Petrobras acquires exploratory block in Benin, Africa

Rio de Janeiro, February 22, 2011 - Petróleo Brasileiro S.A. - Petrobras, inform that acquired 50% interest in Block 4, located off the coast of Benin - a country situated on the west coast of Africa -, from Compagnie Béninoise des Hydrocarbures (CBH), a subsidiary of Lusitania Petroleum, which maintains the remaining 50%.

Petrobras aims to find Light oil, reproducing the discoveries that took place in the African continent, aligned with the company's strategy to seek for opportunities in deep and ultra deep waters in the region where we already have operations in countries like Nigeria, Angola, Tanzania, Namibia and Libya.

The block covers an area of approximately 7.4 thousand square kilometers, at a water depth that varies from 200 to 3,000 meters, at an average distance of 60 Km from the coast.

CBH continues to be the operator of the asset; however, Petrobras has the right to take over the operation. The work commitment assumed by the company is to collect and process 2,250 Km² of 3D seismic data still this year. Once the exploratory potential of the area is confirmed, the consortium will undertake to drill three wells.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
