Message from Management

The financial results for the second quarter reflect the challenging economic environment. We highlight the devaluation of the Brazilian Real against the US Dollar by 40.9%, compared to the same period in 2014, and inflation which reached 9.56% in the last twelve months.

Due to this scenario, net revenue reached R\$2,1 billion, a decrease of 10.5% over the second quarter of 2014 and the costs and expenses increase of 1.6%, totaling R\$2.4 billion in the same period. Therefore, the negative operating result (EBIT) of R\$251.1 million and the net loss of R\$243.6 million ended the continuing evolution we saw in the last nine quarters.

We closed the second quarter with a cash position of R\$2.1 billion, representing 20.9% of net revenue in the last twelve months. Since the end of the quarter, we have further strengthened our liquidity through initiatives already announced to the market.

Therefore, on July 10, 2015 we announced an operation between GOL, its controlling shareholder, Delta Air Lines and the other shareholders, to be completed in the third quarter of this year. This transaction forecasts a capital increase of up to US\$90 million by the controlling shareholder and up to US\$56 million by Delta and other shareholders. We will also be issued a loan of up to US\$300 million, with Delta as guarantor.

Upon completion, our cash position is even more robust, representing approximately 30% of net revenue, ensuring the continuity and sustainability of our current projects as well as the execution of our strategic plan.

On the operational side, among some important achievements we have reached in recent months, we highlight the leadership of the on time performance in 2015 – 95.32% of our flights take off on the scheduled time in the period, according to data from Infraero. We were also the airline that has further developed the load factor year to date, according to data from ANAC, with an increase of 2.1 percentage points compared to 2014.

In addition, we maintained our leadership in the number of passengers transported in the domestic market in 1H15, as well as in the number of tickets issued to corporate customers. According to data from the Brazilian Association of Corporate Travel Agencies (ABRACORP), our share reached 32.4% in the period.

Regarding our supply, we will maintain our disciplined capacity management for the year. Since 2011, GOL has been the airline that reduced seat supply by the largest number among the companies serving the domestic market, totaling about 7.0 billion ASK or 14%.

In this sense, we announced a new supply projection for 2015, from zero to 1% reduction in the number of seats for the domestic market, resulting in a decrease of 2% to 4% in 2H15, when compared to the same period of 2014. We will monitor the development over the coming months and, if necessary, we will revisit these figures. It is worth mentioning that we are always evaluating the revision of all projections, especially in such a challenging and volatile phase the country's economy is going through.

Regarding costs, reduction and efficiency improvement initiatives have already showed results in 1H15. Supported by two renowned consulting firms, Boston Consulting Group (BCG) and McKinsey & Company (McKinsey) we have implemented several actions to reach 100% of manageable costs.

In order to maintain our leadership and increasingly match our customers' expectations and preferences, we took an important step towards our innovation path, anticipating trends in the Brazilian aviation sector: we will be the first airline in Central and South America to offer free wi-fi internet access, with satellite connection. Our first aircraft equipped with this system is expected to start operations in mid 2016. With this, we will offer the most complete on-board entertainment solution across the continent, with movies, cartoons, series and games, music, in-flight maps, plus live television.

Consolidating all the important achievements we have reached over the past years, on July 15 we launched our new brand emphasizing that GOL will maintain its innovative features, introducing new products, services, technologies and customer care standards, positioning itself at the forefront of the aviation sector. That same day, we also celebrated the delivery of the hundredth aircraft received directly from Boeing with the new logo, which is already flying.

We, the Team of Eagles, will relentlessly continue with dedication, doing the best we can for our customers, our investors and our partners, getting prepared for the resumption of economic growth in Brazil. Thank you for your continued confidence.

Domestic market – GOL

Domestic supply increased **2.0%** over 2Q14 and **2.1%** compared to 1H14, reflecting lower supply in 2Q14, when the Company reduced capacity during the 2014 FIFA World Cup held in Brazil.

Domestic demand increased by **4.7%** in the quarter and **4.8%** in 1H15, leading the **domestic load factor** to **78.0%**, an increase of **2.0 p.p.** compared to 2Q14, and **78.5%**, an increase of **2.1 p.p.** compared to 1H14.

During the quarter, **GOL** transported **8.9 million passengers** in the domestic market and **18.5 million passengers** accumulated over the year, representing an increase of **1.9%** and **2.2%**, both compared to the same period in 2014. For 1H15, **GOL** was once again the leading airline in the number of passenger transported in the Brazilian domestic market.

Even with reduced economic activity in the country, **GOL** remained **the leader in tickets sold to corporate passengers in the Brazilian domestic market**, with a share of **32.4%** in the semester – according to the Brazilian Association of Corporate Travel Agencies (Abracorp).

International market - GOL

GOL's international supply increased by **3.3%** in the quarter and **11.1%** in 1H15, compared to 2014. International demand showed an increase of **1.4%** between April and June, registering load factor of **68.2%**, and, in 1H15, an increase of **11.3%**, leading the international load factor to **70.6%**. The Company is adjusting its international network by changing frequency in some destinations and opening other international bases in order to capture market opportunities in the region.

During the quarter, **GOL** transported **463.3 thousand passengers in the international market**, **2.8%** less than in 2014. For 1H15, the Company transported **1.042 million passengers**, an increase of **5.3%** compared to the same period in 2014.

PRASK and Yield

Reflecting the economic activity slowdown in the country, the lower volume of corporate passengers and the increase of the number of leisure passengers stimulated by price variations, **yield** fell by **17.0%** in the quarter and **12.6%** in the first semester of the year. **PRASK** partially benefited due to increased load factor by **1.6 p.p.** in 2Q15 and **1.8 p.p.** in 1H15, dropping by **15.2%** and **10.5%** respectively, compared to the same period 2014.

*Non-operational

At the end of 2Q15, out of a total of **142** Boeing 737-NG aircraft, GOL was operating **134 aircraft** on its routes. Of the 8 **remaining aircraft**, **1** was in the process of being **returned to it lessor** and **7** was sent via **sub-leasing** to a European airline.

GOL has 97 **aircraft under operating leases** and 45 under financial leases, **40 of which with a purchase option** when their leasing contracts expire. In 2Q15, GOL **received 3 aircraft B737 NG under operating lease** and **returned 1 B737 NGs**.

