RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2016
(unaudited)

NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION

Resource Capital Corp. and subsidiaries' (collectively the "Company") principal business activity is to originate, purchase and manage a diversified portfolio of commercial real estate-related assets and commercial finance assets. The Company's investment activities are managed by Resource Capital Manager, Inc. ("Manager") pursuant to a management agreement (the "Management Agreement"). The Manager is a wholly-owned indirect subsidiary of Resource America, Inc. ("Resource America") (NASDAQ: REXI). In September 2013, it was determined that the Company is a variable interest entity ("VIE") and that Resource America was the primary beneficiary of the Company. In December 2015, Resource America early adopted the consolidation guidance issued by the Financial Accounting Standards Board ("FASB") (see Note 2) and it was determined that the Company was no longer a VIE. Therefore, the Company's financial statements are no longer consolidated into Resource America's financial statements.

On January 1, 2016, the Company adopted the amendments to the consolidation guidance as outlined in Note 2. As a result of its evaluation, the Company determined that it is no longer the primary beneficiary of the following VIEs and therefore, deconsolidated these entities: Resource Real Estate Funding CDO 2006-1, Ltd. ("RREF CDO 2006-1"), Resource Real Estate Funding CDO 2007-1, Ltd. ("RREF CDO 2007-1"), Apidos Cinco CDO, Ltd. ("Apidos Cinco CDO"), Pelium Capital Partners, L.P., ("Pelium Capital") and RCM Global, LLC ("RCM Global").

The following subsidiaries are consolidated in the Company's financial statements:

RCC Real Estate, Inc. ("RCC Real Estate") holds real estate investments, including commercial real estate loans, commercial real estate-related securities and direct investments in real estate. RCC Real Estate owns 100% of the equity of the following VIEs:

RREF CDO 2006-1, a Cayman Islands limited liability company and qualified real estate investment trust ("REIT") subsidiary ("QRS"). RREF CDO 2006-1 was established to complete a collateralized debt obligation ("CDO") issuance secured by a portfolio of commercial real estate ("CRE") loans and commercial mortgage-backed securities ("CMBS"). This entity was deconsolidated as of January 1, 2016 and the retained investment is now accounted for as an investment security, available-for-sale (see Note 2) in its consolidated financial statements. On April 25, 2016, RREF CDO 2006-1 was liquidated, and in exchange for the Company's interests in RREF CDO 2006-1, the Company was distributed the remaining assets of the CDO, comprised of investment securities available-for-sale and loans held for investment, which were recorded at fair value.

RREF CDO 2007-1, a Cayman Islands limited liability company and QRS. RREF CDO 2007-1 was established to complete a CDO issuance secured by a portfolio of CRE loans and CMBS. This entity was deconsolidated as of January 1, 2016 and the retained investment is now accounted for as an investment security, available-for-sale (see Note 2) in its consolidated financial statements.

Resource Capital Corp. CRE Notes 2013, Ltd. ("RCC CRE Notes 2013"), a Cayman Islands limited liability company and QRS, was established to complete a CRE securitization issuance secured by a portfolio of CRE loans.

Resource Capital Corp. 2014-CRE2, Ltd. ("RCC 2014-CRE2"), a Cayman Islands limited liability company and QRS, was established to complete a CRE securitization issuance secured by a portfolio of CRE loans.

Resource Capital Corp. 2015-CRE3, Ltd. ("RCC 2015-CRE3"), a Cayman Islands limited liability company and QRS, was established to complete a CRE securitization issuance secured by a portfolio of CRE loans.

Resource Capital Corp. 2015-CRE4, Ltd. ("RCC 2015-CRE4"), a Cayman Islands limited liability company and QRS, was established to complete a CRE securitization issuance secured by a portfolio of CRE loans.

RCC Commercial, Inc. ("RCC Commercial") holds a 29.6% investment in Northport TRS, LLC ("Northport LLC") and owns 100% of the equity of the following VIE:

Apidos CDO III, Ltd. ("Apidos CDO III"), a Cayman Islands limited liability company and taxable REIT subsidiary ("TRS"), was established to complete a CDO issuance secured by a portfolio of bank loans and asset-backed securities ("ABS"). On March 31, 2015, the Company issued a notice of redemption to Apidos CDO III's trustee to call the CDO. In June 2015, the Company liquidated Apidos CDO III and, as a result, all of the assets were sold.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

RCC Commercial II, Inc. ("Commercial II") holds structured notes, available-for-sale securities and investments in the subordinated notes of foreign, syndicated bank loan collateralized loan obligation ("CLO") vehicles. Commercial II owns 100%, 68.3%, and 88.6% respectively, of the equity of the following VIEs:

Apidos Cinco CDO, a Cayman Islands limited liability company and TRS, was established to complete a CDO issuance secured by a portfolio of bank loans, ABS and corporate bonds. This entity was deconsolidated as of January 1, 2016 and the retained investment is now accounted for as an investment security, available-for-sale (see Note 2).

Whitney CLO I, Ltd. ("Whitney CLO I"), a Cayman Islands limited liability company and TRS. In September 2013, the Company liquidated Whitney CLO I and, as a result, all of the assets were sold.

Moselle CLO S.A. ("Moselle CLO"), incorporated in Luxembourg, is a CLO issuer whose assets consisted of European senior secured loans, U.S. senior secured loans, U.S. senior unsecured loans, U.S. second lien loans, European mezzanine loans, and a limited amount of synthetic securities and other eligible debt obligations. In December 2014, the Company liquidated Moselle CLO and, as a result, substantially all of the assets were sold.

RCC Commercial III, Inc. ("Commercial III") holds bank loan investments. Commercial III owns 90% of the equity of the following VIE:

Apidos CDO I, Ltd. ("Apidos CDO I"), a Cayman Islands limited liability company and TRS was established to complete a CDO issuance secured by a portfolio of bank loans and ABS. In October 2014, the Company liquidated Apidos CLO I, and as a result, substantially all of the assets were sold.

Resource TRS, Inc. ("Resource TRS"), a TRS directly owned by the Company, holds the Company's equity investment in a leasing company and holds all of its investment securities, trading (through both direct and indirect investments in such securities). Resource TRS also owns equity in the following:

Resource TRS, LLC, a Delaware limited liability company, which holds a 25.8% investment in Northport LLC. Northport LLC, a Delaware limited liability company, which holds bank loan investments and the Company's self-originated middle market loans. Resource TRS owns 44.6% of the equity in Northport LLC as of June 30, 2016. The remaining 29.6% of the equity is owned by RCC Commercial.

Pelium Capital, a Delaware limited partnership, which holds investment securities, trading. Resource TRS owns 80.2% of the equity in Pelium Capital as of June 30, 2016. This entity was deconsolidated as of January 1, 2016 and the retained investment is now accounted for as an equity method investment (see Note 2).

Resource TRS II, Inc. ("Resource TRS II"), a TRS directly owned by the Company, holds the Company's management rights in bank loan CLOs not originated by the Company. Resource TRS II owns 100% of the equity of the following VIE:

Resource Capital Asset Management ("RCAM"), a domestic limited liability company, which is entitled to collect senior, subordinated, and incentive fees related to two CLO issuers to which it provides management services through CVC Credit Partners, L.P., formerly Apidos Capital Management ("ACM"), a subsidiary of CVC Capital Partners SICAV-FIS, S.A., a private equity firm ("CVC"). Resource America, Inc. owns a 24% interest in CVC Credit Partners, L.P., ("CVC Credit Partners").

Resource TRS III, Inc. ("Resource TRS III"), a TRS directly owned by the Company, held the Company's interests in a bank loan CDO originated by the Company. Resource TRS III previously owned 33% of the equity of Apidos CLO VIII, Ltd ("Apidos CLO VIII"), a Cayman Islands limited liability company and TRS, which was liquidated in October 2013.

Resource TRS IV, Inc. ("Resource TRS IV"), a TRS directly owned by the Company, held the Company's equity investment in hotel condominium units acquired in conjunction with a loan foreclosure. The hotel condominium units were sold in April 2014.

Edgar Filing: Resource Capital Corp. - Form 10-Q

Resource TRS V, Inc. ("Resource TRS V"), a TRS directly owned by the Company, held the Company's equity investment in a held for sale condominium complex. All of the condominium units were sold as of December 31, 2013.

RSO EquityCo, LLC owned 10% of the equity of Apidos CDO I and 10% of the equity of Apidos CLO VIII.

Long Term Care Conversion, Inc. ("LTCC"), a TRS directly owned by the Company, is a Delaware corporation that owns 100% of the following entities:

Long Term Care Conversion Funding ("LTCC Funding"), a New York limited liability company, which owns a 70.9% equity interest in Life Care Funding, LLC ("LCF") and provides funding through a financing facility to fund the acquisition of life settlement contracts. LCF, a New York limited liability company, is a joint venture between LTCC and Life Care Funding Group Partners and was established for the purpose of acquiring life settlement contracts.

ZWH4, LLC ("ZAIS"), a Delaware limited liability company, which owned a beneficial interest in the warehouse credit facility of ZAIS CLO 4, Limited, is a Cayman Islands exempted limited liability company, in equity form, that is used to finance the purchase of syndicated bank loans. The warehouse credit facility closed on May 5, 2016, at which time, Resource TRS III purchased a beneficial interest in ZAIS CLO 4.

RCC Residential, Inc. ("RCC Residential"), a TRS directly owned by the Company, is a Delaware corporation which owns 100% of the following entities:

Primary Capital Mortgage, LLC ("PCM"), (formerly known as Primary Capital Advisors, LLC), a limited liability company that originates and services residential mortgage loans.

RCM Global Manager, LLC ("RCM Global Manager"), a Delaware limited liability company, owns 25.9% of the following entity:

RCM Global, a Delaware limited liability company, holds a portfolio of investment securities, available-for-sale.

This entity was deconsolidated as of January 1, 2016 and the retained investment is now accounted for as an equity method investment (see Note 2).

RCC Residential Portfolio, Inc. ("RCC Resi Portfolio"), a Delaware corporation directly owned by the Company, invests in residential mortgage-backed securities ("RMBS").

RCC Residential Portfolio TRS, Inc. ("RCC Resi TRS"), a TRS directly owned by the Company, is a Delaware corporation which intends to hold strategic residential mortgage positions which cannot be held by RCC Resi Portfolio.

RCC Residential Depositor, LLC ("RCC Resi Depositor"), a Delaware limited liability company, owns 100% of the following entity:

RCC Residential Acquisition, LLC ("RCC Resi Acquisition"), a Delaware limited liability company, purchases residential mortgage loans from PCM and transfers the assets to RCC Opportunities Trust ("RCC Opp Trust").

*RCC Opp Trust, a Delaware statutory trust, which holds a portfolio of residential mortgage loans, available-for-sale.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reverse Stock Split and Amended and Restated Certificate of Incorporation

Effective August 31, 2015, the Company completed a one-for-four reverse stock split of its outstanding common stock. The accompanying financial statements and notes to the financial statements give retroactive effect to the reverse stock split for all periods presented. In addition, the Company adopted an Amended and Restated Certificate of Incorporation, which provides that its authorized capital stock consists of 125,000,000 shares of common stock, \$0.001 par value per share, and 100,000,000 shares of preferred stock, \$0.001 par value per share.

Principles of Consolidation

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") and the accounting policies set forth in Note 2 included in our annual report on Form 10-K for the year ended December 31, 2015. The consolidated financial statements include the accounts of the Company. All inter-company transactions and balances have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and all highly liquid investments with original maturities of three months or less at the time of purchase. At June 30, 2016 and December 31, 2015, approximately \$61.7 million and

Edgar Filing: Resource Capital Corp. - Form 10-Q

\$74.3 million of the reported cash balances exceeded the Federal Deposit Insurance Corporation deposit insurance limit of \$250,000 per institution, subjecting the Company to risk related to the uninsured balance. All of the Company's cash deposits are held at large, established financial institutions.

(unaudited)

Income Taxes

Because modest changes in projected income or loss produce a significant variance in estimates of the Company's annual effective tax rate, the Company records its tax provision (benefit) based on its actual effective tax rate.

Recent Accounting Standards

In June 2016, the FASB issued guidance which will change how credit losses for most financial assets and certain other instruments that are measured at fair value through net income are determined. The new guidance will replace the current incurred loss approach with an expected loss model for instruments measured at amortized cost. For available-for-sale debt securities, the guidance requires recording allowances rather than reducing the carrying amount, as it is currently under the other-than-temporary impairment model. It also simplifies the accounting model for credit-impaired debt securities and loans. This guidance is effective for annual reporting periods beginning after December 15, 2019, and interim periods within that reporting period. Early adoption is permitted for annual periods beginning after December 15, 2018, and interim periods within that reporting period, with any adjustments reflected as of the beginning of the fiscal year of adoption. The Company is in the process of evaluating the impact of this new guidance.

In March 2016, the FASB issued guidance intended to simplify various aspects related to how share-based payments are accounted for and presented in the financial statements. The new guidance allows for entities to make an entity-wide accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures when they occur. In addition, the guidance allows employers to withhold shares to satisfy minimum statutory tax withholding requirements up to the employees' maximum individual tax rate without causing the award to be classified as a liability. The guidance also stipulates that cash paid by an employer to a taxing authority when directly withholding shares for tax-withholding purposes should be classified as a financing activity on the statement of cash flows. This guidance is effective for annual reporting periods beginning after December 15, 2016, and interim periods within that reporting period. Early adoption is permitted in any interim or annual period, with any adjustments reflected as of the beginning of the fiscal year of adoption. The Company is in the process of evaluating the impact of this new guidance.

In February 2016, the FASB issued guidance requiring lessees to recognize a lease liability and a right-of-use asset for all leases. Lessor accounting will remain largely unchanged. The guidance will also require new qualitative and quantitative disclosures to help financial statement users better understand the timing, amount and uncertainty of cash flows arising from leases. This guidance will be effective for reporting periods beginning on or after December 15, 2018, with early adoption permitted. The Company is currently evaluating the impact of this guidance and its impact on our consolidated financial statements.

In January 2016, the FASB issued guidance to address certain aspects of recognition, measurement, presentation and disclosure of financial instruments in order to provide users of financial statements with more decision-useful information. The guidance requires equity investments to be measured at fair value with changes in fair value recognized in net income; simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments; requires separate presentation

of financial assets and financial liabilities by measurement category and form of financial assets on the balance sheet or the accompanying notes to the financial statements and clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. It is effective for annual reporting periods, and the interim periods within those periods, beginning after December 15, 2017 and early adoption is permitted for certain provisions. The Company is currently evaluating the effect of adoption.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
JUNE 30, 2016
(unaudited)

In September 2015, the FASB issued guidance that simplifies the accounting for adjustments made to provisional amounts recognized in a business combination, which are currently recognized on a retrospective basis. Under the new requirements, adjustments to provisional amounts will be recognized in the reporting period in which the adjustments are determined. The effects of changes in depreciation, amortization, or other income arising from changes to the provisional amounts, if any, are included in earnings of the reporting period in which the adjustments to the provisional amounts are determined. An entity is also required to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. It is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Adoption did not have a material impact on the Company's consolidated financial statements.

In April 2015, the FASB issued guidance that simplifies the presentation of debt issuance costs by requiring that debt issuance costs be presented in the balance sheet as a deduction from the carrying amount of the related debt liability, consistent with debt discounts or premiums. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. It is effective for annual reporting periods beginning after December 15, 2015. The Company has early adopted the provisions of this guidance. Note 12, Borrowings, reflects the presentation of debt issuance costs as prescribed by this accounting standards update. Adoption did not have a material impact on the Company's consolidated financial statements.

In February 2015, the FASB issued guidance that requires an entity to evaluate whether it should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. Specifically, the amendments: (1) modify the evaluation of whether limited partnerships and similar legal entities are VIEs; (2) eliminate the presumption that a general partner should consolidate a limited partnership; (3) affect the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related-party relationships; and (4) provide a scope exception from consolidation guidance for reporting entities with interests in legal entities that are required to comply with or operate in accordance with requirements that are similar to those in Rule 2a-7 of the Investment Company Act of 1940 for registered money market funds. This guidance is effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015.

On January 1, 2016, the Company adopted the above guidance as required. As a result of its re-evaluation, the Company determined it is no longer the primary beneficiary of the following VIEs and, therefore, they were deconsolidated: RREF CDO 2006-1, RREF CDO 2007-1, Apidos Cinco CDO, Pelium Capital, and RCM Global. As a result of these deconsolidations, the Company will no longer reflect the underlying collateral (loans and securities) of those VIEs in its consolidated financial statements. Instead, the Company will prospectively reflect in its consolidated balance sheet, its direct investments (the "retained investments") in the issued and outstanding securities of those VIEs. The Company's retained investments in RREF CDO 2006-1, RREF CDO 2007-1, Apidos Cinco CDO are now accounted for as investment securities, available-for-sale and, as a result, are marked-to-market while the Company's retained investments in Pelium Capital and RCM Global are accounted for as equity method investments. The Company has elected to retrospectively reflect the deconsolidation of these entities on a modified basis, which resulted in a reduction to the beginning balance of retained earnings as of January 1, 2016, of \$16.9 million. The reduction to retained earnings represents the effect of marking the investments to market as of the date of the required adoption.

The following table summarizes the net impact of the deconsolidation of the five VIEs upon adoption on January 1, 2016 (in thousands) net of eliminations:

	Total Deconsolidated VIEs	Retained Interest as of 1/1/2016	Net Impact on Deconsolidation
ASSETS:			
Cash and cash equivalents	\$ 472	\$—	\$ 472
Restricted cash	17,076	—	17,076
Loans, pledged as collateral and net of allowances ⁽¹⁾⁽²⁾⁽³⁾	364,589	—	364,589
Loans held for sale	1,322	—	1,322
Investment securities available-for-sale, at fair value	68,997	166,769	(97,772)
Investment securities, trading	21,851	—	21,851
Investments in deconsolidated entities	17,250	23,175	(5,925)
Interest receivable	4,299	—	4,299
Principal paydown receivable	17,800	—	17,800
Prepaid expenses	256	—	256
Other assets	972	—	972
Total assets	\$ 514,884	\$ 189,944	\$ 324,940
LIABILITIES:			
Borrowings	\$ 297,191	\$—	\$ 297,191
Accrued interest expense	297	—	297
Derivative liabilities, at fair value	3,346	—	3,346
Accounts payable and other liabilities	255	—	255
Total liabilities	301,089	—	301,089
Retained earnings	206,876	189,944	16,932
Non-controlling interests	8,876	—	8,876
Accumulated other comprehensive loss	(1,957)	—	(1,957)
Total equity	213,795	189,944	23,851
Total liabilities and equity	\$ 514,884	\$ 189,944	\$ 324,940

(1) As part of the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1, \$40.3 million of specific reserves and \$142,000 of general reserves on CRE loans were deconsolidated as of January 1, 2016.

(2) As part of the deconsolidation of Apidos Cinco CDO, \$1.3 million of specific reserves on the bank loans were deconsolidated as of January 1, 2016.

(3) As part of the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1, the Company deconsolidated four loans representing the senior participations in commercial real estate loans totaling \$91.3 million that were previously disclosed as both impaired loans and troubled debt restructurings as of December 31, 2015.

In November 2014, the FASB issued guidance to eliminate the use of different methods in practice and thereby reduce existing diversity under GAAP in the accounting for hybrid financial instruments issued in the form of shares. An entity that issues or invests in a hybrid financial instrument is required to separate an embedded derivative feature from the host contract (for example, an underlying share) and account for the feature as a derivative according to Accounting Standards Codification ("ASC") Subtopic 815-10 on derivatives and hedging if certain criteria are met.

This guidance is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Adoption did not have a material impact on the Company's consolidated financial statements. In August 2014, the FASB issued guidance that clarifies the disclosures management must make in its interim and annual financial statement footnotes when management has determined that conditions exist that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date the financial statements are issued (or within one year after the date the financial statements are available to be issued when applicable). In accordance with this guidance, management's assessment is required to be made each reporting period and should be based on relevant conditions and events that are known and reasonably knowable at the date the financial statements are issued. In all cases, to the extent that substantial doubt about the entity's ability to continue as a going concern is determined to be probable, management must disclose the principal conditions or events that gave rise to the substantial doubt about the entity's ability to continue as a going concern, management's evaluation

[\(Back to Index\)](#)

15

[\(Back to Index\)](#)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

of the significance of those conditions or events in relation to the entity's ability to meet its obligations, and management's plans that either alleviate or are intended to mitigate the conditions or events that gave rise to the substantial doubt about the entity's ability to continue as a going concern. Additionally, to the extent substantial doubt about the entity's ability to continue as a going concern is not alleviated by management's plans, management must indicate in the footnotes that there is substantial doubt about the entity's ability to continue as a going concern. This guidance is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early adoption is permitted. The Company is currently evaluating the effect of adoption.

In August 2014, the FASB issued guidance that provides for the election of a measurement alternative when a reporting entity determines that it is the primary beneficiary of a collateralized financing entity and, hence, is required to consolidate that collateralized financing entity. The measurement alternative allows a qualifying consolidated collateralized financing entity to use the more observable of the fair value of the financial assets or the fair value of the financial liabilities adjusted by the carrying amount of non-financial assets and the fair value of any beneficial interests retained by the reporting entity (including those beneficial interests that represent compensation for services). Alternatively, if the measurement alternative is not elected for a qualifying consolidated collateralized financing entity, this guidance requires that the financial assets and financial liabilities be measured in accordance with ASC Topic 820, and that any difference in the fair value of the financial assets and the fair value of the financial liabilities be reflected in earnings and attributed to the reporting entity in the consolidated statement of operations. This guidance is effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Adoption did not have a material impact on the Company's consolidated financial statements.

Reclassifications

Certain reclassifications have been made to the 2015 consolidated financial statements to conform to the 2016 presentation.

NOTE 3 - VARIABLE INTEREST ENTITIES

The Company has evaluated its securities, loans, investments in unconsolidated entities, liabilities to subsidiary trusts issuing preferred securities (consisting of unsecured junior subordinated notes), securitizations, guarantees and other financial contracts in order to determine if they are variable interests in VIEs. The Company regularly monitors these legal interests and contracts and, to the extent it has determined that it has a variable interest, analyzes the related entity for potential consolidation. A VIE is required to be consolidated by its primary beneficiary, which, generally, is the entity that has the power to direct the activities that are most significant to the VIE and the right to receive benefits or the obligation to absorb losses that could potentially be significant to the VIE. The Company continuously analyzes entities in which it holds variable interests, including when there is a reconsideration event, to determine whether such entities are VIEs and whether such potential VIEs should be consolidated or deconsolidated. This analysis requires considerable judgment.

Consolidated VIEs (the Company is the primary beneficiary)

Based on management's analysis, the Company is the primary beneficiary of seven VIEs at June 30, 2016: Apidos CDO I, Apidos CDO III, Whitney CLO I, RCC CRE Notes 2013, RCC 2014-CRE2, RCC 2015-CRE3 and RCC 2015-CRE4 (collectively the "Consolidated VIEs"). The Consolidated VIEs were formed on behalf of the Company to invest in real estate-related securities, CMBS, property available-for-sale, bank loans, corporate bonds and asset-backed securities and were financed by the issuance of debt securities. The Manager manages the commercial real estate-related entities on behalf of the Company, and CVC Credit Partners manages the commercial finance-related entities on behalf of the Company. By financing these assets with long-term borrowings through the

issuance of bonds, the Company seeks to generate attractive risk-adjusted equity returns and to match the term of its assets and liabilities. The primary beneficiary determination for each of these VIEs was made at each VIE's inception and is continually assessed. All of the Company's VIEs were reevaluated under the revised consolidation model effective for the Company on January 1, 2016 (see Note 2).

As of December 31, 2015, the Company was the primary beneficiary of thirteen VIEs: Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, RREF CDO 2006-1, RREF CDO 2007-1, Whitney CLO I, RCC CRE Notes 2013, RCC 2014-CRE2, RCC 2015-CRE3, RCC 2015-CRE4, Moselle CLO and RCM Global, LLC (collectively, the "Consolidated VIEs at December 31, 2015"). In performing the primary beneficiary analysis for the Consolidated VIEs at December 31, 2015, it was determined that the parties that have the power to direct the activities that are most significant to each of these VIEs and that had the right to receive benefits or the obligation to absorb losses that could potentially be significant to these VIEs, were a related-party group. It was then determined that the Company was the party within that group that was more closely associated with each such VIE considering the design of the VIE, the principal-agency relationship between the Company and other members of the related-party group, and the relationship and

[\(Back to Index\)](#)

16

[\(Back to Index\)](#)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

significance of the activities of the VIE to the Company compared to the other members of the related-party group. Apidos CDO I, Apidos CDO III, Apidos Cinco CDO, Apidos CLO VIII, RREF CDO 2006-1, RREF CDO 2007-1, RCC CRE Notes 2013, RCC 2014-CRE2, RCC 2015-CRE3 and RCC 2015-CRE4 were formed on behalf of the Company to invest in real estate-related securities, CMBS, property available-for-sale, bank loans, corporate bonds and asset-backed securities and were financed by the issuance of debt securities. The Manager manages the commercial real estate-related entities on behalf of the Company, and CVC Credit Partners manages the commercial finance-related entities on behalf of the Company. By financing these assets with long-term borrowings through the issuance of bonds, the Company seeks to generate attractive risk-adjusted equity returns and to match the term of its assets and liabilities. The primary beneficiary determination for each of these VIEs was made at each VIE's inception and is continually assessed.

Moselle CLO was a European securitization in which the Company purchased a \$30.4 million interest in the form of subordinate notes representing 100% of the Class 1 Subordinated Notes and 67.9% of the Class 2 Subordinated Notes in February 2014. The CLO was managed by an independent third-party, and such collateral management activities were determined to be the activities that most significantly impacted the economic performance of the CLO. Though neither the Company nor one of its related parties managed the CLO, due to certain unilateral kick-out rights within the collateral management agreement it was determined that the Company had the power to direct the activities that most significantly impacted the economic performance of Moselle CLO. Having both the power to direct the activities that most significantly impact Moselle CLO and a financial interest that was expected to absorb both positive and negative variability in the CLO that could potentially be significant, the Company was determined to be the primary beneficiary of Moselle CLO and, therefore, consolidated the CLO. During the fourth quarter of 2014, the CLO began the liquidation process and all assets were subsequently sold. The Company's interest in the Moselle CLO Subordinated Notes was fully redeemed in March 2016.

Whitney CLO I was a securitization in which the Company acquired rights to manage the collateral assets held by the entity in February 2011. For a discussion on the primary beneficiary analysis for Whitney, see “— Unconsolidated VIEs – Resource Capital Asset Management,” below.

For a discussion of the Company's consolidated securitizations, see Note 1, and for a discussion of the debt issued through the securitizations, see Note 12.

For consolidated CLOs in which the Company does not own 100% of the subordinated notes, the Company imputes an interest rate using expected cash flows over the life of the CLO and records the third party's share of the cash flows as interest expense on the consolidated statements of operations.

The Company has exposure to losses on its securitizations to the extent of its subordinated debt and preferred equity interests in them. The Company is entitled to receive payments of principal and interest on the debt securities it holds and, to the extent revenues exceed debt service requirements and other expenses of the securitizations, distributions with respect to its preferred equity interests. As a result of consolidation, debt and equity interests the Company holds in these securitizations have been eliminated, and the Company's consolidated balance sheets reflects both the assets held and debt issued by the securitizations to third parties and any accrued expense to third parties. The Company's operating results and cash flows include the gross amounts related to the securitizations' assets and liabilities as opposed to the Company's net economic interests in the securitizations. Assets and liabilities related to the securitizations are disclosed, in the aggregate, on the Company's consolidated balance sheets.

The creditors of the Company's seven consolidated VIEs have no recourse to the general credit of the Company. During the three months ended June 30, 2016, the Company has provided no financial support to any of its VIEs nor does it have any requirement to do so, although it may choose to do so in the future to maximize future cash flows on

such investments by the Company. There are no explicit arrangements that obligate the Company to provide financial support to any of its consolidated VIEs.

(1) Includes \$4.2 million designated to fund future commitments on specific commercial real estate loans in certain of the securitizations.

(2) Assets of each of the consolidated VIEs may only be used to settle the obligations of each respective VIE.

Unconsolidated VIEs (the Company is not the primary beneficiary, but has a variable interest)

Based on management's analysis, the Company is not the primary beneficiary of the VIEs discussed below since it does not have both (i) the power to direct the activities that most significantly impact the VIE's economic performance and (ii) the obligation to absorb the losses of the VIE or the right to receive the benefits from the VIE, which could be significant to the VIE. Accordingly, the following VIEs are not consolidated in the Company's financial statements as of June 30, 2016. The Company's maximum exposure to risk for each of these unconsolidated VIEs is set forth in the "Maximum Exposure to Loss" column in the table below.

RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco CDO

RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco CDO were formed on behalf of the Company to invest in real estate-related securities, CMBS, property available-for-sale, bank loans, corporate bonds and asset-backed securities and were financed by the issuance of debt securities. The Manager manages the commercial real estate-related entities on behalf of the Company, and CVC Credit Partners manages the commercial finance-related entities on behalf of the Company. By financing these assets with long-term borrowings through the issuance of bonds, the Company seeks to generate attractive risk-adjusted equity returns and to match the term of its assets and liabilities. The primary beneficiary determination for each of these VIEs was made at each VIE's inception and is continually assessed. On January 1, 2016, the Company adopted the amendments to the consolidation guidance as

outlined in Note 2. As a result of its evaluation, the Company determined that it was no longer the primary beneficiary of these VIEs as its investments in these vehicles do not provide the Company with a controlling financial interest. As a result of its evaluation, these investments were deconsolidated. At deconsolidation, the Company recorded its investments in RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco CDO at fair value and will account for these investments as investment securities available-for-sale in its consolidated financial statements. On April 25, 2016, the Company called and liquidated its investment in RREF CDO 2006-1, and in exchange for the Company's interest in RREF CDO 2006-1, the Company was distributed the remaining assets of \$65.6 million at fair value after paying off the CDO debt owed to third parties of \$7.5 million and recognized a gain of approximately \$846,000 as a result of this transaction.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

RCM Global, LLC

On July 9, 2014, RCC Residential, together with Resource America and certain Resource America employees, acquired through RCM Global a portfolio of securities from JP Morgan for \$23.5 million. The portfolio is managed by Resource America. RCC Residential contributed \$15.0 million for a 63.8% membership interest. Each of the members of RCM Global is allocated revenues and expenses of RCM Global in accordance with his or her membership interest. RCM Global was determined to be a VIE based on the equity holders' inability to direct the activities that are most significant to the entity. On January 1, 2016, the Company adopted the amendments to the consolidation guidance as outlined in Note 2. Upon adoption, the Company reevaluated its variable interest in RCM Global and determined it would not be the primary beneficiary of RCM Global, as its investment in the limited liability company does not provide the Company with a controlling financial interest. As a result of its evaluation, the Company deconsolidated its investment in RCM Global. As of January 1, 2016, the Company accounted for its investment in RCM Global as an investment in an unconsolidated entity in its consolidated financial statements. As of June 30, 2016, the Company holds a 25.9% interest in RCM Global.

Pelium Capital

In September 2014, the Company contributed \$17.5 million to Pelium Capital for an initial ownership interest of 80.4%. Pelium Capital is a specialized credit opportunity fund managed by Resource America. The Company funded its final commitment of \$2.5 million, as of February 1, 2015. The Company will receive 10% of the carried interest in the partnership for the first five years which can increase its interest to 20% if the Company's capital contributions aggregate \$40.0 million. Resource America contributed cash of \$2.8 million to the formation of Pelium Capital. At December 31, 2015, Pelium Capital was accounted for as a consolidated voting interest subsidiary. On January 1, 2016, the Company adopted the amendments to the consolidation guidance as outlined in Note 2. Upon adoption, the Company reevaluated its interest in Pelium Capital and determined that although it now possessed a variable interest in Pelium Capital, it would not be the primary beneficiary of Pelium Capital, as its investment in the limited liability company does not provide the Company with a controlling financial interest. As a result of its reevaluation, the Company deconsolidated its investment in Pelium Capital on January 1, 2016, and accounted for its investment in Pelium Capital as an investment in an unconsolidated entity in its consolidated financial statements. As of June 30, 2016, the Company holds an 80.2% interest in Pelium Capital.

LEAF Commercial Capital, Inc.

On November 16, 2011, the Company together with LEAF Financial, Inc. ("LEAF Financial"), a subsidiary of Resource America, and LEAF Commercial Capital, Inc. ("LCC"), another subsidiary of Resource America, entered into a stock purchase agreement and related agreements (collectively the "SPA") with Eos Partners, L.P., a private investment firm, and its affiliates ("Eos"). In exchange for its prior interests in its lease related investments, the Company received 31,341 shares of Series A Preferred Stock (the "Series A Preferred Stock"), 4,872 shares of newly issued 8% Series B Redeemable Preferred Stock (the "Series B Preferred Stock") and 2,364 shares of newly issued Series D Redeemable Preferred Stock (the "Series D Preferred Stock"), collectively representing, on a fully-diluted basis, assuming conversion, a 26.7% interest in LCC. At the time of investment, the Company's investment in LCC was valued at \$36.3 million based on a third-party valuation. During 2013, the Company entered into a third stock purchase agreement with LCC to purchase 3,682 shares of newly issued Series A-1 Preferred Stock (the "Series A-1 Preferred Stock") for \$3.7 million and 4,445 shares of newly issued Series E Preferred Stock (the "Series E Preferred Stock") for \$4.4 million. The Series E Preferred Stock expired and the Company was issued additional Series A-1

Preferred Stock in exchange for its investment in the Series E Preferred Stock. The Company's fully-diluted interest in LCC, assuming conversion, was 29.0% at June 30, 2016. The Company's investment in LCC was recorded at \$44.4 million and \$42.0 million as of June 30, 2016 and December 31, 2015, respectively. The Company determined that it is not the primary beneficiary of LCC because it does not participate in any management or portfolio decisions, holds only two of six board positions, and only controls 29.0% of the voting rights in the entity. Furthermore, Eos holds consent rights with respect to significant LCC actions, including the incurrence of indebtedness, consummation of a sale of the entity, liquidation or initiating a public offering (see Note 17).

Unsecured Junior Subordinated Debentures

The Company has a 100% interest in the common shares of Resource Capital Trust I ("RCT I") and RCC Trust II ("RCT II"), valued at \$1.5 million in the aggregate (or 3% of each trust). RCT I and RCT II were formed for the purposes of providing debt financing to the Company, as described below. The Company completed a qualitative analysis to determine whether or not it is the primary beneficiary of each of the trusts and determined that it was not the primary beneficiary of either trust because it does not have the power to direct the activities most significant to the trusts, which include the collection of principal and interest and protection of collateral through servicing rights. Accordingly, neither trust is consolidated into the Company's consolidated financial statements.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

The Company records its investments in RCT I and RCT II's common shares as investments in unconsolidated trusts using the cost method and records dividend income when declared by RCT I and RCT II. The trusts each hold subordinated debentures for which the Company is the obligor in the amount of \$25.8 million for RCT I and \$25.8 million for RCT II. The debentures were funded by the issuance of trust preferred securities of RCT I and RCT II. The Company will continuously reassess whether it should be deemed to be the primary beneficiary of the trusts.

Resource Capital Asset Management CLOs

In February 2011, the Company purchased a company that managed bank loan assets through five CLOs. As a result, the Company became entitled to collect senior, subordinated and incentive management fees from these CLOs. The purchase price of \$22.5 million resulted in an intangible asset that was allocated to each of the five CLOs and is amortized over the expected life of each CLO. The unamortized balance of the intangible asset was \$4.5 million and \$5.3 million at June 30, 2016 and December 31, 2015, respectively. The Company recognized fee income of \$510,000 and \$912,000 for the three and six months ended June 30, 2016, respectively. The Company recognized fee income of \$896,000 and \$1.9 million for the three and six months ended June 30, 2015, respectively. With respect to four of these CLOs, the Company determined that it does not hold a controlling financial interest and, therefore, is not the primary beneficiary. One of the CLOs was liquidated in February 2013. With respect to the fifth CLO, Whitney CLO I, in October 2012, the Company purchased 66.6% of its preferred equity, which resulted in consolidation. Based upon that purchase, the Company determined that it had an obligation to absorb losses and/or the right to receive benefits that could potentially be significant to Whitney CLO I and that a related party had the power to direct the activities that are most significant to the VIE. As a result, together with the related party, the Company had both the power to direct and the right to receive benefits and the obligation to absorb losses. It was then determined that, between the Company and the related party, the Company was the party within that group that was more closely associated with Whitney CLO I because of its preferred equity interest in Whitney CLO I. The Company, therefore, consolidated Whitney CLO I. In May 2013, the Company purchased additional equity in this CLO which increased its ownership of the outstanding preferred equity to 68.3%. In September 2013, the Company liquidated Whitney CLO I, and, as a result, all of the assets were sold. In January 2016 another RCAM-managed CLO was called and \$2.4 million of impairment, on a pre-tax basis, was recorded in depreciation and amortization on the Company's consolidated statements of operations the related intangible asset, as of December 31, 2015.

Investment in ZAIS

In February 2015, the Company made an investment in ZAIS CLO 4 Limited, an offshore financing vehicle created to acquire and warehouse syndicated bank loans, through its wholly-owned, indirect subsidiary ZAIS and through its unconsolidated subsidiary Pelium Capital together with a Resource America employee. The Company, through ZAIS and Pelium Capital, committed to invest \$10.0 million and \$3.0 million, respectively, during the vehicle's warehousing period. The warehouse credit facility closed on May 5, 2016, at which time, Resource TRS III purchased a beneficial interest in ZAIS CLO 4. The vehicle is managed by ZAIS Leveraged Loan Manager 4, LLC (the "Collateral Manager"), an entity unrelated to the Company or to Pelium Capital, and such collateral management activities were determined to be the activities that most significantly impacted the economic performance of the entity. The Collateral Manager can be replaced either for cause by the entity's administrative agent if there is an event of default or by a unanimous vote of the entity's equity investors, excluding any preference shares held by the Collateral Manager or its affiliates. Although the Company has an investment in the entity that is potentially significant, because it was determined that the Company did not have the ability to kick out the collateral manager, the Company was not determined to be the primary beneficiary and, hence, not required to consolidate ZAIS CLO 4. As of June 30, 2016, the Company had a beneficial interest of \$9.9 million through ZAIS CLO 4. The Company accounts for its investment in ZAIS CLO 4 as an investment security available-for-sale in its consolidated financial statements.

Investments in the Harvest CLO Securities

In September 2013 and March 2014, the Company made investments in Harvest CLO VII Limited and Harvest CLO VIII Limited (collectively, the “Harvest Securities”), respectively, offshore limited liability companies created to acquire syndicated bank loans and issue collateral loan obligations, through its wholly-owned, direct subsidiary Commercial II. The Harvest Securities are managed by 3i Debt Management Investments Limited (the “Portfolio Manager”), an entity unrelated to the Company, and such collateral management activities were determined to be the activities that most significantly impacted the economic performance of the entity. The Portfolio Manager can be replaced only for cause by the Harvest Securities’ trustee. Although the Company has investments in the Harvest Securities that are potentially significant, because it was determined that the Company did not have the ability to unilaterally kick out the Portfolio Manager, the Company was not determined to be the primary beneficiary and, hence, not required to consolidate the Harvest Securities. As of June 30, 2016, the Company had investments of \$4.0 million in Harvest CLO VII Limited and \$4.8 million in Harvest CLO VIII Limited. The Company accounts for its investments in the Harvest Securities as investment securities available-for-sale in its consolidated financial statements.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

Investment in Harvest CLO XV Designated Activity Company

In September 2015, the Company made an investment in Harvest CLO XV Designated Activity Company ("Harvest XV"), an offshore financing vehicle created to acquire and warehouse syndicated bank loans, through its wholly-owned, direct subsidiary Commercial II. In May 2016, the warehouse closed and the Company invested in Harvest CLO XV DAC ("Harvest CLO XV"). The CLO is managed by the Portfolio Manager, and such collateral management activities were determined to be the activities that most significantly impacted the economic performance of the entity. The Portfolio Manager can be replaced only for cause by the entity's administrative agent. Although the Company has an investment in the entity that is potentially significant, because it was determined that the Company did not have the ability to unilaterally kick out the collateral manager, the Company was not determined to be the primary beneficiary and, hence, not required to consolidate Harvest CLO XV. As of June 30, 2016, the Company's investment in Harvest CLO XV is \$13.4 million. The Company accounts for its investment in Harvest CLO XV as an investment security available-for-sale in its consolidated financial statements.

The following table shows the classification, carrying value and maximum exposure to loss with respect to the Company's unconsolidated VIEs as of June 30, 2016 (in thousands):

Unconsolidated Variable Interest Entities

LCC	Unsecured Junior Subordinated Debentures	Resource Capital Asset Management CDOs	Investment in ZAIS and Harvest	RREF CDO 2007-1	Apidos Cinco CDO	RCM Global LLC	Pelium Capital	Total	Maximum Exposure to Loss	
Investments in unconsolidated entities and Investment securities, available-for-sale	\$44,361	\$1,548	\$—	\$32,114	\$109,913	\$18,838	\$584	\$23,723	\$231,081	\$231,081
Intangible assets	—	—	4,514	—	—	—	—	4,514	\$4,514	
Total assets	44,361	1,548	4,514	32,114	109,913	18,838	584	23,723	235,595	
Borrowings	—	51,521	—	—	—	—	—	51,521	N/A	
Total liabilities	—	51,521	—	—	—	—	—	51,521	N/A	
Net asset (liability)	\$44,361	\$(49,973)	\$4,514	\$32,114	\$109,913	\$18,838	\$584	\$23,723	\$184,074	N/A

As of June 30, 2016, there were no explicit arrangements or implicit variable interests that could require the Company to provide financial support to any of its unconsolidated VIEs.

NOTE 4 - SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental disclosure of cash flow information is summarized for the periods indicated (in thousands):

	For the Six Months Ended	
	June 30, 2016	2015
Non-cash investing activities include the following:		
Reclassification of linked transactions, net at fair value to investment securities available-for-sale, pledged as collateral, at fair value ⁽¹⁾	\$—	\$48,605

Edgar Filing: Resource Capital Corp. - Form 10-Q

Retained beneficial interest in unconsolidated securitization entities	\$(22,476)	\$—
Loans acquired through collateralized debt obligation liquidation	\$(44,893)	\$—
Securities acquired through collateralized debt obligation liquidation	\$(20,837)	\$—

Non-cash financing activities include the following:

Distributions on common stock accrued but not paid	\$13,051	\$21,426
Distributions on preferred stock accrued but not paid	\$4,009	\$4,078
Reclassification of linked transactions, net at fair value to borrowings ⁽¹⁾	\$—	\$33,377

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

As a result of an accounting standards update adopted on January 1, 2015, the Company unlinked its previously (1)linked transactions, resulting in non-cash increases in both its investment securities available-for-sale, pledged as collateral, at fair value and related repurchase agreements borrowings balances.

NOTE 5 - INVESTMENT SECURITIES, TRADING

Structured notes are CLO debt securities collateralized by syndicated bank loans, and RMBS is a type of mortgage-backed debt obligation whose cash flows come from residential mortgage debt. The following table summarizes the Company's structured notes and RMBS that are classified as investment securities, trading and carried at fair value (in thousands):

	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
As of June 30, 2016:				
Structured notes	\$ 5,907	\$ 255	\$ (2,180)	\$ 3,982
RMBS	1,896	—	(1,896)	—
Total	\$ 7,803	\$ 255	\$ (4,076)	\$ 3,982

As of December 31, 2015:

Structured notes	\$ 28,576	\$ 1,674	\$ (4,700)	\$ 25,550
RMBS	1,896	—	(1,896)	—
Total	\$ 30,472	\$ 1,674	\$ (6,596)	\$ 25,550

As a result of updated accounting guidance, effective January 1, 2016 (see Note 2), the Company deconsolidated all of the assets of Pelium Capital, resulting in the removal of \$21.9 million of investment securities, trading from its balance sheet which is the primary cause of the decrease of securities during the period. The Company sold no investment securities during the three and six months ended June 30, 2016. The Company sold four and ten investment securities during the three and six months ended June 30, 2015 for a net realized gain of approximately \$189,000 and \$621,000, respectively. The Company held six and 56 investment securities, trading as of June 30, 2016 and December 31, 2015, respectively.

NOTE 6 - INVESTMENT SECURITIES AVAILABLE-FOR-SALE

The following table summarizes the Company's investment securities, including those pledged as collateral and classified as available-for-sale. ABS may include, but are not limited to the Company's investments in RREF CDO 2007-1, Apidos Cinco CDO, Harvest CLO Securities, ZAIS and other securities backed by syndicated bank loans, and other loan obligations. These securities are carried at fair value (in thousands):

	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value ⁽¹⁾
As of June 30, 2016:				
ABS	\$ 162,759	\$ 2,865	\$ (519)	\$ 165,105
CMBS	89,621	441	(1,904)	88,158
RMBS	1,919	144	(46)	2,017
Total	\$ 254,299	\$ 3,450	\$ (2,469)	\$ 255,280

As of December 31, 2015:

ABS	\$ 41,994	\$ 3,218	\$ (998)	\$ 44,214
CMBS	158,584	2,631	(1,791)	159,424

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
 JUNE 30, 2016
 (unaudited)

(1) As of June 30, 2016 and December 31, 2015, \$88.1 million and \$162.3 million, respectively, of investment securities available-for-sale were pledged as collateral under related financings.

As a result of updated accounting guidance, effective January 1, 2016 (see Note 2), the Company deconsolidated all of the assets of RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco CDO, resulting in the removal of \$364.6 million of loans, pledged as collateral from its balance sheet. These investments are now recorded as investment securities available-for-sale, which is the primary cause of the increase in securities during the period.

The following table summarizes the estimated maturities of the Company's CMBS, RMBS, ABS and corporate bonds according to their estimated weighted average life classifications (in thousands, except percentages):

Weighted Average Life	Fair Value	Amortized Cost	Weighted Average Coupon
As of June 30, 2016:			
Less than one year	\$ 180,947 ⁽¹⁾	\$ 182,143	8.10%
Greater than one year and less than five years	34,010	34,207	5.09%
Greater than five years and less than ten years	23,699	22,177	9.02%
Greater than ten years	16,624	15,772	14.25%
Total	\$255,280	\$ 254,299	8.16%
As of December 31, 2015:			
Less than one year	\$ 117,221 ⁽¹⁾	\$ 118,215	7.13%
Greater than one year and less than five years	71,370	68,808	5.31%
Greater than five years and less than ten years	12,382	11,271	10.45%
Greater than ten years	7,115	6,862	16.85%
Total	\$208,088	\$ 205,156	7.03%

(1) The Company expects that the maturity dates of these CMBS and ABS will either be extended or that they will be paid in full.

At June 30, 2016, the contractual maturities of the CMBS investment securities available-for-sale range from July 2016 to December 2022. The contractual maturity date of RMBS investment securities available-for-sale is June 2029. The contractual maturities of the ABS investment securities available-for-sale range from October 2018 to May 2029.

The following table shows the fair value, gross unrealized losses and number of securities aggregated by investment category and length of time, that individual investment securities available-for-sale have been in a continuous unrealized loss position during the periods specified (in thousands, except number of securities):

The unrealized losses in the above table are considered to be temporary impairments due to market factors and are not reflective of credit deterioration.

During the six months ended June 30, 2016 and 2015, the Company did not recognize any other-than-temporary impairment on its investment securities available-for-sale.

The following table summarizes the Company's sales of investment securities available-for-sale (in thousands, except number of securities):

	For the Three Months Ended			Realized Gain (Loss)	For the Six Months Ended			Realized Gain (Loss)
	Positions Sold	Positions Redeemed	Par Amount Sold/Redeemed		Positions Sold	Positions Redeemed	Par Amount Sold/Redeemed	
June 30, 2015:								
ABS	3	1	\$4,026	\$1,841	7	3	\$ 15,937	\$ 8,110
RMBS	6	—	\$28,305	\$984	6	—	\$ 28,305	\$ 984

There were no sales or redemptions during the three or six months ended June 30, 2016.

Amounts included deferred amendment fees of \$10,000 and deferred upfront fees of \$0 being amortized over the life of the loans as of June 30, 2016. Amounts include deferred amendment fees of \$42,000 and deferred upfront fees of \$12,000 being amortized over the life of the loans as of December 31, 2015. Amounts also include loan origination fees of \$7.4 million and \$9.9 million as of June 30, 2016 and December 31, 2015, respectively.

As a result of the consolidation guidance adopted January 1, 2016, the Company deconsolidated loans held for investment in the amount of \$271.8 million of its CRE loans and \$134.5 million of its bank loans and the related allowance for loan losses of \$41.7 million (see Note 2).

- (3) Substantially all loans are pledged as collateral under various borrowings at June 30, 2016 and December 31, 2015, respectively.
- (4) Amortized cost approximates fair value.
- (5) The Company has one mezzanine loan with a par value of \$28.8 million that was acquired at fair value as a result of the liquidation of RREF CDO 2006-1.

Commercial Real Estate Loans

The following is a s(in thousands):

Description	Quantity	Amortized Cost	Contracted Interest Rates	Maturity Dates ⁽³⁾
As of June 30, 2016:				
Whole loans, floating rate ^{(1) (3) (4) (5) (6)} ⁽⁷⁾	80	\$ 1,421,190	LIBOR plus 2.50% to LIBOR plus 12.00%	August 2016 to May 2019
Mezzanine loans ⁽¹⁰⁾	1	—	N/A	September 2021
Total ^{(2) (9)}	81	\$ 1,421,190		
As of December 31, 2015:				
Whole loans, floating rate ^{(1) (3) (4) (5) (6) (7)}	87	\$ 1,630,801	LIBOR plus 1.75% to LIBOR plus 12.00%	February 2016 to February 2019
B notes, fixed rate	1	15,934	8.68%	April 2016
Mezzanine loans, fixed rate ⁽⁸⁾	2	45,372	9.01%	September 2016
Total ⁽²⁾	90	\$ 1,692,107		

Whole loans had \$78.8 million and \$112.6 million in unfunded loan commitments as of June 30, 2016 and (1) December 31, 2015, respectively. These unfunded commitments are advanced as the borrowers formally request additional funding as permitted under the loan agreement and any necessary approvals have been obtained.

Totals do not include allowance for loan losses of \$1.4 million and \$41.8 million as of June 30, 2016 and (2) December 31, 2015, respectively.

(3) Maturity dates do not include possible extension options that may be available to the borrowers.

Includes two whole loans with a combined \$11.2 million and \$51.2 million senior component that entered into modifications in 2016 and 2015 that resulted in a fixed rate of 0.50% as of June 30, 2016 and December 31, 2015, (4) respectively (the difference of which was a result of the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1 - see Note 2). The two loans were previously identified as troubled debt restructurings ("TDR's").

(5) Includes four whole loans with combined \$4.5 million mezzanine components that have interest rates ranging from 1.4% to 5.2% as of June 30, 2016 and December 31, 2015.

(6) Includes a \$799,000 junior mezzanine tranche of a whole loan that has a fixed rate of 10.0% as of June 30, 2016 and December 31, 2015.

Contracted interest rates do not include a whole loan with an amortized cost of \$2.0 million and \$32.5 million that entered into a modification in 2016 and 2015 which reduced the floating rate spread to 1.00% as of June 30, 2016 (7) and December 31, 2015, respectively (the difference of which was a result of the deconsolidation of RREF CDO 2007-1 - see Note 2). The loan was previously identified as a TDR.

(8) Contracted interest rates and maturity dates do not include rates or maturity dates associated with one loan with an amortized cost of \$38.1 million that was fully reserved as of June 30, 2015.

As a result of updated accounting guidance, effective January 1, 2016 (see Note 2), the Company deconsolidated (9) all of the assets of RREF CDO 2006-1 and RREF CDO 2007-1, resulting in the removal of \$271.8 million of loans, pledged as collateral from its balance sheet.

(10)

Edgar Filing: Resource Capital Corp. - Form 10-Q

As a result of RREF CDO 2006-1 being called and liquidated on April 25, 2016, a mezzanine loan with a par value of \$28.8 million was acquired as part of the liquidation proceeds and is reflected on the Company's balance sheet at a fair value of zero at June 30, 2016. The mezzanine loan is comprised of two tranches, with maturity dates of November 2016 and September 2021.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
JUNE 30, 2016
(unaudited)

The following is a summary of the weighted average maturity of the Company's commercial real estate loans, at amortized cost (in thousands):

Description	2016	2017	2018 and Thereafter	Total
As of June 30, 2016:				
Whole loans	\$—	\$60,446	\$1,360,744	\$1,421,190
Mezzanine loans ⁽²⁾	—	—	—	—
Total ⁽¹⁾	\$—	\$60,446	\$1,360,744	\$1,421,190

As of December 31, 2015:	2016	2017	2018 and Thereafter	Total
B notes	\$15,934	\$—	\$—	\$15,934
Mezzanine loans	13,011	—	32,361	45,372
Whole loans	9,958	140,712	1,480,131	1,630,801
Total ⁽¹⁾	\$38,903	\$140,712	\$1,512,492	\$1,692,107

⁽¹⁾ Contractual maturity of commercial real estate loans assumes full exercise of extension options available to borrowers.

⁽²⁾ The Company has one mezzanine loan with a par value of \$28.8 million that was acquired at fair value as a result of the liquidation of RREF 2006-1.

At June 30, 2016, approximately 27.7%, 25.9% and 8.7% of the Company's commercial real estate portfolio was concentrated in Texas, California, and Georgia, respectively. At December 31, 2015, approximately 28.7%, 26.8%, and 7.4% of the Company's commercial real estate loan portfolio was concentrated in California, Texas, and Georgia, respectively.

Bank Loans

The following table provides information as to the lien position and status of the Company's bank loans, at amortized cost (in thousands) prior to deconsolidation of Apidos Cinco CDO as of January 1, 2016:

	Apidos I	Apidos Cinco	Total
As of December 31, 2015:			
Loans held for investment:			
First lien loans	\$ —	\$131,281	\$131,281
Second lien loans	—	1,692	1,692
Defaulted first lien loans	—	1,544	1,544
Defaulted second lien loans	—	—	—
Total	—	134,517	134,517
First lien loans held for sale at fair value	153	1,322	1,475
Total	\$ 153	\$135,839	\$135,992

At June 30, 2016, the Company held no bank loans. At December 31, 2015, the Company's bank loan portfolio, including loans held for sale, consisted of \$134.7 million (net of allowance of \$1.3 million) of floating rate loans, which bear interest ranging between the three month LIBOR plus 1.25% and the three month LIBOR plus 8% with maturity dates ranging from January 2016 to August 2021.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
 JUNE 30, 2016
 (unaudited)

The following is a summary of the weighted average maturity of the Company's bank loans, at amortized cost and loans held-for-sale, at the lower of cost or market (in thousands):

	December 31, 2015
Less than one year	\$ 3,922
Greater than one year and less than five years	128,480
Five years or greater	3,590
	\$ 135,992

At December 31, 2015, approximately 13.5%, 13.0% and 9.6% of the Company's bank loan portfolio was concentrated in the collective industry grouping of automobile, diversified/conglomerate service and retail stores, respectively.

Middle Market Loans

The following table provides information as to the lien position and status of middle market loans, at carrying value (in thousands):

	June 30, 2016	December 31, 2015
First Lien	\$—	\$ 248,367
Second Lien	54,485	127,146
First lien loans held for sale, at fair value	188,378	—
Second lien loans held for sale, at fair value	70,801	—
	\$313,664	\$ 375,513

At June 30, 2016, the Company's middle market loan portfolio consisted of \$313.7 million of floating rate loans, which bear interest ranging between one or three month LIBOR plus 6.75% and one or three month LIBOR plus 12.00% with maturity dates ranging from June 2017 to July 2023.

At December 31, 2015, the Company's middle market loan portfolio consisted of \$375.5 million (net of allowance of \$3.9 million) of floating rate loans, which bore interest ranging between one or three month LIBOR plus 6.25% and three month LIBOR plus 12.00% with maturity dates ranging from December 2016 to July 2023.

The following is a summary of the weighted average maturity of the Company's middle market loans, at carrying value (in thousands):

	June 30, 2016	December 31, 2015
Less than one year	\$9,319	\$ 14,960
Greater than one year and less than five years	210,385	250,709
Five years or greater	93,960	109,844
	\$313,664	\$ 375,513

At June 30, 2016 and December 31, 2015, approximately 14.7% and 12.8%, respectively, of the Company's middle market loan portfolio was concentrated in the collective industry grouping of diversified and conglomerate service and 15.6% and 12.4%, respectively, of the Company's middle market loan portfolio was concentrated in the collective industry grouping of healthcare, education, and childcare.

Residential Mortgage Loans

The Company originates and services residential mortgage loans through its indirect wholly-owned subsidiary PCM. PCM is an approved seller/servicer for the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, the Government National Mortgage Association and is licensed to originate loans insured by the Federal Housing Administration, the Department of Veterans Affairs and the United States Department of Agriculture and is

licensed to transact business in 41

(unaudited)

states. In order to maintain its licenses and status as an approved seller/servicer, PCM must meet certain capital requirements. PCM was in compliance with those capital requirements as of June 30, 2016.

Residential mortgage loans held for sale, at fair value, consisted of \$116.4 million and \$44.7 million of agency-conforming and jumbo mortgage loans (net of allowance of \$11,000), respectively, as of June 30, 2016.

Residential mortgage loans held for sale, at fair value, consisted of \$29.2 million and \$65.3 million of agency-conforming and jumbo mortgage loans (net of allowance of \$11,000), respectively, as of December 31, 2015.

