CLEAR CHANNEL OUTDOOR HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

NOTE 1 – BASIS OF PRESENTATION

Preparation of Interim Financial Statements

The accompanying consolidated financial statements were prepared by Clear Channel Outdoor Holdings, Inc. (the "Company") pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and, in the opinion of management, include all normal and recurring adjustments necessary to present fairly the results of the interim periods shown. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to such SEC rules and regulations. Management believes that the disclosures made are adequate to make the information presented not misleading. Due to seasonality and other factors, the results for the interim periods may not be indicative of results for the full year. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2015 Annual Report on Form 10-K. All references in this Quarterly Report on Form 10-Q to "we," "us" and "our" refer to the Company and its consolidated subsidiaries. Our reportable segments are Americas outdoor advertising ("Americas") and International outdoor advertising ("International").

The consolidated financial statements include the accounts of the Company and its subsidiaries and give effect to allocations of expenses from the Company's indirect parent entity, iHeartCommunications, Inc. ("iHeartCommunications"). These allocations were made on a specifically identifiable basis or using relative percentages of headcount or other methods management considered to be a reasonable reflection of the utilization of services provided. Also included in the consolidated financial statements are entities for which the Company has a controlling financial interest or is the primary beneficiary. Investments in companies in which the Company owns 20% to 50% of the voting common stock or otherwise exercises significant influence over operating and financial policies of the company are accounted for under the equity method. All significant intercompany transactions are eliminated in the consolidation process. Certain prior-period amounts have been reclassified to conform to the 2016 presentation.

New Accounting Pronouncements

During the first quarter of 2015, the FASB issued ASU No. 2015-02, Consolidation (Topic 810), Amendments to the Consolidation Analysis. This new standard eliminates the deferral of FAS 167, which has allowed entities with interest in certain investment funds to follow the previous consolidation guidance in FIN 46(R) and makes other changes to both the variable interest model and the voting model. The standard is effective for annual periods, and for interim periods within those annual periods, beginning after December 15, 2015. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

During the second quarter of 2015, the FASB issued ASU No. 2015-03, *Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. This update simplifies the presentation of debt issuance costs as a deduction from the carrying value of the outstanding debt balance rather than showing the debt issuance costs as an asset. The standard is effective for annual periods, and for interim periods within those annual periods, beginning after December 15, 2015. The retrospective adoption of this guidance resulted in the reclassification of debt issuance costs of \$48.2 million and \$50.4 million as of March 31, 2016 and December 31, 2015, respectively, which are now reflected as "Long-term debt fees" in Note 3.

During the third quarter of 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date.* This update provides a one-year deferral of the effective date for ASU No. 2014-09, *Revenue from Contracts with Customers.* ASU No. 2014-09 provides guidance for the recognition, measurement and disclosure of revenue resulting from contracts with customers and will supersede virtually all of the current revenue recognition guidance under U.S. GAAP. The standard is effective for the first interim period within annual reporting periods beginning after December 15, 2017. The Company is currently evaluating the impact of the provisions of this new standard on its financial position and results of operations.

During the third quarter of 2015, the FASB issued ASU No. 2015-16, *Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments*. This update eliminates the requirement for an acquirer in a business combination to account for measurement-period adjustments retrospectively. Instead, acquirers must recognize measurement-period adjustments during the period in which they determine the amounts, including the effect on earnings of any amounts they would have recorded in previous periods if the accounting had been completed at the acquisition date. The standard is effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

During the first quarter of 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The new leasing standard presents significant changes to the balance sheets of lessees. Lessor accounting is updated to align with certain changes in the lessee model and the new revenue recognition standard which was issued in the third quarter of 2015. The standard is effective for annual periods, and

4

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

for interim periods within those annual periods, beginning after December 15, 2018. The Company is currently evaluating the impact of the provisions of this new standard on its financial position and results of operations.