The average age of the fleet was 7.4 years at the end of 2Q15. In order to maintain this indicator at low levels, the Company has 127 **firm aircraft acquisition orders** with Boeing for fleet renewal by 2026.

Capex

GOL posted a net investment of R\$358.4 million in 1H15, considering the return of the pre-delivery deposits returns when the aircraft is delivered. For more details on changes in property, plant and equipment, see Note 16 to the financial statements.

Report on the review of interim financial information

To

The Shareholders, Board of Directors and Officers

Gol Linhas Aéreas Inteligentes S.A.

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Gol Linhas Aéreas Inteligentes S.A. ("Company"), contained in the Quarterly Information (ITR) for the quarter ended June 30, 2015, which comprises the balance sheet as at June 30, 2015 and the related statement of operations and statement of comprehensive loss for the three and six-month period then ended, and the statement of changes in equity and statement of cash flows for the six-month period then ended, including the explanatory information.

Management is responsible for the preparation of individual e consolidated interim financial information in accordance with the Technical Pronouncement CPC 21 (R1) - Interim Financial Reporting and in accordance with IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of these information in compliance with the rules issued by the Brazilian Securities Commission ("CVM"), applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review according to the Brazilian and international review standards of interim financial information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of inquiries, mainly of

the people responsible for the financial and accounting matters, and the application of analytical and other review procedures. The scope of a review is significantly narrower than that of an audit conducted in accordance with audit standards and, accordingly, it did not permit us to obtain assurance that we took notice of all significant matters that could have been raised in an audit. Therefore, we did not express an audit opinion.

Conclusion on the interim financial information

Based on our review, we are not aware of any fact that makes us believe that the interim individual and consolidated financial information included in the Quarterly Information referred above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34 applicable to the preparation of Quarterly Information (ITR), and presented in compliance with the rules issued by the CVM.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statement of value added (SVA) for the six-month period ended June 30, 2015, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required by the rules of the CVM applicable to Quarterly Information (ITR), and as supplementary information under IFRS, whereby no statement of value added presentation is required. These statements have been subject to the same review procedures previously described and, based on our review, we are not aware of any fact that makes us believe that they were not prepared, in all material respects, according to the interim financial information taken as a whole.

GOL Linhas Aéreas Inteligentes S.A.

Notes to the interim financial information - ITR

June 30, 2015

(In thousands of Brazilian Reais - R\$, except when indicated otherwise)

1. General information

Gol Linhas Aéreas Inteligentes S.A. ("Company" or "GLAI") is a publicly-listed company established on March 12, 2004, in accordance with the Brazilian Corporate Laws. The Company is engaged in controlling its subsidiaries: (i) VRG Linhas Aéreas S.A. ("VRG"), which essentially explores (a) the regular and non-regular flight transportation services of passengers, cargo and mailbags, domestically or internationally, according to the concessions granted by the competent authorities; and (b) complementary activities of flight transport services provided in its bylaws; and (ii) Smiles S.A., which mainly operates (a) the development and management of its own or third party's customer loyalty program, and (b) sale of redemption rights of awards related to the loyalty program.

Additionally, the Company is the direct parent Company of the wholly-owned subsidiaries GAC Inc. ("GAC"), Gol Finance ("Finance"), Gol LuxCo S.A. ("Gol LuxCo"), Gol Dominicana Lineas Aereas SAS ("Gol Dominicana") and indirect parent Company of Webjet Linhas Aéreas S.A. ("Webjet").

The Company's shares are traded on BM&FBOVESPA and on the New York Stock Exchange ("NYSE"). The Company adopted Differentiated Corporate Governance Practices of Level 2 from BM&FBOVESPA and is included in the Special Corporate Governance Stock Index ("IGC") and the Special Tag Along Stock Index ("ITAG"), which were created to identify companies committed to the differentiated corporate governance practices.

2. Approval and summary of significant accounting policies applied in preparing the Interim Financial Information

The interim financial information - ITR were authorized for issuance at the Board of Directors' meeting held on August 11, 2015. The Company's registered Office is at Praça Comandante Linneu Gomes, s/n, portaria

3, prédio 24, Jardim Aeroporto, São Paulo, Brazil.

2.1. Basis of preparation

The individual and consolidated interim financial information – ITR was prepared for the six-month period ended on June 30, 2015 in accordance with International Accounting Standards (“IAS”) 34, and with corresponding Brazilian technical pronouncements, CPC (21).

The consolidated interim financial information – ITR was prepared based on historical cost, except for certain financial assets and liabilities measured at fair value and investments measure through the equity method.

The individual and consolidated interim financial information – ITR do not include all the information and disclosure items required in the consolidated annual financial statements and, therefore, it must be read along with the individual and consolidated financial statements from the year ended December 31, 2014 filed on March 30, 2015, which were prepared in accordance with Brazilian accounting practices and IFRS. There were no changes in accounting policies adopted during the period from December 31, 2014 to June 30, 2015.

GOL Linhas Aéreas Inteligentes S.A.

Notes to the interim financial information - ITR

June 30, 2015

(In thousands of Brazilian Reais - R\$, except when indicated otherwise)

The shareholder's equity individual and consolidated interim financial information – ITR do not present differences on its composition, except in respect of the non-controlling interest in Smiles S.A., highlighted in the consolidated equity.

The non-financial information included on this Individual and consolidated interim financial information - ITR, such as sales volume, agreement information, forecasts, insurance, among others, have not been reviewed.

2.2. New standards, amendments and interpretations

a) New standards and interpretations issued by IASB but not applicable until June 30, 2015 with no early adoption by the Company:

- IFRS 9 Financial instruments: On July, 2014, IASB issued the final version of IFRS 9 - Financial Instruments, which reflects all phases of the financial instruments project, and replaces the IAS 39 - Financial Instruments: Recognition and Measurement and all IFRS 9's previous versions. The standard introduces new requirements on classification and measurement, loss on impairment and hedge accounting. IFRS 9 is effective for annual periods beginning on January 01, 2018 or thereafter, and the early application is not allowed. Retrospective application is required, but it is not mandatory, however, the presentation of comparative information. Early adoption of earlier versions of IFRS 9 (2009, 2010 and 2013) is allowed if the initial application date is earlier than February 01, 2015. The adoption of IFRS 9 will have an effect on the classification and measurement of the Company's financial assets, not causing, however, any impact on the classification and measurement of the financial liabilities of the Company.
- IFRS 15 Revenue contract with customers: Establish a model of five steps that apply to income received from a customer contract, regardless of the type of revenue or industry transaction. Applies to all revenue contracts and provides a model for the recognition and measurement of gains or losses on the sale of certain non-financial assets that are not related to the regular activities of the entity (i.e. real estate sales,

installations and equipment or intangibles). Extensive disclosures are also required by this standard. This Statement shall be applied for annual periods beginning on or after January 01, 2017, with earlier application allowed.

