**Moody's upgrades Petrobras rating**

(Rio de Janeiro, August 24, 2007). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, announces that the rating agency Moody's Investor Services has raised the foreign currency debt rating of Petrobras and PFICo from Baa2 to Baa1 with a stable outlook.

The upgrade reflects the improvement in the assessment of Brazil, whose local and foreign currency debt rating was raised from Ba2 to Ba1 and whose country ceiling was raised from Ba1 to Baa3 (investment grade), reflecting a moderate risk of default in the event of a government moratorium.

Petrobras Energia S.A.'s US\$ 300 million unsecured Series S notes also obtained an upgrade from Baa2 to Baa1.

The A2 global local currency and the Aaa.br national scale ratings remained unaltered.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