During the quarter ended June 30, 2016, approximately 40.2% of the Company's residential mortgage loans were originated in Georgia, 15.8% in Utah, 14.7% in California, 6.0% in Virginia, and 4.9% in Florida. During the year ended December 31, 2015, approximately 44.9% of the Company's residential mortgage loans were originated in Georgia, 11.2% in Utah, 9.1% in Virginia, 4.4% in Florida, and 4.1% in Colorado.

Allowance for Loan Losses

The following is a summary of the allocation of the allowance for loan loss with respect to the Company's loans (in thousands, except percentages) by asset class (in thousands):

Description	Allowance for Loan Loss	Percentage of Total Allowance
As of June 30, 2016:		
CRE whole loans	\$ 1,425	99.23%
Mezzanine loans ⁽²⁾	—	—%
Middle market loans	—	—%
Residential mortgage loans	11	0.77%
Total ⁽¹⁾	\$ 1,436	

As of December 31, 2015:

B notes	\$ 15	0.03%
Mezzanine loans	38,079	80.90%
CRE whole loans	3,745	7.96%
Bank loans	1,282	2.72%
Middle market loans	3,939	8.37%
Residential mortgage loans	11	0.02%
Total	\$ 47,071	

As a result of amendments to consolidation accounting guidance adopted January 1, 2016, the Company (1) deconsolidated loans held for investment in the amount of \$271.8 million of its CRE loans and \$134.5 million of its bank loans and the related allowance for loan losses of \$41.7 million (see Note 2).

(2) The Company has one mezzanine loan with a par value of \$28.8 million that was acquired at fair value as a result of the liquidation of RREF 2006-1.

Principal Paydown Receivables

Principal paydown receivables represent the portion of the Company's loan portfolio for which indication has been provided through its various servicers, trustees, or its asset management group that a payoff or paydown of a loan has been received but which, as of period end, the Company has not received and applied to the outstanding loan balance. At June 30, 2016, the Company had \$8.1 million principal paydown receivables, the entirety of which the Company received in cash during July 2016. At December 31, 2015, principal paydown receivables relating to the Company's loan portfolio totaled \$17.9 million, the entirety of which the Company received in cash during January 2016.

Credit quality indicators

Bank Loans

Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 5 with 1 representing the Company's highest rating and 5 representing its lowest rating. Bank loans are first individually evaluated for impairment. To the extent no individual impairment is determined, a general reserve is established.

The characteristics of each rating category are as follows:

1. Loans with a rating of 1 are considered performing within expectations. All interest and principal payments are current, all future payments are anticipated and loss is not probable;

2. Loans with a rating of a 2 are considered to have limited liquidity concerns and are watched closely. Loans identified in this category show remote signs of liquidity concerns, loss is not probable and therefore no reserve is established;

3. Loans with a rating of a 3 are considered to have possible future liquidity concerns. Loans identified in this category show some liquidity concerns, but the ability to estimate potential defaults is not quantifiable and therefore no reserve is established;

4. Loans with a rating of a 4 are considered to have nearer term liquidity concerns. These loans have a reasonable possibility of future default. However, the risk of loss is not assignable to one specific credit. The noted risk of the loans in this category is covered by general reserves; and

5. Loans with a rating of a 5 have defaulted in payment of principal and interest or default is imminent. It is probable that impairment has occurred on these loans based on their payment status and that impairment is estimable. The noted risk of the loans in this category is covered by specific reserves.

Credit risk profiles of bank loans were as follows (in thousands):

Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
----------	----------	----------	----------	----------	---------------	-------

As of December 31, 2015:

Bank loans	\$113,897	\$17,578	\$1,498	\$ —	\$1,544	\$1,475	\$135,992
------------	-----------	----------	---------	------	---------	---------	-----------

As of June 30, 2016 all of the Company's bank loans were deconsolidated (see Note 2). As of December 31, 2015, all of the Company's bank loans were current with respect to debt service with the exception of one loan with an amortized aggregate cost of \$1.5 million, on which there was a reserve.

Middle Market Loans

At inception, all middle market loans are graded at a 2. Updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 5 with 1 representing the Company's highest rating and 5 representing its lowest rating. Middle market loans are only evaluated individually for impairment.

The characteristics of each rating category are as follows:

1. A loan with a rating of a 1 is considered performing above expectations and the likelihood of loss is remote;

2. A loan with a rating of a 2 is considered performing within expectations and the likelihood of loss is remote;

3. A loan with a rating of a 3 is considered performing below expectations and requires close monitoring but no loss of interest or principal is expected. Loans receiving this rating may be out of compliance with financial covenants; however, these loans are current with respect to interest and principal;

4.

Edgar Filing: Resource Capital Corp. - Form 10-Q

A loan with a rating of a 4 is considered performing below expectations and some loss of interest or dividend is expected but no loss of principal. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due, but generally not more than 180 days past due; and

A loan with a rating of a 5 is considered performing substantially below expectations, in default and some loss of principal is expected. The borrower is out of compliance with most or all of the debt covenants and payments are substantially delinquent.

Credit risk profiles of middle market loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
As of June 30, 2016:							
Middle market loans	\$—	\$48,452	\$6,033	\$—	\$—	—\$259,179	\$313,664

As of December 31, 2015:

Middle market loans	\$44,252	\$305,578	\$29,622	\$—	\$—	—\$—	\$379,452
---------------------	----------	-----------	----------	-----	-----	------	-----------

All of the Company's middle market loans were current with respect to debt service as of June 30, 2016 and December 31, 2015.

Commercial Real Estate Loans

Loans are graded at inception and updates to assigned grades are made continually as new information is received, as such, a loan previously rated 4 may, over time and with improved performance, be rated better than 4. Loans are graded on a scale of 1 to 4 with 1 representing the Company's highest rating and 4 representing its lowest rating. Commercial real estate loans are first individually evaluated for impairment. To the extent no individual impairment is determined, a general reserve is established.

The characteristics of each rating category are as follows:

- A loan with a rating of a 1 is considered to have satisfactory performance with no issues noted. All interest and principal payments are current and the probability of loss is remote;
 A loan is graded with a rating of a 2 if a surveillance trigger event has occurred, but loss is not probable at this time. Such trigger events could include but are not limited to a trending decrease in occupancy rates or a flattening of lease revenues; and to a lesser extent, ground lease defaults, ground lease expirations that occur in the next six months or the borrower is delinquent on payment of property taxes or insurance.;
- A loan with a rating of 3 has experienced an extended decline in operating performance, a significant deviation from its origination plan or the occurrence of one or more surveillance trigger events which create an increased risk for potential default. Loans identified in this category show some liquidity concerns. However, the risk of loss is not specifically assignable to any individual loan. The noted risk of the loans in this category is generally covered by general reserves;
- A loan with a rating of a 4 is considered to be in payment default or default is expected, full recovery of the unpaid principal balance is improbable and loss is considered probable. The noted risk of the loans in this category is covered by specific reserves.

Credit risk profiles of commercial real estate loans were as follows (in thousands):

	Rating 1 ⁽²⁾	Rating 2	Rating 3	Rating 4	Held for Sale	Total
As of June 30, 2016:						
CRE whole loans	\$1,419,190	\$2,000	\$—	\$—	\$—	—\$1,421,190
Mezzanine loans ⁽¹⁾	—	—	—	—	—	—
	\$1,419,190	\$2,000	\$—	\$—	\$—	—\$1,421,190

As of December 31, 2015:

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

The Company had no delinquent commercial real estate loans as of June 30, 2016. All of the Company's commercial real estate loans were current with exception of one mezzanine loan that had defaulted as of December 31, 2015. This loan was deconsolidated as part of the Company's adoption of amendments to consolidation accounting guidance as required on January 1, 2016 (see Note 2). However, as a result of RREF CDO 2006-1 being called and liquidated on April 25, 2016, par value of \$28.8 million of this mezzanine loan was acquired as part of the liquidation proceeds and is reflected on the Company's balance sheet at a fair value of zero at June 30, 2016.

Residential Mortgage Loans

Residential mortgage loans are reviewed periodically for collectability in light of historical experience, the nature and amount of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing underlying conditions.

Direct Financing Leases

During the year ended December 31, 2015, the Company recorded a provision against the value of the direct financing leases in the amount of \$465,000. As of June 30, 2016, the Company held \$665,000 of direct financing leases, net of reserves.

Loan Portfolios Aging Analysis

The following table presents the loan and lease portfolio aging analysis as of the dates indicated at amortized cost (in thousands):

	30-59 Days	60-89 Days	Greater than 90 Days	Total Past Due	Current	Total Loans Receivable	Total Loans > 90 Days and Accruing
As of June 30, 2016:

Bank loans	—	—	—
Middle market loans	—	—	—
Residential mortgage loans	—	—	—
Total loans	3	\$ 105,531	\$ 67,459

As of June 30, 2016 and 2015, there were no commercial real estate loan troubled-debt restructurings that subsequently defaulted.

NOTE 10 - BUSINESS COMBINATIONS

On February 26, 2014, the Company made an additional capital contribution to LCF which gave the Company majority ownership at 50.2%. As a result, the Company began consolidating the LCF joint venture. The joint venture was established for the purpose of acquiring life settlement contracts through a financing facility. On April 30, 2015, the Company committed to another capital contribution in the amount of \$750,000, increasing its ownership of LCF to 60.7%. The first installment of \$375,000 was funded on April 30, 2015 and the second installment of \$375,000 was funded on July 30, 2015. On December 15, 2015, the Company committed to an additional capital contribution in the amount of \$1.3 million, increasing its ownership of LCF to 70.9%. The first installment of \$750,000 was funded on January 5, 2016 and the second installment of \$500,000 was funded June 30, 2016.

The Company engaged a third party expert to assist in determining the fair values of the assets and liabilities assumed on this investment. Based on the final valuation, which determined an enterprise value of LCF of approximately \$4.1

million, and in accordance with guidance on business combinations, the Company confirmed that no further adjustments are necessary.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

NOTE 11 - INTANGIBLE ASSETS

The following table summarizes the activity of intangible assets for the period indicated (in thousands):

	Management Contracts	Wholesale/Correspondent Relationships	Mortgage Servicing Rights	Total
Balance, January 1, 2016	\$ 5,316	\$ 90	\$ 20,822	\$ 26,228
Additions	—	—	8,362	8,362
Sales	—	—	—	—
Amortization	(802)	—	(2,262)	(3,064)
Total before impairment adjustment	4,514	90	26,922	31,526
Temporary impairment adjustment	—	—	(4,800)	(4,800)
Balance, June 30, 2016	\$ 4,514	\$ 90	\$ 22,122	\$ 26,726

Management Contracts and Wholesale/Correspondent Relationships

The Company recognized fee income on management contracts of \$510,000 and \$912,000 for the three and six months ended June 30, 2016, respectively, and \$896,000 and \$1.9 million for the three and six months ended June 30, 2015, respectively.

For the three and six months ended June 30, 2016 the Company recorded amortization expense of \$327,000 and \$802,000, respectively, in relation to the Company's management contracts. For the three and six months ended June 30, 2015 the Company recorded amortization expense of \$512,000 and \$1.0 million in relation to the Company's management contracts and wholesale/correspondent relationships, respectively. The Company expects to record amortization expense on its management contracts of approximately \$1.5 million for the year ending December 31, 2016, \$1.3 million for the year ending December 31, 2017, \$1.2 million for the year ending December 31, 2018, \$514,000 for the year ending December 31, 2019, and \$515,000 for the year ending December 31, 2020. The weighted average amortization period was 5.3 years and 5.8 years at June 30, 2016 and December 31, 2015, respectively.

Mortgage Servicing Rights

Through the Company's wholly-owned residential mortgage loan originator PCM, residential mortgage loans are sold through one of the following methods: (i) sales to or pursuant to programs sponsored by the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation and Government National Mortgage Association, or (ii) sales to private investors. The Company may have continuing involvement in mortgage loans sold by retaining servicing rights and servicing obligations.

The total servicing portfolio consists of loans associated with capitalized mortgage servicing rights ("MSRs") and loans held for sale. In accordance with guidance on servicing assets and liabilities, the Company utilizes the amortization method for the subsequent measurement of its MSRs. The total servicing portfolio was \$2.6 billion and \$2.0 billion as of June 30, 2016 and December 31, 2015, respectively. MSRs recorded in the Company's consolidated balance sheets are related to the capitalized servicing portfolio and are created through the sale of originated residential mortgage loans. Amounts related to capitalized MSRs are recorded in net realized an unrealized gain (loss) on sales of investment securities available-for-sale and loans and derivatives line item in the Company's statement of operations. Amounts related to temporary impairment adjustments are recorded in fee income in the Company's statement of operations.

For the three and six months ended June 30, 2016, the Company recognized \$1.2 million and \$2.3 million of amortization expense related to MSRs, respectively. For the three and six months ended June 30, 2015, the Company recognized \$1.0 million and \$1.8 million, respectively. The Company expects to recognize amortization related to its

MSRs portfolio in the amount of \$4.7 million for the year ending December 31, 2016, \$3.9 million for the year ending December 31, 2017, \$3.1 million for the year ending December 31, 2018, \$2.6 million for the year ending December 31, 2019, and \$2.2 million for the year ending December 31, 2020. The weighted average amortization period was 1.3 years and 1.2 years at June 30, 2016 and December 31, 2015, respectively. The weighted average remaining life was 5.2 years and 6.7 years at June 30, 2016 and December 31, 2015, respectively.

The Company also records MSRs at fair value on a non-recurring basis. MSRs are recorded at fair value at inception and at the end of each reporting period if the fair value is less than unamortized cost. The Company uses a discounted cash flow

[\(Back to Index\)](#)

37

[\(Back to Index\)](#)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
 JUNE 30, 2016
 (unaudited)

approach to estimate the fair value of MSR's utilizing the valuation services of an independent third party. The key assumptions used in the estimation of the fair value of MSR's include prepayment speeds, discount rates, default rates, cost to service, contractual servicing fees and escrow earnings. The Company recorded temporary impairment of \$2.3 million and \$4.8 million for the three and six months ended June 30, 2016. The fair value of MSR's was \$22.0 million and \$21.3 million at June 30, 2016 and December 31, 2015, respectively.

The activity in the loan servicing portfolio associated with capitalized servicing rights consisted of the following (in thousands):

	June 30, 2016	December 31, 2015
Balance, beginning of period	\$ 1,998,273	\$ 894,767
Additions	752,329	1,236,145
Payoffs, sales and curtailments	(162,102)	(132,639)
Balance, end of period	\$ 2,588,500	\$ 1,998,273

The value of MSR's is driven by the net positive, or in some cases net negative, cash flows associated with servicing activities. These cash flows include contractually specified servicing fees, late fees and other ancillary servicing revenue and were recorded within fee income as follows (in thousands):

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015
Servicing fees from capitalized portfolio	\$ 1,559	\$ 911	\$ 2,992	\$ 1,462
Late fees	\$ 50	\$ 18	\$ 99	\$ 41
Other ancillary servicing revenue	\$ 7	\$ 3	\$ 12	\$ 7

NOTE 12 - BORROWINGS

The Company historically has financed the acquisition of its investments, including investment securities and loans, through the use of secured and unsecured borrowings in the form of securitized notes, repurchase agreements, secured term facilities, warehouse facilities, convertible senior notes, senior secured revolving credit agreements and trust preferred securities issuances. Certain information with respect to the Company's borrowings is summarized in the following table (in thousands, except percentages):

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

(2) Amounts also include accrued interest expense of \$356,000 and \$315,000 related to CRE repurchase facilities as of June 30, 2016 and December 31, 2015, respectively.

Amounts also include accrued interest expense of \$157,000 and \$18,000 related to CMBS repurchase facilities as of June 30, 2016 and December 31, 2015, respectively. Amounts do not reflect CMBS repurchase agreement borrowings that are components of linked transactions as of December 31, 2015.

(4) Amounts also include accrued interest expense of \$57,000 and \$61,000 related to trust certificate repurchase facilities as of June 30, 2016 and December 31, 2015, respectively.

(5) Amounts also include accrued interest expense of \$26,000 and \$30,000 related to residential investment facilities as of June 30, 2016 and December 31, 2015, respectively.

(6) The value of collateral related to residential mortgage financing agreements is the appraised value of the collateral underlying the residential mortgage loans subject to repurchase as of June 30, 2016 and December 31, 2015.

(7) Amounts also include accrued interest expense of \$0 and \$40,000 related to CMBS short term repurchase facilities as of June 30, 2016 and December 31, 2015.

Subsequent to June 30, 2016, the Company entered into and closed on a purchase agreement to sell its interest in Northport TRS, LLC. As a result of the transaction, \$2.6 million of amortization of the remaining deferred debt issuance costs related to the credit facility was accelerated and recorded as of June 30, 2016 (see Note 24).

The Company is in compliance with all covenants in the respective agreements as of June 30, 2016.

Securitizations

The following table sets forth certain information with respect to the Company's consolidated securitizations:

Securitization	Closing Date	Maturity Date	End of Designated Principal Reinvestment Period (1)	Total Note Paydowns as of June 30, 2016 (in millions)
RCC CRE Notes 2013	December 2013	December 2028	N/A	\$ 213.1
RCC 2014-CRE2	July 2014	April 2032	July 2016	\$ 85.3
RCC 2015-CRE3	February 2015	March 2032	February 2017	\$ 60.4
RCC 2015-CRE4	August 2015	August 2032	August 2017	\$ —

The designated principal reinvestment period is the period where principal payments received by each respective securitization may be designated by the Company to purchase funding participations of existing collateral originally underwritten at the close of each securitization, which was funded outside of the deal structure.

The investments held by the Company's securitizations collateralize the securitization's borrowings and, as a result, are not available to the Company, its creditors, or stockholders. All senior notes retained at closing or subsequently repurchased by the Company as of June 30, 2016 eliminate in consolidation.

On January 1, 2016, the Company adopted the amendments to the consolidation guidance (see Note 2). As a result of its evaluation, the Company deconsolidated RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco CDO.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

Residential Investments – Term Repurchase Facility

In June 2014, the Company's wholly-owned subsidiaries, RCC Resi Portfolio, RCC Resi TRS, and RCC Resi Depositor (the "Sellers") entered into a master repurchase and securities contract (the "2014 Facility") with Wells Fargo Bank, NA ("Wells Fargo"). Under the 2014 Facility, from time to time, the parties may enter into transactions in which the Sellers and Wells Fargo agree to transfer from the Sellers to Wells Fargo all of their right, title and interest to certain residential mortgage backed securities and other assets against the transfer of funds by Wells Fargo to the Sellers, with a simultaneous agreement by Wells Fargo to transfer back to the Sellers such assets at a date certain or on demand, against the transfer of funds from the Sellers to Wells Fargo. In May 2016, the Company entered into a sixth amendment of the 2014 Facility that made no material changes to the facility's terms. In July 2016, the Company agreed to terminate the 2014 Facility.

CMBS – Term Repurchase Facilities

In May 2016, the Company's wholly-owned subsidiary RCC Real Estate entered into a global master repurchase agreement (the "2016 Facility") with Deutsche Bank, AG ("DB"). Under the 2016 Facility, from time to time, the parties may enter into transactions in which RCC Real Estate and DB agree to transfer from the RCC Real Estate to DB all of their right, title and interest to certain CMBS and other assets (the "Assets") against the transfer of funds by DB to the RCC Real Estate, with a simultaneous agreement by DB to transfer back to the RCC Real Estate such Assets at a date certain, against the transfer of funds from the RCC Real Estate to DB. The maximum amount of the 2016 Facility is at DB's discretion and the minimum amount of the 2016 Facility is \$50.0 million. The original term of the 2016 Facility is one year with subsequent one year extensions subject to DB's approval. The 2016 Facility includes a "makewhole" clause which entitles DB to the full original term's interest in the event of an optional termination.

The 2016 Facility contains customary events of default, including payment defaults, acts of insolvency, breaches of certain representations, and expulsion from any securities exchange and/or self-regulating organization. The remedies for such events of default are also customary for this type of transaction and include the acceleration of all obligations of the RCC Real Estate to repay the purchase price for purchased assets.

The 2016 Facility also contains margin call provisions relating to a decline in the market value of a security. Under these circumstances, DB may require the RCC Real Estate to transfer cash or securities in an amount sufficient to eliminate any margin deficit resulting from such a decline.

Under the terms of the 2016 Facility and pursuant to a guarantee agreement dated May 23, 2016 (the "2016 Guaranty"), the Company guaranteed the payment and performance of (a) all payment obligations owing by the RCC Real Estate to DB under or in connection with the 2016 Facility and any other governing agreements; and (b) all expenses, including, without limitation, reasonable attorneys' fees and disbursements, that are incurred by DB in the enforcement of any of the foregoing or any obligation of the registrant. The 2016 Guaranty includes a reporting covenant with which the Company was in compliance as of June 30, 2016.

Residential Mortgage Financing Agreements

In July 2014, PCM entered into a master repurchase agreement (the "Wells Fargo Facility") with Wells Fargo to finance the acquisition of residential mortgage loans. In May 2016, PCM amended its agreement with Wells Fargo to increase the maximum of the amount of the Wells Fargo Facility from \$100.0 million to \$115.0 million for the period from May 27, 2016 to June 26, 2016. In June 2016, PCM amended its agreement with Wells Fargo to increase the maximum of the amount of the Wells Fargo Facility from \$115.0 million to \$150.0 million. The maximum duration for jumbo loans was increased from 90 days to 270 days. No other material changes were made to the Wells Fargo Facility's terms.

NOTE 13 - SHARE ISSUANCE AND REPURCHASE

	For the Six Months Ended June 30, 2016		Total Outstanding	
	Number of Shares Repurchased	Weighted Average Purchase Price	Number of Shares	Weighted Average Offering Price
8.50% Series A Preferred Stock	—	\$ —	1,069,016	\$ 24.29
8.25% Series B Preferred Stock	195,900	\$ 15.80	5,544,579	\$ 24.02
8.625% Series C Preferred Stock	—	\$ —	4,800,000	\$ 25.00

On or after June 14, 2017 the Company may, at its option, redeem the Series A preferred stock, in whole or part, at any time and from time to time, for cash at \$25.00 per share, plus accrued and unpaid dividends, if any, to the redemption date.

On or after October 2, 2017 the Company may, at its option, redeem the Series B preferred stock, in whole or part, at any time and from time to time, for cash at \$25.00 per share, plus accrued and unpaid dividends, if any, to the redemption date.

On or after July 30, 2024, the Company may, at its option, redeem the Series C preferred stock, in whole or part, at any time and from time to time, for cash at \$25.00 per share, plus accrued and unpaid dividends, if any, to the redemption date.

Under a dividend reinvestment plan authorized by the board of directors on March 21, 2013, the Company is authorized to issue up to 5,000,000 shares of common stock. During the three and six months ended June 30, 2016, the Company sold approximately 3,000 and 6,000 shares of common stock through this program, resulting in proceeds of approximately \$35,000 and \$70,000, respectively.

Under a share repurchase plan authorized by the board of directors on August 3, 2015, the Company is authorized to repurchase up to \$50.0 million of its outstanding equity and debt securities. During the six months ended June 30, 2016, the Company repurchased approximately \$8.0 million of its common stock, representing approximately 703,000 shares. Since the inception of the program through June 30, 2016, the Company has repurchased \$33.9 million of its common stock, representing approximately 2.7 million shares or 8.0% of the outstanding balance. During the six months ended June 30, 2016, the Company repurchased approximately \$3.1 million of its outstanding Series B preferred stock, representing approximately 196,000 shares or 3.4% of the initial outstanding balance. In March 2016, the Company's board of directors approved a new securities repurchase program for up to \$50.0 million of its

outstanding securities, which replaced the August 2015 repurchase plan.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
 JUNE 30, 2016
 (unaudited)

NOTE 14 - SHARE-BASED COMPENSATION

The following table summarizes the Company's restricted common stock transactions:

	Non-Employee Directors	Non-Employees	Employees	Total
Unvested shares as of January 1, 2016	15,267	617,657	58,445	691,369
Issued	23,193	230,338	50,784	304,315
Vested	(13,895)	(307,562)	(18,452)	(339,909)
Forfeited	—	—	—	—
Unvested shares as of June 30, 2016	24,565	540,433	90,777	655,775

The Company is required to value any unvested shares of restricted common stock granted to non-employees at the current market price. The estimated fair value at grant date of the unvested shares of restricted common stock granted to non-employees during the six months ended June 30, 2016 and 2015, was \$2.3 million and \$4.9 million, respectively. The estimated fair value at grant date of unvested shares of restricted common stock issued to the Company's seven non-employee directors during the six months ended June 30, 2016 and 2015 was \$255,000 and \$256,000, respectively. The estimated fair value of the unvested shares of restricted common stock granted during the six months ended June 30, 2016 and 2015, including the grant date fair value of shares issued to the Company's employees, was \$483,000 and \$561,000, respectively.

The Company records any unvested shares of restricted common stock granted to non-employee directors at the fair value on the grant date amortized over the service period. The amortization recognized during the three and six months ended June 30, 2016 and 2015 was \$64,000 and \$128,000 and \$64,000 and \$129,000, respectively.

As of June 30, 2016, the total unrecognized restricted common stock expense was \$3.4 million, with a weighted average amortization period remaining of 2.1 years.

The following table summarizes restricted common stock grants during the six months ended June 30, 2016:

Date	Shares	Vesting/Year	Date(s)
January 21, 2016	130,903	33.3%	1/21/17, 1/21/18, 1/21/19
January 21, 2016	50,784	33.3%	1/21/17, 1/21/18, 1/21/19
February 1, 2016	3,421	100%	2/1/17
February 5, 2016	90,595	33.3%	2/5/17, 2/5/18, 2/5/19
March 8, 2016	13,912	100%	3/8/17
March 14, 2016	3,158	100%	3/14/17
March 31, 2016	8,840	100%	5/15/17 ⁽¹⁾
June 6, 2016	2,702	100%	6/6/17

In connection with a grant of restricted common stock made on September 24, 2014, the Company agreed to issue up to 17,682 shares of common stock if certain loan origination performance thresholds were achieved by personnel from the Company's loan origination team. The performance criteria were measured at the end of two annual measurement periods which began April 1, 2014. The agreement also provided dividend equivalent rights pursuant to which the dividends that would have been paid on the shares had they been issued on the date of grant were paid at the end of each annual measurement period if the performance criteria were met. If the performance criteria were not met, the accrued dividends would be forfeited. As a consequence, the Company did not record the dividend equivalent rights until earned. On March 31, 2016, the final measurement period ended and 8,840 shares were earned. Approximately \$42,000 of accrued dividend equivalent rights were paid in April 2016. These shares will vest over the subsequent 12 months at a rate of one-fourth per quarter.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
 JUNE 30, 2016
 (unaudited)

The following table summarizes the status of the Company's vested stock options as of June 30, 2016:

Vested Options	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Vested as of January 1, 2016	26,250	\$ 46.60		
Vested	—	—		
Exercised	—	—		
Forfeited	—	—		
Expired	—	—		
Vested as of June 30, 2016	26,250	\$ 46.60	2.45	\$ —

There were no options granted during the six months ended June 30, 2016 or 2015. The outstanding stock options have a contractual term of ten years, and will expire in May 2021.

The components of equity compensation expense for the periods presented as follows (in thousands):

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015
Restricted shares granted to non-employees ⁽¹⁾	\$1,288	\$543	\$1,713	\$1,307
Restricted shares granted to employees	63	184	837	350
Restricted shares granted to non-employee directors	64	64	128	129
Total equity compensation expense	\$1,415	\$791	\$2,678	\$1,786

(1) Non-employees are employees of Resource America.

Under the Company's Management Agreement, incentive compensation is paid quarterly. Up to 75% of the incentive compensation is paid in cash and at least 25% is paid in the form of an award of common stock. There were no incentive fees paid to the Manager for the three and six months ended June 30, 2016 and 2015.

Apart from incentive compensation payable under the Management Agreement, the Company has established no formal criteria for the issuance of equity awards as of June 30, 2016. All awards are discretionary in nature and subject to approval by the compensation committee of the Company's board of directors.

On October 31, 2013, the Company, through its TRS, RCC Residential, completed a business combination whereby it acquired the assets of PCM, an Atlanta based company that originates and services residential mortgage loans, for approximately \$7.6 million in cash. As part of this transaction, a key employee of PCM was granted approximately \$800,000 of the Company's restricted stock. In March 2016, this key employee ended his service period and all remaining amortization expense on unvested stock in the amount of \$555,000 was accelerated. Any grants for employees of PCM are accounted for as compensation and amortized to equity compensation expense over the vesting period. Dividends declared on the stock while unvested are recorded as a general and administrative expense. Dividends declared after the stock vests are recorded as a distribution. For the three and six months ended June 30, 2016, \$63,000 and \$837,000 of amortization of the stock grants was recorded to equity compensation expense, respectively. For the three and six months ended June 30, 2015, \$184,000 and \$350,000 of amortization of the stock grants was recorded to equity compensation expense, respectively. For the three and six months ended June 30, 2016, \$38,000 and \$76,000 of expense related to dividends on unvested shares was recorded to general and administrative

expense on the Company's consolidated statements of operations, respectively. For the three and six months ended June 30, 2015, \$43,000 and \$86,000 of expense related to dividends on unvested shares was recorded to general and administrative expense on the Company's consolidated statements of operations, respectively.