In addition the following new standards, amendments and interpretations were issued by IASB, but the Company's Management does not expect impacts on the individual and consolidated interim financial information on the initial adoption:

- IFRS 14 - Deferred Regulatory Accounts - Applicable for annual periods beginning on January 01, 2016 or thereafter;
- Annual improvements – Cycle 2010-2012 and cycle 2011-2013 – Applicable for annual periods beginning on July 1, 2014 or, thereafter;
- Amendments to IFRS 11 Joint Arrangements: Acquisitions accounting for corporate parties - Applicable for annual periods beginning on January 01, 2016 and thereafter, and the early application is not allowed in Brazil.
- Amendments to IAS 16 and IAS 38 – Explanation of acceptable methods of depreciation amortization - The amendments are applicable prospectively for annual periods beginning on January 01, 2016 or thereafter.

GOL Linhas Aéreas Inteligentes S.A.

Notes to the interim financial information - ITR

June 30, 2015

(In thousands of Brazilian Reais - R\$, except when indicated otherwise)

The Company intends to adopt those Standards when these become effective and disclose and recognize the impacts in the interim financial information that may occur on application of those standards.

Considering the current of the Company and its subsidiaries, management does not expect this change to have a material effect on the interim financial information - ITR from its adoption.

There are no other standards and interpretations issued but not yet adopted that, in Management's opinion, have a significant impact on net income or equity issued by the Company.

3. Seasonality

The Company expects that revenues and profits from its flights reach the highest levels during the summer and winter vacation periods, in January and July, respectively, and during the last two weeks of December, during the season holidays. Given the high portion of fixed costs, this seasonality tends to result in fluctuations in our operational quarter-on-quarter income.

4. Cash and cash equivalents

	Individual		Consolidated	
	06/30/2015	12/31/2014	06/30/2015	12/31/2014
Cash and bank deposits	234,834	32,995	767,447	507,248
Cash equivalents	66,671	426,369	855,470	1,391,525

301,505	459,364	1,622,917	1,898,773
----------------	---------	------------------	-----------

The cash equivalents breakdown is as follows:

	Individual		Consolidated	
	06/30/2015	12/31/2014	06/30/2015	12/31/2014
Private bonds	65,357	426,369	656,528	1,130,462
Government bonds	-	-	-	63
Investment funds	1,314	-	198,942	261,000
	66,671	426,369	855,470	1,391,525

As of June 30, 2015, the cash equivalents were represented by private bonds (Bank Deposit Certificates - "CDBs"), buy-back transactions and time deposits paid at post fixed rates ranging between 90% and 101% of the Interbank Deposit Certificate rate ("CDI") on the onshore investments.

The investment funds were represented primarily by government bonds paid at a weighted average rate of 93% of the CDI rate.

The investment funds classified as cash equivalents have high liquidity and, according to the Company analysis, readily convertible to a known amount of cash with insignificant risk of change in its value.

Notes to the interim financial information - ITR

June 30, 2015

(In thousands of Brazilian Reais - R\$, except when indicated otherwise)

Repatriation of the generated cash in Venezuela

On January 23, 2014, the Venezuela government announced that the airline companies could request the repatriation of their resources generated by sales in Venezuela through CADIVI ("Comisión de Administración de Divisas") by the official rate of BS 6.30/US\$1.00. This rate experienced a level increase and the rate as of December 31, 2014 was BS 12.00/US\$1.00. The exchange variation control in Venezuela is determined on a weekly basis by its Federal Reserve (SICAD).

Given this increase, the Company recorded an exchange rate depreciation justified by the intention to repatriate values related to the operations performed in Venezuela as of January, 2014.

The total amount of the cash in Venezuela registered under "Cash and bank deposits" as of June 30, 2015 was BS 827,885. The cash related to 2013 sales is started at the official exchange rate of 6.3 bolivars per U.S. Dollar. Cash related to 2014 sales and repatriation requests are started using SICAD 1 at the exchange rate of 12.0 bolivars per U.S. Dollar. The portion accrued as an impairment from the Venezuelan Bolívar related to U.S. Dollar as of June 30, 2015 was R\$57,609 (R\$72,972 as of December 31, 2014). The net recoverable balance of R\$351,118 is recorded as "Cash and bank deposits". While the cash is available for use in Venezuela with no restriction, the Company ability to repatriate these funds has been limited due to Venezuelan government controls.

The register is subject to future changes due to the doubtful economic scenario in Venezuela, with the possibility of new limitations in the cash flows by CADIVI or sanctions by the government that may difficult the cash repatriation of the amounts.

5. Short-term investments

	Individual		Consolidated	
	06/30/2015	12/31/2014	06/30/2015	12/31/2014
Private bonds	-	55,849	1,498	74,127
Government bonds	-	-	5,799	66,030
Investment funds	-	642	86,446	156,667
	-	56,491	93,743	296,824

As of June 30, 2015, the private bonds were represented by CDBs and financial letters with first-rate financial institutions, paid at a weighted average rate of 102% of the CDI rate on onshore investments.

Government bonds are represented primarily by government bonds LTN, NTN and LFT paid at a weighted average of 100% of CDI rate.

Investment funds are represented primarily by private and government bonds paid at a weighted average of 101% of the CDI rate.

