Explanatory Note

This Annual Report includes forward-looking statements within the meaning of the Securities Exchange Act of 1934 (the "Exchange Act"). These statements are based on management's beliefs and assumptions, and on information currently available to management. Forward-looking statements include the information concerning possible or assumed future results of operations of the Company set forth under the heading "Management's Discussion and Analysis of Financial Condition or Plan of Operation." Forward-looking statements also include statements in which words such as "expect," "anticipate," "intend," "plan," "believe," "estimate," "consider" or similar expressions are used.

Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions. The Company's future results and shareholder values may differ materially from those expressed in these forward-looking statements. Readers are cautioned not to put undue reliance on any forward-looking statements.

Item 1: Business

Background of the Company

The Company was engaged in the exploration, extraction and distribution of coal from September 23, 2010 until April 12, 2016. As of April 12, 2016, the Company changed its business to the exploration, extraction, refining, distribution of oil, gas, petroleum products and electric power. Effective as of April 6, 2016, the Company changed its name from MMEX Mining Corporation to MMEX Resources Corporation to reflect the change in its business plan.

Company History

MMEX Resources Corporation (the Company or "MMEX") was formed in the State of Nevada on May 19, 2005 as Inkie Entertainment Group, Inc., for the purpose of engaging in the production, distribution and marketing of filmed entertainment products. On January 15, 2008, the Company changed its name to Quantum Information, Inc. In January 2009, the Company announced that it would transition out of the filmed entertainment products business and into the coal business. As part of that transition, on January 14, 2009, the Company sold all of its assets in exchange

for the surrender to the Company of 4,000,000 shares of the Company's common stock, and the assumption of all of the Company's liabilities. The Company also changed its name to MGMT Energy, Inc. on February 5, 2009 to Management Energy, Inc. on May 28, 2009 to better reflect the Company's business focus. On September 23, 2010, the Company, through a reverse merger, acquired 100% of the outstanding shares of Maple Carpenter Creek Holdings, Inc., ("MCCH") a Delaware Corporation, organized on October 15, 2009 as a holding Company with an 80% interest in Maple Carpenter Creek, LLC ("MCC"), which in turn owned a 95% interest in the subsidiary, Carpenter Creek, LLC ("CC"), and at the time of the merger, owned a 98.12% interest in Armadillo Holdings Group Corp. ("AHGC"), which in turn owned an 80% interest in Armadillo Mining Corp. ("AMC"). As of April 30, 2013, AHGC owned 94.6% of AMC through additional capital contributions. The non-controlling interest of 1.88% in AHGC was subsequently acquired by MCCH on December 21, 2010 in exchange for 313,339 shares of MMEX. On February 22, 2011, the Company amended its articles of incorporation to change the corporate name from Management Energy, Inc. to MMEX Mining Corporation. On April 6, 2016 the Company amended its articles of incorporation to change the corporate name to MMEX Resources Corporation and to authorize the Company to issue up to 1,000,000,000 common shares and 10,000,000 preferred shares.

Merger with Maple Carpenter Creek Holdings, Inc

On September 21, 2010, MMEX Resources Corporation, Inc entered into a merger agreement with Maple Carpenter Creek Holdings, Inc. ("MCCH"). MCCH is engaged in the development of both thermal and metallurgical coal projects in the U.S. and Colombia. MCCH had the following coal project interests as of the date of closing of the merger:

Under the terms of the merger agreement, MCCH merged with a wholly owned subsidiary of MMEX Resources Corporation in exchange for the issuance of 6,500,000 shares of MMEX Resources Corporation common stock to the owners of MCCH, of which 5,000,000 shares were issued on October 8, 2010 and 1,500,000 shares were presented as common stock payable. On January 11, 2011, the Board of Directors, through a Unanimous Written Consent of the Board of Directors issued the remaining 1,500,000 in accordance with the merger agreement. The Company reversed the subscription payable resulting in a \$15,000 adjustment to common stock payable. The owners of MCCH also were granted the right to receive an additional 1,500,000 shares of common stock as contingent consideration to vest on certain milestones defined in the definitive merger agreement.

Status of Previously Reported Coal Project

Hunza Project: On January 20, 2011, a subsidiary of the Company executed an exclusive option agreement to purchase a 50% interest in C.I. Hunza Coal, Ltd. (Hunza), a Colombian limited liability corporation that holds various mining concessions in the Boyacá Province of east-central Colombia. The coal prospects in the Hunza concessions are mid-volatility metallurgical or coking coal. We commissioned a technical report in accordance with Canadian National Instrument (NI) 43-101 specifications. Based on the report, the in-place coal tonnage estimate for the property is in the range of 45 to 50 million metric tons. The Company is undertaking a drilling program and until the drilling has been performed and the results analyzed, the estimates presented herein cannot be categorized as estimates of a coal resource under the standards of the 43-101 guidelines.

