

GOLUB CAPITAL BDC, Inc.
Form 10-Q
February 06, 2019

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended December 31, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 814-00794

Golub Capital BDC, Inc.

(Exact name of registrant as specified in its charter)

Delaware

27-2326940

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

666 Fifth Avenue, 18th Floor

New York, NY 10103

(Address of principal executive offices)

(212) 750-6060

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

Edgar Filing: GOLUB CAPITAL BDC, Inc. - Form 10-Q

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of February 6, 2019, the Registrant had 60,422,239 shares of common stock, \$0.001 par value, outstanding.

^ Denotes that all or a portion of the loan secures the notes offered in the 2014 Debt Securitization (as defined in Note 6).

* Denotes that all or a portion of the loan secures the notes offered in the 2018 Debt Securitization (as defined in Note 6).

Denotes that all or a portion of the loan collateralizes the Credit Facility (as defined in Note 6).

The majority of the investments bear interest at a rate that may be determined by reference to London Interbank Offered Rate ("LIBOR" or "L"), Euro Interbank Offered Rate ("EURIBOR" or "E") or Prime ("P") and which reset daily, monthly, quarterly, semiannually, or annually. For each, the Company has provided the spread over LIBOR, EURIBOR or Prime and the weighted average current interest rate in effect as of December 31, 2018. Certain

⁽¹⁾ investments are subject to a LIBOR, EURIBOR or Prime interest rate floor. For fixed rate loans, a spread above a reference rate is not applicable. Listed below are the index rates as of December 31, 2018, which was the last business day of the period on which LIBOR or EURIBOR was determined. The actual index rate for each loan listed may not be the applicable index rate outstanding as of December 31, 2018, as the loan may have priced or repriced based on an index rate prior to December 31, 2018.

^(a) Denotes that all or a portion of the loan was indexed to the 30-day LIBOR, which was 2.50% as of December 31, 2018.

^(b) Denotes that all or a portion of the loan was indexed to the 60-day LIBOR, which was 2.61% as of December 31, 2018.

- (c) Denotes that all or a portion of the loan was indexed to the 90-day LIBOR, which was 2.81% as of December 31, 2018.
- (d) Denotes that all or a portion of the loan was indexed to the 180-day LIBOR, which was 2.88% as of December 31, 2018.
- (e) Denotes that all or a portion of the loan was indexed to the 360-day LIBOR, which was 3.01% as of December 31, 2018.
- (f) Denotes that all or a portion of the loan was indexed to the Prime rate, which was 5.50% as of December 31, 2018.
- (g) Denotes that all or a portion of the loan was indexed to the 90-day EURIBOR, which was -0.31% as of December 31, 2018.
- (h) Denotes that all or a portion of the loan was indexed to the 30-day GBP LIBOR, which was 0.73% as of December 31, 2018.
- (i) Denotes that all or a portion of the loan was indexed to the 90-day GBP LIBOR, which was 0.91% as of December 31, 2018.
- (j) Denotes that all or a portion of the loan was indexed to the 180-day GBP LIBOR, which was 1.03% as of December 31, 2018.
- (2) For portfolio companies with multiple interest rate contracts, the interest rate shown is a weighted average current interest rate in effect as of December 31, 2018.
- (3) The total principal amount is presented for debt investments while the number of shares or units owned is presented for equity investments.
- (4) The fair value of the investment was valued using significant unobservable inputs. See Note 5. Fair Value Measurements.
- (5) The negative fair value is the result of the capitalized discount on the loan or the unfunded commitment being valued below par. The negative amortized cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan.
- (6) The entire commitment was unfunded as of December 31, 2018. As such, no interest is being earned on this investment. The investment may be subject to an unused facility fee.
- (7) Loan was on non-accrual status as of December 31, 2018, meaning that the Company has ceased recognizing interest income on the loan.
- The investment is treated as a non-qualifying asset under Section 55(a) of the Investment Company Act of 1940, as amended (the "1940 Act"). Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the
- (8) time the acquisition is made, qualifying assets represent at least 70% of the Company's total assets. As of December 31, 2018, total non-qualifying assets at fair value represented 7.0% of the Company's total assets calculated in accordance with the 1940 Act.
- Loan is denominated in foreign currency and is translated into U.S. dollars as of the valuation date or the date of
- (9) the transaction. See Note 2. Significant Accounting Policies and Recent Accounting Updates - Foreign Currency Transactions.
- (10) The headquarters of this portfolio company is located in the United Kingdom.
- The sale of a portion of this loan does not qualify for sale accounting under ASC Topic 860 - Transfers and
- (11) Servicing ("ASC Topic 860"), and therefore, the asset remains in the Consolidated Schedule of Investments. See Note 6. Borrowings.
- (12) The headquarters of this portfolio company is located in Canada.
- (13) Equity investments are non-income producing securities unless otherwise noted.
- (14) Ownership of certain equity investments may occur through a holding company or partnership.
- (15) The Company holds an equity investment that entitles it to receive preferential dividends.

See Notes to Consolidated Financial Statements.

 Consolidated Schedule of Investments (unaudited) - (continued)
 December 31, 2018
 (In thousands)

(16)As defined in the 1940 Act, the Company is deemed to be an "affiliated person" of the portfolio company as the Company owns five percent or more of the portfolio company's voting securities ("non-controlled affiliate"). Transactions related to investments in non-controlled affiliates for the three months ended December 31, 2018 were as follows:

Portfolio Company	Fair value as of September 30, 2018	Purchases (cost) ^(k)	Redemptions (cost)	Transfer in (out)	Discount accretion	Net change in unrealized gain/(loss)	Fair value as of December 31, 2018	Net realized gain/(loss)	Interest and fee income	Dividend income
Benetech, Inc.	\$ 4,496	\$ 26	\$ (129)	\$ —	\$ —1	\$ (1)	\$ 4,393	\$ —	\$ 154	\$ —
Switchfly LLC	2,788	245	—	—	(16)	83	3,100	—	19	—
Total Non-Controlled Affiliates	\$ 7,284	\$ 271	\$ (129)	\$ —	\$ (15)	\$ 82	\$ 7,493	\$ —	\$ 173	\$ —

(k) Purchases at cost includes amounts related to payment-in-kind ("PIK") interest capitalized and added to the principal balance of the respective loans.

(17)As defined in the 1940 Act, the Company is deemed to be both an "affiliated person" of and "control" this portfolio company as the Company owns more than 25% of the portfolio company's outstanding voting securities or has the power to exercise control over management or policies of such portfolio company (including through a management agreement) ("controlled affiliate"). Transactions related to investments in controlled affiliates for the three months ended December 31, 2018 were as follows:

Portfolio Company	Fair value as of September 30, 2018	Purchases (cost)	Redemptions (cost)	Transfer in (out)	Discount accretion	Net change in unrealized gain/(loss)	Fair value as of December 31, 2018	Net realized gain/(loss)	Interest and fee income	Dividend income
Senior Loan Fund LLC ^(l)	\$ 71,084	\$ —	\$ (2,275)	\$ —	\$ —	\$ 106	\$ 68,915	\$ —	\$ —	\$ —
Total Controlled Affiliates	\$ 71,084	\$ —	\$ (2,275)	\$ —	\$ —	\$ 106	\$ 68,915	\$ —	\$ —	\$ —

Together with RGA Reinsurance Company ("RGA"), the Company co-invests through Senior Loan Fund LLC ("SLF"). SLF is capitalized as transactions are completed and all portfolio and investment decisions in respect to SLF must be approved by the SLF investment committee consisting of two representatives of the Company and RGA (with unanimous approval required from (i) one representative of each of the Company and RGA or (ii) both representatives of each of the Company and RGA). Therefore, although the Company owns more than 25% of the voting securities of SLF, the Company does not have sole control over significant actions of SLF for purposes of the 1940 Act or otherwise.

The Company receives quarterly profit distributions from its equity investment in SLF. For the three months ended December 31, 2018, the Company did not receive a profit distribution from its equity investment in SLF. See Note 4. Investments.

(19) The rate shown is the annualized seven-day yield as of December 31, 2018.

See Notes to Consolidated Financial Statements.

* Denotes that all or a portion of the investment collateralizes the MS Credit Facility (as defined in Note 6).

^ Denotes that all or a portion of the investment secures the notes offered in the 2014 Debt Securitization (as defined in Note 6).

Denotes that all or a portion of the investment collateralizes the Credit Facility (as defined in Note 6).

The majority of the investments bear interest at a rate that may be determined by reference to LIBOR, EURIBOR or Prime and which reset daily, monthly, quarterly, semiannually, or annually. For each, the Company has provided the spread over LIBOR, EURIBOR or Prime and the weighted average current interest rate in effect as of (1) September 30, 2018. Certain investments are subject to a LIBOR, EURIBOR or Prime interest rate floor. For fixed rate loans, a spread above a reference rate is not applicable. Listed below are the index rates as of September 28, 2018, which was the last business day of the period on which LIBOR or EURIBOR was determined. The actual index rate for each loan listed may not be the applicable index rate outstanding as of September 28, 2018, as the loan may have priced or repriced based on an index rate prior to September 28, 2018.

^(a) Denotes that all or a portion of the loan was indexed to the 30-day LIBOR, which was 2.26% as of September 28, 2018.

^(b) Denotes that all or a portion of the loan was indexed to the 60-day LIBOR, which was 2.31% as of September 28, 2018.

See Notes to Consolidated Financial Statements.

Golub Capital BDC, Inc. and Subsidiaries
 Consolidated Schedule of Investments - (continued)
 September 30, 2018
 (In thousands)

- (c) Denotes that all or a portion of the loan was indexed to the 90-day LIBOR, which was 2.40% as of September 28, 2018.
- (d) Denotes that all or a portion of the loan was indexed to the 180-day LIBOR, which was 2.60% as of September 28, 2018.
- (e) Denotes that all or a portion of the loan was indexed to the 360-day LIBOR, which was 2.92% as of September 28, 2018.
- (f) Denotes that all or a portion of the loan was indexed to the Prime rate, which was 5.25% as of September 28, 2018.
- (g) Denotes that all or a portion of the loan was indexed to the 90-day EURIBOR, which was -0.32% as of September 28, 2018.
- (2) For portfolio companies with multiple interest rate contracts, the interest rate shown is a weighted average current interest rate in effect as of September 30, 2018.
- (3) The total principal amount is presented for debt investments while the number of shares or units owned is presented for equity investments.
- (4) The fair value of the investment was valued using significant unobservable inputs. See Note 5. Fair Value Measurements.
 The negative fair value is the result of the capitalized discount on the loan or the unfunded commitment being
- (5) valued below par. The negative amortized cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan.
- (6) The entire commitment was unfunded as of September 30, 2018. As such, no interest is being earned on this investment. The investment may be subject to an unused facility fee.
- (7) Loan was on non-accrual status as of September 30, 2018, meaning that the Company has ceased recognizing interest income on the loan.
 The investment is treated as a non-qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, the
- (8) Company may not acquire any non-qualifying asset unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company's total assets. As of September 30, 2018, total non-qualifying assets at fair value represented 5.8% of the Company's total assets calculated in accordance with the 1940 Act.
 Loan is denominated in foreign currency and is translated into U.S. dollars as of the valuation date or the date of
- (9) the transaction. See Note 2. Significant Accounting Policies and Recent Accounting Updates - Foreign Currency Transactions.
- (10) The headquarters of this portfolio company is located in Canada.
- (11) Equity investments are non-income producing securities unless otherwise noted.
- (12) Ownership of certain equity investments may occur through a holding company or partnership.
- (13) The Company holds an equity investment that entitles it to receive preferential dividends.
- (14) As defined in the 1940 Act, the Company is deemed to be an "affiliated person" of the portfolio company as the Company owns five percent or more of the portfolio company's voting securities ("non-controlled affiliate").
 Transactions related to investments in non-controlled affiliates for the year ended September 30, 2018 were as follows:

Portfolio Company	Fair value as of September 30, 2017	Purchase (cost) ^(h)	Redemption (cost)	Transfer in (out)	Discount accretion	Net change in unrealized gain/(loss)	Fair value as of September 30, 2018	Net realized gain/(loss)	Interest and fee income	Dividend income
-------------------	---	-----------------------------------	----------------------	----------------------	-----------------------	--	---	--------------------------------	----------------------------------	--------------------

Edgar Filing: GOLUB CAPITAL BDC, Inc. - Form 10-Q

Benetech, Inc.	\$ 3,707	\$ 222	\$ (551)	\$—	\$ 1	\$ 1,117	\$ 4,496	\$	—\$ 638	\$	—
Switchfly LLC ⁽ⁱ⁾	—	254	—	2,120	25	389	2,788	—	29	—	—
Total Non-Controlled Affiliates	\$ 3,707	\$ 476	\$ (551)	\$ 2,120	\$ 26	\$ 1,506	\$ 7,284	\$	—\$ 667	\$	—

(h) Purchases at cost includes amounts related to PIK interest capitalized and added to the principal balance of the respective loans.

(i) During the three months ended September 30, 2018, the Company's ownership increased to over five percent of the portfolio company's voting securities.

⁽¹⁵⁾As defined in the 1940 Act, the Company is deemed to be both an "affiliated person" of and "control" this portfolio company as the Company owns more than 25% of the portfolio company's outstanding voting securities or has the power to exercise control over management or policies of such portfolio company (including through a management agreement) ("controlled affiliate"). Transactions related to investments in controlled affiliates for the year ended September 30, 2018 were as follows:

Portfolio Company	Fair value as of September 30, 2017	Purchases (cost)	Redemptions (cost)	Transfer in (out)	Discount accretion	Net change in unrealized gain/(loss)	Fair value as of September 30, 2018	Net realized gain/(loss)	Interest and fee income	Dividend income
Senior Loan Fund LLC ⁽ⁱ⁾	\$ 95,015	\$ 12,163	\$ (34,213)	\$ —	—\$	—\$ 106	\$ 73,071	\$	—\$	—\$
Total Controlled Affiliates	\$ 95,015	\$ 12,163	\$ (34,213)	\$ —	—\$	—\$ 106	\$ 73,071	\$	—\$	—\$

Together with RGA, the Company co-invests through SLF. SLF is capitalized as transactions are completed and all portfolio and investment decisions in respect to SLF must be approved by the SLF investment committee consisting (i) of two representatives of the Company and RGA (with unanimous approval required from (i) one representative of each of the Company and RGA or (ii) both representatives of each of the Company and RGA). Therefore, although the Company owns more than 25% of the voting securities of SLF, the Company does not have sole control over significant actions of SLF for purposes of the 1940 Act or otherwise.

⁽¹⁶⁾ The Company receives quarterly profit distributions from its equity investment in SLF. See Note 4. Investments.

⁽¹⁷⁾ The rate shown is the annualized seven-day yield as of September 30, 2018.

See Notes to Consolidated Financial Statements.

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

Note 1. Organization

Golub Capital BDC, Inc. (“GBDC” and, collectively with its subsidiaries, the “Company”) is an externally managed, closed-end, non-diversified management investment company. GBDC has elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). In addition, for U.S. federal income tax purposes, GBDC has elected to be treated as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”).

The Company’s investment strategy is to invest primarily in one stop (a loan that combines characteristics of traditional first lien senior secured loans and second lien or subordinated loans and that are often referred to by other middle-market lenders as unitranche loans) and other senior secured loans of U.S. middle-market companies. The Company may also selectively invest in second lien and subordinated (a loan that ranks senior only to a borrower’s equity securities and ranks junior to all of such borrower’s other indebtedness in priority of payment) loans of, and warrants and minority equity securities in, U.S. middle-market companies. The Company has entered into an investment advisory agreement (the “Investment Advisory Agreement”) with GC Advisors LLC (the “Investment Adviser”), under which the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, the Company. Under an administration agreement (the “Administration Agreement”) the Company is provided with certain services by an administrator (the “Administrator”), which is currently Golub Capital LLC.

On November 27, 2018, the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”) with Golub Capital Investment Corporation, a Maryland corporation (“GCIC”), Fifth Ave Subsidiary Inc., a Maryland corporation and wholly owned subsidiary of the Company (“Merger Sub”), the Investment Adviser and, for certain limited purposes, the Administrator. The Merger Agreement provides that, subject to the conditions set forth in the Merger Agreement, Merger Sub will merge with and into GCIC, with GCIC continuing as the surviving company and as a wholly-owned subsidiary of the Company (the “Initial Merger”) and, immediately thereafter, GCIC will merge with and into the Company, with the Company continuing as the surviving company (together with the Initial Merger, the “Merger”).

Note 2. Significant Accounting Policies and Recent Accounting Updates

Basis of presentation: The Company is an investment company as defined in the accounting and reporting guidance under Accounting Standards Codification (“ASC”) Topic 946 — Financial Services — Investment Companies (“ASC Topic 946”).

The accompanying interim consolidated financial statements of the Company and related financial information have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6, 10 and 12 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for annual financial statements. In the opinion of management, the consolidated financial statements reflect all adjustments and reclassifications consisting solely of normal accruals that are necessary for the fair presentation of financial results as of and for the periods presented. All intercompany balances and transactions have been eliminated. Certain prior period amounts have been reclassified to conform to the current period presentation. The unaudited interim consolidated financial statements and notes thereto should be read in conjunction with the financial statements and notes thereto in the Company’s Form 10-K for the year ended September 30, 2018, as filed with the U.S. Securities and Exchange Commission (the “SEC”).

Fair value of financial instruments: The Company applies fair value to all of its financial instruments in accordance with ASC Topic 820 — Fair Value Measurement (“ASC Topic 820”). ASC Topic 820 defines fair value, establishes a framework used to measure fair value and requires disclosures for fair value measurements. In accordance with ASC Topic 820, the Company has categorized its financial instruments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity-specific measure. Therefore, when market assumptions are not readily available, the Company’s own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date.

The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for financial instruments classified as Level 3.

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

Any changes to the valuation methodology are reviewed by management and the Company's board of directors (the "Board") to confirm that the changes are appropriate. As markets change, new products develop and the pricing for products becomes more or less transparent, the Company will continue to refine its valuation methodologies. See further description of fair value methodology in Note 5.

Use of estimates: The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Consolidation: As provided under Regulation S-X and ASC Topic 946, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the results of the Company's wholly-owned subsidiaries Golub Capital BDC 2010-1 Holdings LLC ("Holdings"), Golub Capital BDC 2010-1 LLC ("2010 Issuer"), Golub Capital BDC CLO 2014 LLC ("2014 Issuer"), Golub Capital BDC CLO III Depositor LLC ("2018 CLO Depositor"), Golub Capital BDC CLO III LLC ("2018 Issuer"), Golub Capital BDC Funding LLC ("Funding"), Golub Capital BDC Holdings, LLC ("BDC Holdings"), GC SBIC IV, L.P. ("SBIC IV"), GC SBIC V, L.P. ("SBIC V") and GC SBIC VI, L.P. ("SBIC VI"). The Company does not consolidate its non-controlling interest in SLF. See further description of the Company's investment in SLF in Note 4.

Assets related to transactions that do not meet ASC Topic 860 requirements for accounting sale treatment are reflected in the Company's Consolidated Statements of Financial Condition as investments. Those assets are owned by special purpose entities, including 2010 Issuer, 2014 Issuer, 2018 Issuer and Funding that are consolidated in the Company's consolidated financial statements. The creditors of the special purpose entities have received security interests in such assets and such assets are not intended to be available to the creditors of GBDC (or any affiliate of GBDC).

Cash and cash equivalents: Cash and cash equivalents are highly liquid investments with an original maturity of three months or less at the date of acquisition. The Company deposits its cash in financial institutions and, at times, such balances may be in excess of the Federal Deposit Insurance Corporation insurance limits.

Restricted cash and cash equivalents: Restricted cash and cash equivalents include amounts that are collected and are held by trustees who have been appointed as custodians of the assets securing certain of the Company's financing transactions. Restricted cash and cash equivalents are held by the trustees for payment of interest expense and principal on the outstanding borrowings or reinvestment into new assets. In addition, restricted cash and cash equivalents include amounts held within the Company's small business investment company ("SBIC") subsidiaries. The amounts held within the SBICs are generally restricted to the originations of new loans by the SBICs and the payment of U.S. Small Business Administration ("SBA") debentures and related interest expense.

Foreign currency translation: The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) cash and cash equivalents, restricted cash and cash equivalents, fair value of investments, interest receivable, and other assets and liabilities—at the spot exchange rate on the last business day of the period; and
- (2)

purchases and sales of investments, income and expenses—at the exchange rates prevailing on the respective dates of such transactions.

Although net assets and fair values are presented based on the applicable foreign exchange rates described above, the Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in fair values of investments held. Such fluctuations are included with the net realized and unrealized gain or loss from investments. Fluctuations arising from the translation of assets other than investments and liabilities are included with the net change in unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies on the Consolidated Statements of Operations.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with investing in U.S. companies. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

Revenue recognition:

Investments and related investment income: Interest income is accrued based upon the outstanding principal amount and contractual interest terms of debt investments.

Loan origination fees, original issue discount and market discount or premium are capitalized, and the Company accretes or amortizes such amounts over the life of the loan as interest income. For the three months ended December 31, 2018 and 2017, interest income included \$1,953 and \$2,709, respectively, of accretion of discounts. For the three months ended December 31, 2018 and 2017, the Company received loan origination fees of \$3,048 and \$2,069, respectively.

For investments with contractual PIK interest, which represents contractual interest accrued and added to the principal balance that generally becomes due at maturity, the Company will not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not collectible. For the three months ended December 31, 2018 and 2017, the Company recorded PIK income of \$125 and \$285, respectively, and received PIK payments in cash of \$41 and \$2, respectively.

In addition, the Company may generate revenue in the form of amendment, structuring or due diligence fees, fees for providing managerial assistance, consulting fees and prepayment premiums on loans. The Company records these fees as fee income when earned. All other income is recorded into income when earned. For the three months ended December 31, 2018 and 2017, fee income included \$395 and \$435, respectively, of prepayment premiums, which fees are non-recurring.

For the three months ended December 31, 2018 and 2017, the Company received interest and fee income in cash, which excludes capitalized loan origination fees, in the amounts of \$37,650 and \$30,631, respectively.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Each distribution received from limited liability company ("LLC") and limited partnership ("LP") investments is evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, the Company will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment.

For the three months ended December 31, 2018 and 2017, excluding the Company's investment in LLC equity interests in SLF, the Company recorded dividend income of \$39 and \$597, respectively, and return of capital distributions, excluding the Company's investment in LLC equity interests in SLF of \$0 and \$308, respectively, and return of capital distributions of \$2,275 and \$4,200, respectively, from the Company's investment in LLC equity interests in SLF.

Investment transactions are accounted for on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the amortized cost basis of investment, without regard to unrealized gains or losses previously recognized. The Company reports current period changes in fair value of investments that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investments and foreign currency translation in the Consolidated Statements of Operations.

Non-accrual loans: A loan may be left on accrual status during the period the Company is pursuing repayment of the loan. Management reviews all loans that become 90 days or more past due on principal and interest, or when there is reasonable doubt that principal or interest will be collected, for possible placement on non-accrual status. When a loan is placed on non-accrual status, unpaid interest credited to income is reversed. Additionally, any original issue discount and market discount are no longer accreted to interest income as of the date the loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, payments are likely to remain current. The total fair value of non-accrual loans was \$4,588 and \$5,625 as of December 31, 2018 and September 30, 2018, respectively.

