REPORT OF QUARTERLY INFORMATION REVIEW

(A free translation of the original report issued in Portuguese)

To the Shareholders, Board Members and Directors of

TELEFÔNICA BRASIL S.A.

São Paulo - SP

Introduction

We have reviewed the individual and consolidated interim accounting information of **TELEFÔNICA BRASIL S.A.** and subsidiaries, contained in the ITR (Quarterly Information Form), referring to the quarter ended on March 31, 2012, which comprises the balance sheet and related statements of income, of comprehensive income, of changes in shareholders' equity and of cash flows for the three-month period then ended, including the notes thereto.

The management is responsible for the preparation of the individual interim accounting information according to CPC Technical Pronouncement CPC 21 – Interim Statement and interim consolidated accounting information according to CPC 21 and international standard IAS 34 – Interim Financial Reporting, issued by International Accounting Standards Board – IASB, as well as for the presentation of such information according to standards issued by CVM (Brazilian SEC), applicable to the preparation of Quarterly Information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with the Brazilian and international standards of review of interim information (NBC TR 2410 - Revisão de Informações Intermediárias Executada pelo Auditor da Entidade e ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of inquiries, mainly to those responsible for financial and accounting matters, and the application of analytical procedures and other review procedures.

The scope of a review is significantly less in scope than an audit and, consequently, it did not allow us to obtain assurance that we became aware of all significant matters which could be identified in an audit. Accordingly, we did not express an audit opinion.

Conclusion on individual interim information

Based on our review, we are not aware of any fact which makes us believe that the individual interim accounting information included in the aforesaid quarterly information was not prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of Quarterly Information (ITR) and presented in accordance with the Brazilian SEC (CVM) regulations.

Conclusion on consolidated interim information

Based on our review, we are not aware of any fact which makes us believe that the consolidated interim accounting information included in the aforesaid quarterly information was not prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of Quarterly Information (ITR) and presented in accordance with Brazilian SEC (CVM) regulations.

Other matters

Interim statement of value added

We have also reviewed the individual and consolidated statement of value added (SVA), referring to the three-month period ended March 31, 2012, the presentation of which in the interim information is required according to standards issued by CVM (Brazilian SEC), regulations applicable to the preparation of the Quarterly Information – ITR and considered as supplementary information by IFRS’s standards, which do not require the presentation of the SVA. These statements were submitted to the same review procedures previously described and, based on our review, we are not aware of any fact which could make us believe that they were not prepared, in all material aspects, in accordance with individual and consolidated interim accounting information taken as a whole.

Audit and review of comparative amounts of previous year

The Quarterly Information – ITR, mentioned in the first paragraph, includes accounting information corresponding to income, comprehensive income, changes in shareholders' equity, cash flows and added value of the quarter ended March 31, 2011, obtained from the Quarterly Information – ITR from that period, and those from the balance sheet of December 31, 2011, obtained from the financial statements as of December 31, 2011, presented for comparison purposes. The review of the Quarterly Information – ITR of the quarter ended March 31, 2011 and the examination of the financial statements from the period ended December 31, 2011 were conducted under the responsibility of other independent auditors, who issued review and audit reports dated May 10, 2011 and February 14, 2012, respectively, with no changes.

1. Operations and background

a) Controlling shareholders

Telefônica Brasil S.A., is headquartered at Rua Martiniano de Carvalho, 851, in the capital of the state of São Paulo, Brazil. The Company belongs to the Telefonica Group, the telecommunications industry leader in Spain which is also present in several European and Latin American countries. The Company is controlled by Telefónica S.A., which as of December 31, 2011 and March 31, 2012, held total direct and indirect interest of 73.81% of which 91.76% are common shares and 64.60% are preferred shares.

b) Operations

The Company's basic business purpose is the rendering of fixed wire telephone services in the state of São Paulo and mobile telephone services nationwide under Fixed Switch Telephone Service Concession Agreement – (STFC) and authorizations, respectively. The Company and its subsidiaries have also authorizations to provide other telecommunications services, such as data communication to the business market, broadband internet services (under the Speedy and Ajato brands), mobile telephone services (Personal Mobile Services -SMP) and pay TV services, being: (i) by satellite all over the country (Telefonica TV Digital) and (ii) using (MMDS) Multichannel Multipoint Distribution Service technology in the cities of São Paulo, Rio de Janeiro, Curitiba and Porto Alegre.

The concessions and authorizations were granted by ANATEL, which is in charge of regulating the telecommunication sector in Brazil, according to the Law No 9.472, of July 16, 1997 – General Law of

Telecommunication (“*Lei Geral das Telecomunicações*” - LGT), that was changed by Law No 9.986, of July 18, 2000 (notes 1.b.1 e 1.b.2 below).

The authorizations for use of 2.5GHz frequency associated with pay TV service by MMDS technology were extended in February 16, 2009 and remain in force until 2024.

b.1. Fixed Switch Telephone Service Concession Agreement (STFC)

The Company is the concessionaire of the STFC to render fixed telephony services in the local network and national long distance calls originated in sector 31 of region 3, which comprises the State of São Paulo (except the municipalities that form the sector 33), established in the General Concession Plan (PGO/2008).

The current Concession Agreement dated June 30, 2011, in place since July 1, 2011 awarded as an onerous title, will be valid until December 31, 2025. However, the agreement can be reviewed on December 31, 2015 and December 31, 2020. Such condition allows ANATEL to set up new requirements and goals for universalization and quality of telecommunication services, according to the conditions in place at that moment.

The Concession Agreement establishes that all assets owned by the Company which are indispensable to the provision of the services described on such agreement are considered reversible assets and are deemed to be part of the concession assets. These assets will be automatically returned to ANATEL upon expiration of the concession agreement, according to the regulation in force at that moment. On March 31, 2012, the carrying amount of reversible assets is estimated at R\$6,689,939 (R\$6,698,899 as of December 31, 2011), comprised of switching and transmission equipment and public use terminals, external network equipment, energy equipment and system and operation support equipment.

In accordance with the Concession Agreement, every two years, during the agreement's new 20-year period, public regime companies will have to pay a fee which will correspond to 2% of its prior-year SFTC

revenue, net of taxes and social contributions. In April of 2011, the Company made a payment for this concept of R\$186,852, based on the 2010 STFC net revenues.

b.2. Commitments and relatives frequencies for mobile services

The business of Vivo S.A. ("VIVO"), including the services they can provide, are also regulated by ANATEL. Its action takes place through the issue of regulations and complementary plans.

The authorizations granted by ANATEL may be renewed just once, for a 15- year period. Biannually, after the first renewal, a payment of rates equivalent to 2% (two percent) of the company's revenue for the preceding year, net of taxes and mandatory social contributions related to the application of the Basic and Alternative Plans of Service.

2. Basis of presentation of quarterly information

The consolidated quarterly information (ITR) for the three-months period ended March 31, 2012 is presented by the Company in accordance with the International Financial Reporting Standards (IFRS) issued by *International Accounting Standards Board* (IASB) and the individual and consolidated financial statements are presented in accordance with the accounting practices adopted in Brazil, which comprise the provisions of corporate legislation set forth in Law No. 6,404/76, as amended by Law no. 11,638/07 and by Law no. 11,941/09, and the accounting pronouncements issued by the Brazilian Accounting Pronouncements Board (CPC) and approved by the CVM.