NOTE 2 - PROPERTY, PLANT AND EQUIPMENT, INTANGIBLE ASSETS AND GOODWILL

Dispositions

During the first quarter of 2016, Americas outdoor sold nine non-strategic outdoor markets including Cleveland and Columbus, Ohio, Des Moines, Iowa, Ft. Smith, Arkansas, Memphis, Tennessee, Portland, Oregon, Reno, Nevada, Seattle, Washington and Wichita, Kansas for net proceeds, including cash and certain advertising assets in Florida, of \$596.6 million. The Company recognized a net gain of \$281.7 million related to the sale, which is included within Other operating income (expense), net.

During the first quarter of 2016, Americas outdoor also entered into an agreement to sell its Indianapolis, Indiana market in exchange for certain assets in Atlanta, Georgia, plus approximately \$41.2 million in cash. The transaction is subject to regulatory approvals and is expected to close in 2016. This transaction has met the criteria to be classified as held-for-sale and as such, the related assets are separately presented on the face of the Consolidated Balance Sheet.

Property, Plant and Equipment

The Company's property, plant and equipment consisted of the following classes of assets as of March 31, 2016 and December 31, 2015, respectively.

(In thousands)	Ma	rch 31,	December 31,		
		2016	2015

Less: accumulated depreciation		1,596,974		1,575,294	
Property, plant and equipment, net	\$	1,578,095	\$	1,627,986	

Intangible Assets

The Company's indefinite-lived intangible assets consist primarily of billboard permits. Due to significant differences in both business practices and regulations, billboards in the International segment are subject to long-term, finite contracts unlike the Company's permits in the United States and Canada. Accordingly, there are no indefinite-lived intangible assets in the International segment.

Other intangible assets include definite-lived intangible assets and permanent easements. The Company's definite-lived intangible assets primarily include transit and street furniture contracts, site-leases and other contractual rights, all of which are amortized over the shorter of either the respective lives of the agreements or over the period of time the assets are expected to contribute directly or indirectly to the Company's future cash flows. Permanent easements are indefinite-lived intangible assets which include certain rights to use real property not owned by the Company. The Company periodically reviews the appropriateness of the amortization periods related to its definite-lived intangible assets. These assets are recorded at cost.

The Senior revolving credit facility provides for borrowings up to \$75.0 million (the revolving credit commitment).

The aggregate market value of the Company's debt based on market prices for which quotes were available was approximately \$4.8 billion and \$4.9 billion at March 31, 2016 and December 31, 2015, respectively. Under the fair value hierarchy established by ASC 820-10-35, the market value of the Company's debt is classified as Level 1.

Surety Bonds, Letters of Credit and Guarantees

As of March 31, 2016, the Company had \$50.1 million and \$59.3 million in letters of credit and bank guarantees outstanding, respectively. Bank guarantees of \$24.1 million were backed by cash collateral. Additionally, as of March 31, 2016, iHeartCommunications had outstanding commercial standby letters of credit and surety bonds of \$1.2 million and \$56.5 million, respectively, held on behalf of the Company. These surety bonds, letters of credit and bank guarantees relate to various operational matters, including insurance, bid and performance bonds, as well as other items.

NOTE 4 – COMMITMENTS AND CONTINGENCIES

The Company and its subsidiaries are involved in certain legal proceedings arising in the ordinary course of business and, as required, have accrued an estimate of the probable costs for the resolution of those claims for which the occurrence of loss is probable and the amount can be reasonably estimated. These estimates have been developed in consultation with counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular period could be materially affected by changes in the Company's assumptions or the effectiveness of its strategies related to these proceedings. Additionally, due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on the Company's financial condition or results of operations.

Although the Company is involved in a variety of legal proceedings in the ordinary course of business, a large portion of the Company's litigation arises in the following contexts: commercial disputes; misappropriation of likeness and right of publicity claims; employment and benefits related claims; governmental fines; intellectual property claims; and tax disputes.

