ACT OF 1934**

For the quarterly period ended September 30, 2015

Or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934**

Commission file number 001-34942

Inphi Corporation

(Exact Name of Registrant as Specified in Its Charter)

Delaware **77-0557980**
*(State or Other Jurisdiction (I.R.S. Employer
of Incorporation or Organization) Identification No.)*

2953 Bunker Hill Lane, Suite 300,

Santa Clara, California 95054

(Address of Principal Executive Offices) (Zip Code)

Registrant's telephone number, including area code:(408) 217-7300

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Edgar Filing: INPHI Corp - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in 12b-2 of the Exchange Act). Yes
No

The total number of shares outstanding of the Registrant's common stock, \$0.001 par value per share, as of November 2, 2015 was 39,241,007.

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

1. Organization and Basis of Presentation

Inphi Corporation (the “Company”), a Delaware corporation, was incorporated in November 2000. The Company is a fabless provider of high-speed analog and mixed signal semiconductor solutions for the communications, data center and computing markets. The Company’s semiconductor solutions are designed to address bandwidth bottlenecks in networks, maximize throughput and minimize latency in computing environments and enable the rollout of next generation communications, data center and computing infrastructures. In addition, the semiconductor solutions provide a vital high-speed interface between analog signals and digital information in high-performance systems such as telecommunications transport systems, enterprise networking equipment, data center and enterprise servers, storage platforms, test and measurement equipment and military systems.

On October 3, 2014, the Company completed the acquisition of Cortina Systems, Inc. including its high-speed interconnect and optical transport product lines (“Cortina”) for approximately \$52,509 in cash and approximately 5.3 million shares of the Company’s common stock in accordance with the Agreement and Plan of Merger dated July 30, 2014 as amended by Amendment No. 1 to the Agreement and Plan of Merger dated September 25, 2014. The revenue and expenses of Cortina are included in the consolidated statement of income for the three and nine months ended September 30, 2015.

The interim unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”), for interim financial information and with the instructions to Securities and Exchange Commission (“SEC”), Form 10-Q and Article 10 of SEC Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements. Therefore, these financial statements should be read in conjunction with the Company’s audited consolidated financial statements and notes thereto for the year ended December 31, 2014, included in the Company’s Annual Report on Form 10-K filed with the SEC on March 10, 2015.

The interim condensed consolidated financial statements included herein are unaudited; however, they contain all normal recurring accruals and adjustments that, in the opinion of management, are necessary to state fairly the Company’s consolidated financial position at September 30, 2015, and its consolidated results of operations for the

three and nine months ended September 30, 2015 and 2014 and cash flows for the nine months ended September 30, 2015 and 2014. The results of operations for the three and nine months ended September 30, 2015 are not necessarily indicative of the results to be expected for future quarters or the full year.

2. Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (“FASB”) issued guidance applying to inventory measured using any other method other than last-in, last-out method. Under this guidance inventory is measured at the lower of cost and net realizable value. The net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The guidance is applied prospectively and is effective for the Company beginning January 1, 2017. Early adoption is permitted. The adoption of this standard is not expected to have a material impact on the Company’s consolidated financial statements and related disclosures.

In November 2014, the FASB issued authoritative guidance that provides guidance on whether and at what threshold an acquired business or not-for-profit organization can apply pushdown accounting. This guidance provides an option to apply pushdown accounting in the separate financial statements of an acquired entity upon the occurrence of an event in which an acquirer obtains control of the acquired entity. The guidance became effective on November 18, 2014. After the effective date, an acquired entity can make an election to apply the guidance to future change-in-control events or to its most recent change-in-control event. However, if the financial statements for the period in which the most recent change-in-control event occurred already have been issued or made available to be issued, the application of this guidance would be a change in accounting principle. The adoption of this guidance did not impact the consolidated financial statements.

In May 2014, the FASB issued guidance on “Revenue from Contracts with Customers.” The new revenue recognition guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. The guidance requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The new guidance was initially effective for the Company on January 1, 2017. The new guidance permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that the new revenue recognition guidance will have on the consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor determined the effect of the standard on the ongoing financial reporting. In July 2015, the FASB voted to defer the effective date of the new revenue recognition standard by one year. The guidance may be adopted as early as January 1, 2017, the effective date of the original guidance.

(Dollars in thousands except share and per share amounts)

3. Investments

The following table summarizes the investments by investment category:

	September 30, 2015		December 31, 2014	
	Cost	Fair Value	Cost	Fair Value
Available-for-sale securities:				
U.S. treasury securities	\$—	\$—	\$2,056	\$2,057
Municipal bonds	20,319	20,342	19,686	19,712
Corporate notes/bonds	13,956	13,955	16,381	16,392
Asset backed securities	2,000	2,005	750	747
Commercial paper	638	638	—	—
Total investments	\$36,913	\$36,940	\$38,873	\$38,908

As of September 30, 2015, the Company had 13 investments that were in an unrealized loss position. The gross unrealized losses on these investments at September 30, 2015 of \$27 were determined to be temporary in nature. The Company reviews the investments to identify and evaluate investments that have an indication of possible other-than-temporary impairment. Factors considered in determining whether a loss is other-than-temporary include the length of time and extent to which fair value has been less than the cost basis, the financial condition and near-term prospects of the investee, and the intent and ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in market value.

The realized gain related to the Company's available-for-sale investment which was reclassified from other comprehensive income was included in other income in the condensed consolidated statements of income.

The contractual maturities of available-for-sale securities at September 30, 2015 are presented in the following table:

	Cost	Fair Value
Due in one year or less	\$19,504	\$19,528
Due between one and five years	17,409	17,412
	\$36,913	\$36,940

4. Inventories

Inventories consist of the following:

	September 30, 2015	December 31, 2014
Raw materials	\$ 4,099	\$ 5,803
Work in process	3,837	2,409
Finished goods	12,891	18,438
	\$ 20,827	\$ 26,650

Finished goods held by distributors were \$2,397 and \$2,798 as of September 30, 2015 and December 31, 2014, respectively.

Table Of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements**

(Dollars in thousands except share and per share amounts)

5. Property and Equipment, net

Property and equipment consist of the following:

	September 30,	December 31,
	2015	2014
Laboratory and production equipment	\$ 55,002	\$ 48,522
Office, software and computer equipment	18,032	15,855
Furniture and fixtures	1,230	1,762
Leasehold improvements	5,879	5,212
	80,143	71,351
Less accumulated depreciation	(45,660)	(35,853)
	\$ 34,483	\$ 35,498

Depreciation and amortization expense of property and equipment for the three and nine months ended September 30, 2015 was \$3,956 and \$10,505, respectively. Depreciation and amortization expense of property and equipment for the three and nine months ended September 30, 2014 was \$2,962 and \$7,891, respectively.

As of September 30, 2015 and December 31, 2014, computer software costs included in property and equipment were \$5,803 and \$4,582, respectively. Amortization expense of capitalized computer software costs was \$264 and \$746 for the three and nine months ended September 30, 2015, respectively. Amortization expense of capitalized computer software costs was \$149 and \$385 for the three and nine months ended September 30, 2014, respectively.

Property and equipment not paid as of September 30, 2015 and 2014 were \$610 and \$6,149, respectively.