Notes to the interim financial information - ITR

June 30, 2015

(In thousands of Brazilian Reais - R\$, except when indicated otherwise)

The Company, VRG and Webjet have net operating losses and negative basis of social contribution. The net operating losses carryforward have no expiration period, however, the compensation is limited to 30% of the annual taxable profit. The unused balances of net operating losses carryforward are as follow:

	Individual		Direct subsidiary		Indirect subsidiary	
	(GLAI)		(VRG)		(Webjet)	
	06/30/2015	12/31/2014	06/30/2015	12/31/2014	06/30/2015	12/31/2014
Income tax losses	183,495	189,522	3,095,287	2,801,620	833,904	818,159
Negative basis of social contribution	183,495	189,522	3,095,287	2,801,620	833,904	818,159

As of June 30, 2015, the tax credits from tax loss carryforwards and negative social contribution basis were valued based on the reasonably expected generation of future taxable income of the parent Company and its subsidiaries, subject to legal limitations. The forecast of future taxable income on tax losses and negative tax base of social contribution were prepared based on the business plan and approved by the Board of Directors on December 19, 2014.

The Company's Management considers that the deferred assets recognized as of June 30, 2015 arising from temporary differences will be realized when the provisions are settled and the related future events are resolved.

The analysis of the deferred taxes credits realization was described by company as follow:

GLAI: the Company recognized tax credit amounted in R\$63,414, of which R\$62,390 is related to tax loss and negative basis of social contribution and R\$1,024 is related to the temporary differences, with

realization supported by the long term plan of the Company.

VRG: this subsidiary recognized tax credits on tax losses and negative basis of social contribution in the amount of R\$1,052,398. However, due to tax losses presented during the recent years, the Administration conducted a sensitivity analysis on the forecast results, and, considering significant changes in the macroeconomic scenario due to the changes on the dolar currency, registered the deferred tax assets on tax losses and negative basis by the lowest value obtained in this analysis. As a result, the subsidiary VRG did not recognized R\$666,780, keeping the partial realization of R\$385,618.

With related to the temporary differences, due to the recents events that are generaring instability in the politic and economic scenary in Brazil, as well as the strong variation of the dolar rate, the subsidiary did not recognized the net amount of R\$111,332 of deferred income tax and social contribution. The administration will continue monitoring the external factors, aiming to reflect on its books only the assets and liability that have achievement according to projected results.

Smiles: for this subsidiary does not present tax losses and negative basis of social contribution. Thus, the deferred tax credit is composed only for temporary differences which, according to the taxable results history and the forecast, expectation of realization.

Webjet: the forecast did not present suficiente taxable profits to be realized over future periods, and as a result, a provision was recorded for unrealizable loss tax credits of R\$283,527.

The reconciliation of effective rate of income tax and social contribution for the period of three and six months ended June 30, 2015 is shown as follow:

a) Judicial deposits

Judicial deposits and blocked escrows represent guarantees of lawsuits related to tax, civil and labor claims deposited in escrow until the resolution of the related claims. Part of the blocked amount in escrow is related to civil and labor claims arising on the succession orders on claims against Varig S.A. and proceedings filed by employees that are not related to the Company or any related party (third-party claims). As the Company is not correctly classified as the defendant of these lawsuits, whenever such blockages occur, the exclusion of such is requested in order to release the resources. As of June 30, 2015 the blocked amounts regarding the Varig' succession and the third-party lawsuits are R\$90,835 and R\$71,851 respectively (R\$85,558 and R\$66,970 as of December 31, 2014, respectively).

b) Maintenance deposits

The Company and its subsidiaries VRG and Webjet made deposits in U.S. Dollars for maintenance of aircraft and engines that will be used in future events as set forth in some leasing contracts.

The maintenance deposits do not exempt the Company and its subsidiaries, as lessee, neither from the contractual obligations relating to the maintenance of the aircraft nor from the risk associated with maintenance activities. The Company and its subsidiaries hold the right to select any of the maintenance service providers or to perform such services internally.

(*) Refers to loan agreements in US dollars. For the period ended June 30, 2015, the Company prepaid an amount of R\$80,833

Additionally, the Parent Company holds loans between: Finance (asset) with Gol LuxCo (liability) and Gol LuxCo (asset) with GAC (liability) in the amount of R\$625,638. These transactions are eliminated by the Company, since the entities are offshore and are considered an extension of the Company's operations.

b) Transportation services and consulting

All the agreements related to transportation and consulting services are held by the Company's subsidiary VRG. The related parties for these services are:

- i. Breda Transportes e Serviços S.A. for passenger and luggage transportation services between airports, and transportation of employees, renewable every 12 months for additional equal terms through an amendment instrument signed by the parties, annually adjusted based on the IGP-M fluctuation (General Market Price Index from Getulio Vargas Foundation). The agreement was expired on May 31, 2015 and its renovation is still in progress.
- ii. Expresso União Ltda., to provide employees' transportation, maturing on August 01, 2016.
- iii. Serviços Gráficos S.A., providing graphic services, maturing on July 01, 2015.

The UATP account (virtual card) is accepted as a payment method on the purchase of airline tickets and related services, seeking to simplify the billing and facilitate the payment between participating companies.

d) Financing contract for engine maintenance

The subsidiary VRG has a line of funding for maintenance of engines services, which disbursement occurs through the issuance of Guaranteed Notes. As of June 30, 2015, VRG holds three series of Guaranteed Notes for maintenance of engines, issued on March 11, 2013, February 14, 2014 and March 13, 2015,

maturing up to 3 years. During the period ended June 30, 2015 the spending on engine maintenance conducted by Delta Air Lines was R\$178,220 (R\$17,403 as of June 30, 2014).

e) Financing contract for engine maintenance

On February 19, 2014, the Company signed an exclusive strategic partnership for long-term business cooperation with Airfrance-KLM with the purpose of the sales activities improvements and codeshare expansion and mileage programs benefits between the companies for the customers in the Brazilian and European market. The agreement provides the incentive investment in the Company in the amount of R\$112,152, which payment is divided in three installments: the first installments in the amount of R\$74,506 was received during the period ended December 31, 2014, the second installment in the amount of R\$17,679 was received during the period ended June 30, 2015 and the last one in the amount of R\$23,261 will be received in 2016, these values are being updated by the current exchange rate. The agreement will mature within 5 years and the installments will be amortized monthly. On June 30, 2015, the company has deferred revenue in the amount of R\$22,430 and R\$59,815 recorded as "Other Liabilities" in the current and noncurrent liability, respectively (R\$22,430 and R\$71,030 as of December 31, 2014, in the current and noncurrent liability, respectively).