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

Partial loan sales: The Company follows the guidance in ASC Topic 860 when accounting for loan participations and other partial loan sales. Such guidance requires a participation or other partial loan sale to meet the definition of a “participating interest”, as defined in the guidance, in order for sale treatment to be allowed. Participations or other partial loan sales which do not meet the definition of a participating interest remain on the Company’s Consolidated Statements of Financial Condition and the proceeds are recorded as a secured borrowing until the definition is met. Secured borrowings are carried at fair value to correspond with the related investments, which are carried at fair value. See Note 5 for additional information.

Income taxes: The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify and be subject to tax as a RIC, among other things, the Company is required to meet certain source of income and asset diversification requirements and timely distribute dividends for U.S. federal income tax purposes to its stockholders of an amount generally at least equal to 90% of investment company taxable income, as defined by the Code and determined without regard to any deduction for dividends paid, for each tax year. The Company has made, and intends to continue to make, the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes with respect to all income distributed to its stockholders.

Depending on the level of taxable income earned in a tax year, the Company may choose to retain taxable income in excess of current year dividend distributions and would distribute such taxable income in the next tax year. The Company may then be required to incur a 4% excise tax on such income. To the extent that the Company determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended December 31, 2018 and 2017, \$0 and \$0, respectively, was incurred for U.S. federal excise tax.

The Company accounts for income taxes in conformity with ASC Topic 740 — Income Taxes (“ASC Topic 740”). ASC Topic 740 provides guidelines for how uncertain tax positions should be recognized, measured, presented and disclosed in financial statements. ASC Topic 740 requires the evaluation of tax positions taken in the course of preparing the Company’s tax returns to determine whether the tax positions are “more-likely-than-not” to be sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense or tax benefit in the current year. It is the Company’s policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. There were no material unrecognized tax benefits or unrecognized tax liabilities related to uncertain income tax positions through December 31, 2018. The Company’s tax returns for the 2015 through 2017 tax years remain subject to examination by U.S. federal and most state tax authorities.

Dividends and distributions: Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend or distribution is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually, although the Company may decide to retain such capital gains for investment.

The Company has adopted a dividend reinvestment plan (“DRIP”) that provides for reinvestment of any distributions the Company declares in cash on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, if the Board authorizes and the Company declares a cash distribution, then stockholders who participate in the DRIP will have their cash distribution reinvested in additional shares of the Company’s common stock, rather than receiving the cash distribution. The Company may use newly issued shares under the guidelines of the DRIP (if the Company’s

shares are trading at a premium to net asset value), or the Company may purchase shares in the open market in connection with the obligations under the plan. In particular, if the Company's shares are trading at a significant discount to net asset value ("NAV") and the Company is otherwise permitted under applicable law to purchase such shares, the Company intends to purchase shares in the open market in connection with any obligations under the DRIP.

In the event the market price per share of the Company's common stock on the date of a distribution exceeds the most recently computed NAV per share of the common stock, the Company will issue shares of common stock to participants in the DRIP at the greater of the most recently computed NAV per share of common stock or 95% of the current market price per share of common stock (or such lesser discount to the current market price per share that still exceeds the most recently computed NAV per share of common stock).

Share repurchase plan: The Company has a share repurchase program (the "Program") which allows the Company to repurchase up to \$75,000 of the Company's outstanding common stock on the open market at prices below the Company's NAV as reported in its most recently published consolidated financial statements. The Board most recently reapproved the Program in August 2018 and the Program may be implemented at the discretion of management. The shares may be purchased from time to time at prevailing market

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

prices, through open market transactions, including block transactions. The Company did not make any repurchases of its common stock during each of the three months ended December 31, 2018 and 2017.

Deferred debt issuance costs: Deferred debt issuance costs represent fees and other direct incremental costs incurred in connection with the Company's borrowings. As of December 31, 2018 and September 30, 2018, the Company had deferred debt issuance costs of \$3,796 and \$2,934, respectively. These amounts are amortized and included in interest expense in the Consolidated Statements of Operations over the estimated average life of the borrowings. Amortization expense for the three months ended December 31, 2018 and 2017, was \$669 and \$794, respectively.

Deferred offering costs: Deferred offering costs consist of fees paid in relation to legal, accounting, regulatory and printing work completed in preparation of equity offerings. Deferred offering costs are charged against the proceeds from equity offerings when received. As of December 31, 2018 and September 30, 2018, deferred offering costs, which are included in other assets on the Consolidated Statements of Financial Condition, were \$111 and \$111, respectively. For the three months ended December 31, 2018, there were no new equity offerings and as such, there was no change in deferred offering costs.

Accounting for derivative instruments: The Company does not utilize hedge accounting and marks its derivatives, if any, to market through a net change in unrealized appreciation (depreciation) on derivative instruments in the Consolidated Statements of Operations.

Securities Exchange Commission ("SEC") Disclosure Update and Simplification: In August 2018, the SEC adopted the final rule under SEC Release No. 33-10532, Disclosure Update and Simplification (the "SEC Release"), amending certain disclosure requirements intended to facilitate the disclosure of information to investors and simplify compliance. The effective date for the SEC Release is effective for all filings on or after November 5, 2018. The Company first adopted the SEC Release for the fiscal year ended September 30, 2018. The SEC Release required presentation changes to the Company's Consolidated Statements of Financial Condition and Consolidated Statements of Changes in Net Assets. Prior to adoption, the Company presented, in accordance with previous SEC rules, distributable earnings on the Consolidated Statements of Financial Condition, as three components: 1) undistributed net investment income; 2) net unrealized appreciation (depreciation) on investments; and 3) net realized gain (loss) on investments and presented distributions from distributable earnings on the Consolidated Statements of Changes in Net Assets as two components: 1) distributions from net investment income; and 2) distributions from realized gain. In accordance with the SEC Release, distributable earnings and distributions from distributable earnings are shown in total on the Consolidated Statements of Financial Condition and Consolidated Statements of Changes in Net Assets, respectively. The changes in presentation have been retrospectively applied to the Consolidated Statements of Changes in Net Assets for the period ended December 31, 2017.

Note 3. Related Party Transactions

Investment Advisory Agreement: Under the Investment Advisory Agreement, the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, GBDC. The Board most recently reapproved the Investment Advisory Agreement in May 2018. The Investment Adviser is a registered investment adviser with the SEC. The Investment Adviser receives fees for providing services, consisting of two components, a base management fee and an Incentive Fee (as defined below).

The base management fee is calculated at an annual rate equal to 1.375% of average adjusted gross assets at the end of the two most recently completed calendar quarters (including assets purchased with borrowed funds and

securitization-related assets, leverage, unrealized depreciation or appreciation on derivative instruments and cash collateral on deposit with custodian but adjusted to exclude cash and cash equivalents so that investors do not pay the base management fee on such assets) and is payable quarterly in arrears. Additionally, the Investment Adviser voluntarily excludes any assets funded with secured borrowing proceeds from the base management fee calculation. The base management fee is adjusted, based on the actual number of days elapsed relative to the total number of days in such calendar quarter, for any share issuances or repurchases during such calendar quarter. For purposes of the Investment Advisory Agreement, cash equivalents means U.S. government securities and commercial paper instruments maturing within 270 days of purchase (which is different than the GAAP definition, which defines cash equivalents as U.S. government securities and commercial paper instruments maturing within 90 days of purchase). To the extent that the Investment Adviser or any of its affiliates provides investment advisory, collateral management or other similar services to a subsidiary of the Company, the base management fee will be reduced by an amount equal to the product of (1) the total fees paid to the Investment Adviser by such subsidiary for such services and (2) the percentage of such subsidiary's total equity, including membership interests and any class of notes not exclusively held by one or more third parties, that is owned, directly or indirectly, by the Company.

The Company has structured the calculation of the Incentive Fee to include a fee limitation such that an Incentive Fee for any quarter can only be paid to the Investment Adviser if, after such payment, the cumulative Incentive Fees paid to the Investment Adviser since

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

April 13, 2010, the effective date of the Company's election to become a BDC, would be less than or equal to 20.0% of the Company's Cumulative Pre-Incentive Fee Net Income (as defined below).

The Company accomplishes this limitation by subjecting each quarterly Incentive Fee payable under the Income and Capital Gain Incentive Fee Calculation (as defined below) to a cap (the "Incentive Fee Cap"). The Incentive Fee Cap in any quarter is equal to the difference between (a) 20.0% of Cumulative Pre-Incentive Fee Net Income and (b) cumulative Incentive Fees of any kind paid to the Investment Adviser by GBDC since April 13, 2010. To the extent the Incentive Fee Cap is zero or a negative value in any quarter, no Incentive Fee would be payable in that quarter. If, for any relevant period, the Incentive Fee Cap calculation results in the Company paying less than the amount of the Incentive Fee calculated above, then the difference between the Incentive Fee and the Incentive Fee Cap will not be paid by GBDC and will not be received by the Investment Adviser as an Incentive Fee either at the end of such relevant period or at the end of any future period. "Cumulative Pre-Incentive Fee Net Income" is equal to the sum of (a) Pre-Incentive Fee Net Investment Income (as defined below) for each period since April 13, 2010 and (b) cumulative aggregate realized capital gains, cumulative aggregate realized capital losses, cumulative aggregate unrealized capital depreciation and cumulative aggregate unrealized capital appreciation since April 13, 2010.

"Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the calendar quarter (including the base management fee, taxes, any expenses payable under the Investment Advisory Agreement and the Administration Agreement, any expenses of securitizations and any interest expense and dividends paid on any outstanding preferred stock, but excluding the Incentive Fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that the Company has not yet received in cash.

Incentive Fees are calculated and payable quarterly in arrears (or, upon termination of the Investment Advisory Agreement, as of the termination date).

The income and capital gains incentive fee calculation (the "Income and Capital Gain Incentive Fee Calculation") has two parts, the income component (the "Income Incentive Fee") and the capital gains component (the "Capital Gain Incentive Fee" and, together with the Income Incentive Fee, the "Incentive Fee"). The Income Incentive Fee is calculated quarterly in arrears based on the Company's Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter.

For the three months ended December 31, 2018 and 2017, the Income Incentive Fee incurred was \$2,461 and \$2,158, respectively.

Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Because of the structure of the Income Incentive Fee, it is possible that an Incentive Fee may be calculated under this formula with respect to a period in which the Company has incurred a loss. For example, if the Company receives Pre-Incentive Fee Net Investment Income in excess of the hurdle rate (as defined below) for a calendar quarter, the Income Incentive Fee will result in a positive value and an Incentive Fee will be paid even if the Company has incurred a loss in such period due to realized and/or unrealized capital losses unless the payment of such Incentive Fee would cause the Company to pay Incentive Fees on a cumulative basis that exceed the Incentive Fee Cap. Pre-Incentive Fee Net Investment Income, expressed as a rate of return on the value of

the Company's net assets (defined as total assets less indebtedness and before taking into account any Incentive Fees payable during the period) at the end of the immediately preceding calendar quarter, is compared to a fixed "hurdle rate" of 2.0% quarterly. If market interest rates rise, the Company may be able to invest funds in debt instruments that provide for a higher return, which would increase Pre-Incentive Fee Net Investment Income and make it easier for the Investment Adviser to surpass the fixed hurdle rate and receive an Incentive Fee based on such net investment income.

The Company's Pre-Incentive Fee Net Investment Income used to calculate this part of the Incentive Fee is also included in the amount of its total assets (excluding cash and cash equivalents but including assets purchased with borrowed funds and securitization-related assets, unrealized depreciation or appreciation on derivative instruments and cash collateral on deposit with custodian) used to calculate the 1.375% base management fee annual rate.

The Company calculates the Income Incentive Fee with respect to its Pre-Incentive Fee Net Investment Income quarterly, in arrears, as follows:

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

Zero in any calendar quarter in which the Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate; 100% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.5% in any calendar quarter. This portion of the Company's Pre-Incentive Fee Net Investment Income (which exceeds the hurdle rate but is less than 2.5%) is referred to as the "catch-up" provision. The catch-up is meant to provide the Investment Adviser with 20.0% of the Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply if the Company's Pre-Incentive Fee Net Investment Income exceeds 2.5% in any calendar quarter; and 20.0% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.5% in any calendar quarter.

The Capital Gain Incentive Fee equals (a) 20.0% of the Company's Capital Gain Incentive Fee Base (as defined below), if any, calculated in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date), which commenced with the calendar year ending December 31, 2010, less (b) the aggregate amount of any previously paid Capital Gain Incentive Fees. The Company's "Capital Gain Incentive Fee Base" equals (1) the sum of (i) realized capital gains, if any, on a cumulative positive basis from the date the Company elected to become a BDC through the end of each calendar year, (ii) all realized capital losses on a cumulative basis and (iii) all unrealized capital depreciation on a cumulative basis less (2) all unamortized deferred debt issuance costs, if and to the extent such costs exceed all unrealized capital appreciation on a cumulative basis.

The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in the Company's portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.

The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in the Company's portfolio when sold and (b) the accreted or amortized cost basis of such investment.

The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in the Company's portfolio as of the applicable Capital Gain Incentive Fee calculation date and (b) the accreted or amortized cost basis of such investment.

In accordance with GAAP, the Company also is required to include the aggregate unrealized capital appreciation on investments in the calculation and accrue a capital gain incentive fee on a quarterly basis as if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Advisory Agreement. If the Capital Gain Incentive Fee Base, adjusted as required by GAAP to include unrealized capital appreciation, is positive at the end of a period, then GAAP requires the Company to accrue a capital gain incentive fee equal to 20% of such amount, less the aggregate amount of the actual Capital Gain Incentive Fees paid and capital gain incentive fees accrued under GAAP in all prior periods. If such amount is negative, then there is no accrual for such period. The resulting accrual under GAAP in a given period may result in additional expense if such cumulative amount is greater than in the prior period or a reversal of previously recorded expense if such cumulative amount is less than in the prior period. There can be no assurance that such unrealized capital appreciation will be realized in the future. For the three months ended December 31, 2018, the Company had a reversal of the accrual of the capital gain incentive fee of \$478, and for the three months ended December 31, 2017, the Company accrued a capital gain incentive fee of \$713, which accruals are included in incentive fee in the Consolidated Statements of Operations. As of December 31, 2018 and September 30, 2018, included in management and incentive fees payable on the Consolidated Statements of Financial Condition were \$6,680 and \$7,158, respectively, for cumulative accruals for capital gain incentive fees under GAAP, including the amounts payable pursuant to the Investment Advisory Agreement described above.

As of December 31, 2018 and September 30, 2018 the Capital Gain Incentive Fee payable as calculated under the Investment Advisory Agreement (as described above) was \$1,578 and \$2,303, respectively. Any payment due under the terms of the Investment Advisory Agreement is calculated in arrears at the end of each calendar year, and the Company paid a \$1,196 Capital Gain Incentive Fee calculated in accordance with the Investment Advisory Agreement as of December 31, 2017. The Company did not pay any capital gain incentive fee under the Investment Advisory Agreement for any period ended prior to December 31, 2017.

The sum of the Income Incentive Fee and the Capital Gain Incentive Fee is the “Incentive Fee.”

Administration Agreement: Under the Administration Agreement, the Administrator furnishes the Company with office facilities and equipment, provides the Company with clerical, bookkeeping and record keeping services at such facilities and provides the Company with other administrative services as the Administrator, subject to review by the Board, determines necessary to conduct the

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

Company's day-to-day operations. The Company reimburses the Administrator the allocable portion of overhead and other expenses incurred by it in performing its obligations under the Administration Agreement, including rent, fees and expenses associated with performing compliance functions and the Company's allocable portion of the cost of its chief financial officer and chief compliance officer and their respective staffs. The Board reviews such expenses to determine that these expenses, including any allocation of expenses among the Company and other entities for which the Administrator provides similar services, are reasonable and comparable to administrative services charged by unaffiliated third party asset managers. Under the Administration Agreement, the Administrator also provides, on the Company's behalf, managerial assistance to those portfolio companies to which the Company is required to provide such assistance and will be paid an additional amount based on the cost of the services provided, which amount shall not exceed the amount the Company receives from such portfolio companies.

Included in accounts payable and accrued expenses is \$699 and \$616 as of December 31, 2018 and September 30, 2018, respectively, for accrued allocated shared services under the Administration Agreement.

Other related party transactions: The Administrator pays for certain unaffiliated third-party expenses incurred by the Company. Such expenses include postage, printing, office supplies, rating agency fees and professional fees. These expenses are not marked-up and represent the same amount the Company would have paid had the Company paid the expenses directly. These expenses are subsequently reimbursed in cash.

Total expenses reimbursed to the Administrator during the three months ended December 31, 2018 and 2017 were \$364 and \$799, respectively.

As of December 31, 2018 and September 30, 2018, included in accounts payable and accrued expenses were \$845 and \$364, respectively, for accrued expenses paid on behalf of the Company by the Administrator.

On June 22, 2016, the Company entered into an unsecured revolving credit facility with the Investment Adviser (the "Adviser Revolver"), with a maximum credit limit of \$20,000 and expiration date of June 22, 2019. Refer to Note 6 for discussion of the Adviser Revolver.

During the three months ended December 31, 2018, and 2017, the Company did not complete any sale transactions with SLF.

During the three months ended December 31, 2018, and 2017, SLF incurred an administrative service fee of \$80 and \$113, respectively.

On November 27, 2018, the Company entered into the Merger Agreement with GCIC, Merger Sub, the Investment Adviser and, for certain limited purposes, the Administrator. Refer to Note 11 for discussion of the Merger.

Senior Loan Fund LLC:

The Company co-invests with RGA in senior secured loans through SLF, an unconsolidated Delaware LLC. SLF is capitalized as transactions are completed and all portfolio and investment decisions in respect of SLF must be approved by the SLF investment committee consisting of two representatives of each of the Company and RGA (with unanimous approval required from (i) one representative of each of the Company and RGA or (ii) both representatives of each of the Company and RGA). SLF may cease making new investments upon notification of either member but operations will continue until all investments have been sold or paid-off in the normal course of business. Investments held by SLF are measured at fair value using the same valuation methodologies as described in Note 5.

As of December 31, 2018 and September 30, 2018, SLF was capitalized by LLC equity interest subscriptions from its members. As of December 31, 2018 and September 30, 2018, the Company and RGA owned 87.5% and 12.5%, respectively, of the LLC equity interests of SLF. SLF's profits and losses are allocated to the Company and RGA in accordance with their respective ownership interests.

SLF has entered into a senior secured revolving credit facility (as amended, the “SLF Credit Facility”) with Wells Fargo Bank, N.A., through its wholly-owned subsidiary Senior Loan Fund II LLC (“SLF II”), which as of December 31, 2018 allowed SLF II to borrow up to \$101,404 at any one time outstanding, subject to leverage and borrowing base restrictions.

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

As of December 31, 2018 and September 30, 2018, SLF had the following commitments from its members (in the aggregate):

	As of December 31, 2018		As of September 30, 2018	
	Committed	Funded ⁽¹⁾	Committed	Funded ⁽¹⁾
LLC equity commitments	\$200,000	\$ 83,580	\$200,000	\$ 86,180
Total	\$200,000	\$ 83,580	\$200,000	\$ 86,180

⁽¹⁾ Funded LLC equity commitments are presented net of return of capital distributions subject to recall.

As of December 31, 2018 and September 30, 2018, SLF had total assets at fair value of \$180,692 and \$186,326, respectively. As of December 31, 2018, SLF had two portfolio company investments on non-accrual status with a fair value of \$4,602. As of September 30, 2018, SLF had one portfolio company investment on non-accrual status with a fair value of \$3,856. The portfolio companies in SLF are in industries and geographies similar to those in which the Company may invest directly. Additionally, as of December 31, 2018 and September 30, 2018, SLF had commitments to fund various undrawn revolvers and delayed draw investments to its portfolio companies totaling \$5,612 and \$5,920, respectively.

Below is a summary of SLF's portfolio, followed by a listing of the individual investments in SLF's portfolio as of December 31, 2018 and September 30, 2018:

	As of December 31, 2018	As of September 30, 2018
Senior secured loans ⁽¹⁾	\$180,615	\$183,668
Weighted average current interest rate on senior secured loans ⁽²⁾	7.8	% 7.5 %
Number of borrowers in SLF	31	32
Largest portfolio company investments ⁽¹⁾	\$12,753	\$13,716
Total of five largest portfolio company investments ⁽¹⁾	\$55,730	\$57,330

⁽¹⁾ At principal amount.

⁽²⁾ Computed as the (a) annual stated interest rate on accruing senior secured loans divided by (b) total senior secured loans at principal amount.

See below for certain summarized financial information for SLF as of December 31, 2018 and September 30, 2018 and for the three months ended December 31, 2018 and 2017:

	As of December 31, 2018	As of September 30, 2018	Three months ended December 31, 2018 2017	
Selected Balance Sheet Information:				
Investments, at fair value	\$ 174,444	\$ 179,180		
Cash and other assets	5,959	7,146		
Receivable from investments sold	289	—		
Total assets	\$ 180,692	\$ 186,326		
Senior credit facility	\$ 101,404	\$ 104,622		
Unamortized debt issuance costs	—	(18)	
Other liabilities	528	484		
Total liabilities	101,932	105,088		
Members' equity	78,760	81,238		
Total liabilities and members' equity	\$ 180,692	\$ 186,326		
Selected Statement of Operations Information:				
Interest income			\$3,636	\$4,908
Fee income			9	25
Total investment income			3,645	4,933
Interest and other debt financing expense			1,187	2,079
Administrative service fee			80	113
Other expenses			24	29
Total expenses			1,291	2,221
Net investment income			2,354	2,712
Net realized gain (loss) on investments			(1,314) —
Net change in unrealized appreciation (depreciation) on investments			(918) 421
Net increase (decrease) in members' equity			\$122	\$3,133

Note 5. Fair Value Measurements

The Company follows ASC Topic 820 for measuring fair value. Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the assets or liabilities or market and the assets' or liabilities' complexity. The Company's fair value analysis includes an analysis of the value of any unfunded loan commitments. Assets and liabilities are categorized for disclosure purposes based upon the level of judgment associated with the inputs used to measure their value. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the asset or liability as of the measurement date. The three levels are defined as follows:

Level 1: Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2: Inputs include quoted prices for similar assets or liabilities in active markets and inputs that are observable for the assets or liabilities, either directly or indirectly, for substantially the full term of the assets or liabilities.

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

Level 3: Inputs include significant unobservable inputs for the assets or liabilities and include situations where there is little, if any, market activity for the assets or liabilities. The inputs into the determination of fair value are based upon the best information available and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or a liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. The Company assesses the levels of assets and liabilities at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfers. There were no transfers among Level 1, 2 and 3 of the fair value hierarchy for assets and liabilities during the three months ended December 31, 2018 and 2017. The following section describes the valuation techniques used by the Company to measure different assets and liabilities at fair value and includes the level within the fair value hierarchy in which the assets and liabilities are categorized.

Investments

Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with approximately 25% (based on the number of portfolio companies) of the Company's valuations of debt and equity investments without readily available market quotations subject to review by an independent valuation firm. All investments as of December 31, 2018 and September 30, 2018, with the exception of money market funds included in cash, cash equivalents and restricted cash and cash equivalents (Level 1 investments) and investments measured at fair value using the NAV, were valued using Level 3 inputs.

When determining fair value of Level 3 debt and equity investments, the Company may take into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made and other relevant factors. The primary method for determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's net income before net interest expense, income tax expense, depreciation and amortization ("EBITDA"). A portfolio company's EBITDA may include pro forma adjustments for items such as acquisitions, divestitures, or expense reductions. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, the Company will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, the Company uses a market interest rate yield analysis to determine fair value.