6. Identifiable Intangible Assets

The following table presents details of identifiable intangible assets:

	September 30, 2015			December 31, 2014		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Developed technology	\$71,570	\$ 11,481	\$60,089	\$71,570	\$ 2,857	\$68,713
Customer relationships	8,170	814	7,356	8,170	201	7,969
Trade name	920	184	736	920	46	874
Patents	1,579	291	1,288	1,579	112	1,467
In-process research and development	—	—	—	1,750	—	1,750
	\$82,239	\$ 12,770	\$69,469	\$83,989	\$ 3,216	\$80,773

The following table presents amortization of intangible assets for the three and nine months ended September 30, 2015:

	Three months ended	Nine months ended
	September 30, 2015	September 30, 2015
Cost of goods sold	\$ 2,875	\$ 8,624
Sales and marketing	204	613
General and administrative	104	317
	\$ 3,183	\$ 9,554

Table Of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)**

In the nine months ended September 30, 2015, the Company abandoned the project related to in-process research and development and recorded an impairment charge of \$1,750 included in the research and development expenses in the condensed consolidated statements of income.

Based on the amount of intangible assets subject to amortization at September 30, 2015, the expected amortization expense for each of the next five fiscal years and thereafter is as follows:

2015 (remainder)	\$3,180
2016	12,707
2017	12,682
2018	12,648
2019	11,078
Thereafter	17,174
	\$69,469

The weighted-average amortization periods remaining by intangible asset category are as follows (in years):

Developed technology	5.56
Customer relationship	9.00
Others	9.66

7. Product Warranty Obligation

As of September 30, 2015 and December 31, 2014, the Company's product warranty liability was \$110. There was no movement in product warranty liability during the three and nine months ended September 30, 2015 and 2014.

On November 3, 2014, the Company received a claim notification from an insurance company asserting a claim of approximately \$4,000 for field installation repair and replacement costs incurred by a customer in 2011. The Company believes that it had fulfilled its contractual obligation to provide warranty repair and replacement, but has referred the matter to its insurance carrier at the request of the insurance company. As of September 30, 2015, the Company believes that the liability under this claim is not probable. Nevertheless, resolutions of third-party claims are inherently uncertain and as such, an unfavorable outcome could ultimately impact the Company's business, cash flow and results of operations.

8. Other long-term liabilities

Other long-term liabilities consist of the following:

	September 30,	December 31,
	2015	2014
Deferred rent	\$ 1,922	\$ 1,930
Income tax payable	5,692	4,687
Deferred tax liabilities	587	792
	\$ 8,201	\$ 7,409

9. Income Taxes

The Company normally determines its interim provision using an estimated single annual effective tax rate for all tax jurisdictions. ASC 740 provides that when an entity operates in a jurisdiction that has generated ordinary losses on a year-to-date basis or on the basis of the results anticipated for the full fiscal year and no benefit can be recognized on those losses, a separate effective tax rate should be computed and applied to ordinary income (or loss) in that jurisdiction. The Company incurred pretax loss during the nine months ended September 30, 2015 from the Singapore operation and will not recognize tax benefit of the losses due to full valuation allowance established against deferred tax assets. Thus, a separate effective tax rate was applied to the Singapore jurisdiction to compute the Company's interim tax expense.

Table Of Contents

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

The Company recorded an income tax provision of \$976 and \$3,350 in the three and nine months ended September 30, 2015, respectively. The effective tax rate for the three and nine months ended September 30, 2015 was (775%) and (45%), respectively. The difference between the effective tax rates and the 34% federal statutory rate resulted primarily due to the change in valuation allowance, foreign income taxes provided at lower rates, geographic mix in operating results, unrecognized tax benefits, stock-based compensation adjustments and recognition of state research and development credits.

For the three and nine months ended September 30, 2014, the discrete method was used to calculate the Company's interim tax expense for the U.S. operations. The Company has determined that a calculation of an annual effective tax rate would not represent a reliable estimate due to the sensitivity of the annual effective tax rate estimate to even minimal changes to forecasted earnings of the U.S. operations for the year. Under the discrete method, the Company determines its tax expense based upon actual results as if the interim period were an annual period. The Company recorded an income tax provision of \$5,083 and \$1,449 in the three and nine months ended September 30, 2014, respectively. The effective tax rate for the three and nine months ended September 30, 2014 was (287%) and (38%), respectively. The difference between the effective tax rates and the 34% federal statutory rate resulted primarily due to the change in valuation allowance, foreign income taxes provided at lower rates, geographic mix in operating results, unrecognized tax benefits, stock-based compensation adjustments, transaction cost adjustment and recognition of state research and development credits.

During the three and nine months ended September 30, 2015, the gross amount of the Company's unrecognized tax benefits increased by approximately \$773 and \$2,373, respectively, as a result of tax positions taken during the current year. Substantially all of the unrecognized tax benefits as of September 30, 2015, if recognized, would affect the Company's effective tax rate. The Company believes that in the next twelve months, it is reasonably possible that the gross unrecognized tax benefit may decrease by approximately \$1,750 due to resolution of the state audit.

The Company does not provide for U.S. income taxes on undistributed earnings of its controlled foreign corporations that are intended to be invested indefinitely outside the United States.

10. Earnings Per Share

The following shows the computation of basic and diluted earnings per share:

	Three Months Ended		Nine Months Ended	
	September 30, 2015	2014	September 30, 2015	2014
Numerator

Basic	\$ (0.03)	\$ (0.22)	\$ (0.28)	\$ (0.17)
Diluted	\$ (0.03)	\$ (0.22)	\$ (0.28)	\$ (0.17)

The following securities were not included in the computation of diluted earnings per share as inclusion would have been anti-dilutive:

	Three Months Ended		Nine Months Ended	
	September 30, 2015	2014	September 30, 2015	2014
Common stock options	2,398,544	3,200,469	2,648,125	3,426,621
Restricted stock unit	4,860,452	3,825,393	4,727,621	3,391,899
	7,258,996	7,025,862	7,375,746	6,818,520

Table Of Contents**11. Stock-Based Compensation**

In June 2010, the Board of Directors (the “Board”) approved the Company’s 2010 Stock Incentive Plan (the “2010 Plan”), which became effective in November 2010. The 2010 Plan provides for the grants of restricted stock, stock appreciation rights and stock unit awards to employees, non-employee directors, advisors and consultants. The Compensation Committee administers the 2010 Plan, including the determination of the recipient of an award, the number of shares subject to each award, whether an option is to be classified as an incentive stock option or nonstatutory option, and the terms and conditions of each award, including the exercise and purchase prices and the vesting or duration of the award. Options granted under the 2010 Plan are exercisable only upon vesting. At September 30, 2015, 2,150,511 shares of common stock have been reserved for future grants under the 2010 Plan.

Stock Option Awards

The Company did not grant any stock options during the nine months ended September 30, 2015 and 2014.

The following table summarizes information regarding options outstanding:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding at December 31, 2014	3,005,594	\$ 10.16	6.12	\$ 25,302
Granted	—	—		
Exercised	(605,410)	7.90		
Canceled	(24,660)	17.90		
Outstanding at September 30, 2015	2,375,524	\$ 10.66	5.55	\$ 31,796
Exercisable at September 30, 2015	2,139,941	\$ 10.55	5.40	\$ 28,871
Vested and expected to vest at September 30, 2015	2,374,216	\$ 10.65	5.55	\$ 31,779

The intrinsic value of options outstanding, exercisable and vested and expected to vest is calculated based on the difference between the exercise price and the fair value of the Company’s common stock as of the respective balance sheet dates.

The total intrinsic value of options exercised during the nine months ended September 30, 2015 and 2014 was \$8,471 and \$6,512, respectively. The intrinsic value of exercised options is calculated based on the difference between the exercise price and the fair value of the Company's common stock as of the exercise date. Cash received from the exercise of stock options was \$4,780 and \$2,961, respectively, for the nine months ended September 30, 2015 and 2014.