The Hunza Agreement was amended by the parties thereto on each of February 2, 2012 and February 29, 2012. On March 9, 2012, our subsidiary Armadillo Mining Corp, Colombia (AMCC), exercised its option pursuant to the Hunza Agreement and acquired a 50% interest in Hunza. As such, and in accordance with the Hunza Agreement, the Corporation made or had previously made the following payments:

- \$5,000,000 to Black Stone Investment S.A. as an arrangement fee;
- issuance of a convertible debenture in the principal amount of \$1,200,000 to Black Stone Investment S.A as an agreement fee, convertible into Common Shares at the conversion price of US\$0.30 per

share; and

\$2,015,559 to Hunza to be used for exploration and development of the Hunza Project.

The Hunza Agreement provides for the payment of \$3,000,000 to Hunza upon the earlier of: (i) May 1, 2013; and (ii) 90 calendar days after the delivery of an updated technical report in respect of the work program recommended by the Technical Report to be carried out on the Hunza Project. Failure to pay this amount will immediately result in the reduction of AMCC's interest in Hunza from 50% to 25%.

In 2012, the primary operational activities of Hunza have been initiating the community relations activities in advance of the commencement of the work program to be carried out on the Hunza Project as recommended in the Technical Report. These activities involved working with the local community leaders to understand the needs of the communities in proximity to the Hunza Project. In 2012, Hunza also initiated a transportation and logistics feasibility study for marketing of coal, an update of the initial mine plan and a marketing study for metallurgical coal. With respect to the drilling program, negotiations are underway with the sub-contractor to finalize and to mobilize the drilling operations. Hunza has also engaged a Colombian underground mining operator to develop a complete pre-feasibility and feasibility mining plan for the mine development on the Hunza Project with a Small Scale Mining Plan for extraction of up to 240,000 tons per year and a Large Scale Mining Plan providing for the increase in the production to 2,400,000 tons per year over the course of seven years. Additionally, in January and February 2012, Hunza obtained environmental and mining permits allowing for the production of up to 2,400,000 tons per year.

No mining activities have taken place on the Hunza Project since 2012. As of April 30, 2014, due to the fact that the Colombian government has suspended the Hunza Projects mining permits, the Company recorded a 2014 fiscal year impairment charge of \$4,006,722 which represents 100% of the Hunza Project's net value after first reducing the assets by the payable of \$3,000,000. See further discussion in the footnotes to the financial statements.

As of April 13, 2016 the Company assigned AMC to an irrevocable trust (the "Trust"), whose beneficiaries are the existing shareholders of MMEX. AMC thru the Trust controls the Hunza coal interest previously owned by the Company.

Change of the Company Business

On October 7, 2014, Mr. William D. Gross, the holder of the MMEX Preferred Shares and certain MMEX notes (the "Instruments"), entered into an assignment agreement to assign the Instruments to Maple Project Finance, LLC ("MPF") and in turn, on October 9, 2014, MPF assigned the Instruments to Maple Structure Holdings, LLC ("MSH"). On May 15, 2015 MSH notified the Company that it would convert the Instruments into common shares at a conversion rate of US\$0.01 per share, or otherwise foreclose on the Instruments. The Company has agreed with MSH to convert the outstanding Instruments of US\$3,182,877 and the 3rd Party debt of US\$500,000 under a settlement agreement dated as of May 18, 2015 at the rate of US\$0.01 per share. On May 18, 2015 the MMEX Board of Director approved these transactions.

On May 19, 2015, a majority of shareholders of the Company approved an amendment to Article 4 of the Company's Articles of Incorporation which was approved by the Company's Board of Directors on May 19, 2015. The Company amended its articles of incorporation on April 6, 2016 to change its corporate name to MMEX Resources Corporation and to increase the authorization of the Company to issue up to 1,010,000,000 shares of capital stock, of which 10,000,000 shares shall be Preferred Stock, \$.001 par value ("Preferred Stock"), and 1,000,000,000 shares shall be Common Stock, \$.001 par value ("Common Stock"). The Preferred Stock may be issued in one or more classes and series as determined and designated by the Board of Directors of the corporation, each such class and series to have the powers, preferences and rights, and qualifications, limitations and restrictions as shall be stated and as determined by the Board of Directors of the Company. As of April 13, 2016, the issued and outstanding common shares of the Company are 180,432,013 and no preferred shares.

On November 10, 2015, the Company converted and transferred the Maple Structure Holdings, LLC shares. As of February 25, 2016 the Company has 180,432,013 shares issued with 19,567,987 authorized but unissued.

