guarantee facility of up to \$4.6 million (AUD5 million) (“Tranche C”) for the Australian subsidiary.

Borrowings under Tranche B may be made with an interest rate based on the Commercial Lending Rate (as defined in the Facility Agreement) plus a margin of 0.83%. Each of Tranche A and Tranche B bears a fee, payable monthly, equal to 0.90% and 0.65%, respectively, of the size of Westpac’s commitment under such tranche. Borrowings under Tranche C may be made incurring a fee equal to 1.80% of the face value of the financial guarantee requested. Amounts owing under the Facility Agreement are secured by substantially all of the assets of the Australian subsidiary, its Australian parent company and the New Zealand subsidiary (collectively, the “Obligors”) and certain of their subsidiaries.

The Company was in compliance with all financial covenants under the Facility Agreement as of March 31, 2014.

Other Credit Agreements

The Company also has lending arrangements with local banks through its subsidiaries in the Netherlands, Belgium and Singapore. As of March 31, 2014, the Netherlands subsidiary could borrow up to \$1.9 million (€1.4 million) based on an agreed percentage of accounts receivable related to its operations. The Belgium subsidiary has a \$1.4 million (€1 million) overdraft facility. Borrowings under the Belgium and the Netherlands lending arrangements may be made with an interest rate based on the one-month EURIBOR plus a margin, and were 2.74% as of March 31, 2014. The lending arrangement in the Netherlands expires annually each June, but can be renewed for one-year periods at that time. The lending arrangement in Belgium has no expiration date and can be terminated with a 15-day notice period. In Singapore, the Company's subsidiary can borrow up to \$0.8 million (SGD1 million) for working capital purposes. Interest on borrowings under the Singapore overdraft facility is based on the Singapore Prime Rate plus a margin of 1.75%, and it was 6.00% on March 31, 2014. The Singapore overdraft facility expires annually each August, but can be renewed for one-year periods at that time. There was an aggregate of \$0.3 million in outstanding borrowings under the Belgium, the Netherlands, and Singapore lending agreements as of March 31, 2014.

The average aggregate monthly outstanding borrowings under the Revolver Agreement, Facility Agreement and the various credit agreements in Belgium, the Netherlands and Singapore was \$0.2 million for the three months ended March 31, 2014. The weighted average interest rate on all outstanding borrowings as of March 31, 2014 was 5.46%. The Company continues to use the aforementioned credit to support its ongoing global working capital requirements, capital expenditures and other corporate purposes and to support letters of credit. Letters of credit and bank guarantees are used primarily to support office leases.

Liquidity Outlook

As of March 31, 2014, the Company had cash and cash equivalents on hand of \$22.1 million supplemented by additional borrowing availability of \$15.3 million under the Revolver Agreement available in the United States (U.S.) and \$20.5 million of additional borrowing availability under the Facility Agreement and other lending arrangements in Belgium, the Netherlands and Singapore. The Company believes that it has sufficient liquidity to satisfy its needs through at least the next 12 months, based on the Company's total liquidity as of March 31, 2014 and assuming the Company replaces the Revolver Agreement. The Company's near-term cash requirements during 2014 are primarily related to funding operations, restructuring actions and capital expenditures. For the full year 2014, the Company expects to make capital expenditures of approximately \$3.0 million to \$4.0 million, which excludes landlord-funded leasehold improvements, and payments in connection with restructuring actions of \$4.0 million to \$5.0 million. The Company is closely managing its capital spending and will perform capital additions where economically prudent, while continuing to invest strategically for future growth.

As of March 31, 2014, \$2.0 million of the Company's cash and cash equivalents noted above were held in the U.S. and the remainder were held internationally, primarily in the United Kingdom (\$7.2 million), Australia (\$4.0 million), Mainland China (\$2.5 million), The Netherlands (\$1.5 million) and France (\$1.2 million). The majority of the Company's offshore cash is available to it as a source of funds, net of any tax obligations or assessments.

