Appendix A

Use of Non-GAAP Financial Measures

The Press Release and the financial schedules attached thereto include financial measures and terms not calculated in accordance with generally accepted accounting principles in the United States (GAAP). We believe that presentation of non-GAAP measures such as adjusted net (loss) income, adjusted net (loss) income per pro forma share, EBITDA and adjusted EBITDA provides investors and analysts with an alternative method for assessing our operating results in a manner that enables investors and analysts to more thoroughly evaluate our current performance compared to past performance. We also believe these non-GAAP measures provide investors with a better baseline for assessing our future earnings potential. The non-GAAP measures included in this release are provided to give investors access to the types of measures that we use in analyzing our results.

Adjusted net (loss) income consists of GAAP net (loss) income adjusted for the items included in the accompanying reconciliation. Adjusted net (loss) income per pro forma share consists of GAAP net (loss) income per share adjusted for the items included in the accompanying reconciliation. We believe these measures enable investors and analysts to more thoroughly evaluate our current performance as compared to past performance and provide a better baseline for assessing the company s future earnings potential. However, these measures do not provide a complete picture of our operations. Therefore, net (loss) income and net (loss) income per share, on a GAAP basis, may need to be considered to get a comprehensive view of our results.

Edgar Filing: PGT, Inc. - Form 8-K

EBITDA consists of GAAP net (loss) income adjusted for the items included in the accompanying reconciliation. Adjusted EBITDA consists of EBITDA adjusted for the items included in the accompanying reconciliation. We believe that EBITDA and adjusted EBITDA provide useful information to investors and analysts about the company s performance because they eliminate the effects of period to period changes in taxes, costs associated with capital investments and interest expense. EBITDA and adjusted EBITDA do not give effect to the cash the company must use to service its debt or pay its income taxes and thus do not reflect the funds generated from operations or actually available for capital investments.

Our calculations of adjusted net (loss) income, adjusted net (loss) income per pro forma share, EBITDA and adjusted EBITDA are not necessarily comparable to calculations performed by other companies and reported as similarly titled measures. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP measures. Schedules that reconcile adjusted net (loss) income, adjusted net (loss) income per pro forma share, EBITDA and adjusted EBITDA to GAAP net (loss) income are included in the financial schedules accompanying this release.