On April 6, 2016, The Company filed with the Nevada Secretary of State to amend its Articles of Incorporation to provide for the issuance of shares and changed its name to MMEX Resources Corporation which was approved on April 6, 2016.

Effective as of April 12, 2016 the Board of Directors approved the change of the Company business to the refining, distribution of oil, gas and petroleum products and electric power.

As of April 13, 2016 the Company assigned AMC to an irrevocable trust (the "MMEX Trust"), whose beneficiaries are the existing shareholders of MMEX. AMC thru the Trust controls the Hunza coal interest previously owned by the Company.

Oil, Gas ,Refining, and Electric Power Development Strategy

As MMEX continues to expand its business and implement its business strategy, its current monthly cash flow requirements will exceed its near term cash flow from operations. In order to fund its development costs the Company completed a private placement to qualified investors of US\$ 105,000 in cash and services in July, August September of 2015 and April of 2016. The investors were granted warrants to purchase 11,512,171 common shares at an exercise price of \$0.0001 per share for a 3 year period from the date of the Company 1st future round of 3rd party financing in exchange for the US\$105,000 investment.

Notwithstanding this recent private placement, there can be no assurance that the Corporation will be able to generate sufficient cash from operations in future periods to satisfy its capital requirements. Therefore, the Corporation will have to continue to rely on external financing activities, including the sale of equity securities, to satisfy capital requirements for the foreseeable future. Equity financings of the type the Corporation has been required to pursue are dilutive to shareholders and may adversely impact the market price of the Common Shares. However, the Corporation has no commitments for borrowings or additional sales of equity, the precise terms upon which it may be able to attract additional funding is not known at this time, and there can be no assurance that it will be successful in consummating any such future financing transactions on terms satisfactory to MMEX, or at all. See "*Risk Factors*".

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis constitutes forward-looking statements for purposes of the Securities Act and the Exchange Act and as such involves known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. The words "expect", "estimate", "anticipate", "predict", "believes", "plan", "seek", "objective" and similar expressions are intended to identify forward-looking statements or elsewhere in this report. Important factors that could cause our actual results, performance or achievement to differ materially from our expectations are discussed in detail in Item 1 above. All written or oral forward-looking statements attributable to us are expressly qualified in their entirety by such factors. We undertake no obligation to publicly release the result of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Notwithstanding the foregoing, we are not entitled to rely on the safe harbor for forward looking statements under 27A of the Securities Act or 21E of the Exchange Act as long as our stock is classified as a penny stock within the meaning of Rule 3a51-1 of the Exchange Act. A penny stock is generally defined to be any equity security that has a market price (as defined in Rule 3a51-1) of less than \$5.00 per share, subject to certain exceptions.

The following discussion should be read in conjunction with the Financial Statements, including the notes thereto.

Overview

As of April 30, 2014, MMEX Resources Corporation had interests in coal prospects in Colombia, South America. As of May 18, 2015, the MMEX Board of Directors approved the transfer its coal assets in Colombia to a trust for the benefit of its existing shareholders. The shareholders in MMEX have the same prorata ownership interests in the trust that they had in MMEX as of the date of the transfer which is as of April 11, 2016. In addition, the shareholders in MMEX have the same ownership interests in MMEX subject to the dilution by the acquisition of Maple Structured Holdings, LLC of the purchase of the Preferred Shares and selected debt of the Company, and then the subsequent conversion of those Instruments into equity in MMEX at US\$0.01 per share. That conversion results in a substantial dilution of existing shareholders including majority shareholder ownership. See Note 15 on page F-29 below for details of the dilution.

New Business Plan

The MMEX Board of Directors have made the decision to focus the Company efforts into the oil, gas, refining and electric power business in the U.S. and in Latin America. The principal reasons are the following:

- MMEX principal shareholders and directors are also principals in a privately held U.S. oil and gas company, Maple Resources Corporation ("Maple") based in Austin, Texas.
- The MMEX management team has over 30 years of experience in natural resource project development and project financing in North and South America and the U.K.
- MMEX directors and principal shareholders with oil, gas, refining and electric power experience will bring this expertise into the Company.

Management Expertise in Oil, Gas , Refining and Electric Power Project Development and Project Finance Development