As of June 30, 2015 and 2014 the Company did not offer post employment benefits, and there are no severance benefits or other long-term benefits for the Management or other employees.

13. Share-based payments

The Company holds two share-based payment plans offered to its management personnel: the Stock Option Plan and the Restricted Shares Plan. Both plans stimulate and promote the alignment of the Company's goals, management and employees, mitigate the risks in value created for the Company resulting from the loss of their executives and strengthen the commitment and productivity of these executives to long-term results.

GLAIa) Stock Option Plan

The Company's Stock Options Plan had changes approved by the Company's Annual Shareholders' Meeting held on April 30, 2010. The beneficiaries of the shares are allowed to purchase the option after 3 years from the grant date, with an acquisition condition that the beneficiary maintains its employment relationship up to the end of this period.

For plans granted beginning 2010, 20% of the options become vested as from the first year, an additional 30% as from the second, and the remaining 50% as from the third year. On all the granted plans, the options may also be exercised within 10 years after the grant date.

On all the stock options, the expected volatility of the options is based on the historical volatility of 252 working days of the Company's shares traded on BM&FBOVESPA, and the fair value of the restricted shares granted was estimated on the grant date using the Black-Scholes pricing model, as follows:

14. Investments

The investments in foreign subsidiaries, GAC, Finance and Gol LuxCo were considered as an extension of the Company and are consolidated on a line by line basis on the individual company GLAI. Accordingly, only the subsidiaries Smiles, VRG and Gol Dominicana were considered as an investment.

The amount of consolidated investments is related to 21.3% of the working capital of Netpoints Fidelidade S.A., hold by the subsidiary Smiles, and to SCP Trip investment, hold by the subsidiary VRG, both registered as equity method.

The change in investments during the period ended June 30, 2015 is as follows:

(a) Refers to transactions related to revenue for redeeming miles for flight tickets for Smiles Program participants that, for consolidated Interim Financial Information purposes, only take place when the participants of the program are effectively transported by VRG.

(b) The adjusted equity corresponds to the percentage of the equity less unrealized gains.

(c) The subsidiary GAC has a net balance of deferred losses and gains on sale leaseback, whose deferral is subject to the payment of contractual installments made by its subsidiary VRG. Accordingly, as of March 31, 2015, the net balance to be deferred is essentially part of the net investment of the Parent Company in VRG. The net balance to be deferred as of June 30, 2015 was R\$20,159 (R\$23,406 as of December 31, 2014). For further details, see Note 30b.

15. Losses per share

Although there are differences between common and preferred shares in terms of voting rights and priority in case of liquidation, the Company's preferred shares are not entitled to receive any fixed dividends. The preferred stockholders are entitled to receive dividends per share 35 (thirty five) times of the dividends per share paid to common stockholders. Therefore, the Company understands that the economic capacity of the preferred shares is higher than the common shares.

Consequently, result per share is calculated by dividing the net income or loss by the weighted average number of all classes of shares outstanding during the period. Diluted earnings or loss per share are computed including stock options granted to key management and employees using the treasury shares method when the effect is dilutive. The antidilutive effect of all potential shares is disregarded in calculating diluted earnings or loss per share.

(a) Smiles holds a Stock Options Plan for its employees. These equity instruments have a dilutive effect on earnings per share of this subsidiary, impacting, therefore, the loss considered on the basis calculation of Company's diluted result per share, in accordance with CPC 41.

(b) The weighted average considers the split of common shares approved at the Extraordinary General Meeting held on March 23, 2015, in accordance with CPC 41 (IAS 33). Earnings per share presented reflects of the economic strenght of each class of shares.

Diluted result per share is calculated by the weighted average number of outstanding shares, in order to assume the conversion of all potential dilutive shares. Diluted result per share is calculated based on considering the instruments that may have a potential dilutive effect in the future, such as share-based payment transactions, described in Note 13. However, due to the losses reported for the period ended on June 30, 2015, these instruments issued have anti-dilutive effect and, therefore, are not considered in the total number of outstanding shares.

Covenants

Long-term financing (excluding perpetual bonds and financing of aircraft) in the total amount of R\$3,094,593, as of June 30, 2015 (R\$2,749,692 as of December 31, 2014), hold clauses and contractual restrictions, including but not limited to those that require the Company to maintain the liquidity requirements defined and the cover of expenses with interest.

The Company has restrictive covenants in its financing agreements with the following financial institutions: Bradesco and Banco do Brasil (Debentures IV e V), with semi-annual measurements. As of June 30, 2014, the funding by the debentures IV and V have the following restrictive clauses: (i) net debt/EBITDAR below 4.41, and (ii) coverage of debt (CID) of at least 1.00. On June 30, 2015, the Company performed measurement and obtained the following indexes: (i) net debt/EBITDAR of 7.64; (ii) and coverage of debt (CID) of 0.74. Thus, the Company did not meet the minimum levels required for the covenants mentioned above. However, as of June 26, 2015, the holders debenture decided, without restrictions, reservations or opposition, to issue the waivers. Thus, the Company maintained the classification of debentures IV and V in noncurrent liabilities.

a) New loans from the period ended June 30, 2015

(In thousands of Brazilian Reais - R\$, except when indicated otherwise)

i. **Import financing (Finimp):** on May 18, 2015, the subsidiary VRG obtained a financing in the amount of R\$13,377 (US\$4,274 at the date of the loan) by Banco do Brasil with 360 days maturity on May 13, 2016, effective rate of 4.43% p.a. with promissory note of 143% of the amount raised as guarantee. This operation is part of credit line maintained by the Company for import financing in order to purchase spare parts and aircraft equipments.

ii. **Loan for working capital by Safra:** on June 30, 2015, the subsidiary VRG obtained a new credit line with Bank Safra in order to supply the working capital in the amount of R\$120,000, with principal and interests maturity date on September 28, 2015, and issuance costs of R\$1,200, with fiduciary assignment as guarantee.

b) Financial leases

The future payments of financial leasing contracts indexed to U.S. Dollar are detailed as follow:

	Consolidated	
	06/30/2015	12/31/2014
2015	239,586	417,149
2016	466,264	399,179
2017	431,515	369,429

Labor lawsuits	5,401	3,296	8,697
Labor proceedings	190	2	192
	25,184	3,668	28,852

The civil lawsuits are primarily related to compensation claims generally related to flight delays and cancellations, baggage loss and damage. The labor claims primarily consist of discussions related to overtime, hazard pay, and wage differences.