Approval of the issuance of these quarterly information occurred in the Board of Directors meeting held on May 3, 2012.

These quarterly information have been prepared according to the principles, practices and accounting principles consistent with those adopted in preparing the financial statements for the fiscal year ended December 31, 2011, in addition to the new pronouncements, interpretations and amendments that entered into force on 1st January 2012, described as follows:

- Amendments to IAS 12, Income Taxes - Recovery of Underlying Assets

This amendment clarified the determination of deferred tax on investment property measured at fair value. Introduces a rebuttable presumption that the deferred tax on investment property measured at fair value model in IAS 40 should be set based on the fact that their carrying amount will be recovered through the

sale.

The Telefónica Group has chosen not to assess the investment property at fair value method in the initial adoption of International Accounting Standards, so this change does not apply.

- Changes IFRS 7, Financial Instruments: Disclosures – Increase Disclosures Related to the Low –

This amendment requires additional disclosures about financial assets that were transferred but not downloaded in order to enable the user of the information understand the relationship with those assets that have not been downloaded and their associated liabilities. In addition, the amendment requires disclosures about the continuing involvement in financial assets written off to allow the user to assess the nature of the entity's continuing involvement in those assets disposed of, as well as the associated risks.

This amendment became effective for annual periods beginning on or after July 1, 2011 and in Brazil, only after the approval of the CPC and deliberation by the CVM for public companies. Currently this amendment is in the CPC Public Hearing.

(A free translation of the original issued in Portuguese)

It is worth mentioning that the amendment in question only affects the disclosures, but does not currently apply to the Company and has no impact on their performance or financial condition.

New IFRS and Interpretations of the IFRS (International Financial Reporting Interpretations Committee - IFRIC) not yet effective at March 31, 2012.

At the date of these quarterly information the following IFRS, amendments and interpretations of the IFRIC have been issued but their application was not mandatory:

Standards and Amendments to Standards	Application required: fiscal years beginning as from
Amendments to IAS 1	<i>Presentation of items of other comprehensive income</i> July 1, 2012
IFRS 9	<i>Financial instruments</i> January 1, 2013
IFRS 10	<i>Consolidated Financial Statements</i> January 1, 2013
IFRS 11	<i>Joint Arrangements</i> January 1, 2013
IFRS 12	<i>Disclosure of Interests in Other Entities</i> January 1, 2013
IFRS 13	<i>Fair Value Measurement</i> January 1, 2013
IAS 19 revised	<i>Employee Benefits</i> January 1, 2013
IAS 27 revised	<i>Consolidated and Separate Financial Statements</i> January 1, 2013
IAS 28 revised	<i>Investments in Associates and jointly controlled companies</i> January 1, 2013
Amendments to IFRS 7	<i>Disclosure – offsetting of financial assets and financial liabilities</i> January 1, 2013
Amendments to IAS 32	January 1, 2014

*Offsetting Financial Assets and Financial
Liabilities*

The Company is currently analyzing the impact of the application of these standards, amendments and interpretations. Based on preliminary analysis made up to the present date the Company estimates that their application will not have a significant impact on the consolidated financial statements on first time adoption. Notwithstanding, changes introduced by IFRS 9 will affect the presentation of financial assets and transactions with those occurring as from January 1, 2015.

(2) fully consolidated since January 2011.

(3) Jointly controlled.

The main events and changes in the consolidation environment that, due to their significance, should be considered for analysis of the consolidated three months period ended March 31, 2012, are presented as follows:

a) Acquisition of Vivo Participações S.A. by the Company

In the Company's Extraordinary General Meeting held on April 27, 2011, was approved by unanimous vote, the Protocol of Merger of Shares and Justification signed between the Company and Vivo Part.. Each share of Vivo Part. has been exchanged by 1.55 shares of the Company. Due to this merger of shares, the Company's capital was increased by R\$ 31,222,630.

b) Grouping of SMP authorizations and incorporations of Vivo Participações S.A.

In a meeting of the Board of Directors of the subsidiary Vivo Part. held on June 14, 2011, was approved the proposal for merger of licenses to provide SMP service (previously held by Vivo Part. in the state of Minas Gerais and by Vivo in other states of Brazil), thus unifying the operations and of Authorization terms of SMP operation in Vivo.

The means proposed in making this corporate restructuring viable were the transfer, on October 1, 2011 of assets, rights and obligations related to the operation of SMP services in Minas Gerais by Vivo Part. to Vivo (mobile operator in the group that had SMP authorizations in other states of Brazil). When this grouping was completed, Vivo Part became a holding.

(A free translation of the original issued in Portuguese)

In accordance with the provisions of Law No. 6,404/76, a specialized company was engaged to prepare a valuation study for the part of Vivo Part.'s net assets corresponding to SMP operations in the state of Minas Gerais that was transferred to Vivo S.A.'s equity, as well as for the net equity of Vivo Part. that was incorporated into the Company.

Due to the fact that Vivo Part. was a whole owned subsidiary of the Company, since April 27, 2011, which net equity already included the investment of the shares in Vivo S.A., the merger: i) did not result in a capital increase for the Company; ii) there was no exchange of shares held by Vivo Part. non-controlling shareholders for Company's shares; and iii) there was no need to prepare a net equity valuation report to market price for the calculation of the exchange share ratio, as there didn't exist non-controlling shareholders to be protected.

Accordingly, under the terms of article 226, paragraphs I and II of Law No. 6,404/76, shares held by the Company in the net equity value of Vivo Part. were cancelled. On conclusion of the corporate restructuring, Vivo Part. was incorporated by the Company on October 3, 2011 and Vivo S.A. became its full subsidiary, simplifying and rationalizing the cost structure of the companies involved.

The ITRs include the Company's consolidated results of Vivo Part. (Incorporated by the Company on October 3, 2011) and Vivo results from April 1st, 2011. Vivo Participações S.A. and Vivo S.A. were included in the Company's consolidated financial statements through the full consolidation method.

c) Consolidation of TVA companies

As from June 1, 2011, the Company started to include the companies GTR Participações e Empreendimentos S.A., TVA Sul Paraná S.A., Lemontree Participações S.A. and Comercial Cabo TV São Paulo S.A. in its consolidated financial statements by applying the full consolidation method. Previously, these companies were included in the Company's consolidated financial statements through the equity method.

d) Acquisition of Lemontree Participações S.A. shares

On September 29, 2011, the Company purchased 68,533,233 common shares representing 49% of the referred class of shares of Lemontree Participações S.A., which is the holder of 80.1% of the common shares of Comercial Cabo TV São Paulo S.A., a company engaged in cable TV services in the State of São Paulo. As a consequence, the Company currently has an interest of 83% in Lemontree Participações S.A. and 93.19% in Comercial Cabo TV São Paulo S.A. This transaction was considered as a non-controlling shareholders' acquisition for the purpose of disclosure and measurement in these quarterly information.

National Development Bank – BNDES

a) In October 2007, a credit facility to the Company was approved to finance investments in services and products produced domestically. All of these resources have been drawn and their investments are proven and accepted by BNDES.

b) In August 2007 Vivo entered into a credit facility with BNDES in the amount of R\$1,530,459. The funds borrowed were used to finance investment projects in order to expand coverage and increase network capacity throughout the country. Vivo S.A. received the funding gradually and there was no remaining amount available under this credit facility on December 31, 2011. This agreement has a term of seven years, with repayment of principal in 60 consecutive monthly installments commencing September 15, 2009, after a grace period of two years.