Unrepatriated cumulative earnings of certain foreign subsidiaries are considered to be invested indefinitely outside of the United States, except where the Company is able to repatriate these earnings to the United States without a material incremental tax provision. In managing its day-to-day liquidity and its capital structure, the Company does

not rely on the unrepatriated earnings as a source of funds. The Company has not provided for federal income or foreign withholding taxes on these undistributed foreign earnings. The Company has not done so because a distribution of these foreign earnings with material incremental tax provision is unlikely to occur in the foreseeable future. Accordingly, it is not practicable to determine the amount of tax associated with such undistributed earnings.

The Company believes that future external market conditions remain uncertain, particularly access to credit, rates of near-term projected economic growth and levels of unemployment in the markets in which the Company operates. Due to these uncertain external market conditions, the Company cannot provide assurance that its actual cash requirements will not be greater in the future than those currently expected, especially if market conditions deteriorate substantially. If sources of liquidity are not available or if the Company cannot generate sufficient cash flow from operations, the Company could be required to obtain additional sources of funds through additional operating improvements, capital market transactions, asset sales or financing from third parties, or a combination of those sources. The Company cannot provide assurance that these additional sources of funds will be available or, if available, would have reasonable terms.

Contingencies

From time to time in the ordinary course of business, the Company is subject to compliance audits by federal, state, local and foreign government regulatory, tax and other authorities relating to a variety of regulations, including wage and hour laws, unemployment taxes, workers' compensation, immigration, and income, value-added and sales taxes. The Company is also subject to, from time to time in the ordinary course of business, various claims, lawsuits and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, former and current employees, and regulators or tax authorities. Periodic events and management actions such as business reorganization initiatives can change the number and type of audits, claims, lawsuits, contract disputes or complaints asserted against the Company. Events can also change the likelihood of assertion and the behavior of third parties to reach resolution regarding such matters.

The economic circumstances in the recent past have given rise to many news reports and bulletins from clients, tax authorities and other parties about changes in their procedures for audits, payment, plans to challenge existing contracts and other such matters aimed at being more aggressive in the resolution of such matters in their own favor. The Company believes that it has appropriate procedures in place for identifying and communicating any matters of this type, whether asserted or likely to be asserted, and it evaluates its liabilities in light of the prevailing circumstances. Changes in the behavior of third parties could cause the Company to change its view of the likelihood of a claim and what might constitute a trend. In the last twelve months, the Company has seen an increase in employee disputes arising from our business reorganization initiatives. Employment laws vary in the markets in which we operate, and in some cases, employees and former employees have extended periods during which they may bring claims against the Company. The Company is unable to determine if the recent rise in claims represents a trend. For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company's reserves were \$0.3 million and \$0.7 million as of March 31, 2014 and December 31, 2013, respectively. Although the outcome of these matters cannot be determined, the Company believes that none of the currently pending matters, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company conducts operations in various countries and faces both translation and transaction risks related to foreign currency exchange. For the three months ended March 31, 2014, the Company earned approximately 84% of its gross margin outside the U.S., and it collected payments in local currency and paid related operating expenses in such corresponding local currency. Revenues and expenses in foreign currencies translate into higher or lower revenues and expenses in U.S. dollars as the U.S. dollar weakens or strengthens against other currencies. Therefore, changes in exchange rates may affect our consolidated revenues and expenses (as expressed in U.S. dollars) from foreign operations.

Amounts invested in our foreign operations are translated into U.S. dollars at the exchange rates in effect at the balance sheet date. The resulting translation adjustments are recorded as a component of accumulated other comprehensive income in the stockholders’ equity section of the Condensed Consolidated Balance Sheets. The translation of the foreign currency into U.S. dollars is reflected as a component of stockholders’ equity and does not impact our reported net income.