Restricted Stock Units and Awards

The Company granted restricted stock units ("RSUs") to members of the Board and employees. Most of the Company's outstanding RSUs vest over four years with vesting contingent upon continuous service. The Company estimates the fair value of RSUs using the market price of the common stock on the date of the grant. The fair value of these awards is amortized on a straight-line basis over the vesting period.

Table Of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)**

The following table summarizes information regarding outstanding restricted stock units:

	Number of Shares	Weighted Average Grant Date Fair Value Per Share
Outstanding at December 31, 2014	4,789,622	\$ 12.85
Granted	1,505,887	19.76
Vested	(1,255,866)	13.43
Canceled	(195,871)	14.22
Outstanding at September 30, 2015	4,843,772	\$ 14.80
Expected to vest at September 30, 2015	4,746,899	

Employee Stock Purchase Plan

In December 2011, the Company adopted the Employee Stock Purchase Plan ("ESPP"). Participants purchase the Company's stock using payroll deductions, which may not exceed 15% of their total cash compensation. Pursuant to the terms of the ESPP, the "look-back" period for the stock purchase price is six months. Offering and purchase periods will begin on February 10 and August 10 of each year. Participants will be granted the right to purchase common stock at a price per share that is 85% of the lesser of the fair market value of the Company's common shares at the beginning or the end of each six-month period.

The ESPP imposes certain limitations upon an employee's right to acquire common stock, including the following: (i) no employee shall be granted a right to participate if such employee immediately after the election to purchase common stock, would own stock possessing 5% or more of the total combined voting power or value of all classes of stock of the Company, and (ii) no employee may be granted rights to purchase more than \$25 fair value of common stock for each calendar year. The maximum aggregate number of shares of common stock available for purchase under the ESPP is 1,750,000 shares. The total common stock issued under the ESPP during the nine months ended September 30, 2015 and 2014 was 326,764 and 264,886, respectively.

The fair value of the ESPP is estimated at the start of offering period using the Black-Scholes option pricing model with the following assumptions:

	Three Months Ended		Nine Months Ended	
	September 30, 2015 2014		September 30, 2015 2014	
Risk-free interest rate	0.22%	0.06%	0.14%	0.07%
Expected life (in years)	0.50	0.50	0.50	0.50
Dividend yield	—	—	—	—
Expected volatility	43 %	45 %	42 %	40 %
Estimated fair value	\$6.25	\$4.05	\$5.77	\$3.55

Stock-Based Compensation Expense

Stock-based compensation expense is included in the Company's results of operations as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2015 2014		September 30, 2015 2014	
Operating expenses				
Cost of goods sold	\$334	\$314	\$1,078	\$863
Research and development	4,375	3,261	12,413	8,642
Sales and marketing	1,127	1,242	3,346	3,040
General and administrative	1,414	1,243	4,035	3,421
	\$7,250	\$6,060	\$20,872	\$15,966

Table Of Contents

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

Total unrecognized compensation cost related to unvested stock options, restricted stock units and awards at September 30, 2015, prior to the consideration of expected forfeitures, is approximately \$59,526 and is expected to be recognized over a weighted-average period of 2.61 years.

12. Fair Value Measurements

The guidance on fair value measurements requires fair value measurements to be classified and disclosed in one of the following three categories:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability, or

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The Company measures its investments in marketable securities at fair value using the market approach, which uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The Company has cash equivalents which consist of money market funds valued using the amortized cost method, in accordance with Rule 2a-7 under the 1940 Act, which approximates fair value.

The Company determines the amount of transfers between Levels 1 and 2 or transfers into or out of Level 3 by using the end-of-period fair value. The Company had no transfers among the fair value hierarchy during the three and nine

months ended September 30, 2015.

The following table presents information about assets required to be carried at fair value on a recurring basis:

September 30, 2015	Total	Level 1	Level 2
Assets			
Cash equivalents:			
Money market funds	\$3,748	\$ —	\$3,748
Investment in marketable securities:			
Municipal bonds	20,342	—	20,342

Corporate notes/bonds	16,392	—	16,392
Asset backed securities	747	—	747
	\$40,365	\$2,057	\$38,308

Table Of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)****13. Segment and Geographic Information**

The Company operates in one reportable segment. The Company's Chief Executive Officer, who is considered to be the chief operating decision maker, manages the Company's operations as a whole and reviews consolidated financial information for purposes of evaluating financial performance and allocating resources. Revenue by region is classified based on the locations to which the product is transported, which may differ from the customer's principal offices.

The following table sets forth the Company's revenue by geographic region:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
China	\$22,125	\$12,734	\$60,224	\$37,148
United States	10,488	5,983	30,205	17,831
Thailand	6,056	2,265	20,981	3,727
Other	23,726	15,296	70,817	42,683
	\$62,395	\$36,278	\$182,227	\$101,389

As of September 30, 2015, \$3,529 of long-lived tangible assets are located outside the United States, of which \$2,056 are located in Taiwan. As of December 31, 2014, \$6,153 of long-lived tangible assets are located outside the United States, of which \$3,463 are located in Taiwan.

14. Commitments and Contingencies**Leases**

The Company leases its facility under noncancelable lease agreements expiring in various years through 2020. The Company also licenses certain software used in its research and development activities under a term license subscription and maintenance arrangement.

As of September 30, 2015, future minimum lease payments under noncancelable operating leases having initial terms in excess of one year are as follows:

2015 (remaining)	\$5,101
2016	12,554
2017	4,386
2018	2,053
2019 and thereafter	1,799
	\$25,893

For the three and nine months ended September 30, 2015, lease operating expense was \$2,900 and \$8,917, respectively. For the three and nine months ended September 30, 2014, lease operating expense was \$1,916 and \$5,115, respectively.

Noncancelable Purchase Obligations

The Company depends upon third party subcontractors to manufacture its wafers. These subcontractor relationships typically allow for the cancellation of outstanding purchase orders, but require payment of all expenses incurred through the date of cancellation. As of September 30, 2015, the total value of open purchase orders for wafers was approximately \$5,233.

Legal Proceedings

Netlist, Inc. v. Inphi Corporation, Case No. 09-cv-6900 (C.D. Cal.)

On September 22, 2009, Netlist filed suit in the United States District Court, Central District of California, or the Court, asserting that the Company infringes U.S. Patent No. 7,532,537. Netlist filed an amended complaint on December 22, 2009, further asserting that the Company infringes U.S. Patent Nos. 7,619,912 and 7,636,274, collectively with U.S. Patent No. 7,532,537, the patents-in-suit, and seeking both unspecified monetary damages to be determined and an injunction to prevent further infringement. These infringement claims allege that the Company's iMB™ and certain other memory module components infringe the patents-in-suit. The Company answered the amended complaint on February 11, 2010 and asserted that the Company does not infringe the patents-in-suit and that the patents-in-suit are invalid. In 2010, Company filed *inter partes* requests for reexamination with the United States Patent and Trademark Office (the "USPTO"), asserting that the patents-in-suit are invalid.