On October 14, 2011 a credit facility totaling R\$3,031,110 was obtained from BNDES. These funds will be invested in the expansion and improvement of the current network, implementation of infrastructure necessary for new technology, in the period from 2011 to 2013, as well as in the construction of a data center in Tamboré (State of São Paulo) and in social projects.

The agreement has a term of eight years and has grace period which expires on July 15, 2014, until when only interest will be paid, on a three-month basis. After this period, interest and amortization of the principal will be paid in 60 consecutive monthly installments.

Since the interest rates applied to two of the five sub-credit lines which constitute this financing agreement are lower than those prevailing in the market (TJLP and TJLP + 1.48%), this transaction falls under the scope of IAS 20/CPC 7. As such, using the effective interest rate method set forth in IAS 39/CPC 38, considerations made are as follows: comparison between i) the total amount of debt calculated based on contractual rates; and ii) the total amount of debt calculated based on market rates (fair value). The government grant from BNDES, adjusted to present value and deferred according to the useful life of the financial asset, was R\$20,664 at March 31, 2012.

At March 31, 2012 R\$1,004,177 had been released.

c) On January 2010, a financing line with the BNDES in the amount up to R\$319,927 was approved through the Investment Maintenance Program (BNDES-PSI). The funds borrowed are being used to improve the network capacity through the acquisition of domestic equipment under previously signed equipment financing with BNDES (Finame), and released as investments are made. Until March 31, 2012 R\$184,489 were granted.

Since the interest rate on this credit line is lower than the rates prevailing in the market (4.5% to 5.5% pre-fixed), this transaction falls into IAS 20/CPC 7. Accordingly, using the effective interest method set forth in IAS 39/CPC 38, considerations made are as follows: comparison between i) the total amount of debt calculated based on contractual rates; and ii) the total amount of debt calculated based on market rates (fair value). The government grant from BNDES, adjusted to present value and deferred according to the useful life of the financed equipment, resulted in the amount of R\$27,742 until March 31, 2012.

With the merger process mentioned in note 2.1.b, Vivo answers for the loan agreements which belonged to the former Vivo Part. (R\$23,899 at March 31, 2012 and R\$24,848 at December 31, 2011).

d) In November 2010 and March 2011 BNDES approved credit facilities for Comercial Cabo TV São Paulo S.A. in the amount of R\$40,163. Until March 31, 2012 R\$31,649 were released (R\$24,237 at December 31, 2011). This operation also falls under the scope of IAS 20/CPC 7, due to the fact that interest rates are lower than market rates (5.5% per year pre-fixed), and the subsidy granted by BNDES, adjusted to present value, resulted in the amount of R\$2,957 as of March 31, 2012.

Médiocrédito

Loan agreed in 1993 between Telecomunicações Brasileiras S.A. – Telebrás and Instituto Centrale per il Credito a Médio Termine – Mediocredito Centrale in the amount of US\$45,546, in order to build a rural telephony via satellite network in the State of Mato Grosso. This loan is paid semiannually and matures in 2014. There is a derivative contracted to hedge the exchange rate currency risks related to such debt and, given it is assessed as an effective hedge, the hedge accounting methodology has been adopted. Therefore, at March 31, 2012, the derivative associated to this instrument was recognized at its fair value as of such date.

European Investment Bank – EIB

Vivo signed an agreement with EIB for a credit facility in the amount of €250 million (equivalent to US\$365 million). The funding was received in two portions: the first on December 19, 2007 and the second on February 28, 2008. The agreement has a term of seven years, with repayment of principal in two installments falling on December 19, 2014 and March 2, 2015. Interest on this financing is paid semiannually according to the date of credit release. This financing is secured with a swap agreement that converts the foreign exchange risk into a percentage of CDI (interbank deposit rate) variation.

Banco do Nordeste – BNB

On January 29, 2007, Vivo S.A. entered into a credit facility with BNB in the amount of R\$247,240. The funds borrowed were used to expand coverage and increase mobile network capacity in the Northeastern region of Brazil. The agreement has a term of ten years, with repayment of principal in 96 installments after a grace period of 2 years.

On January 30, 2008, Vivo S.A. entered into a credit facility with BNB in the amount of R\$389,000. The funds borrowed were used to expand coverage and increase mobile network capacity in the Northeastern region of Brazil. The agreement has a term of ten years, with repayment of principal in 96 installments after a grace period of 2 years.

Capital raised by Vivo Part.*2nd Issuance*

Consolidated

In connection with the First Securities Distribution Program in the amount of R\$2 billion announced on August 20, 2004, the subsidiary Vivo Part. issued debentures related to the 2nd issuance of the Company, in the amount of R\$1 billion, on May 01, 2005, with a term of ten years, starting from the issuance date on May 01, 2005.

—

Debentures were issued in two series: R\$200 million in the first serie and R\$800 million in the second serie with a final maturity on May 4, 2015. The first serie was early redeemed on January 31, 2011, and the second serie pay interest semiannually, after rescheduling, at a rate of 106.0% (second serie) of accumulated daily averages rates of interbank deposits (DI) calculated and published by CETIP S.A. (Clearing House for the Custody and Financial Settlement of Securities).

On July 29, 2011, the General Debenture holder Meeting resolved on the approval of transfer of debentures of the 2nd Public Distribution issued by Vivo Part. for Telefônica Brasil without changing the top terms and conditions, and the correspondent amendment of the deed in order to reflect the change in the issuer's ownership.

1st Serie

On January 31, 2011 there was an advanced and full redemption of the 1st serie of the second issuance of Vivo Part., totaling 20,000 book-entry, non-convertible, unsecured debentures, with par value of R\$10 (ten thousand reais), totaling R\$200 million, which characteristics were approved at the Company's Board of Directors held on April 25, 2005 and May 13, 2005 and the first rescheduling on March 30, 2009.

The redemption was made at unit nominal value of debentures, on the issue date, plus: (i) the due remuneration up to the payment date of redeemed debentures and the (ii) percentage award calculated over the unit nominal value of debentures ("award"), equivalent to R\$4.41 (four reais and forty-one cents), by debenture, in accordance with clause 4.13 of the private instrument of deed of the 2nd issue of non-convertible shares.

2nd Serie

At the meetings held on April 25, 2005 and May 13, 2005, the Board of Directors of Vivo Part. approved the characteristics of the 2nd series of the 2nd issuance of debentures of the Company.

The 2nd series debentures of the 2nd issuance of the company were rescheduled on May 3, 2010, according to the conditions approved at the Board of Directors' meeting held on May 29, 2010. The total rescheduled amount was R\$340,230 and the company redeemed and cancelled debentures of dissenting debenture holders in the amount of R\$459,770. The new interest accrual period is 24 months from May 1, 2010, during which time the interest accrual conditions established herein shall remain unchanged. During

this second interest accrual period (until May 1, 2012), the Company's debentures shall carry an interest rate of 106.0% of the average rate of one-day interbank deposit (DI), calculated according to the formula stated in clause 4.9 of the "2nd Issuance Indenture". The interest payments of the debentures will be held on May 2, 2012.