NOTE 15 - EARNINGS PER SHARE

On August 3, 2015, the Company's board of directors approved a one-for-four reverse stock split of its outstanding common stock which took effect after the close of business on August 31, 2015. Outstanding share and per-share amounts disclosed as of June 30, 2016 and for all other comparative periods provided have been retroactively adjusted to reflect the effects of the stock split.

The following table presents a reconciliation of basic and diluted earnings per share for the periods presented as follows (in thousands, except share and per share amounts):

	For the Three Months Ended June 30, 2016		For the Six Months Ended June 30, 2015	
Basic:				
Net income (loss) allocable to common shares	\$(1,536)	\$(31,011)	\$8,137	\$(21,609)
Weighted average number of shares outstanding	30,410,451	2,852,316	30,505,428	28,833,426
Basic net income (loss) per share	\$(0.05)	\$(0.94)	\$0.27	\$(0.66)

Diluted:

Net income (loss) allocable to common shares	\$(1,536)	\$(31,011)	\$8,137	\$(21,609)
Weighted average number of shares outstanding	30,410,451	2,852,316	30,505,428	28,833,426
Additional shares due to assumed conversion of dilutive instruments	—	—	218,844	—
Adjusted weighted-average number of common shares outstanding	30,410,451	2,852,316	30,724,272	28,833,426
Diluted net income (loss) per share	\$(0.05)	\$(0.94)	\$0.26	\$(0.66)

Potentially dilutive shares consisting of 324,524 and 381,106 shares of restricted stock are not included in the calculation of diluted net income (loss) per share for the three and six months ended June 30, 2016, respectively, because the effect was anti-dilutive. Potentially dilutive shares consisting of 9,002,864 shares issuable in connection with the potential conversion of the Company's 6.0% and 8.0% Convertible Senior Notes (see Note 12) for the three and six months ended June 30, 2016 were not included in the calculation of diluted net income (loss) per share because the effect was anti-dilutive.

Potentially dilutive shares consisting of 349,880 and 305,878 shares of restricted stock are not included in the calculation of diluted net (loss) per share for the three and six months ended June 30, 2015, respectively, because the effect was anti-dilutive. Potentially dilutive shares consisting of 9,002,864 shares issuable in connection with the potential conversion of the Company's 6.0% and 8.0% Convertible Senior Notes for both the three and six months ended June 30, 2015 were not included in the calculation of diluted net loss per share because the effect was anti-dilutive.

NOTE 16 - ACCUMULATED OTHER COMPREHENSIVE (LOSS) INCOME

The following table presents the changes in each component of accumulated other comprehensive income for the six months ended June 30, 2016 (dollars in thousands):

	Net unrealized (loss) gain on derivatives	Net unrealized (loss) gain on securities, available-for-sale	Foreign Currency Translation	Accumulated other comprehensive income (loss)
January 1, 2016	\$(3,471)	\$ 2,568	\$ (63)	\$ (966)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

NOTE 17 - RELATED PARTY TRANSACTIONS

Relationship with Resource America and Certain of its Subsidiaries

Relationship with Resource America. On September 19, 2013, the audit committee of the board of directors of Resource America concluded that Resource America should consolidate the financial statements of the Company, which was previously treated as an unconsolidated VIE. Resource America's audit committee reached this conclusion after consultations with the Office of the Chief Accountant of the Securities and Exchange Commission (the "Commission") following comments received from the staff of the Division of Corporation Finance of the Commission and the audit committee's discussion with the Company's management and its independent registered public accounting firm. Resource America's audit committee noted that consolidation of the Company was not expected to materially affect Resource America's previously reported net income attributable to common shareholders. In December 2015, Resource America elected to early adopt consolidation guidance issued by the FASB in February 2015 (see Note 2) and was required to reevaluate whether or not the Company should be consolidated into Resource America's financial statements. It was determined that the Company is no longer a VIE and Resource America will no longer consolidate the Company's financial statements. On May 22, 2016 Resource America agreed to be acquired by C-III Capital Partners LLC ("C-III"), a leading commercial real estate services company engaged in a broad range of activities, including primary and special loan servicing, loan origination, fund management, CDO management, principal investment, investment sales and multifamily property management. As part of the transaction, C-III will assume the Company's management contract from Resource America and will acquire 715,396 shares of the Company's common equity (2.3% of outstanding the Company's shares) currently held by Resource America. The transaction is expected to close late in the third quarter or early in the fourth quarter of 2016. At June 30, 2016, Resource America owned 715,396 shares, or 2.3%, of the Company's outstanding common stock. On May 21, 2016, Resource America entered into a letter agreement with the Company pursuant to which the Company irrevocably waived its right to terminate the management agreement as a result of a "Change of Control" (as defined in the management agreement) resulting from the merger. Resource America agreed to pay \$1.5 million to the Company at the closing of the merger.

The Company is managed by the Manager, which is a wholly-owned subsidiary of Resource America, pursuant to a Management Agreement that provides for both base and incentive management fees. For the three and six months ended June 30, 2016 the Manager earned base management fees of approximately \$3.0 million and \$6.9 million, respectively. For the three and six months ended June 30, 2015 the Manager earned base management fees of approximately \$3.4 million and \$6.8 million, respectively. No incentive management fees were earned for the three and six months ended June 30, 2016 or 2015. The Company also reimburses the Manager and Resource America for expenses, including the expenses of employees of Resource America who perform legal, accounting, due diligence and other services that outside professionals or consultants would otherwise perform, and for the wages, salaries and benefits of several Resource America personnel dedicated to the Company's operations. The Company also reimburses Resource America for additional costs incurred related to the Company's life care business, Long Term Care Conversion Funding, established for the purpose of originating and acquiring life settlement contracts. The initial agreement, authorized in December 2012, provided for an annual fee of \$550,000, with a two-year term. In March 2015, the agreement was amended for an additional year through 2016. This fee is paid quarterly. For the three and six months ended June 30, 2016 the Company paid the Manager \$1.5 million and \$2.6 million, respectively, as expense reimbursements. For the three and six months ended June 30, 2015 the Company paid the Manager \$1.6 million and \$2.7 million, respectively, as expense reimbursements.

On November 24, 2010, the Company entered into an Investment Management Agreement with Resource Capital Markets, Inc. ("RCM"), a wholly-owned subsidiary of Resource America. The initial agreement provided that: (a) RCM

may invest up to \$5.0 million of the Company's funds, with the investable amount being adjusted by portfolio gains (losses) and collections, and offset by expenses, taxes and realized management fees, and (b) RCM can earn a management fee in any year that the net profits earned exceed a preferred return. On June 17, 2011, the Company entered into a revised Investment Management Agreement with RCM which provided an additional \$8.0 million of the Company's funds. The management fee is 20% of the amount by which the net profits exceed the preferred return. During the three and six months ended June 30, 2016 and 2015, RCM earned no management fees. The portfolio began a partial liquidation during the year ended December 31, 2013 that has resulted in the outstanding portfolio balance being significantly decreased. The Company holds \$4.0 million in fair market value of trading securities as of June 30, 2016, an increase of \$300,000 from \$3.7 million at fair market value as of December 31, 2015. The Company also reimburses RCM for expenses paid on the Company's behalf. For the three and six months ended June 30, 2016 the Company paid RCM \$0 and \$8,000, respectively, as expense reimbursements. For the three and six months ended June 30, 2015 the Company paid RCM \$65,000 and \$97,000, respectively, as expense reimbursements.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

At June 30, 2016, the Company was indebted to the Manager for \$1.7 million, comprised of base management fees of \$978,000 and expense reimbursements of \$677,000. At December 31, 2015, the Company was indebted to the Manager for \$2.5 million, comprised of base management fees of \$978,000 and expense reimbursements of \$1.6 million. At June 30, 2016, the Company was indebted to RCM under the Company's Investment Management Agreement for \$127,000, comprised entirely of expense reimbursements. At December 31, 2015, the Company was indebted to RCM under the Company's Investment Management Agreement for \$152,000, comprised entirely of expense reimbursements. The Company's base management fee payable as well as expense reimbursements payable are recorded in accounts payable and other liabilities on the consolidated balance sheets.

During the year ended December 31, 2013, the Company, through one of its subsidiaries, began originating middle-market loans. Resource America is paid origination fees in connection with the Company's middle-market lending operations, which fees may not exceed 2% of the loan balance for any loan originated. The Company was indebted to RCM for \$59,000 and \$93,000 as of June 30, 2016 and December 31, 2015, respectively, for the middle-market operations.

On November 7, 2013, the Company, through a wholly-owned subsidiary, purchased all of the membership interests in Elevation Home Loans, LLC, a start-up residential mortgage company, from a person who subsequently became an employee of Resource America for \$830,000, paid in the form of 34,165 shares of restricted Company common stock. The restricted stock vests in full on November 7, 2016, and includes dividend equivalent rights.

In May 2016, the Company made an €12.5 million investment in Harvest CLO XV, a European CLO with a total par value of €413.0 million with an unrelated third-party collateral manager. In connection with this transaction, the Company paid a \$2.3 million structuring and placement fee for underwriting to Resource America.

As of June 30, 2016, the Company retained equity in eight securitizations, which were structured for the Company by the Manager. Under the Management Agreement, the Manager was not separately compensated by the Company for executing these transactions and is not separately compensated for managing the securitizations' entities and their assets. The Company has since liquidated three of these securitizations, one in October 2013, one in October 2014 and another in June 2015. On January 1, 2016, the Company adopted new consolidation guidance on variable interest entities and, as a result, three of the Company's remaining securitizations were deconsolidated.

Relationship with LEAF Commercial Capital. LCC originated and managed equipment leases and notes on behalf of the Company. On March 5, 2010, the Company entered into agreements with Lease Equity Appreciation Fund II, L.P. ("LEAF II") (an equipment leasing partnership sponsored by LEAF Financial and of which a LEAF Financial subsidiary is the general partner), pursuant to which the Company provided and funded an \$8.0 million credit facility to LEAF II. The credit facility initially had a one year term with interest at 12% per year, payable quarterly, and was secured by all the assets of LEAF II, including its entire ownership interest in LEAF II Receivables Funding. The Company received a 1% origination fee in connection with establishing the facility. The facility originally matured on March 3, 2011 and was extended until September 3, 2011 with a 1% extension fee paid on the outstanding loan balance. On June 3, 2011, the Company entered into an amendment to extend the maturity to February 15, 2012 and to decrease the interest rate from 12% to 10% per annum resulting in a troubled-debt restructuring under current accounting guidance. On February 15, 2012, the credit facility was further amended to extend the maturity to February 15, 2013 with a 1% extension fee accrued and added to the amount outstanding. On January 11, 2013, the Company entered into another amendment to extend the maturity to February 15, 2014 with an additional 1% extension fee accrued and added to the amount outstanding. On December 17, 2013, the Company entered into another amendment to extend the maturity to February 15, 2015. At the end of 2014, the Company recorded a provision for loan loss on this loan of \$1.3 million before extinguishing the loan and bringing direct financing leases in the amount of \$2.1 million on the Company's books in lieu of the loan receivable. There was no provision taken during the three and six months ended

June 30, 2016. During the three and six months ended June 30, 2015, the Company recorded a partial recovery of the previously taken provision in the amount \$28,000 and \$216,000, respectively. As of June 30, 2016, the Company held \$665,000 of direct financing leases.

On November 16, 2011, the Company, together with LEAF Financial and LCC, entered into the SPA with Eos (see Note 3). The Company's resulting interest is accounted for under the equity method. For the three and six months ended June 30, 2016 the Company recorded income of \$933,000 and \$2.3 million, respectively, which was recorded in equity in earnings of unconsolidated subsidiaries on the consolidated statements of operations. For the three and six months ended June 30, 2015 the Company recorded income of \$350,000 and \$402,000, respectively, which was recorded in equity in earnings of unconsolidated

JUNE 30, 2016

(unaudited)

subsidiaries on the consolidated statements of operations. The Company's investment in LCC was \$44.4 million and \$42.0 million as of June 30, 2016 and December 31, 2015, respectively.

Relationship with CVC Credit Partners. On April 17, 2012, Apidos Capital Management ("ACM"), a former subsidiary of Resource America, was sold to CVC Credit Partners, L.P. ("CVC Credit Partners"), a joint venture entity in which Resource America owns a 24% interest. CVC Credit Partners manages internally and externally originated bank loan assets on the Company's behalf. On February 24, 2011, a subsidiary of the Company purchased 100% of the ownership interests in Churchill Pacific Asset Management LLC ("CPAM") from Churchill Financial Holdings LLC for \$22.5 million. CPAM subsequently changed its name to RCAM. Through RCAM, the Company was initially entitled to collect senior, subordinated and incentive fees related to five CLOs holding approximately \$1.9 billion in assets managed by RCAM. RCAM is assisted by CVC Credit Partners in managing these CLOs. CVC Credit Partners is entitled to 10% of all subordinated fees and 50% of the incentive fees received by RCAM. For the three and six months ended June 30, 2016 CVC Credit Partners earned subordinated fees of \$198,000 and \$307,000, respectively, and no incentive fees. For the three and six months ended June 30, 2015 CVC Credit Partners earned subordinated fees of \$221,000 and \$458,000, respectively, and no incentive fees. In October 2012, the Company purchased 66.6% of the preferred equity in one of the RCAM CLOs. In May 2013, the Company purchased additional equity in this CLO, increasing its ownership percentage to 68.3%. In 2013 two of the five CLOs were called and the notes were paid down in full. In January 2016 another RCAM-managed CLO was called and \$2.4 million of the impairment, on a pre-tax basis, was recorded in depreciation and amortization on the Company's consolidated statements of operations on the related intangible asset as of December 31, 2015.

In May, June and July 2013, the Company invested a total of \$15.0 million in CVC Global Credit Opportunities Fund, L.P. which generally invests in assets through the Master Fund. The fund pays the investment manager a quarterly management fee in advance calculated at the rate of 1.5% annually based on the balance of each limited partner's capital account. The Company's management fee was waived upon entering the agreement because the Company is a related party of CVC Credit Partners. For the three and six months ended June 30, 2015, the Company recorded earnings of \$312,000 and \$920,000, which was recorded in equity in earnings of unconsolidated subsidiaries on the consolidated statements of operations. In March 2015, the Company elected to withdraw \$5.0 million from the fund. In July 2015, a \$625,000 withdrawal was requested and received. In October 2015, another \$4.0 million withdrawal was requested and received. In December 2015, the Company elected to withdraw the remaining \$8.6 million from the fund. The Company retained no investment in the fund as of December 31, 2015.

Relationship with Resource Real Estate. Resource Real Estate, a subsidiary of Resource America, originates, finances and manages the Company's commercial real estate loan portfolio. The Company reimburses Resource Real Estate for loan origination costs associated with all loans originated. The Company had a receivable in the amount of \$0 and \$2,500 due from Resource Real Estate for loan origination costs in connection with the Company's commercial real estate loan portfolio as of June 30, 2016 and December 31, 2015, respectively.

On December 1, 2009, the Company purchased a membership interest in RRE VIP Borrower, LLC (an unconsolidated VIE that held an interest in a real estate joint venture) from Resource America for \$2.1 million, its book value. RREM was asset manager of the venture and received a monthly asset management fee equal to 1.0% of the combined investment calculated as of the last calendar day of the month. There were no fees incurred for the three and six months ended June 30, 2016 and 2015, as the last property associated with the joint venture was sold in July 2014. For the three and six months ended June 30, 2016 the Company recorded income of \$10,000 and \$35,000, respectively, which was recorded in equity in earnings of unconsolidated subsidiaries on the consolidated statements of operations. For the three and six months ended June 30, 2015 the Company recorded income of \$0 and \$46,000, respectively, which was recorded in equity in earnings of unconsolidated subsidiaries on the consolidated statements of operations.

The income recorded in 2016 and 2015 was related to insurance premium refunds and the liquidation of bank accounts with respect to the underlying sold properties of the portfolio.

On January 15, 2010, the Company loaned \$2.0 million to Resource Capital Partners, Inc. (“RCP”), a wholly-owned subsidiary of Resource America, so that it could acquire a 5.0% limited partnership interest in Resource Real Estate Opportunity Fund, L.P. (“RRE Opportunity Fund”). RCP is the general partner of the RRE Opportunity Fund. The loan was secured by RCP’s partnership interest in the RRE Opportunity Fund. The promissory note bore interest at a fixed rate of 8.0% per annum on the unpaid principal balance. In the event of default, interest accrued at a rate of 5.0% in excess of the fixed rate. Interest was payable quarterly. Mandatory principal payments were required to the extent distributable cash or other proceeds from RRE Opportunity Fund represent a return of RCP’s capital. The loan had an original maturity date of January 14, 2015, with two one-year extensions. RCP exercised the first option, extending the maturity to January 14, 2016. The loan was paid in full in April 2015.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

The Company has closed the following four real estate securitization transactions, which provide financing for commercial real estate loans: RCC CRE Notes 2013, a \$307.8 million securitization in December 2013; RCC 2014-CRE2, a \$353.9 million securitization on July 30, 2014; RCC 2015-CRE3, a \$346.2 million securitization on February 24, 2015; and RCC 2015-CRE4, a \$312.9 million securitization on August 18, 2015. Resource Real Estate serves as special servicer for each transaction. With respect to each specialty service mortgage loan, Resource Real Estate receives an amount equal to the product of (a) the special servicing fee rate, 0.25% per annum, and (b) the outstanding principal balance of such specialty service mortgage loan. The servicing fee is payable monthly, on an asset-by-asset basis. The Company utilizes the brokerage services of Resource Securities, Inc. ("Resource Securities"), a wholly-owned broker-dealer subsidiary of Resource America, on a limited basis to conduct some of its asset trades. The Company paid Resource Securities placement agent fees in connection with each transaction as follows: \$205,000, \$175,000, \$100,000, and \$85,000, respectively.

In July 2014, the Company formed RCM Global Manager to invest in RCM Global, an entity formed to hold a portfolio of structured product securities. The Company contributed \$15.0 million for a 63.8% membership interest in RCM Global. A five member board manages RCM Global, and all actions, including purchases and sales, must be approved by no less than three of the five members of the board. The portion of RCM Global that the Company does not own is presented as non-controlling interests as of the dates and for the periods presented in the Company's consolidated financial statements. All intercompany accounts and transactions have been eliminated in consolidation. In March and June 2015, the Company requested and received a proportional, in-kind distribution in certain securities held by RCM Global. The distribution of and subsequent sale of those securities by the Company through its subsidiary, RCC Residential, resulted in the realization of \$5.0 million of net gains for the year ended December 31, 2015. During the six months ended June 30, 2016 RCC Residential received a cash distribution in the amount of \$599,000. The Company's ownership interest decreased to 25.9% as of June 30, 2016. On January 1, 2016, the Company adopted new consolidation guidance on variable interest entities and, as a result, the Company deconsolidated RCM Global and now accounts for this investment as an investment in unconsolidated entities on the consolidated balance sheet (see Note 2). For the three and six months ended June 30, 2016, the Company recorded earnings of \$222,000 and \$399,000 which was recorded in equity in earnings of unconsolidated subsidiaries on the consolidated statements of operations, respectively.

In September 2014, the Company contributed \$17.5 million to Pelium Capital for an initial ownership interest of 80.4%. Pelium Capital is a specialized credit opportunity fund managed by Resource America. The Company funded its final commitment of \$2.5 million, as of February 1, 2015. The Company will receive 10% of the carried interest in the partnership for the first five years, and can increase its interest to 20% if the Company's capital contributions aggregate \$40.0 million. Resource America contributed securities valued at \$2.8 million to the formation of Pelium Capital. The portion of the fund that the Company does not own is presented as non-controlling interests as of the dates and for the periods presented in the Company's consolidated financial statements. Pelium Capital was determined not to be a VIE as there was sufficient equity at risk, the Company does not have disproportionate voting rights and Pelium Capital's partners have all of the following characteristics: (1) the power to direct the activities of Pelium; (2) the obligation to absorb losses; and (3) the right to receive residual returns. However, Pelium Capital was consolidated as a result of the Company's majority ownership and the Company's unilateral kick-out rights. The non-controlling interest in Pelium Capital is owned by Resource America and outside investors. All intercompany accounts and transactions were eliminated in consolidation as of December 31, 2015. The Company's ownership interest in Pelium Capital was 80.2% as of June 30, 2016. On January 1, 2016, the Company adopted new consolidation guidance on variable interest entities and, as a result, the Company deconsolidated Pelium Capital and now accounts for this investment as an investment in unconsolidated entities on the consolidated balance sheet (see

Note 2). For the three and six months ended June 30, 2016, the Company recorded earnings of \$1.4 million and \$1.7 million which was recorded in equity in earnings of unconsolidated subsidiaries on the consolidated statements of operations, respectively.

On April 10, 2015, the Company entered into two first mortgage bridge loans in the amount of \$2.5 million and \$3.3 million with two funds sponsored by Resource America, Resource Real Estate Investors LP and Resource Real Estate Investors II, LP. Each loan carried an interest rate of LIBOR plus 5.75% with a LIBOR floor of 0.25%. The loans had a maturity date of May 5, 2016, with two consecutive one-year options to extend upon the first maturity date. The loan in the amount of \$2.5 million was repaid in full with interest on April 29, 2015. The second loan in the amount of \$3.3 million was repaid in full with interest on July 31, 2015.

On June 24, 2015, the Company committed to invest up to \$50.0 million in Pearlmark Mezzanine Realty Partners IV, L.P. ("Pearlmark Mezz IV L.P."), a Delaware limited partnership. The contractual fund manager of the fund is Pearlmark Real Estate LLC ("Pearlmark"), a Delaware limited liability company that is 50% owned by Resource America. The Company will

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

pay Pearlmark Mezz IV L.P management fees of 1.0% on the unfunded committed capital and 1.5% on the invested capital. The Company is entitled to a management fee rebate of 25% for the first year of the fund. As of June 30, 2016, the Company is indebted for \$193,000 for management fees, net of the rebate. Resource America has agreed that it will credit any such fees paid by the Company to Pearlmark against the base management fee that the Company pays to Resource America. The Company has invested an aggregate of \$7.6 million in capital in Pearlmark Mezz IV L.P. For the three and six months ended June 30, 2016, the Company recorded earnings of \$171,000 and \$419,000 which was recorded in equity in earnings of unconsolidated subsidiaries on the consolidated statements of operations. As of June 30, 2016, the Company has an investment balance of \$6.6 million and a 47.4% ownership interest in the fund.

Relationship with Law Firm. Until 1996, Edward E. Cohen, a director who was the Company's Chairman from its inception until November 2009, was of counsel to Ledgewood, P.C., a law firm. In addition, one of the Company's executive officers, Jeffrey F. Brotman, was employed by Ledgewood until 2007. Mr. E. Cohen receives certain debt service payments from Ledgewood related to the termination of his affiliation with Ledgewood and its redemption of his interest in the firm. Mr. Brotman also receives certain debt service payments from Ledgewood related to the termination of his affiliation with the firm. For the three and six months ended June 30, 2016 the Company paid Ledgewood \$72,000 and \$168,000, respectively, in connection with legal services rendered to the Company. For the three and six months ended June 30, 2015 the Company paid Ledgewood \$61,000 and \$334,000, respectively, in connection with legal services rendered to the Company.

NOTE 18 - DISTRIBUTIONS

For the quarter ended June 30, 2016, the Company declared and subsequently paid a dividend of \$0.42 per common share.

In order to qualify as a REIT, the Company must currently distribute at least 90% of its taxable income. In addition, the Company must distribute 100% of its taxable income in order not to be subject to corporate federal income taxes on retained income. The Company anticipates it will distribute substantially all of its taxable income to its stockholders. Because taxable income differs from cash flow from operations due to non-cash revenues or expenses (such as provisions for loan and lease losses and depreciation), in certain circumstances, the Company may generate operating cash flow in excess of its distributions or, alternatively, may be required to borrow to make sufficient distribution payments.

The Company's 2016 dividends will be determined by the Company's board of directors which will also consider the composition of any dividends declared, including the option of paying a portion in cash and the balance in additional common shares.

The following tables present dividends declared (on a per share basis) for the three and six months ended June 30, 2016 and for the year ended December 31, 2015:

Common Stock

	Date Paid	Total Dividend Paid (in thousands)	Dividend Per Share
2016

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
JUNE 30, 2016
(unaudited)

The Company's residential mortgage loan portfolio included in loans held for sale is comprised of both agency loans and non-agency jumbo loans. The fair values of the Company's agency loan portfolio are generally classified as Level 2 in the fair value hierarchy, as those values are determined based on quoted market prices for similar assets or upon other observable inputs. The fair values of the Company's jumbo loan portfolio are generally classified as Level 3 in the fair value hierarchy, as those values are based upon the fair value of securities backed by similar mortgage loans, adjusted for certain factors to approximate the fair value of a whole mortgage loan including the value attributable to servicing rights and credit risk. Loans are adjusted for spread to agency mortgage back securities of similar mortgage loans, at rates ranging between 0.7% and 7.0%.

The fair value of interest rate lock commitments ("IRLCs") is estimated as the fair value of the of the underlying mortgage loan to be sold, which is based on quoted mortgage-backed securities ("MBSs") prices, plus the estimated fair value of the mortgage servicing rights, less the price committed to the borrower or mortgage lender and direct origination costs, adjusted for the probability that the mortgage will fund ("pull-through" rate). The estimated pull-through rate is based on the Company's historical data. IRLCs are included in derivatives on the Company's consolidated balance sheets.

The average pull-through percentage used in measuring the fair value of IRLCs as of June 30, 2016 was 81.9% for assets and 68.1% for liabilities. The pull-through percentage is considered a significant unobservable input and is estimated based on changes in pricing and actual borrower behavior using a historical analysis of loan closing data. Generally, a change in interest rates is accompanied by a directionally opposite change in the assumption used for the pull-through percentage, and the impact to fair value of a change in pull-through would be partially offset by the related change in price.

Forwards - residential mortgage loans fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market. The fair value of forward delivery commitments is primarily based upon the current agency mortgage-backed security market to-be-announced pricing specific to the loan program, delivery coupon and delivery date of the trade. Best effort sales commitments are also executed for certain loans at the time the borrower commitment is made. These best effort sales commitments are valued using the committed price to the counterparty against the current market price of the interest rate lock commitment or mortgage loan held for sale. Forwards are included in derivatives on the Company's consolidated balance sheets.

As part of the origination of a certain middle market loan, the Company received warrants as consideration at the loan's origination. The fair value of the warrants was \$850,000 and calculated by performing a Black-Scholes analysis and the significant unobservable inputs were a measure of 50.0% for the annual volatility over the term of the warrants and a market capitalization of \$172.7 million.

In accordance with guidance on fair value measurements and disclosures, the Company is not required to disclose quantitative information with respect to unobservable inputs contained in fair value measurements that are not developed by the Company. As a consequence, the Company has not disclosed such information associated with fair values obtained for investment securities trading and investment securities available for sale from third-party pricing sources.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
 JUNE 30, 2016
 (unaudited)

The following table summarizes the financial assets and liabilities measured at fair value on a nonrecurring basis and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value as follows (in thousands):

	Level 1	Level 2	Level 3	Total
As of June 30, 2016:				
Assets:				
Loans held for sale	\$	-\$2,564	\$256,615	\$259,179
Impaired loans	—	—	38,133	38,133
Mortgage servicing rights	—	—	20,560	20,560
Total assets at fair value	\$	-\$2,564	\$315,308	\$317,872

As of December 31, 2015:

Assets:				
Loans held for sale	\$	-\$1,279	\$153	\$1,432
Impaired loans	—	262	129,433	129,695
Total assets at fair value	\$	-\$1,541	\$129,586	\$131,127

Loans held for sale consist of middle market loans identified for sale. The fair value of Level 2 middle market loans held for sale are based on quoted market prices for similar assets or upon other observable inputs. The fair value of Level 3 middle market loans held for sale may be determined using a market or income approach methodology, both of which may require significant judgment or estimation for factors such as EBITA multiples, market capitalization rates or discount rates, depending on the methodology used. The following unobservable inputs were used in the determination of fair value with respect to Level 3 middle market loans at June 30, 2016: market yields ranged from 9.0% to 14.7% and EBITDA multiples ranged from 6.0x - 11.8x .

Impaired loans consist of CRE loans for which an impairment analysis was conducted during the period. For the Company's CRE loans for which there is no primary market, fair value is measured using discounted cash flow analysis and other valuation techniques, and these loans are classified as nonrecurring Level 3.

