**Comments from the CEO**  
**Mrs. Maria das Graças Silva Foster**

Dear Shareholders and Investors, Our 2013 net income was R\$ 23.6 billion, a 11% rise from 2012's result. This rise was

influenced by higher fuel sale prices, due to three diesel and two gasoline price increases during the year, by the significant increase in oil products production at our refining facilities, by significant cost cutting and productivity boost as well as by the gains from asset sales.

Indeed, 2013 stands out for the successful implementation of our Structuring Programs, which by establishing new benchmarks for productivity and management of investment projects, imposed discipline in the use of the company's financial resources.

Notably, through PROCOP – Operating Expenses Optimization Program – we reached savings of R\$ 6.6 billion in 2013, far exceeding the R\$ 3.9 billion target set for the year. The sale of assets under PRODESIN – Divestment Program – contributed R\$ 8.5 billion to Cash Flow in 2013. Since this program was established in 2012, 21 transactions worth R\$ 23.4 billion in asset sales and financial restructuring have been made.

The Structuring Programs have also brought the benefit of avoiding capital expenditures in 2013, as is the case with PRODESIN, INFRALOG – Logistical Infrastructure Optimization Program – and PRC-Poço – Well Cost Reduction Program, which, combined, have led to CAPEX savings of R\$ 2.0 billion in the year.

We made further advances by establishing targets aimed at better positioning company personnel in order to meet the challenges of our Business and Management Plan. During the second half of 2013, we implemented Programa Mobiliza, which provided employees with 3,399 opportunities to move internally into areas that will require more personnel in the coming years, resulting in 1,133 voluntary transfers and consequently lower costs arising from new hires.

Another recently launched initiative was POP – Productivity Optimization Program, which resulted in the approval of the Voluntary Separation Incentive Plan, with voluntary enrollment until March 31, 2014. The plan covers eligible employees aged 55 or older and, in theory, can include up to 8.397 employees, approximately 10% of the company's personnel.

Our oil output in Brazil averaged 1,931 thousand bpd, down by 2.5% from the forecast, due to factors already discussed in my previous letter, which include delay of the Buoyancy Supported Riser Systems for FPSOs Cidade de São Paulo and Cidade de Paraty, the need to make changes to the subsea layout of the Papa-Terra/P-63 project, as well as the limited number of PLSVs (Pipe-Laying Support Vessels).

We would like to point out that these matters have already been resolved not only by the unprecedented delivery of nine production units in 2013, with the addition of 1,000,000 barrels per day in capacity, but mainly by the successful installation of the first buoy on FPSO Cid. São Paulo and of the first well interconnected to this gathering system, which went

into operation on February 18th, currently producing 36 thousand barrels per day and allowing the presalt production to achieve a new daily record of 407 thousand barrels per day on February 20th. Platforms P-63 and P-55 went into operation in November and December 2013, respectively, and units P-58 and P-62 will begin production in the first and second quarter of 2014 respectively. Six new PLSVs will be delivered in 2014, adding to the 11 vessels of this type that are currently in operation, enabling faster well to platform interconnection.

Improvement in the operational efficiency of older systems was another relevant factor in achieving the result. PROEF – Campos Basin Operational Efficiency Improvement Program – contributed 63 thousand bpd in additional oil output in 2013. Operational efficiency reached 75% at the Campos Basin Operational Unit (against 66% in April 2012) and 92% at the Rio Operational Unit (against 82% in September 2012).

The Petrobras Executive Board has made the implementation of these programs a top priority and, as shown, program results have significantly contributed to the achievement of the 2013 economic/financial result.

Sustained output growth in 2014 will not only count on necessary investments to maintain older and new systems – wells, submarine equipment and top-sides, but it will also count on the start-up of two new production units in the second half of the year, FPSOs Cidade de Ilhabela and Cidade de Mangaratiba.