4th Issuance

On September 04, 2009, the Board of Directors of Vivo Part. approved the 4th public issuance, by the company, of simple, unsecured debentures not convertible into stock, all of them registered and of book-entry type, issued in up to three series, with term of 10 years.

The total amount of the issuance was R\$810 million, of which the basic offering corresponds to R\$600 million, added by R\$210 million due to the full exercise of the additional debentures option.

A total of eight hundred and ten thousand (810,000) debentures were issued in three (3) series, being 98,000 debentures in the 1st series, 640,000 in the 2nd series and 72,000 in the 3rd series. The amount of debentures allocated to each of the series was decided in mutual agreement between the Vivo Part. and the Leader Arranger of the Offering, after the conclusion of the Bookbuilding procedure.

The remuneration for the 1st series is 108.00% of CDI, for the 2nd series is 112.00% of CDI and to the 3rd series, coupon of 7.00% per year (on face value updated by the Extended Consumer Price Index - IPCA variation). These debentures accrue interest payable on a semiannual basis in the 1st and 2nd series and annual basis in the 3rd series.

Rescheduling of each series is provided for as follows: 1st series, on October 15, 2012, 2nd series, on October 15, 2013, and 3rd series, on October 15, 2014.

The proceeds raised as from the issue of the offering were used for full payment of the debt relating to the 6th issue of commercial promissory notes of the company and to supplement of the working capital of the company.

The transaction costs in connection with this issuance in the amount of R\$1,685 at March 31, 2012 were appropriated to a liabilities reduction account as deferred cost and are recorded as financial expenses, pursuant to the contractual terms of this issue. The actual rate of this issue, considering the transaction costs is 112.13% of the CDI.

The General Debenture-holder Meeting held on July 29, 2011 resolved on the transfer approval of the 4th Public Distribution of debentures issued by Vivo Part. to Telefônica Brasil without changes of terms and conditions, and of the correspondent amendment of the Deed in order to reflect the change in the issuer's ownership.

Funding by Telemig Celular (company incorporated by Vivo Part. at June 1, 2010).

1st Issuance

In compliance with the Contract for Provision of SMP Services, in conformity with the Public Selection No 001/07, the State of Minas Gerais, acting through the State Department for Economic Development, has undertaken to subscribe debentures issued by Telemig (company merged at June 1, 2010), within the scope of the “*Minas Comunica*” Program, using proceeds from the Fund for Universalization of Access to Telecommunications Services (*Fundo de Universalização do Acesso a Serviços de Telecomunicações*) – FUNDOMIC. Under the terms of this Program, Telemig Celular would make the SMP service available to 134 locations in the areas recorded as 34, 35 and 38.

Also according to the program, 5,550 simple, unsecured, nonconvertible, registered, book-entry type debentures would be issued, without stock certificates being issued, in up to five series.

In consideration for the certification by the State Department of Economic Development of the service to be provided to 15 locations, 621 debentures were issued in the 1st series of the 1st issuance, amounting to R\$6,210 in December 2007. In March 2008, for the service at 42 locations, 1,739 debentures were issued in the 2nd series of the 1st issuance, valued at R\$17,390. At December 31, 2008, for the service at 77 locations, 3,190 debentures were issued in the 3rd series of the 1st issuance, valued at R\$31,900 thus completing the program for providing service to 134 locations inside the state of Minas Gerais.

Provisions and labor contingencies refer to labor claims filed by former's employees and employees at outsourced companies (the later alleging joint or subsidiary liability) claiming for, among others, overtime, wage equivalence, post-retirement salary supplements, job hazard premium, additional for unhealthy work conditions and claims related to outsourcing services.

The Company is also defendant in labor claims filed by retired former employees regarding the Medical Care Plan for Retired Employees (PAMA), which require, among other issues, the annulment of the change occurred in such plan. The claims await the decision by the Regional Labor Court of São Paulo. Based on the opinion of its legal advisors and the current jurisdictional benefits, Company management considers this claim as a possible risk. No amount has been assigned for these claims, since in the case of loss, estimating the corresponding amount payable by the Company is not practicable at this time.

Additionally, the Company is part to public civil actions filed by the Department of Labor, in respect of the decision to restrain the Company to continue hiring outsourced companies to carry out the Company's main activities. No amounts were assigned to the possible likelihood of an unfavourable outcome related to these public civil actions in the table above, since in these phases, in the event of loss, it is not possible to estimate the monetary loss for the Company.

Several reports of debit entry drawn up by ANATEL in the administrative order to set the tax credit related to interconnection EILD and other revenues that are not derived from the provision of telecommunications services.

On March 31, 2012, the total amount involved was R\$1,701,853 (Company R\$674,617).

According to the Management and its legal advisors' opinion, the chances of success in these processes are possible.

FUNTTTEL – Telecommunications Technological Development

On March 31, 2012, the Company and its subsidiaries held administrative and judicial proceedings, totaling R\$582,626 (Company R\$182,816), which are awaiting trial for 1st administrative level and 2nd judicial level.

Such proceedings concern the collection of contributions to FUNTTTEL on other revenues (not related to telecom services), as well as on income and expenses transferred to other operators (interconnection).

According to the Management and its legal advisors' opinion, the chances of success in these processes are possible.

Telecommunication Inspection Fund (FISTEL)

Due to the extension of the effective term of licenses for using telephony switches related to the exploitation of STFC (fixed line operators) and the extension of the effectiveness of right to use radiofrequency associated with the operation of personal mobile service (Mobile Operators), ANATEL performs the collection of the Installation Inspection Charge (TFI).

This collection derives from the understanding of ANATEL that the extension would represent a taxable event of TFI. Based on the understanding it corresponds to an undue collection, the Company and its subsidiaries separately challenged the aforesaid tax in the administrative and judicial levels. The total amount involved R\$1,498,102 (Company R\$203,952 with a full deposit).

According to the Management and its legal advisors' opinion, the chances of losses in these processes are possible.

Vivo, along with other Brazilian mobile operators, are challenging in court the rate charged by ANATEL for the use by the operators of the Numbering Resources managed by the agency. At the time of collections by ANATEL, Vivo made an escrow deposit of the amounts owed. On April 23, 2009, the operators received a favorable judgment and the lawsuit is presently in progress at the Federal Regional Court. The amount involved as of March 31, 2012 was R\$2,010.

According to the Management and its legal advisors' opinion, the chances of losses in these processes are possible.

EBC Contribution to Public Broadcasting Investment - EBC

On May 26, 2009, Sinditelebrasil - Trade Union for Telephony and Mobile and Personal Service Companies, filed a Writ of Mandamus challenging the new contribution to the *Empresa Brasil de Comunicação* - EBC, created by Law No. 11,652/08. No preliminary Order was issued, and the companies affiliated to said trade union, obtained legal authorization to make an escrow deposit of the amount under discussion.

At March 31, 2012, the amount of the claim totaled R\$433, with a full deposit.

b) The Company and its subsidiaries are defendants in several civil claims, at several levels, related to service rendering. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Ministry. They are also defendants in other claims of several types, related to the normal course of business. Total provision recorded for such issues amounts to R\$332,200 (consolidated) and R\$171,750 (Company).

Massive Claims

Consumption relationship

The Company is also involved in several lawsuits filed by individual consumers, with similar characteristics, which individually are not considered to be material. A provision in the amount of R\$82,737 was recorded, based on statistical analysis of the average historical losses for such claims.

