Extension well confirms good quality oil in lara

Rio de Janeiro, March 1st, 2011 Petróleo Brasileiro S.A. Petrobras announces that it has completed the drilling of extension exploratory well 3-BRSA-891A-RJS (3-RJS-682A) located in the lara Evaluation Plan, in the Santos Basin pre-salt. At a water depth of 2,279m, the well is approximately 230 km off the coast of Rio de Janeiro and 8 km from the exploration discovery well.

The drilling of the well confirmed the reservoir's good oil quality (28^º API) and reinforced the potential for recoverable light oil and natural gas in the deposit, which the company estimates to be between 3 to 4 billion barrels of oil equivalent. Informally known as lara Horst, the well showed better features of the reservoir than those found in the 1-BRSA-618-RJS (1-RJS-656) discovery well.

The lara Evaluation Plan is located in an area remaining of block BM-S-11, where the marketability of the giant field Cernambi and of the supergiant Lula was recently declared.

Formation tests will need to be done to assess the reservoir's productivity. The consortium operated by Petrobras (65%), in partnership with BG Group (25%) and Galp Energia (10%), will give continuity to the activities provided by the Evaluation Plan approved by the National Petroleum, Natural Gas and Biofuels Agency (ANP).

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