On August 27, 2010, the USPTO ordered the request for *Inter Partes* Reexamination for U.S. Patent No. 7,636,274 and found a substantial new question of patentability based upon each of the different issues that the Company raised as the reexamination requestor. On September 27, 2011, the Patent Office issued a First Office Action based on the Netlist '274 Patent Reexamination Request and rejected 91 of its 97 claims. On October 27, 2011, Netlist responded to the USPTO determination by amending some but not all of the claims, adding new claims and making arguments as to the validity of the rejected claims in view of the cited references. The Company provided rebuttable comments to the USPTO on November 28, 2011. On March 12, 2012, the Examiner issued an Action Closing Prosecution, indicating that the claims pending contain allowable subject matter, and Netlist did not respond to the Action Closing Prosecution in the time provided by the USPTO. On June 22, 2012, the USPTO issued a Right of Appeal Notice, and on July 23, 2012, the Company filed a Notice of Appeal. The Company filed the Appeal Brief on September 24, 2012 and Netlist filed its Responsive Brief on October 24, 2012. The parties received an Examiner's Answer dated April 16, 2013 from the USPTO that maintained the rejections set forth on the Right of Appeal Notice dated June 22, 2012. The Company filed a Rebuttal Brief on May 16, 2013 and a Request for Oral Hearing on June 7, 2013. The appeal hearing took place on November 20, 2013. The Patent Trial and Appeal Board (PTAB) issued its decision on January 16, 2014, finding the Examiner erred in declining to adopt 8 of the 9 different rejections that had been proposed by us. The Company requested a rehearing of the decision not to adopt the remaining one rejection that had been proposed by the Company and was not adopted by the PTAB on February 18, 2014. In papers dated March 18, 2014, Netlist provided rebuttal comments to the request for rehearing and also requested re-opening of prosecution with respect to the claims that the PTAB had rejected, and in that request to re-open prosecution amended the independent claims that

stood rejected. The Company filed comments with respect to these proposed amended claims on April 17, 2014, which were refiled in a slightly different form on September 5, 2014. On June 26, 2014, the PTAB issued a decision on the request for rehearing, which included a rejection of further claims pursuant to the Company's request and on July 28, 2014, Netlist provided a response to the USPTO cancelling those claims that had been rejected in the decision on the request for rehearing. On September 26, 2014, the PTAB remanded the proceedings back to the Examiner, with instructions to consider part, but not all, of the Company's comments that had been previously filed on September 5, 2014. On October 10, 2014, the Company filed a Petition to the Director of the USPTO seeking reconsideration of the PTAB remand of September 26, 2014, and requesting that all of the comments that the Company previously filed on September 5, 2014 should have been entered for consideration by the Examiner. The USPTO denied this Petition with remand instructions to the Examiner to consider part, but not all, of the Company's comments that had been previously filed on September 5, 2014. While the reexamination still awaits the Examiner's action after the remand, on March 13, 2015 the Company filed a Petition for Writ of Mandamus with United States Court of Appeals for the Federal Circuit seeking relief from the Federal Circuit Court to vacate the Board's order and to instruct the Director to enter in full the Company's comments that had been previously filed on September 5, 2014, which was opposed by Netlist. On June 15, 2015, the Examiner, in view of the September 26, 2014 remand instructions, and based only on a portion of the Company's comments dated September 5, 2014, rejected all of the amended claims. On June 30, 2015 the Federal Circuit Court granted the Writ of Mandamus, and instructed the Director to enter in full the Company's comments that had been previously filed on September 5, 2014. Accordingly, on July 8, 2015, the PTAB vacated the Examiner's determination of June 15, 2015 that the amended claims were invalid and, on July 14, 2015, instructed the Examiner to consider in full the comments previously filed of September 5, 2014. An action from the Examiner dated September 11, 2015 rejected all the claims asserted as invalid by the Company in its comments dated September 5, 2014. Netlist filed a response dated October 14, 2015 opposing the rejections set forth by the Examiner in the September 11, 2015 action. The Company has until November 13, 2015 to respond to the Netlist response, which is expected as the next substantive step of the proceeding, as prosecution otherwise remains closed. The proceeding is expected to continue in accordance with established *Inter Partes* Reexamination procedures. The Company may consider filing an appeal to any determination made by the USPTO with the Federal Circuit Court of Appeals.

Table Of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)**

On September 8, 2010, the USPTO ordered the request for *Inter Partes* Reexamination for U.S. Patent No. 7,532,537 and found a substantial new question of patentability based upon different issues that the Company raised as the reexamination requestor. The USPTO accompanied this Reexamination Order of U.S. Patent No. 7,532,537 with its own evaluation of the validity of this patent, and rejected some but not all of claims. In a response dated October 8, 2010, Netlist responded to the USPTO determination by amending some but not all of the claims, adding new claims and making arguments as to why the claims were not invalid in view of the cited references. The Company provided rebuttable comments to the USPTO on November 8, 2010 along with a Petition requesting an increase in the number of allowed pages of the rebuttable comments. On January 20, 2011, the USPTO granted the Petition in part. The Company then filed updated rebuttal comments on January 27, 2011 in compliance with the granted Petition. The USPTO has considered these updated rebuttal comments, and in a communication dated June 15, 2011, continued to reject all the previously rejected claims. The USPTO also rejected all the claims newly added in the October 8, 2010 Netlist response. In a further communication dated June 21, 2011, the USPTO issued an Action Closing Prosecution indicating that it would confirm the patentability of four claims and reject all the other pending claims. On August 22, 2011, Netlist responded to the Action Closing Prosecution by further amending some claims and making arguments as to the validity of the rejected claims in view of the cited references. The Company submitted rebuttal comments on September 21, 2011. In a further communication dated February 7, 2012, the USPTO issued a Right of Appeal Notice, which also indicated that the previous amendments to claim made by Netlist would be entered, and that the current pending claims, as amended, were patentable. The Company filed a Notice of Appeal at the USPTO on March 8, 2012, within the time period provided for filing the Notice of Appeal and Netlist did not file Notice of Cross-Appeal. The Company filed its Appeal Brief on May 8, 2012, and Netlist filed its Responsive Brief on July 2, 2012. The parties received an Examiner's Answer dated April 16, 2013 from the USPTO that maintained the rejections set forth on the Right of Appeal Notice dated February 7, 2012. The Company filed a Rebuttal Brief on May 16, 2013 and a Request for Oral Hearing on June 7, 2013. The appeal hearing took place in front of the PTAB on November 20, 2013. The PTAB issued its decision on January 16, 2014, affirming the Examiner's decision as to all of the challenged claims. On February 18, 2014, the Company made a request for rehearing of the decision, and in papers dated March 18, 2014, Netlist provided rebuttal comments to the request for rehearing. On August 13, 2014, the PTAB denied our request for rehearing, and on October 15, 2014, the Company filed a Notice of Appeal to the Court of Appeals for the Federal Circuit. An Appeal Brief was filed with the Court of Appeals for the Federal Circuit on February 3, 2015, which has been opposed by Netlist. The parties attended an oral hearing at the Court of Appeals for the Federal Circuit on October 9, 2015 and argued their respective positions. An Order from the Court of Appeals for the Federal Circuit is expected as the next substantive step of the proceeding, as prosecution otherwise remains closed. The proceeding is expected to continue in accordance with established *Inter Partes* Reexamination procedures.