MMEX principals formed Maple Resources Corporation ("Maple Resources") in 1986. Maple Resources is a privately held corporation, registered in Delaware, with its principal operating offices in Austin, Texas. It is engaged in the evaluation, acquisition and development of oil & gas , refining, power generation, natural gas transmission and processing energy projects in the western United States and Latin America. Maple Resources was established in 1986

in Dallas, Texas USA. Maple Resources engaged in a number of oil and gas acquisitions and dispositions and ultimately acquired assets that included 10 gas processing plants and approximately 770 miles of natural gas gathering lines and transmission infrastructure. In 1992, Maple Resources Dallas sold substantially all of its existing US-based assets and began to pursue energy projects in Latin America. Maple Resources went to Peru in 1992 and managed its Peru business through The Maple Gas Corporation del Peru Ltd ("Maple Peru"). In 1993, Maple Peru began developing the Aguaytía Project, an integrated natural gas and electric power generation and transmission project. This US\$ 273 million project involved the first commercial development of a natural gas field in Peru, as well as the construction and operation of approximately 175 miles of hydrocarbon pipelines, a gas processing plant, a fractionation facility, a 153 MW power plant and the related 392 km of electricity transmission lines. The Aguaytía Project began commercial operation in 1998. Maple Peru also acquired a 4,000 barrel per day refinery in Pucallpa along with 3 producing oil fields. In 2007, Maple Peru was registered on the London Stock Market AIM under the name of Maple Energy, plc. In October 2015, Maple Resources along with its partners took Maple Gas del Peru private with the acquisition of the company from Maple Energy, plc, the publically listed company.

Development Strategy

The new development strategy is to focus on the acquisition, development and financing of oil, gas, refining and electric power projects in Texas, Peru and other countries in Central and Latin America.

As we continue to expand our business and implement our business strategy, our current monthly cash flow requirements will exceed our near term cash flow from operations. Our available cash resources and anticipated cash flow from operations are insufficient to satisfy our anticipated costs associated with new project development. There can be no assurance that we will be able to generate sufficient cash from operations in future periods to satisfy our capital requirements. Therefore, we will have to continue to rely on external financing activities, including the sale of our equity securities, to satisfy our capital requirements for the foreseeable future. Due, in part, to our lack of historical earnings, our prior success in attracting additional funding has been limited to transactions in which our equity is used as currency. In light of the availability of this type of financing, and the lack of alternative proposals, our board of directors has determined that the continued use of our equity for these purposes may be necessary if we are to sustain operations. Equity financings of the type we have been required to pursue are dilutive to our stockholders and may adversely impact the market price for our shares. However, we have no commitments for borrowings or additional sales of equity, the precise terms upon which we may be able to attract additional funding is not known at this time, and there can be no assurance that we will be successful in consummating any such future financing transactions on terms satisfactory to us, or at all.

Results of Operations

We recorded a net loss of \$1,672,665, or \$0.03 per share, for the fiscal year ended April 30, 2014, compared to a net loss of \$7,857,888, or \$0.14 per share, for the fiscal year ended April 30, 2013.

Revenues:

We have not yet begun to generate revenues.

General and administrative:

General and administrative expenses were \$357,713 for the fiscal year ended April 30, 2014 compared to \$978,136 for the fiscal year ended April 30, 2013, a decrease of \$620,423.

Payroll and taxes:

Payroll and taxes expense was \$520,000 for the fiscal year ended April 30, 2014 compared to \$454,165 for the fiscal year ended April 30, 2013, an increase of \$65,835. The increase was due to changes in administrative personnel.

Professional fees:

Professional fees expense was \$181,756 for the fiscal year ended April 30, 2014 compared to \$450,598 for the fiscal year ended April 30, 2013, a decrease of \$268,842. The decrease was due to reduced need for legal, accounting, financial, and engineering services.

Impairment expense:

Impairment expense was \$0 for the fiscal year ended April 30, 2014 compared to \$4,006,722 for the fiscal year ended April 30, 2013, a decrease of \$4,006,722. The decrease was due to the government suspension of the Hunza coal mining rights during 2013.

Depreciation and amortization:

Depreciation and amortization expense was \$5,353 for the fiscal year ended April 30, 2014 compared to \$4,994 for the fiscal year ended April 30, 2013, an increase of \$359 due to new assets purchased during 2013.

Net operating loss:

Net operating loss for the fiscal year ended April 30, 2014 was \$1,064,822 compared to a net operating loss of \$5,894,615 for the fiscal year ended April 30, 2013, a decrease of \$4,829,793. The net operating loss decreased primarily due to the government suspension of the Hunza coal mining rights during 2013 hence less expenses incurred during the fiscal year ended April 30, 2014 as compared to the prior year.

Other income (expense):

Interest expense was \$614,696 for the fiscal year ended April 30, 2014 and \$1,311,164 for the fiscal year ended April 30, 2013. The decrease of \$696,468 was due to losses from conversions of outstanding debt into equity in 2013. We reported a loss on debt conversion of \$0 for the fiscal year ended April 30, 2014 and \$441,960 for the fiscal year ended April 30, 2013. We also reported loss of \$0 on investment of property for April 30, 2014 and \$280,983 for the fiscal year ended April 30, 2013. This reflects the Company's 50% interest in Hunza's loss from the date the option was exercised to April 30, 2013.

