## **ABILITY INC.**

On April 24, 2019, Ability Inc. (the “Company”) announced its financial results for the three months ended and for the year ended December 31, 2018. Additionally, on the same day, the Company filed its Annual Report on Form 20-F for the year ended December 31, 2018 (the “2018 Annual Report”).

### **2018 Fourth Quarter Financial Summary**

Revenues for the three months ended December 31, 2018 were \$0.1 million, compared to \$1.9 million for the three months ended December 31, 2017. The decrease in revenues for the three months ended December 31, 2018 was primarily due to lower sales to an Israeli integrator that have been sold to end users in Asia and to a reseller in Asia.

Cost of revenues for the three months ended December 31, 2018 were \$0.5 million, compared to \$1.2 million for the three months ended December 31, 2017. The decrease was primarily due to decreased costs for components for the Company’s solutions, corresponding to the decrease in revenues.

Operating loss for the three months ended December 31, 2018 was \$2.2 million, compared to an operating income of \$25,000 for the three months ended December 31, 2017. The increase in the operating loss was primarily due to a \$1.8 million decrease in revenues, and a \$1.2 million increase in general and administrative expenses, partially offset by a decrease of \$0.8 million in cost of revenues and a decrease of \$0.4 million in selling and marketing expenses.

Net loss for the three months ended December 31, 2018 was \$2.2 million, or \$0.53 per basic and diluted share, compared to net income of \$34,000, or \$0.01 per basic and diluted share, for the three months ended December 31, 2017. Negative EBITDA for the three months ended December 31, 2018 was \$2.1 million, compared to an EBITDA of \$0.1 million for the three months ended December 31, 2017. Please refer to the consolidated financial tables below for a reconciliation of GAAP to Non-GAAP results.

### **2018 Full Year Financial Summary**

Revenues for the year ended December 31, 2018 were \$0.5 million, compared to \$3.0 million for the year ended December 31, 2017. The decrease in revenues for the year ended December 31, 2018 was primarily due to lower sales

to an Israeli integrator that have been sold to end users in Asia and to a reseller in Asia. In addition, during the year ended December 31, 2018, we completed three significant purchase orders for ULIN sales. However, due to technical implementation issues encountered with the solution and regulatory difficulties, we have not recognized any revenue from such sales to date.

Cost of revenues for the year ended December 31, 2018 were \$1.6 million, compared to \$3.0 million for the year ended December 31, 2017. The decrease in cost of revenues was primarily due to decreased costs for components for the Company's solutions, corresponding to the decrease in revenues.

Operating loss for the year ended December 31, 2018 was \$10.2 million, compared to \$9.0 million for the year ended December 31, 2017. The increase in the operating loss was primarily due to a \$2.5 million decrease in revenues and a \$0.4 million increase in general and administrative expenses, partially offset by a decrease of \$1.4 million in cost of revenues and a decrease of \$0.4 million in selling and marketing expenses.

Net loss for the year ended December 31, 2018 was \$10.2 million, or \$3.45 per basic and diluted share, compared to \$9.1 million, or \$3.71 per basic and diluted share, for the year ended December 31, 2017.

Negative EBITDA for the year ended December 31, 2018 was \$9.7 million, compared to \$8.5 million for the year ended December 31, 2017. Please refer to the consolidated financial tables below for a reconciliation of GAAP to Non-GAAP results.

## Balance Sheet Highlights

As of December 31, 2018, the Company had an accumulated deficit of \$28.2 million and cash and cash equivalents of \$9.9 million, compared to accumulated deficit of \$18.0 million and cash and cash equivalents of \$1.9 million as of December 31, 2017. Due to a significant decline in revenues and continued significant legal and professional services fees, the Company has an accumulated deficit, suffered recurring losses and has negative operating cash flow. Additionally, the Company is under an investigation of the Israeli Ministry of Defense, which ordered a suspension of certain export licenses. These matters, along with other reasons, which are described in Note 1.g. to the Company's consolidated financial statements included in its 2018 Annual Report, raise substantial doubt about the Company's ability to continue as a going concern. The Company's independent registered public accounting firm, in its report on its audited consolidated financial statements for the year ended December 31, 2018 expressed substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon, among other things, cash flow from customers for ongoing projects, a decrease in litigation costs, the Company's ability to remain listed on the Nasdaq Capital Market and favorable resolution of the pending lawsuits, and the investigations conducted by the Securities and Exchange Commission and the Israeli Ministry of Defense. The Company expects to continue incurring losses and negative cash flows from operations in the foreseeable future. As a result of these expected losses and negative cash flows from operations, along with the Company's current cash position, the Company only has sufficient cash on its balance sheet to finance its operations for a period of between six to twelve months from the date hereof.

The foregoing information for the year ended December 31, 2018 is qualified in its entirety by the Company's 2018 Annual Report. A copy of the Company's Annual Report on Form 20-F for the year ended December 31, 2018 has been filed with the Securities and Exchange Commission and posted on the Company's website at <http://ir.interceptors.com/sec-filings/>.