In addition, for certain debt investments, the Company may base its valuation on indicative bid and ask prices provided by an independent third party pricing service. Bid prices reflect the highest price that the Company and others may be willing to pay. Ask prices represent the lowest price that the Company and others may be willing to

accept. The Company generally uses the midpoint of the bid/ask range as its best estimate of fair value of such investment.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company may realize significantly less than the value at which such investment had previously been recorded. The Company's investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

Secured Borrowings

The Company has elected the fair value option under ASC Topic 825 - Financial Instruments, relating to accounting for debt obligations at their fair value for its secured borrowings which arose due to partial loan sales which did not meet the criteria for sale treatment under ASC Topic 860. The Company reports changes in the fair value of its secured borrowings as a component of the net change in unrealized (appreciation) depreciation on secured borrowings in the Consolidated Statements of Operations. The net gain or loss reflects the difference between the fair value and the principal amount due on maturity.

As of December 31, 2018 and September 30, 2018, there were no secured borrowings outstanding. Previous secured borrowings were valued using Level 3 inputs under the fair value hierarchy, and the Company's approach to determining fair value of Level 3 secured borrowings is consistent with its approach to determining fair value of the Level 3 investments that are associated with these secured borrowings as previously described.

The following tables present fair value measurements of the Company's investments and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value as of December 31, 2018 and September 30, 2018:

As of December 31, 2018	Fair Value Measurements Using			
Description	Level 1	Level 2	Level 3	Total
Assets, at fair value:				
Debt investments ⁽¹⁾	\$—	\$	-\$1,804,465	\$1,804,465
Equity investments ⁽¹⁾	—	—	45,099	45,099
Money market funds ⁽¹⁾⁽²⁾	22,847	—	—	22,847
Investment measured at NAV ⁽³⁾⁽⁴⁾	—	—	—	68,915
Total assets, at fair value:	\$22,847	\$	-\$1,849,564	\$1,941,326
As of September 30, 2018	Fair Value Measurements Using			
Description	Level 1	Level 2	Level 3	Total
Assets, at fair value:				
Debt investments ⁽¹⁾	\$—	\$	-\$1,671,051	\$1,671,051
Equity investments ⁽¹⁾	—	—	40,706	40,706
Money market funds ⁽¹⁾⁽²⁾	10,532	—	—	10,532
Investment measured at NAV ⁽³⁾⁽⁴⁾	—	—	—	71,084
Total assets, at fair value:	\$10,532	\$	-\$1,711,757	\$1,793,373

(1) Refer to the Consolidated Schedules of Investments for further details.

(2) Included in cash and cash equivalents and restricted cash, cash equivalents and foreign currencies on the Consolidated Statements of Financial Condition.

(3) Certain investments that are measured at fair value using the NAV have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Consolidated Statements of Financial Condition.

(4) Represents the Company's investment in LLC equity interests in SLF. The fair value of this investment has been determined using the NAV of the Company's ownership interest in members' capital.

The net change in unrealized appreciation (depreciation) for the three months ended December 31, 2018 and 2017 reported within the net change in unrealized appreciation (depreciation) on investments in the Company's Consolidated

Statements of Operations attributable to the Company's Level 3 assets held as of December 31, 2018 and 2017 was \$827 and \$1,682, respectively.

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

The following tables present quantitative information about the significant unobservable inputs of the Company's Level 3 investments as of December 31, 2018 and September 30, 2018.

Quantitative information about Level 3 Fair Value Measurements

	Fair value as of December 31, 2018	Valuation Techniques	Unobservable Input	Range (Weighted Average)
Assets:				
Senior secured loans ⁽¹⁾⁽²⁾	\$ 251,472	Market rate approach	Market interest rate	4.3% - 10.3% (7.5%)
		Market comparable companies	EBITDA multiples	5.0x - 22.7x (11.4x)
	4,142	Market comparable	Broker/dealer bids or quotes	N/A
One stop loans ⁽¹⁾⁽³⁾⁽⁴⁾	\$ 1,531,042	Market rate approach	Market interest rate	2.0% - 15.8% (8.8%)
		Market comparable companies	EBITDA multiples	4.5x - 35.0x (13.6x)
			Revenue multiples	1.3x - 6.5x (4.1x)
	3,135	Market comparable	Broker/dealer bids or quotes	N/A
Subordinated debt and second lien loans ⁽¹⁾⁽⁵⁾	\$ 10,086	Market rate approach	Market interest rate	6.0% - 19.5% (10.7%)
		Market comparable companies	EBITDA multiples	10.5x - 13.0x (10.5x)
			Revenue multiples	3.5x - 4.0x (3.8x)
Equity ⁽⁶⁾⁽⁷⁾	\$ 45,099	Market comparable companies	EBITDA multiples	4.5x - 26.9x (12.6x)
			Revenue multiples	1.3x - 5.5x (3.5x)

(1) The fair value of this asset class was determined using the market rate approach as the investments in this asset class were determined not to be credit impaired using the market comparable companies approach. The unobservable inputs for both valuation techniques have been presented, but the fair value as of December 31, 2018 was determined using the market rate approach.

(2) Excludes \$1,182 of non-accrual loans at fair value, which the Company valued using the market comparable companies approach.

(3) Excludes \$3,406 of non-accrual loans at fair value, which the Company valued using the market comparable companies approach.

(4) The Company valued \$1,388,299 and \$142,743 of one stop loans using EBITDA and revenue multiples, respectively. All one stop loans were also valued using the market rate approach.

(5) The Company valued \$9,592 and \$494 of subordinated debt and second lien loans using EBITDA and revenue multiples, respectively. All subordinated debt and second lien loans were also valued using the market rate approach.

(6) Excludes \$68,915 of LLC equity interests in SLF at fair value, which the Company valued using the NAV.

(7) The Company valued \$40,412 and \$4,687 of equity investments using EBITDA and revenue multiples, respectively.

Quantitative information about Level 3 Fair Value Measurements

	Fair value as of September 30, 2018	Valuation Techniques	Unobservable Input	Range (Weighted Average)
Assets:				
Senior secured loans ⁽¹⁾⁽²⁾	\$ 225,960	Market rate approach	Market interest rate	4.3% - 9.9% (7.2%)
		Market comparable companies	EBITDA multiples	5.0x - 15.0x (11.1x)
		3,926	Market comparable	Broker/dealer bids or quotes
One stop loans ⁽¹⁾⁽³⁾⁽⁴⁾	\$ 1,422,601	Market rate approach	Market interest rate	2.0% - 13.8% (8.8%)
		Market comparable companies	EBITDA multiples	4.5x - 35.0x (13.6x)
			Revenue multiples	1.3x - 10.2x (4.1x)
		3,253	Market comparable	Broker/dealer bids or quotes
Subordinated debt and second lien loans ⁽¹⁾⁽⁵⁾	\$ 9,686	Market rate approach	Market interest rate	8.0% - 19.5% (10.4%)
		Market comparable companies	EBITDA multiples	10.5x - 11.0x (10.5x)
			Revenue multiples	5.1x
Equity ⁽⁶⁾⁽⁷⁾	\$ 40,706	Market comparable companies	EBITDA multiples	4.5x - 28.5x (12.2x)
			Revenue multiples	1.3x - 10.2x (4.0x)

The fair value of this asset class was determined using the market rate approach as the investments in this asset class were determined not to be credit impaired using the market comparable companies approach. The unobservable inputs for both valuation techniques have been presented, but the fair value as of September 30, 2018 was determined using the market rate approach.

(1) Excludes \$1,283 of non-accrual loans at fair value, which the Company valued using the market comparable companies approach.

(2) Excludes \$4,342 of non-accrual loans at fair value, which the Company valued using the market comparable companies approach.

(3) The Company valued \$1,253,179 and \$169,422 of one stop loans using EBITDA and revenue multiples, respectively. All one stop loans were also valued using the market rate approach.

(4) The Company valued \$9,502 and \$184 of subordinated debt and second lien loans using EBITDA and revenue multiples, respectively. All subordinated debt and second lien loans were also valued using the market rate approach.

(5) Excludes \$71,084 of LLC equity interests in SLF at fair value, which the Company valued using the NAV.

(6) The Company valued \$36,714 and \$3,992 of equity investments using EBITDA and revenue multiples, respectively.

The above tables are not intended to be all-inclusive but rather to provide information on significant unobservable inputs and valuation techniques used by the Company.

The significant unobservable inputs used in the fair value measurement of the Company's debt and equity investments are EBITDA multiples, revenue multiples and market interest rates. The Company uses EBITDA multiples and, to a lesser extent, revenue multiples on its debt and equity investments to determine any credit gains or losses. Increases or decreases in either of these inputs in isolation would have resulted in a significantly lower or higher fair value measurement. The Company uses market interest rates for loans to determine if the effective yield on a loan is commensurate with the market yields for that type of loan. If a loan's effective yield was significantly less than the market yield for a similar loan with a similar credit profile, then the resulting fair value of the loan may have been lower.

Other Financial Assets and Liabilities

ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate such value. As a result, with the exception of the line item titled "debt" which is reported at cost, all assets and liabilities approximate fair value on the Consolidated Statements of Financial Condition due to their short maturity. Fair value of the Company's debt is estimated using Level 3 inputs by discounting remaining payments using comparable market rates or market quotes for similar instruments at the measurement date, if available.

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

The following are the carrying values and fair values of the Company's debt and other short-term borrowings as of December 31, 2018 and September 30, 2018. Fair value is estimated by discounting remaining payments using applicable market rates or market quotes for similar instruments at the measurement date, if available.

	As of December 31, 2018		As of September 30, 2018	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Debt	\$971,814	\$960,104	\$845,683	\$837,578
Other short-term borrowings	21,687	21,687	—	—

Note 6. Borrowings

In accordance with the 1940 Act, with certain limited exceptions, prior to February 6, 2018 the Company was allowed to borrow amounts such that its asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing. The Small Business Credit Availability Act ("SBCAA"), which was signed into law on March 23, 2018, among other things, amended Section 61(a) of the 1940 Act to add a new Section 61(a)(2) that reduces the asset coverage requirement applicable to business development companies from 200% to 150% so long as the business development company meets certain disclosure requirements and obtains certain approvals. The reduced asset coverage requirement would permit a business development company to have a ratio of total consolidated assets to outstanding indebtedness of 2:1 as compared to a maximum of 1:1 under the 200% asset coverage requirement. As of December 31, 2018, the Company had not obtained either approval and, as a result and subject to the exemptive relief described below, remained subject to the 200% asset coverage requirement under Section 61(a)(1) of the 1940 Act. On February 5, 2019, the Company's stockholders voted to approve the application of the reduced asset coverage requirements to 150%, which became effective as of February 6, 2019. On September 13, 2011, the Company received exemptive relief from the SEC allowing it to modify the asset coverage requirement to exclude the SBA debentures from the asset coverage calculation. As such, the Company's ratio of total consolidated assets to outstanding indebtedness may be less than the applicable asset coverage requirement under the 1940 Act. This provides the Company with increased investment flexibility but also increases its risks related to leverage. As of December 31, 2018, the Company's asset coverage for borrowed amounts was 234.02% (excluding the SBA debentures).

Debt Securitizations: On July 16, 2010, the Company completed a \$300,000 term debt securitization, which was subsequently increased to \$350,000 (as amended, "2010 Debt Securitization"). Term debt securitizations are also known as collateralized loan obligations ("CLOs") and are a form of secured financing incurred by the Company, which is consolidated by the Company and subject to the Company's overall asset coverage requirements. The notes ("2010 Notes") offered in the 2010 Debt Securitization were issued by the 2010 Issuer, a subsidiary of Holdings. Through October 19, 2016, the 2010 Debt Securitization consisted of \$203,000 of Aaa/AAA Class A 2010 Notes that bore interest at a rate of three-month LIBOR plus 1.74%, \$12,000 of Class B 2010 Notes that bore interest at a rate of three-month LIBOR plus 2.40% and \$135,000 of Subordinated 2010 Notes that do not bear interest. On October 20, 2016, the Company and the 2010 Issuer further amended the 2010 Debt Securitization to, among other things, (a) refinance the issued Class A 2010 Notes by redeeming in full the Class A 2010 Notes and issuing new Class A-Refi 2010 Notes in an aggregate principal amount of \$205,000 that bore interest at a rate of three-month LIBOR plus 1.90%, (b) refinance the Class B 2010 Notes by redeeming in full the Class B 2010 Notes and issuing new Class B-Refi 2010 Notes in an aggregate principal amount of \$10,000 that bore interest at a rate of three-month LIBOR plus 2.40%, and (c) extend the reinvestment period applicable to the 2010 Issuer to July 20, 2018. Following the refinancing, Holdings retained the Class B-Refi 2010 Notes. Through July 20, 2018, all principal collections received on the underlying collateral could have been used by the 2010 Issuer to purchase new collateral under the direction of

the Investment Adviser in its capacity as collateral manager of the 2010 Issuer and in accordance with the Company's investment strategy, allowing the Company to maintain the leverage in the 2010 Debt Securitization. The 2010 Notes were scheduled to mature on July 20, 2023.

On July 20, 2018, in connection with a new revolving credit facility, the 2010 Issuer redeemed the outstanding 2010 Notes pursuant to the terms of the indenture governing such 2010 Notes. Following such redemption, the agreements governing the 2010 Debt Securitization were terminated.

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

The interest charged under the 2010 Debt Securitization was based on three-month LIBOR. For the three months ended December 31, 2018 and 2017, the components of interest expense, cash paid for interest, average interest rates and average outstanding balances for the 2010 Debt Securitization were as follows:

	For the three months ended December 31, 2018	2017
Stated interest expense	\$-1,703	
Amortization of debt issuance costs	—62	
Total interest and other debt financing expenses	\$-1,765	
Cash paid for interest expense	\$-1,680	
Annualized average stated interest rate	N/A	3%
Average outstanding balance	\$-205,000	

On June 5, 2014, the Company completed a \$402,569 term debt securitization (“2014 Debt Securitization”). Term debt securitizations are also known as CLOs and are a form of secured financing incurred by the Company, which is consolidated by the Company and subject to the Company’s overall asset coverage requirements. The notes (“2014 Notes”) offered in the 2014 Debt Securitization were issued by the 2014 Issuer and are secured by a diversified portfolio of senior secured and second lien loans held by the 2014 Issuer. The 2014 Debt Securitization initially consisted of \$191,000 of Aaa/AAA Class A-1 2014 Notes, \$20,000 of Aaa/AAA Class A-2 2014 Notes and \$35,000 of Aa2/AA Class B 2014 Notes. In partial consideration for the loans transferred to the 2014 Issuer as part of the 2014 Debt Securitization, the Company received \$37,500 of Class C 2014 Notes and \$119,069 of LLC equity interests in the 2014 Issuer. The Company retained all of the Class C 2014 Notes and LLC equity interests totaling \$37,500 and \$119,069, respectively. On March 23, 2018, the Company and the 2014 Issuer amended the 2014 Debt Securitization to, among other things, (a) refinance the issued Class A-1 2014 Notes by redeeming in full the \$191.0 million of Class A-1 2014 Notes and issuing new Class A-1-R 2014 Notes in an aggregate principal amount of \$191,000 that bear interest at a rate of three-month LIBOR plus 0.95%, which is a decrease from the rate of three-month LIBOR plus 1.75% of the previously outstanding Class A-1 2014 Notes, (b) refinance the Class A-2 2014 Notes by redeeming in full the \$20,000 of Class A-2 2014 Notes and issuing new Class A-2-R 2014 Notes in an aggregate principal amount of \$20,000 that bear interest at a rate of three-month LIBOR plus 0.95%, which is a decrease from the rate of three-month LIBOR plus 1.95% of the previously outstanding Class A-2 2014 Notes, (c) refinance the Class B 2014 Notes by redeeming in full the \$35,000 of Class B 2014 Notes and issuing new Class B-R 2014 Notes in an aggregate principal amount of \$35,000 that bear interest at a rate of three-month LIBOR plus 1.40%, which is a decrease from the rate of three-month LIBOR plus 2.50% of the previously outstanding Class B 2014 Notes, (d) refinance the Class C 2014 Notes by redeeming in full the \$37,500 of Class C 2014 Notes and issuing new Class C-R 2014 Notes in an aggregate principal amount of \$37,500 that bear interest at a rate of three-month LIBOR plus 1.55%, which is a decrease from the rate of three-month LIBOR plus 3.50% of the previously outstanding Class C 2014 Notes. The Class C-R 2014 Notes were retained by the Company, and the Company remains the sole owner of the equity of the 2014 Issuer. The Class A-1-R, Class A-2-R and Class B-R 2014 Notes are included in the December 31, 2018 and September 30, 2018 Consolidated Statement of Financial Condition as debt of the Company and the Class C-R 2014 Notes and LLC equity interests were eliminated in consolidation.

Through April 28, 2018, all principal collections received on the underlying collateral could have been used by the 2014 Issuer to purchase new collateral under the direction of the Investment Adviser in its capacity as collateral manager of the 2014 Issuer and in accordance with the Company’s investment strategy, allowing the Company to maintain the initial leverage in the 2014 Debt Securitization. For the three months ended December 31, 2018 and

2017, the Company had repayments on the 2014 Notes of \$8,479 and \$0, respectively. The 2014 Notes are scheduled to mature on April 25, 2026.

As of December 31, 2018 and 2017, there were 79 and 83 portfolio companies with a total fair value of \$336,217 and \$384,290, respectively, securing the 2014 Notes. The pool of loans in the 2014 Debt Securitization must meet certain requirements, including asset mix and concentration, collateral coverage, term, agency rating, minimum coupon, minimum spread and sector diversity requirements.

The interest charged under the 2014 Debt Securitization is based on three-month LIBOR. The three-month LIBOR in effect as of December 31, 2018 based on the last interest rate reset was 2.5%. For the three months ended December 31, 2018 and 2017, the components of interest expense, cash paid for interest, average interest rates and average outstanding balances for the 2014 Debt Securitization were as follows:

	For the three months ended December 31,	
	2018	2017
Stated interest expense	\$ 1,701	\$ 2,028
Amortization of debt issuance costs	110	161
Total interest and other debt financing expenses	\$ 1,811	\$ 2,189
Cash paid for interest expense	\$ 1,698	\$ 2,004
Annualized average stated interest rate	3.5 %	3.3 %
Average outstanding balance	\$ 191,216	\$ 246,000

As of December 31, 2018, the classes, amounts, ratings and interest rates (expressed as a spread to three-month LIBOR) of the Class A-1-R, A-2-R and B-R 2014 Notes are as follows:

Description	Class A-1-R 2014 Notes	Class A-2-R 2014 Notes	Class B-R 2014 Notes
Type	Senior Secured Floating Rate	Senior Secured Floating Rate	Senior Secured Floating Rate
Amount Outstanding	\$139,406	\$14,598	\$35,000
Moody's Rating	"Aaa"	"Aaa"	"Aa1"
S&P Rating	"AAA"	"AAA"	"AA"
Interest Rate	LIBOR + 0.95%	LIBOR + 0.95%	LIBOR + 1.40%

On November 16, 2018, the Company completed a \$602.4 million term debt securitization (the "2018 Debt Securitization"). Term debt securitizations are also known as CLOs and are a form of secured financing incurred by the Company, which is consolidated by the Company and subject to its overall asset coverage requirement. The notes offered in the 2018 Debt Securitization (the "2018 Notes") were issued by the 2018 Issuer, a subsidiary of 2018 CLO Depositor, and are backed by a diversified portfolio of senior secured and second lien loans. The transaction was executed through a private placement of approximately \$327.0 million of AAA/AAA Class A 2018 Notes, which bear interest at the three-month LIBOR plus 1.48%; \$61.2 million of AA Class B 2018 Notes, which bear interest at the three-month LIBOR plus 2.10%; \$20.0 million of A Class C-1 2018 Notes, which bear interest at the three-month LIBOR plus 2.80%; \$38.8 million of A Class C-2 2018 Notes, which bear interest at the three-month LIBOR plus 2.65%; \$42.0 million of BBB- Class D 2018 Notes, which bear interest at the three-month LIBOR plus 2.95%; and \$113.4 million of Subordinated 2018 Notes which do not bear interest. The Company indirectly retained all of the Class C-2, Class D and Subordinated 2018 Notes. Through January 20, 2023, all principal collections received on the underlying collateral may be used by the 2018 Issuer to purchase new collateral under the direction of the Investment Adviser, in its capacity as collateral manager of the 2018 Issuer and in accordance with the Company's investment strategy, allowing the Company to maintain the initial leverage in the 2018 Debt Securitization. The 2018 Notes are scheduled to mature on January 20, 2031. The Class A, Class B and Class C-1 2018 Notes are included in the December 31, 2018 Consolidated Statements of Financial Condition as debt of the Company. As of December 31, 2018 the Class C-2, Class D and Subordinated 2018 Notes were eliminated in consolidation.

As of December 31, 2018, there were 97 portfolio companies with a total fair value of \$589,348, securing the 2018 Notes. The pool of loans in the 2018 Debt Securitization must meet certain requirements, including asset mix and concentration, collateral coverage, term, agency rating, minimum coupon, minimum spread and sector diversity requirements.

The Investment Adviser served as collateral manager to the 2010 Issuer and serves as collateral manager to the 2014 Issuer and 2018 Issuer under separate collateral management agreements and receives a fee for providing these services. The total fees payable by the Company under its Investment Advisory Agreement are reduced by an amount equal to the total aggregate fees paid to the Investment Adviser by the 2010 Issuer, the 2014 Issuer and the 2018 Issuer for rendering such collateral management services.

As part of each of the 2010 Debt Securitization, the 2014 Debt Securitization and the 2018 Debt Securitization, GBDC entered into master loan sale agreements under which GBDC agreed to directly or indirectly sell or contribute certain senior secured and second lien loans (or participation interests therein) to the 2010 Issuer, the 2014 Issuer and the 2018 Issuer, as applicable, and to purchase or otherwise acquire the Subordinated 2010 Notes, the LLC equity interests in the 2014 Issuer and the Subordinated 2018 Notes, as applicable. As of December 31, 2018, the 2014 Notes and the 2018 Notes (other than the Subordinated 2018 Notes) were the secured obligations of the 2014 Issuer and 2018 Issuer, respectively, and indentures governing each of the 2014 Notes and the 2018 Notes include customary covenants and events of default.

SBA Debentures: On August 24, 2010, SBIC IV received approval for a license from the SBA to operate as an SBIC. On December 5, 2012, SBIC V received a license from the SBA to operate as an SBIC. On January 10, 2017, SBIC VI received a license from the SBA to operate as an SBIC. SBICs are subject to a variety of regulations and oversight by the SBA concerning the size and nature of the companies in which they may invest as well as the structures of those investments.

The licenses allow the SBICs to obtain leverage by issuing SBA-guaranteed debentures, subject to issuance of a capital commitment by the SBA and customary procedures. These debentures are non-recourse to GBDC, have interest payable semiannually and a ten-year maturity. The interest rate is fixed at the time of issuance at a market-driven spread over U.S. Treasury Notes with ten-year maturities.

