Item 1.01 Entry into a Material Definitive Agreement.

Indenture and Registration Rights Agreement

On November 3, 2005, Selective Insurance Group, Inc. (the "Company") completed the offering (the "Offering") of \$100,000,000 aggregate principal amount of its 6.70% Senior Notes due 2035 (the "Notes"). In connection with the Offering, the Company entered into an Indenture and a Registration Rights Agreement, as described in the following paragraphs.

The Notes were issued under an indenture, dated as of November 3, 2005 (the "Indenture"), between the Company and Wachovia Bank, National Association, as

trustee (the "Trustee"). The Indenture and form of note, which is attached as an exhibit to the Indenture, provide, among other things, that the Notes will bear interest of 6.70% per year (payable semi-annually on May 1 and November 1 of each year, beginning on May 1, 2006), and will mature on November 1, 2035. The Notes may not be redeemed at the option of the Company or the holder. The Company is not required to repurchase, redeem or modify the terms of any of the Notes upon a change of control or other event involving the Company, which may adversely affect the value of the Notes. Except for certain limitations on liens on stock of restricted subsidiaries and on disposition of stock of restricted subsidiaries, the Indenture does not contain any provisions restricting the Company or any of its subsidiaries from incurring, assuming or becoming liable with respect to any indebtedness or other obligations, whether secured or unsecured, or any financial covenants or provisions restricting the Company or its subsidiaries from paying dividends or making other distributions on capital stock or from purchasing or redeeming capital stock. The Company and its restricted subsidiaries may not incur any indebtedness secured by a lien on the capital stock of a restricted subsidiary unless the Notes are secured equally and ratably with such indebtedness.

The Indenture provides that each of the following is an event of default: (1) default in the payment of any interest on any Note for 30 days after becoming due; (2) default in the payment of the principal of any Note when due; (3) default in the performance of, or breach of, any covenant or warranty applicable to the Notes for 60 days after written notice of the failure, requiring the Company to remedy the same, is given to the Company by the Trustee or to the Company and the Trustee by the holders of 25% in aggregate principal amount of outstanding Notes; (4) default under any bond, debenture, note or other evidence of indebtedness or any mortgages, indentures or instruments under which the Company then has outstanding indebtedness in an aggregate amount of \$10 million or more that has not already matured in accordance with its terms, has become due after the expiration of any applicable grace period or has been accelerated and the acceleration has not been rescinded or annulled or the indebtedness has not been discharged within ten days after notice is given to the Company by the Trustee or to the Company and the Trustee by the holders of at least 25% in aggregate principal amount of the outstanding Notes; or (5) certain events of bankruptcy, insolvency or reorganization occur. If an event of default occurs and is continuing, either the Trustee or the holders of at least 25% in principal amount of the outstanding Notes may declare the entire principal amount of all the Notes to be immediately due and payable.

In connection with the completion of the Offering, the Company entered into a registration rights agreement (the "Registration Rights Agreement"), dated as of November 3, 2005, with Keefe, Bruyette & Woods, Inc., the initial purchaser of the Notes. Under the terms of the Registration

Rights Agreement, the Company agrees to register notes having substantially identical terms as the Notes with the Securities and Exchange Commission as part of an offer to exchange freely tradeable exchange notes (the "Exchange Notes") for the Notes. The Company has agreed to file a registration statement for the Exchange Notes within 120 days from November 3, 2005, to use its reasonable best efforts to cause such registration statement to be declared effective within 180 days from November 3, 2005, and to consummate an exchange offer within 45 days of the registration statement being declared effective. Under certain circumstances, the Company will be obligated to file a shelf registration statement with respect to the Notes. Under the Registration Rights Agreement, if the Company fails to satisfy certain filing and other obligations with respect to the exchange, the Company will be obligated to pay additional interest on the Notes at a rate per year equal to 0.25% for the first 90-day

period after such registration default occurs (from and including the date on which any such registration default occurs to but excluding the date on which all such registration defaults have ceased to be continuing) and 0.50% thereafter of the applicable principal amount of the Notes.

The description set forth above is qualified in its entirety by the Indenture, a copy of which is attached hereto as Exhibit 4.1, and the Registration Rights Agreement, a copy of which is attached hereto as Exhibit 4.2.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.
