Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

Performance Incentive Program

On December 20, 2010, the Compensation Committee of the Board of Directors of National Fuel Gas Company (the "Company") established long-term performance incentives under the National Fuel Gas Company Performance Incentive Program (the "Program") for a performance period of October 1, 2010 to September 30, 2013. The Compensation Committee established levels of performance at which 50%, 100%, 150% and 200% of the target incentive will be payable, as described below. For performance levels between established levels, a portion of the target incentive will be payable as determined by mathematical interpolation.

The performance condition for the October 1, 2010 to September 30, 2013 performance period is the Company's total return on capital as compared to the same metric for peer companies in the Natural Gas Distribution and Integrated Natural Gas Companies group as calculated and reported in the Monthly Utility Reports of AUS, Inc., a leading industry consultant ("AUS"). In determining the Company's total return on capital for purposes of this comparison, the Compensation Committee may adjust the AUS calculation of the Company's total return on capital so as to include any gains realized by the Company on the sale of operations that were reported under Generally Accepted Accounting Principles as discontinued operations.

Payment will be made in accordance with the Program if the Company achieves certain levels of performance relative to the peer group. For example, if the Company achieves a rank, as a percentile of the peer group, of 60%, then 100% of the target incentive will be paid. Other performance levels may result in payments ranging from 0% to 200% of the target incentive.

For the October 1, 2010 to September 30, 2013 performance period, the Compensation Committee established the following target incentives for the principal executive officer, principal financial officer and named executive officers of the Company: David F. Smith, \$765,000; David P. Bauer, \$120,000; Ronald J. Tanski, \$430,000; Matthew D. Cabell, \$300,000; Anna Marie Cellino, \$230,000; and James D. Ramsdell, \$120,000.

Bauer, Treasurer and Principal Financial Officer of the Company; and James D. Ramsdell, Senior Vice President of Distribution Corporation. Stock Appreciation Rights

On December 20, 2010, the Compensation Committee granted stock appreciation rights ("SARs") under the Company's 2010 Equity Compensation Plan (the "2010 Plan") to certain officers of the Company, including the following grants to the principal executive officer, principal financial officer and named executive officers of the Company: D. F. Smith, 37,500; D. P. Bauer, 5,000; R. J. Tanski, 25,000; M. D. Cabell, 22,500; A. M. Cellino, 15,000; and J. D. Ramsdell, 5,000. A brief description of the principal terms and conditions of the SARs is provided below.

The grant price of each SAR is the fair market value of the Company's common stock on the date of grant. "Fair market value," as defined in the 2010 Plan, means the average of the high and low reported sales prices of a share of the Company's common stock, which was \$63.865 per share on December 20, 2010. Absent a change in control of the Company, the SARs vest and become exercisable annually in one-third increments, commencing on December 20, 2011. In the event of a change in control of the Company, the SARs will become exercisable or will be replaced by alternative awards, in accordance with the 2010 Plan. The SARs will not be exercisable in whole or in part after December 20, 2020.

Upon the exercise of a SAR, the grantee will be entitled to receive from the Company a payment in cash, in shares of common stock of the Company or in a combination of cash and shares of common stock of the Company, as determined by the Committee. The payment will be equal in value to the excess, if any, of the fair market value on the date of exercise of one share of common stock of the Company over the grant price, multiplied by the number of shares in respect of which the SAR is being exercised.

Restricted Stock

On December 20, 2010, the Compensation Committee awarded restricted stock under the Company's 1997 Award and Option Plan (the "1997 Plan") to certain officers of the Company, including the following awards to the principal executive officer, principal financial officer and named executive officers of the Company: D. A brief description of the principal terms and conditions of the restricted stock is provided below.

The restricted stock vests annually in one-third increments, commencing on December 20, 2011. In the event an officer's employment terminates due to death or disability, the portion of such officer's restricted stock that is then unvested will vest immediately. In the event of a Change in Ownership or Change in Control as those terms are defined in the 1997 Plan, the provisions of the 1997 Plan will control. In the event an officer's employment terminates prior to a vesting date for any other reason (including for cause or as a result of a voluntary resignation at any age, including retirement), then the portion of such officer's restricted stock associated with that vesting date and with all subsequent vesting dates will be automatically forfeited. The holders of the restricted stock have the right to vote such shares and to receive dividends with respect to such shares.