On September 8, 2010, the USPTO ordered the request for *Inter Partes* Reexamination for U.S. Patent No. 7,619,912 and found a substantial new question of patentability based upon different issues that the Company raised as the reexamination requestor. The USPTO accompanied this Reexamination Order of U.S. Patent No. 7,619,912 with its own evaluation of the validity of this patent, and initially determined that all of the claims were patentable based upon

the Company's request for *Inter Partes* Reexamination. Netlist did not comment upon this Reexamination Order. The USPTO on February 28, 2011 also merged the Proceedings of our Reexamination of U.S. Patent No. 7,619,912, bearing Control No. 90/001,339 with Inter Partes Reexamination Proceeding 95/000,578 filed October 20, 2010 on behalf of SMART Modular Technologies, Inc. and Inter Partes Reexamination Proceeding 95/000,579 filed October 21, 2010 on behalf of Google, Inc. In each of these other Reexamination Proceedings, the USPTO had indicated that there existed a substantial new question of patentability with respect to certain claims of U.S. Patent No. 7,619,912, but had not accompanied the Reexamination Orders related thereto with its own evaluation of the validity of this patent, indicating that such evaluation would be forthcoming at a later time. This further evaluation was received in an Office Action dated April 4, 2011, in which the Examiner rejected a substantial majority of the claims based upon a number of different rejections, including certain of the rejections originally proposed by the Company in its Request for Reexamination. This Office Action also indicated that one claim was deemed to be patentable over the prior art of record in the merged Reexamination Proceedings. After seeking and obtaining an extension of time to respond to the Office Action dated April 4, 2011, Netlist served its response on July 5, 2011, which added new claims and made arguments as to why the originally filed claims were not invalid in view of the cited references. Each of the merged Reexamination Requestors, including the Company, submitted rebuttal comments by August 29, 2011. The USPTO considered this Netlist response and each of the rebuttal comments, and in an Office Action dated October 14, 2011, continued to reject most, but not all of the previously rejected claims, as well as rejected claims that had been added by Netlist in its July 5, 2011 response. After seeking and obtaining an extension of time to respond to the Office Action dated October 14, 2011, Netlist served its response on January 13, 2012, which response made amendments based upon subject matter that had been indicated as allowable in the Office Action dated October 14, 2011, added other new claims and made arguments as to why all of these claims should be allowed. The three different merged Reexamination Requestors, including the Company, timely submitted rebuttal comments on or about February 13, 2012. The USPTO issued a Non-final Office Action on November 13, 2012, rejecting some claims and indicating that others contained allowable subject matter. On January 14, 2013, Netlist filed a Response to the Non-final Office Action which presented further claim amendments and evidence supporting its positions regarding patentability. Rebuttal comments from the Company and the other Requestors were filed on February 13, 2013. On March 21, 2014, the USPTO issued an Action Closing Prosecution in which the USPTO indicated that certain of the pending claims were allowable and other of the pending claims were rejected, and on June 18, 2014 issued a Right of Notice of Appeal. By July 18, 2014, the Company as well as other Requestors each filed Notices of Appeal, and Netlist filed a Cross Appeal on July 30, 2014. By September 30, 2014, each of the Requestors as well as Netlist had filed their respective Appeal Briefs, and by October 30, 2014 each of the Requestors as well as Netlist had filed their respective Responses to the previously filed Appeal Briefs. Rebuttal Briefs by Requestors and Netlist were filed on or before February 18, 2015, and certain of the Requestors and Netlist filed requests for Oral Hearing at the USPTO by March 17, 2015. On May 27, 2015 the Examiner indicated that all Rebuttal Briefs had been considered, and forwarded the reexamination proceedings to the PTAB for consideration of the appeal. An oral hearing on the Appeal and Cross-Appeal is set for November 24, 2015, and will be the next substantive step of the proceeding, as currently prosecution otherwise will remain closed. The merged proceeding is expected to continue in accordance with established *Inter Partes* Reexamination procedures.

Table Of Contents

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

The reexamination proceedings could result in a determination that the patents-in-suit, in whole or in part, are valid or invalid, as well as modifications of the scope of the patents-in-suit.

Based on these papers the Court in January 2014 ordered a continued stay of the proceedings, took the litigation off the active court calendar, and requested that the parties file a joint status report on May 1, 2014 and every 120 days thereafter advising the Court as to status of the reexamination proceedings at which times, the Court could decide to maintain or lift the stay.

While the Company intends to defend the foregoing lawsuit vigorously, litigation, whether or not determined in the Company's favor or settled, could be costly and time-consuming and could divert management's attention and resources, which could adversely affect the Company's business.

Based on the nature of the litigation, the Company is currently unable to predict the final outcome of this lawsuit and therefore, cannot determine the likelihood of loss nor estimate a range of possible loss. However, because of the nature and inherent uncertainties of litigation, should the outcome of these actions be unfavorable, the Company's business, financial condition, results of operations or cash flows could be materially and adversely affected.

In March 2015, the Company settled a patent dispute involving Cortina and Vitesse Semiconductor Corporation (Vitesse). The patent dispute involved a certain patent family owned by Vitesse associated with error correction. The Company paid Vitesse \$750 to resolve the dispute. Based on the Agreement and Plan of Merger dated July 30, 2014, as amended by Amendment No. 1 to the Agreement and Plan of Merger dated September 25, 2014, the Company was indemnified for this settlement arising from this claim, up to an amount of \$750.

Indemnifications

In the ordinary course of business, the Company may provide indemnifications of varying scope and terms to customers, vendors, lessors, investors, directors, officers, employees and other parties with respect to certain matters,

including, but not limited to, losses arising out of the Company's breach of such agreements, services to be provided by the Company, or from intellectual property infringement claims made by third-parties. These indemnifications may survive termination of the underlying agreement and the maximum potential amount of future payments the Company could be required to make under these indemnification provisions may not be subject to maximum loss clauses. The Company has not incurred material costs to defend lawsuits or settle claims related to these indemnifications. Accordingly, the Company has no liabilities recorded for these agreements as of September 30, 2015 and December 31, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our financial condition and results of operations should be read in conjunction with the condensed consolidated financial statements and notes to those statements included elsewhere in this Quarterly Report. This Management's Discussion and Analysis of Financial Condition and Results of Operations and this report contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this report, the terms "may," "might," "will," "objective," "intend," "should," "could," "can," "would," "expect," "predict," "potential," "plan," or the negative of these terms, and similar expressions intended to identify forward-looking statements. These statements are statements that relate to future periods and include statements regarding our anticipated trends and challenges in our business and the markets in which we operate, including the market for 40G and 100G high-speed analog semiconductor solutions, our plans for future products, expansion of our product offerings and enhancements of existing products, critical accounting policies and estimates, our expectations regarding our expenses and revenue, sources of revenue, our tax benefits, the benefits of our products and services, our technological capabilities and expertise, timing of the development of our products our liquidity position and sufficiency thereof, including our anticipated cash needs, our operating capital expenditures and requirements and our needs for additional financing and potential consequences thereof, our anticipated growth and growth strategies, our ability to retain and attract customers, particularly in light of our dependence on a limited number of customers for a substantial portion of our revenue, our expectations regarding competition, interest rate sensitivity, adequacy of our disclosure controls, our legal proceedings and warranty claims. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these or any other forward-looking statements. These risks and uncertainties include, but are not limited to, those risks discussed below, as well as factors affecting our results of operations, our ability to manage our growth, our ability to sustain or increase profitability, demand for our solutions, the effect of declines in average selling prices for our products, our ability to compete, our ability to rapidly develop new technology and introduce new products, our ability to safeguard our intellectual property, trends in the semiconductor industry and fluctuations in general economic conditions, and the risks set forth throughout this Report, including the risks set forth under Part II, "Item 1A, Risk Factors". Readers are cautioned not to place undue reliance on these forward-looking statements, which are based on current expectations and reflect management's opinions only as of the date hereof. These forward-looking statements speak only as of the date of this Report. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based.