ANATEL

At March 31, 2012, the Company and its subsidiaries were involved in several administrative proceedings against Anatel, which were filed based on alleged non-compliance with the obligations established in industry regulations, as well as in legal claims discussing sanctions by Anatel at administrative level, whose likelihood of an unfavorable outcome was assessed as probable, and a provision was recorded in the amount of R\$248,908 (Company R\$224,215), being R\$189,286 related to the provision for administrative claims and R\$34,929 related to the provision for administrative claims at the judicial stage).

Possible contingencies

Main contingencies

a) Community Telephone Plan – PCT. Refers to a Public Civil Action to which the Company is party related to the PCT, a plan that claims the possible indemnity rights to purchasers of telephone line expansion plans who did not receive shares for their financial investment in the municipality of Mogi das Cruzes. The total amount involved is approximately R\$206,746. Legal counsel assessed chances of loss as possible; São Paulo Court of Justice (TJSP) has amended the decision, judging the action as inadmissible. The telephony association of Mogi das Cruzes (plaintiff) filed a special appeal to alter this judgment, which is currently awaiting a decision.

b) Class actions filed by SISTEL Participants Association in the State of São Paulo, in which participants question the changes made to the health care plan for retired employees (PAMA), claiming the re-establishment of previous “status quo”. The claim is still in process as there is no judicial decision in any instance. The risk of loss attributed to this lawsuit by the Company’s legal counsels is possible. The amount is inestimable and the requests illiquid due to its unenforceability, since they involve the return of the conditions regarding the former plan.

c) Public civil actions filed by the i) ASTEL-SISTEL Members Association in the State of Sao Paulo and by ii) FENAPAS - National Federation of Associations of Pensioners, Pensioners and Pension Funds Participants in the Telecommunication Sector, both against SISTEL, the Company and other operators, aiming the annulment of PBS pension plan split, claiming “the dismantling of SISTEL Foundation pension system, which originated several specific plans PBS-mirrors, and corresponding allocation of resources deriving from technical surplus and tax contingencies existing at the time of the split. The risk attributed to this lawsuit by the Company’s legal counsels is possible. The amount is inestimable and the requests illiquid due to its unenforceability, since it involves the assets spun-off from SISTEL referring to the telecommunication operators of the former Telebrás System.

d) The Public Prosecutor Office of the State of São Paulo commenced a class action claiming moral and property damages suffered by all consumers of telecommunications services from 2004 to 2009 due to the bad quality of services and failures of the communications system. The public Prosecutor Office suggested that the indemnification to be paid should be R\$1 billion. The decision handed down on April 20, 2010 imposes the payment of indemnification for damages caused to all consumers who have filed a suit for such damages. Conversely, in the event that the number of consumers claiming should the award is not in line with the gravity of their damages, after the lapsing of one year, the judge determined that the amount of R\$60 million should be deposited in the Special Expenses Fund to Recover Natural Rights Damages (*Fundo Especial de Despesa de Reparação de Interesses Difusos Lesados*). It is not possible to estimate the number of consumers who will individually file suits nor the amounts claimed thereby. The Company filed an appeal on the merits of the case. The judgment effects are in abeyance. No amount has been assigned to the possible likelihood of an unfavorable outcome in connection with this action, since in the case of loss, estimating the corresponding amount payable by the Company is not practicable at this time. Likewise, establishing a provision for contingency equivalent to the amount sought is not possible.

e) The Company and its subsidiaries are involved in other civil claims, at several levels, related to service rendering. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Ministry. They are also involved in other claims of several types, related to the normal course of business. Total contingency amounts to R\$955,335 (Consolidated) and R\$391,368 (Company), whose likelihood of an unfavorable outcome has been assessed by their legal advisors as possible.

f) The Company and its subsidiaries have received fines regarding the noncompliance of "Decreto do SAC". We currently have several actions (administrative and judicial proceedings), whose likelihood of an unfavorable outcome has been assessed by legal advisors as possible and the total amount of R\$11,650 consolidated and R\$3,192 company.

g) Intellectual Property: Lune Special Projects Telecommunication Trade and Ind. Ltda, a Brazilian company, proposed the lawsuit on November 20, 2001 against 23 operators of mobile telecommunications service claiming to be possessed of the patent for caller ID, and they hold a trademark "Bina". The actions is in order to interruption of that service by carriers and compensation equivalent to the amount paid by consumers for using the service.

There were unfavorable judgment to determine that Vivo refrain from selling mobile phones with Caller ID service (Bina), with a daily fine of R\$10,000 in case of noncompliance. Furthermore, the sentence condemns Vivo to pay compensation for royalties to be calculated in settlement of the judgment. Embargoes Declaration were opposed by all parties and the motion for clarification of Lune in order to understand the assessment of appropriate injunctive relief stage in the procedure. The company will appeals against reasonable in light of this decision. The likelihood of an unfavorable outcome has been assessed by externallegal advisors as possible. There is no way to determine the extent of potential

liabilities with respect to this order.

h) Validity prepaid plan. Vivo, in conjunction with other wireless telecommunications carriers, are defendants in several lawsuits filed by prosecutors and consumer associations to contest the imposition of terms for use of prepaid minutes. The plaintiffs allege that the prepaid minutes must not expire after specific period. Conflicting decisions were handed down by courts on the matter. Although we believe that our criteria for the imposition of the deadline to comply with the standards of ANATEL, the likelihood of an unfavorable outcome has been assessed by their legal advisors as possible, except for collective action against Telemig, for which the probability of an unfavorable outcome in relation to this claim is considered remote, also based on the opinion of our legal advisors.

ANATEL

i) At March 31, 2012, the Company and its subsidiaries are involved in administrative proceedings filed based on alleged non-compliance with the obligations established in industry regulations, as well as legal claims which discuss the sanctions by Anatel at administrative level, rating the risk of loss as possible for R\$985,211 being R\$984,267 regarding the rating of administrative proceedings and R\$944 regarding the assessment of legal claims). In this value, we compute the amount of R\$84,868, an estimated value for PADO which is about systemic disruptions received by the Company in March 2012.

Regulatory proceedings:

a) Administrative proceedings discussing payment of 2% charge on revenue from interconnection services due to the extension of right of use of SMP related radio frequencies:

Under clause 1.7 of the Authorization Terms that grant right of use of SMP related radio frequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years), of a 2% charge calculated on net revenue from the basic and alternative service plans of the service company, determined in the year before that of payment.

However, ANATEL determined that the 2% charge should be calculated on revenue from service plans as well as revenue from interconnection services, which is not provided for by clause 1.7 of the referred to Authorization Terms.

For considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, Vivo filed administrative proceedings contesting these charges, based on ANATEL's position.

According to its legal advisors' opinion, chances of success in these processes are possible.

b) Administrative Proceeding No. 08012.008501/2007-91

It is a proceeding filed in the ambit of the Brazilian System Defending Competition (“SBDC”) by Global Village Telecom Ltda (“GVT”), Intelig Telecomunicações Ltda, (“Intelig”), Transit do Brasil Ltda, and Easytone Telecomunicações Ltda, on August 6, 2007 against Claro S.A. (“Claro”), Tim

Brasil Serviços e Telecomunicações S.A. (“TIM”), TNL SCS S.A. (“Oi”) and Vivo, for supposed trust and price squeeze practices, with the objective of increasing VU-M tariff, thus increasing the costs of competitors. Due to the proceeding filed on August 21, 2008, the Economic Right Department (“SDE”) started an administrative proceeding against the defendants in order to evaluate whether the practices adopted would fit into (i) items I, III and IV, article 20 and items V, article 21 and (ii) items I, III and IV, article 20 and items I and V, all of Law No. 8,884/94, to wit trust and price squeeze.