International Outdoor Investigation

On April 21, 2015, inspections were conducted at the premises of Clear Channel in Denmark and Sweden as part of an investigation by Danish competition authorities. Additionally, on the same day, Clear Channel UK received a communication from the UK competition authorities, also in connection with the investigation by Danish competition authorities. Clear Channel and its affiliates

NOTE 5 — RELATED PARTY TRANSACTIONS

The Company records net amounts due from or to iHeartCommunications as "Due from/to iHeartCommunications" on the consolidated balance sheets. The accounts represent the revolving promissory note issued by the Company to iHeartCommunications and the revolving promissory note issued by iHeartCommunications to the Company in the face amount of \$1.0 billion, or if more or less than such amount, the aggregate unpaid principal amount of all advances. The accounts accrue interest pursuant to the terms of the promissory notes and are generally payable on demand or when they mature on December 15, 2017.

Included in the accounts are the net activities resulting from day-to-day cash management services provided by iHeartCommunications. As a part of these services, the Company maintains collection bank accounts swept daily into accounts of iHeartCommunications (after satisfying the funding requirements of the Trustee Accounts under the CCWH Senior Notes and the CCWH Subordinated Notes). In return, iHeartCommunications funds the Company's controlled disbursement accounts as checks or electronic payments are presented for payment. The Company's claim in relation to cash transferred from its concentration account is on an unsecured basis and is limited to the balance of the "Due from iHeartCommunications" account.

As of March 31, 2016 and December 31, 2015, the asset recorded in "Due from iHeartCommunications" on the consolidated balance sheet was \$640.1 million and \$930.8 million, respectively. As of March 31, 2016, the fixed interest rate on the "Due from iHeartCommunications" account was 6.5%, which is equal to the fixed interest rate on the CCWH Senior Notes. The net interest income for the three months ended March 31, 2016 and 2015 was \$12.7 million and \$15.3 million, respectively. On February 4, the Company demanded the repayment of \$300.0 million outstanding under the Due from iHeartCommunications note and used the repayment to partially fund a special cash dividend of \$540.0 million, which was paid on February 4, 2016.

The Company provides advertising space on its billboards for radio stations owned by iHeartCommunications. For the three months ended March 31, 2016 and 2015, the Company recorded \$0.3 million and \$1.1 million, respectively, in revenue for these advertisements.

Under the Corporate Services Agreement between iHeartCommunications and the Company, iHeartCommunications provides management services to the Company, which include, among other things: (i) treasury, payroll and other

financial related services; (ii) certain executive officer services; (iii) human resources and employee benefits services; (iv) legal and related services; (v) information systems, network and related services; (vi) investment services; (vii) procurement and sourcing support services; and (viii) other general corporate services. These services are charged to the Company based on actual direct costs incurred or allocated by iHeartCommunications based on headcount, revenue or other factors on a pro rata basis. For the three months ended March 31, 2016 and 2015, the Company recorded \$9.3 million and \$7.9 million, respectively, as a component of corporate expenses for these services.

Pursuant to the Tax Matters Agreement between iHeartCommunications and the Company, the operations of the Company are included in a consolidated federal income tax return filed by iHeartCommunications. The Company's provision for income taxes has been computed on the basis that the Company files separate consolidated federal income tax returns with its subsidiaries. Tax payments are made to iHeartCommunications on the basis of the Company's separate taxable income. Tax benefits recognized on the Company's employee stock option exercises are retained by the Company.

The Company computes its deferred income tax provision using the liability method in accordance with the provisions of ASC 740-10, as if the Company was a separate taxpayer. Deferred tax assets and liabilities are determined based on differences between financial reporting basis and tax basis of assets and liabilities and are measured using the enacted tax rates expected to apply to taxable income in the periods in which the deferred tax asset or liability is expected to be realized or settled. Deferred tax assets are reduced by valuation allowances if the Company believes it is more likely than not some portion or all of the asset will not be realized.

Pursuant to the Employee Matters Agreement, the Company's employees participate in iHeartCommunications' employee benefit plans, including employee medical insurance and a 401(k) retirement benefit plan. For the three months ended March 31, 2016 and 2015, the Company recorded \$2.3 million and \$2.7 million, respectively, as a component of selling, general and administrative expenses for these services.