As more fully described in Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the Company has credit agreements with RBS Citizens Business Capital, Westpac Banking Corporation and other credit agreements with lenders in Belgium, the Netherlands, and Singapore. The Company does not hedge the interest risk on borrowings under the credit agreements, and accordingly, it is exposed to interest rate risk on the borrowings under such credit agreements. Based on our annual average borrowings in the current year, a 1% increase or decrease in interest rates on our borrowings would not have a material impact on our earnings.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chairman and Chief Executive Officer and its Executive Vice President and Chief Financial Officer, has conducted an evaluation of the design and operation of the Company's disclosure controls and procedures, as such term is defined under Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is involved in various legal proceedings that are incidental to the conduct of its business. The Company is not involved in any pending or threatened legal proceeding that it believes could reasonably be expected to have a material adverse effect on its financial condition or results of operations.

ITEM 1A. RISK FACTORS

As of March 31, 2014, there have not been any material changes to the information set forth in Item 1A. "Risk Factors" disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013 except as follows.

A currently threatened proxy contest and any other actions of activist stockholders could have a negative effect on our business.

On March 19, 2014, Lone Star Value Management, LLC and certain other affiliated persons and entities (the "Lone Star Group"), filed with the SEC Lone Star Group's preliminary proxy statement to nominate two alternative director nominees for election to our Board of Directors at the annual meeting of stockholders on May 29, 2014. Our Board of Directors has not endorsed the Lone Star Group's director nominees and we have been in discussions with the Lone Star Group. If a proxy contest or any other dissident stockholder activity ensues, then our business could be adversely affected because responding to proxy contests, litigation and other actions by dissident stockholders can be costly and time-consuming, disrupt our operations and divert the attention of management and our employees. In addition, perceived uncertainties as to our future direction may result in the loss of potential business opportunities and harm our ability to attract new investors and clients. If the Lone Star Group's director nominees are elected to our Board of Directors, it may adversely affect our ability to effectively and timely implement our strategic initiatives and to retain and attract experienced management and employees. Also, we may experience a significant increase in legal fees, administrative and associated costs incurred in connection with responding to a proxy contest or related action. These actions could also cause our stock price to experience periods of volatility or stagnation.

We have limited borrowing availability under our credit facilities and such facilities may be terminated, which may negatively impact our liquidity.

Extensions of credit under the Revolver Agreement with RBS our Facility Agreement with Westpac are permitted based on a borrowing base, which is an agreed percentage of eligible accounts receivable, less required reserves, letters of credit and outstanding borrowings. If the amount or quality of our accounts receivable deteriorates, then our ability to borrow under these credit facilities will be directly affected. Our lenders can impose other conditions, such as payroll and other reserves at any time without prior notice to us and these actions would reduce the amounts available to us under the credit facilities. In addition, the Revolver Agreement with RBS expires on August 5, 2014 and will not be renewed with RBS. Furthermore, the Facility Agreement with Westpac does not have a stated maturity date and can be terminated by Westpac upon 90 days written notice. We cannot provide assurance that we will be able to borrow under these credit facilities if we need money to fund working capital or other needs or replace the Revolver Agreement with RBS.

If sources of liquidity are not available or if we cannot generate sufficient cash flows from operations, then we may be required to obtain additional sources of funds through additional operating improvements, capital markets transactions, asset sales or financing from third parties, or a combination thereof and, under certain conditions, such transactions could substantially dilute the ownership of existing stockholders. We cannot provide assurance that the additional sources of funds will be available, or if available, would have reasonable terms.

We may not be able to successfully achieve our strategic initiatives, which could have a negative effect on our business, results of operations and financial condition.

We have been engaged in strategic initiatives to refocus on our core business to maximize long-term stockholder value, to improve our cost structure and efficiency and to increase our selling efforts and developing new business. We cannot provide any assurance that we will be able to successfully execute these or other strategic initiatives or that we will be able to execute these initiatives on our expected timetable. Furthermore, we have announced that we are exploring opportunities to divest our Legal eDiscovery business. We may not be able to divest this business and, if we are successful in doing so, we cannot provide any assurance as to the proceeds that we will receive or when such divestiture would be completed. After any such divestiture, we may not be successful in refocusing our core business and obtaining operational efficiencies or replacing revenues lost as a result of the divestiture.