Under present SBIC regulations, the maximum amount of SBA-guaranteed debentures that may be issued by multiple licensees under common management is \$350,000 and the maximum amount that a single SBIC licensee may issue is \$175,000. As of December 31, 2018, SBIC IV, SBIC V and SBIC VI had \$115,000, \$150,000 and \$12,500, respectively, of outstanding SBA-guaranteed debentures that mature between September 2021 and March 2028. As of September 30, 2018, SBIC IV, SBIC V and SBIC VI had \$115,000, \$150,000 and \$12,500, respectively, of outstanding SBA-guaranteed debenture commitments that mature between September 2021 and March 2028. The reinvestment period for SBIC IV expired on September 30, 2018. The original amount of debentures committed

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

to SBIC IV by the SBA was \$150,000. In March 2018 and September 2017, SBIC IV repaid \$10,000 and \$25,000, respectively, of the aggregate principal amount of the SBA-guaranteed debentures outstanding at the time and \$10,000 and \$25,000, respectively, of debenture commitments were terminated. As of December 31, 2018 and September 30, 2018, SBIC VI had \$37,500 of undrawn debenture commitments, of which \$9,500 is available to be drawn, subject to SBA regulatory requirements.

The interest rate on the outstanding debentures as of December 31, 2018 is fixed at an average annualized interest rate of 3.4%. For the three months ended December 31, 2018 and 2017, the components of interest expense, cash paid for interest, annualized average interest rates and average outstanding balances for the SBA debentures were as follows:

	For the three months ended December 31,	
	2018	2017
Stated interest expense	\$2,363	\$2,276
Amortization of debt issuance costs	218	279
Total interest and other debt financing expenses	\$2,581	\$2,555
Cash paid for interest expense	\$—	\$—
Annualized average stated interest rate	3.4	% 3.4
Average outstanding balance	\$277,500	\$267,000

Revolving Credit Facilities: On July 21, 2011, Funding entered into a senior secured revolving credit facility (as amended, the “Credit Facility”) with Wells Fargo Bank, N.A., as administrative agent and lender, which as of December 31, 2018, allowed Funding to borrow up to \$170,000 at any one time outstanding, subject to leverage and borrowing base restrictions.

Through a series of amendments, most recently on September 21, 2018, the Company and Funding amended the Credit Facility to, among other things, extend the expiration of the reinvestment period to September 20, 2019, extend the stated maturity date to September 21, 2023, and permit borrowings in foreign currencies. On December 14, 2017, the Company and Funding amended the Credit Facility to, among other things, decrease the size of the Credit Facility from \$225,000 to \$170,000 and decrease the interest the Credit Facility bears from one-month LIBOR plus 2.25% to one-month LIBOR plus 2.15%. In addition to the stated interest rate on the Credit Facility, the Company was required to pay a non-usage fee at a rate between 0.50% and 1.75% per annum depending on the size of the unused portion of the Credit Facility. The Credit Facility was collateralized by all of the assets held by Funding, and GBDC has pledged its interests in Funding as collateral to Wells Fargo Bank, N.A., as the collateral agent, under an ancillary agreement to secure the obligations of GBDC as the transferor and servicer under the Credit Facility. Both GBDC and Funding made customary representations and warranties and were required to comply with various covenants, reporting requirements and other customary requirements for similar credit facilities. Borrowing under the Credit Facility was subject to the 200% asset coverage requirements contained in the 1940 Act.

The Company transferred certain loans and debt securities it originated or acquired from time to time to Funding through a purchase and sale agreement and caused Funding to originate or acquire loans, consistent with the Company’s investment objectives.

As of December 31, 2018 and September 30, 2018, the Company had outstanding debt under the Credit Facility of \$97,110 and \$136,000, respectively. For the three months ended December 31, 2018 and 2017, the Company had borrowings on the Credit Facility of \$226,822 and \$98,600, respectively, and repayments on the Credit Facility of \$265,593 and \$51,400, respectively.

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

For the three months ended December 31, 2018 and 2017, the components of interest expense, cash paid for interest and facility fees, annualized average interest rates and average outstanding balances for the Credit Facility were as follows:

	For the three months ended December 31,	
	2018	2017
Stated interest expense	\$976	\$567
Facility fees	185	346
Amortization of debt issuance costs	98	292
Total interest and other debt financing expenses	\$1,259	\$1,205
Cash paid for interest expense and facility fees	\$1,249	\$903
Annualized average stated interest rate	4.5 %	3.0 %
Average outstanding balance	\$86,079	\$73,710

On July 20, 2018, the 2010 Issuer entered into a credit facility (as amended, the “MS Credit Facility”) with Morgan Stanley Bank, N.A., as lender, Morgan Stanley Senior Secured Funding, Inc., as administrative agent, and U.S. Bank National Association, as collateral agent for the administrative agent and the lenders. On November 1, 2018, the 2010 Issuer amended the MS Credit Facility to, among other things, increase the size of the MS Credit Facility from \$300,000 to \$450,000. The other material terms of the MS Credit Facility were unchanged. On November 16, 2018, a portion of the proceeds from the private placement of the 2018 Notes, net of expenses, was used to repay all amounts outstanding under the MS Credit Facility, following which the agreements governing the MS Credit Facility were terminated.

The period from the closing date until January 18, 2019 was referred to as the revolving period and during such revolving period, the 2010 Issuer could request drawdowns under the MS Credit Facility. The MS Credit Facility bore interest at a rate equal to one-month LIBOR plus 1.90% during the revolving period and was scheduled to mature on March 20, 2019.

The MS Credit Facility was secured by all of the assets held by the 2010 Issuer. Pursuant to a collateral management agreement, the Investment Adviser had agreed to perform certain duties with respect to the purchase and management of the assets securing the MS Credit Facility. The Investment Adviser was not paid a fee for such services under the collateral management agreement, but was reimbursed for expenses incurred in the performance of such obligations other than any ordinary overhead expenses, which shall not be reimbursed. The 2010 Issuer made customary representations and warranties and was required to comply with various covenants, reporting requirements and other customary requirements for similar credit facilities. Borrowing under the MS Credit Facility was subject to the leverage restrictions contained in 1940 Act.

As of December 31, 2018, the Company had no outstanding debt under the MS Credit Facility. For the three months ended December 31, 2018, the Company had borrowings on the MS Credit Facility of \$147,100 and repayments on the MS Credit Facility of \$381,800.

For the three months ended December 31, 2018 and 2017, the components of interest expense, cash paid for interest and facility fees, average interest rates and average outstanding balances for the MS Credit Facility were as follows:

For the three
months ended
December 31,

Revolver: On June 22, 2016, the Company entered into the Adviser Revolver with the Investment Adviser, with a maximum credit limit of \$20,000 and expiration date of June 22, 2019. The Adviser Revolver bears an interest rate equal to the short-term Applicable Federal Rate, which was 2.7% as of December 31, 2018. As of December 31, 2018 and September 30, 2018, the Company had no

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

outstanding debt under the Adviser Revolver. For the three months ended December 31, 2018 and 2017, the Company had no borrowings and repayments, did not incur any interest expense and no cash was paid for interest on the Adviser Revolver.

Other Short-Term Borrowings: Borrowings with original maturities of less than one year are classified as short-term. The Company's short-term borrowings as of December 31, 2018 are the result of investments that were sold under repurchase agreements. Investments sold under repurchase agreements are accounted for as collateralized borrowings as the sale of the investment does not qualify for sale accounting under ASC Topic 860 and remains as an investment on the Consolidated Statements of Financial Condition.

As of December 31, 2018, the Company had \$21,687 of short-term borrowings and the fair value of the loans associated with the short-term borrowings were \$21,470. For the three months ended December 31, 2018, the annualized effective interest rate on short-term borrowings was 4.9% and interest expense was \$212. The net change in unrealized appreciation (depreciation) for the three months ended December 31, 2018 and 2017 reported within the net change in unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies was \$32 and \$0, respectively.

The average total debt outstanding (including the debt under the 2010 Debt Securitization, the 2014 Debt Securitization, the 2018 Debt Securitization, SBA debentures, Credit Facility, MS Credit Facility, Adviser Revolver, and Other Short-Term Borrowings) for the three months ended December 31, 2018 was \$911,608. The average total debt outstanding (including the debt under the 2010 Debt Securitization, the 2014 Debt Securitization, SBA debentures, Credit Facility and Adviser Revolver) for the three months ended December 31, 2017 was \$791,710.

For the three months ended December 31, 2018 and 2017, the effective annualized average interest rate, which includes amortization of debt financing costs and non-usage facility fees, on the Company's total debt outstanding was 4.3% and 3.9%, respectively.

A summary of the Company's maturity requirements for borrowings as of December 31, 2018 is as follows:

	Payments Due by Period				
	Total	Less Than 1 Year	1 – 3 Years	3 – 5 Years	More Than 5 Years
2014 Debt Securitization	\$189,004	\$—	\$—	\$—	\$189,004
2018 Debt Securitization	408,200	—	—	—	408,200
SBA debentures	277,500	—	35,300	102,950	139,250
Credit Facility	97,110	—	—	97,110	—
Other short-term borrowings	21,687	21,687	—	—	—
Total borrowings	\$993,501	\$21,687	\$35,300	\$200,060	\$736,454

Note 7. Commitments and Contingencies

Commitments: The Company had outstanding commitments to fund investments totaling \$98,100 and \$57,650 under various undrawn revolvers and other credit facilities as of December 31, 2018 and September 30, 2018, respectively. As described in Note 4, the Company had commitments of up to \$101,868 and \$99,593 to SLF as of December 31, 2018 and September 30, 2018, respectively that may be contributed primarily for the purpose of funding new investments approved by the SLF investment committee.

Indemnifications: In the normal course of business, the Company enters into contracts and agreements that contain a variety of representations and warranties that provide general indemnifications. The Company's maximum exposure under these arrangements is unknown, as these involve future claims that may be made against the Company but that have not occurred. The Company expects the risk of any future obligations under these indemnifications to be remote.

Off-balance sheet risk: Off-balance sheet risk refers to an unrecorded potential liability that may result in a future obligation or loss, even though it does not appear on the Consolidated Statements of Financial Condition. The Company has entered and, in the future, may again enter into derivative instruments that contain elements of off-balance sheet market and credit risk. There were no commitments outstanding for derivative contracts as of December 31, 2018 and September 30, 2018. Derivative instruments can be affected by market conditions, such as interest rate volatility, which could impact the fair value of the derivative instruments. If market

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

conditions move against the Company, it may not achieve the anticipated benefits of the derivative instruments and may realize a loss. The Company minimizes market risk through monitoring its investments and borrowings.

Concentration of credit and counterparty risk: Credit risk arises primarily from the potential inability of counterparties to perform in accordance with the terms of the contract. The Company has engaged and, in the future, may engage again in derivative transactions with counterparties. In the event that the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparties or issuers of the instruments. The Company's maximum loss that it could incur related to counterparty risk on its derivative instruments is the value of the collateral for that respective derivative instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Legal proceedings: In the normal course of business, the Company may be subject to legal and regulatory proceedings that are generally incidental to its ongoing operations. While there can be no assurance of the ultimate disposition of any such proceedings, the Company does not believe any disposition will have a material adverse effect on the Company's consolidated financial statements.

Note 8. Financial Highlights

* Annualized for periods of less than one year.

- (1) Based on actual number of shares outstanding at the end of the corresponding period or the weighted average shares outstanding for the period, unless otherwise noted, as appropriate.
- (2) Total return based on market value assumes distributions are reinvested in accordance with the DRIP. Total return does not include sales load.
- (3) Expenses, other than incentive fees, are annualized for a period less than one year.
- (4) Total return based on average net asset value is calculated as (a) the net increase in net assets resulting from operations divided by (b) the daily average of total net assets. Total return does not include sales load. In accordance with the 1940 Act, with certain limited exceptions, the Company currently is allowed to borrow
- (5) amounts such that its asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing (excluding the Company's SBA debentures pursuant to exemptive relief received by the Company from the SEC). Asset coverage ratio per unit is the ratio of the carrying value of our total consolidated assets, less all liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing
- (6) indebtedness. Asset coverage ratio per unit is expressed in terms of dollar amounts per \$1,000 of indebtedness. These amounts exclude the SBA debentures pursuant to exemptive relief the Company received from the SEC on September 13, 2011.
- (7) Not applicable because such senior securities are not registered for public trading.

Note 11. Pending Merger with Golub Capital Investment Corporation

On November 27, 2018, the Company entered into the Merger Agreement with GCIC, Merger Sub, the Investment Adviser and, for certain limited purposes, the Administrator. The Merger Agreement provides that, subject to the conditions set forth in the Merger Agreement, Merger Sub will merge with and into GCIC, with GCIC continuing as the surviving company and as a wholly-owned subsidiary of the Company and, immediately thereafter, GCIC will merge with and into the Company, with the Company continuing as the surviving company. The parties to the Merger Agreement intend the Merger to be treated as a "reorganization" within the meaning of Section 368(a) of the Code.

In the Merger, each share of GCIC common stock issued and outstanding immediately prior to the effective time of the Merger will be converted into 0.865 shares of the Company's common stock (the "Exchange Ratio") in connection with the closing of the Merger. The Exchange Ratio will only be adjusted if, between the date of the Merger Agreement and the effective time of the Merger, the respective outstanding shares of the Company's common stock or GCIC common stock shall have been increased or decreased or changed into or exchanged for a different number or kind of shares or securities, in each case, as a result of any reclassification, recapitalization, stock split, reverse stock split, split-up, combination or exchange of shares, or if a stock dividend or dividend payable in any other securities shall be declared with a record date within such period. No fractional shares of the Company's common stock will be issued, and holders of GCIC common stock will receive cash in lieu of fractional shares.

Consummation of the Merger, which is currently anticipated to occur during the first half of calendar year 2019, is subject to certain closing conditions, including (1) requisite approvals of the Company's stockholders and GCIC's stockholders, (2) approval of the Company's stockholders of an amendment to the Investment Advisory Agreement to be effective upon closing of the Merger, (3) the absence of certain legal impediments to the consummation of the Merger, (4) effectiveness of the registration statement for the Company's common stock to be issued as consideration in the Merger, (5) subject to certain exceptions, the accuracy of the representations and warranties and compliance with the covenants of each party to the Merger Agreement, (6) required regulatory approvals (including expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended) and (7) a requirement that, as of a determination date that is within 48 hours (excluding Sundays and holidays) prior to the closing of the Merger, both (a) the value of the consideration paid by the Company, measured as the product of the Exchange Ratio and the greater of the closing market price and the NAV per share of the Company's common stock, is

greater than or equal to the NAV per share of GCIC common stock and (b) the product of the Exchange Ratio and the NAV per share of the Company's common stock is less than or equal to the NAV per share of the GCIC common stock.

The Merger Agreement also contains certain termination rights in favor of the Company and GCIC, including if the Merger is not completed on or before November 27, 2019 or if the requisite approvals of the Company's stockholders or GCIC's stockholders are not obtained. The Merger Agreement also provides that, upon the termination of the Merger Agreement under certain circumstances, the Company may be required to pay GCIC, or GCIC may be required to pay the Company, a termination fee of \$29.0 million.

The Merger is expected to be accounted for as an asset acquisition of GCIC by the Company in accordance with the asset acquisition method of accounting as detailed in ASC 805-50, Business Combinations-Related Issues. Generally, under asset acquisition accounting, acquiring assets in groups not only requires ascertaining the cost of the asset (or net assets), but also allocating that cost to

TABLE OF CONTENTS

Golub Capital BDC, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(In thousands, except shares and per share data)

the individual assets (or individual assets and liabilities) that make up the group. The cost of the group of assets acquired in an asset acquisition is allocated to the individual assets acquired or liabilities assumed based on their relative fair values of net identifiable assets acquired other than certain “non-qualifying” assets (for example cash) and does not give rise to goodwill. The final allocation of the purchase price will be determined after the Merger is completed and after completion of a final analysis to determine the estimated relative fair values of GCIC’s assets and liabilities.

In connection with the Merger, the Company is seeking stockholder approval to amend the Investment Advisory Agreement to revise (1) the cap on Incentive Fees paid to the Investment Adviser to be calculated on a per share, rather than aggregate, basis, and (2) the calculation of the Income Incentive Fee, the Capital Gain Incentive Fee and Incentive Fee Cap to exclude any amounts resulting solely from the purchase accounting for any premium or discount paid for the acquisition of assets in a merger, such as the premium to NAV to be paid for the shares of GCIC’s common stock in the Merger.

Note 12. Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through February 6, 2019, the date the financial statements were available to be issued. There are no subsequent events to disclose except for the following:

On February 1, 2019, Golub Capital BDC Funding II LLC (“Funding II”), a direct, wholly-owned, consolidated subsidiary of the Company entered into a credit facility (the “MS Credit Facility II”) with Morgan Stanley Senior Funding, Inc., as the administrative agent, each of the lenders from time to time party thereto, each of the securitization subsidiaries from time to time party thereto, and Wells Fargo Bank, N.A., as collateral agent, account bank and collateral custodian. The MS Credit Facility II allows Funding II to borrow up to \$200,000 at any one time outstanding, subject to leverage and borrowing base restrictions. The period from February 1, 2019 until February 1, 2021 is referred to as the revolving period and during such revolving period, Funding II may request drawdowns under the MS Credit Facility II. During the revolving period, borrowings under the MS Credit Facility II will bear interest at the applicable base rate plus 2.05%. Following expiration of the revolving period, the interest rate on borrowings under the MS Credit Facility II will reset to the applicable base rate plus 2.55% for the remaining term of the MS Credit Facility II. During the revolving period, which will continue through February 1, 2021 unless there is an earlier termination or event of default, Funding II may request drawdowns under the MS Credit Facility II and such borrowings will bear interest at the applicable base rate plus 2.05%. Following expiration of the revolving period, the interest rate on outstanding borrowings under the MS Credit Facility II will reset to the applicable base rate plus 2.55% for the remaining term of the MS Credit Facility II. The base rate under the MS Credit Facility II is (i) the one-month LIBOR with respect to any advances denominated in U.S. dollars or U.K. pound sterling, (ii) the one-month EURIBOR with respect to any advances denominated in euros, and (iii) the one-month Canadian Dollar Offered Rate with respect to any advances denominated in Canadian dollars. The scheduled maturity date of the MS Credit Facility II is February 1, 2024.

The MS Credit Facility II is secured by all of the assets held by Funding II. Both the Company and Funding II have made customary representations and warranties and are required to comply with various covenants, reporting requirements and other customary requirements for similar credit facilities. The borrowings under the MS Credit Facility II will be subject to the leverage restrictions contained in the 1940 Act.

On February 4, 2019, in connection with entry into the MS Credit Facility II, all outstanding borrowings under the Credit Facility were repaid. Following such repayment, the agreements governing the Credit Facility were terminated.

On February 5, 2019, the Board declared a quarterly distribution of \$0.32 per share payable on March 28, 2019 to holders of record as of March 7, 2019.

On February 5, 2019, the Company's stockholders voted to approve the application of the reduced asset coverage requirements in Section 61(a)(2) of the 1940 Act to the Company effective as of February 6, 2019. As a result of the stockholder approval, effective February 6, 2019, the asset coverage ratio under the 1940 Act applicable to the Company decreased to 150% from 200%. The reduced asset coverage requirement permits the Company to have a ratio of total consolidated assets to outstanding indebtedness of 2:1 as compared to a maximum of 1:1 under the 200% asset coverage requirement. The Company currently intends to target a GAAP debt-to-equity ratio of about 1.0x.

TABLE OF CONTENTS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our interim and unaudited consolidated financial statements and related notes thereto appearing elsewhere in this quarterly report on Form 10-Q. In this report, "we," "us," "our" and "Golub Capital BDC" refer to Golub Capital BDC, Inc. and its consolidated subsidiaries.

Forward-Looking Statements

Some of the statements in this quarterly report on Form 10-Q constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties, including statements as to:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the effect of investments that we expect to make and the competition for those investments;
- our contractual arrangements and relationships with third parties;
- actual and potential conflicts of interest with GC Advisors LLC, or GC Advisors, and other affiliates of Golub Capital LLC, collectively, Golub Capital;
- the dependence of our future success on the general economy and its effect on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- the use of borrowed money to finance a portion of our investments;
- the adequacy of our financing sources and working capital;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- general economic and political trends and other external factors;
- the ability of GC Advisors to locate suitable investments for us and to monitor and administer our investments;
- the ability of GC Advisors or its affiliates to attract and retain highly talented professionals;
- our ability to qualify and maintain our qualification as a regulated investment company, or RIC, and as a business development company;
- general price and volume fluctuations in the stock markets;
- the impact on our business of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the rules and regulations issued thereunder and any actions toward repeal thereof;
- the effect of changes to tax legislation and our tax position; and
- the Merger (as defined below), the likelihood the Merger is completed and the anticipated timing of its completion

Such forward-looking statements may include statements preceded by, followed by or that otherwise include the words "may," "might," "will," "intend," "should," "could," "can," "would," "expect," "believe," "estimate," "anticipate," "predict" or similar words. The forward looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties. Our actual results could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth elsewhere in this quarterly report on Form 10-Q and as "Risk Factors" in our annual report on Form 10-K for the year ended September 30, 2018.

We have based the forward-looking statements included in this report on information available to us on the date of this report. Actual results could differ materially from those anticipated in our forward-looking statements and future results could differ materially from historical performance. You are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the Securities and Exchange Commission, or the SEC, including annual reports on Form 10-K, registration statements on Form N-2, quarterly reports on Form 10-Q and current reports on Form 8-K. This quarterly report on Form 10-Q contains statistics and other data that have been obtained from or compiled from information made available by third-party service providers. We have not independently verified such statistics or data.

Overview

We are an externally managed, closed-end, non-diversified management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended, or the 1940 Act. In addition, for U.S. federal income tax purposes, we have elected to be treated as a RIC under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code. As a business development company and a RIC, we are also subject to certain constraints, including limitations imposed by the 1940 Act and the Code.

Our shares are currently listed on The Nasdaq Global Select Market under the symbol “GBDC”.

81

TABLE OF CONTENTS

Our investment objective is to generate current income and capital appreciation by investing primarily in one stop (a loan that combines characteristics of traditional first lien senior secured loans and second lien or subordinated loans and that are often referred to by other middle-market lenders as unitranche loans) and other senior secured loans of U.S. middle-market companies. We may also selectively invest in second lien and subordinated loans of, and warrants and minority equity securities in U.S. middle-market companies. We intend to achieve our investment objective by (1) accessing the established loan origination channels developed by Golub Capital, a leading lender to U.S. middle-market companies with over \$30.0 billion in capital under management as of December 31, 2018, (2) selecting investments within our core middle-market company focus, (3) partnering with experienced private equity firms, or sponsors, in many cases with whom Golub Capital has invested alongside in the past, (4) implementing the disciplined underwriting standards of Golub Capital and (5) drawing upon the aggregate experience and resources of Golub Capital.

Our investment activities are managed by GC Advisors and supervised by our board of directors of which a majority of the members are independent of us, GC Advisors and its affiliates.

Under an investment advisory agreement, or the Investment Advisory Agreement, which was most recently reapproved by our board of directors in May 2018, we have agreed to pay GC Advisors an annual base management fee based on our average adjusted gross assets as well as an incentive fee based on our investment performance. Under an administration agreement, or the Administration Agreement, we are provided with certain administrative services by an administrator, or the Administrator, which is currently Golub Capital LLC. Under the Administration Agreement, we have agreed to reimburse the Administrator for our allocable portion (subject to the review and approval of our independent directors) of overhead and other expenses incurred by the Administrator in performing its obligations under the Administration Agreement.