NOTE 6 – INCOME TAXES Income Tax Benefit (Expense)

The Company's income tax benefit (expense) for the three months ended March 31, 2016 and 2015, respectively, consisted of the following components:

(In thousands)	Three Months I	Ended March 31,
	2016	2015
Current tax benefit (expense)	\$ (10,263)	\$ 28,836
Deferred tax expense	(52,649)	(4,737)
Income tax benefit (expense)	\$ (62,912)	\$ 24,099

The effective tax rate for the three months ended March 31, 2016 was 30.8%. The effective rate was primarily impacted by the reversal of the valuation allowance recorded in 2015 against net operating losses in U.S. federal and state jurisdictions due to taxable gains from the dispositions of nine outdoor markets during the period. Additionally, we were unable to benefit from losses in certain foreign jurisdictions due to the uncertainty of the ability to utilize those losses in future periods.

The effective tax rate for the three months ended March 31, 2015 was 42.2%. The effective rate was primarily impacted by the uncertainty of the ability to recognize the future benefit of certain deferred tax assets that consists of current period net operating losses in U.S. federal, state and certain foreign jurisdictions. The Company has recorded a valuation allowance against these deferred tax assets as the reversing deferred tax liabilities and other sources of taxable income that may be available to realize the deferred tax assets were exceeded by deferred tax assets recognized on the additional net operating losses incurred in the current period.

NOTE 9 – SEGMENT DATA

The Company has two reportable segments, which it believes best reflect how the Company is currently managed – Americas and International. The Americas segment consists of operations primarily in the United States, Canada and Latin America and the International segment primarily includes operations in Europe, Asia and Australia. The Americas and International display inventory consists primarily of billboards, street furniture displays and transit displays. Corporate includes infrastructure and support including information technology, human resources, legal, finance and administrative functions of each of the Company's reportable segments, as well as overall executive, administrative and support functions. Share-based payments are recorded in corporate expenses.

The following table presents the Company's reportable segment results for the three months ended March 31, 2016 and 2015:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Format of Presentation

Management's discussion and analysis of our financial condition and results of operations ("MD&A") should be read in conjunction with the consolidated financial statements and related footnotes. Our discussion is presented on both a consolidated and segment basis. All references in this Quarterly Report on Form 10-Q to "we," "us" and "our" refer to Clear Channel Outdoor Holdings, Inc. and its consolidated subsidiaries. Our reportable segments are Americas outdoor advertising ("Americas") and International outdoor advertising ("International"). Our Americas and International segments provide outdoor advertising services in their respective geographic regions using various digital and traditional display types. Certain prior period amounts have been reclassified to conform to the 2016 presentation.

We manage our operating segments primarily focusing on their operating income, while Corporate expenses, Other operating income (expense), net, Interest expense, Interest income on the Revolving Promissory Note issued by iHeartCommunications to the Company (the "Due from iHeartCommunications Note"), Equity in earnings (loss) of nonconsolidated affiliates, Other income, net and Income tax benefit (expense) are managed on a total company basis and are, therefore, included only in our discussion of consolidated results.

Management typically monitors our businesses by reviewing the average rates, average revenue per display, occupancy and inventory levels of each of our display types by market. Our advertising revenue is derived from selling advertising space on the displays we own or operate in key markets worldwide, consisting primarily of billboards, street furniture and transit displays. Part of our long-term strategy is to pursue the technology of digital displays, including flat screens, LCDs and LEDs, as additions to traditional methods of displaying our clients' advertisements. We are currently installing these technologies in certain markets, both domestically and internationally.

Advertising revenue for our segments is highly correlated to changes in gross domestic product ("GDP") as advertising spending has historically trended in line with GDP, both domestically and internationally. Internationally, our results are impacted by fluctuations in foreign currency exchange rates as well as economic conditions in the foreign markets in which we have operations.