Overview

Our Company

We are a fabless provider of high-speed analog and mixed signal semiconductor solutions for the communications, data center and computing markets. Our semiconductor solutions provide high signal integrity at leading-edge data speeds while reducing system power consumption. Our semiconductor solutions are designed to address bandwidth bottlenecks in networks, maximize throughput and minimize latency in computing environments and enable the rollout of next generation communications, data center and computing infrastructures. Our solutions provide a vital high-speed interface between analog signals and digital information in high-performance systems such as telecommunications transport systems, enterprise networking equipment, data centers and enterprise servers, storage platforms, test and measurement equipment and military systems. We provide 100G high-speed analog semiconductor solutions for the communications market and high-speed memory interface solutions for the computing market. We have a wide range product portfolio with many products sold in communication and datacenter markets as of September 30, 2015.

A detailed discussion of our business may be found in Part I, Item 1, “Business,” of our 2014 Annual Report on Form 10-K.

Table Of Contents

Quarterly Update

As discussed in more detail below, for the three and nine months ended September 30, 2015 compared to the three and nine months ended September 30, 2014, we delivered the following financial performance:

Total revenues increased by \$26.1 million, or 72%, to \$62.4 million in the three months ended September 30, 2015. In the nine months ended September 30, 2015, total revenues increased by \$80.8 million, or 80%, to \$182.2 million.

Gross profit as a percentage of revenue slightly decreased to 62.1% from 64.1% in the three months ended September 30, 2015. In the nine months ended September 30, 2015, gross profit as a percentage of revenue decreased to 58.2% from 64.1%.

Total operating expenses increased by \$13.6 million, or 54%, to \$38.9 million in the three months ended September 30, 2015. In the nine months ended September 30, 2015, total operating expenses increased by \$44.2 million, or 64%, to \$113.6 million.

Loss from operations decreased by \$1.9 million, or 92%, to a loss from operations of \$0.2 million in the three months ended September 30, 2015. In the nine months ended September 30, 2015, loss from operations increased by \$3.2 million, or 74%, to a loss from operations of \$7.6 million.

Diluted earnings per share increased by \$0.19 to (\$0.03) in the three months ended September 30, 2015. In the nine months ended September 30, 2015, diluted earnings per share decreased by \$0.11 to (\$0.28).

The increase in our revenue for the three and nine months ended September 30, 2015 was primarily a result of the inclusion of revenue from the October 4, 2014 acquisition of Cortina that was not part of our revenue in the three and nine months ended September 30, 2014, as well as an increase in consumption of our dual linear transimpedance amplifiers (TIA) and quad linear driver products.

The decline in gross margin was primarily due to the amortization of inventory fair value step-up related to the acquired Cortina inventories sold during the three and nine months ended September 30, 2015 and amortization of the acquired intangibles.

Total operating expenses increased primarily due to an increase in headcount and stock-based compensation expense. Our expenses primarily consist of personnel costs, which include compensation, benefits, payroll related taxes and

stock-based compensation. From October 2014 to September 2015, our headcount increased by 25 new employees, primarily in the engineering department. In addition, the acquisition of Cortina added 137 employees in the fourth quarter of 2014. We expect expenses to continue to increase in absolute dollars as we continue to invest resources to develop more products and to support the growth of our business. Our diluted loss per share decreased in the three months ended September 30, 2015 primarily due to increase in revenue and decrease in provision for income taxes, partially offset by increase in operating expenses. Our diluted loss per share increased in the nine months ended September 30, 2015 primarily due to by increase in operating expenses and provision for income taxes, partially offset by increase in revenue.

Our cash and cash equivalents were \$64.8 million at September 30, 2015, compared with \$30.4 million at December 31, 2014. Cash provided by operating activities was \$45.5 million during the nine months ended September 30, 2015 compared to \$9.0 million during the nine months ended September 30, 2014. Cash used in investing activities during the nine months ended September 30, 2015 was \$12.6 million primarily due to purchases of marketable securities and purchases of property and equipment of \$23.5 million and purchase of cost method investment in a private company of \$2.0 million, offset by sales and maturities of marketable securities of \$12.9 million. Cash provided by financing activities of \$1.5 million was primarily due to proceeds from exercise of stock options and employee stock purchase plan of \$9.4 million and excess tax benefit related to stock-based compensation of \$1.2 million offset by minimum tax withholding paid on behalf of employees of \$9.1 million.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles, or GAAP, requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses in the reporting period. We regularly evaluate our estimates and assumptions related to allowances for doubtful accounts, warranty reserves, inventory reserves, stock-based compensation expense, goodwill valuation, deferred income tax asset valuation allowances, uncertain tax positions, litigation and other loss contingencies. We base our estimates and assumptions on current facts, historical experience and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the recording of revenue, costs and expenses that are not readily apparent from other sources. The actual results experienced by us may differ materially and adversely from our estimates. To the extent there are material differences between our estimates and the actual results, our future results of operations will be affected. For a description of our critical accounting policies and estimates, please refer to the “Critical Accounting Policies and Estimates” section of our Management’s Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2014. There have been no material changes in any of our critical accounting policies during the nine months ended September 30, 2015.

Table Of Contents**Results of Operations**

The following table sets forth a summary of our statement of operations as a percentage of each line item to the revenue:

	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September	
	2015	2014	2015	2014
Total revenue	100%	100 %	100%	100 %
Cost of revenue	38	36	42	36
Gross profit	62	64	58	64
Operating expenses:				
Research and development	45	44	43	44
Sales and marketing	10	13	11	13
General and administrative	7	13	8	11
Total operating expenses	62	70	62	68
Loss from operations	—	(6)	(4)	(4)
Other income	—	1	—	—
Loss before income taxes	—	(5)	(4)	(4)
Provision for income taxes	2	15	2	2
Net loss	(2)%	(20%)	(6)%	(6)%

Comparison of Three and Nine Months Ended September 30, 2015 and 2014***Revenue***

Three Months		Change	
Ended		Amount	
September 30,		%	
2015	2014		
(dollars in thousands)			

Total revenue \$62,395 \$36,278 \$26,117 72%

**Nine Months
Ended September
30,**

		Change	
2015	2014	Amount	%

(dollars in thousands)

Total revenue \$182,227 \$101,389 \$80,838 80%

Total revenue for the three and nine months ended September 30, 2015 increased compared to corresponding 2014 periods due to changes in average selling price and number of units sold. For the three and nine months ended September 30, 2015, the average selling price increased by 69% and 54%, respectively. For the three and nine months ended September 30, 2015, the number of units sold increased by 2% and 17%, respectively. The increases in number of units sold and average selling price were mainly due from increased sales and mix of our higher priced products, including dual linear TIA, quad linear driver products and high-speed interconnect and optical transport products from the Cortina acquisition.

Cost of Revenue and Gross Profit

		Three Months Ended September 30,		Change	
		2015	2014	Amount	%

(dollars in thousands)

Cost of revenue		\$23,671	\$13,003	\$10,668	82 %
Gross profit		\$38,724	\$23,275	\$15,449	66 %
Gross profit as a percentage of revenue		62 %	64 %	—	(2%)

Table Of Contents

	Nine Months Ended September 30,		Change	
	2015	2014	Amount	%
	(dollars in thousands)			
Cost of revenue	\$76,185	\$36,362	\$39,823	110 %
Gross profit	\$106,042	\$65,027	\$41,015	63 %
Gross profit as a percentage of revenue	58	% 64	% —	(6%)

Cost of revenue and gross profit increased compared to corresponding 2014 periods primarily due to an increase in revenue from sales of our dual linear TIA, quad linear driver products, high-speed interconnect and optical transport products, offset by amortization of inventory step-up related to the acquired Cortina inventories and amortization of acquired intangibles. Gross margin, as a percentage of revenue, decreased due to the amortization of inventory fair value step-up related to the acquired Cortina inventories of \$0.5 million and \$7.5 million sold during the three and nine months ended September 30, 2015, respectively, and amortization of the acquired intangibles of \$2.9 million and \$8.6 million for the three and nine months ended September 30, 2015, respectively.