We seek to create a portfolio that includes primarily one stop and other senior secured loans by primarily investing approximately \$5.0 million to \$30.0 million of capital, on average, in the securities of U.S. middle-market companies. We may also selectively invest more than \$30.0 million in some of our portfolio companies and generally expect that the size of our individual investments will vary proportionately with the size of our capital base.

We generally invest in securities that have been rated below investment grade by independent rating agencies or that would be rated below investment grade if they were rated. These securities, which may be referred to as “junk,” have predominantly speculative characteristics with respect to the issuer’s capacity to pay interest and repay principal. In addition, many of our debt investments have floating interest rates that reset on a periodic basis and typically do not fully pay down principal prior to maturity, which may increase our risk of losing part or all of our investment.

As of December 31, 2018 and September 30, 2018, our portfolio at fair value was comprised of the following:

Investment Type	As of December 31, 2018			As of September 30, 2018		
	Investments at Fair Value (In thousands)	Percentage of Total Investments	%	Investments at Fair Value (In thousands)	Percentage of Total Investments	%
Senior secured	\$256,796	13.4	%	\$231,169	13.0	%
One stop	1,537,583	80.1		1,430,196	80.2	
Second lien	9,434	0.5		9,435	0.5	
Subordinated debt	652	0.0	*	251	0.0	*
LLC equity interests in SLF ⁽¹⁾	68,915	3.6		71,084	4.0	

Edgar Filing: GOLUB CAPITAL BDC, Inc. - Form 10-Q

Equity	45,099	2.4		40,706	2.3	
Total	\$1,918,479	100.0	%	\$1,782,841	100.0	%

* Represents an amount less than 0.1%.

(1) Proceeds from the LLC equity interests invested in SLF were utilized by SLF to invest in senior secured loans. One stop loans include loans to technology companies undergoing strong growth due to new services, increased adoption and/or entry into new markets. We refer to loans to these companies as late stage lending loans. Other targeted characteristics of late stage lending businesses include strong customer revenue retention rates, a diversified customer base and backing from growth equity or venture capital firms. In some cases, the borrower's high revenue growth is supported by a high level of discretionary spending. As part of the underwriting of such loans and consistent with industry practice, we may adjust our characterization of the earnings of such borrowers for a reduction or elimination of such discretionary expenses, if appropriate. As of December 31, 2018 and September 30, 2018, one stop loans included \$142.7 million and \$169.4 million, respectively, of late stage lending loans at fair value.

TABLE OF CONTENTS

As of December 31, 2018 and September 30, 2018, we had debt and equity investments in 212 and 199 portfolio companies, respectively, and an investment in SLF.

The following table shows the weighted average income yield and weighted average investment income yield of our earning portfolio company investments, which represented nearly 100% of our debt investments, as well as the total return based on our average net asset value, and the total return based on the change in the quoted market price of our stock and assuming distributions were reinvested in accordance with our dividend reinvestment plan, or DRIP, in each case for the years ended December 31, 2018 and 2017 was as follows:

	For the three months ended December 31,	
	2018	2017
Weighted average annualized income yield ⁽¹⁾	8.6%	7.9%
Weighted average annualized investment income yield ⁽²⁾	9.1%	8.5%
Total return based on average net asset value ^{(3)*}	7.5%	8.8%
Total return based on market value ⁽⁴⁾	(9.7)%	(1.1)%

* Annualized for periods of less than one year.

- (1) Represents income from interest and fees, excluding amortization of capitalized fees and discounts, divided by the average fair value of earning portfolio company investments, and does not represent a return to any investor in us.
- (2) Represents income from interest, fees and amortization of capitalized fees and discounts divided by the average fair value of earning portfolio investments, and does not represent a return to any investor in us.
- (3) Total return based on average net asset value is calculated as (a) the net increase in net assets resulting from operations divided by (b) the daily average of total net assets. Total return does not include sales load.
- (4) Total return based on market value assumes distributions are reinvested in accordance with the DRIP. Total return does not include sales load.

Revenues: We generate revenue in the form of interest and fee income on debt investments and capital gains and distributions, if any, on portfolio company investments that we originate or acquire. Our debt investments, whether in the form of senior secured, one stop, second lien or subordinated loans, typically have a term of three to seven years and bear interest at a fixed or floating rate. In some instances, we receive payments on our debt investments based on scheduled amortization of the outstanding balances. In addition, we receive repayments of some of our debt investments prior to their scheduled maturity date. The frequency or volume of these repayments fluctuates significantly from period to period. Our portfolio activity also reflects the proceeds of sales of securities. In some cases, our investments provide for deferred interest payments or payment-in-kind, or PIK, interest. The principal amount of loans and any accrued but unpaid interest generally become due at the maturity date. In addition, we may generate revenue in the form of commitment, origination, amendment, structuring or due diligence fees, fees for providing managerial assistance and consulting fees. Loan origination fees, original issue discount and market discount or premium are capitalized, and we accrete or amortize such amounts as interest income. We record prepayment premiums on loans as fee income. For additional details on revenues, see “Critical Accounting Policies—Revenue Recognition.”

We recognize realized gains or losses on investments based on the difference between the net proceeds from the disposition and the amortized cost basis of the investment or derivative instrument, without regard to unrealized gains or losses previously recognized. We record current period changes in fair value of investments and derivative instruments that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investments in the Consolidated Statements of Operations.

Expenses: Our primary operating expenses include the payment of fees to GC Advisors under the Investment Advisory Agreement and interest expense on our outstanding debt. We bear all other out-of-pocket costs and expenses of our operations and transactions, including:

- calculating our net asset value, or NAV (including the cost and expenses of any independent valuation firm);
- fees and expenses incurred by GC Advisors payable to third parties, including agents, consultants or other advisors, in monitoring financial and legal affairs for us and in monitoring our investments and performing due diligence on our prospective portfolio companies or otherwise relating to, or associated with, evaluating and making investments, which fees and expenses may include, among other items, due diligence reports, appraisal reports, any studies that may be commissioned by GC Advisors and travel and lodging expenses;
- expenses related to unsuccessful portfolio acquisition efforts;
- offerings of our common stock and other securities;

TABLE OF CONTENTS

administration fees and expenses, if any, payable under the Administration Agreement (including payments based upon our allocable portion of the Administrator's overhead in performing its obligations under the Administration Agreement, including rent and the allocable portion of the cost of our chief compliance officer, chief financial officer and their respective staffs);

fees payable to third parties, including agents, consultants or other advisors, relating to, or associated with, evaluating and making investments in portfolio companies, including costs associated with meeting financial sponsors;

transfer agent, dividend agent and custodial fees and expenses;

U.S. federal and state registration and franchise fees;

all costs of registration and listing our shares on any securities exchange;

U.S. federal, state and local taxes;

independent directors' fees and expenses;

costs of preparing and filing reports or other documents required by the SEC or other regulators;

costs of any reports, proxy statements or other notices to stockholders, including printing costs;

costs associated with individual or group stockholders;

costs associated with compliance under the Sarbanes-Oxley Act;

our allocable portion of any fidelity bond, directors and officers/errors and omissions liability insurance, and any other insurance premiums;

direct costs and expenses of administration, including printing, mailing, long distance telephone, copying, secretarial and other staff, independent auditors and outside legal costs;

proxy voting expenses; and

all other expenses incurred by us or the Administrator in connection with administering our business.

We expect our general and administrative expenses to be relatively stable or decline as a percentage of total assets during periods of asset growth and to increase during periods of asset declines.

GC Advisors, as collateral manager for Golub Capital BDC 2010-1 LLC, or the 2010 Issuer, our indirect subsidiary, under a collateral management agreement, or the 2010 Collateral Management Agreement, was entitled to receive an annual fee in an amount equal to 0.35% of the principal balance of the portfolio loans held by the 2010 Issuer at the beginning of the collection period relating to each payment date, which is payable in arrears on each payment date. Under the 2010 Collateral Management Agreement, the term "collection period" referred to a quarterly period running from the day after the end of the prior collection period to the fifth business day of the calendar month in which a payment date occurs. Following redemption of the notes issued by the 2010 Issuer, or the 2010 Notes, on July 20, 2018, the 2010 Collateral Management Agreement was terminated.

GC Advisors, as collateral manager for Golub Capital BDC 2010-LLC, or the 2014 Issuer, our wholly-owned subsidiary, under a collateral management agreement, or the 2014 Collateral Management Agreement, is entitled to receive an annual fee in an amount equal to 0.25% of the principal balance of the portfolio loans held by the 2014 Issuer at the beginning of the collection period relating to each payment date, which is payable in arrears on each payment date. Under the 2014 Collateral Management Agreement, the term "collection period" refers to a quarterly period running from the day after the end of the prior collection period to the tenth business day prior to the payment date.

GC Advisors, as collateral manager for Golub Capital BDC CLO III LLC, or the 2018 Issuer, our indirect subsidiary, under a collateral management agreement, or the 2018 Collateral Management Agreement, is entitled to receive an annual fee in an amount equal to 0.25% of the principal balance of the portfolio loans held by the 2018 Issuer at the beginning of the collection period relating to each payment date, which is payable in arrears on each payment date. Under the 2018 Collateral Management Agreement, the term "collection period" refers to the period commencing on the third business day prior to the preceding payment date and ending on (but excluding) the third business day prior to such payment date.

Collateral management fees were paid directly by the 2010 Issuer and are paid by the 2014 Issuer and 2018 Issuer to GC Advisors and are offset against the management fees payable under the Investment Advisory Agreement. In addition, the 2010 Issuer and 2014 Issuer paid Wells Fargo Securities, LLC structuring and placement fees for its services in connection with the initial structuring and subsequent amendments of a \$350.0 million term debt securitization, or the 2010 Debt Securitization and the initial structuring of a \$402.6 million term debt securitization, or the 2014 Debt Securitization. The 2018 Issuer paid Morgan Stanley & Co. LLC structuring and placement fees for its services in connection with the structuring of a \$602.4 million term debt securitization, or the 2018 Debt Securitization Term. Term debt securitizations are also known as collateralized loan obligations, or CLOs, and are a form of secured financing incurred by us, which is consolidated by us and subject to our overall asset coverage requirement. The 2010 Issuer, the 2014 Issuer and 2018 Issuer also agreed to pay ongoing administrative expenses to the trustee, collateral manager, independent accountants, legal counsel, rating agencies and independent managers in connection with developing and maintaining reports, and providing required services in connection with the administration of the 2010 Debt Securitization, the 2014 Debt Securitization, and 2018 Debt Securitization, and collectively the Debt Securitizations, as applicable.

TABLE OF CONTENTS

We believe that these administrative expenses approximate the amount of ongoing fees and expenses that we would be required to pay in connection with a traditional secured credit facility. Our common stockholders indirectly bear all of these expenses.

Pending Merger with GCIC: On November 27, 2018, we entered into an Agreement and Plan of Merger, or the Merger Agreement, with Golub Capital Investment Corporation, a Maryland corporation, or GCIC, Fifth Ave Subsidiary Inc., a Maryland corporation and wholly owned subsidiary of the Company, or the Merger Sub, the Investment Adviser and, for certain limited purposes, the Administrator. The Merger Agreement provides that, subject to the conditions set forth in the Merger Agreement, Merger Sub will merge with and into GCIC, with GCIC continuing as the surviving company and as a wholly-owned subsidiary of us and, immediately thereafter, GCIC will merge with and into us, with us continuing as the surviving company. See Note 11 in the notes to our consolidated financial statements for further information.

Recent Developments

On February 1, 2019, Golub Capital BDC Funding II LLC, or Funding II, a direct, wholly-owned, consolidated subsidiary of Golub Capital BDC, Inc. entered into a credit facility, or the MS Credit Facility II, with Morgan Stanley Senior Funding, Inc., as the administrative agent, each of the lenders from time to time party thereto, each of the securitization subsidiaries from time to time party thereto, and Wells Fargo Bank, N.A., as collateral agent, account bank and collateral custodian. The MS Credit Facility II allows Funding II to borrow up to \$200.0 million at any one time outstanding, subject to leverage and borrowing base restrictions. The period from February 1, 2019 until February 1, 2021 is referred to as the revolving period and during such revolving period, Funding II may request drawdowns under the MS Credit Facility II. During the revolving period, which will continue through February 1, 2021 unless there is an earlier termination or event of default, Funding II may request drawdowns under the MS Credit Facility II and such borrowings will bear interest at the applicable base rate plus 2.05%. Following expiration of the revolving period, the interest rate on outstanding borrowings under the MS Credit Facility II will reset to the applicable base rate plus 2.55% for the remaining term of the MS Credit Facility II. The base rate under the MS Credit Facility II is (i) the one-month London Interbank Offered Rate, or LIBOR, with respect to any advances denominated in U.S. dollars or U.K. pound sterling, (ii) the one-month Euro Interbank Offered Rate with respect to any advances denominated in euros, and (iii) the one-month Canadian Dollar Offered Rate with respect to any advances denominated in Canadian dollars. The scheduled maturity date of the MS Credit Facility II is February 1, 2024.

On February 4, 2019, in connection with entry into the MS Credit Facility II, all outstanding borrowings under our senior secured revolving credit facility, as amended, or the Credit Facility, with Wells Fargo Bank, N.A., as administrative agent and lender, were repaid. Following such repayment, the agreements governing the Credit Facility were terminated.

On February 5, 2019, the our board of directors declared a quarterly distribution of \$0.32 per share payable on March 28, 2019 to holders of record as of March 7, 2019.

On February 5, 2019, our stockholders voted to approve the application of the reduced asset coverage requirements in Section 61(a)(2) of the 1940 Act to us. As a result of the stockholder approval, effective February 6, 2019, the asset coverage ratio under the 1940 Act applicable to us decreased to 150% from 200%. The reduced asset coverage requirement permits us to have a ratio of total consolidated assets to outstanding indebtedness of 2:1 as compared to a maximum of 1:1 under the 200% asset coverage requirement, which permits us to double the maximum amount of leverage we are permitted to incur. We currently intend to target a GAAP debt-to-equity ratio of about 1.0x.

TABLE OF CONTENTS

Consolidated Results of Operations

Consolidated operating results for the three months ended December 31, 2018 and 2017 are as follows:

	For the three months ended December 31,		Variances 2018 vs. 2017
	2018	2017	
	(In thousands)		
Interest income	\$36,897	\$30,645	\$6,252
Income from accretion of discounts and origination fees	1,953	2,709	(756)
Dividend income from investments in SLF	—	1,965	(1,965)
Dividend income	39	597	(558)
Fee income	522	534	(12)
Total investment income	39,411	36,450	2,961
Total expenses	19,594	17,939	1,655
Net investment income	19,817	18,511	1,306
Net realized gain (loss) on investments and foreign currency transactions	(1,978)	481	(2,459)
Net change in unrealized appreciation (depreciation) on investments, foreign currency translation	600	2,323	(1,723)
Net increase in net assets resulting from operations	\$18,439	\$21,315	\$(2,876)
Average earning debt investments, at fair value ⁽¹⁾	\$1,723,801	\$1,572,419	\$151,382

⁽¹⁾ Does not include our investment in LLC equity interests in SLF.

Net income can vary substantially from period to period for various reasons, including the recognition of realized gains and losses and unrealized appreciation and depreciation. As a result, annual comparisons of net income may not be meaningful.

Investment Income

Investment income increased from the three months ended December 31, 2017 to the three months ended December 31, 2018 by \$3.0 million primarily as a result of an increase in the average earning debt investments balance, which is the average balance of accruing loans in our investment portfolio, of \$151.4 million and an increase in LIBOR. These increases were partially offset by a decline in accretion of discounts resulting from decreased debt investment payoffs and a decline in dividend income from our investments in SLF of \$2.0 million .

The income yield by debt security type for the three months ended December 31, 2018 and 2017 was as follows:

	For the three months ended December 31,	
	2018	2017
Senior secured	7.2%	6.6%
One stop	8.8%	8.0%
Second lien	10.5%	9.5%
Subordinated debt	8.3%	19.8%

Income yields on one stop and senior secured loans increased for the three months ended December 31, 2018 primarily due to the rise in LIBOR. As of December 31, 2018, we have one second lien investment and four subordinated debt investments as shown in the Consolidated Schedule of Investments. Due to the limited number of

second lien and subordinated debt investments, quarterly income yields on second lien and subordinated debt investments can be significantly impacted by the addition, subtraction or refinancing of one investment.

For additional details on investment yields and asset mix, refer to the “Liquidity and Capital Resources - Portfolio Composition, Investment Activity and Yield” section below.

TABLE OF CONTENTS

Expenses

The following table summarizes our expenses for the three months ended December 31, 2018 and 2017:

	For the three months ended December 31,		Variances
	2018	2017	2018 vs. 2017
	(In thousands)		
Interest and other debt financing expenses	\$9,115	\$6,920	\$2,195
Amortization of debt issuance costs	669	794	(125)
Base management fee	6,439	5,930	509
Income incentive fee	2,461	2,158	303
Capital gain incentive fee	(478)	713	(1,191)
Professional fees	588	688	(100)
Administrative service fee	699	618	81
General and administrative expenses	101	118	(17)
Total expenses	\$19,594	\$17,939	\$1,655
Average debt outstanding	\$911,608	\$791,710	\$119,898

Interest Expense

Interest and other debt financing expenses increased by \$2.2 million from the three months ended December 31, 2017 to the three months ended December 31, 2018 primarily due to the increase in LIBOR and an increase in the weighted average of outstanding borrowings from \$791.7 million for the three months ended December 31, 2017 to \$911.6 million for the three months ended December 31, 2018. The increase in our weighted average debt outstanding was driven by the completion of the 2018 Debt Securitization, which added \$408.2 million in debt, which was partially offset by the repayment of \$205.0 million in debt issued by the 2010 Debt Securitization and a decrease in debt outstanding on our Credit Facility. The effective average interest rate on our outstanding debt increased to 4.3% for the three months ended December 31, 2018 from 3.9% for the three months ended December 31, 2017 primarily due to the increase in LIBOR which was partially offset by decreased pricing on outstanding debt.

Management Fee

The base management fee increased as a result of a sequential increase in average adjusted gross assets from 2017 to 2018.

Incentive Fees

The incentive fee payable under the Investment Advisory Agreement consists of two parts: (1) the income component, or the Income Incentive Fee, and (2) the capital gains component, or the Capital Gain Incentive Fee. The Income Incentive Fee increased by \$0.3 million from the three months ended December 31, 2017 to the three months ended December 31, 2018, primarily as a result of the increase in net investment income. For the three months ended December 31, 2018, while still not fully through the catch-up provision of the Income Incentive Fee calculation, the Income Incentive Fee as a percentage of Pre-Incentive Fee Net Investment Income (as defined in Note 3 of our consolidated financial statements) increased to 11.3% compared to 10.1% for the three months ended December 31, 2017.

The Capital Gain Incentive Fee equals (a) 20.0% of our Capital Gain Incentive Fee Base (as defined below), if any, calculated in arrears as of the end of each calendar year less (b) the aggregate amount of any previously paid Capital

Gain Incentive Fees. Our “Capital Gain Incentive Fee Base” equals (1) the sum of (i) realized capital gains, if any, on a cumulative positive basis from the date the we elected to become a business development company through the end of each calendar year, (ii) all realized capital losses on a cumulative basis and (iii) all unrealized capital depreciation on a cumulative basis less (2) all unamortized deferred financing costs, if and to the extent such costs exceed all unrealized capital appreciation on a cumulative basis. In addition, in accordance with generally accepted accounting principles in the United States of America, or GAAP, we are required to also include the aggregate unrealized capital appreciation on investments in the calculation and accrue the capital gain incentive fee as if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Advisory Agreement.

TABLE OF CONTENTS

The accrual for the capital gain incentive fee under GAAP was a reversal of \$0.5 million, or \$0.01 per share for the three months ended December 31, 2018 and an accrual of \$0.7 million, or \$0.01 per share, for the three months ended December 31, 2017. The decrease in accruals for a capital gain incentive fee under GAAP for the three months ended December 31, 2018 from the three months ended December 31, 2017 was primarily the result of unrealized depreciation of debt and equity investments. For additional details on unrealized appreciation and depreciation of investments, refer to the “Net Realized and Unrealized Gains and Losses” section below.

The cumulative capital gain incentive fee accrued in accordance with GAAP as of December 31, 2018 and 2017 was \$6.7 million and \$7.6 million, respectively, of which \$1.6 million and \$1.2 million, respectively, were payable as a Capital Gain Incentive Fee pursuant to the Investment Advisory Agreement.

Professional Fees, Administrative Service Fee, and General and Administrative Expenses

In total, professional fees, the administrative service fee, and general and administrative expenses remained stable from the three months ended December 31, 2017 to the three months ended December 31, 2018. In general, we expect certain of our operating expenses, including professional fees, the administrative service fee, and other general and administrative expenses to decline as a percentage of our total assets during periods of growth and increase as a percentage of our total assets during periods of asset declines.

The Administrator pays for certain expenses incurred by us. These expenses are subsequently reimbursed in cash. Total expenses reimbursed by us to the Administrator for the three months ended December 31, 2018 and 2017 were \$0.4 million and \$0.8 million, respectively.

As of December 31, 2018 and September 30, 2018, included in accounts payable and accrued expenses were \$0.8 million and \$0.4 million, respectively, for accrued expenses paid on behalf of us by the Administrator.

Excise Tax Expense

We have elected to be treated as a RIC under Subchapter M of the Code and operate in a manner so as to qualify for the tax treatment applicable to RICs. In order to be subject to tax as a RIC, we are required to meet certain source of income and asset diversification requirements, as well as timely distribute to our stockholders dividends for U.S. federal income tax purposes of an amount generally at least equal to 90% of investment company taxable income, as defined by the Code, and determined without regard to any deduction for dividends paid for each tax year. We have made and intend to continue to make the requisite distributions to our stockholders that will generally relieve us from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to retain taxable income in excess of current year distributions into the next tax year in an amount less than what would trigger payments of U.S. federal income tax under Subchapter M of the Code. We may then be required to incur a 4% excise tax on such income. To the extent that we determine that our estimated current year annual taxable income may exceed estimated current year distributions, we accrue excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended December 31, 2018 and 2017, we did not incur any expense for U.S. federal excise tax.

TABLE OF CONTENTS

Net Realized and Unrealized Gains and Losses

The following table summarizes our net realized and unrealized gains (losses) for the periods presented:

	For the three months ended December 31,		Variances 2018 vs. 2017
	2018	2017	
	(In thousands)		
Net realized gain (loss) on investments	\$(1,948)	\$481	\$(2,429)
Foreign currency transactions	(30)	—	(30)
Net realized gain (loss) on investments and foreign currency transactions	\$(1,978)	\$481	\$(2,459)
Unrealized appreciation on investments	16,124	10,461	5,663
Unrealized (depreciation) on investments	(15,781)	(8,914)	(6,867)
Unrealized appreciation (depreciation) on investments in SLF ⁽¹⁾	106	776	(670)
Unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies	151	—	151
Net change in unrealized appreciation (depreciation) on investments, investments in SLF and foreign currency translation	\$600	\$2,323	\$(1,723)

(1) Unrealized appreciation (depreciation) on investments in SLF includes our investment in LLC equity interests in SLF.

For the three months ended December 31, 2018, we had a net realized loss on investments and foreign currency transactions of \$2.0 million primarily due to a realized loss recognized on the sale of one equity investment and the write off on a separate portfolio company equity investment.