For the three and six months ended June 30, 2016 there were no nonrecurring fair value losses for specifically impaired loans. The amounts of nonrecurring fair value losses for specifically impaired loans for the three and six months ended June 30, 2015 were \$38.9 million and \$41.4 million, respectively. The amounts of nonrecurring fair value losses for loans held for sale for the three and six months ended June 30, 2016 were \$14.5 million and \$14.5 million, respectively. The amounts of nonrecurring fair value losses for loans held for sale for the three and six months ended June 30, 2015 were \$86,000 and \$806,000, respectively.

The Company is required to disclose the fair value of financial instruments for which it is practicable to estimate that value. The fair values of the Company's short-term financial instruments such as cash and cash equivalents, restricted cash, principal paydown receivable, interest receivable, distribution payable, accrued interest expense, repurchase agreements and the secured revolving credit agreement approximate their carrying value on the consolidated balance sheets. The fair values of the Company's investment securities, trading are reported in Note 5. The fair values of the Company's investment securities available-for-sale are reported in Note 6. The fair values of the Company's derivative instruments are reported in Note 20.

The fair value of the Company's Level 2 loans held-for-investment are primarily measured using a third-party pricing service. The fair value of the Company's Level 3 loans held-for-investment are measured by discounting the expected future cash flows using the current interest rates at which similar loans would be made to borrowers with similar credit

ratings and for the same remaining maturities.

CDO notes are valued using dealer quotes, typically the dealer who underwrote the CDO in which the notes are held. Junior subordinated notes are estimated by discounted cash flows with discount rates of 13.28% and 13.29% used in the evaluation of RCT I and RCT II, respectively.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

Repurchase agreements and the senior secured revolving credit agreement are variable rate debt instruments indexed to LIBOR that reset periodically and, as a result, their carrying value approximates their fair value.

The fair value of the convertible notes was determined using a discounted cash flow model that discounts the expected future cash flows using current interest rates on similar debts that do not have a conversion option. The 6.0%

Convertible Senior Notes are discounted at a rate of 7.00% and the 8.0% Convertible Senior Notes are discounted at a rate of 8.60%. The fair value of the CRE portfolio was determined using a discounted cash flow model that discounts the expected future cash flows at current rates at which similar loans would be made to borrowers with similar credit ratings and with the same remaining maturities. Discount rates used range between 15%-25%.

The fair values of the Company's remaining financial instruments that are not reported at fair value on the consolidated balance sheets are reported in the following table (in thousands):

	Carrying Amount	Fair Value	Fair Value Measurements		
			Quoted Prices in Active Markets for Identical Assets of Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
As of June 30, 2016:

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
JUNE 30, 2016
(unaudited)

NOTE 20 - MARKET RISK AND DERIVATIVE INSTRUMENTS

The Company is directly and indirectly affected by changes in certain market conditions. These changes in market conditions may adversely impact the Company's financial performance and are referred to as "market risks." When deemed appropriate, the Company uses derivatives as a risk management tool to mitigate the potential impact of certain market risks. The primary market risks managed by the Company through the use of derivative instruments are interest rate risk and foreign currency exchange rate risk.

The Company may hold various derivatives in the ordinary course of business, including warrants, interest rate swaps, forward contracts, options and interest rate lock commitments. Warrants are securities that give the holder the right, but not the obligation, to purchase securities from an issuer at a specific price and within a specified time period.

Options are contracts sold by one party to another that give the buyer the right, but not the obligation, to buy or sell a financial asset at an agreed-upon price during a certain period of time or on a specific date. Interest rate swap agreements are contracts between two parties to exchange cash flows based on specified underlying notional amounts, assets and/or indices. Forward contracts represent future commitments to either purchase or to deliver loans (residential mortgage lending), securities (TBA securities) or a quantity of a currency (foreign currency hedging) at a predetermined future date, at a predetermined rate or price and are used to manage interest rate risk on loan commitments and mortgage loans held for sale as well as currency risk with respect to the Company's long positions in foreign currency-denominated investment securities. Rate lock commitments represent commitments to fund loans at a specific rate and by a specified time and are used to mitigate risk of changes in interest rate in the Company's residential mortgage loan portfolio.

A significant market risk to the Company is interest rate risk. Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond the Company's control. Changes in the general level of interest rates can affect net interest income, which is the difference between the interest income earned on interest-earning assets and the interest expense incurred in connection with the interest-bearing liabilities, by affecting the spread between the interest-earning assets and interest-bearing liabilities. Changes in the level of interest rates also can affect the value of the Company's interest-earning assets and the Company's ability to realize gains from the sale of these assets. A decline in the value of the Company's interest-earning assets pledged as collateral for borrowings could result in the counterparties demanding additional collateral pledges or liquidation of some of the existing collateral to reduce borrowing levels. The Company seeks to manage the extent to which net income changes as a function of changes in interest rates by matching adjustable-rate assets with variable-rate borrowings. The Company mitigates the potential impact on net income of periodic and lifetime coupon adjustment restrictions in its investment portfolio by entering into interest rate hedging agreements such as interest rate caps and interest rate swaps.

On January 1, 2016, RREF CDO 2006-1 and RREF CDO 2007-1 were deconsolidated in accordance with new guidance on consolidation of VIEs (see Note 2). The Company deconsolidated six interest rate swap contracts as part of the deconsolidation. The aggregate notional amount of these deconsolidated interest rate swaps was \$99.9 million at January 1, 2016.

During the three months ended June 30, 2016, the Company requested and canceled its remaining interest rate swap contract through accumulated other comprehensive income (loss), to be amortized through earnings over the life of the remaining debt. As of June 30, 2016, the Company had no interest rate swap contracts outstanding. The Company had master netting agreements with Credit Suisse International and Wells Fargo at June 30, 2016. Regulations promulgated under the Dodd-Frank Act mandate that the Company clear certain new interest rate swap transactions through a central counterparty. Transactions that are centrally cleared result in the Company facing a clearing house,

rather than a swap dealer, as counterparty. Central clearing requires the Company to post collateral in the form of initial and variation margin to satisfy potential future obligations. As of June 30, 2016, there were no centrally cleared interest rate swap contracts. The Company classifies its hedges as cash flow hedges, which are hedges that eliminate the risk of changes in the cash flows of a financial asset or liability. The Company records changes in fair value of derivatives designated and effective as cash flow hedges in other comprehensive income, and records changes in fair value of derivatives designated and ineffective as cash flow hedges in earnings.

At December 31, 2015, the Company had nine interest rate swap contracts outstanding whereby the Company paid an average fixed rate of 5.38% and received a variable rate equal to one-month LIBOR. The aggregate notional amount of these contracts was \$102.8 million at December 31, 2015. The counterparties for the Company's designated interest rate hedge contracts are Credit Suisse International and Wells Fargo with which the Company has master netting agreements.

58

[\(Back to Index\)](#)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
JUNE 30, 2016
(unaudited)

The estimated fair value of the Company's liability related to interest rate swaps was \$0 and \$3.5 million as of June 30, 2016 and December 31, 2015, respectively. The Company had aggregate unrealized losses of \$67,000 and \$3.5 million on the interest rate swap agreements as of June 30, 2016 and December 31, 2015, respectively, which is recorded in accumulated other comprehensive income and a portion is recognized through earnings. The amortization is reflected in interest expense in the Company's consolidated statements of operations.

The Company is also exposed to foreign currency exchange risk, a form of risk that arises from the change in price of one currency against another. Substantially all of the Company's revenues are transacted in U.S. dollars; however, a significant amount of the Company's capital is exposed to other currencies, primarily the Euro and, to a lesser extent, the pound sterling. To address this market risk, the Company generally hedges foreign currency-denominated exposures (typically investments in debt instruments, including forecasted principal and interest payments) with foreign currency forward contracts. The Company classifies these hedges as fair value hedges, which are hedges that mitigate the risk of changes in the fair values of assets, liabilities, and certain types of firm commitments. The Company records changes in fair value of derivatives designated and effective as fair value hedges in earnings offset by corresponding changes in the fair values of the hedged items.

Forward contracts also contain an element of risk in that the counterparties may be unable to meet the terms of such agreements. In the event the parties to deliver commitments are unable to fulfill their obligations, the Company could potentially incur significant additional costs by replacing the positions at then current market rates. The Company manages its risk of exposure by limiting counterparties to those banks and institutions deemed appropriate by management. The Company does not expect any counterparty to default on its obligations and, therefore, the Company does not expect to incur any cost related to counterparty default.

The Company is exposed to interest rate risk on loans held for sale and interest rate lock commitments. As market interest rates increase or decrease, the fair value of mortgage loans held for sale and rate lock commitments will decline or increase accordingly. To offset this interest rate risk, the Company may enter into derivatives such as forward contracts to sell loans. The fair value of these forward sales contracts will change as market interest rates change, and the change in the value of these instruments is expected to largely, though not entirely, offset the change in fair value of loans held for sale and rate lock commitments. The objective of this activity is to minimize the exposure to losses on rate lock commitments and loans held for sale due to market interest rate fluctuations. The net effect of derivatives on earnings will depend on risk management activities and a variety of other factors, including market interest rate volatility, the amount of interest rate lock commitments that close, the ability to fill the forward contracts before expiration, and the time period required to close and sell loans.

During the warehousing phase of the Company's investments in certain structured vehicles, the Company may enter into total return swaps to finance the Company's exposure to assets that will ultimately be securitized. A total return swap is a swap agreement in which one party makes payments based on a set rate, while the other party makes payments based on the return of an underlying asset. Traditionally, the Company pays either an indexed or fixed interest payment to the warehousing lender and receives the net interest income and realized capital gains of the referenced portfolio of assets, generally loans, to be securitized that are owned and held by the warehousing lender. Upon the close of the warehousing period, the Company's invested equity plus net interest and any capital gains realized during the warehousing period are returned to the Company. Additionally, upon the close of the securitization, the Company may purchase beneficial interests in the securitization at fair value.

 (4) The notional amount of the Company's warrants is calculated by multiplying the number of shares available for purchase by the exercise price.
 (5) Interest rate swap contracts are accounted for as cash flow hedges.
 (6) The notional amount of the Company's interest rate lock agreements in a liability position is the pull-through weighted total commitments with a weighted average pull-through percentage of 19.5%.

The Effect of Derivative Instruments on the Statements of Operations for the

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

JUNE 30, 2016

(unaudited)

(2) Amounts represent amounts pledged as collateral against derivative transactions.

(3) The fair value of securities and/or cash and cash equivalents pledged against the Company's swaps was \$500,000 at December 31, 2015.

The combined fair value of securities and loans pledged against the Company's various term facilities and (4) repurchase agreements was \$829.1 million and \$643.2 million at June 30, 2016 and December 31, 2015, respectively.

In the Company's consolidated balance sheets, all balances associated with repurchase agreement and derivatives transactions are presented on a gross basis.

Certain of the Company's repurchase agreements and derivative transactions are governed by underlying agreements that generally provide for a right of offset in the event of default or in the event of a bankruptcy of either party to the transaction.

NOTE 22 - COMMITMENTS AND CONTINGENCIES

From time to time, the Company may become involved in litigation on various matters, including disputes arising out of loans in the Company's portfolio and agreements to purchase or sell assets. Given the nature of the Company's business activities, the Company considers these matters to be routine and in the ordinary conduct of its business. The resolution of these matters may result in adverse judgments, fines, penalties, injunctions and other relief against the Company as well as monetary payments or other agreements and obligations. Alternately, the Company may engage in settlement discussions on certain matters in order to avoid the additional costs of engaging in litigation.

In September 2015, Daren Levin filed a putative class action in the United States District Court for the Southern District of New York on behalf of all persons who purchased the Company's common stock between March 2, 2015 and August 4, 2015. In November 2015, the Court appointed Douglas Drees as the lead plaintiff in the action, and thereafter entered a stipulation and order directing the lead plaintiff to file an amended complaint. In February 2016, the lead plaintiff filed an amended complaint, alleging that the Company and certain of its officers and directors materially misrepresented certain risks of its commercial loan portfolio and its processes and controls for assessing the quality of its portfolio. Based on these allegations, the amended complaint asserts claims for violation of the securities laws and seeks a variety of relief, including unspecified monetary damages as well as costs and attorneys' fees. The Company believes the amended complaint is without merit and intends to defend itself vigorously. In April 2016, the Company filed a motion to dismiss the amended complaint, which remains pending.

In December 2015, Josh Reaves filed a shareholder derivative suit in the Supreme Court of New York alleging that the Company's directors and certain officers breached their fiduciary duties by causing the Company to misrepresent certain risks in its commercial loan portfolio, by failing to employ adequate internal and financial controls, and by failing to disclose the alleged internal control deficiencies. The complaint purports to seek relief on behalf of the Company for unspecified damages as well as costs and attorneys' fees. The Company believes that the plaintiff, who failed to make a pre-suit demand on the board of directors, lacks standing to assert claims derivatively on the Company's behalf, and the Company intends to respond accordingly. In April 2016, the parties entered into a stipulation staying this proceeding until such time as the court has ruled on the pending motion to dismiss the Levin action referenced above or certain other triggering events occur.

PCM is a party to various claims and legal proceedings at various times. If PCM believes that a loss arising from any of these matters is probable and can be reasonably estimated, the loss is recorded. Some of these claims may relate to claims for repurchases or indemnifications on loans that PCM has sold to investors. Such claims are included in the reserve for mortgage repurchases and indemnifications. There was no additional accrual for litigation outcomes as of

June 30, 2016 or December 31, 2015.

On May 13, 2014, ResCap Liquidating Trust (“ResCap”), as successor to Residential Funding Company, LLC (“RFC”), filed an adversary proceeding against PCM in United States Bankruptcy Court of the Southern District of New York. ResCap has sued some 90 sellers of residential mortgage loans for alleged breaches of warranty in various loans sold to RFC. RFC contends that such breaches caused it damages from loan losses and liability to other transferee's of the loans. The case remains pending and has been consolidated with other cases for discovery and pre-trial purposes. PCM intends to defend the action vigorously.

Loans on one-to-four family residential mortgages originated by PCM are sold to various financial institutions and governmental entities with representations and warranties that are usual and customary for the industry. In the event of a breach of any of the representations and warranties related to a loan sold, PCM may be required to indemnify the investor against future losses, repurchase the mortgage loan or reimburse the investor for actual losses incurred (referred to as “make whole payments”).

[\(Back to Index\)](#)

63

[\(Back to Index\)](#)

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
JUNE 30, 2016
(unaudited)

The maximum exposure to credit loss in the event of an indemnification or loan repurchase would be the unpaid principal balance of the loan along with any premium paid by the investor when the loan was purchased, accrued but unpaid interest and other minor cost reimbursements. This maximum exposure is at least partially mitigated by the value of the collateral underlying the mortgage loan.

As of June 30, 2016, outstanding demands for indemnification, repurchase or make whole payments totaled approximately \$20.5 million, of which a substantial portion related to loans sold to four investors prior to 2011. Furthermore, a significant portion of these demands are involved in litigation with the investor.

On February 3, 2016, Lehman Brothers Holding, Inc. ("LBHI") filed an adversary proceeding against PCM in United States Bankruptcy Court of the Southern District of New York. LBHI has sued approximately 145 sellers of residential mortgage loans for alleged breaches of warranty in various loans sold to it. LBHI contends that such breaches caused it damages from loan losses and liability to other transferees of the loans. PCM intends to defend the action vigorously.

Unfunded commitments on the Company's originated CRE loans generally fall into two categories: (1) pre-approved capital improvement projects; and (2) new or additional construction costs subject, in each case, to the borrower meeting specified criteria. Upon completion of the improvements or construction, the Company would receive additional interest income on the advanced amount. Unfunded commitments on the Company's originated middle market loans fall into two categories: (1) revolving credit facility; and (2) unfunded commitments subject to the borrower meeting pre-specified criteria.

Except as previously discussed, the Company is unaware of any contingencies arising from such routine litigation that would require accrual or disclosure in the consolidated financial statements as of June 30, 2016.

NOTE 23 - SEGMENT REPORTING

The Company has five reportable operating segments: Commercial Real Estate Lending, Commercial Finance, Middle Market Lending, Residential Mortgage Lending, and Corporate & Other. The reportable operating segments are business units that offer different products and services. The Commercial Real Estate Lending operating segment includes the Company's activities and operations related to commercial real estate loans, commercial real estate-related securities, and investments in real estate. The Commercial Finance operating segment includes the Company's activities and operations related to bank loans, bank loan-related securities, and direct financing leases. The Middle Market Lending operating segment includes the Company's activities and operations related to the origination and purchase of middle market loans. The Residential Mortgage Lending operating segment includes the Company's activities and operations related to the origination and servicing of residential mortgage loans and the investment in RMBS. The Corporate & Other segment includes corporate level interest income, interest expense, and general and administrative expense.

The accounting policies of the operating segments are the same as those described in Note 2. The Company accounts for inter-segment sales and transfers as if the sales or transfers were to third parties, that is, at current market prices. Relevant expenses incurred at the Corporate & Other segment are allocated to TRS subsidiaries based on their percentage of adjusted pre-tax net income (loss), which excludes unrealized gains and losses and provisions on loan and lease losses that are specific to the periods presented.

NOTE 24 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the filing of this report and determined that there have not been any events that have occurred that would require adjustments to or disclosures in the consolidated financial statements, except the following:

On July 21, 2016, the Company agreed to a modification of the terms of the Wells CRE repurchase facility agreement. The modification extends the facility's maturity date to July 21, 2018, subject to the Company's three one-year extension rights which may extend the maturity to July 21, 2021. The amendment also modified certain financing rates and required debt yields. The Company paid an extension fee as well as other reasonable closing costs.

On August 1, 2016, the Company entered into a purchase agreement to sell Northport TRS, LLC to CVC Credit Partners, an affiliated party, and to other third parties for \$247.0 million. The transaction includes substantially all of the direct origination middle market loans and one syndicated loan with a par balance of \$257.0 million and the assumption of the senior secured revolving credit agreement, for net proceeds of approximately \$102.0 million. The Company will retain the remaining broadly syndicated middle market loans and one direct origination middle market loan totaling \$68.0 million, at carrying value, with an weighted average interest rate of 9.83%. During the second quarter, the Company recorded \$9.0 million provision for loan losses on the loans sold to adjust the portfolio to fair value included in the purchase price and accelerated the amortization of the remaining deferred debt issuance costs of \$2.6 million pertaining to the Credit Facility. The ownership of Northport TRS, LLC is held approximately 70.0% in a taxable subsidiary and 30.0% in a non-taxable subsidiary. The impact of the added provisions and write-off of the remaining debt issuance costs, net of tax, is \$8.2 million during the three months ended June 30, 2016.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussion provides information to assist you in understanding our financial condition and results of operations. This discussion should be read in conjunction with our consolidated financial statements and related notes appearing elsewhere in this report. This discussion contains forward-looking statements. Actual results could differ materially from those expressed in or implied by those forward-looking statements. Additionally, please see the sections "Forward-Looking Statements" and "Risk Factors" for a discussion of certain risks, uncertainties and assumptions associated with those statements included in our Annual Report on Form 10-K for the year ended December 31, 2015. We are a diversified real estate investment trust, or REIT, that is primarily focused on originating, holding and managing commercial mortgage loans and other commercial real estate-related debt and equity investments. We also make commercial finance investments. We are organized and conduct our operations to qualify as a REIT under Subchapter M of the Internal Revenue Code of 1986, as amended. Our objective is to provide our stockholders with total returns over time, including quarterly distributions and capital appreciation, while seeking to manage the risks associated with our investment strategies. We invest in a combination of real estate-related assets and, to a lesser extent, higher-yielding commercial finance assets. We have financed a substantial portion of our portfolio investments through borrowing strategies seeking to match the maturities and repricing dates of our financings with the maturities and repricing dates of those investments, and have sought to mitigate interest rate risk through derivative instruments.

We are externally managed by Resource Capital Manager, Inc., or the Manager, an indirect wholly-owned subsidiary of Resource America, Inc. (NASDAQ: REXI), or Resource America, a specialized asset management company that uses industry-specific expertise to evaluate, originate, service and manage investment opportunities through its commercial real estate, financial fund management and commercial finance operating segments. As of June 30, 2016, Resource America managed or co-managed approximately \$23.0 billion of assets in these sectors. To provide its services, the Manager draws upon Resource America, its management team and their collective investment experience. On May 22, 2016 Resource America agreed to be acquired by C-III Capital Partners LLC ("C-III"), a leading commercial real estate services company engaged in a broad range of activities, including primary and special loan servicing, loan origination, fund management, CDO management, principal investment, investment sales and multifamily property management. As part of the transaction, C-III will assume the management contract from Resource America and will acquire 715,396 shares of our common equity (2.3% of our outstanding shares) currently held by Resource America. On May 21, 2016, Resource America entered into a letter agreement with us pursuant to which we irrevocably waived our right to terminate the management agreement as a result of a "Change of Control" (as defined in the management agreement) resulting from the merger. Resource America agreed to pay \$1.5 million to us at the closing of the merger. The transaction is expected to close late in the third quarter or early in the fourth quarter of 2016.

We generate our income primarily from the spread between the revenues we receive from our assets and the cost to finance the purchase of those assets, from management of assets and from hedging interest rate risks. We generate revenues from the interest and fees we earn on our whole loans, commercial mortgage-backed securities, or CMBS, middle market loans, other asset-backed securities, or ABS, and structured note investments. We also generate revenues from fees we receive for the management of externally originated bank loans, from our residential mortgage origination business and from our investment in an equipment leasing business. Historically, we have used a substantial amount of leverage to enhance our returns and we have financed each of our different asset classes with different degrees of leverage. The cost of borrowings to finance our investments is a significant part of our expenses. Our net income depends on our ability to control these expenses relative to our revenue. In our bank loan, CMBS and ABS portfolios, we historically have used warehouse facilities as a short-term financing source and collateralized debt obligations, or CDOs, and collateralized loan obligations, or CLOs and, to a lesser extent, other term financing as long-term financing sources. In our commercial real estate loan portfolio, we historically have used repurchase agreements as a short-term financing source, and CDOs and, to a lesser extent, other term financing as long-term financing sources. Our other term financing has consisted of long-term, match-funded financing provided

through long-term bank financing and asset-backed financing programs, depending upon market conditions and credit availability.

The current state of moderate growth in the United States economy has allowed us to make new investments, particularly in our primary business of commercial real estate lending. During 2015 and through June 30, 2016, we have underwritten 42 new commercial real estate, or CRE, loans for a total of \$803.8 million. These loans were initially financed in part through our CRE term facilities and then financed longer-term through CRE securitizations. We also purchased seven newly underwritten CMBS for \$13.6 million during the same time period, all of which were financed through our Wells Fargo facility. As a result of the equity market conditions discussed below, and to maintain our market presence and relationship with our borrower base, we intend to modestly grow our commercial real estate lending program, primarily by using recycled capital coupled with debt financing,

[\(Back to Index\)](#)

69

[\(Back to Index\)](#)

principally through the \$77.4 million and \$240.7 million of existing capacity on our Wells Fargo CMBS and CRE term credit facilities, respectively, and the \$126.7 million of existing capacity on our Morgan Stanley CRE credit facility.

On January 1, 2016, we adopted amendments to the consolidation accounting guidance as required. As a result of our re-evaluation, we determined we are no longer the primary beneficiary of the following variable interest entities ("VIEs"); and, therefore, they were deconsolidated: Resource Real Estate Funding CDO 2006-1, Ltd. ("RREF CDO 2006-1"), Resource Real Estate Funding CDO 2007-1, Ltd. ("RREF CDO 2007-1"), Apidos Cinco CDO, Ltd. ("Apidos Cinco CDO"), Pelium Capital Partners, L.P., ("Pelium Capital"), and RCM Global, LLC ("RCM Global"). After the three-month period ended March 31, 2016, RREF CDO 2006-1 was terminated and we received the remaining \$66.6 million of assets in exchange for our preference shares and equity notes in the securitization. Therefore, we now reflect these assets (loans and securities) on our balance sheet at fair market value. As a result of the other four deconsolidations, we no longer reflect the underlying collateral (loans and securities) of those VIEs in our consolidated financial statements. Instead, we reflect in our balance sheet our direct investments (the "retained investments") in the issued and outstanding securities of those VIEs. Our retained investments in RREF CDO 2007-1 and Apidos Cinco CDO are now accounted for as investment securities, available-for-sale and, as a result, are marked-to-market while our retained investments in Pelium Capital Partners, L.P., and RCM Global, LLC are accounted for as equity method investments. We have elected to retrospectively reflect the deconsolidation of these entities on a modified basis, which resulted in a reduction to the beginning balance of retained earnings as of January 1, 2016, of \$16.9 million. The reduction to retained earnings represents the effect of marking the investments to market as of the date of the required adoption and represents discounts to par due to illiquidity premiums and other market forces which we expect to be recovered over time as the investments approach their respective maturities. To reflect the impact of this expectation, we present a reconciliation from GAAP book value to economic book value as an addendum to our book value reconciliation.

Although economic conditions in the United States have improved modestly, we have been impacted more so as a result of a certain transaction we have recently entered into and certain recent changes in authoritative guidance on consolidation accounting. On August 1, 2016, we entered into a purchase agreement to sell our interest in Northport TRS, LLC ("Northport LLC"), our self-originated middle market lending business and an indirect wholly-owned subsidiary for \$247.0 million. The transaction, which closed on August 4, 2016, included substantially all of our direct origination middle market loans and one syndicated loan with a par balance of \$257.0 million. We recorded a provision for loan loss of \$9.0 million associated with this transaction in the three months ended June 30, 2016 as the other \$1.0 million was taken in the first quarter of 2016. In addition, we recorded a \$3.4 million loss on one direct origination loan we have retained, which was partially offset by an improvement of approximately \$500,000 on another position. As it relates to changes in consolidation accounting, we deconsolidated RREF CDO 2006-1 and RREF CDO 2007-1 as of January 1, 2016 and consequently removed \$40.3 million of specific reserves and \$142,000 of general reserves. In addition, we deconsolidated Apidos Cinco and removed \$1.3 million of specific reserves on bank loans as of the same date. On our remaining CRE loan portfolio, we reduced our general allowance for loan losses by \$68,000 during the June period. We currently have no CRE senior whole loans or middle market loans delinquent with respect to debt service obligations due.

In the latter half of 2013, we invested funds into a middle market lending operation run by our Manager. We made additional investments since then and held approximately \$313.7 million of middle market loans in this portfolio as of June 30, 2016, prior to the sale of a significant portion of the business as described above. The middle market business was held approximately 70% in a taxable subsidiary and 30% in a non-taxable subsidiary, and we expect to generate tax savings from the disposal as well as simplify our operations in a more real estate-centric based firm. We retain approximately \$68.0 million of this middle market portfolio after the sale, comprised of one self-originated loan and the preponderance of the syndicated loans, which we intend to hold. We netted proceeds of \$102.0 million, which we expect to primarily reinvest in our CRE loan origination platform. These retained investments and strategic deployment of the proceeds, we expect, will generate sufficient revenues to replace those lost from the former construct of this investment portfolio.

We have also experienced a reduction in our commercial finance assets, as one of our bank loan CLOs was substantially liquidated in 2014 and another liquidated in 2015. This trend resulted in a substantial decline in our net interest income from bank loans in 2014 and continued through 2015. We expect this trend to continue in 2016 when we liquidate our investment in Apidos Cinco CDO, our one remaining legacy bank loan CLO. We began to mitigate this trend by investing in new CLOs and European structured notes in 2014 and 2015 and we have seen and expect to continue to see similar opportunities in 2016.

In 2013, we, through RCC Residential, Inc., a taxable REIT subsidiary, acquired a residential mortgage origination company, Primary Capital Mortgage LLC, or PCM, an Atlanta-based firm. Our acquisition of PCM represents a return to the residential mortgage investment market, by providing us with our first residential mortgage origination platform. PCM is now licensed in 41 states, up from seven states when we acquired the business. We intend to cautiously expand the volume of our residential mortgage originations, including the residential jumbo loan area, over the coming year while continuing to add technology, staff and infrastructure and expect to have the investment show modest profitability in 2016.

[\(Back to Index\)](#)

70

[\(Back to Index\)](#)

Despite our ability to access equity markets in 2014 and early 2015, during the latter half of the year, our common shares began to trade at prices below book value and began to trade well below our book value per share. As a result of these conditions, we have sought to enhance shareholder value by instituting, on August 4, 2015, a \$50.0 million securities repurchase program. Through June 30, 2016, we have repurchased approximately \$37.0 million of our common and preferred shares. In March 2016, our board of directors approved a new securities repurchase program for up to \$50.0 million of our outstanding securities.

In the past, we had at our disposal the use of recycled capital within our CLO and CDO structures to make new investments. However, as of June 30, 2016, our four most recent securitizations were structured as static pools and, as such, they do not have reinvestment periods. Instead, principal payments, for a stipulated period, may be used to purchase funding participations with respect to existing collateral held outside of three of the securitizations. This allows us to recycle some repaid capital and convert the designated principal for funded companion participation acquisition cash, which would otherwise be used to pay down the most senior notes, thereby reducing leverage and potential returns within the securitization. If the amount of principal repaid exceeds the available participations for purchase or is repaid, at the end of the stipulated period, principal would pay down the CLO or CDO notes in accordance with their respective indentures.