Research and Development

	Three Months Ended September 30,		Change	
	2015	2014	Amount	%
	(dollars in thousands)			
Research and development	\$28,092	\$15,795	\$12,297	78 %

	Nine Months Ended September 30,		Change	
	2015	2014	Amount	%
	(dollars in thousands)			
Research and development	\$78,085	\$45,263	\$32,822	73 %

Research and development expenses for the three and nine months ended September 30, 2015 increased primarily due to the increase in research and development headcount and equity awards, which resulted in a \$6.4 million and \$21.3 million increase in personnel costs and stock-based compensation expense, respectively. CAD software tool license expense increased by \$1.4 million and \$4.3 million for the three and nine months ended September 30, 2015,

respectively, due mainly to increased headcount in engineering. External test services, pre-production engineering mask costs and laboratory supplies increased by \$1.4 million and \$2.6 million for the three and nine months ended September 30, 2015, respectively. Depreciation and allocated expenses increased by \$1.3 million and \$4.9 million for the three and nine months ended September 30, 2015, respectively, due to increase in equipment and research and development activities. We abandoned the project related to in-process research and development costs which resulted in an impairment charge of \$1.8 million for the nine months September 30, 2015. Reimbursement from customers related to research and development contracts decreased by \$1.9 million and increased by \$3.5 million for the three and nine months ended September 30, 2015, respectively. The increase in research and development expense was primarily driven by our strategy to expand our product offerings and enhance our existing product offerings.

Sales and Marketing

	Three Months Ended September 30,		Change	
	2015	2014	Amount	%
	(dollars in thousands)			
Sales and marketing	\$6,398	\$4,828	\$1,570	33%

	Nine Months Ended September 30,		Change	
	2015	2014	Amount	%
	(dollars in thousands)			
Sales and marketing	\$19,885	\$13,140	\$6,745	51%

Sales and marketing expenses for the three and nine months ended September 30, 2015 increased primarily due to an increase in personnel costs, including stock-based compensation expense of \$0.8 million and \$4.2 million, respectively. In addition, commission expense increased by \$0.3 million and \$1.2 million for the three and nine months ended September 30, 2015, respectively, due to higher compensation and higher revenue.

Table Of Contents*General and Administrative*

	Three Months Ended September 30,		Change	
	2015	2014	Amount	%
	(dollars in thousands)			
General and administrative	\$4,387	\$4,671	\$(284)	(6%)

	Nine Months Ended September 30,		Change	
	2015	2014	Amount	%
	(dollars in thousands)			
General and administrative	\$15,632	\$10,970	\$4,662	42%

General and administrative expenses for the three months ended September 30, 2015 decreased due to reduction in legal fees by \$1.0 million in connection with the Cortina acquisition in 2014, partially offset by increase in personnel and equity grants by \$0.5 million. General and administrative expenses for the nine months ended September 30, 2015 increased due to increase in personnel and equity grants of \$2.3 million. Amortization of intangibles and accounting and consultant fees increased by \$0.3 million and \$0.9 million for the nine months ended September 30, 2015, respectively due to the Cortina acquisition. In addition, we incurred a loss of \$0.5 million in the nine months ended September 30, 2015 from the disposal of certain property and equipment from the Cortina acquisition. The increases were partially offset by decrease in legal fees by \$0.4 million in connection with Cortina acquisition.

Provision (benefit) for Income Taxes

	Three Months Ended September 30,		Change	
	2015	2014	Amount	%

(dollars in thousands)

Provision for income taxes	\$3,350	\$1,449	\$1,901	131%
----------------------------	---------	---------	---------	------

We normally determine our interim provision using an estimated single annual effective tax rate for all tax jurisdictions. ASC 740 provides that when an entity operates in a jurisdiction that has generated ordinary losses on a year-to-date basis or on the basis of the results anticipated for the full fiscal year and no benefit can be recognized on those losses, a separate effective tax rate should be computed and applied to ordinary income (or loss) in that jurisdiction. We incurred pretax loss during the nine months ended September 30, 2015 for the Singapore operations and will not recognize tax benefit of the losses due to full valuation allowance established against deferred tax assets. Thus, a separate effective tax rate was applied to the Singapore jurisdiction to compute the interim tax expense.

The income tax provision for the three and nine months ended September 30, 2015 reflects an effective tax rate of (775%) and (45%), respectively. The effective tax rates for the three and nine months ended September 30, 2015 differs from the statutory rate of 34% primarily due to the change in valuation allowance, foreign income taxes provided at lower rates, geographic mix in operating results, unrecognized tax benefits, stock-based compensation adjustments and recognition of state research and development credits.

For the three and nine months ended September 30, 2014, the discrete method was used to calculate the interim tax expense for the U.S. operations. We determined that a calculation of an annual effective tax rate would not represent a reliable estimate due to the sensitivity of the annual effective tax rate estimate to even minimal changes to forecasted earnings of the U.S. operations for the year. Under the discrete method, we determine the tax expense based upon actual results as if the interim period were an annual period.

The income tax expense for the three and nine months ended September 30, 2014 reflects an effective tax rate of (287%) and (38%), respectively. The effective tax rates for the three and nine months ended September 30, 2014 differs from the statutory rate of 34% primarily due to the change in valuation allowance, foreign income taxes provided at lower rates, geographic mix in operating results, unrecognized tax benefits, stock-based compensation adjustments, transaction cost adjustment and recognition of state research and development credits.

Table Of Contents**Liquidity and Capital Resources**

As of September 30, 2015, we had cash, cash equivalents and investments in marketable securities of \$101.7 million. Our primary uses of cash are to fund operating expenses, purchase inventory and acquire property and equipment. Cash used to fund operating expenses is impacted by the timing of when we pay these expenses, as reflected in the changes in our outstanding accounts payable and accrued expenses. Our primary sources of cash are cash receipts on accounts receivable from our revenue. Aside from the growth in amounts billed to our customers, net cash collections of accounts receivable are impacted by the efficiency of our cash collections process, which can vary from period to period, depending on the payment cycles of our major customers.

The following table summarizes our cash flows for the periods indicated:

	Nine Months	
	Ended September	
	30,	
	2015	2014
	(in thousands)	
Net cash provided by operating activities	\$45,503	\$9,032
Net cash provided by (used in) investing activities	(12,591)	36,788
Net cash provided by financing activities	1,494	2,125
Net increase in cash and cash equivalents	\$34,406	\$47,945

Net Cash Provided by Operating Activities

Net cash provided by operating activities during the nine months ended September 30, 2015 primarily reflected depreciation and amortization of \$20.1 million, stock-based compensation of \$20.9 million, impairment of in-process research and development costs of \$1.8 million, abandonment of asset of \$1.3 million, decreases in accounts receivable by \$3.7 million, inventories by \$5.8 million and prepaid expenses by \$2.3 million, and change in income tax payable/receivable of \$2.0 million, partially offset by net loss of \$10.8 million and decrease in accounts payable by \$1.7 million. Our receivables decreased due to collections from customers. Our inventories decreased due to shipments to customers. Our prepaid expenses and other current assets decreased due to settlement of a non-trade receivable. Our accounts payable decreased due to payment to vendors.