As for exploration, our proven reserves in Brazil reached 16 billion barrels of oil equivalent, with a reserves-to-production of 20 years and a reserve-replacement ratio of 131%, above 100% for 22 years in a row. Proven reserves in the pre-salt grew by 43% in 2013. Our exploratory success rate was 75% in 2013, reaching 100% in the pre-salt, already reflecting the Exploratory Policy implemented last year, which prioritizes less-risky locations and allocates more resources to production development activities. In 2013, prospecting and drilling expenses (dry wells) were R\$ 6.1 billion, down 14% from R\$ 7.1 billion in 2012.

As for the quantification of our production curve as of 2020, I would like to stress the excellent outcome in the auction of Libra field, the first to be developed under the production sharing agreement in Brazil, where we will work in partnership with Shell, Total, CNPC and CNOOC, companies with recognized experience and financial soundness.

In Refining, we continue to operate with excellent efficiency levels, which have led to an average oil products production of 2,124 thousand bpd, up by 6% from 2012's output of 1,997 thousand bpd, notably due to higher gasoline (+53 thousand bpd) and diesel (+68 thousand bpd) production and a 97% utilization factor, against 94% reported in 2012.

This new operating parameter was achieved by the improved performance of our refineries resulting from the start-up of new units of quality and conversion since 2012, as well as the optimization of refining processes and removal of infrastructural bottlenecks in the movement of oil and oil products. In January 2014, Petrobras also began selling ultra-low sulfur gasoline (Gasoline S-50), a product whose quality is equivalent to that of the strictest markets in the world. This will allow new vehicles containing modern emission treatment technologies to enter the Brazilian market.

This notable performance of the refineries enabled a decline in the imported volumes of diesel (from 190 thousand bpd in 2012 to 174 thousand bpd in 2013) and gasoline (from 87 thousand bpd in 2012 to 32 thousand bpd in 2013), the latter also due to the higher anhydrous ethanol content in gasoline C.

New records were established in natural gas sales and electricity generation due to higher natural gas demand of 85 million m<sup>3</sup>/day in 2013, up by 15% from 2012. Petrobras-supplied thermoelectric generation was 7.5 GW/average, up by 66% from 2012.

I reiterate that the company's excellent operational results were achieved by rigorously complying with standards and maintenance procedures at its facilities, ensuring the physical integrity of personnel and equipment. As a result, in 2013 we achieved the lowest reportable incident rates ever in the company's history, which includes fatal accidents and spills, despite growing man-hours of exposure to risk.

Another important measure also adopted in 2013 related to foreign exchange was the extension of Hedge Accounting to future exports, enabling foreign exchange gains or losses related to net indebtedness exposed to foreign exchange variation to be recorded in stockholders' equity and transferred to the financial result as exports are made. This measure promotes greater alignment between accounting results and our risk management policy, mitigating sudden oscillations on the financial result due to foreign exchange volatilities, which could not appropriately reflect the company's economic performance in a given period.

Regarding our Diesel and Gasoline Price Policy, its effectiveness has been assessed on a monthly basis by our Board of Directors, according to the Relevant Fact released on November 29th, 2013.

Additionally, I would like to notice that in the second half of 2013 we implemented the Corruption Prevention Program, reaffirming the commitment of the Petrobras Executive Board and of its employees with ethics and transparency at our organization. The program complies with both national and international initiatives against fraud and corruption, as well as with the laws of the countries where Petrobras operates, with positive impacts in the relations with all its stakeholders.

We are building a higher value company: training our employees, mastering the necessary technologies to implement projects, our relevant oil reserves and rising output in the short-run along with our continuous commitment to increase efficiency, productivity and capital discipline will lead us to achieve even better results. Rising share prices and ensuring a fair return to our shareholders is a natural consequence of fulfilling our obligations.

**ITEM II**

**CAPITAL BUDGETING FOR 2014**

Dear Shareholders,

The capital budgeting for 2014 includes total investments of BRL 69,726 million (sixty nine billion, seven hundred twenty six million reais), out of which BRL 69,545 million (sixty nine billion, five hundred forty five million reais) of Direct Investments and BRL 181 million (one hundred million reais) of Financial Investments (capital disbursement for other companies).