Non-controlling interests in loss of consolidated subsidiaries:

Non-controlling interests in loss of consolidated subsidiaries represented approximately \$6,853 and \$71,084 for the fiscal years ended April 30, 2014 and 2013, respectively.

Net loss:

We recorded a net loss of \$1,672,665, or \$0.03 per share, for the fiscal year ended April 30, 2014, compared to a net loss of \$7,857,888, or \$0.14 per share for the fiscal year ended April 30, 2013, a decreased net loss of \$6,185,223. Net losses decreased primarily as a result of our decreased expenses for the year.

Liquidity and Capital Resources

Our principal source of operating capital has been provided from private sales of our common stock, preferred stock, partnership capital contributions, and debt financing. At April 30, 2014, we had a negative working capital position of \$5,998,307.

On August 15, 2012, the Company entered into a \$100,000 convertible note agreement with an unrelated party. The debentures carry a 20% interest rate until maturity at October 31, 2013 and are convertible into Common Shares at the holder's option at \$0.20 per Common Share. The note is convertible upon default at the option of the holder into our common stock at a fixed conversion price of \$0.20, subject to adjustment for stock splits and combinations.

On January 16, 2013, the Company closed a note purchase agreement with an accredited investor pursuant to which the Company sold a \$120,000 note in a private placement transaction. The note is due and payable on March 1, 2013, carries a 1.87% per month interest rate due and payable on March 1, 2013 and included 300,000 shares of the Company's common stock. If the note is not paid by March 1, 2013, the interest rate is increased by an additional 30% annually. Jack Hanks, the Company's President and CEO secure the note with 900,000 of the Company's common stock, which were pledged and owned.

On February 1, 2013, the Company entered into a \$150,000 convertible note agreement with an unrelated party. The debentures carry a 20% interest rate until maturity at February 1, 2014 and are convertible into Common Shares at the holder's option at \$0.20 per Common Share. The note is convertible upon default at the option of the holder into our common stock at a fixed conversion price of \$0.20, subject to adjustment for stock splits and combinations. In addition, the Company issued 150,000 warrants to purchase shares of the Company's common stock at an exercise price of \$.20 per share on or before three years from the repayment or conversion date.

On March 18, 2013, the Company entered into a \$75,000 note agreement with an unrelated party. The note is due and payable on March 18, 2014 and carry a 10% interest rate.

On April 30, 2014, the Company converted the notes into a single \$48,130 convertible note agreement with BNL Family Partners (a related party); Mr. Bruce N. Lemons, a director of the Company, is a partner of BNL Family Partners. The holder may accelerate repayment of the promissory note upon the Corporation raising additional capital of \$1,000,000. The holder may also convert the note into Common Shares at the holder's option at \$0.025 per Common Share. As the conversion option is above the value of the stock on the date of conversion, no beneficial conversion feature was recorded with this note.

On April 30, 2014, the Company converted the notes and associated accrued interest into a single \$27,100 convertible note agreement with Delavega Trading Ltd., Mr. Nabil Katabi, a director of the Corporation, is a control person of Delavega Trading Ltd. (a related party). The holder may accelerate repayment of the promissory note upon the Corporation raising additional capital of \$1,000,000. The holder may also convert the note into Common Shares at the holder's option at \$0.025 per Common Share. As the conversion option is above the value of the stock on the date of conversion, no beneficial conversion feature was recorded with this note.

On April 30, 2014, the Company entered into a \$39,337 convertible note agreement with Maple Gas Corporation (a related party); Mr. Jack W. Hanks, a director of the Company, is owner of Maple Gas Corporation. The holder may accelerate repayment of the promissory note upon the Corporation raising additional capital of \$1,000,000. The holder may also convert the note into Common Shares at the holder's option at \$0.025 per Common Share. As the conversion option is above the value of the stock on the date of conversion, no beneficial conversion feature was recorded with this note.

As we attempt to expand exploration activities and develop our international operations, we expect to continue to experience net negative cash flows from operations in amounts not now determinable, and will be required to obtain additional financing to fund operations through common stock offerings, preferred stock offerings, and debt borrowings to the extent necessary to provide working capital. We have and expect to continue to have substantial capital expenditure and working capital needs. We do not now have funds sufficient to fund our operations at their current level for the next twelve months. We need to raise additional cash to fund our operations and implement our business plan. We expect that the additional financing will (if available) take the form of a private placement of equity, although we may be constrained to obtain additional debt financing in lieu thereof. We are maintaining an on-going effort to locate sources of additional funding, without which we will not be able to remain a viable entity. No financing arrangements are currently under contract, and there are no assurances that we will be able to obtain adequate financing. If we are able to obtain the financing required to remain in business, eventually achieving operating profits will require commencement of operations to generate revenues or drastically reducing expenses from their current levels or both. If we are able to obtain the required financing to remain in business, future operating results depend upon a number of factors that are outside of our control.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Future Obligations

