Dear Shareholders,

The Board of Directors of Petróleo Brasileiro S.A. - PETROBRAS (Company), in fulfillment of the provision set forth in article 11 of the Instruction of the Securities and Exchange Commission of Brazil (CVM) no. 481, of December 17th, 2009, by means of this report presents the proposal of reform of the Company s Bylaws to the shareholders, as described below:

- a. increase the limit of preferred shares to two billion four hundred thousand (2,400,000,000) shares of the Company without changing the corresponding current amount of R\$60,000,000,000 (sixty billion reais), in accordance with article 40, I of the bylaws of the Company; and
- b. include a provision to set a limit for authorized capital for common shares of the Company in the amount of R\$90,000,000,000 (ninety billion reais) by the issuance of a number of common shares not exceeding three billion two hundred thousand (3,200,000,000) shares, in accordance with article 40 of the bylaws of the Company, subject to the transitory provision set forth in item (c) below and make the necessary adjustments in the cross-references throughout the Company's bylaws, in accordance with the new provisions;
- c. include a transitory provision to clarify that the authorized capital limit included in the bylaws of the Company in connection with item (b) above will be only valid for common shares issues specifically under an offering for public subscription of shares that contemplates a priority allocation in accordance with article

21 of CVM Instruction No. 400 (Instrução CVM nº 400), of December 29, 2003, and / or to grant preemptive rights to shareholders, under article 171 and 172 of Law No. 6,404, of December 15, 1976, as amended (Brazilian Corporation Law), without prejudice to item (d) below relating to the exclusion of preemptive rights or reduction of the period of exercise, provided that the offering occurs one year after the deliberation of the Extraordinary General Meeting ; and

d. change the wording of the first and second paragraphs of article 4 of the bylaws of the Company due to the change of Company authorized capital limit, as set forth above, and, therefore, allow the board of directors of the Company to approve the capital increase by common and/or preferred shares issue, excluding the existing shareholders priority rights or reducing the period set forth in article 171, paragraph 4 of the Brazilian Corporation Law.

The amendments to the bylaws proposed above aim to allow the implementation of the Offering, through the issuance of common and/or preferred shares by the Company for public subscription, specifically under an offering for public subscription of shares that contemplates a priority allocation in accordance with article 21 of CVM Instruction No. 400 (Instrução CVM nº 400), of December 29, 2003, and / or to grant preemptive rights to shareholders, under article 171 and 172 of Law No. 6,404, of December 15, 1976, as amended (Brazilian Corporation Law).

Additionally, so as to mitigate the risks linked to the volatility of the capital markets in Brazil and abroad, the amendments proposed above aim to allow the implementation of the Offering subject to a more rapid schedule, given that, with the amendments proposed, the procedures for the actual implementation of eventual capital increases within the limit of the authorized capital shall be conducted directly by the Company s Board of Directors.

In this manner, if the changes to the bylaws now proposed are approved, the Company s Board of Directors shall approve the actual capital increase with the issuance of new shares of the Company, under the terms of article 166, II of the Joint Stock Corporation Law and of the new wording of article 4 of the Company s Bylaws, aimed at the satisfactory performance of the Offering.

The amendments to the bylaws to be submitted for approval of the shareholders in the Company s Extraordinary General Meeting to be held June 22nd, 2010 are duly highlighted in the Company s Bylaws as provided in Annex I to this report.

ANNEX II

ECONOMIC EFFECTS OF THE BYLAWS AMENDMENT PROPOSAL

(Under the terms of art. 11 of CVM Instruction no. 481, of December 17th, 2009)

The extensive number of investment opportunities, including the Pre-Salt, which composes the portfolio of assets of Petrobras, and which have the potential to take the Company to a position of higher prominence among the world's oil and gas sector companies, have required high levels of investment throughout the past years. As per decision of the Board of Directors, the Management Board is authorized to give continuity to the revision of the Business Plan, taking as reference the total value to be invested in the range between USD 200 to USD 220 billion for the 2010-14 period. To support its investment program, the Company has utilized, in addition to its own cash generation, third party resources by means of debts contracted in the many markets available.

This volume of fund raising has put pressure on the indebtedness and leverage indicators, and may compromise the Company's investment grade, conceded by international rating agencies. Graphs 1 and 2, below, show the evolution of these indicators: net leverage and the relation between net debt and EBITDA.

Graph 2. Evolution of the Net Debt over EBITDA

In order to allow the execution of the Company's Business Plan, without compromising these indicators, the company intends to obtain resources through the issuance of shares.

Additionally, the Federal Government is seeking approval from the National Congress to transfer to Petrobras the right to explore and produce oil and natural gas in areas not bid on pre-salt area, up to the limit of 5 billion barrels of oil equivalent Transfer of Rights with Compensation. The additional fund necessary for the acquisition of this right would also come from the issuance of shares. The actual amount of the Transfer of Rights will be defined through negotiation between the Company and the Federal Government, supported by technical reports to be elaborated by internationally renowned independent certification entities.

Thus, with the amount raised from the issuance of shares, Petrobras would pay the Federal Government for the Transfer of Rights and would guarantee funds to finance its Business Plan.

In this manner, the increase of the authorized capital that is being requested will provide the Company with the flexibility necessary to issue shares and to contribute the financial resources necessary for the maintenance of future investments, as well as for the payment to the Federal Government for the Transfer of Rights and to follow the Board of Directors' recommendations regarding the maintenance of the indebtedness and leverage indicators.