For the three months ended December 31, 2018, we had \$16.1 million in unrealized appreciation on 154 portfolio company investments, which was offset by \$15.8 million in unrealized depreciation on 178 portfolio company investments. Unrealized appreciation during the three months ended December 31, 2018 resulted from the reversal of the net unrealized depreciation associated with the sale/write-off on two portfolio company equity investments and an increase in fair value on several portfolio company investments. Unrealized depreciation primarily resulted from the amortization of discounts, and negative credit related adjustments that caused a reduction in fair value in several portfolio company investments during the three months ended December 31, 2018.

For the three months ended December 31, 2018, we had \$0.1 million in unrealized appreciation on our investment in SLF LLC equity interests, which was primarily driven by net negative credit related adjustments associated with SLF's investment portfolio netted against net investment income at SLF.

For the three months ended December 31, 2017, we had a net realized gain of \$0.5 million primarily due to the sale of six equity investments above their fair value, which was partially offset by the write off on one non-accrual portfolio company investment.

For the three months ended December 31, 2017, we had \$10.5 million in unrealized appreciation on 105 portfolio company investments, which was partially offset by \$8.9 million in unrealized depreciation on 147 portfolio company investments. Unrealized appreciation during the three months ended December 31, 2017 resulted from an increase in fair value primarily due to the rise in market prices of portfolio company investments. Unrealized depreciation primarily resulted from the amortization of discounts, negative credit related adjustments that caused a reduction in fair value and the reversal of the net unrealized appreciation associated with the sales of portfolio company investments during the three months ended December 31, 2017.

For the three months ended December 31, 2017, we had \$0.8 million in unrealized appreciation on our investment in SLF LLC equity interests, which was primarily driven by increased net investment income at SLF.

Liquidity and Capital Resources

For the three months ended December 31, 2018, we experienced a net increase in cash, cash equivalents, foreign currencies and restricted cash and cash equivalents of \$8.0 million. During the period, cash used in operating activities was \$116.1 million, primarily as a result of fundings of portfolio investments of \$195.7 million, partially offset by the proceeds from principal payments and sales of portfolio investments of \$63.6 million and net investment income of \$19.8 million. Lastly, cash provided by financing activities was \$124.1 million, primarily driven by borrowings on debt of \$782.1 million that were partially offset by repayments of debt of \$655.9 million and distributions paid of \$22.3 million.

For the three months ended December 31, 2017, we experienced a net increase in cash, cash equivalents and restricted cash and

TABLE OF CONTENTS

cash equivalents of \$14.6 million. During the period, cash used in operating activities was \$11.6 million, primarily as a result of fundings of portfolio investments of \$137.9 million, partially offset by the proceeds from principal payments and sales of portfolio investments of \$101.9 million and net investment income of \$18.5 million. Lastly, cash provided by financing activities was \$26.2 million, primarily driven by borrowings on debt of \$98.6 million that were partially offset by repayments of debt of \$51.4 million and distributions paid of \$21.0 million.

As of December 31, 2018 and September 30, 2018, we had cash and cash equivalents of \$12.7 million and \$5.9 million, respectively. In addition, we had foreign currencies of \$0.3 million and \$0.2 million as of December 31, 2018 and September 30, 2018, respectively, and restricted cash, cash equivalents and foreign currencies of \$40.7 million and \$39.7 million as of December 31, 2018 and September 30, 2018, respectively. Cash and cash equivalents are available to fund new investments, pay operating expenses and pay distributions. As of December 31, 2018, \$30.8 million of our restricted cash, cash equivalents and foreign currencies could be used to fund new investments that meet the investment guidelines established in the Debt Securitizations, which are described in further detail in Note 6 to our consolidated financial statements, and for the payment of principal and interest expense on the notes issued in the Debt Securitizations. As of December 31, 2018, \$4.4 million of our restricted cash and cash equivalents could be used to fund investments that meet the guidelines under the Credit Facility as well as for the payment of interest expense and revolving debt of the Credit Facility. As of December 31, 2018, \$5.4 million of our restricted cash and cash equivalents could be used to fund new investments that meet the regulatory and investment guidelines established by the U.S. Small Business Administration, or SBA, for our small business investment company, or SBIC, subsidiaries which are described in further detail in Note 6 to our consolidated financial statements, and for interest expense and fees on our outstanding SBA debentures.

As of December 31, 2018, the Credit Facility allowed Funding to borrow up to \$170.0 million at any one time outstanding, subject to leverage and borrowing base restrictions. As of December 31, 2018 and September 30, 2018, we had \$97.1 million and \$136.0 million outstanding under the Credit Facility, respectively. As of December 31, 2018 and September 30, 2018, subject to leverage and borrowing base restrictions, we had approximately \$72.9 million and \$34.0 million, respectively, of remaining commitments and \$44.8 million and \$34.0 million, respectively, of availability on the Credit Facility. In connection with entry into the MS Credit Facility II, on February 4, 2019, Funding repaid all outstanding debt held at the Credit Facility. Following such repayment, the agreements governing the Credit Facility were terminated.

On July 20, 2018, the 2010 Issuer entered into a credit facility, or, as amended, the MS Credit Facility, with Morgan Stanley Bank, N.A., as lender, Morgan Stanley Senior Secured Funding, Inc., as administrative agent, and U.S. Bank National Association, as collateral agent for the administrative agent and lenders. As of September 30, 2018, the MS Credit Facility allowed the 2010 Issuer to borrow up to \$300.0 million at any one time outstanding, subject to leverage and borrowing base restrictions. As of September 30, 2018, we had \$234.7 million outstanding under the MS Credit Facility. As of September 30, 2018, subject to leverage and borrowing base restrictions, we had approximately \$65.3 million, of remaining commitments and \$6.7 million of availability on the MS Credit Facility. On November 1, 2018 we entered into an amendment to the documents governing the MS Credit Facility, which increased the borrowing capacity from \$300.0 million to \$450.0 million. On November 16, 2018, in connection with and as part of the private placement of the 2018 Notes, a portion of the proceeds, net of expenses, were used to repay all amounts outstanding under the MS Credit Facility, following which the agreements governing the MS Credit Facility were terminated.

On June 22, 2016, we entered into an unsecured revolving credit facility with GC Advisors, or the Adviser Revolver, which permits us to borrow up to \$20.0 million at any one time outstanding. We entered into the Adviser Revolver in

order to have the ability to borrow funds on a short-term basis and have in the past repaid, and generally intend in the future to repay, borrowings under the Adviser Revolver within the same quarter in which they are drawn. As of December 31, 2018 and September 30, 2018, we had no amounts outstanding on the Adviser Revolver.

On July 16, 2010, we completed the 2010 Debt Securitization, which was subsequently increased to \$350.0 million. On October 20, 2016, we further amended the 2010 Debt Securitization to, among other things, (a) refinance the issued Class A 2010 Notes, by redeeming in full the \$203.0 million Class A 2010 Notes and issuing new Class A-Refi 2010 Notes in an aggregate principal amount of \$205.0 million that bear interest at a rate of three-month LIBOR plus 1.90%, (b) refinance the Class B 2010 Notes by redeeming in full the \$12.0 million Class B 2010 Notes and issuing new Class B-Refi 2010 Notes in an aggregate principal amount of \$10.0 million that bear interest at a rate of three-month LIBOR plus 2.40%, and (c) extend the reinvestment period applicable to the 2010 Issuer to July 20, 2018. Following the refinancing, Golub Capital BDC 2010-1 Holdings LLC, our wholly-owned subsidiary, or Holdings, retained the Class B-Refi 2010 Notes. On July 20, 2018, the 2010 Notes were redeemed and, following such redemption, the agreements governing the 2010 Debt Securitization were terminated.

On June 5, 2014, we completed the 2014 Debt Securitization in which the 2014 Issuer issued an aggregate of \$402.6 million of notes, or the 2014 Notes, including, prior to their redemption on March 23, 2018, \$191.0 million of Class A-1 2014 Notes, which bore interest at a rate of three-month LIBOR plus 1.75%, \$20.0 million of Class A-2 2014 Notes, which bore interest at a rate of three-

TABLE OF CONTENTS

month LIBOR plus 1.95%, \$35.0 million of Class B 2014 Notes, which bore interest at a rate of three-month LIBOR plus 2.50%, \$37.5 million of Class C 2014 Notes, which bore interest at a rate of three-month LIBOR plus 3.50%, and \$119.1 million of LLC equity interests in the 2014 Issuer that do not bear interest. We retained all of the Class C 2014 Notes and LLC equity interests in the 2014 Issuer totaling \$37.5 million and \$119.1 million, respectively. On March 23, 2018, we amended the 2014 Debt Securitization to, among other things, (a) refinance the issued Class A-1 notes issued by the 2014 Issuer by redeeming in full the \$191.0 million of Class A-1 2014 Notes and issuing new Class A-1-R 2014 Notes in an aggregate principal amount of \$191.0 million that bear interest at a rate of three-month LIBOR plus 0.95%, which is a decrease from the rate of three-month LIBOR plus 1.75% of the previously outstanding Class A-1 2014 Notes, (b) refinance the Class A-2 2014 Notes by redeeming in full the \$20.0 million of Class A-2 2014 Notes and issuing new Class A-2-R 2014 Notes in an aggregate principal amount of \$20.0 million that bear interest at a rate of three-month LIBOR plus 0.95%, which is a decrease from the rate of three-month LIBOR plus 1.95% of the previously outstanding Class A-2 2014 Notes, (c) refinance the Class B 2014 Notes by redeeming in full the \$35.0 million of Class B 2014 Notes and issuing new Class B-R 2014 Notes in an aggregate principal amount of \$35.0 million that bear interest at a rate of three-month LIBOR plus 1.40%, which is a decrease from the rate of three-month LIBOR plus 2.50% of the previously outstanding Class B 2014 Notes, (d) refinance the Class C 2014 Notes by redeeming in full the \$37.5 million of Class C 2014 Notes and issuing new Class C-R 2014 Notes in an aggregate principal amount of \$37.5 million that bear interest at a rate of three-month LIBOR plus 1.55%, which is a decrease from the rate of three-month LIBOR plus 3.50% of the previously outstanding Class C 2014 Notes. The Class C-R 2014 Notes were retained by us, and we remain the sole owner of the equity of the 2014 Issuer.

The Class A-1-R, Class A-2-R and Class B-R 2014 Notes are included in the December 31, 2018 Consolidated Statements of Financial Condition as our debt and the Class C-R 2014 Notes and LLC equity interests in the 2014 Issuer were eliminated in consolidation. As of December 31, 2018, we had outstanding debt under the 2014 Debt Securitization of \$189.0 million. The Class A-1, Class A-2 and Class B 2014 Notes are included in the September 30, 2018 Consolidated Statements of Financial Condition as our debt and the Class C 2014 Notes and LLC equity interests in the 2014 Issuer were eliminated in consolidation. As of September 30, 2018, we had outstanding debt under the 2014 Debt Securitization of \$197.5 million.

On November 16, 2018, we completed the 2018 Debt Securitization in which the 2018 Issuer issued an aggregate of \$602.4 million of notes, or the 2018 Notes, including \$327.0 million of AAA/AAA Class A 2018 Notes, which bear interest at the three-month LIBOR plus 1.48%; \$61.2 million of AA Class B 2018 Notes, which bear interest at the three-month LIBOR plus 2.10%; \$20.0 million of A Class C-1 2018 Notes, which bear interest at the three-month LIBOR plus 2.80%; \$38.8 million of A Class C-2 2018 Notes, which bear interest at the three-month LIBOR plus 2.65%; \$42.0 million of BBB- Class D 2018 Notes, which bear interest at the three-month LIBOR plus 2.95%; and \$113.4 million of Subordinated 2018 Notes which do not bear interest. We indirectly retained all of the Class C-2, Class D and Subordinated 2018 Notes.

The Class A, Class B and Class C-1 2018 Notes are included in the December 31, 2018 Consolidated Statements of Financial Condition as our debt and the Class C-2, Class D and Subordinated 2018 Notes were eliminated in consolidation. As of December 31, 2018, we had outstanding debt under the 2018 Debt Securitization of \$408.2 million.

Under present SBIC regulations, the maximum amount of SBA-guaranteed debentures that may be issued by multiple licensees under common management is \$350.0 million and the maximum amount that a single SBIC licensee may issue is \$175.0 million. As of December 31, 2018, GC SBIC IV, L.P., or SBIC IV, GC SBIC V, L.P., or SBIC V, and GC SBIC VI, L.P., or SBIC VI, had \$115.0 million, \$150.0 million, and \$12.5 million, respectively, of outstanding SBA-guaranteed debentures that mature between September 2021 and March 2028. As of September 30, 2018, SBIC IV, SBIC V and SBIC VI, had \$115.0 million, \$150.0 million and \$12.5 million, respectively, of outstanding SBA-guaranteed debentures that mature between September 2021 and March 2028. The reinvestment period for SBIC

IV expired on September 30, 2018. The original amount of debentures committed to SBIC IV by the SBA was \$150.0 million. In March 2018 and September 2017, SBIC IV repaid \$10.0 million and \$25.0 million, respectively, of the aggregate principal amount of the SBA-guaranteed debentures outstanding at the time and \$10.0 million and \$25.0 million, respectively, of debenture commitments were terminated. As of December 31, 2018 and September 30, 2018, SBIC VI had \$37.5 million of undrawn debenture commitments, of which \$9.5 million is available to be drawn, subject to SBA regulatory requirements.

As of December 31, 2018, in accordance with the 1940 Act, with certain limited exceptions, we were allowed to borrow amounts such that our asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing. The Small Business Credit Availability Act, or SBCAA, which was signed into law on March 23, 2018, among other things, amended Section 61(a) of the 1940 Act to add a new Section 61(a)(2) that reduces the asset coverage requirement applicable to business development companies from 200% to 150% so long as the business development company meets certain disclosure requirements and obtains certain approvals. The reduced asset coverage requirement would permit a business development company to have a ratio of total consolidated assets to outstanding indebtedness of 2:1 as compared to a maximum of 1:1 under the 200% asset coverage requirement. Effectiveness of the reduced asset coverage requirement to a business development company requires approval by either (1) a “required majority,” as defined in Section 57(o) of the 1940 Act, of such business development company’s board of directors with effectiveness one year after the date of such

TABLE OF CONTENTS

approval or (2) a majority of votes cast at a special or annual meeting of such business development company's stockholders at which a quorum is present, which is effective the day after such stockholder approval. On February 5, 2019, stockholders approved a proposal to increase our leverage limitation under the 1940 Act by reducing our required asset coverage ratio from 200.0% to 150.0% which became effective as of February 6, 2019. We currently intend to continue to target a GAAP debt-to-equity ratio of about 1.0x.

On September 13, 2011, we received exemptive relief from the SEC allowing us to modify the asset coverage requirement to exclude the SBA debentures from our asset coverage calculation. As such, our ratio of total consolidated assets to outstanding indebtedness may be less than 200% even if we do not approve the modified asset coverage requirement permitted by Section 61(a)(2) of the 1940 Act. This provides us with increased investment flexibility but also increases our risks related to leverage. As of December 31, 2018, our asset coverage for borrowed amounts was 234.0% (excluding the SBA debentures).

As of December 31, 2018 and September 30, 2018, we had outstanding commitments to fund investments, excluding our investments in SLF, totaling \$98.1 million and \$57.7 million, respectively. These amounts may or may not be funded to the borrowing party now or in the future. The unfunded commitments relate to loans with various maturity dates, but the entire amount was eligible for funding to the borrowers, subject to the terms of each loan's respective credit agreement. As of December 31, 2018, we believe that we had sufficient assets and liquidity to adequately cover future obligations under our unfunded commitments based on historical rates of drawings upon unfunded commitments, cash and restricted cash balances that we maintain, availability under our Credit Facility and Adviser Revolver and ongoing principal repayments on debt investments. In addition, we generally hold some syndicated loans in larger portfolio companies that are saleable over a relatively short period to generate cash.

Due to the interplay of the 1940 Act restrictions on principal and joint transactions and the U.S. risk retention rules adopted pursuant to Section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, or Dodd-Frank, as a business development company we sought and received no action relief from the SEC to ensure we could engage in CLO financings which assets are transferred through GC Advisors. On November 16, 2018, we completed the 2018 Debt Securitization in which the 2018 Issuer issued the 2018 Notes, in connection with and as part of the private placement of the 2018 Notes, a portion of the proceeds, net of expenses, were used to repay all amounts outstanding under the MS Credit Facility, following which the agreements governing the MS Credit Facility were terminated.

Although we expect to fund the growth of our investment portfolio through the net proceeds from future securities offerings and through our DRIP as well as future borrowings, to the extent permitted by the 1940 Act, we cannot assure you that our efforts to raise capital will be successful. In addition, we may, from time to time, amend or refinance our leverage facilities and securitization financings, to the extent permitted by applicable law. In addition to capital not being available, it also may not be available on favorable terms. To the extent we are not able to raise capital on what we believe are favorable terms, we will focus on optimizing returns by investing capital generated from repayments into new investments we believe are attractive from a risk/reward perspective. Furthermore, to the extent we are not able to raise capital and are at or near our targeted leverage ratios, we may receive smaller allocations, if any, on new investment opportunities under GC Advisors' allocation policy and have, in the past, received such smaller allocations under similar circumstances.

Portfolio Composition, Investment Activity and Yield

As of December 31, 2018 and September 30, 2018, we had investments in 212 and 199 portfolio companies, respectively, with a total fair value of \$1,849.6 million and \$1,711.8 million, respectively, and had investments in SLF with a total fair value of \$68.9 million and \$71.1 million, respectively.

Edgar Filing: GOLUB CAPITAL BDC, Inc. - Form 10-Q

The following table shows the asset mix of our new investment commitments for the three months ended December 31, 2018 and 2017:

	For the three months ended December 31,					
	2018			2017		
	(In thousands)	Percentage of Commitments	%	(In thousands)	Percentage of Commitments	%
Senior secured	\$40,956	20.2	%	\$38,498	27.1	%
One stop	157,017	77.3		102,634	72.1	
Equity	5,098	2.5		1,114	0.8	
Total new investment commitments	\$203,071	100.0	%	\$142,246	100.0	%

For the three months ended December 31, 2018 and 2017, we had approximately \$60.1 million and \$96.3 million, respectively, in proceeds from principal payments and return of capital distributions of portfolio companies. For the three months ended December 31,

TABLE OF CONTENTS

2018 and 2017, we had sales of investments in four and six portfolio companies, respectively, aggregating approximately \$3.5 million and \$5.6 million, respectively, in net proceeds.

The following table shows the principal, amortized cost and fair value of our portfolio of investments by asset class:

	As of December 31, 2018 ⁽¹⁾			As of September 30, 2018 ⁽¹⁾		
	Principal	Amortized Cost	Fair Value	Principal	Amortized Cost	Fair Value
	(In thousands)					
Senior secured:						
Performing	\$256,250	\$252,761	\$255,614	\$230,230	\$228,028	\$229,886

LLC equity interests in SLF ⁽³⁾	N/A	73,132	68,915	N/A	75,407	71,084
Equity	N/A	40,081	45,099	N/A	38,170	40,706
Total	\$1,823,215	\$1,915,841	\$1,918,479	\$1,686,730	\$1,780,652	\$1,782,841

(1) 17 and 27 of our loans included a feature permitting a portion of the interest due on such loan to be PIK interest as of December 31, 2018 and September 30, 2018, respectively.

We refer to a loan as non-accrual when we cease recognizing interest income on the loan because we have stopped pursuing repayment of the loan or, in certain circumstances, it is past due 90 days or more on principal and interest or our management has reasonable doubt that principal or interest will be collected. See “— Critical Accounting Policies — Revenue Recognition.”

(3) Proceeds from the LLC equity interests invested in SLF were utilized by SLF to invest in senior secured loans. As of December 31, 2018, we had three debt investments on non-accrual status and non-accrual investments as a percentage of total debt investments at cost and fair value were 0.7% and 0.3%, respectively. As of September 30, 2018, we had three debt investments on non-accrual status and non-accrual investments as a percentage of total investments at cost and fair value were 0.7% and 0.3%, respectively. As of December 31, 2018 and September 30, 2018, the fair value of our debt investments as a percentage of the outstanding principal value was 99.0% and 99.1%, respectively.

The following table shows the weighted average rate, spread over LIBOR of floating rate and fees of investments originated and the weighted average rate of sales and payoffs of portfolio companies during the three months ended December 31, 2018 and 2017:

For the
three
months
ended
December
31,
2018 2017

Edgar Filing: GOLUB CAPITAL BDC, Inc. - Form 10-Q

Weighted average rate of new investment fundings	7.7%	7.5%
Weighted average spread over LIBOR of new floating rate investment fundings	5.3%	6.0%
Weighted average fees of new investment fundings	1.3%	1.4%
Weighted average rate of sales and payoffs of portfolio investments ⁽¹⁾	8.5%	7.6%
Weighted average annualized income yield ⁽²⁾	8.6%	7.9%

(1) Excludes exits on investments on non-accrual status.

(2) Represents income from interest and fees, excluding amortization of capitalized fees and discounts, divided by the average fair value of earning debt investments, and does not represent a return to any investor in us.

TABLE OF CONTENTS

As of December 31, 2018, 96.6% and 96.7% of our debt portfolio at fair value and at amortized cost, respectively, had interest rate floors that limit the minimum applicable interest rates on such loans. As of September 30, 2018, 98.6% and 98.6% of our debt portfolio at fair value and at amortized cost, respectively, had interest rate floors that limit the minimum applicable interest rates on such loans.

As of December 31, 2018 and September 30, 2018, the portfolio median earnings before interest, taxes, depreciation and amortization, or EBITDA, for our portfolio companies (excluding SLF) was \$25.2 million and \$26.2 million, respectively. The portfolio median EBITDA is based on the most recently reported trailing twelve-month EBITDA received from the portfolio company.

As part of the monitoring process, GC Advisors regularly assesses the risk profile of each of our investments and rates each of them based on an internal system developed by Golub Capital and its affiliates. This system is not generally accepted in our industry or used by our competitors. It is based on the following categories, which we refer to as GC Advisors' internal performance ratings:

Internal Performance Ratings

Rating Definition

- 5 Involves the least amount of risk in our portfolio. The borrower is performing above expectations, and the trends and risk factors are generally favorable.
- 4 Involves an acceptable level of risk that is similar to the risk at the time of origination. The borrower is generally performing as expected, and the risk factors are neutral to favorable.
- 3 Involves a borrower performing below expectations and indicates that the loan's risk has increased somewhat since origination. The borrower may be out of compliance with debt covenants; however, loan payments are generally not past due.
- 2 Involves a borrower performing materially below expectations and indicates that the loan's risk has increased materially since origination. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due (but generally not more than 180 days past due).
- 1 Involves a borrower performing substantially below expectations and indicates that the loan's risk has substantially increased since origination. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Loans rated 1 are not anticipated to be repaid in full and we will reduce the fair market value of the loan to the amount we anticipate will be recovered.

Our internal performance ratings do not constitute any rating of investments by a nationally recognized statistical rating organization or represent or reflect any third-party assessment of any of our investments.

For any investment rated 1, 2 or 3, GC Advisors will increase its monitoring intensity and prepare regular updates for the investment committee, summarizing current operating results and material impending events and suggesting recommended actions.

GC Advisors monitors and, when appropriate, changes the internal performance ratings assigned to each investment in our portfolio. In connection with our valuation process, GC Advisors and our board of directors review these internal performance ratings on a quarterly basis.