As of June 30, 2016, we had allocated our invested equity capital among our targeted asset classes as follows: 72% in total real estate assets, 27% in commercial finance assets and 1% in other investments. As of December 31, 2015, we had allocated our invested equity capital as follows: 72% in total real estate assets, 27% in commercial finance assets and 1% in other assets. We plan to grow our equity allocation in CRE assets to a minimum 75% level during the remainder of 2016.

Results of Operations

Our net income (loss) allocable to common shares for the three and six months ended June 30, 2016 was \$(1.5) million or \$(0.05) per share-basic (\$(0.05) per share-diluted) and \$8.1 million or \$0.27 per share-basic (\$0.26 per share diluted) respectively, as compared to net loss allocable to common shares of \$(31.0) million, or \$(0.94) per share-basic (\$(0.94) per share-diluted) and \$(21.6) million or \$(0.66) per share-basic (\$(0.66) per share-diluted) for the three and six months ended June 30, 2015 respectively.

Interest Income

The following tables set forth information relating to our interest income recognized for the periods presented (in thousands, except percentages):

	For the Three Months Ended June 30, 2016		For the Three Months Ended June 30, 2015	
	Weighted Average Yield	Balance	Weighted Average Yield	Balance
Interest income:				
Interest income from loans:				
Commercial real estate loans	5.92%	\$1,464,869	5.18%	\$1,536,262

Three and Six Months Ended June 30, 2016 as compared to Three and Six Months Ended June 30, 2015

Aggregate interest income increased \$1.5 million and \$3.9 million to \$38.0 million and \$78.1 million for the three and six months ended June 30, 2016, respectively, as compared to \$36.5 million and \$74.2 million for the three and six months ended June 30, 2015 respectively. We attribute these changes to the following:

Interest Income from Loans

Commercial real estate loans. Interest income on CRE loans increased \$2.8 million and \$3.0 million to \$21.8 million and \$42.8 million for the three and six months ended June 30, 2016. This increase is due primarily to the origination of loans in our newest CRE securitization, RCC 2015-CRE4, that closed in August 2015, and to an increase in weighted average yield from 5.18% to 5.92% and from 5.69% to 5.89% for the three and six months ended June 30, 2016 and June 30, 2015, respectively, due to an increase in the one-month LIBOR rate over the floor. This increase was partially offset by the impact of the deconsolidation of CRE loans at RREF CDO 2006-1 and RREF CDO 2007-1.

Middle market loans. Through focused efforts in 2015 to increase the investment in our middle market lending business, the portfolio grew from a weighted average balance of \$291.8 million and from \$277.6 million for the three and six months ended June 30, 2015 to a weighted average balance of \$323.4 million and \$344.4 million for the three and six months ended June 30, 2016. The weighted average yield on investments increased from 9.93% and 9.91% for the three and six months ended June 30, 2015 to 10.00% and 11.70% for the three and six months ended June 30, 2016, which was primarily driven by \$2.6 million of prepayment fees earned during for the six months ended June 30, 2016.

Residential Mortgage Loans. The weighted average loan balance of our portfolio increased by \$41.4 million and \$4.4 million to \$149.3 million and \$122.8 million for the three and six months ended June 30, 2016, primarily due to an increase in

residential mortgage loan originations at PCM. The average yield increased from 1.89% and 3.99% to 2.06% and 3.37% for the three and six months ended June 30, 2016. Interest income increased \$456,000 to \$1.4 million for the three months ended June 30, 2016 due to an increase in residential mortgage loan originations at PCM. However, interest income decreased \$42,000 to \$2.3 million for the six months ended June 30, 2016, attributable to the reduction of jumbo loans held this year as compared to the same period last year.

Bank loans. The weighted average loan balance on our bank loan portfolio decreased by \$259.5 million and \$288.9 million for three and six months ended June 30, 2016, due to the liquidation of Apidos CDO III, Ltd. ("Apidos CDO III") in June 2015 and the deconsolidation of Apidos Cinco CDO as of January 1, 2016, which is now recorded in interest income from securities.

Interest Income from Securities

Asset-Backed Securities, or ABS. Interest income from ABS increased \$1.0 million and \$2.4 million to \$3.2 million and \$6.8 million for the three and six months ended June 30, 2016. The increase for the three and six months ended June 30, 2016 is primarily attributable to the deconsolidation of RREF CDO 2006-1, RREF CDO 2007-1, and Apidos Cinco CDO on January 1, 2016. As a result of the deconsolidation, their income is now reported as interest income from available-for-sale securities as compared to loan interest income in the prior year. This significantly contributed to the increase in the weighted average balance of ABS from \$53.1 million to \$158.0 million and from \$51.6 million to \$173.3 million for the three and six months ended June 30, 2016. The decrease in weighted average yield from 16.16% to 8.07% and from 16.87% to 7.90% directly relates to the deconsolidation of RCM Global and Pelium Capital whose income is now reported under earnings in unconsolidated entities.

Interest income - other. Interest income - other increased \$1.2 million and \$1.6 million to \$2.3 million and \$3.5 million for the three and six months ended June 30, 2016. The increase is related to income earned on our investments in ZWH4, LLC ("ZAIS") and Harvest XV; our initial investments in each warehouse were made in February 2015 and September 2015, respectively. The warehouse periods ended and both Harvest CLO XV and ZAIS CLO 4 closed in May 2016.

Interest Expense

The following tables set forth information relating to our interest expense incurred for the periods presented by asset class (in thousands, except percentages):

	For the Three Months Ended June 30, 2016		For the Three Months Ended June 30, 2015

[\(Back to Index\)](#)

Three and Six Months Ended June 30, 2016 as compared to Three and Six Months Ended June 30, 2015

Aggregate interest expense increased \$2.8 million and \$3.7 million to \$18.6 million and \$34.4 million for the three and six months ended June 30, 2016 respectively. We attribute the increases to the following:

Commercial real estate loans. Interest expense on commercial real estate loans increased \$2.1 million and \$4.7 million to \$8.0 million and \$15.8 million for the three and six months ended June 30, 2016. The increases are related to the increased borrowings from the consolidation of our securitization, RCC 2015-CRE4, which closed in August 2015 and, to a lesser extent, our securitization, RCC 2015-CRE3, that closed in February 2015. Current year interest expense also included a new financing facility to fund the production of new loans that was not included in the same period last year. These increases were partially offset by a decrease in interest expense due to the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1.

Middle market loans. Interest expense on middle market loans increased \$2.7 million and \$3.5 million to \$4.0 million and \$5.7 million for the three and six months ended June 30, 2016, as compared to \$1.3 million and \$2.2 million for the three and six months ended June 30, 2015. Subsequent to June 30, 2016, we entered into and closed on a purchase agreement to sell Northport LLC. As a result of the transaction, \$2.6 million of amortization of the remaining deferred debt issuance costs related to the credit facility were accelerated and recorded as interest expense as of June 30, 2016.

Residential Mortgage Loans. Interest expense on residential mortgage loans increased \$363,000 and \$246,000 to \$1.2 million and \$1.9 million for the three and six months ended June 30, 2016. The increase is due to increased borrowings on the residential mortgage financing agreements.

Hedging Instruments. Interest expense on hedging instruments decreased \$1.5 million and \$3.1 million for the three and six months ended June 30, 2016. The decrease is related to the deconsolidation of six hedge contracts in accordance with the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1 on January 1, 2016 and maturity of two hedge contracts during the first quarter of 2016.

Bank loans. Interest expense on bank loans decreased \$745,000 and \$1.6 million for the three and six months ended June 30, 2016. The decrease is due to the deconsolidation of our remaining CLO, Apidos Cinco CDO, and, to a lesser extent, the liquidation of Apidos CDO III, Ltd. ("Apidos CDO III") in June 2015.

Revenue

The following table sets forth information relating to our non-interest revenue for the periods presented (in thousands):

	For the Three Months Ended June 30, 2016		2015	Dollar Change	Percent Change
Revenue:					
Dividend income	\$18	\$17	\$1	6	%
Fee income	103	2,816	(2,713)	(96)	%
Total revenue	\$121	\$2,833	\$(2,712)	(96)	%
	For the Six Months Ended June 30, 2016		2015	Dollar Change	Percent Change
Revenue:

Total revenue	\$(563)	\$4,019	\$(4,582)	(114)	%

Three and Six Months Ended June 30, 2016 as compared to Three and Six Months Ended June 30, 2015

[\(Back to Index\)](#)

81

[\(Back to Index\)](#)

Fee income. Fee income decreased \$2.7 million and \$4.6 million to \$103,000 and a loss of \$598,000 for the three and six months ended June 30, 2016, respectively. These decreases relate to mortgage servicing rights temporary impairment of \$2.3 million and \$4.8 million against income from our mortgage servicing rights portfolio and its corresponding amortization for the three and six months ended June 30, 2016 as compared to a recovery of income on our mortgage servicing rights portfolio of \$800,000 and \$250,000 for the three and six months ended June 30, 2015, respectively. In addition, there was a decrease in income resulting from the run-off of managed assets related to our investment in Resource Capital Asset Management, or RCAM, which holds management contracts that entitle us to collect senior, subordinated, and incentive fees related to two of RCAM's remaining CLO issuers that it manages.

Operating Expenses

The following table sets forth information relating to our operating expenses incurred for the periods presented (in thousands):

	For the Three Months Ended June 30,		Dollar Change	Percent Change
	2016	2015		
Operating expenses:

Three and Six Months Ended June 30, 2016 as compared to Three and Six Months Ended June 30, 2015

Management fees – related party. Management fees-related party decreased \$401,000 and increased \$76,000 to \$3.1 million and \$7.1 million for the three and six months ended June 30, 2016, respectively as compared to \$3.5 million and \$7.1 million for the three and six months ended June 30, 2015, respectively. This expense represents compensation in the form of base management fees and incentive management fees pursuant to our management agreement as well as fees to the manager of our structured note portfolio. The changes are described below:

Base management fee is a monthly fee equal to 1/12th of the amount of our equity multiplied by 1.50%. Under the management agreement, "equity" is equal to the net proceeds from any issuance of shares of capital stock less offering related costs, plus or minus our retained earnings (excluding non-cash equity compensation incurred in current or

prior periods) less any amounts we have paid for stock repurchases. The calculation is adjusted for one-time events due to changes in GAAP, as well as other non-cash charges upon approval of our independent directors. The base management fee decreased for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015 due to

[\(Back to Index\)](#)

82

[\(Back to Index\)](#)

decreased stockholders' equity, a component in the formula by which base management fees are calculated, primarily as a result of our repurchase of approximately 8% of our outstanding shares as part of our \$50.0 million repurchase plan and quarterly dividend distributions. The base management fee increased for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015 as a result of a cumulative adjustment to correct the calculation regarding treatment of preferred dividends in prior periods which was recorded during the first quarter.

Incentive management fees are based upon the excess of adjusted operating earnings, as defined in the management agreement, over a variable base rate. There were no fees paid for the three and six months ended June 30, 2016 or three and six months ended June 30, 2015.

An oversight management fee is a quarterly fee paid to Resource America to reimburse it for additional costs incurred related to our life care business, Long Term Care Conversion Funding, established for the purpose of acquiring life settlement contracts. The initial agreement, authorized in December 2012, provided for an annual fee of \$550,000, with a two year term. In March 2015, the agreement was amended to extend the term for an additional two years. The oversight management fee was approximately \$137,000 and \$273,000 for both the three and six months ended June 30, 2016 and June 30, 2015.

Equity compensation - related party. Equity compensation - related party increased \$624,000 and \$892,000 to \$1.4 million and \$2.7 million for the three and six months ended June 30, 2016, respectively as compared to \$791,000 and \$1.8 million for the three and six months ended June 30, 2015, respectively. These expenses relate to the amortization of annual grants of restricted common stock to our non-employee independent directors, and annual and discretionary grants of restricted stock to employees of Resource America who provide investment management services to us through our Manager as well as employees of our recently acquired residential mortgage company subsidiary. This increase was primarily attributable to accelerated amortization of \$555,000 of equity compensation expense recorded at PCM in connection with an employment separation agreement during the six months ended June 30, 2016. In addition, there was an increase in our stock price for the three months ended June 30, 2016, which directly impacts our quarterly measurement of compensation expense.

General and administrative expense. General and administrative expense increased \$1.2 million and \$1.6 million to \$11.2 million and \$21.2 million for the three and six months ended June 30, 2016, respectively, as compared to \$10.0 million and \$19.6 million for the three and six months ended June 30, 2015, respectively. The following table presents the allocation of general and administrative expenses between Corporate and Residential Mortgage Lending:

	For the Three Months Ended June 30,		Dollar Change	Percent Change
	2016	2015		
General and administrative expenses:				
Corporate	\$4,200	\$4,081	\$ 119	3 %
Residential Mortgage Lending	6,953	5,913	1,040	18 %
Total	\$11,153	\$9,994	\$ 1,159	12 %
	For the Six Months Ended June 30,		Dollar Change	Percent Change
	2016	2015		
General and administrative expenses:				
Corporate	\$8,186	\$8,865	\$(679)	(8)%
Residential Mortgage Lending	13,037	10,740	2,297	21 %
Total	\$21,223	\$19,605	\$ 1,618	8 %

General and administrative expense - Corporate. General and administrative expense - Corporate increased \$119,000 and decreased \$679,000 to \$4.2 million and \$8.2 million for the three and six months ended June 30, 2016, respectively, as compared

[\(Back to Index\)](#)

83

[\(Back to Index\)](#)

to \$4.1 million and \$8.9 million for the three and six months ended June 30, 2015. The increase in expenses for the three months ended June 30, 2016 is primarily attributable to legal expenses related to the modification of one of our CRE loans. The decrease in expenses for the six months ended June 30, 2016 is related to the deconsolidation of RCM Global, Pelium, Apidos Cinco CDO, and RREF CDO 2006-1 and RREF CDO 2007-1. Specific expenses are no longer recorded on an entity level basis for these entities. Prior to deconsolidation, each of the three CDOs recorded an average of \$50,000 of general and administrative expenses each quarter and Pelium recorded approximately \$75,000 each quarter. The decrease year over year was also related to a non-recurring expense of approximately \$399,000 relating to a proposed restructuring which we determined not to pursue during the six months ended June 30, 2015. General and administrative expense - Residential Mortgage Lending. General and administrative expense - Residential Mortgage Lending increased \$1.0 million and \$2,297,000 to \$7.0 million and \$13.0 million for the three and six months ended June 30, 2016, respectively, as compared to \$5.9 million and \$10.7 million for the three and six months ended June 30, 2015, respectively. The increase is attributable to an increase in compensation costs to support PCM's continued geographic expansion.

Depreciation and amortization. Depreciation and amortization decreased \$117,000 and \$41,000 to \$504,000 and \$1.1 million for the three and six months ended June 30, 2016 respectively, as compared to \$621,000 and \$1.2 million for the three and six months ended June 30, 2015, respectively. The decrease for the three and six months ended June 30, 2016 was primarily due to an RCAM-managed CLO being called in January 2016 and, as a result, termination of amortization on the underlying intangible asset.

Provision for loan and lease losses. Provision for loan and lease losses decreased \$26.7 million and \$30.7 million to a provision of \$12.1 million and \$12.1 million for the three and six months ended June 30, 2016, respectively, as compared to a provision of \$38.8 million and \$42.8 million for the three and six months ended June 30, 2015, respectively. The following table summarizes the information relating to our provision for loan losses for the periods presented (in thousands):

	For the Three Months Ended June 30,			
	2016	2015	Dollar Change	Percent Change
CRE loan portfolio	\$(68)	\$38,072	\$(38,140)	(100)%
Bank loan portfolio	215	318	(103)	(32)%
Middle market loan portfolio	11,952	755	11,197	1,483 %
Residential mortgage loans	—	(307)	307	100 %
Loan receivable-related party	—	(28)	28	100 %
Total provision for loan and lease losses	\$12,099	\$38,810	\$(26,711)	(69)%
	For the Six Months Ended June 30,			
	2016	2015	Dollar Change	Percent Change
CRE loan portfolio	\$—	\$38,072	\$(38,072)	(100)%
Bank loan portfolio	77	1,734	(1,657)	(96)%
Middle market loan portfolio	12,059	3,320	8,739	263 %
Residential mortgage loans	—	(110)	110	100 %
Loan receivable-related party	—	(216)	216	100 %
Total provision for loan and lease losses	\$12,136	\$42,800	\$(30,664)	(72)%

CRE loan portfolio provision - The CRE loan portfolio provision decreased by \$38.1 million for both the three and six months ended June 30, 2016. During the quarter ended June 30, 2015, we recorded an allowance for loan loss on a subordinated mezzanine loan position that was acquired in 2007. The outstanding loan balance of \$38.1 million was

fully reserved and associated accrued interest of \$3.0 million was reversed against interest income, for a total charge to operations of \$41.1 million. The loan was originally supported by a portfolio of 13 hotel properties, most of which were luxury brand hotels. As of June 30, 2015, of the original 13 hotel properties securing the loan, three properties remained, all of which were located in or near San Juan, Puerto Rico. As a result of economic and credit disruptions in Puerto Rico, we determined that the loan was impaired and required a full reserve as of June 30, 2015.

Bank loan portfolio provision - The bank loan provision decreased by \$103,000 and \$1.7 million for the three and six months ended June 30, 2016, respectively. These decreases are due to the call and liquidation of Apidos CDO III in June 2015 and the deconsolidation of Apidos Cinco CDO on January 1, 2016. The provision recorded in 2016 is due to the write-off of unsettled positions that remained at the time of liquidation.

Middle market loan portfolio provision - The middle market loan provision increased by \$11.2 million and \$8.7 million for the three and six months ended June 30, 2016, respectively. During the three months ended June 30, 2016, we recorded a provision of approximately \$12.0 million. This is comprised of a \$9.0 million loss related to the anticipated sale of the direct origination loans, an additional loss of \$3.4 million on the one direct origination loan remaining with RSO, offset by a \$480,000 improvement in fair value mark on another position.

Other Income (Expense)

The following table sets forth information relating to our other income (expense) incurred for the periods presented (in thousands):

	For the Three Months Ended June 30,		Dollar Change	Percent Change
	2016	2015		
Other Income (Expense):				
Equity in earnings of unconsolidated subsidiaries	\$2,696	\$662	\$2,034	307 %
Net realized and unrealized gain (loss) on sales of investment securities available-for-sale and loans and derivatives	6,946	9,580	(2,634)	(27)%
Net realized and unrealized gain (loss) on investment securities, trading	183	279	(96)	(34)%
(Loss) on reissuance/gain on extinguishment of debt	—	(171)	171	100 %
(Loss) gain on sale of real estate	—	22	(22)	(100)%
Total other income (expense)	\$9,825	\$10,372	\$(547)	(5)%
	For the Six Months Ended June 30,			
	2016	2015	Dollar Change	Percent Change
Other Income (Expense):				
Equity in earnings of unconsolidated subsidiaries	\$4,918	\$1,368	\$3,550	260 %
Net realized and unrealized gain (loss) on sales of investment securities available-for-sale and loans and derivatives	11,774	22,187	(10,413)	(47)%
Net realized and unrealized gain (loss) on investment securities, trading	328	2,353	(2,025)	(86)%
Unrealized gain (loss) and net interest income on linked transactions, net	—	235	(235)	(100)%

Total other income (expense)	\$17,017	\$25,072	\$(8,055)	(32)%

Three and Six Months Ended June 30, 2016 as compared to Three and Six Months Ended June 30, 2015

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Equity in earnings of unconsolidated subsidiaries. Equity in earnings of unconsolidated subsidiaries increased \$2.0 million and \$3.6 million to \$2.7 million and \$4.9 million for the three and six months ended June 30, 2016 respectively, as compared to \$662,000 and \$1.4 million for the three and six months ended June 30, 2015, respectively. An increase in earnings of approximately \$1.6 million and \$2.1 million, respectively, was primarily related to two of our previously consolidated VIEs, RCM Global and Pelium, which are now accounted for as equity method investments due to a new amendment to the consolidation guidance which we adopted on January 1, 2016. In addition, our investment in Leaf Commercial Capital realized a \$583,000 and \$1.9 million increase in income year over year due to increased lease originations.

Net realized and unrealized gain (loss) on sales of investment securities available-for-sale and loans. Net realized and unrealized gain (loss) on investment securities available-for-sale and loans decreased \$2.6 million and \$10.4 million to \$6.9 million and \$11.8 million for the three and six months ended June 30, 2016, respectively as compared to \$9.6 million and \$22.2 million for the three and six months ended June 30, 2015, respectively. During 2015, we recognized increased gains related to the net gain on the sale and settlement of certain securities in the RCM Global portfolio, and the in-kind distribution and subsequent sale of those securities, net realized and unrealized gains on foreign exchange transactions from the settlement of contracts, and unrealized gains on interest rate lock commitments on our residential loan portfolio. We had no such gains during the three and six months ended June 30, 2016. In addition, the RCM Global portfolio was deconsolidated effective January 1, 2016 and is now accounted for as an equity method investment.

Net realized and unrealized (loss) gain on investment securities, trading. Net realized and unrealized (loss) gain on investment securities, trading decreased \$96,000 and \$2.0 million to \$183,000 and \$328,000 during the three and six months ended June 30, 2016, respectively, as compared to \$279,000 and \$2.4 million for the three and six months ended June 30, 2015, respectively. The 2015 activity was primarily related to unrealized and realized gains recognized on Pelium Capital which invested in structured securities classified as trading securities. The Pelium Capital portfolio was deconsolidated effective January 1, 2016 and is now accounted for as an equity method investment.

Loss on reissuance/gain on extinguishment of debt. Loss on reissuance/gain on extinguishment of debt was \$171,000 and \$1.1 million for the three and six months ended June 30, 2015, respectively. There were no losses for the three and six months ended June 30, 2016. The transactions that give rise to the recognition of a loss on the reissuance of debt resulted from the reissuance of previously repurchased senior and junior notes in our consolidated VIEs in the open market. These senior and junior notes were originally repurchased at discounts to par and represented an opportunity to provide us strategic financing at beneficial rates upon reissuance. At the date these notes were repurchased, a gain, representative of the difference between the repurchase price and the par value of the note, was recognized. As the same notes are reissued at a price less than par, an unrealized loss equal to the difference between the reissued price and the par value of the note is recognized in current earnings.

Financial Condition

Summary.

Our total assets were \$2.4 billion at June 30, 2016 as compared to \$2.8 billion at December 31, 2015. The decrease in total assets was principally due to the adoption of the consolidation guidance on VIEs and the resulting deconsolidation of the following entities: RREF CDO 2006-1, RREF CDO 2007-1, Apidos Cinco CDO, Pelium Capital and RCM Global.

Investment Portfolio.

The table below summarizes the amortized cost and net carrying amount of our investment portfolio, classified by asset type. The following table includes both (i) the amortized cost of our investment portfolio and (ii) the net carrying amount of our investment portfolio for the period presented as follows (in thousands, except percentages):

(1) Net carrying amount includes allowance for loan losses of \$1.4 million at June 30, 2016.

(2) Net carrying amount includes allowance for loan losses of \$41.8 million at December 31, 2015, allocated as follows: general allowance: B notes \$15,000, mezzanine loans \$38.1 million and whole loans \$3.7 million.

(3) There is no stated rate associated with these securities.

(4) Loans held for sale are carried at the lower of cost or market. Amortized cost approximates fair value.

(5) Net carrying amount includes allowance for loan losses of \$1.3 million at December 31, 2015.

(6) Net carrying amount includes allowance for loan losses of \$3.9 million at December 31, 2015.

(7) Net carrying amount includes allowance for loan losses of \$11,000 at June 30, 2016 and December 31, 2015.

(8) Net carrying amount includes allowance for lease losses of \$465,000 at June 30, 2016 and December 31, 2015.

Commercial Mortgage-Backed Securities-Private Placement. In the aggregate, we purchased our CMBS portfolio at a net discount to par value. At June 30, 2016 and December 31, 2015, the remaining discount to be accreted into income over the remaining lives of the securities was \$168,000 and \$1.7 million, respectively. This decrease is primarily due to the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1 and the underlying collateral held at these entities. At June 30, 2016 and December 31, 2015, the remaining premium to be amortized into income over the remaining lives of the securities was \$444,000 and \$710,000, respectively. These securities are classified as available-for-sale and, as a result, are carried at their fair value.

We had no losses included in earnings due to other-than-temporary impairment charges during the three and six months ended June 30, 2016 and 2015, respectively, on positions that supported our CMBS investments. Securities classified as available-for-sale have decreased on a net basis as of June 30, 2016 as compared to December 31, 2015 primarily due to the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1 effective January 1, 2016, and to \$18.7 million of paydowns during the period. We perform an on-going review of third-party reports and updated financial data on the underlying property financial information to analyze current and projected loan performance. Rating agency downgrades are considered with respect to our income approach

[\(Back to Index\)](#)

[\(Back to Index\)](#)

when determining other-than-temporary impairment and, when inputs are stressed, the resulting projected cash flows reflect a full recovery of principal.

(Back to Index)

As a result of updated accounting guidance, effective January 1, 2016 we deconsolidated all of the assets of Pelium, which resulted in the removal of \$21.9 million of investment securities, trading from our balance sheet which is the primary cause of the decrease during the period. We sold no securities during the six months ended June 30, 2016. We sold four securities during the six months ended June 30, 2015, for a net realized gain of approximately \$189,000. We held six and 56 investment securities, trading as of June 30, 2016 and December 31, 2015, respectively.

Real Estate Loans. The following table is a summary of the loans in our commercial real estate loan portfolio as follows (in thousands):

Description	Quantity	Amortized Cost	Contracted Interest Rates	Maturity Dates ⁽³⁾
As of June 30, 2016:				
Whole loans, floating rate ^{(1) (3) (4) (5) (6)} (7)	80	\$1,421,190	LIBOR plus 2.50% to LIBOR plus 12.00%	August 2016 to May 2019
Mezzanine loans ⁽¹⁰⁾	1	—	N/A	September 2021
Total ^{(2) (9)}	81	\$1,421,190		
As of December 31, 2015:				
Whole loans, floating rate ^{(1) (3) (4) (5) (6)} (7)	87	\$1,630,801	LIBOR plus 1.75% to LIBOR plus 12.00%	February 2016 to February 2019
B notes, fixed rate	1	15,934	8.68%	April 2016
Mezzanine loans, fixed rate ⁽⁸⁾	2	45,372	9.01%	September 2016
Total ⁽²⁾	90	\$1,692,107		

Whole loans had \$78.8 million and \$112.6 million in unfunded loan commitments as of June 30, 2016 and (1) December 31, 2015, respectively. These unfunded commitments are advanced as the borrowers formally request additional funding as permitted under the loan agreement and any necessary approvals have been obtained.

(2) Totals do not include allowances for loan losses of \$1.4 million and \$41.8 million as of June 30, 2016 and December 31, 2015, respectively.

(3) Maturity dates do not include possible extension options that may be available to the borrowers.

(4) Includes two whole loans with a combined \$11.2 million and \$51.2 million senior component that entered into modifications in 2016 and 2015 that resulted in a fixed rate of 0.50% as of June 30, 2016 and December 31, 2015, respectively (the difference of which was a result of the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1 - see Note 2). The two loans were previously identified as troubled debt restructurings, or TDR's.

(5) Includes four whole loans with combined \$4.5 million mezzanine components that have interest rates ranging from 1.4% to 5.2% as of June 30, 2016 and December 31, 2015.

(6) Includes a \$799,000 junior mezzanine tranche of a whole loan that has a fixed rate of 10.0% as of June 30, 2016 and December 31, 2015.

(7) Contracted interest rates do not include a whole loan with an amortized cost of \$2.0 million and \$32.5 million that entered into a modification in 2016 and 2015 which reduced the floating rate spread to 1.00% as of June 30, 2016 and December 31, 2015, respectively (the difference of which was a result of the deconsolidation of RREF CDO 2007-1 - see Note 2). The loan was previously identified as a TDR.

(8) Contracted interest rates and maturity dates do not include rates or maturity dates associated with one loan with an amortized cost of \$38.1 million that was fully reserved as of June 30, 2015.

(9) As a result of updated accounting guidance, effective January 1, 2016 (see Note 2), we deconsolidated all of the assets of RREF CDO 2006 and RREF CDO 2007, resulting in the removal of \$271.8 million of loans, pledged as collateral.

(10) As a result of RREF CDO 2006-1 being called and liquidated on April 25, 2016, a mezzanine loan with a par value of \$28.8 million was acquired as part of the liquidation proceeds and is reflected on the Company's balance sheet at a fair value of zero at June 30, 2016. The mezzanine loan is comprised of two tranches, with maturity dates of November 2016 and September 2021.

