FOR IMMEDIATE RELEASE - São Paulo, May 10th, 2018 – Gafisa S.A. (B3: GFSA3; NYSE: GFA), one of Brazil's leading homebuilders, reports today its financial results for the first quarter ended March 31st, 2018.

GAFISA ANNOUNCES 1Q18 RESULTS

Conference Call

May 11, 2018

Despite the uncertainties that remain on Brazil's economic landscape, with direct and relevant impacts on the real estate segment, particularly for the mid and mid-high income residential segment, the first quarter of 2018 consolidated the inflection point on the gradual improvement process of Gafisa's operational and financial performance, which has been signaled on previous quarters. It's important to mention that this inflection, although more notable and distinct, is still gradual and linear.

We launched one project in March, the Upside Pinheiros (São Paulo/SP), with PSV of R\$139 million, reaching an impressive SoS of 77.5%. Such performance, coupled with consistent results on the sales of the inventory of existing units, resulted in gross sales of R\$293.5 million in 1Q18, 35% higher year over year and 25% higher quarter over quarter.

Code: Gafisa

Another highlight in the quarter was a significant decrease of cancellations, which dropped to R\$57.7 million, what we believe should reflect a new level for the upcoming quarters. As a result of these factors, net pre-sales totaled R\$236 million, nearly twice the SoS of 14.4% in 4Q17 and 37.5% in the last 12 months.

Regarding financial performance, net revenue grew by 30% quarter over quarter and 56% year over year, bolstered by inventory sales growth, especially of the more recent projects (2016 and 2017), which have higher work evolution, and are, accordingly, more representative on revenues, as informed on previous quarters.

**+1 516 300-1066

Sales of more recent projects, with better margins, also contributed to adjusted gross profit reach R\$59 million, with an adjusted gross margin of 27.7%, reverting recent negative results. Gross profits considering capitalized interests totaled R\$23 million, and gross margin reached 10.7%.

The sensible strategy adopted in recent launches resulted in the balance of R\$231 million of Backlog Results (REF) in the quarter, with 37.0% margin to be recognized, 2.2. p.p. higher quarter over quarter,

signaling positive prospects for revenue and gross margin.

Replay: With our philosophy of austerity and ongoing push to increase efficiency, general and administrative expenses totaled R\$19 million, 23% lower quarter over quarter and 32% year over year. Selling expenses came to R\$24 million, stable quarter over quarter and 27% higher year over year, reflecting the increase in the number of launches in the period.

reflecting the already mentioned improved margins and demonstrating, once again, the results recovery process.

Net financial expenses of R\$20 million also showed positive evolution in comparison to the net expenses of R\$24 million in 4Q17 and of R\$29 million in 1Q17, with the reductions due to the lower Company's indebtedness.

Thus, Gafisa's net loss came to R\$55.9 million in 1Q18, versus a net loss of R\$463 million in 4Q17 and R\$49 million in 1Q17.

Another highlight of the period was the conclusion of the capital increase process, which totaled R\$251 million, and resulted in the postponement of R\$456.3 million in corporate debts for 2020 and 2021, substantially reducing the pressure on short-term obligations over cash flow. The successful conclusion of this process enhanced the Company's position to operate in this new cycle of the real estate market.

Following the execution of the Company's strategy to adjust its capital structure, gross debt totaled R\$983 million at the end of 1Q18, 11.0% lower quarter over quarter. Net debt, was reduced by 19% quarter over quarter and totaled R\$778.5 million. Leverage, as measured by the ratio of net debt to shareholders' equity, fell from 126.1% at the end of 2017 to 81.6% at the end of 1Q18. Excluding project finance, the net debt to shareholders' equity ratio was 9.6%.

Regarding liquidity and cash management, the operating cash flow was negative at R\$32 million, due to the reduced number of deliveries in the last periods and accordingly, lower transfer volume. Net cash generation came negative at R\$71.9 million.

Even in a scenario still characterized by economic and political uncertainties and as we have signaled in the previous quarters, the evolution on the Company's operational and financial performance leads us to believe that we are experiencing a gradual and linear inflection of the results. This inflection is a consequence of the strategy adopted over the previous periods, including, but not limited to: assertiveness in launches, deleveraging, focus on inventory sales, and operational and administrative efficiency. We are confident that this positive trend should be confirmed throughout the year, with the increased participation of the more recent projects in Gafisa's results combined with the recovery of the Brazilian real estate market.

Launches

In 1Q18 Gafisa launched the Upside Pinheiros in the City of São Paulo/SP. Although this project was launched at the end of the quarter, it reached a valuable SoS of 77.5% in the period, validating Gafisa's decision-making process and its careful analysis of the launch process.