TABLE OF CONTENTS

The following table shows the distribution of our investments on the 1 to 5 internal performance rating scale at fair value as of December 31, 2018 and September 30, 2018:

Internal Performance Rating	December 31, 2018		September 30, 2018	
	Investments at Fair Value (In thousands)	Percentage of Total Investments	Investments at Fair Value (In thousands)	Percentage of Total Investments
5	\$107,807	5.6 %	\$113,873	6.4 %
4	1,612,115	84.0	1,455,754	81.6
3	178,529	9.3	195,414	11.0
2	20,012	1.1	17,250	1.0
1	16	0.0*	550	0.0 *
Total	\$1,918,479	100.0 %	\$1,782,841	100.0 %

*Represents an amount less than 0.1%.

Senior Loan Fund LLC

We co-invest with RGA Reinsurance Company, or RGA, in senior secured loans through SLF, an unconsolidated Delaware LLC. SLF is capitalized as transactions are completed and all portfolio and investment decisions in respect to SLF must be approved by the SLF investment committee consisting of two representatives of each of us and RGA (with unanimous approval required from (i) one representative of each of us and RGA or (ii) both representatives of each of us and RGA). SLF may cease making new investments upon notification of either member but operations will continue until all investments have been sold or paid-off in the normal course of business.

As of December 31, 2018, SLF is capitalized by LLC equity interest subscriptions from its members. As of December 31, 2018 and September 30, 2018, we and RGA owned 87.5% and 12.5%, respectively, of the LLC equity interests. SLF's profits and losses are allocated to us and RGA in accordance with our respective ownership interests.

As of December 31, 2018 and September 30, 2018, SLF had the following commitments from its members (in the aggregate):

	As of December 31, 2018		As of September 30, 2018	
	Committed	Funded ⁽¹⁾	Committed	Funded ⁽¹⁾
LLC equity commitments	\$200,000	\$ 83,580	\$200,000	\$ 86,180
Total	\$200,000	\$ 83,580	\$200,000	\$ 86,180

⁽¹⁾ Funded LLC equity commitments are presented net of return of capital distributions subject to recall.

As of December 31, 2018, the senior secured revolving credit facility, or, as amended, the SLF Credit Facility, that Senior Loan Fund II LLC, a wholly-owned subsidiary of SLF, or SLF II, entered into with Wells Fargo Securities, LLC, as administrative agent, and Wells Fargo Bank, N.A., as lender, allows SLF II to borrow up to \$101.4 million subject to leverage and borrowing base restrictions. The reinvestment period of the SLF Credit Facility ended August 29, 2018, and after such date, the maximum commitment is equal to advances outstanding. The stated maturity date is August 30, 2020. As of December 31, 2018 and September 30, 2018, SLF II had outstanding debt under the SLF Credit Facility of \$101.4 million and \$104.6 million, respectively. As of December 31, 2018 the SLF Credit Facility bears interest at one-month LIBOR plus 2.05% per annum.

As of December 31, 2018 and September 30, 2018, SLF had total assets at fair value of \$180.7 million and \$186.3 million, respectively. As of December 31, 2018, SLF had two portfolio companies on non-accrual status with a fair value of \$4.6 million. As of September 30, 2018, SLF had one portfolio company investment on non-accrual status with a fair value of \$3.9 million. The portfolio companies in SLF are in industries and geographies similar to those in which we may invest directly. Additionally, as of December 31, 2018 and September 30, 2018, SLF had commitments to fund various undrawn revolving credit and delayed draw loans to its portfolio companies totaling \$5.6 million and \$5.9 million, respectively.

TABLE OF CONTENTS

Below is a summary of SLF's portfolio, followed by a listing of the individual investments in SLF's portfolio as of December 31, 2018 and September 30, 2018:

	As of December 31, 2018	As of September 30, 2018	
	(Dollars in thousands)		
Senior secured loans ⁽¹⁾	\$180,615	\$ 183,668	
Weighted average current interest rate on senior secured loans ⁽²⁾	7.8	% 7.5	%
Number of borrowers in SLF	31	32	
Largest portfolio company investment ⁽¹⁾	\$12,753	\$ 13,716	
Total of five largest portfolio company investments ⁽¹⁾	\$55,730	\$ 57,330	

⁽¹⁾ At principal amount.

⁽²⁾ Computed as the (a) annual stated interest rate on accruing senior secured loans divided by (b) total senior secured loans at principal amount.

(1) Represents the weighted average annual current interest rate as of September 30, 2018. All interest rates are payable in cash.

(2) The total principal amount is presented for debt investments while the number of shares or units owned is presented for equity investments.

(3)

Represents the fair value in accordance with ASC Topic 820. The determination of such fair value is not included in our board of directors' valuation process described elsewhere herein.

- (4) We also hold a portion of the first lien senior secured loan in this portfolio company.
- (5) Loan was on non-accrual status as of September 30, 2018. As such, no interest is being earned on this investment.
- (6) Equity investment received as a result of the portfolio company's debt restructuring.
- (7) Non-income producing.

As of December 31, 2018, we have committed to fund \$175.0 million of LLC equity interests to SLF. As of December 31, 2018 and September 30, 2018, \$73.1 million and \$75.4 million, respectively, of our LLC equity interest commitment to SLF had been called and contributed, net of return of capital distributions subject to recall. For the three months ended December 31, 2018, we did not receive dividend income from the SLF LLC equity interests. For the three months ended December 31, 2017, we received \$2.0 million in dividend income from the SLF LLC equity interests.

For the three months ended December 31, 2018 and 2017, we earned an annualized total return on our weighted average capital invested in SLF of 0.6% and 11.4%, respectively. The annualized total return on weighted average capital invested is calculated by dividing total income earned on our investments in SLF by the combined daily average of our investments in (1) the NAV of the SLF LLC equity interests, and (2) the principal of the SLF subordinated notes, if any.

TABLE OF CONTENTS

Below is certain summarized financial information for SLF as of December 31, 2018 and September 30, 2018, and for the three months ended December 31, 2018 and 2017:

	December 31, 2018	September 30, 2018

Total contractual obligations \$1,091.7 \$119.8 \$35.3 \$200.1 \$736.5

101

TABLE OF CONTENTS

Unfunded commitments represent unfunded commitments to fund investments, excluding our investments in SLF, as of December 31, 2018. These amounts may or may not be funded to the borrowing party now or in the future.

(1) The unfunded commitments relate to loans with various maturity dates, but we are showing this amount in the less than one year category as this entire amount was eligible for funding to the borrowers as of December 31, 2018, subject to the terms of each loan's respective credit agreement.

We may become a party to financial instruments with off-balance sheet risk in the normal course of our business to meet the financial needs of our portfolio companies. These instruments may include commitments to extend credit and involve, to varying degrees, elements of liquidity and credit risk in excess of the amount recognized in the balance sheet. As of December 31, 2018 and September 30, 2018, we had outstanding commitments to fund investments, excluding our investments in SLF, totaling \$98.1 million and \$57.7 million, respectively. We have commitments of up to \$101.9 million and \$99.6 million to SLF as of December 31, 2018 and September 30, 2018, respectively, that may be contributed primarily for the purpose of funding new investments approved by the SLF investment committee.

We have certain contracts under which we have material future commitments. We have entered into the Investment Advisory Agreement with GC Advisors in accordance with the 1940 Act. Under the Investment Advisory Agreement, GC Advisors provides us with investment advisory and management services.

Under the Administration Agreement, the Administrator furnishes us with office facilities and equipment, provides us with clerical, bookkeeping and record keeping services at such facilities and provides us with other administrative services necessary to conduct our day-to-day operations. The Administrator also provides on our behalf managerial assistance to those portfolio companies to which we are required to offer to provide such assistance.

If any of the contractual obligations discussed above are terminated, our costs under any new agreements that we enter into may increase. In addition, we would likely incur significant time and expense in locating alternative parties to provide the services we receive under our Investment Advisory Agreement and our Administration Agreement. Any new investment advisory agreement would also be subject to approval by our stockholders.

Distributions

We intend to make quarterly distributions to our stockholders as determined by our board of directors. For additional details on distributions, see "Income taxes" in Note 2 to our consolidated financial statements.

We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of our distributions from time to time. In addition, we may be limited in our ability to make distributions due to the asset coverage requirements applicable to us as a business development company under the 1940 Act. If we do not distribute a certain percentage of our income annually, we will suffer adverse U.S. federal income tax consequences, including the possible loss of our ability to be subject to tax as a RIC. We cannot assure stockholders that they will receive any distributions.

Because federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified within capital accounts in the financial statements to reflect their tax character. For example, permanent differences in classification may result from the treatment of distributions paid from short-term gains as ordinary income dividends for tax purposes. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future.

To the extent our taxable earnings fall below the total amount of our distributions for any tax year, a portion of those distributions may be deemed a return of capital to our stockholders for U.S. federal income tax purposes. Thus, the source of a distribution to our stockholders may be the original capital invested by the stockholder rather than our

income or gains. Stockholders should read any written disclosure accompanying a distribution payment carefully and should not assume that the source of any distribution is our ordinary income or gains.

We have adopted an “opt out” dividend reinvestment plan for our common stockholders. As a result, if we declare a distribution, our stockholders’ cash distributions will be automatically reinvested in additional shares of our common stock unless a stockholder specifically “opts out” of our dividend reinvestment plan. If a stockholder opts out, that stockholder will receive cash distributions. Although distributions paid in the form of additional shares of our common stock will generally be subject to U.S. federal, state and local taxes in the same manner as cash distributions, stockholders participating in our dividend reinvestment plan will not receive any corresponding cash distributions with which to pay any such applicable taxes.

Related Party Transactions

102

TABLE OF CONTENTS

We have entered into a number of business relationships with affiliated or related parties, including the following:

We entered into the Investment Advisory Agreement with GC Advisors. Mr. Lawrence Golub, our chairman, is a manager of GC Advisors, and Mr. David Golub, our chief executive officer, is a manager of GC Advisors, and each of Messrs. Lawrence Golub and David Golub owns an indirect pecuniary interest in GC Advisors.

Golub Capital LLC provides, and other affiliates of Golub Capital have historically provided, us with the office facilities and administrative services necessary to conduct day-to-day operations pursuant to our Administration Agreement.

We have entered into a license agreement with Golub Capital LLC, pursuant to which Golub Capital LLC has granted us a non-exclusive, royalty-free license to use the name "Golub Capital."

Under the Staffing Agreement, Golub Capital LLC has agreed to provide GC Advisors with the resources necessary to fulfill its obligations under the Investment Advisory Agreement. The Staffing Agreement provides that Golub Capital LLC will make available to GC Advisors experienced investment professionals and provide access to the senior investment personnel of Golub Capital LLC for purposes of evaluating, negotiating, structuring, closing and monitoring our investments. The Staffing Agreement also includes a commitment that the members of GC Advisors' investment committee will serve in such capacity. Services under the Staffing Agreement are provided on a direct cost reimbursement basis. We are not a party to the Staffing Agreement.

GC Advisors serves as collateral manager to the 2014 Issuer and the 2018 Issuer under the 2014 Collateral Management Agreement and the 2018 Collateral Management Agreement, respectively, and prior to the redemption of the 2010 Notes on July 20, 2018, served as the collateral manager to the 2010 Issuer under the 2010 Collateral Management Agreement. Fees payable to GC Advisors for providing these services offset against the base management fee payable by us under the Investment Advisory Agreement.

We have entered into the Adviser Revolver with GC Advisors in order to have the ability to borrow funds on a short-term basis.

During the first six months of calendar year 2018, the Golub Capital Employee Grant Program Rabbi Trust, or the Trust, purchased approximately \$7.2 million of shares, or 396,099 shares, of our common stock for the purpose of awarding incentive compensation to employees of Golub Capital. During calendar year 2017, the Trust purchased approximately \$17.7 million of shares, or 955,896 shares, of our common stock, for the purpose of awarding incentive compensation to employees of Golub Capital.

On November 27, 2018, we entered into the Merger Agreement with GCIC, Merger Sub, GC Advisors and, for certain limited purposes, the Administrator. See Note 11 in the notes to our consolidated financial statements for further information.

GC Advisors also sponsors or manages, and may in the future sponsor or manage, other investment funds, accounts or investment vehicles (together referred to as "accounts") that have investment mandates that are similar, in whole and in part, with ours. For example, GC Advisors presently serves as the investment adviser to Golub Capital Investment Corporation and Golub Capital BDC 3, Inc., each an unlisted business development company that primarily focuses on investing in one stop and other senior secured loans. In addition, our officers and directors serve in similar capacities for and Golub Capital Investment Corporation and Golub Capital BDC 3, Inc. GC Advisors and its affiliates may determine that an investment is appropriate for us and for one or more of those other accounts. In such event, depending on the availability of such investment and other appropriate factors, and pursuant to GC Advisors'

allocation policy, GC Advisors or its affiliates may determine that we should invest side-by-side with one or more other accounts. We do not intend to make any investments if they are not permitted by applicable law and interpretive positions of the SEC and its staff, or if they are inconsistent with GC Advisors' allocation procedures.

In addition, we have adopted a formal code of ethics that governs the conduct of our and GC Advisors' officers, directors and employees. Our officers and directors also remain subject to the duties imposed by both the 1940 Act and the General Corporation Law of the State of Delaware.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the

TABLE OF CONTENTS

financial statements and revenues and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following items as critical accounting policies.

Fair Value Measurements

We value investments for which market quotations are readily available at their market quotations. However, a readily available market value is not expected to exist for many of the investments in our portfolio, and we value these portfolio investments at fair value as determined in good faith by our board of directors under our valuation policy and process.

Valuation methods may include comparisons of the portfolio companies to peer companies that are public, determination of the enterprise value of a portfolio company, discounted cash flow analysis and a market interest rate approach. The factors that are taken into account in fair value pricing investments include: available current market data, including relevant and applicable market trading and transaction comparables; applicable market yields and multiples; security covenants; call protection provisions; information rights; the nature and realizable value of any collateral; the portfolio company's ability to make payments, its earnings and discounted cash flows and the markets in which it does business; comparisons of financial ratios of peer companies that are public; comparable merger and acquisition transactions; and the principal market and enterprise values. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we will consider the pricing indicated by the external event to corroborate the private equity valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from values that may ultimately be received or settled.

Our board of directors is ultimately and solely responsible for determining, in good faith, the fair value of investments that are not publicly traded, whose market prices are not readily available on a quarterly basis or any other situation where portfolio investments require a fair value determination.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

Our quarterly valuation process begins with each portfolio company investment being initially valued by the investment professionals of GC Advisors responsible for credit monitoring. Preliminary valuation conclusions are then documented and discussed with our senior management and GC Advisors. The audit committee of our board of directors reviews these preliminary valuations. At least once annually, the valuation for each portfolio investment is reviewed by an independent valuation firm. The board of directors discusses valuations and determines the fair value of each investment in our portfolio in good faith.

Determination of fair values involves subjective judgments and estimates. Under current accounting standards, the notes to our consolidated financial statements refer to the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on our consolidated financial statements.

We follow ASC Topic 820 for measuring fair value. Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the assets or liabilities or market and the assets' or liabilities' complexity. Our fair value analysis includes an analysis of the value of any unfunded loan commitments. Assets and liabilities are categorized for

disclosure purposes based upon the level of judgment associated with the inputs used to measure their value. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the asset or liability as of the measurement date. The three levels are defined as follows:

Level 1: Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2: Inputs include quoted prices for similar assets or liabilities in active markets and inputs that are observable for the assets or liabilities, either directly or indirectly, for substantially the full term of the assets or liabilities.

Level 3: Inputs include significant unobservable inputs for the assets or liabilities and include situations where there is little, if any, market activity for the assets or liabilities. The inputs into the determination of fair value are based upon the best information available and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or a liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value

TABLE OF CONTENTS

measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and we consider factors specific to the asset or liability. We assess the levels of assets and liabilities at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfers. There were no transfers among Level 1, 2 and 3 of the fair value hierarchy for assets and liabilities during the three months ended December 31, 2018 and 2017. The following section describes the valuation techniques used by us to measure different assets and liabilities at fair value and includes the level within the fair value hierarchy in which the assets and liabilities are categorized.

Valuation of Investments

Level 1 investments are valued using quoted market prices. Level 2 investments are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar assets and liabilities. Level 3 investments are valued at fair value as determined in good faith by our board of directors, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with approximately 25% (based on the number of portfolio companies) of our valuations of debt and equity investments without readily available market quotations subject to review by an independent valuation firm. As of December 31, 2018 and September 30, 2018, with the exception of money market funds included in cash and cash equivalents and restricted cash and cash equivalents (Level 1 investments) and investments measured at fair value using the NAV, all investments were valued using Level 3 inputs of the fair value hierarchy.

When determining fair value of Level 3 debt and equity investments, we may take into account the following factors, where relevant: the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made and other relevant factors. The primary method for determining enterprise value uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's EBITDA. A portfolio company's EBITDA may include pro-forma adjustments for items such as acquisitions, divestitures, or expense reductions. The enterprise value analysis is performed to determine the value of equity investments and to determine if debt investments are credit impaired. If debt investments are credit impaired, we will use the enterprise value analysis or a liquidation basis analysis to determine fair value. For debt investments that are not determined to be credit impaired, we use a market interest rate yield analysis to determine fair value.

In addition, for certain debt investments, we may base our valuation on indicative bid and ask prices provided by an independent third party pricing service. Bid prices reflect the highest price that we and others may be willing to pay. Ask prices represent the lowest price that we and others may be willing to accept. We generally use the midpoint of the bid/ask range as our best estimate of fair value of such investment.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a market existed for such investments and may differ materially from the values that may ultimately be received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which such investment had previously been recorded.

Our investments are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

Valuation of Other Financial Assets and Liabilities

Fair value of our debt is estimated using Level 3 inputs by discounting remaining payments using comparable market rates or market quotes for similar instruments at the measurement date, if available.

Revenue Recognition:

Our revenue recognition policies are as follows:

Investments and Related Investment Income: Interest income is accrued based upon the outstanding principal amount and contractual interest terms of debt investments. Premiums, discounts, and origination fees are amortized or accreted into interest income over the life of the respective debt investment. For investments with contractual PIK interest, which represents contractual interest accrued and

TABLE OF CONTENTS

added to the principal balance that generally becomes due at maturity, we do not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not likely to be collectible. In addition, we may generate revenue in the form of amendment, structuring or due diligence fees, fees for providing managerial assistance, consulting fees and prepayment premiums on loans and record these fees as fee income when received. Loan origination fees, original issue discount and market discount or premium are capitalized, and we accrete or amortize such amounts as interest income. We record prepayment premiums on loans as fee income. Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies. Distributions received from LLC and limited partnership, or LP, investments are evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, we will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment.

We account for investment transactions on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the cost basis of investment, without regard to unrealized gains or losses previously recognized. We report changes in fair value of investments from the prior period that is measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investments in our Consolidated Statements of Operations.

Non-accrual: Loans may be left on accrual status during the period we are pursuing repayment of the loan. Management reviews all loans that become past due 90 days or more on principal and interest or when there is reasonable doubt that principal or interest will be collected for possible placement on non-accrual status. We generally reverse accrued interest when a loan is placed on non-accrual. Additionally, any original issue discount and market discount are no longer accreted to interest income as of the date the loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. We restore non-accrual loans to accrual status when past due principal and interest is paid and, in our management's judgment, are likely to remain current. The total fair value of our non-accrual loans was \$4.6 million as of December 31, 2018 and \$5.6 million as of September 30, 2018.

Partial loan sales: We follow the guidance in ASC Topic 860, when accounting for loan participations and other partial loan sales. Such guidance requires a participation or other partial loan sale to meet the definition of a "participating interest", as defined in the guidance, in order for sale treatment to be allowed. Participations or other partial loan sales that do not meet the definition of a participating interest remain on our statements of assets and liabilities and the proceeds are recorded as a secured borrowing until the definition is met. Secured borrowings are carried at fair value to correspond with the related investments, which are carried at fair value.

Income taxes: See "Consolidated Results of Operations - Expenses - Excise Tax Expense."

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to financial market risks, including changes in interest rates. Many of the loans in our portfolio have floating interest rates, and we expect that our loans in the future may also have floating interest rates. These loans are usually based on a floating LIBOR and typically have interest rate reset provisions that adjust applicable interest rates under such loans to current market rates on a quarterly basis. The loans that are subject to the floating LIBOR are also subject to a minimum base rate, or floor, that we charge on our loans if the current market rates are below the respective floors. As of December 31, 2018 and September 30, 2018, the weighted average LIBOR floor on the loans subject to floating interest rates was 1.01% and 1.01%, respectively. Prior to their redemption on July 20, 2018, the

Class A-Refi 2010 Notes issued as part of the refinancing of the 2010 Debt Securitization had floating interest rate provisions based on three-month LIBOR that reset quarterly. Prior to their redemption on March 23, 2018 the Class A-1, A-2 and B 2014 Notes issued as part of the 2014 Debt Securitization had floating interest rate provisions based on three-month LIBOR that reset quarterly as do the Class A-1-R, A-2 and B-R 2014 Notes issued in connection with the refinancing of the 2014 Debt Securitization. Additionally, the Class A, B and C-1 2018 Notes issued as part of the 2018 Debt Securitization have floating interest rate provisions based on three-month LIBOR that reset quarterly. Finally, the Credit Facility had a floating interest rate provision based on one-month LIBOR that reset daily. We expect that other credit facilities into which we enter in the future may have floating interest rate provisions.

Assuming that the interim and unaudited Consolidated Statement of Financial Condition as of December 31, 2018 were to remain constant and that we took no actions to alter interest rate sensitivity as of such date, the following table shows the annualized impact of hypothetical base rate changes in interest rates.

106

TABLE OF CONTENTS

Change in interest rates	Increase (decrease) in interest income	Increase (decrease) in interest expense	Net increase (decrease) in investment income
	(In thousands)		
Down 25 basis points	\$ (4,503)	\$ (1,736)	\$ (2,767)
Up 50 basis points	9,005	3,472	5,533
Up 100 basis points	18,009	6,943	11,066
Up 150 basis points	27,014	10,415	16,599
Up 200 basis points	36,018	13,886	22,132

Although we believe that this analysis is indicative of our sensitivity to interest rate changes as of December 31, 2018, it does not adjust for changes in the credit market, credit quality, the size and composition of the assets in our portfolio and other business developments, including borrowings under the Debt Securitizations and the Credit Facility, or other borrowings, that could affect net increase in net assets resulting from operations, or net income. Accordingly, we can offer no assurances that actual results would not differ materially from the analysis above.

We may in the future hedge against interest rate fluctuations by using standard hedging instruments such as interest rate swaps, futures, options and forward contracts to the limited extent permitted under the 1940 Act and applicable commodities laws. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to the investments in our portfolio with fixed interest rates.

TABLE OF CONTENTS

Item 4: Controls and Procedures.

As of December 31, 2018 (the end of the period covered by this report), management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, or the Exchange Act). Based on that evaluation, our management, including the chief executive officer and chief financial officer, concluded that, at the end of such period, our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic SEC filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in the Company's periodic reports. There has not been any change in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

TABLE OF CONTENTS

Part II - Other Information

Item 1: Legal Proceedings.

We, GC Advisors and Golub Capital LLC may, from time to time, be involved in legal and regulatory proceedings arising out of our respective operations in the normal course of business or otherwise. While there can be no assurance of the ultimate disposition of any such proceedings, each of us, GC Advisors and Golub Capital LLC do not believe it is currently subject to any material legal proceedings.

Item 1A: Risk Factors.