The provisions related to civil and labor suits, whose likelihood of loss is assessed as probable are as follows:

	06/30/2015	12/31/2014
Civil	63,160	55,097
Labor	63,289	46,996
	126,449	102,093

Provisions are reviewed based on the progress of the proceedings and history of losses based on the best current estimate for labor and civil lawsuits.

There are other civil and labor lawsuits assessed by management and its legal counsel as possible risks, in the estimated amount as of June 30, 2015 of R\$16,945 for civil claims and R\$18,110 for labor claims (R\$15,786 and R\$2,341 as of December 31, 2014 respectively), for which no provisions are recognized.

The tax lawsuits below were evaluated by the Company's management and its legal consultants as being relevant and with probable risk as of June 30, 2015:

- GLAI is discussing the non-occurrence of taxation of PIS and COFINS on revenues generated by the interest on capital in the amount of R\$37,750, related to the years from 2006 to 2008, paid by its subsidiary GTA Transportes Aéreos S.A., succeeded by VRG on September 25, 2008. According to the opinion of the Company's legal counsel and based on the jurisprudence occurred in recent events, the Company classified this case as possible loss, without a provision registered for the related amount. Additionally, the Company maintains a letter of credit with Bic Banco with a partial guarantee on the lawsuit value of R\$22,116 as disclosed in Note 6.
- Tax on Services (ISS), the amount of R\$19,684 (R\$16,470 as of December, 31 2014) arising from assessment notices issued by the Prefeitura do Município de São Paulo against the Company, in the period from January, 2007 to December, 2010 regarding a possible ISS taxation on partners agreements. The classification of the possible risk stems from the matters under discussion and are interpretative, and involves discussions of factual and evidential materials, and has no final positioning of the Superior Courts.
- Customs Penalty in the amount of R\$18,783 (R\$33,956 as of December, 31 2014) relating to assessment notices issued against the Company for alleged breach of customs rules regarding procedures for temporary import of aircraft. The classification of possible risk is a result of the absence of a final positioning of the Superior Courts.

29. Operating segment

Operating segments are defined as business activities from which it may earn revenues and incur expenses, which operating results are regularly reviewed by the relevant decision makers to evaluate performance and allocate resources to the segments. The Company holds two operating segments: the airline industry and the loyalty program.

The accounting policies of the operating segments are the same as those applied to the consolidated Interim Financial Information. Additionally, the Company has distinct natures between the two reportable segments, which prevent any form of cost allocation, so there are no common costs and revenues between operating segments.

The Company is the majority shareholder of the subsidiary Smiles, being the non-controlling portion on its capital of 45.8% and 45.5% as of June 30, 2015 and December, 31 2014, respectively.

The information as follow presents the summarized financial position related to reportable segments for the period ended June 30, 2015 and December 31, 2014:

(a) Eliminations entries are fully represented by transactions among VRG and Smiles.

(b) Depreciation and amortization rate are allocated for each operating segment as follows: R\$197,086 in flight transportation segment and R\$817 in Loyalty Program Segment (R\$ 258,672 and R\$ 919 respectively on June 30, 2014).

In the individual Interim Financial Information of the subsidiary Smiles, which represents the segment Smiles Loyalty Program and in the information provided to the relevant decision makers, the revenue recognition occurs upon redemption of the miles by the participants. Under this perspective, this measurement is appropriate given that this is when the revenue recognition cycle is complete. At this point, Smiles has transferred to its suppliers the obligation to provide services or deliver products to its customers.

However, from a consolidated perspective, the revenue recognition cycle related to miles exchanged for flight tickets is only complete when the passengers are effectively transported. Therefore, for purposes of reconciliation with the consolidated assets, liabilities and results, as well as for purposes of equity method of accounting and for consolidation purposes, the Company performed, besides eliminations entries, consolidating adjustments to adjust the accounting practices related to Smiles' revenues. In this case, under the perspective of the consolidated Interim Financial Information, the miles that were used to redeem airline tickets are only recognized as revenue when passengers are transported, in accordance with accounting practices and policies adopted by the Company.

The installment financed by long-term debt with aircraft guarantee through the U.S. Ex-Im Bank corresponds approximately to 85% of the aircraft total cost. Other establishments finance the acquisitions with equal or higher percentages, reaching up to 100%.

The Company performs payments related to aircraft acquisition through its own funds, short and long-term debt, cash provided by operating activities, short and medium-term line of credit and supplier financing.

The Company leases its entire aircraft fleet through a combination of operational and financial leases. As of June 30, 2015, the total fleet leased was comprised of 142 aircraft, of which 97 were under operating leases and 45 were recorded as financial leases. The Company holds 40 aircraft under financial leasing with purchase option. During the period ended June 30, 2015, the Company received 2 aircraft and did not return any aircraft under operating lease contracts.

a) Operating leases

The future payments of non-cancelable operating lease contracts are denominated in U.S. Dollars, and are as follows:

	06/30/2015	12/31/2014
2015	452,462	785,052
2016	859,872	697,744

Beyond 2019	1,562,899	1,657,034
Total minimum lease payments	4,990,198	4,794,810

b) Sale-leaseback transactions

The Company, during the years 2006 to 2009, recorded gains and losses from sale-leaseback transactions of aircraft 737-800 Next Generation. These gains and losses were deferred, and are being amortized proportionally to the payments of the operational lease agreements over the contract term of 120 months. The amounts registered during the period ended June 30, 2015 and December 31, 2014 are as follows:

	Prepaid expenses				Other liabilities			
	Current		Noncurrent		Current		Noncurrent	
	06/30/2015	12/31/2014	06/30/2015	12/31/2014	06/30/2015	12/31/2014	06/30/2015	12/31/2014

Deferred gains (**)	-	-	-	-	1,783	1,783	445	1,337

(*) Related to 2 aircraft from transactions on 2006.

(**) Related to 11 aircraft from transactions from 2006 to 2009, see Note 10.