Management projects working capital needs to be uncertain and this will depend on future projects to be developed by the Company. The corporate overhead requirements are uncertain also at this time and will depend on the project pipeline flow. With Armadillo Mining Corporation now subject to its own trust arrangement, the Company will not be responsible for any more costs or obligations for Armadillo Mining Corporation or the Colombia coal operations of Hunza. Management believes that current cash and cash equivalents will not be sufficient to meet anticipated capital requirements or corporate overhead requirements under this new business plan. We will be forced to raise additional capital through the issuance of new shares, the exercise of outstanding warrants, or reduce our current overhead. However, any projections of future cash needs and cash flows are subject to substantial uncertainty.

Critical Accounting Policies

Our accounting policies are fully described in Note 2 to our financial statements. The following describes the general application of accounting principles that impact our consolidated financial statements.

Our results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to bad debt, inventories, investments, intangible assets, income taxes, financing operations, and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Item 9. Changes In and Disagreements With Accountants on Accounting and Financial Disclosure

There have been no changes in or disagreements with our accountants on accounting and financial disclosures.

Item 9A(T). Controls and Procedures

Evaluation of disclosure controls and procedures. We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were not effective to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. To address the material weaknesses, we performed additional analysis and other post-closing procedures in an effort to ensure our consolidated financial statements included in this annual report have been prepared in accordance with generally accepted accounting principles. Accordingly, management believes that the financial statements included in this report fairly present in all material respects our financial condition, results of operations and cash flows for the periods presented.

Management's Annual Report on Internal Control over Financial Reporting. Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Securities Exchange Act, as amended. Our management assessed the effectiveness of our internal control over financial reporting as of April 30, 2014. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control-Integrated Framework. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. We have identified the following material weaknesses:

1. As of April 30, 2014, we did not maintain effective controls over the control environment. Specifically, the Board of Directors does not currently have any independent members and no director qualifies as an audit committee financial expert as defined in Item 407(d)(5)(ii) of Regulation S-B. Since these entity level programs have a pervasive effect across the organization, management has determined that these circumstances constitute a material weakness.
2. As of April 30, 2014, we did not maintain effective controls over financial statement disclosure. Specifically, controls were not designed and in place to ensure that all disclosures required were originally addressed in our financial statements. Accordingly, management has determined that this control deficiency constitutes a material weakness.

Because of these material weaknesses, management has concluded that the Company did not maintain effective internal control over financial reporting as of April 30, 2014, based on the criteria established in "Internal Control-Integrated Framework" issued by the COSO.

Changes in Internal Control Over Financial Reporting. There have been no changes in the Company's internal control over financial reporting through the date of this report or during the quarter ended April 30, 2014, that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Independent Registered Accountant's Internal Control Attestation. This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

Corrective Action. Management plans to address the structure of the Board of Directors and discuss adding an audit committee during 2014.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

Directors and Executive Officers

The Board of Directors currently consists of three (3) people. Directors serve until the next annual meeting and until their successors are elected and qualified. The following table sets forth information about all of our Directors and executive officers and all persons nominated or chosen to become such:

Name	Age	Office	Year First Elected Director
Jack W. Hanks	69	Director, Chief Executive Officer, President and Chief Financial Officer	2010

Mr. Hanks has served as Director, Chief Executive Officer and President of the Company since the merger of Maple Carpenter Creek, LLC with the Company in September 2010. Mr. Hanks founded Maple Resources Corporation in the United States, in 1986 and has been President or Chairman of the Board of Maple Resources Corporation since its inception. Mr. Hanks has also been the Executive Chairman of Maple Energy PLC, a publicly-listed company on the London Stock Exchange AIM and the Lima Bolsa. Prior to founding Maple, Mr. Hanks was a partner in the Washington D.C. office of the law firm of Akin Gump Strauss. Mr. Hanks graduated from the University of Texas at Austin with a law degree in 1971 and a petroleum land management degree in 1968.

Mr. Lemons has been a practicing lawyer in the mineral area for over 25 years. He has been a private investor in oil and gas and coal projects in the last several years, including in Maple Carpenter Creek, LLC and Maple Energy, PLC and predecessor entities. Since 2002, Mr. Lemons has served as a director of Ansen, an electronics manufacturing company based in upstate New York, which has a Chinese affiliate. Mr. Lemons was a partner in the law firms of Holme Roberts & Owen and in Holland & Hart. Mr. Lemons graduated law school from Brigham Young University in 1980, where he was a member of law review and holds undergraduate degrees in Economics and Political Science from Utah State University.