On March 25, 2010, SDE issued a Technical Note which: (i) dismissed the accusation of trust against all the defendants, recommending filing of such accusation, (ii) suggested excluding Oi from the group of defendants in the investigation of price squeeze for considering that its economic group would be responsible for paying VU-M and for not existing evidence of recurrent practices of prices below VU-M; (iii) recommended condemning Vivo, TIM and Claro, based on article 20, items I, III and IV, and article 21, item V, all of Law No. 8,884/94, for the increase in costs of competitors (price squeeze).

The proceeding is pending judgment by Administrative Council for Economic Defense “CADE”.

The Company’s legal advisors consider that Administrative Proceeding No. 08012.008501/2007-91 involves possible unfavorable outcome, therefore no related provision has been set up. If CADE hands down a proceeding against defendants only for price squeeze, fines imposed for similar cases have ranged from 1% to 2% of annual gross billing. However, in the remote case that CADE accepts the hypothesis of trust, initially dismissed by SDE, fines

have ranged from 20% to 30% of the defendant's gross billing for the year before that in which the proceeding was filed (in the case of Vivo: 2007), excluding taxes, but the entity's trust leading position and practice recurrent adoption may be considered aggravating elements.

According to its bylaws, the Company is authorized to increase its capital up to the limit of 1,350,000,000 (one billion three hundred and fifty million) shares, common or preferred. The capital increase and consequent issue of new shares are to be approved by the Board of Directors, with observance of the authorized capital limit.

However, Brazilian Corporation Law – Law No. 6,404/76; article 166; IV establishes that capital may be increased through a general shareholders' meeting resolution held to decide about charter amendment, if statutory share capital limit has been reached.

Capital increases do not necessarily have to observe the proportion between the numbers of shares of each type. However, the number of preferred shares, nonvoting or with restricted voting, must not exceed 2/3 of the total shares issued.

For other employees of the Company and its subsidiaries, there is an individual defined contribution plans - Visão Telesp Benefit Plan and for Vivo there is an individual defined contribution plan Vivo Prev Plan, both of them being administrated by Visão Prev complementary providence company. The others Plans are funded by contributions made by the participants (employees) and by the sponsors which are credited to participants' individual accounts. Telefônica Brasil and its subsidiaries are responsible for bearing all administrative plans and maintenance expenses, including participant's death and disability risks. The contributions to those plans are equal to those of the employees, varying from 2% to 9% of the contribution salary for those participants from Telefônica Brasil and from 2% to 8% of the contribution salary for those participants from Vivo based on the percentage chosen by the participant.

Additionally, the Company supplements the retirement benefits of certain employees of the former CTB - Companhia Telefônica Brasileira.

All revenues and expenses relating to defined benefit plans and benefit plans hybrids, such as employer contributions, the current service costs, interest costs and expected return on plan assets are recognized directly in the operating results of the Company and its subsidiaries.

Gains and losses relating to defined benefit plans and benefit plans hybrids, beyond the limitations of the recoverability of surpluses for refunds or reductions in future contributions, are recognized immediately in equity, resulting in no impact on the Company's operating and its subsidiaries.

35. Financial instruments

The Company and its subsidiaries made a valuation of their financial assets and liabilities in relation to market values based on available information and appropriate valuation methodologies. However, the interpretation of market information, as well as the selection of methodologies, requires considerable judgment and reasonable estimates in order to produce adequate realizable values. As a result, the estimates presented do not necessarily indicate the amounts which may be realized in the current market. The use of different market approaches and/or methodologies may have a significant effect on the estimated realizable values.

Other investments		30,579	28,580
Total		40,625	37,696

Fair value hierarchy

The Company and its subsidiaries use the following hierarchy in order to calculate and disclosure the fair value of financial instruments through the valuation technique:

Level 1: quoted prices (without adjustments) on the active markets for identical assets and liabilities;

Level 2: other techniques to which all data with material effect on the fair value recorded are directly or indirectly observable;

Level 3: techniques using data with relevant effect on the fair value recorded which are not based on data that can be observed on the market.

For the three months period ended March 31, 2012 no transfers of assessments of fair value between level 1 and level 2 nor level 3 and level 2 were made. The Company and its subsidiaries do not have financial instruments with fair value level 3 assessments.

As authorized by CPC 37, the Company and its subsidiaries did not disclose comparative information on hierarchy of fair value and liquidity disclosures.

Capital management

The purpose of the Company and its subsidiaries' Capital management is to ensure that a solid credit rating is sustained before the institutions, as well as an optimum capital relationship, in order to support the Company's businesses and maximize the value to its shareholders.

The Company and its subsidiaries manage their capital structure by making adjustments and fitting into current economy conditions. For this purpose, the Company and its subsidiaries may pay dividends, raise new loans, issue promissory notes and contract derivative operations. For the three months period ended March 31, 2012, there were no changes in the Company's objectives, policies or capital structure processes.

The Company and its subsidiaries include in its net debt structure: loans, financing, derivative operations, less cash and cash equivalents.

Risk management policy

The Company and its subsidiaries are exposed to several market risks as a result of its commercial operations, debts obtained to finance its activities and debt-related financial instruments.

The principal market risk factors that affect the business of the Company and its subsidiaries are detailed below:

a) *Exchange rate risk*

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the financial expenses of loans denominated in foreign currency.

For the three months period ended March 31, 2012, 20.0% (19.32% as of December 31, 2011) of the financial debt was denominated in foreign currency. The Company and its subsidiaries has entered into derivative transactions (exchange rate hedge) with financial institutions to protect itself against exchange rate variation on its gross debt in foreign currency (R\$1,181,493 at March 31, 2012 and R\$1,004,207 at December 31, 2011).

In view of this, as of March 31, 2012 and December 31, 2011 the entirety of the debt was covered by asset positions on currency hedge transactions (swap for CDI).

There is also the exchange rate risk related to non-financial assets and liabilities in foreign currency, which can lead to a lower amount receivable or higher amount payable, depending on exchange rate variation in the period.

As from May 2010, hedge operations were contracted to minimize the exchange rate risk related to these non-financial assets and liabilities in foreign currency. This balance is subject to daily changes due to business dynamics, however, the Company aims to cover the net balance of these rights and obligations (US\$14,079 and €35,702 payable at March 31, 2012) to minimize the related foreign exchange risk.

b) Interest rate and inflation risk

This risk arises from the possibility of the Company and its subsidiaries incurring losses to of an unfavorable change in internal interest rates, which may negatively affect financial expenses connected with part of debentures link with CDI and liability positions (exchange rate hedge and IPCA) contracted at floating interest rates (CDI).

The debt taken out from BNDES bank is indexed by the TJLP (Long Term Interest Rate quarterly set by the National Monetary Council), which was kept at 6.0% per annum since July 2009.

The risk of inflation arises from the debentures of Telemig (merged into Vivo Part. on June 1, 2010), indexed by the IPCA, which may adversely affect our financial expenses in the event of an unfavorable change in this index.