Executive Summary

The key developments in our business for the three months ended March 31, 2016 are summarized below:

• Consolidated revenue decreased \$24.3 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding a \$15.1 million impact from movements in foreign exchange rates, consolidated revenue decreased \$9.2 million during the three months ended March 31, 2016 compared to the same period of 2015.

- We sold our business in nine non-strategic U.S. outdoor markets for net proceeds of \$596.6 million in cash and certain advertising assets in Florida. These markets generated revenue of \$2.5 million in the three months ended March 31, 2016, and \$22.3 million in the three months ended March 31, 2015. We recognized a net gain of \$281.7 million related to the sales.
- We spent \$2.3 million on strategic revenue and efficiency initiatives during 2016 to realign and improve our on-going business operations—a decrease of \$1.4 million compared to 2015.

Revenues and expenses "excluding the impact of foreign exchange movements" in this Management's Discussion & Analysis of Financial Condition and Results of Operations is presented because management believes that viewing certain financial results without the impact of fluctuations in foreign currency rates facilitates period to period comparisons of business performance and provides useful information to investors. Revenues and expenses "excluding the impact of foreign exchange movements" are calculated by converting the current period's revenues and expenses in local currency to U.S. dollars using average foreign exchange rates for the prior period.

Consolidated Revenue

Consolidated revenue decreased \$24.3 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding a \$15.1 million impact from movements in foreign exchange rates, consolidated revenue decreased \$9.2 million during the three months ended March 31, 2016 compared to the same period of 2015. Primarily due to the \$19.8 million impact of the sale of nine non-strategic U.S. markets in the first quarter of 2016, Americas revenue decreased \$13.3 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding the \$5.0 million impact from movements in foreign exchange rates, Americas revenue decreased \$8.3 million during the three months ended March 31, 2016 compared to the same period of 2015. International revenue decreased \$11.0 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding the \$10.1 million impact from movements in foreign exchange rates, International revenue decreased \$0.9 million during the three months ended March 31, 2016 compared to the same period of 2015. Revenue growth in certain countries including Australia, China and France was offset by decreases in other countries including the United Kingdom and Switzerland.

Consolidated Direct Operating Expenses

Consolidated direct operating expenses decreased \$19.3 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding a \$10.4 million impact from movements in foreign exchange rates, consolidated direct operating expenses decreased \$8.9 million during the three months ended March 31, 2016 compared to the same period of 2015. Americas direct operating expenses decreased \$8.2 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding the \$2.6 million during the three months ended March 31, 2016 compared to the same period of 2015 primarily driven by a \$7.7 million decrease in direct expenses resulting from the sale of the nine non-strategic markets at the beginning of the year, partially offset by higher variable site lease expenses related to the increase in revenues from remaining markets. International direct operating expenses decreased \$11.1 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding the \$7.8 million impact from movements in foreign exchange rates, International direct operating expenses decreased \$3.3 million during the three months ended March 31, 2016 compared to the same period of 2015 primarily as a result of lower rent expense due to lower revenue in the United Kingdom, partially offset by higher variable site lease and maintenance expenses in countries experiencing revenue growth.

19

Consolidated Selling, General and Administrative ("SG&A") Expenses

Consolidated SG&A expenses decreased \$0.3 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding a \$3.8 million impact from movements in foreign exchange rates, consolidated SG&A expenses increased \$3.5 million during the three months ended March 31, 2016 compared to the same period of 2015. Americas SG&A expenses decreased \$0.3 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding the \$1.3 million impact from movements in foreign exchange rates, Americas SG&A expenses increased \$1.0 million, net of a \$4.5 million decrease in expenses resulting from the sale of the nine non-strategic markets at the beginning of the year, during the three months ended March 31, 2016 compared to the same period of 2015 primarily due to higher variable compensation expense related to higher revenues, and higher expenses in Latin America. International SG&A expenses were flat during the three months ended March 31, 2016 compared to the same period of 2015. Excluding the \$2.6 million impact from movements in foreign exchange rates, International SG&A expenses increased \$2.6 million during the three months ended March 31, 2016 compared to the same period of 2015 primarily due to increased expenses in the United Kingdom.