Mr. Katabi joined Maple Resources Corp. (Dallas) in 1996. He was appointed Manager Project Development in 1998 for the Maple Companies in Peru. His primary responsibility has been the development of new projects, such as the Ethanol Project for Maple in Peru, now Maple Energy. Prior to joining Maple, Mr. Nabil Katabi worked for Banque

Indosuez in Copenhagen, Denmark, as a financial analyst in charge of the placement of international securities. Mr. Nabil Katabi graduated with a Masters in Business Administration from Columbia University (1995) and holds a DEA (Dipome d'Etudes Avanc'ees) in political science from the Sorbonne University in Paris (1997) . He also has a Diplome de Commerce in International Business & Finance from Ecole Superieure de Commerce de Paris (1991). Mr. Katabi is a Director of MMEX and has a consulting agreement with MMEX which, *inter alia*, contains non-disclosure and non-competition provisions.

We are not aware of any "family relationships" (as defined in Item 401(c) of Regulation S--B promulgated by the SEC) among directors, executive officers, or persons nominated or chosen by us to become directors or executive officers.

Except as set forth above, we are not aware of any event (as listed in Item 401(d) of Regulation S B promulgated by the SEC) that occurred during the past five years that are material to an evaluation of the ability or integrity of any director, person nominated to become a director, executive officer, promoter or control person of the company.

The Board of Directors has determined that Mr. Lemons is not "independent" as such term is defined by the listing standards of Nasdaq and the rules of the SEC since he is a major shareholder and a consultant to the Company. The Board of Directors has determined that Mr. Katabi is not "independent" as such term is defined by the listing standards of Nasdaq and the rules of the SEC since he is a major shareholder and a consultant to the Company. Mr. Hanks is not "independent" since he is an employee of the Company.

Compliance with Section 16(a) of the Exchange Act

Due to our status as a Section 15(d) reporting company, our executive officers, directors, and persons who beneficially own more than 10% of a registered class of our equity securities are not required to file with the SEC reports of ownership and changes in ownership of MMEX Resources equity securities pursuant to Section 16(a) of the Securities Exchange Act of 1934.

Code of Ethics

The Board of Directors adopted a code of business ethics on July 3, 2012, that applies to its directors, officers and management employees generally. A copy of this code of business ethics may be obtained, at no cost, by writing or telephoning the Company at, 4447 N Central Expwy, Ste 110 PMB 416, Dallas TX 75205, 855-880-0400 Attn: Secretary.

Audit, Nominating and Compensation Committees

There currently are no committees of our board of directors. Our board of directors is expected to appoint an audit committee, nominating committee and compensation committee, and to adopt charters relative to each such committee. We intend to appoint such persons to the board of directors and committees of the board of directors as are expected to be required to meet the corporate governance requirements imposed by a national securities exchange, although we are not required to comply with such requirements until we elect to seek listing on a securities exchange.

Compensation of Directors

We do not currently pay any cash fees to our directors, but we pay directors' expenses in attending board meetings. During the fiscal year ended April 30, 2014, no director expenses were incurred.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The Company has an employment agreement with Mr. Hanks. (see Item 11 for further discussion of this agreement).

The Company has a consulting agreement with Bruce N. Lemons, a Company Director, which provides for annual compensation of \$170,000. The agreement was effective September 4, 2010 and continues for a period of three years thereafter. As of April 30, 2014, no compensation has been paid but the Company has accrued \$621,315 of consulting fees.

The Company has a consulting agreement with Delavega Tading, Ltd, controlled by Nabil Katabi, a Company Director, which provides for annual compensation of \$180,000. The agreement was effective February 1, 2012 and continues for a period of two years thereafter. As of April 30, 2014, Delavega Trading has converted \$180,000 in fees into 1,237,305 shares and accrued \$44,000 of consulting fees.

On September 4, 2010, MCCH entered into an employment agreement with the Company's CEO, Jack W. Hank for a two year term, automatically renewable for one year terms thereafter, at an annual compensation of \$300,000 per year. On December 15, 2011 the agreement was amended and restated to provide for a three year term with automatic renewable one year terms thereafter at an annual compensation of \$360,000.

On September 4, 2010, MCCH entered into a consulting agreement with Bruce N. Lemons, one of the Company's two directors, for a two year term, automatically renewable for one year terms thereafter, at an annual compensation of \$170,000 per year. On December 15, 2011 the agreement was amended and restated to provide for a three year term with automatic renewable one year terms thereafter.

On May 1, 2012, 131,250 shares of MMEX common stock were issued to Delavega Trading Ltd., an entity controlled by Nabil Katabi a director of the Company, as a result of a conversion, as agreed to on April 25, 2012, of \$43,750 of debt and interest owed Nabil Katabi.