Net cash provided by operating activities during the nine months ended September 30, 2014 primarily reflected increases in accrued expenses of \$1.5 million and deferred revenue of \$1.7 million, change in income tax

payable/receivable of \$0.8 million, depreciation and amortization of \$7.9 million and stock-based compensation of \$16.0 million, offset by net loss of \$5.2 million, increases in accounts receivable of \$9.4 million, inventories of \$2.4 million and prepaid expenses and other assets of \$1.8 million. Our accrued expenses increased due to accrual of employee benefits. Our deferred revenue increased as distributors increased their inventory level for shipment to customers in the fourth quarter of 2014. Accounts receivable increased due to shipments made in the last month of the quarter and billings for non-recurring engineering contracts with customers. Our inventories increased a result of growing production for expected delivery to customers in the fourth quarter of 2014. Our prepaid expenses and other assets increased due to new subscriptions for software, maintenance and insurance prepayments.

Net Cash Used in Investing Activities

Net cash used in investing activities during the nine months ended September 30, 2015, consisted of cash used to purchase property and equipment of \$12.2 million, purchase of minority interest in an early stage private company for \$2.0 million and purchases of marketable securities of \$11.3 million, offset by sales and maturities of marketable securities of \$12.8 million.

Net cash provided by investing activities during the nine months ended September 30, 2014, consisted of sales and maturities of marketable securities of \$87.9 million, offset by purchases of property and equipment of \$13.0 million, intangible assets of \$1.1 million and marketable securities of \$37.0 million. The sales of marketable securities were done in anticipation of disbursing approximately \$52 million in cash on October 3, 2014 as part of closing of the acquisition of Cortina.

Net Cash Provided by Financing Activities

Net cash provided by financing activities during the nine months ended September 30, 2015 consisted of proceeds from exercises of stock options and employee stock purchase plan of \$9.4 million and excess tax benefit related to stock-based compensation of \$1.2 million, partially offset by minimum tax withholding paid on behalf of employees for restricted stock units of \$9.1 million.

Net cash provided by financing activities during the nine months ended September 30, 2014 consisted of proceeds from exercises of stock options and employee stock purchase plan of \$5.6 million and excess tax benefit related to stock-based compensation of \$0.8 million, offset by minimum tax withholding paid on behalf of employees for restricted stock units of \$4.3 million.

Table Of Contents

Operating and Capital Expenditure Requirements

Our principal source of liquidity as of September 30, 2015 consisted of \$101.7 million of cash, cash equivalents and investments in marketable securities, of which \$30.2 million is held by our foreign subsidiaries. Based on our current operating plan, we believe that our existing cash and cash equivalents from operations will be sufficient to finance our operational cash needs through at least the next 12 months. In the future, we expect our operating and capital expenditures to increase as we increase headcount, expand our business activities and grow our end customer base which will result in higher needs for working capital. Our ability to generate cash from operations is also subject to substantial risks described in Part II, Item 1A, Risk Factors. If any of these risks occur, we may be unable to generate or sustain positive cash flow from operating activities. We would then be required to use existing cash and cash equivalents to support our working capital and other cash requirements. If additional funds are required to support our working capital requirements, acquisitions or other purposes, we may seek to raise funds through debt financing or from other sources. If we raise additional funds through the issuance of equity or convertible debt securities, the percentage ownership of our stockholders could be significantly diluted, and these newly-issued securities may have rights, preferences or privileges senior to those of existing stockholders. If we raise additional funds by obtaining loans from third parties, the terms of those financing arrangements may include negative covenants or other restrictions on our business that could impair our operating flexibility, and would also require us to incur interest expense. We can provide no assurance that additional financing will be available at all or, if available, that we would be able to obtain additional financing on terms favorable to us.

We do not plan to repatriate cash balances from foreign subsidiaries to fund our operations in the United States. There may be adverse tax effects upon repatriation of these funds to the United States.

Contractual Payment Obligations

Our contractual obligations for 2015 and beyond are included in our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the SEC on March 10, 2015. See note 14 of the notes to our unaudited condensed consolidated financial statements for information regarding obligations as of September 30, 2015.

Off-Balance Sheet Arrangements

At September 30, 2015, we had no material off-balance sheet arrangements, other than our facility operating leases.

Recent Authoritative Accounting Guidance

See note 2 of the notes to our unaudited condensed consolidated financial statements for information regarding recently issued accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Sensitivity

We had cash and cash equivalents and investments in marketable securities of \$101.7 million and \$69.3 million at September 30, 2015 and December 31, 2014, respectively, which was held for working capital purposes. Our exposure to market interest-rate risk relates primarily to our investment portfolio. We do not use derivative financial instruments to hedge the market risks of our investments. We manage our total portfolio to encompass a diversified pool of investment-grade securities to preserve principal and maintain liquidity. We place our investments with high-quality issuers, money market funds and debt securities. Our investment portfolio as of September 30, 2015 consisted of money market funds, municipal bonds, corporate bonds, asset backed securities and commercial papers. Investments in both fixed rate and floating rate instruments carry a degree of interest rate risk. Fixed rate securities may have their market value adversely impacted due to an increase in interest rates, while floating rate securities may produce less income than expected if interest rates fall. Due in part to these factors, our future investment income may fall short of expectations due to changes in interest rates or if the decline in fair value of our publicly traded debt investments is judged to be other-than-temporary. We may suffer losses in principal if we are forced to sell securities that have declined in market value due to changes in interest rates. However, because any debt securities we hold are classified as available-for-sale, no gains or losses are realized in the income statement due to changes in interest rates unless such securities are sold prior to maturity or unless declines in value are determined to be other-than-temporary. These securities are reported at fair value with the related unrealized gains and losses, net of applicable taxes, included in accumulated other comprehensive income (loss), reported in a separate component of stockholders' equity. Although, we currently expect that our ability to access or liquidate these investments as needed to support our business activities will continue, we cannot ensure that this will not change.

In a low interest rate environment, as short-term investments mature, reinvestment may occur at less favorable market rates. Given the short-term nature of certain investments, the current interest rate environment may negatively impact our investment income.

Table Of Contents

Foreign Currency Risk

To date, our international customer and vendor agreements have been denominated almost exclusively in United States dollars. Accordingly, we have limited exposure to foreign currency exchange rates and do not currently enter into foreign currency hedging transactions.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

We maintain “disclosure controls and procedures,” as such term is defined in Rule 13a-15 (e) under the Securities Exchange Act 1934, or the Exchange Act, that are designed to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that such controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet reasonable assurance standards, but management does not expect that our disclosure controls and procedures will prevent or detect all error and all fraud. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer (our principal executive officer) and Chief Financial Officer (our principal financial officer) have concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. *Legal Proceedings*

The information required by this Item 1 is set forth under Note 14 of Notes to Unaudited Condensed Consolidated Financial Statements, included in Part I, Item 1 of this Quarterly Report, and is hereby incorporated by reference herein. For an additional discussion of certain risks associated with legal proceedings, see Item 1A. Risk Factors, below.

Item 1A. *Risk Factors*

You should carefully consider the risks described in Part I, Item 1A, Risk Factors, of our Annual Report on Form 10-K for the year ended December 31, 2014, which are incorporated by reference herein, as our business, financial condition and results of operations could be adversely affected by any of the risks and uncertainties described therein. There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.