To reduce its exposition to CDI, the Company and its subsidiaries invest cash surplus of R\$3,147,326 (R\$2,862,938 at December 31, 2011), mainly in short-term financial investments (Bank Deposit Certificates) based on CDI variation. The book value of these instruments approximates market, since they are redeemable within a short term.

As of March 31, 2012, the Company and its subsidiary Vivo had financing agreements in force, containing restrictive clauses (covenants), typically applicable to such agreements, relating to cash generation, debt ratios and other restrictions. These covenants – which should be calculated semi-annually and annually could otherwise demand payment of liabilities at an earlier time – have been fully performed by the

Company and its subsidiary Vivo, and all economic and financial indexes contractually provided have been achieved.

The 1st and 4th issuance of debentures of Vivo Part., taken by the Company on August 19 and September 28, 2011, respectively, have economic and financial indexes that must be determined quarterly, as well as covenants in connection with judicial and out-of-court applications for company economic recovery, liquidation, dissolution, insolvency, voluntary bankruptcy application or adjudication of bankruptcy, payment failure and failure to comply with non-fiduciary obligations. At said date, all financial and economic indices were attained and all these covenants were met.

c) Liquidity risk

Liquidity risk derives from the possibility that the Company and its subsidiary do not have sufficient resources to meet their commitments according to the different currencies and terms of execution/settlement of their rights and obligations.

The Company and its subsidiary structure the maturity dates of the non-derivative financial agreements, as shown in note 17, and their respective derivatives as shown in the payments schedule disclosed in the referred note, in such manner as not to affect its liquidity.

The control of the Company's and its subsidiary's liquidity and cash flow is monitored daily by Management, in such way as to ensure that the operating cash generation and the available lines of credit, as necessary, are sufficient to meet its schedule of commitments, not generating liquidity risks.

d) Credit risk

This risk arises from the possibility that the Company and its subsidiaries may incur losses due to the difficulty in receiving amounts billed to its customers and sales of handsets and pre-activated pre-paid cards to the distributor's network.

The credit risk on accounts receivable is dispersed and minimized by a strict control of the customer base. The Company and its subsidiaries constantly monitor the level of accounts receivable of post-paid plans and limit the risk of past-due accounts, interrupting access to telephone lines for past due bills. In the mobile services the customer base is predominantly, a prepaid system, which requires the prior charging and consequently entails no credit risk. Exceptions are made for telecommunication services that must be maintained for security or national defense reasons.

The credit risk in the sale of handsets and “pre-activated” prepaid cards is managed under a conservative credit policy, by means of modern management methods, including the application of “credit scoring” techniques, analysis of financial statements and information, and consultation to commercial data bases, in addition to request of guarantees.

As of March 31, 2012, the Company’s customer portfolio had no subscribers whose receivables were individually higher than 1% of the total accounts receivable from services.

The Company and its subsidiaries are also subject to credit risk arising from short-term investments, letters of guarantee received as collateral in connection with certain operations and receivables from swap transactions. The Company and its subsidiaries controls the credit limit granted to all counterparties and diversifies such exposure among top-rated financial institutions, according to credit policy of financial counter-parties in force.

Derivatives and Risk Management Policy

All the Company and its subsidiaries derivative instruments have the objective of providing a hedge against the risk of variation in exchange rates arising from assets and liabilities in foreign currency and against inflation risk from its debenture indexed to IPCA (inflation rate) with shorter term. As such, any changes in risk factors generate an opposite effect on the hedged end. There are no derivative instruments for speculative purposes and liabilities in foreign exchange are hedged.

The Company and its subsidiaries have internal controls over its derivative instruments, which, according to management, are adequate to control the risks associated with each market strategy. The Company's results derived from its derivative financial instruments indicate that the risks have been adequately managed.

The Company and its subsidiaries determine the effectiveness of the derivative instruments entered into to hedge its financial liabilities upon origination and on an ongoing basis (quarterly). As of March 31, 2012, the derivative instruments taken were effective for the debts for which they are intended to provide coverage. Provided these derivatives contracts qualify as hedge accounting, the debt hedge may also be adjusted at fair value as per the rules applicable to fair value hedge. According to cash flow *hedge accounting*, the effective portion of fair value variations of derivatives designated for these hedges is recognized directly in equity. As of December 31, 2011, subsidiary Vivo had an foreign exchange swap of US\$102,573 designated as cash flow *hedge*, whose fair value accumulated variation, recognized in equity, was R\$5,703.

The Company and its subsidiaries entered into swap contracts in foreign currency at different exchange rates hedging their assets and liabilities in foreign currency.

At October 15, 2009, a swap was contracted by Vivo Part., which was indexed to the IPCA (as for assets), and to the CDI (as for liabilities), in order to cover the exposure of the cash flows of the 3rd serie of 4th issuance of debentures to the variation of the IPCA rate. Upon being contracted, this swap was recognized as a fair value hedge.

As of March 31, 2012, the Company and its subsidiaries had not had any embedded derivatives agreements.

Fair value of derivative financial instruments

The discounted cash flow method was used to determine the fair value of finance liabilities (when applicable) and derivative instruments considering expected settlement of liabilities or realization of assets and liabilities at the market rates prevailing at balance sheet date.

Fair values are calculated by projecting future operating flows, using BM&FBovespa curves, and discounting to present value through market DI rates for swaps, as informed by BM&FBovespa.

The market values of exchange rate derivatives were obtained through market currency rates in force at the balance sheet date and projected market rates were obtained from currency coupon curves. The coupon for positions indexed to foreign currencies was determined using the 360-calendar-day straight-line convention; the coupon for positions indexed to CDI was determined using the 252-workday exponential convention.

The consolidated derivative financial instruments shown below are registered with CETIP. All of them are classified as swaps and do not require margin deposits.

As of March 31, 2012, the Company and its subsidiaries registered R\$197,757 as assets and R\$104,872 as liabilities in order to recognize the derivatives position in that date.

Sensitivity analysis of the Company's risk variables

CVM Deliberation 604/09 requires listed companies to disclose, in addition to the provisions of Technical Pronouncement CPC No. 40 - Financial Instruments: Disclosure (equivalent to IFRS 7), a table showing the sensitivity analysis of each type of market risk inherent in financial instruments considered relevant by management and to which the Company is exposed at the closing date of each reporting period, including all operations involving derivative financial instruments.

In compliance with the foregoing, all the operations involving derivative financial instruments were evaluated considering a probable scenario and two scenarios that may adversely impact the Company.

The assumption taken into consideration under the probable scenario was to keep, the maturity date of each transaction, what has been signaled by the market through BM&FBovespa market curves (currencies and interest rates). Accordingly, the probable scenario does not provide for any impact on the fair value of the derivative financial instruments mentioned above. For scenarios II and III, risk variables contemplated 25% and 50% deterioration, respectively, pursuant to the applicable CVM instruction.

Considering that the Company and Vivo has derivative instruments only to cover its assets and liabilities in foreign currency, the changes in scenarios are offset by changes in the related hedged items, thus indicating that the effects are practically null. For these operations, the Company reported the value of the

hedged item and of the derivative financial instrument on separate rows in the sensitivity analysis table in order to provide information on the Company's and Consolidated net exposure for each of the three mentioned scenarios, as shown below:

To determine the net exposure of the sensibility analysis, all derivatives were considered at market value and only (hedged elements) classified under the accounting method were also considered at fair value.