Except as set forth below, there have been no material changes during the three months ended December 31, 2018 to the risk factors discussed in Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended September 30, 2018.

You should carefully consider these risk factors, together with all of the other information included in this Quarterly Report on Form 10-Q and the other reports and documents filed by us with the SEC. The risks set out below are not the only risks we face. Additional risks and uncertainties not presently known to us or not presently deemed material by us may also impair our operations and performance. If any of the following events occur, our business, financial condition, results of operations and cash flows could be materially and adversely affected. In such case, our net asset value (“NAV”) and the trading price of our common stock could decline, and you may lose all or part of your investment. The risk factors described below and in our Annual Report on Form 10-K for the year ended September 30, 2018 are the principal risk factors associated with an investment in us as well as those factors generally associated with an investment company with investment objectives, investment policies, capital structure or trading markets similar to ours.

Risks Relating to the Merger

Sales of shares of the Company’s common stock after the completion of the Merger may cause the market price of the Company’s common stock to decline.

Based on the number of outstanding shares of GCIC common stock as of February 6, 2019, as reported in GCIC’s quarterly report on Form 10-Q for the quarter ended December 31, 2018, the Company would issue approximately 60,929,540 shares of the Company’s common stock pursuant to the Merger Agreement. Former GCIC stockholders may decide not to hold the shares of the Company’s common stock that they will receive pursuant to the Merger Agreement. Certain of GCIC’s stockholders, such as funds with limitations on their permitted holdings of stock in individual issuers, may be required to sell the shares of the Company’s common stock that they receive pursuant to the Merger Agreement. In addition, the Company’s stockholders may decide not to hold their shares of the Company’s common stock after completion of the Merger. In each case, such sales of the Company’s common stock could have the effect of depressing the market price for the Company’s common stock and may take place promptly following the completion of the Merger.

GCIC’s stockholders and the Company’s stockholders will experience a reduction in percentage ownership and voting power in the combined company as a result of the Merger.

The Company’s stockholders will experience a substantial reduction in their respective percentage ownership interests and effective voting power in respect of the combined company relative to their respective ownership interests in the Company prior to the Merger. Consequently, the Company’s stockholders should expect to exercise less influence over the management and policies of the combined company following the Merger than they currently exercise over the

management and policies of the Company. GCIC's stockholders will experience a substantial reduction in their respective percentage ownership interests and effective voting power in respect of the combined company relative to their respective percentage ownership interests in GCIC prior to the Merger. Consequently, GCIC's stockholders should expect to exercise less influence over the management and policies of the combined company following the Merger than they currently exercise over the management and policies of GCIC.

If the Merger were consummated as of February 6, 2019, based on the pro forma number of shares of the Company's common stock to be issued and outstanding as of such date, the Company's stockholders would own approximately 49.8% of the outstanding shares of the Company's common stock, and GCIC's stockholders would own approximately 50.2% of the outstanding shares of the Company's common stock. Prior to completion of the Merger, subject to certain restrictions in the Merger Agreement, the Company and GCIC may each issue additional shares of common stock, which would further reduce the percentage ownership of the combined company held by the Company's current stockholders or to be held by GCIC's stockholders, as applicable. After completion of the Merger, the Company may issue additional shares of the Company's common stock, including, subject to certain restrictions under the 1940 Act,

TABLE OF CONTENTS

including stockholder approval of such issuance, at prices below the then-current NAV per share of the Company's common stock. The issuance or sale by the Company of shares of the Company's common stock at a discount to NAV poses a risk of dilution to the Company's stockholders and former GCIC stockholders.

The Company may be unable to realize the benefits anticipated by the Merger, including estimated cost savings, or it may take longer than anticipated to achieve such benefits.

The realization of certain benefits anticipated as a result of the Merger will depend in part on the integration of GCIC's investment portfolio with the Company's and the integration of GCIC's business with the Company's business. There can be no assurance that GCIC's investment portfolio or business can be operated profitably or integrated successfully into the Company's operations in a timely fashion or at all. The dedication of management resources to such integration may detract attention from the day-to-day business of the combined company, and there can be no assurance that there will not be substantial costs associated with the transition process or that there will not be other material adverse effects as a result of these integration efforts. Such effects, including incurring unexpected costs or delays in connection with such integration and failure of GCIC's investment portfolio to perform as expected, could have a material adverse effect on the financial results of the combined company.

The Company also expects to achieve certain cost savings from the Merger when the two companies have fully integrated their portfolios. It is possible that the estimates of the potential cost savings could ultimately be incorrect. The cost savings estimates also assume the Company will be able to combine the operations of the Company and GCIC in a manner that permits those cost savings to be fully realized. If the estimates turn out to be incorrect or if the Company is not able to combine GCIC's investment portfolio or business with the operations of the Company successfully, the anticipated cost savings may not be fully realized or realized at all or may take longer to realize than expected.

The Merger may trigger certain "change of control" provisions and other restrictions in contracts of the Company, GCIC or their affiliates and the failure to obtain any required consents or waivers could adversely impact the combined company.

Certain agreements of the Company and GCIC or their affiliates, which may include agreements governing indebtedness of the Company or GCIC, will or may require the consent or waiver of one or more counterparties in connection with the Merger. The failure to obtain any such consent or waiver may permit such counterparties to terminate, or otherwise increase their rights or the Company's or GCIC's obligations under, any such agreement because the Merger or other transactions contemplated by the Merger Agreement may violate an anti-assignment, change of control or other similar provision relating to any of such transactions. If this occurs, the Company may have to seek to replace that agreement with a new agreement or seek an amendment to such agreement. The Company cannot assure you that it will be able to replace or amend any such agreement on comparable terms or at all. If these types of provisions are triggered in agreements governing indebtedness of the Company or GCIC, the lender or holder of the debt instrument could accelerate repayment under such indebtedness and negatively affect the Company's business, financial condition, results of operations and cash flows. See "Risks Relating to Our Business and Structure-The Company intends to finance its investments with borrowed money, which will accelerate and increase the potential for gain or loss on amounts invested and may increase the risk of investing in the Company" in this Quarterly Report on Form 10-Q.

If any such agreement is material, the failure to obtain consents, amendments or waivers under, or to replace on similar terms or at all, any of these agreements could adversely affect the financial performance or results of operations of the combined company following the Merger, including preventing the Company from operating a material part of GCIC's business.

In addition, the consummation of the Merger may violate, conflict with, result in a breach of provisions of, or the loss of any benefit under, constitute a default (or an event that, with or without notice or lapse of time or both, would constitute a default) under, or result in the termination, cancellation, acceleration or other change of any right or obligation (including any payment obligation) under, certain agreements of the Company or GCIC. Any such violation, conflict, breach, loss, default or other effect could, either individually or in the aggregate, have a material adverse effect on the financial condition, results of operations, assets or business of the combined company following completion of the Merger.

If the Merger does not close, the Company will not benefit from the expenses incurred in its pursuit.

The Merger may not be completed. If the Merger is not completed, the Company will have incurred substantial expenses for which no ultimate benefit will have been received. The Company has incurred out-of-pocket expenses in connection with the Merger for investment banking, legal and accounting fees and financial printing and other related charges, much of which will be incurred even if the Merger is not completed.

The termination of the Merger Agreement could negatively impact the Company.

TABLE OF CONTENTS

If the Merger Agreement is terminated, there may be various consequences, including:

the Company's businesses may have been adversely impacted by the failure to pursue other beneficial opportunities due to the focus of management on the Merger, without realizing any of the anticipated benefits of completing the Merger;

the market price of the Company's common stock might decline to the extent that the market price prior to termination reflects a market assumption that the Merger will be completed; and

the payment of any termination fee, if required under the circumstances, could adversely affect the financial condition and liquidity of the Company.

Under certain circumstances, the Company is obligated to pay GCIC a termination fee upon termination of the Merger Agreement.

No assurance can be given that the Merger will be completed. The Merger Agreement provides for the payment, subject to applicable law, by the Company of a termination fee of \$29 million to GCIC if the Merger Agreement is terminated by the Company under certain circumstances, including if

- (a) the Board has changed its recommendation in favor of the proposals for its stockholders set forth in the
- (i) Company and GCIC's joint proxy statement/prospectus (as amended from time to time, the "Joint Proxy Statement/Prospectus") and/or has approved an alternative takeover proposal;
- (b) the Company fails to recommend that its stockholders vote in favor of the proposals for its stockholders set forth in the Joint Proxy Statement/Prospectus;
- (c) a takeover proposal by a third-party is announced and the Board fails to reaffirm its recommendation that its stockholders vote in favor of the proposals for its stockholders set forth in the Joint Proxy Statement/Prospectus; or
- (d) a tender or exchange offer for the Company's common stock is initiated by a third-party, and the Board does not recommend rejection of such tender or exchange offer;
- (ii) the Company materially breaches any of its obligations relating to the solicitation and administration of takeover proposals from third parties; or
- (1) the Merger is not completed by November 27, 2019, the Company's stockholders or GCIC's stockholders, as
- (iii) applicable, do not approve the applicable proposals set forth in the Joint Proxy Statement/Prospectus at their respective special meetings, or GCIC or the Company, as applicable, willfully or intentionally breaches its representations, warranties, covenants or agreements in the Merger Agreement,
- (2) an alternative takeover proposal of the Company is disclosed after the date of the Merger Agreement; and
- (3) the Company enters into an agreement with respect to such takeover proposal within twelve months after the Merger Agreement is terminated and such takeover is subsequently completed, subject to applicable law.

See "Description of the Merger Agreement-Termination of the Merger Agreement" in the Joint Proxy Statement/Prospectus for a discussion of the circumstances that could result in the payment of a termination fee.

The Merger Agreement limits the ability of the Company to pursue alternatives to the Merger.

The Merger Agreement contains provisions that limit the Company's ability to discuss, facilitate or commit to competing third-party proposals to acquire all or a significant part of the Company. These provisions, which are typical for transactions of this type, and include a \$29.0 million termination fee payable under certain circumstances, might discourage a potential competing acquiror that might have an interest in acquiring all or a significant part of the Company from considering or proposing that acquisition or might result in a potential competing acquiror proposing to pay a lower per share price to acquire the Company than it might otherwise have proposed to pay.

The Merger is subject to closing conditions, including stockholder approvals, that, if not satisfied or waived, will result in the Merger not being completed, which may result in material adverse consequences to the Company's business and operations.

The Merger is subject to closing conditions, including certain approvals of GCIC's and the Company's respective stockholders that, if not satisfied, will prevent the Merger from being completed. The closing condition that GCIC's stockholders approve the Merger may not be waived under applicable law and must be satisfied for the Merger to be completed. GCIC currently expects that all directors and executive officers of GCIC will vote their shares of GCIC common stock in favor of the proposals presented at the GCIC special meeting of stockholders. If GCIC's stockholders do not approve the Merger and the Merger is not completed, the resulting failure of

TABLE OF CONTENTS

the Merger could have a material adverse impact on GCIC's business and operations. The closing condition that the Company's stockholders approve (i) an amendment to the Company's certificate of incorporation to increase the Company's number of authorized shares of capital stock from 101,000,000 shares to 201,000,000 shares, consisting of 200,000,000 shares of the Company's common stock and 1,000,000 shares of preferred stock, par value \$0.001 per share (such proposal, the "Certificate of Incorporation Amendment Proposal"), and (ii) the issuance of the shares of the Company's common stock pursuant to the Merger Agreement (such proposal, the "Merger Stock Issuance Proposal"), which proposal is contingent upon approval of the Certificate of Incorporation Amendment Proposal, may not be waived under applicable law and must be satisfied for the Merger to be completed. In addition, closing of the Merger is conditioned upon approval by the Company's stockholders of a new investment advisory agreement between the Company and the Investment Adviser to take effect upon closing of the Merger (such proposal, the "Advisory Agreement Amendment Proposal"). The Company currently expects that all directors and executive officers of the Company will vote their shares of the Company's common stock in favor of the proposals presented at the Company's special meeting of stockholders. If the Company's stockholders do not approve each of the Certificate of Incorporation Amendment Proposal, the Merger Stock Issuance Proposal and the Advisory Agreement Amendment Proposal and the Merger is not completed, the resulting failure of the Merger could have a material adverse impact on the Company's business and operations. In addition to the required approvals of GCIC's and the Company's stockholders, the Merger is subject to a number of other conditions beyond GCIC's and the Company's control that may prevent, delay or otherwise materially adversely affect its completion. Neither GCIC nor the Company can predict whether and when these other conditions will be satisfied.

The Company and GCIC are subject to operational uncertainties and contractual restrictions while the Merger is pending.

Uncertainty about the effect of the Merger may have an adverse effect on the Company and GCIC and, consequently, on the combined company following completion of the Merger. These uncertainties may cause those that deal with the Company and GCIC to seek to change their existing business relationships with the Company and GCIC, respectively. In addition, the Merger Agreement restricts the Company and GCIC from taking actions that they might otherwise consider to be in their best interests. These restrictions may prevent the Company and GCIC from pursuing certain business opportunities that may arise prior to the completion of the Merger. Please see the section entitled "Description of the Merger Agreement-Conduct of Business Pending Completion of the Merger" in the Joint Proxy Statement/Prospectus for a description of the restrictive covenants to which GCIC is subject.

The Company and GCIC may waive one or more conditions to the Merger without resoliciting stockholder approval.

Certain conditions to the Company's and GCIC's obligations to complete the Merger may be waived, in whole or in part, to the extent legally allowed, either unilaterally or by agreement of the Company and GCIC. In the event that any such waiver does not require resolicitation of stockholders, the parties to the Merger Agreement will have the discretion to complete the Merger without seeking further stockholder approval. The conditions requiring the approval of each of the Certificate of Incorporation Amendment Proposal and the Merger Stock Issuance Proposal by the Company's stockholders and the Merger by GCIC's stockholders, however, cannot be waived.

The market price of the Company's common stock after the Merger may be affected by factors different from those affecting the Company's common stock currently.

The businesses of the Company and GCIC differ in some respects and, accordingly, the results of operations of the combined company and the market price of the Company's common stock after the Merger may be affected by factors different from those currently affecting the independent results of operations of each of the Company and GCIC. These factors include a larger stockholder base and a different capital structure.

Accordingly, the historical trading prices and financial results of the Company may not be indicative of these matters for the combined company following the Merger. For a discussion of the business of the Company and of certain factors to consider in connection with its business, see “Business of Golub Capital BDC, Inc.” in the Joint Proxy Statement/Prospectus. For a discussion of the business of GCIC and of certain factors to consider in connection with its business, see “Business of Golub Capital Investment Corporation” in the Joint Proxy Statement/Prospectus. As described elsewhere in this Quarterly Report on Form 10-Q, the Joint Proxy Statement/Prospectus and the Company’s other filings with the SEC, the risks associated with an investment in the Company and GCIC are substantially identical.

Risks Relating to Our Business and Structure

Regulations governing the Company’s operation as a business development company affect its ability to, and the way in which it, raises additional capital. As a business development company, the necessity of raising additional capital exposes the Company to risks, including the typical risks associated with leverage.

TABLE OF CONTENTS

The Company may issue debt securities or preferred stock and/or borrow money from banks or other financial institutions, which the Company refers to collectively as “senior securities,” up to the maximum amount permitted by the 1940 Act. Following the approval of the Company’s stockholders of the reduced asset coverage requirements in Section 61(a)(2) to the Company, effective as of February 6, 2019 under the provisions of the 1940 Act, the Company is permitted as a business development company to issue senior securities in amounts such that its asset coverage, as defined in the 1940 Act, equals at least 150% of gross assets (other than the SBA debentures of an SBIC subsidiary, as permitted by exemptive relief the Company has been granted by the SEC) less all liabilities and indebtedness not represented by senior securities, after each issuance of senior securities (other than the SBA debentures of an SBIC subsidiary, as permitted by exemptive relief the Company has been granted by the SEC). If the value of the Company’s assets declines, the Company may be unable to satisfy this ratio. If that happens, the Company may be required to sell a portion of its investments and, depending on the nature of its leverage, repay a portion of its indebtedness at a time when such sales may be disadvantageous. This could have a material adverse effect on the Company’s operations and the Company may not be able to make distributions in an amount sufficient to be subject to tax as a RIC, or at all. Also, any amounts that the Company uses to service its indebtedness are not available for distributions to its stockholders. If the Company issues senior securities, it will be exposed to typical risks associated with leverage, including an increased risk of loss. As of December 31, 2018, the Company had \$971.8 million of outstanding borrowings, including \$189.0 million outstanding under the 2014 Debt Securitization and \$408.2 million outstanding under the 2018 Debt Securitization.

In the absence of an event of default, no person or entity from which the Company borrows money has a veto right or voting power over its ability to set policy, make investment decisions or adopt investment strategies. If the Company issues preferred stock, which is another form of leverage, the preferred stock would rank “senior” to common stock in the Company’s capital structure, preferred stockholders would have separate voting rights on certain matters and might have other rights, preferences or privileges more favorable than those of the Company’s common stockholders, and the issuance of preferred stock could have the effect of delaying, deferring or preventing a transaction or a change of control that might involve a premium price for holders of the Company’s common stock or otherwise be in the best interest of the Company’s common stockholders. Holders of the Company’s common stock will directly or indirectly bear all of the costs associated with offering and servicing any preferred stock that the Company issues. In addition, any interests of preferred stockholders may not necessarily align with the interests of holders of the Company’s common stock and the rights of holders of shares of preferred stock to receive distributions would be senior to those of holders of shares of the Company’s common stock. The Company does not, however, anticipate issuing preferred stock in the next 12 months.

The Company is not generally able to issue and sell the Company’s common stock at a price below NAV per share. The Company may, however, sell its common stock, or warrants, options or rights to acquire its common stock, at a price below the then-current NAV per share of the Company’s common stock if the Board determines that such sale is in the best interests of the Company and its stockholders, and if the Company’s stockholders approve such sale. In any such case, the price at which the Company’s securities are to be issued and sold may not be less than a price that, in the determination of the Board, closely approximates the market value of such securities (less any distributing commission or discount). If the Company raises additional funds by issuing common stock or senior securities convertible into, or exchangeable for, the Company’s common stock, then the percentage ownership of the Company’s stockholders at that time will decrease, and holders of the Company’s common stock might experience dilution.

The Company intends to finance its investments with borrowed money, which will accelerate and increase the potential for gain or loss on amounts invested and may increase the risk of investing in the Company.

The use of leverage accelerates and increases the potential for gain or loss on amounts invested. The use of leverage is generally considered a speculative investment technique and increases the risks associated with investing in the

Company's securities. The amount of leverage that the Company employs will depend on the Investment Adviser's and the Board's assessment of market and other factors at the time of any proposed borrowing. The Company cannot assure you that it will be able to obtain credit at all or on terms acceptable to it. The Company may issue senior debt securities to banks, insurance companies and other lenders. Lenders of these senior securities will have fixed dollar claims on the Company's assets that are superior to the claims of the Company's common stockholders, and the Company would expect such lenders to seek recovery against the Company's assets in the event of a default. The Company may pledge up to 100% of its assets and may grant a security interest in all of its assets under the terms of any debt instruments the Company may enter into with lenders. The terms of the Company's existing indebtedness require the Company to comply with certain financial and operational covenants, and the Company expects similar covenants in future debt instruments. Failure to comply with such covenants could result in a default under the applicable credit facility or debt instrument if the Company is unable to obtain a waiver from the applicable lender or holder, and such lender or holder could accelerate repayment under such indebtedness and negatively affect the Company's business, financial condition, results of operations and cash flows. In addition, under the terms of any credit facility or other debt instrument the Company enters into, the Company is likely to be required by its terms to use the net proceeds of any investments that it sells to repay a portion of the amount borrowed under such facility or instrument before applying such net proceeds to any other uses. If the value of the Company's assets decreases, leveraging would

TABLE OF CONTENTS

cause the Company's NAV to decline more rapidly and to a greater extent than it otherwise would have had the Company not leveraged, thereby accelerating and increasing losses or eliminating the Company's equity stake in a leveraged investment. Similarly, any decrease in the Company's net investment income will cause its net income to decline more rapidly and to a greater extent than it would have had the Company not borrowed. Such a decline would also negatively affect the Company's ability to make distributions on its common stock or any outstanding preferred stock. The Company's ability to service its debt depends largely on its financial performance and is subject to prevailing economic conditions and competitive pressures. Holders of the Company's common stock bear the burden of any increase in the Company's expenses as a result of its use of leverage, including interest expenses and any increase in the base management fee payable to the Investment Adviser.

On September 13, 2011, the Company received exemptive relief from the SEC allowing the Company to modify the asset coverage requirement to exclude the SBA debentures from this calculation. As such, the Company's ratio of total consolidated assets to outstanding indebtedness may be less than the 150% minimum asset coverage requirement permitted by Section 61(a)(2) of the 1940 Act. This exemptive relief provides the Company with increased investment flexibility but also increases the Company's risks related to leverage.

Following the approval of the Company's stockholders of the reduced asset coverage requirements in Section 61(a)(2) to the Company, effective as of February 6, 2019, subject to the Company's compliance with certain disclosure requirements, the reduced asset coverage requirement permits the Company to double the maximum amount of leverage that it was previously permitted to incur under the 1940 Act, which provides the Company with increased investment flexibility but also increase the Company's risks related to leverage.

The following table illustrates the effect of leverage on returns from an investment in the Company's common stock as of December 31, 2018, assuming various annual returns, net of expenses. The calculations in the table below are hypothetical and actual returns may be higher or lower than those appearing in the table below.

	Assumed Return on Our Portfolio (Net of Expenses)				
	-10%	-5%	0%	5%	10%
Corresponding return to common stockholder ⁽¹⁾	-24.60%	-14.34%	-4.08%	6.17%	16.43%

⁽¹⁾ Assumes \$1,979.8 million in total assets, \$993.5 million in debt outstanding and \$965.0 million in net assets as of December 31, 2018, and an average cost of funds of 4.0%, which is the Company's annualized average borrowing cost, including all interest and amortization of debt issuance costs on the Company's term debt securitizations, for the three months ended December 31, 2018.

Based on the Company's outstanding indebtedness of \$993.5 million as of December 31, 2018, the Company's investment portfolio would have been required to experience an annual return of at least 2.0% to cover annual interest payments on the outstanding debt.

New legislation permits the Company to incur additional leverage.

Business development companies are generally able to issue senior securities such that their asset coverage, as defined in the 1940 Act, equals at least 200% of gross assets less all liabilities and indebtedness not represented by senior securities, after each issuance of senior securities. In March 2018, the SBCAA amended Section 61(a) of the 1940 Act to add a new Section 61(a)(2) that reduces the asset coverage requirement applicable to business development companies from 200% to 150% so long as the business development company meets certain disclosure requirements and obtains certain approvals. On February 5, 2019, the Company's stockholders voted to approve the application of the reduced asset coverage requirements in Section 61(a)(2) to the Company effective as of February 6, 2019. As a result of the stockholder approval, effective February 6, 2019, the asset coverage ratio under the 1940 Act applicable to the Company decreased to 150% from 200%. In other words, under the 1940 Act, the Company is now able to borrow \$2 for investment purposes for every \$1 of investor equity, as opposed to borrowing \$1 for investment

purposes for every \$1 of investor equity. As a result, the Company will be able to incur additional indebtedness in the future and investors in the Company may face increased investment risk. In addition, the Company's management fee payable to the Investment Adviser is based on the Company's average adjusted gross assets, which includes leverage and, as a result, if the Company incurs additional leverage, management fees paid to the Investment Adviser would increase.