Corporate Expenses

Corporate expenses decreased \$0.5 million during the three months ended March 31, 2016 compared to the same period of 2015. Excluding the \$0.4 million impact from movements in foreign exchange rates, corporate expenses decreased \$0.1 million during the three months ended March 31, 2016 compared to the same period of 2015.

Revenue and Efficiency Initiatives

Included in the amounts for direct operating expenses, SG&A and corporate expenses discussed above are expenses of \$2.3 million incurred in connection with our strategic revenue and efficiency initiatives during the three months ended March 31, 2016. The costs were incurred to improve revenue growth, enhance yield, reduce costs and organize each business to maximize performance and profitability. These costs consist primarily of severance related to workforce initiatives, consolidation of locations and positions, consulting expenses and other costs incurred in connection with streamlining our businesses. These costs are expected to provide benefits in future periods as the initiative results are realized. Of these costs during the first quarter of 2016, \$0.7 million are reported within direct operating expenses, \$1.3 million are reported within SG&A and \$0.3 million are reported within corporate expense. In the first quarter of 2015, such costs totaled \$0.4 million, \$0.8 million and \$2.5 million, respectively.

Depreciation and Amortization

Depreciation and amortization decreased \$8.7 million during the three months ended March 31, 2016 compared to the same period in 2015 primarily due to assets becoming fully depreciated or fully amortized and the sale of the non-strategic outdoor markets, as well as the impact of movements in foreign exchange rates.

Other operating income (loss), net

Other operating income was \$284.8 million for the three months ended March 31, 2016, which primarily related to the sale of nine non-strategic outdoor markets at the beginning of the year. In the first quarter of 2016, Americas outdoor sold nine non-strategic outdoor markets including Cleveland and Columbus, Ohio, Des Moines, Iowa, Ft. Smith, Arkansas, Memphis, Tennessee, Portland, Oregon, Reno, Nevada, Seattle, Washington and Wichita, Kansas for net proceeds of \$596.6 million in cash and certain advertising assets in Florida. The Company recognized a net gain of \$281.7 million. These markets generated revenue of \$2.5 million in the three months ended March 31, 2016 and \$22.3 million in the three months ended March 31, 2015.

Other operating expense was \$5.4 million for the three months ended March 31, 2015, which primarily related to acquisition/disposition transaction costs.

Interest Income on Due from iHeartCommunications

Interest income decreased \$2.5 million during the three months ended March 31, 2016 compared to the same period of 2015 due to a lower average outstanding balance as a result of the \$300.0 million demand and repayment under the Due from iHeartCommunications note in February 2016.

Other income, net

Other income of \$5.8 million for the first quarter of 2016 primarily related to foreign exchange gains on short-term intercompany accounts.

20

Other income of \$19.9 million for the first quarter of 2015 primarily related to foreign exchange gains on short-term intercompany accounts.

Income tax expense

Our operations are included in a consolidated income tax return filed by iHeartMedia. However, for our financial statements, our provision for income taxes was computed as if we file separate consolidated federal income tax returns with our subsidiaries.

The effective tax rate for the three months ended March 31, 2016 was 30.8%, and was primarily impacted by the reversal of the valuation allowance recorded in 2015 against net operating losses in U.S. federal and state jurisdictions due to taxable gains from the dispositions of nine outdoor markets during the period. In addition, we were unable to record benefits on losses in certain foreign jurisdictions due to the uncertainty of the ability to utilize those losses in future periods.

The effective tax rate for the three months ended March 31, 2015 was 42.2%, and was primarily impacted by the valuation allowance recorded against current period net operating losses in U.S. federal, state and certain foreign jurisdiction due to the uncertainty of the ability to utilize those assets in future periods. In addition, the current tax benefit for the three months ended March 31, 2015 was the result of applying the estimated annual effective tax rate for the year to the pre-tax losses incurred during the period.