These investments will consist of BRL 26,660 million (twenty six billion, six hundred sixty million reais) from third-party funds and BRL 43,066 million (forty three billion, sixty six million reais) of the Company's own funds, mainly coming from its operating income.

Out of the Company's own funds considered in the schedule, BRL 42,885 million (forty two billion, eight hundred eighty five million reais) are earmarked for Direct Investments and BRL 181 million (one hundred eighty one million reais) for Financial Investments (capital disbursement for other companies). Relating to third-party funds, the amount of BRL 26,660 million (twenty six billion, six hundred sixty million reais) are earmarked for Direct Investments.

From the total investments, 62.67% are earmarked for the Exploration & Production, 26.43% for the Downstream, 9.13% for the Gas & Energy and 1.77 % for Corporate Segment.

Therefore, based on Article 196, Act no. 6.404, dated December 15<sup>th</sup>, 1976 (amended by Act no. 15<sup>th</sup> 9.457, dated May , 1997), ratified by Act no. 10.303/2001, the Board of Directors of PETROBRAS is proposing to this Annual Shareholders' Meeting, with favorable opinion of the Fiscal Committee, the approval of the Capital Budgeting for 2013, amounting to BRL 69,726 million (sixty nine billion, seven hundred twenty six million reais)

**2013 FINANCIAL YEAR RESULTS DESTINATION**

Dear Shareholders,

Petrobras accounts statement regarding the financial year, which ended on the 31<sup>st</sup> December 2013, shows a net profit of R\$ 23.407.565.780,30 (twenty three billion, four hundred and seven million, five hundred and sixty five thousand, seven hundred and eighty and thirty cents of Brazilian Real) including the provisioning of results and profits to be distributed by the employees, of R\$ 908.084.491,37 (nine hundred and eight million, eighty four hundred, four hundred and ninety one Brazilian Real and thirty seven cents), in accordance with the provisions of the law.

According to the Law No. 6,404/76, changed by Laws 9,457, of 05.05.1997, and 10,303, of 10.31.2001, and to the Company's bylaws, the Board -with the favorable opinion of the Fiscal Board -herein proposes that the above mentioned profit -following the adjustments foreseen in section 202 of the Law No. 6,404/76 -is aimed, as follows: R\$ 9.301.024.110,44 (nine billion, three hundred and one million, twenty four thousand, one hundred and ten Brazilian Real and forty four cents) for the payment of dividends to the shareholders, corresponding to 41.85% of the basic profit for the purpose of dividend to R\$ 0.5217 per ordinary and R\$ 0.9672 per preferred share, considering the number of shares at shareholding position date considered for distribution.

This dividend is being proposed as interest on own capital, subject to the withholding of income tax withheld at source of fifteen percent (15%), except for exempt shareholders. The following aspects were taken into consideration for making this proposal:

a) As provided for in Article 8 of the Articles of Association of Petrobras, the dividends payable on common and preferred shares may not be less than 25% (twenty five percent) of the adjusted net income. In 2013, the amount distributed as dividends on common and preferred shares represents 41.85% of the basic income

b) Section 5, paragraph 2 of Articles of Association of Petrobras foresees priority on receiving dividend given to preferred share at a minimum of 5% (five per cent) calculated over the installment of capital represented by this kind of share or 3% (three per cent) of the amount corresponding to the net asset value of the share. In 2013, this criteria of 3% of the amount corresponding to the net asset value of the share which corresponds to R\$ 0.8221 per share. However, considering that the dividend is in the form of interest on capital and therefore includes compensation for withholding tax, the proposed value of this General Meeting is R\$ 0.9672 per preferred share.