Middle market loans. At June 30, 2016, Northport LLC, our middle market lending platform, had loans held for investment with a carrying value of \$54.5 million and loans held for sale with a fair value of \$259.2 million. The middle market loans held by Northport LLC serve to collateralize its senior secured revolving credit agreement. The aggregate fair value of middle market loans held decreased by \$65.5 million over the fair value at December 31, 2015. This decrease was primarily due to loans being marked to the lower of cost or market associated with the proposed sale of certain loans as well as due to loans paying off compounded by reductions in new originations in the middle market platform.

Edgar Filing: Resource Capital Corp. - Form 10-Q

Asset-backed securities. At June 30, 2016, we held a total of \$165.1 million of ABS at fair value through RCC Real Estate, Resource TRS III, RCC Residential, Resource TRS and RCC Commercial II. At December 31, 2015, we held a total of \$44.2 million of ABS at fair value through Apidos Cinco CDO, RCM Global, ZAIS and RCC Commercial II. The increase in total ABS was due to the reclassification of investments in deconsolidated entities RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco CDO that occurred during the first quarter 2016.

Corporate bonds. At June 30, 2016, we held no corporate bonds on our balance sheet as a result of the deconsolidation of Apidos Cinco CDO on January 1, 2016. At December 31, 2015, Apidos Cinco CDO, held a total of \$2.3 million of corporate bonds at fair value, which secure the debt issued by this entity. We recorded the bonds at fair value, with any unrealized gain or loss reported in the stockholder's equity section of the balance sheet.

Credit quality indicators

Bank Loans

Loans are graded at inception and updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 5 with 1 representing our highest rating and 5 representing our lowest rating. Bank loans are first individually evaluated for impairment. To the extent no individual impairment is determined, a general reserve is established.

The characteristics of each rating category are as follows:

1. Loans with a rating of 1 are considered performing within expectations. All interest and principal payments are current, all future payments are anticipated and loss is not probable;

Loans with a rating of a 2 are considered to have limited liquidity concerns and are watched closely. Loans identified in this category show remote signs of liquidity concerns, loss is not probable and therefore no reserve is established;

Loans with a rating of a 3 are considered to have possible future liquidity concerns. Loans identified in this category show some liquidity concerns, but the ability to estimate potential defaults is not quantifiable and therefore no reserve is established;

Loans with a rating of a 4 are considered to have nearer term liquidity concerns. These loans have a reasonable possibility of future default. However, the risk of loss is not assignable to one specific credit. The noted risk of the loans in this category is covered by general reserves; and

Loans with a rating of a 5 have defaulted in payment of principal and interest or default is imminent. It is probable that impairment has occurred on these loans based on their payment status and that impairment is estimable. The noted risk of the loans in this category is covered by specific reserves.

Credit risk profiles of bank loans were as follows (in thousands):

Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
----------	----------	----------	----------	----------	---------------	-------

As of December 31, 2015:

Bank loans	\$113,897	\$17,578	\$1,498	\$—	\$1,544	\$1,475	\$135,992
------------	-----------	----------	---------	-----	---------	---------	-----------

As of June 30, 2016 all of our bank loans were deconsolidated. As of December 31, 2015, all of our bank loans were current with respect to debt service with the exception of one loan with an aggregate amortized cost of \$1.5 million, on which there was a reserve.

Middle Market Loans

At inception, all middle market loans are graded at a 2. Updates to assigned grades are made continually as new information is received. Loans are graded on a scale of 1 to 5 with 1 representing our highest rating and 5 representing our lowest rating. Middle market loans are only evaluated individually for impairment.

The characteristics of each rating category are as follows:

1. A loan with a rating of a 1 is considered performing above expectations and the likelihood of loss is remote;

2. A loan with a rating of a 2 is considered performing within expectations and the likelihood of loss is remote;

A loan with a rating of a 3 is considered performing below expectations and requires close monitoring but no loss of interest or principal is expected. Loans receiving this rating may be out of compliance with financial covenants; however, these loans are current with respect to interest and principal;

A loan with a rating of a 4 is considered performing below expectations and some loss of interest or dividend is expected but no loss of principal. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due, but generally not more than 180 days past due; and

A loan with a rating of a 5 is considered performing substantially below expectations, in default and some loss of principal is expected. The borrower is out of compliance with most or all of the debt covenants and payments are substantially delinquent.

[\(Back to Index\)](#)

96

[\(Back to Index\)](#)

Credit risk profiles of middle market loans were as follows (in thousands):

	Rating 1	Rating 2	Rating 3	Rating 4	Rating 5	Held for Sale	Total
As of June 30, 2016:							
Middle market loans	\$—	\$48,452	\$6,033	\$—	\$—	—\$259,179	\$313,664

As of December 31, 2015:

Middle market loans	\$44,252	\$305,578	\$29,622	\$—	\$—	—\$—	\$379,452
---------------------	----------	-----------	----------	-----	-----	------	-----------

All of our middle market loans were current with respect to debt service as of June 30, 2016.

Commercial Real Estate Loans

Loans are graded at inception and updates to assigned grades are made continually as new information is received, as such, a loan previously rated 4 may, over time and with improved performance, be rated better than 4. Loans are graded on a scale of 1 to 4 with 1 representing our highest rating and 4 representing our lowest rating. Commercial real estate loans are first individually evaluated for impairment. To the extent no individual impairment is determined, a general reserve is established.

The characteristics of each rating category are as follows:

- A loan with a rating of a 1 is considered to have satisfactory performance with no issues noted. All interest and principal payments are current and the probability of loss is remote;
A loan is graded with a rating of a 2 if a surveillance trigger event has occurred, but loss is not probable at this time. Such trigger events could include but are not limited to a trending decrease in occupancy rates or a flattening of lease revenues; and to a lesser extent, ground lease defaults, ground lease expirations that occur in the next six months or the borrower is delinquent on payment of property taxes or insurance.;
- A loan with a rating of 3 has experienced an extended decline in operating performance, a significant deviation from its origination plan or the occurrence of one or more surveillance trigger events which create an increased risk for potential default. Loans identified in this category show some liquidity concerns. However, the risk of loss is not specifically assignable to any individual loan. The noted risk of the loans in this category is generally covered by general reserves;
- A loan with a rating of a 4 is considered to be in payment default or default is expected, full recovery of the unpaid principal balance is improbable and loss is considered probable. The noted risk of the loans in this category is covered by specific reserves.

Credit risk profiles of commercial real estate loans were as follows (in thousands):

	Rating 1 (2)	Rating 2	Rating 3	Rating 4	Held for Sale	Total
As of June 30, 2016:						
CRE whole loans	\$1,419,190	\$2,000	\$—	\$—	\$—	—\$1,421,190
Mezzanine loans (1)	—	—	—	—	—	—
	\$1,419,190	\$2,000	\$—	\$—	\$—	—\$—

As of December 31, 2015:

CRE whole loans	\$1,596,099	\$32,500	\$—	—\$2,202	\$—	—\$1,630,801
B notes	15,934	—	—	—	—	15,934

	\$1,619,333	\$32,500	\$—	—\$40,274	\$—	—\$1,692,107

(1) The Company has one mezzanine loan with a par value of \$28.8 million that was acquired at fair value as a result of the liquidation of RREF 2006-1.

(2) Includes three and four loans which were impaired as of June 30, 2016 and December 31, 2015, respectively.

We had no delinquent commercial real estate loans as of June 30, 2016. All of our commercial real estate loans were current with exception of one mezzanine loan that was defaulted as of December 31, 2015. This loan was deconsolidated as part of our adoption of amendments to consolidation accounting guidance as required on January 1, 2016. However, as a result of

[\(Back to Index\)](#)

97

[\(Back to Index\)](#)

RREF CDO 2006-1 being called and liquidated on April 25, 2016, par value of \$28.8 million of this mezzanine loan was acquired as part of the liquidation proceeds and is reflected on the Company's balance sheet at a fair value of zero at June 30, 2016.

Residential Mortgage Loans

Residential mortgage loans are reviewed periodically for collectability in light of historical experience, the nature and amount of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing underlying conditions.

Direct Financing Leases

During the year ended December 31, 2015, we recorded a provision against the value of our direct financing leases in the amount of \$465,000. As of June 30, 2016, we held \$665,000 of direct financing leases, net of reserves.

Loan Portfolios Aging Analysis

The following table presents the loan and lease portfolio aging analysis as of the dates indicated at cost basis (in thousands):

Troubled-Debt Restructurings

The following tables show troubled-debt restructurings in our loan portfolio (in thousands):

	Number of Loans	Pre-Modification Outstanding Recorded Balance	Post-Modification Outstanding Recorded Balance
For the Six Months Ended June 30, 2016:			
CRE whole loans	3	\$ 29,459	\$ 29,459
Mezzanine loans	—	—	—
Middle market loans	—	—	—
Residential mortgage loans	—	—	—
Total loans	3	\$ 29,459	\$ 29,459

	Number of Loans	Pre-Modification Outstanding Recorded Balance	Post-Modification Outstanding Recorded Balance
For the Six Months Ended June 30, 2015:			
CRE whole loans	2	\$ 67,459	\$ 67,459
B notes	—	—	—
Mezzanine loans	1	38,072	—
Bank loans	—	—	—
Middle market loans	—	—	—
Residential mortgage loans	—	—	—
Total loans	3	\$ 105,531	\$ 67,459

As of June 30, 2016 and 2015, there were no commercial real estate loan troubled-debt restructurings that subsequently defaulted.

Restricted Cash

At June 30, 2016, we had restricted cash of \$6.8 million, which consisted of \$6.6 million of restricted cash held by seven securitizations, \$30,000 held as margin and \$197,000 held in various reserve accounts. At December 31, 2015, we had restricted cash of \$40.6 million, which consisted of \$39.0 million of restricted cash in our eight securitizations, \$1.4 million held as margin and \$195,000 held in various reserve accounts. The decrease of \$33.8 million is primarily related to the deconsolidation of Apidos Cinco CDO, which had \$16.7 million in restricted cash and also a reduction of \$14.1 million of restricted cash in our CRE securitizations used to fund our future funding commitments.

Interest receivable from escrow and sweep accounts	6	6	—
Total	\$ 8,868	\$ 14,009	\$(5,141)

At June 30, 2016, we had interest receivable of \$8.9 million, which primarily consisted of interest on our loans and securities and \$6,000 of interest earned on escrow and sweep accounts. At December 31, 2015, we had interest receivable of \$14.0 million, which primarily consisted of interest on our loans, securities and an equity investment in a warehouse facility and \$6,000 of interest earned on escrow and sweep account. The \$5.1 million decrease was primarily attributable to the deconsolidation of Pelium Capital, Apidos Cinco CDO, RREF CDO 2006-1 and RREF CDO 2007-1. As a result of the new accounting guidance, all of the assets of these four entities were deconsolidated on January 1, 2016. Additionally, there was also a decrease in interest receivable of \$1.2 million related to the closing of ZAIS, our syndicated bank loans warehouse, in May 2016.

Prepaid Expenses

The following table summarizes our prepaid expenses at the periods indicated (in thousands):

	June 30, December 31, Net		
	2016	2015	Change
Prepaid taxes	\$ 3,321	\$ 1,598	\$ 1,723
Prepaid insurance	351	224	127
Other prepaid expenses	1,386	1,358	28
Total	\$ 5,058	\$ 3,180	\$ 1,878

Prepaid expenses increased \$1.9 million to \$5.1 million as of June 30, 2016 from \$3.2 million as of December 31, 2015. The primary cause was an increase in prepaid taxes of \$1.7 million due to the payment of estimated taxes during the three months ended June 30, 2016. Additionally, prepaid insurance increased \$127,000 due to the timing of payments on the annual renewal of our director's and officer's insurance policy and an increase in other prepaid expenses of \$28,000.

Other Assets

The following table summarizes our other assets as of the periods indicated (in thousands):

	June 30, December 31, Net		
	2016	2015	Change
Other receivables	\$ 2,749	\$ 12,578	\$(9,829)
Investment in life settlement contracts	5,268	4,584	684
Tax receivable	874	482	392
Management fees receivable	420	1,904	(1,484)
Fixed assets - non real estate	2,568	2,488	80
Other assets	258	259	(1)
Total	\$ 12,137	\$ 22,295	\$(10,158)

The decrease of approximately \$10.2 million in other assets is primarily due to a decrease in other receivables of \$9.8 million; \$8.6 million of this amount relates to the cash receipt for the return of principal from our investment in CVC Credit Opportunities Fund, L.P., \$850,000 of this amount relates to a receivable accrued in December 2015 for a cash distribution from RCC 2015-CRE3; \$400,000 relates to a decrease in the amount of a loan receivable due from LCF to fund new life settlement contracts, partially offset by other miscellaneous receivables. Additionally, there was a decrease in management fees receivable of \$1.5 million due to an incentive management fee earned on RCAM in December 2015 and paid in January 2016. These decreases were offset by an increase of \$684,000 in life settlement contracts from the net acquisition of new contracts, \$392,000 of tax receivable due to the timing of tax payments

made, and \$80,000 due to the acquisition of fixed assets at PCM.

Hedging Instruments

A significant market risk to us is interest rate risk. Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond our control. Changes in the general level of interest rates can affect net interest income, which is the difference between the interest income earned on interest-earning assets and the interest expense incurred in connection with the interest-bearing liabilities, by affecting the spread between the interest-earning assets and interest-bearing liabilities. Changes in the level of interest rates also can affect the value of our interest-earning assets and our ability to realize gains from the sale of these assets. A decline in the value of our interest-earning assets pledged as collateral for borrowings could result in the counterparties demanding additional collateral pledges or liquidation of some of the existing collateral to reduce borrowing levels.

We are also exposed to foreign currency exchange risk, a form of risk that arises from the change in price of one currency against another. Substantially all of our revenues are transacted in U.S. dollars; however, a portion of our capital is exposed to other currencies, primarily the Euro and, to a lesser extent, the pound sterling. To address this market risk, we generally hedge our foreign currency-denominated exposures (typically investments in debt instruments, including forecasted principal and interest payments) with foreign currency forward contracts. We classify these hedges as fair value hedges, which are hedges that mitigate the risk of changes in the fair values of assets, liabilities, and certain types of firm commitments. We record changes in the fair value of derivatives designated and effective as fair value hedges in earnings offset by corresponding changes in the fair values of the hedged items.

The following tables present the fair value of our derivative financial instruments as well as their classification on our consolidated balance sheets and on the consolidated statements of operations for the years presented:

Fair Value of Derivative Instruments as of June 30, 2016

(in thousands)

	Asset Derivatives		Fair Value
	Notional Amount	Balance Sheet Location	
Interest rate lock agreements	\$270,487	Derivatives, at fair value	\$4,397
Forward contracts - residential mortgage lending	\$60,857	Derivatives, at fair value	\$161
Forward contracts - foreign currency, hedging ⁽¹⁾⁽²⁾	\$26,640	Derivatives, at fair value	\$722
Warrants ⁽³⁾	\$553	Derivatives, at fair value	\$853
	Liability Derivatives		
	Notional Amount	Balance Sheet Location	Fair Value
Interest rate lock contracts	\$2,646	Derivatives, at fair value	\$36
Forward contracts - residential mortgage lending	\$363,721	Derivatives, at fair value	\$2,881
Forward contracts - TBA securities	\$41,000	Derivatives, at fair value	\$167
Interest rate swap contracts, hedging	\$—	Accumulated other comprehensive (income) loss	\$67

(1) Notional amount presented on currency converted basis. The base currency notional amount of our foreign currency hedging forward contracts was €24.0 million as of June 30, 2016.

(2) Foreign currency forward contracts are accounted for as fair value hedges.

(3) The notional amount of our warrants is calculated by multiplying the number of shares available for purchase by exercise price.

Forward contracts - residential mortgage lending	\$143,553	Derivatives, at fair value	\$479
Forward contracts - TBA securities	\$1,500	Derivatives, at fair value	\$—
Interest rate swap contracts, hedging	\$102,799	Accumulated other comprehensive (income) loss	\$(3,471)

(1) The notional amount of our interest rate lock agreements in an asset position is the pass-through weighted total commitments with a weighted average pass-through percentage of 85.9%.

(2) Notional amount presented on currency converted basis. The base currency notional amount of our foreign currency hedging forward contracts was €22.9 million as of December 31, 2015.

(3) Foreign currency forward contracts are accounted for as fair value hedges.

(4) The notional amount of our warrants is the calculated number of shares available for purchase.

(5) Interest rate swap contracts are accounted for as cash flow hedges.

(6) The notional amount of our interest rate lock agreements in a liability position is the pass-through weighted total commitments with a weighted average pass-through percentage of 19.5%.

On January 1, 2016, we deconsolidated RREF CDO 2006-1 and RREF CDO 2007-1 in accordance with guidance on consolidation. This resulted in the deconsolidation of six CRE interest rate swaps.

During the three months ended June 30, 2016, we requested and canceled our remaining interest rate swap contract through accumulated other comprehensive income (loss), to be amortized through earnings over the life of the remaining debt. As of June 30, 2016, the Company had no interest rate swap contracts outstanding.

(1) The Wells Fargo Bank CMBS term repurchase facility borrowing includes \$1,000 and \$2,000 of deferred debt issuance costs as of June 30, 2016 and December 31, 2015, respectively.

(2) The Deutsche Bank CMBS term repurchase facility includes \$36,000 and \$0 of deferred debt issuance costs as of June 30, 2016 and December 31, 2015, respectively.

(3) The Wells Fargo Bank CRE term repurchase facility borrowing includes \$163,000 and \$675,000 of deferred debt issuance costs as of June 30, 2016 and December 31, 2015, respectively.

(4)

The Morgan Stanley Bank CRE term repurchase facility includes \$1.4 million and \$1.7 million of deferred debt issuance costs as of June 30, 2016 and December 31, 2015, respectively.

(5) The RSO Repo SPE Trust 2015 term repurchase facility includes \$357,000 and \$415,000 of deferred debt issuance costs as of June 30, 2016 and December 31, 2015, respectively.

We are in compliance with all financial covenants as defined in the respective agreements as of June 30, 2016.

Residential Investments – Term Repurchase Facility

In June 2014, our wholly-owned subsidiaries, RCC Resi Portfolio, RCC Resi TRS, and RCC Resi Depositor (the “Sellers”) entered into a master repurchase and securities contract (the “2014 Facility”) with Wells Fargo Bank, NA (“Wells Fargo”). Under the 2014 Facility, from time to time, the parties may enter into transactions in which the Sellers and Wells Fargo agree to transfer from the Sellers to Wells Fargo all of their right, title and interest to certain residential mortgage backed securities and other assets against the transfer of funds by Wells Fargo to the Sellers, with a simultaneous agreement by Wells Fargo to transfer back to the Sellers such assets at a date certain or on demand, against the transfer of funds from the Sellers to Wells Fargo. In May 2016, we

[\(Back to Index\)](#)

105

[\(Back to Index\)](#)

entered into a sixth amendment of the 2014 Facility that made no material changes to the facility's terms. In July 2016, we agreed to terminate the 2014 Facility.

CMBS – Term Repurchase Facilities

In May 2016, our wholly-owned subsidiary RCC Real Estate entered into a global master repurchase agreement (the “2016 Facility”) with Deutsche Bank, AG (“DB”). Under the 2016 Facility, from time to time, the parties may enter into transactions in which RCC Real Estate and DB agree to transfer from the RCC Real Estate to DB all of their right, title and interest to certain CMBS and other assets (the "Assets") against the transfer of funds by DB to the RCC Real Estate, with a simultaneous agreement by DB to transfer back to the RCC Real Estate such Assets at a date certain, against the transfer of funds from the RCC Real Estate to DB. The maximum amount of the 2016 Facility is at DB's discretion and the minimum amount of the 2016 Facility is \$50.0 million. The original term of the 2016 Facility is one year with subsequent one year extensions subject at DB's approval. The 2016 Facility includes a "makewhole" clause which entitles DB to the full original term's interest in the event of an optional termination.

The 2016 Facility contains customary events of default, including payment defaults, acts of insolvency, breaches of certain representations, and expulsion from any securities exchange and/or self-regulating organization. The remedies for such events of default are also customary for this type of transaction and include the acceleration of all obligations of the RCC Real Estate to repay the purchase price for purchased assets.

The 2016 Facility also contains margin call provisions relating to a decline in the market value of a security. Under these circumstances, DB may require the RCC Real Estate to transfer cash or securities in an amount sufficient to eliminate any margin deficit resulting from such a decline.

Under the terms of the 2016 Facility and pursuant to a guarantee agreement dated May 23, 2016 (the “2016 Guaranty”), we guaranteed the payment and performance of (a) all payment obligations owing by the RCC Real Estate to DB under or in connection with the 2016 Facility and any other governing agreements; (b) all expenses, including, without limitation, reasonable attorneys' fees and disbursements, that are incurred by DB in the enforcement of any of the foregoing or any obligation of the registrant.. The 2016 Guaranty includes a reporting covenant that we were in compliance with as of June 30, 2016.

Residential Mortgage Financing Agreements

In July 2014, PCM entered into a master repurchase agreement (the "Wells Fargo Facility") with Wells Fargo to finance the acquisition of residential mortgage loans. In May 2016, PCM amended its agreement with Wells Fargo to increase the maximum of the amount of the Wells Fargo Facility from \$100.0 million to \$115.0 million for the period from May 27, 2016 to June 26, 2016. In June 2016, PCM amended its agreement with Wells Fargo to increase the maximum of the amount of the Wells Fargo Facility from \$115.0 million to \$150.0 million. The maximum duration for jumbo loans was increased from 90 days to 270 days. No other material changes were made to the Wells Fargo Facility's terms.

Securitizations

As of June 30, 2016, we had executed eight and currently retain equity in eight of these securitizations. Pertinent information about our securitizations that occurred during the first six months of 2016 is as follows:

• On January 1, 2016, we deconsolidated RREF CDO 2006-1, RREF CDO 2007-1, and Apidos Cinco CDO in accordance with guidance on consolidation.

• On April 25, 2016, we called RREF CDO 2006-1 and in exchange for our equity notes and preference share, received the remaining collateral.

Senior Secured Revolving Credit Agreement

As of June 30, 2016, Northport LLC, our wholly-owned subsidiary, had \$144.0 million outstanding on a syndicated senior secured revolving credit facility ("Northport Credit Facility") with JP Morgan as our agent bank. At June 30, 2016, there was an unused balance of \$81.0 million on the Northport Credit Facility.

[\(Back to Index\)](#)

106

[\(Back to Index\)](#)

On August 1, 2016, we entered into a purchase agreement to sell Northport LLC. This transaction includes the assumption of the Credit Facility. Accelerated amortization of the remaining deferred debt issuance costs in the amount of \$2.6 million pertaining to the Northport Credit Facility was recorded as of June 30, 2016.

Equity

Total equity at June 30, 2016 was \$776.4 million and gave effect to \$3.4 million of unrealized losses on our cash flow hedges and \$4.2 million of net unrealized gains on our available-for-sale portfolio, shown as a component of accumulated other comprehensive income. Equity at December 31, 2015 was \$826.8 million and gave effect to \$3.5 million of unrealized losses on our cash flow hedges and \$611,000 of net unrealized gains on our available-for-sale portfolio, shown as a component of accumulated other comprehensive income. The decrease in equity during the six months ended June 30, 2016 was principally due to the deconsolidation of RREF CDO 2006-1, RREF CDO 2007-1, Apidos Cinco CDO, Pelium Capital and RCM Global as a result of the consolidation guidance on variable interest entities which we adopted on January 1, 2016. Equity also decreased due to stock repurchases and distributions on our common stock and preferred stock in excess of earnings.

Balance Sheet - Book Value Reconciliation

	Amount		Per Share
Book value at December 31, 2015, allocable to common shares ⁽¹⁾	\$ 544,161		\$ 17.63
Net income allocable to common shares	8,137		0.26

Effect of fair value impact to retained earnings on deconsolidated VIE's ⁽²⁾	(16,933))	(0.55)
Accretion from share repurchases during the period ⁽³⁾	(7,998))	0.15
Accretion (dilution) from additional shares issued during the period and other ⁽⁴⁾	2,662		(0.11)
Total net decrease	(36,688))	(1.00)
Book value at June 30, 2016, allocable to common shares ⁽¹⁾⁽⁵⁾	\$ 507,473		\$ 16.63

(1) Per share calculations exclude unvested restricted stock, as disclosed on the consolidated balance sheet, of 655,775 and 691,369 shares as of June 30, 2016 and December 31, 2015, respectively. The denominator for the calculation

is 30,508,005 and 30,871,355 as of June 30, 2016 and December 31, 2015, respectively.

- Pursuant to updated accounting guidance adopted on January 1, 2016 on consolidation of variable interest entities, we deconsolidated and recorded fair value adjustments on RREF CDO 2006-1 of (\$1.5 million) or (\$0.05) per share, RREF CDO 2007-1 of (\$9.8 million) or (\$0.32) per share and Apidos Cinco CDO of (\$5.6 million) or (\$0.18) per share reflected in book value as of June 30, 2016.
- (2) Under our repurchase plan, we purchased 2.7 million shares for \$33.9 million through June 30, 2016, including 703,000 shares or \$8.0 million during the six months ended June 30, 2016.
 - (3) Includes issuance of common shares from our dividend reinvestment plan of 6,000 shares and 255,000 net change of unvested shares of restricted stock.
 - (4) Book value allocable to common shares is calculated as total stockholders' equity of \$777.6 million less preferred stock equity of \$270.1 million as of June 30, 2016.
 - (5)

(Back to Index)

107

Balance Sheet - Economic Book Value Reconciliation ⁽²⁾

	June 30, 2016
Total stockholders' equity per GAAP ⁽¹⁾	\$777,561
Preferred stock equity	(270,087)
Stockholders' equity allocable to common shares	507,474
Add:	
Deconsolidation of RREF CDO 2006-1 ^{(3) (4)}	370
Deconsolidation of RREF CDO 2007-1 ^{(3) (4)}	9,492
Deconsolidation of Apidos Cinco CDO ^{(3) (4)}	3,953
Net unrealized losses - investment securities available-for-sale and derivatives ⁽⁵⁾	700
Economic book value	\$521,989
Shares outstanding	30,508,005
Economic book value per share	\$17.11

(1) Book value allocable to common shares is calculated as total stockholders' equity of \$777.6 million less preferred stock equity of \$270.1 million as of June 30, 2016.

Our management views economic book value, a non-GAAP measure, as a useful and appropriate supplement to GAAP stockholders' equity and book value per share. This serves as an additional measure of our value because it facilitates evaluation of our balance sheet without the effects of unrealized losses on investments and derivatives, for which we expect to recover net realizable value at maturity, in excess of our value at risk. Unrealized losses that (2) are in excess of our maximum value at risk and unrealized net discounts on loans and securities are added back to stockholders' equity in arriving at economic book value. Economic book value should be reviewed in connection with GAAP stockholders' equity as set forth in our consolidated balance sheets, to help analyze our value to investors. Economic book value is defined in various ways throughout the REIT industry. Investors should consider these differences when comparing our economic book value to that of other REITs.

Effective January 1, 2016, we deconsolidated RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco CDO upon the adoption of new accounting guidance. We retain investment securities and preferred interests in the CDO vehicles, which we account for as investments securities, available-for-sale. The reduction to retained earnings of \$16.9 million represents the effect of marking these investments to market as of the date of the required adoption and represents discounts to par due to illiquidity premiums and other market forces and are expected to be (3) recovered over time as the investments approach their respective maturities. On April 25, 2016 we called RREF CDO 2006-1 and in exchange for RSO's equity notes and preference shares, received the remaining collateral. We recorded the collateral of RREF CDO 2006-1 at fair market value. This resulted in recording a gain on acquisition of \$846,000 during the three months ended June 30, 2016 and there remains an unamortized discount of \$370,000 as of June 30, 2016 on the original \$1.5 million charge to retained earnings related to the valuation of RREF CDO 2006-1 as of January 1, 2016.

We will recognize the excess of all cash flows attributable to the beneficial interest estimated at the date of the required adoption over the fair value of the investment (the accretable yield) at January 1, 2016, as interest income (4) over the life of the beneficial interest using the effective interest method. The cash flows are subject to changes in prepayment speeds and potential impairments of the underlying investments, which would have an impact on the net realizable value and future income. These assumptions are reviewed quarterly.

(5) We add back unrealized net accretion of securities that will be accreted into interest income over the lives of the securities using the effective interest method, adjusted for the effects of estimated prepayments. If the investment is purchased at a discount or at a premium, the effective interest is computed based on the contractual interest rate increased for the accretion of a purchase discount or decreased for the amortization of a purchase premium. The effective interest method requires us to make estimates of future prepayment rates for its investments that can be contractually prepaid before their contractual maturity date so that the purchase discount can be accreted, or the

purchase premium can be amortized, over the estimated remaining life of the investment. The cash flows are subject to changes in prepayment speeds and potential impairments of the underlying investments, which would have an impact on the net realizable value and future income. These assumptions are reviewed quarterly.