The fair values shown in the table above are based on the status of the portfolio as of March 31, 2012, not reflecting an estimated realization in view of the market dynamics, always monitored by the Company. The use of different assumptions may significantly impact estimates.

Net Operating Revenues

Note: In order to better reflect the performance of the integrated company, revenues are presented after intercompany. Additionally, the Mobile Net Revenue considers the allocation of long distance revenue according to origin.

Net service revenues in the quarter recorded an accelerated growth of 12.8% y-o-y, driven by the increased data and internet services consumption, even though affected by the regulatory impacts of the MTR reduction.

Net Service Revenues

(yoy)

Access and usage revenues increased by 11.9% over 2011, driven by the great adoption to the “Vivo Sempre” and “Vivo Ilimitado” offers and to the strong growth in the customer base.

Network usage (interconnection) revenues decreased by 5.0% in comparison with the 1Q11 and by 8.3% q-o-q, due to the reduction in the MTR starting from February, in addition to the lower inbound traffic of other operators.

Data and VAS (Value Added Services) revenues continued to record a strong growth of 33.9% over 1Q11, driven by the growth of SMS services and customer growth with data plans and packages. Accesses with data plans or packages increased by 126% y-o-y.

Data and VAS revenues accounted for 26.8% of mobile net service revenues in the quarter, 4.2 p.p. up on the same period last year. Considering outgoing revenue only, data and VAS would represent 33.3% in the first quarter of 2012.

SMS revenues increased by 39.1% y-o-y, maintaining the growth achieved in previous quarters, driven by the growth in the prepaid customer base and increased adoption of SMS packages in our postpaid unlimited plans.

Mobile internet revenues increased by 24.7% in comparison with 1Q11 and 2.8% in relation to 4Q11, accounting for 50.3% of total data revenues in the quarter, driven by the increase in sales of modems and smartphones with data plans and packages.

Other Data and VAS Revenues increased by 59.1% over 1Q11, primarily due to the performance of interactive services based on SMS (P2A) and download of apps and contents, beyond the growth in innovative services such as financial and e-health.

The annual decrease of 40.3% of net handset revenues is mainly explained by higher sales of naked SIM Cards' and handset sales through direct supply, besides the implementation of the 1800 Mhz band.

Net Operating Revenues

Note: In order to better reflect the performance of the integrated company, revenues are presented after intercompany. Additionally, the Net operating fixed revenue considers the allocation of long distance revenue according to origin and the allocation of revenues arising from FWT solution (Vivo Fixo and Vivo Box).

Fixed net revenues reduced by 4.1% in the year, mainly impacted by the decrease in fixed-line-originated local voice revenue, despite the increase of data and Pay TV revenues.

Voice and accesses revenues decreased by 14.6% in relation to 1Q11, mainly due to the drop in the traffic originated by fixed-line, the lower customer base and the reduction in the fixed-mobile rates as of February 24th.

Network usage revenues were 1.6% higher than in 1Q11.

Data revenues increased by 10.5% in relation to 1Q11 despite the increasingly competitive environment. Part of this change is due to the growth in the broadband customer base (+9.1% y-o-y), especially the growth in Vivo Fiber and in the corporate business.

It is important to point out the growth in data revenues over the total fixed revenues, climbing from 24.1% in the 1Q11 to 27.8% in the 1Q12.

In 1Q12, Pay TV revenues recorded growth of 45.4% over 1Q11, mainly due to the consolidation of TVA's pay TV business results as of 2Q11. Excluding this effect, these revenues would have increased by 1.8% over 1Q11.

OPERATING COSTS

Management comments

Three-months period ended March 31, 2012

(A free translation of the original issued in Portuguese)

Total operating costs, excluding depreciation and amortization expenses, came to R\$5,467.0 million in the quarter, 5.6% up over the previous year. This increase was mainly due to expenses related to the Company's operational integration and increased selling activity, partially offset by the sale of non-strategic assets in the quarter.

The cost of services rendered in 1Q12 climbed by 6.8% over 1Q11, mainly due to growth in the customer base and its increased activity, reflected in higher expenses with Fistel, Fust and Funtel, as well as higher rent expenses due to the annual expansion of more than 100% in 3G coverage. Additionally, the cost of Pay TV content contributed to the increase in the cost of services rendered in the quarter. When compared to 4Q11, it recorded an increase of 0.6% due to the higher expenses with taxes, third party services and others, offset by the reduction in interconnection expenses due to the reduction in the MTR.

The cost of goods sold in 1Q12 fell by 10.7% and by 2.3% over 1Q11 and 4Q11, respectively. The performance in 1Q12 results from the increase in sales of naked SIM cards', increased by the implementation of the 1800 Mhz band.

Selling expenses climbed by 10.3% over 1Q11, pushed by increased expenditure on call center expenses resulting from adjustments to inflation in the period. Additionally, selling commissions increased due to the growth in the customer base and gross additions.

The Provision for Doubtful Accounts (PDA) totaled R\$181.9 million in 1Q12, corresponding to 1.5% of total gross revenues, higher than the 1.2% and the 1.1% recorded in 1Q11 and 4Q11, respectively. This increase is due to higher default in the market and is concentrated in the individual business, due to the high increase of customers in the post-paid and control plans. We hope to keep controlled PDA levels through the continuous improvement of the granting of credit and rigid control over recoveries.

General and administrative expenses increased by 21.9% in 1Q12 when compared to the 1Q11 and dropped by 23.9% when compared to the 4Q11. These variations are due, mainly, to incremental expenses related to optimization of the facilities for the integrated structure, the beginning of the new data center operation and third-party contracts mainly in maintenance, adjusted according to inflation in the period.

Other net operating revenues/expenses recorded revenues of R\$183.0 million in 1Q12, due to the sales of non-strategic assets (+R\$216.5 million), partially offset by civil contingencies. When compared to 4Q11, the evolution is explained by the lower sales of non-strategic assets.

DEPRECIATION AND AMORTIZATION

DEPRECIATION

Depreciation and amortization grew by 21.6% in the y-o-y comparison, mainly due to an increase in expenses with amortization of goodwill.

FINANCIAL RESULT

NET FINANCIAL INCOME

The net financial expenses increased by R\$51.2 million in 1Q12 over 1Q11, due to the increase in net indebtedness and lower returns on financial investments.

Capex

CAPEX

Capex of R\$1,164.6 million in 1Q12 increased by 63.4% over 1Q11 due to the investments for increasing network capacity and quality, as well as increase of the 3G coverage. Capex recorded 14.3% of the net revenue in 1Q12, against 9.2% in 1Q11, due to the greater speed in execution of the investment projects in the period.

INDEBTEDNESS

The Company ended 1Q12 with gross debt of R\$5,928.0 million, 19.9% of which denominated in foreign currency. The decrease of 4.4% in relation to 4Q11 is related to the amortizations of financing debt with BNDES and BNB.

The Net debt totaled R\$2,657.9 million in 1Q12, representing 0.22 of EBITDA in the last 12 months. In comparison with 4Q11, the net debt recorded a reduction of 16.0%, mainly explained by generation of cash

by the Company. The foreign exchange exposure of the debt is 100% covered by hedge transactions.