Previously, he was responsible for the equity area of Opus Gestão de Recursos, a company that manages approximately BRL 2 billion in investment funds in the country. Prior to that, he was senior partner of Mauá Investimentos, also with responsibility for the equity funds (2007-2010). He was Chief Investment Officer of Franklin Templeton Investments (Brazil) Ltd., and its predecessor, the Bradesco Templeton Asset Management (BTAM), since August 2001. The BTAM was a joint venture between Banco Bradesco -largest private financial institution in Latin America -and Franklin Templeton -one of the largest asset managers in the United States, having been incorporated by the latter in July 2006. The BTAM specialized in managing funds actively in corporate governance matters, reaching BRL 800 million in assets under management. Prior to joining BTAM, Mr. Cunha was a partner at Investidor Profissional, and member of the Investment Committee's main fund of that institution, IP-Participações. He also held positions at Morgan Stanley Asset Management, Deutsche Morgan Grenfell, Bank of America Latin American Private Equity and Banco Pactual. Acted as Chairman of the Board of Directors of IBGC -Brazilian Institute of Corporate Governance from 2008 to 2010, being a member of the board of that institution for seven years. In addition, he has participated actively in discussions on corporate

governance and reform of the capital market in Brazil, and participated in the boards of several companies. He is currently a member of the Board of Directors of Petrobras (where he also serves on the Audit Committee), BR Distribuidora, Trisul and CESP. CFA charterholder since 1997, and MBA from the University of Chicago. He graduated in economics from PUC-RJ.

**JOSÉ GUIMARÃES MONFORTE** -Brazilian, married, economist. Mr. Monforte's professional background is mainly focused on activities within the financial and capital markets, both domestic and international, where he developed and managed business departments in institutions of national and global level. Among these, the most relevant experiences that stand out were: (i) Grupo Banespa (from 1972 to 1979), where Mr. Monforte was responsible for structuring the Investment management department, and later became manager of the Joint Venture between Banespa Corretora and Merrill Lynch, which introduced the offering of commodity derivatives in Brazil. He also held the position of deputy manager of the London office at Grupo Banespa Commercial Bank, where he helped to restructure the office activities and develop a standard of annual planning that was later disseminated across all international operations. (ii) President of Merrill Lynch's operation in Brazil (from 1979 to 1987), which comprised brokerage activities of commodities, investment management through its own distribution, private banking, and corporate finance operations. (iii) Director at Citibank Private Bank in Brazil for four years. (iv) Director of Product at Western Hemisphere's Global Private Bank, prior to returning to Citibank Brazil as the head of Investment Bank, Asset Management and the bank's proprietary investments. (v) Mr. Monforte also held positions within the financial markets as: the Vice-Presidency of ANBID -National Association of Investment Banks and Investment, vice-chairman of Caixa Liquidação da Bolsa de Mercadorias de São Paulo and board member of Bovespa. Among other experiences, Monforte was CEO of VBC Energia (1996 to 1997) where he was responsible for structuring and coordinating acquisitions of major assets that were offered during the privatization process of power distribution assets in Brazil, including the acquisition of CPFL. He then became the Senior Country Advisor at Bell Canada during the process of acquiring licenses to operate mobile phone companies in Brazil (Americel-in Brasilia, and Telet Sure, in Rio Grande do Sul). He was also CEO and board member of these companies. He served as a director at Canbras which had previously operated cable TV services in Brazil. From 1998 to 2007, he was chairman of Janos Participações, which is the investment vehicle that manages the wealth of Natura controlling shareholders. During this experience, Mr. Monforte organized the investment management and financial services areas and also advised on transactions in the capital market. Mr. Monforte also helped to

coordinate the IPO of Natura Cosméticos. Janos was elected the best Family Office of Latin America for two consecutive years, and the offer of Natura shares also became a reference in the market. Mr. Monforte was a Founding Partner of Pragma Heritage, whose purpose was to extend to other business families the same services previously offered exclusively to Janos, which continued to be an anchor client of Pragma. It is relevant to mention that the Pragma was the coordinator of the secondary offering of Natura shares. In the investment management activity the results were excellent, and in acquiring stake in companies, Pragma stood out when acquired a significant block in Droga Raia.
