RELEASE

PT Announces the Creation of Asia PT and an Investment of Euro 15 million in Asia

**Lisbon, Portugal, 28 July 2005** - Portugal Telecom, SGPS, S.A. (PT), through its subsidiary PT Investimentos Internacionais, announces today that it has created a sub-holding Asia PT, which will aggregate all the businesses that PT currently manages in the Asian continent, as part of the Group's ongoing investment and streamlining of businesses.

Asia PT will manage all the subsidiaries that PT operates in the Asian continent - CTM, TV Cabo Macau, Directel Macau, Telesat and Timor Telecom - being simultaneously the vehicle for growth in this region.

PT will invest approximately Euro 10 million in the creation of China Pathway Logistics (CPL), resulting in a 66% stake in the company. CPL will be the partner of the Ministry of Transportation of the Chinese Government in the Archway Joint Venture, which will guarantee the location based services rendered in all the Chinese territory. Preliminary forecasts show that Archway, which will be 70%-owned by CPL, will have over 300 thousand customers by the end of 2008, with revenues of approximately Euro 100 million.

Additionally, PT will invest around Euro 5 million to reinforce its operations in Macau, namely to develop content business, to consolidate the Pay TV market and to identify diversification opportunities. This investment includes the subscription of unpaid capital in TV Cabo Macau, increasing PT's stakes to 87.5%.

The creation of Asia PT should result in significant operational benefits, through a more integrated management of the assets in the region, leveraging on an improved financial structure.

Asia PT is well positioned to benefit from the outstanding growth opportunity of the Asian continent. Given PT's expertise and proven know-how, PT expects that its current and future operations should be well positioned to capture a significant portion of this growth, with the partnership with the Ministry of Transportation of the Chinese Government, announced today, being a crucial element.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