Additionally, during the period ended on June 30, 2015, the Company recorded a net gain of R\$18,153 resulting from 4 aircraft received during the period (R\$75,073 related to 9 aircraft received during the period ended June 30, 2014) that were used as sale-leaseback transactions and resulted in operating leases. Given that the gains and losses from sale-leaseback transactions will not be offset against future lease payments and were negotiated at fair value, such gain was recognized directly in profit or loss.

31. Financial instruments and risks management

The Company and its subsidiaries have financial asset and financial liability transactions, which consist in part of derivative financial instruments.

The financial derivative instruments are used to hedge against the inherent risks related to the Company operations. The Company and its subsidiaries consider as most relevant risks: fuel price, exchange rate and interest rate. These risks can be mitigated by using exchange swap derivatives, futures and options contracts based on oil, U.S. Dollar and interest markets. The contracts may be held by means of exclusive investment funds, as described in the Risk Management Policy of the Company.

The Management follows a documented guideline when managing its financial instruments, set out in its Risk Management Policy, which is periodically revised by the Risk Committee (CPR), and approved by the Board of Directors. The Committee sets the guidelines and limits, monitors controls, including the mathematical models adopted for a continuous monitoring of exposures and possible financial effects and also prevents the execution of speculative financial instruments transactions.

The gains or losses on these transactions and the application of risk management controls are part of the Committee's monitoring and have been satisfactory when considering the objectives proposed.

The fair values of financial assets and liabilities of the Company and its subsidiaries are established through information available in the market and according to valuation methodologies.

Most of the derivative financial instruments are engaged with the purpose of hedging against fuel and exchange rates risks based on scenarios with low probability of occurrence, and thus have lower costs compared to other instruments with higher probability of occurrence. Consequently, despite the high correlation between the hedged item and the derivative financial instruments contracted, can presents ineffective positions for hedge accounting purposes upon settlement, which are presented in the tables below.

The description of the consolidated account balances and the categories of financial instruments included in the statements of financial position as of June 30, 2015 and December 31, 2014 is as follows:

Risks

The operating activities expose the Company and its subsidiaries to the following financial risks: market (especially currency risk, interest rate risk, and fuel price risk), credit and liquidity risks. These risks are originated by, essentially, leasing agreements of aircraft purchase.

The Company's risk management policy aims at mitigating potential adverse effects from transactions that could affect its financial performance.

The Company's and its subsidiaries' decisions on the exposure portion to be hedged against financial risk, both for fuel consumption and currency and interest rate exposures, consider the risks and hedge costs.

The Company and its subsidiaries do not usually contract hedging instruments for its total exposure, and thus they are subject to the portion of risks resulting from market fluctuations. The portion of exposure to be hedged is determined and reviewed at least yearly in compliance with the strategies determined in the Risk Policies Committees. The relevant information on the main risks affecting the Company's and its subsidiaries' operation is as follows:

a) Fuel price risk

As of June 30, 2015, fuel expenses accounted for 33.9% of the costs and operating expenses of the Company. The aircraft fuel price fluctuates both in the short and in the long term, in line with crude oil and oil byproduct price fluctuations.

To mitigate the risk of fuel price, the Company holds derivative financial instruments referenced mainly to crude oil and, eventually, to their derivatives, also contracted, directly with the local supplier, are future fuel deliveries to aircraft at predetermined prices.

b) Exchange rate risk

The exchange rate risk derives from the possibility of unfavorable fluctuation of foreign currencies to which the Company's liabilities or cash flows are exposed. The exposure of the Company's and its subsidiaries' assets and liabilities to the foreign currency risk mainly derives from foreign currency-denominated trade accounts payable, leasing provision and leases and financing.

The Company's revenues are mainly denominated in Brazilian Reais, except for a small portion in U.S. Dollar, Argentinean pesos, Bolivian bolivianos, Chilean peso, Colombian peso, Paraguay Guarani, Uruguayan peso, Venezuela bolivar etc.

To mitigate the risk of exchange rate, the Company holds derivative financial instruments that are referenced to the U.S. Dollar.

The currency exposure of the Company on June 30, 2015 and December 31, 2014 is shown below:

c) *Interest rate risk*

The Company and its subsidiaries are exposed to fluctuations in domestic and foreign interest rates, substantially the CDI and Libor, respectively. The highest exposure is related to lease transactions, of which the installments to be paid are indexed to the Libor after date that the aircraft are delivered. Another relevant exposure is the local investments and debts indexed to the CDI rate.

To mitigate the interest rate risk the Company holds swap derivatives.

d) *Credit risk*

The credit risk is inherent in the Company's operating and financing activities, mainly represented by trade receivables, cash and cash equivalents, and short-term investments.

The trade receivable credit risk consists of amounts falling due from the largest credit card companies, with credit risk better than or equal to those of the Company and its subsidiaries, and receivables from travel agencies, installment sales, and government sales, with a small portion exposed to risks from individuals or other entities.

June 30, 2015

(In thousands of Brazilian Reais - R\$, except when indicated otherwise)

As defined in the Risk Management Policy, the Company is required to evaluate the counterparty risks in financial instruments and diversify the exposure. Financial instruments are contracted with counterparties rated at least as investment grade by S&P and Moody's. The financial instruments are mostly contracted on commodities and futures exchanges (BM&FBOVESPA and NYMEX), which substantially mitigate the credit risks, derivative transactions contracted on the OTC market (OTC) have counterparts with a minimum rating of "investment grade". The Company's Risk Management Policy establishes a maximum limit of 20% per counterparty for short-term investments.

e) Liquidity risk

Liquidity risk takes on two distinct forms: market and cash flow liquidity risk. The first is related to current market prices and varies in accordance with the types of assets and the markets where they are traded. Cash flow liquidity risk, however, is related to difficulties in meeting the contracted operating obligations at the agreed dates.

As a way of managing the liquidity risk, the Company invests its funds in liquid assets (governmental bonds, CDBs, and investment funds with daily liquidity), and the Cash Management Policy establishes that the Company's and its subsidiaries' weighted average debt maturity should be higher than the weighted average maturity of the investment portfolio. As of June 30, 2015, the weighted average maturity of the Company's financial assets was 33 days and of financial debt, excluding perpetual bonds, was 3.6 years.