Table 2 - Launches (R\$ 000)

São Paulo/SP	1Q18	138,715

Net Pre-Sales

In 1Q18, gross sales totaled R\$293.5 million, 35.2% and 24.6% higher than in 4Q17 and 1Q17, respectively, reflecting not only a good performance of launch sales in the quarter, as previously mentioned, but also a consistent performance of inventory gross sales, which grew by 24.6% year over year and 51.1% quarter over quarter.

Cancellations significantly decreased in 1Q18, 39.5% and 51.2% from 4Q17 and 1Q17, respectively, reflecting lower volume of deliveries in the quarter and a more favorable scenario, which should represent a new level for the upcoming quarters.

As a result of gross sales performance and cancellations in 1Q18, net pre-sales grew by 93.5% and 100.8% from 4Q17 and 1Q17, respectively, and totaled R\$235.8 million in the period.

The project launched this quarter accounted for 45.4% of net pre-sales in the period. Out of the R\$128.7 million net pre-sales of remaining inventories (launched in 2017 or before) in 1Q18, 69.6% were projects launched until the end of 2015, improving our inventory profile.

Sales over Supply (SoS)

A good performance of launches drove quarterly SoS, which increased from 7.3% in 4Q17 to 14.4% in 1Q18. Gafisa's efficient business strategy can be seen in SoS LTM, which grew from 32.0% in 4Q17 to 37.5% in 1Q18.

Inventory (Property for Sale)

The inventory at market value reached R\$1,396.7 million at the end of 1Q18, 8.8% lower than in 4Q17. Compared to 1Q17, inventory decreased 14.6%, clearly representing the strategy of focusing on the sale of inventories with a reduced number of launches.

¹ Adjustments reflect the updates related to the project scope, launch date and pricing update in the period.

Gafisa continues to maintain a commercial balance between more recent projects and finished units. The inventory of finished units totaled R\$446.0 million in 1Q18 (31.9% of total).

The projects inventory located outside of strategic markets, of R\$59.0 million, accounts for 4.2% of the total inventory, of which 56.4% are finished units.

Of the total completed inventory, 62.7% are commercial projects. This proportion is due to lower sales speed in this segment, where liquidity still is significantly lower.

Delivered Projects and Transfer

No deliveries occurred in 1Q18. On March 31st, Gafisa managed the construction of 20 projects, **all of which** are on schedule according to the Company's business plan.

Over the past few years, the Company has been taking steps to improve the performance of its receivables/transfer process, aiming to maximize the return rates on capital employed. Currently, the Company's directive is to conclude the sales process of 90% of eligible units in a 90-day period after the delivery of the project. In accordance with this policy, PSV transfers in 1Q18 totaled R\$59.0 million, 21.2% lower than in 4Q17 and 42.0% lower than in 1Q17, due to a reduced number of deliveries in 1Q18 compared to previous

periods.

Gross Profit & Margin

Adjusted gross profit totaled R\$59.1 million in 1Q18, a substantial growth compared to 4Q17 (which was impacted by the impairment in some land areas and inventory units) and 1Q17, with an adjusted gross margin of 27.7%. Financial Results

In 1Q18, financial results totaled R\$5.3 million, 11.7% lower than in 4Q17 and 32.1% lower than in 1Q17, mainly reflecting the interest rate drop incurring on balance of cash equivalents in the period. Financial expenses reached R\$25.3 million, compared to R\$30.3 million in 4Q17 and R\$36.4 million in 1Q17, driven by lower debt balance in the period.

Thus, the net financial result was negative R\$19.9 million in 1Q18, compared to negative net financial result of R\$24.2 million in 4Q17 and R\$28.6 million in 1Q17.

Net Income

As a result of previously discussed events, the Company posted a net loss of R\$55.9 million, compared to a net loss of R\$462.6 million in 4Q17 and R\$49.4 million in 1Q17.

Liquidity

On February 28th, 2018, Gafisa's Board of Directors ratified the capital increase approved at the Extraordinary General Meeting of December 2017. The capital increase, totaling R\$250.8 million, contributed to adjust the capital structure and reinforces the Company's position to operate in this new growth cycle of the real estate market.

At the end of 1Q18, the Company's Net Debt/Shareholders' Equity ratio was 81.6%, compared to 126.1% at the end of 4Q17, mainly reflecting the Company's capital increase. Excluding project finance, the Net Debt/Shareholders' Equity ratio was 9.6%.

In 1Q18, the gross debt reached R\$983.5 million, down 11.0% q-o-q, with an expressive 38.0% reduction y-o-y. The net debt amounted to R\$778.5 million, 18.7% and 42.2% lower than in 4Q17 and 1Q17, respectively.