108

[\(Back to Index\)](#)

Funds from Operations

We evaluate our performance based on several performance measures, including funds from operations, or FFO, and adjusted funds from operations, or AFFO, in addition to net income. We compute FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts as net income (computed in accordance with GAAP), excluding gains or losses on the sale of depreciable real estate, the cumulative effect of changes in accounting principles, real estate-related depreciation and amortization, and after adjustments for unconsolidated/uncombined partnerships and joint ventures.

AFFO is a computation made by analysts and investors to measure a real estate company's operating performance. We calculate AFFO by adding or subtracting from FFO the impact of non-cash accounting items as well as the effects of items that we deem to be non-recurring in nature. We deem transactions to be non-recurring if a similar transaction has not occurred in the past two years, and if we do not expect a similar transaction to occur in the next two years. We adjust for these non-cash and nonrecurring items to analyze our ability to produce cash flow from on-going operations, which we use to pay dividends to our shareholders. Non-cash adjustments to FFO include the following: impairment losses resulting from fair value adjustments on financial instruments; provisions for loan losses; equity investment gains and losses; straight-line rental effects; share based compensation expense; amortization of various deferred items and intangible assets; gains on sales of property that are wholly owned or owned through a joint venture; the cash impact of capital expenditures that are related to our real estate owned; and REIT tax planning adjustments, which primarily relate to accruals for owned properties for which we made a foreclosure election and adjustments to tax estimates with respect to the final resolution of foreclosed property when it is listed for sale. In addition, we calculate AFFO by adding and subtracting from FFO the realized cash impacts of the following: extinguishment of debt, reissuances of debt, sales of property and capital expenditures.

Management believes that FFO and AFFO are appropriate measures of our operating performance in that they are frequently used by analysts, investors and other parties in the evaluation of REITs. Management uses FFO and AFFO as measures of its operating performance, and believes they are also useful to investors because they facilitate an understanding of our operating performance apart from non-cash and non-recurring items, which may not necessarily be indicative of current operating performance and that may not allow accurate period to period comparisons of our operating performance.

While our calculations of AFFO may differ from the methodology used for calculating AFFO by other REITs and our FFO and AFFO may not be comparable to FFO and AFFO reported by other REITs, we also believe that FFO and AFFO may provide us and our investors with an additional useful measure to compare our performance with some other REITs. Neither FFO nor AFFO is equivalent to net income or cash generated from operating activities determined in accordance with GAAP. Furthermore, FFO and AFFO do not represent amounts available for management's discretionary use because of needed capital replacement or expansion, debt service obligations or other commitments or uncertainties. Neither FFO nor AFFO should be considered as an alternative to GAAP net income as an indicator of our operating performance or as an alternative to cash flow from operating activities as a measure of its liquidity.

[\(Back to Index\)](#)

Liquidity and Capital Resources

During the six months ended June 30, 2016, our principal sources of liquidity were: liquidation of our investment in CVC Global Opportunities Fund, LP which returned \$8.6 million of principal in January 2016, proceeds from our CRE securitizations which purchased future funding commitments utilizing repaid principal of \$9.0 million, \$114.6 million of repayments on our Northport LLC middle market loan portfolio and cash flow from operations. These sources of liquidity principally provided the \$65.2 million of unrestricted cash we held at June 30, 2016. In addition, we had capital available through a CMBS term facility to help finance the purchase of CMBS securities of \$77.4 million and \$367.4 million combined from two CRE term facilities for the origination of commercial real estate loans. On February 27, 2012, we entered into a master repurchase and securities agreement (the "Wells CRE Facility") with Wells Fargo Bank, NA to finance the origination of commercial real estate loans. On October 31, 2014, we agreed to a modification of the terms of the Wells CRE Facility. The modification increases the facility maximum by \$150.0 million to \$400.0 million. On July 21, 2016, we agreed to a modification of the terms of the Wells CRE Facility. The modification extends the facility's maturity date to July 21, 2018, subject to three one-year extension rights which may extend the maturity to July 21, 2021. The amendment also modified certain financing rates and required debt yields. We paid extension fees as well as other reasonable closing costs.

On September 20, 2015, we entered into a master repurchase and securities agreement (the "Morgan Stanley Facility") with Morgan Stanley Bank, NA to finance the origination of commercial real estate loans. We paid a commitment fee of 0.65% of the maximum facility amount, as well as other standard closing costs. The Morgan Stanley Facility has a maximum capacity of \$250.0 million and an initial three year term that expires on September 10, 2018 with annual one year extension options.

In February 2011, we entered into a master repurchase and securities agreement ("Wells CMBS Facility") to finance the purchase of CMBS. The maximum amount of the Wells CMBS Facility is \$100.0 million which had an original two year term with a one year option to extend. In April 2014, we agreed to a third amendment of the facility, which extended the termination date to January 31, 2016. In May 2015, we agreed to a fourth amendment of the facility, which extended the termination date to January 31, 2017. We may enter into interest rate swaps and cap agreements for securities whose average life exceeds two years to mitigate interest rate risk under the Wells CMBS Facility.

During the second quarter 2015, we entered into the first and second amendments of Northport LLC's Senior Secured Revolving Credit Agreement, or Northport Credit Facility, which increased the original commitment from \$225.0 million to \$300.0 million and secured \$85.0 million of additional availability, bringing the total available under the Northport Credit Facility to \$225.0 million as of June 30, 2016. As of June 30, 2016, \$144.0 million was outstanding on the Northport Credit Facility. Under the first amendment both the ability to access to draws on the Northport Credit Facility and maturity have been extended six months until March 31, 2018 and March 31, 2019, respectively. At June 30, 2016, there was an unused balance of \$81.0 million on the facility. On August 1, 2016, we entered into a purchase agreement to sell its interest in Northport LLC for \$247.0 million. The transaction, which closed on August 4, 2016, included substantially all of the direct origination middle market loans and one syndicated loan with a par balance of \$257.0 million and the assumption of the J. P. Morgan Senior Secured Credit Facility, for net proceeds of approximately \$102.0 million.

During the year ended December 31, 2015, our principal sources of liquidity were: net proceeds from our 8.0% convertible notes offering on January 13, 2015 of \$97.0 million, the return of equity at the close of RCC 2015-CRE3 on February 24, 2015 of \$78.0 million, the return of equity at the close of RCC 2015-CRE4 on August 18, 2015 of \$29.7 million, liquidation of Moselle CLO S.A. which returned \$30.0 million (which included \$1.0 million of proceeds from forward currency contracts), liquidation of Apidos CDO III in June 2015 which returned \$12.8 million of principal, cash flow from operations and \$3.0 million of net proceeds from the sale of our 8.25% Series B Preferred Stock through our at the market, or ATM, program in January 2015. These sources of liquidity principally provided the our \$78.8 million of unrestricted cash we held at December 31, 2015. In addition, we had capital available through a CMBS term facility to help finance the purchase of CMBS securities of \$74.4 million and \$425.0 million combined from two CRE term facilities for the origination of commercial real estate loans.

Our on-going liquidity needs consist principally of funds to make investments, make debt repurchases, make distributions to our stockholders and pay our operating expenses, including management fees. Our ability to meet our

on-going liquidity needs will be subject to our ability to generate cash from operations and, with respect to our investments, our ability to maintain and/or obtain additional debt financing and equity capital together with the funds referred to above.

Since December 2013, we have met a significant portion of our debt funding requirements for CRE loans through securitizations. In February 2015, we closed a \$346.2 million CRE securitization, and in August 2015, we closed a \$312.9 million CRE securitization, which brings our total to just in excess of \$1.3 billion of mortgage loans financed during that period. We expect to derive substantial operating cash from our equity investments in the four newest securitizations, which do not have the

[\(Back to Index\)](#)

111

[\(Back to Index\)](#)

same asset and interest coverage tests as are required by our CDOs. These CRE securitizations do not have reinvestment periods; however, principal payments, for a stipulated period, may be used to purchase funding participations with respect to existing collateral held outside of the securitizations. This will allow us to recycle some capital repaid and convert the designated principal for funded companion participation acquisition cash which would otherwise be used to pay down the most senior notes and reduce leverage and potential returns within the securitization.

Historically, we have financed a substantial portion of our portfolio investments through securitized notes that essentially match the maturity and repricing dates of these financing vehicles with the maturities and repricing dates of our investments, and, in view of current market conditions, we may continue to seek this type of securitization financing. We derive substantial operating cash from our equity investments in our securitizations which, if the securitizations fail to meet certain tests, will cease. Through June 30, 2016, we have not experienced difficulty in maintaining our existing securitized note financing and have passed all of the critical tests required by these financings. However, we cannot assure you that we will continue securitization financing to meet all such critical tests in the future. If we are unable to renew, replace or expand our sources of existing financing on substantially similar terms, we may be unable to implement our investment strategies successfully and may be required to liquidate portfolio investments. If required, a sale of portfolio investments could be at prices lower than the carrying value of such assets, which would result in losses and reduced income.

The following table sets forth the distributions made and coverage test summaries for each of our securitizations for the periods presented (in thousands):

Name	Cash		Annualized		
	Distributions		Interest Coverage Cushion	Overcollateralization Cushion	
	Six Months Ended June 30, 2016	Year Ended December 31, 2015	As of June 30, 2016 ^{(1) (2)}	As of June 30, 2016 ⁽³⁾	As of Initial Measurement Date
Apidos Cinco CDO ⁽⁴⁾	\$ 1,733	\$ 6,336	\$ 3,956	\$ 20,860	\$ 17,774
RREF CDO 2006-1 ^{(4) (9)}	\$ 1,394	\$ 3,451	\$ —	\$ —	\$ 24,941
RREF CDO 2007-1 ⁽⁴⁾	\$ 1,001	\$ 6,102	\$ 15,250	\$ 67,491	\$ 26,032
RCC CRE Notes 2013	\$ 2,217	\$ 9,129	N/A	N/A	N/A
RCC 2014-CRE2 ⁽⁵⁾	\$ 6,894	\$ 15,826	N/A	\$ 50,660	\$ 20,663
RCC 2015-CRE3 ⁽⁶⁾	\$ 5,954	\$ 9,186	N/A	\$ 26,092	\$ 20,313
RCC 2015-CRE4 ⁽⁷⁾	\$ 6,024	\$ 3,291	N/A	\$ 9,397	\$ 9,397
Moselle CLO S.A. ⁽⁸⁾	\$ 183	\$ 29,099	N/A	N/A	N/A

(1) Interest coverage includes annualized amounts based on the most recent trustee statements.

(2) Interest coverage cushion represents the amount by which annualized interest income expected exceeds the annualized amount payable on all classes of securitization notes senior to our preference shares.

(3) Overcollateralization cushion represents the amount by which the collateral held by the securitization issuer exceeds the maximum amount required.

(4) Apidos Cinco CDO, RREF CDO 2006-1, and RREF CDO 2007-1 were deconsolidated as a result of the new consolidation accounting guidance adopted effective January 1, 2016.

(5) Resource Capital Corp. 2014-CRE2 has no reinvestment period; however, principal repayments, for a period ending in July 2016, may be designated to purchase loans held outside of the securitization that represent the funded commitments of existing collateral in the securitization that were not funded as of the date the securitization was closed. Additionally, the indenture contains no interest coverage test provisions.

(6)

Edgar Filing: Resource Capital Corp. - Form 10-Q

Resource Capital Corp. 2015-CRE3 closed on February 24, 2015; the first distribution was in March 2015. There is no reinvestment period; however, principal repayments, for a period ending in February 2017, may be designated to purchase loans held outside of the securitization that represent the funded commitments of existing collateral in the securitization that were not funded as of the date the securitization was closed. Additionally, the indenture contains no interest coverage test provisions.

Resource Capital Corp. 2015-CRE4 closed on August 18, 2015; the first distribution was in September 2015. There is no reinvestment period; however, principal repayments, for a period ending in September 2017, may be (7) designated to purchase loans held outside of the securitization that represent the funded commitments of existing collateral in the securitization that were not funded as of the date the securitization was closed. Additionally, the indenture contains no interest coverage test provisions.

Moselle CLO S.A. was acquired on February 24, 2014 and the reinvestment period for this securitization expired (8) prior to the acquisition. In the fourth quarter of 2014 we began to liquidate Moselle CLO S.A. and, by January 2015, all of the assets were sold.

(9) RREF CDO 2006-1 was liquidated on April 25, 2016 and as a result, all \$66.3 million of the remaining assets were returned to RSO in exchange for our preference shares and equity notes in the securitization.

(Back to Index)

112

[\(Back to Index\)](#)

At June 30, 2016, our liquidity is derived from three primary sources:

- unrestricted cash and cash equivalents of \$65.2 million and restricted cash of \$30,000 in margin call accounts;
- capital available for reinvestment in two of our CRE securitizations of \$6.3 million; and
- loan principal repayments of \$178,000 that will pay down outstanding CLO note balances, as well as interest collections of \$113,000. In addition, we had \$197,000 in restricted deposits related to certain of our investments. We also had \$240.7 million and \$126.7 million, respectively, available through two term financing facilities to finance the origination of CRE loans, and \$77.4 million available through a term financing facility to finance the purchase of CMBS.

Our leverage ratio, defined as the ratio of borrowings to stockholders' equity may vary as a result of the various funding strategies we use. As of June 30, 2016 and December 31, 2015, our leverage ratio was 2.0 times and 2.3 times, respectively. Our leverage has decreased primarily as a result of the deconsolidation of RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco CDO, offset by the reduction of stockholder's equity due to the fair value adjustment recorded through retained earnings on those deconsolidated entities, as well as repurchases of our common stock and Series B preferred stock.

Several of our legacy CDOs and CLOs have been liquidated over the last few years. This trend continued in 2016. On April 25, 2016, we called and liquidated our investment in RREF CDO 2006-1. Our one remaining legacy CRE securitization and one remaining bank loan securitization have seen substantial pay downs of notes issued under their indentures as the underlying collateral has paid down or paid off in full. The table and footnotes below indicate what remains in these legacy securitizations as well as our remaining equity and, in the case of our legacy CRE CDO, our share of notes repurchased and discounted purchase price of those notes. In the case of the CRE CDO, we expect to have loan assets distributed to us once the outstanding notes held by third parties have been paid off. Once the loan assets are distributed we expect to be able to finance the loan assets on existing credit facilities.

The following tables presents the legacy securitizations' (deconsolidated at January 1, 2016) remaining equity as of June 30, 2016:

Name of Securitization	Fair Value of Asset Collateral	Cash	Total Assets	Outstanding Notes Held by Third Parties (at par)	Net Equity Held by RSO
RREF CDO 2007-1 ⁽¹⁾	\$ 165,249	\$—	\$165,249	\$ 44,471	\$ 120,778
Apidos Cinco CDO	\$ 96,226	\$6,389	\$102,615	\$ 82,139	\$ 20,476

Subsequent to the closing of the securitization, we purchased notes in RREF CDO 2007-1 at substantial discounts to par and certain of those notes had either been repaid or canceled. Of those repurchased notes that have not been repaid, cash gains on the extinguishment of debt of \$13.8 million has not been recognized in AFFO as of June 30, 2016 on \$20.3 million of notes purchased at a weighted average price of \$31.81. Additionally, of those notes that were not canceled and included in the net equity held by RSO are \$26.0 million of notes purchased at a weighted average price of \$32.40 with \$17.6 million that has not been recognized in AFFO as of June 30, 2016.

Subsequent to the closing of the securitization, we purchased notes in RREF CDO 2006-1 at substantial discounts to par and certain of those notes had either been repaid or canceled. Of those repurchased notes that have not been repaid or canceled, cash gains on the extinguishment of debt of \$21.4 million has not been recognized in AFFO prior to liquidation on \$32.4 million of notes purchased at a weighted average price of \$33.85. We then were able to finance a portion of the collateral after liquidation and recorded a cash gain on extinguishment adjustment of \$6.3 million during the three months ended June 30, 2016 and \$15.1 million of cash gains remain.

Distributions

In order to maintain our qualification as a REIT and to minimize corporate-level income tax on our income, we intend to make regular quarterly distributions of all or substantially all of our net REIT taxable income to holders of our common stock. This requirement can impact our liquidity and capital resources.

Edgar Filing: Resource Capital Corp. - Form 10-Q

8.0 % Convertible Notes ⁽⁴⁾	95,955	—	—	95,955	—
Unfunded Commitments on CRE Loans ⁽⁵⁾	78,842	—	78,842	—	—
Revolver Draws Available on Middle Market Loans ⁽⁶⁾	7,079	2,702	3,425	952	—
Base Management Fees ⁽⁷⁾	11,942	11,942	—	—	—
Senior Secured Revolving Credit Facility	144,000	—	144,000	—	—
Pearlmark Mezz IV L.P. ⁽⁹⁾	40,664	—	—	40,664	—
Total	\$1,713,746	\$526,612	\$363,489	\$137,571	\$686,074

(1) Contractual commitments include \$552,000 of interest expense payable through the maturity dates on our repurchase agreements.

(2) Contractual commitments do not include \$29.5 million and \$30.3 million of estimated interest expense payable through the maturity dates of June 2036 and October 2036, respectively, on our trust preferred securities.

(3) Contractual commitments do not include \$17.5 million of interest expense payable through the maturity date of December 1, 2018 on our 6.0% Convertible Senior Notes.

(4) Contractual commitments do not include \$32.5 million of interest expense payable through the maturity date of January 15, 2020 on our 8.0% Convertible Senior Notes.

(5) Unfunded commitments on our originated CRE loans generally fall into two categories: (1) pre-approved capital improvement projects; and (2) new or additional construction costs subject, in each case, to the borrower meeting specified criteria. Upon completion of the improvements or construction, we would receive additional loan interest income on the advanced amount.

(6) The financing or credit agreements on our originated middle market loans, in some cases, allow for subsequent advances. All advances require compliance with the contractual criteria and terms as specifically described in the individual financing or credit agreement, and therefore are subject to the approval of the appropriate portfolio manager. Loans earn income, typically in the form of interest and fees, as specifically outlined in the documentation of each loan.

(7) Calculated only for the next 12 months based on our current equity, as defined in our management agreement. Our management agreement also provides for an incentive fee arrangement that is based on operating performance. Because the incentive fee is not a fixed and determinable amount, it is not included in this table.

(8) Contractual commitments on borrowings are presented net of deferred debt issuance costs.

(9) We have committed to invest up to \$50.0 million in Pearlmark Mezzanine Realty Partners IV, L.P. The commitment termination date ends the earlier of when the original commitment is fully funded, or the fifth anniversary following the final closing date of June 24, 2015.

Off-Balance Sheet Arrangements

General

As of June 30, 2016, we did not maintain any relationships with unconsolidated entities or financial partnerships that were established for the purpose of facilitating off-balance sheet arrangements or contractually narrow or limited purposes, although we do have interests in unconsolidated entities not established for those purposes. Except as set forth below, as of June 30, 2016, we had not guaranteed obligations of any such unconsolidated entities or entered into

any commitment or letter of intent to provide additional funding to any such entities.

Unfunded Commercial Real Estate Loan Commitments

In the ordinary course of business, we make commitments to borrowers whose loans are in our commercial real estate loan portfolio to provide additional loan funding in the future. These commitments generally fall into two categories: (1) pre-approved capital improvement projects; and (2) new or additional construction costs. Disbursement of funds pursuant to these commitments is subject to the borrower meeting pre-specified criteria. Upon disbursement of funds, we receive loan interest income on any such advanced funds. As of June 30, 2016, we had 43 loans with unfunded commitments totaling \$78.8 million, which we intend to fund through principal repayments on other loans in our portfolio and the ability to fund in our newest securitizations within a specified time period and cash flow from normal operating activities. These commitments are subject to the same underwriting requirements and ongoing portfolio maintenance as are the on-balance sheet financial instruments that we hold. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements.

Unfunded Middle Market Loan Commitments

During the year ended December 31, 2013, we began originating middle-market loans through RCC Commercial, Inc. and Resource TRS, LLC. In September 2014, RCC Commercial and Resource TRS, LLC transferred all of the middle-market loans to a newly formed subsidiary of ours, Northport LLC. Resource America is paid origination fees in connection with our middle-market lending operations, and such fees may not exceed 2% of the loan balance for any loan originated. The executed agreements between us and borrowers within our portfolio contain commitments to provide additional loan funding in the future. These commitments generally fall into two categories: (1) revolving credit facility; and (2) unfunded commitments. Disbursement of funds pursuant to these commitments are subject to the borrower meeting pre-specified criteria and in some instances at our discretion. Upon disbursement of funds, we receive loan interest income on any such advanced funds. As of June 30, 2016, we had four loans with unfunded commitments totaling \$7.1 million, all of which would be funded by Northport LLC. On August 1, 2016, we entered into an agreement to sell substantially all of our direct loans in our middle market portfolio. At the time of the sale, there were three loans with unfunded commitments totaling \$4.4 million, of which, we will have a remaining commitment of \$950,000. We intend to fund these commitments through cash flow from normal operating activities. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements.

ITEM 3 . QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of June 30, 2016, the primary component of our market risk was interest rate risk, as described below. While we do not seek to avoid risk completely, we do seek to assume risk that can be quantified from historical experience, to actively manage that risk, to earn sufficient compensation to justify assuming that risk and to maintain capital levels consistent with the risk we undertake or to which we are exposed.

Effect on Fair Value

A component of interest rate risk is the effect changes in interest rates will have on the fair value of our assets. We face the risk that the fair value of our assets will increase or decrease at different rates than that of our liabilities, including our hedging instruments.

We primarily assess our interest rate risk by estimating the duration of our assets and the duration of our liabilities. Duration essentially measures the market price volatility of financial instruments as interest rates change. We generally calculate duration using various financial models and empirical data. Different models and methodologies can produce different duration numbers for the same securities.

[\(Back to Index\)](#)

The following sensitivity analysis tables present, at June 30, 2016 and December 31, 2015, the estimated impact on the fair value of our interest rate-sensitive investments and liabilities of changes in interest rates, assuming rates instantaneously fall 100 basis points and rise 100 basis points (dollars in thousands):

	June 30, 2016		
	Interest rates fall 100 basis points	Unchanged	Interest rates rise 100 basis points
CMBS – private placement ⁽¹⁾ :			
Fair value	\$77,720	\$77,323	\$76,934
Change in fair value	\$397	\$—	\$(389)
Change as a percent of fair value	0.51 %	— %	(0.50)%
	December 31, 2015		
	Interest rates fall 100 basis points	Unchanged	Interest rates rise 100 basis points
CMBS – private placement ⁽¹⁾ :			
Fair value	\$145,175	\$144,178	\$143,201
Change in fair value	\$997	\$—	\$(977)
Change as a percent of fair value	0.69 %	— %	(0.68)%
Hedging instruments:			
Fair value	\$(4,713)	\$(3,459)	\$(1,704)
Change in fair value	\$(1,254)	\$—	\$1,755
Change as a percent of fair value	(36.25)%	— %	50.74 %

(1)Includes the fair value of available-for-sale investments that are sensitive to interest rate change.

For purposes of the table, we have excluded our investments with variable interest rates that are indexed to LIBOR. Because the variable rates on these instruments are short-term in nature, we are not subject to material exposure to movements in fair value as a result of changes in interest rates.

It is important to note that the impact of changing interest rates on fair value can change significantly when interest rates change beyond 100 basis points from current levels. Therefore, the volatility in the fair value of our assets could increase significantly when interest rates change beyond 100 basis points from current levels. In addition, other factors impact the fair value of our interest rate-sensitive investments and hedging instruments, such as the shape of the yield curve, market expectations as to future interest rate changes and other market conditions. Accordingly, in the event of changes in actual interest rates, the change in the fair value of our assets would likely differ from that shown above and such difference might be material and adverse to our stockholders.

Risk Management

To the extent consistent with maintaining our status as a REIT, we seek to manage our interest rate risk exposure to protect our portfolio of fixed-rate commercial real estate mortgages and CMBS and related debt against the effects of major interest rate changes. We generally seek to manage our interest rate risk by:

- monitoring and adjusting, if necessary, the reset index and interest rate related to our mortgage-backed securities and our borrowings;
- attempting to structure our borrowing agreements for our CMBS to have a range of different maturities, terms, amortizations and interest rate adjustment periods; and
- using derivatives, financial futures, swaps, options, caps, floors and forward sales, to adjust the interest rate sensitivity of our fixed-rate commercial real estate mortgages and CMBS and our borrowing which we discuss in “Financial Condition-Hedging Instruments.”

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934 reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision of our Chief Executive Officer and Chief Financial Officer, we have carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three and six months ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

In September 2015, Daren Levin filed a putative class action in the United States District Court for the Southern District of New York on behalf of all persons who purchased our common stock between March 2, 2015 and August 4, 2015. In November 2015, the Court appointed Douglas Drees as the lead plaintiff in the action, and thereafter entered a stipulation and order directing the lead plaintiff to file an amended complaint. In February 2016, the lead plaintiff filed an amended complaint, alleging that we and certain of our officers and directors materially misrepresented certain risks of our commercial loan portfolio and our processes and controls for assessing the quality of our portfolio. Based on these allegations, the amended complaint asserts claims for violation of the securities laws and seeks a variety of relief, including unspecified monetary damages as well as costs and attorneys' fees. We believe the amended complaint is without merit and intend to defend ourselves vigorously. In April 2016, we filed a motion to dismiss the amended complaint, which remains pending.

In December 2015, Josh Reaves filed a shareholder derivative suit in the Supreme Court of New York alleging that our directors and certain officers breached their fiduciary duties by causing us to misrepresent certain risks of our commercial loan portfolio, by failing to employ adequate internal and financial controls, and by failing to disclose the alleged internal control deficiencies. The complaint purports to seek relief on behalf of us for unspecified damages as well as costs and attorneys' fees. We believe that the plaintiff, who failed to make a pre-suit demand on the board of directors, lacks standing to assert claims derivatively on our behalf, and we intend to respond accordingly. In April 2016, the parties entered into a stipulation staying this proceeding until such time as the court has ruled on the pending motion to dismiss the Levin action referenced above or certain other triggering events occur. PCM is a party to various claims and legal proceedings at various times. If PCM believes that a loss arising from any of these matters is probable and can be reasonably estimated, the loss is recorded. Some of these claims may relate to claims for repurchases or indemnifications on loans that PCM has sold to investors. Such claims are included in the reserve for mortgage repurchases and indemnifications. There was no additional accrual for litigation outcomes as of June 30, 2016 or December 31, 2015.

On May 13, 2014, ResCap Liquidating Trust ("ResCap") as successor to Residential Funding Company, LLC ("RFC"), filed an adversary proceeding against PCM in United States Bankruptcy Court of the Southern District of New York. ResCap has sued some 90 sellers of residential mortgage loans for alleged breaches of warranty in various loans sold to RFC. RFC contends that such breaches caused it damages from loan losses and liability to other transferees of the loans. The case remains pending and has been consolidated with other cases for discovery and pre-trial purposes. PCM intends to defend the action vigorously.

Loans on one-to-four family residential mortgages originated by PCM are sold to various financial institutions and governmental entities with representations and warranties that are usual and customary for the industry. In the event of a breach of any of the representations and warranties related to a loan sold, PCM may be required to indemnify the investor against future losses, repurchase the mortgage loan or reimburse the investor for actual losses incurred (referred to as "make whole payments"). The maximum exposure to credit loss in the event of an indemnification or loan repurchase would be the unpaid principal balance of the loan along with any premium paid by the investor when the loan was purchased, accrued but unpaid interest and other minor cost reimbursements. This maximum exposure is at least partially mitigated by the value of the collateral underlying the mortgage loan.

As of June 30, 2016, outstanding demands for indemnification, repurchase or make whole payments totaled approximately \$20.5 million, of which a substantial portion related to loans sold to four investors prior to 2011. Furthermore, a significant portion of these demands are involved in litigation with the investor.

On February 3, 2016, Lehman Brothers Holding, Inc. (“LBHI”) filed an adversary proceeding against PCM in United States Bankruptcy Court of the Southern District of New York. LBHI has sued approximately 145 sellers of residential mortgage loans for alleged breaches of warranty in various loans sold to it. LBHI contends that such breaches caused it damages from loan losses and liability to other transferees of the loans. PCM intends to defend the action vigorously.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On August 3, 2015, our Board of Directors authorized a program to repurchase up to \$50.0 million of its outstanding equity and debt securities. In March 2016, the Company's board of directors approved a new securities repurchase program for up to \$50.0 million of its outstanding securities, which replaced the August 2015 repurchase plan.

The following tables provide information about our common and 8.25% Series B Preferred Stock repurchases made during the six months ended June 30, 2016 in accordance with the previously mentioned stock repurchase program:

Common Stock

Period	Total Number of Shares Purchased	Average Price Paid per Share ⁽¹⁾	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans of Programs
January 2016	196,562	\$ 12.81	196,562	\$21,662,186
February 2016	198,979	\$ 10.08	198,979	\$19,662,182