The schedule of financial liability hold by the Company is shown bellow:

Classification of derivatives financial instruments

i. Cash flow hedges

The Company and its subsidiaries use cash flow hedges to hedge against future revenue or expense fluctuations resulting from changes in the exchange rates, interest rates or fuel price, and accounts for actual fluctuations of the fair value of derivative financial instruments in stockholders' equity until the hedged revenue or expense is recognized.

The Company estimates the effectiveness based on statistical correlation methods and the ratio between gains and losses on the financial instruments used as hedge, and the cost and expense fluctuation of the hedged items.

The instruments are considered as effective when the fluctuation in the value of derivatives offsets between 80% and 125% the impact of the price fluctuation on the cost or expense of the hedged item.

The balance of the actual fluctuations in the fair values of the derivatives designated as cash flow hedges is transferred from stockholders' equity to profit or loss for the period in which the hedged costs or expenses impacts profit or loss. Gains or losses on effective cash flow hedges are recorded in balancing accounts of the hedged expenses, by reducing or increasing the operating cost, and the ineffective gains or losses are recognized as financial income or financial expenses for the period.

ii. Derivative financial instruments not designated as hedge

The Company holds derivative financial instruments that are not formally designated for hedge accounting. This occurs when transactions are in the short term and the control and disclosure complexity.

Hedge activities

a) *Fuel hedge*

Due to the low liquidity of jet fuel derivatives traded in commodities exchanges, the Company and its subsidiaries contracts crude oil derivatives (WTI, Brent) and its byproducts (Heating Oil) to hedge against fluctuations in jet fuel prices. Historically, oil prices are highly correlated with aircraft fuel prices.

The gains and losses from the derivative contracts for the years ended June 30, 2015 and December 31, 2014 are summarized below:

Sensitivity analysis of derivative financial instruments

The sensitivity analysis of financial instruments was prepared according to CVM Instruction 475/08, in order to estimate the impact on the fair value of financial instruments operated by the Company, considering three scenarios considered in the risk variable: most likely scenario, the assessment of the Company; deterioration of 25% (possible adverse scenario) in the risk variable, deterioration 50% (remote adverse scenario).

The estimates presented, since they are based on simple statistics, do not necessarily reflect the amounts to be reported in the next Interim Financial Information. The use of different methodologies and/ or assumptions may have a material effect on the estimates presented.

The tables below show the sensitivity analysis for market risks and financial instruments considered relevant by management, open position as of June 30, 2015 and based on the scenarios described above.

The probable scenario of the Company is the maintaining of the market rates.

In the tables, positive values are displayed as asset exposures (assets higher than liabilities) and negative values are exposed liabilities (liabilities higher than assets).

Individual

i) *Foreign exchange risk*

As of June 30, 2015, the Company has a currency exposure of R\$2,287,611 (see Note 31b). On this date, the exchange rate adopted was R\$3.1026/US\$, corresponding to the closing rate of the month published by Banco Central do Brasil as a likely scenario, and the impacts analyzed from the variation of 25% and 50% over the current rate are shown as follow:

(*) Refers to the sum of the values invested and raised in the market and indexed to CDI, the negative amounts means more debt than application.

Measurement of the fair value of financial instruments

In order to comply with the disclosure requirements for financial instruments measured at fair value, the Company and its subsidiaries must classify its instruments in Levels 1 to 3, based on observable fair value levels:

a) Level 1: Fair value measurements are calculated based on quoted prices (without adjustment) in active market or identical liabilities;

b) Level 2: Fair value measurements are calculated based on other variables besides quoted prices included in Level 1, that are observable for the asset or liability directly (such as prices) or indirectly (derived from prices); and

c) Level 3: Fair value measurements are calculated based on valuation methods that include the asset or liability but that are not based on observable market variables (unobservable inputs).

The following table shows a summary of the Company's and its subsidiaries' financial instruments measured at fair value, including their related classifications of the valuation method, as of June 30, 2015 and December 31, 2014:

Financial instrument	06/30/2015		12/31/2014	
	Book value	Other significant observable factors (level 2)	Book value	Other significant observable factors (level 2)
	03/31/2015		12/31/2014

32. Non-cash transactions

Consolidated

As of June 30, 2015, the Company increased its property, plant and equipment in the amount of R\$18,031, related to an increase of the provision for aircraft return. This transaction did not affect its cash position during the period ended June 30, 2015.

As of June 30, 2015, the Company increased its losses recorded in "other comprehensive income" in the amount of R\$4,873 related to cash flow hedge. This transaction did not affect its cash position during the period ended June 30, 2015.

As of June 30, 2015, the Company reduced its supplier payables balance through acquisition of loan in the amount of R\$31,275. This transaction did not affect its cash position during the period ended June 30, 2015.

33. Insurance

As of June 31, 2015, the insurance coverage by nature, considering the aircraft fleet and related to the maximum reimbursable amounts indicated in U.S. Dollars, is as follows:

Aeronautical Type	In Reais	In U.S. Dollars
--------------------------	-----------------	------------------------

Guarantee - hull/war	14,969,180	4,824,721
Civil liability per event/aircraft (*)	2,326,950	750,000
Inventories (*)	434,364	140,000

(*) Values per incident and annual aggregate.

Pursuant to Law 10,744, of October 9, 2003, the Brazilian government assumed the commitment to complement any civil liability expenses related to third parties caused by war or terrorist events, in Brazil or abroad, which VRG may be required to pay, for amounts exceeding the limit of the insurance policies effective beginning September 10, 2001, limited to the amount in Brazilian Reais equivalent to one billion in U.S. Dollars.

34. Eventos subsequentes

On July 14, 2015, the Board of Directors authorized the increase of the Company's capital stock in the amount of R\$ 461,272, with possibility of partial approval of the increase, upon the private issuance of 64,065,611 preferred shares, registered, bookentry and with no par value, at the issuance price of R\$ 7.20 (seven reais and twenty cents) per share.

The Company's management has also considered the particular details of the capital increase, which aims at allowing the capitalization of the Company, by means of committed investments of up to US\$90 million by the controlling shareholder, and of up to US\$56 million by Delta, in the context of the extension of the strategic alliance between the Company and Delta. The Company's management has concluded that the net worth value of the Company's shares and the equity value obtained through the potential profitability of the Company are not proper methodologies for determining the issuance price at this moment, given the clear lack of factors suggesting that the intrinsic value of the Company is not reflected in trading price of the shares.
