Same-store sales move up by 7.6%

São Paulo, Brazil, April 16, 2007. Companhia Brasileira de Distribuição [NYSE: CBD; BOVESPA: PCAR4 (PN)] announces its March 2007 sales performance (unaudited preliminary figures). The information presented below was calculated based on consolidated figures and in Reais, in accordance with the Brazilian Corporate Law.

The Pão de Açúcar Group's March performance reflected the results of the strategies and efforts employed to boost sales levels. The huge emphasis given to the Sales Incentive Campaign, in particular, has led to consistent growth in recent months.

March's gross sales totaled R\$1,447.0 million, 8.9% up year-on-year, while net sales stood at R\$1,225.8 million, up by 9.7% year-on-year. Same store sales grew by 7.6% in gross terms and by 8.4% in net terms compared to the same period in the previous year. All banners reported strong growth this month, especially Pão de Açúcar and CompreBem. Customer traffic has been growing since September 2006.

Food products did particularly well, climbing by 8.8%, led by groceries and perishables. Sales of non-food products rose by 3.5% despite the exceptionally strong comparative base provided by March/06, when sales increased by 17.1% year-on-year thanks to the World Cup effect.

The Group's first-quarter gross sales totaled R\$4,168.0 million, 6.2% up on the 1Q06, while net sales climbed 6.8% to R\$3,530.3 million. Gross and net same store sales moved up 4.8% and 5.6% year-on-year, respectively.

Statements included in this report regarding the Company's business prospects, the outlook for operating and financial results, and referring to the Company's growth potential are merely projections and were based on Management's expectations regarding the Company's future. Those projections are highly dependent on market changes, on the Brazilian general economic performance, on the industry and on international markets and are, therefore, subject to change.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