On May 16, 2012, the Corporation issued 3,480,000 shares of the Company's common stock at \$0.10 per share to Montana Coal Royalty, LLC pursuant to conversion of \$348,000 of a note and interest. Montana Coal Royalty, LLC is owned equally by AAM Investments, LLC and The Maple Gas Corporation. The Maple Gas Corporation is controlled by Mr. Jack Hanks, the CEO and a director of the Corporation.

On October 30, 2012, the Corporation issued 300,000 Common Shares at a price of \$0.19 to Delavega Trading Ltd. (a related party), a company for which Nabil Katabi a Company director has a controlling interest, pursuant to terms of a consulting agreement dated February 2, 2012.

On November 2, 2012, the Corporation issued 465,525 Common Shares at an average price of \$0.16 to Delavega Trading Ltd., a company for which Nabil Katabi a Company director has a controlling interest, pursuant to extinguishments of accrued consulting fees. As the accrued compensation was converted in accordance with the signed written agreement; therefore, no gain or loss was recognized.

On January 2, 2013, the Company granted 900,000 shares to four related party consultants for agreeing to collateralize a note agreement issued by the Company. The shares were valued at a total of \$90,000 based on the closing market price on the date of grant.

BNL Family Partners Convertible Notes

On August 1, 2012, the Corporation entered into a \$10,000 convertible note agreement with BNL Family Partners, Mr. Bruce N. Lemons, a director of the Corporation, is a partner of BNL Family Partners, The debentures are convertible into common shares at the holder's option at \$0.20 per common share. The holders may accelerate repayment of the promissory notes upon the Corporation raising additional capital of \$150,000. In addition, the Corporation issued 10,000 warrants at an exercise price of \$0.30 per common share until August 1, 2015 valued at \$994. On August 21, 2012, the Corporation repaid the \$10,000 debenture.

The Company allocated the proceeds from the issuance of the note to the warrants and the note based on their fair market values at the date of issuance using the Black-Scholes model. The value assigned to the warrants of \$994 was recorded as an increase in additional paid-in capital. The assignment of a value to the warrants resulted in a loan discount being recorded for the same amount. The discount will be amortized over the original one year term of the Note as additional interest expense. During the fiscal years ended April 30, 2014 and 2013, \$353 and \$636 were recorded as amortization of the debt discount into interest expense with a remaining discount balance of \$0 as of April 30, 2014.

On September 15, 2012, the Corporation entered into a \$4,500 convertible note agreement with BNL Family Partners, LLC. Mr. Bruce N. Lemons, a director of the Corporation, is a partner of BNL Family Partners. The debentures carry a 20% interest rate until maturity at September 30, 2013 and are convertible into common shares at the holder's option at \$0.20 per common share. The holders may accelerate repayment of the promissory notes upon the Corporation raising additional capital of \$150,000. The computed interest of \$900 was added to the balance of the note and recorded as additional debt discount. During the fiscal years ended April 30, 2014 and 2013, \$403 and \$497 were recorded as amortization of the debt discount into interest expense with a remaining discount balance of \$0 as of April 30, 2014. In addition, the Corporation issued 4,500 Warrants at an exercise price of \$0.30 per Common Share until September 15, 2015 valued at \$800.

The Company allocated the proceeds from the issuance of the note to the warrants and the note based on their fair market values at the date of issuance using the Black-Scholes model. The value assigned to the warrants of \$800 was recorded as an increase in additional paid-in capital. The assignment of a value to the warrants resulted in a loan discount being recorded for the same amount. The discount will be amortized over the original one year term of the Note as additional interest expense. During the fiscal years ended April 30, 2013, \$358 and \$442 were recorded as amortization of the debt discount into interest expense with a remaining discount balance of \$0 as of April 30, 2014.

On January 4, 2013, the Company entered into a \$10,000 convertible note agreement with BNL Family Partners (a related party); Mr. Bruce N. Lemons, a director of the Company, is a partner of BNL Family Partners. The holder may accelerate repayment of the promissory note upon the Corporation raising additional capital of \$150,000 and are convertible into Common Shares at the holder's option at \$0.20 per Common Share. In addition, the Corporation issued 10,000 warrants to purchase Common Shares at an exercise price of \$0.30 per Common Share until January 4, 2016. On January 10, 2013 the note was repaid in full.

The Company allocated the proceeds from the issuance of the note to the warrants and the note based on their fair market values at the date of issuance using the Black-Scholes model. The value assigned to the warrants of \$780 was recorded as an increase in additional paid-in capital. The assignment of a value to the warrants resulted in a loan discount being recorded for the same amount. The discount will be amortized over the original one year term of the Note as additional interest expense. During the fiscal year ended April 30, 2013, \$780 was recorded as amortization of the debt discount into interest expense with a remaining discount balance at April 30, 2014 and 2013 of \$0.

On April 30, 2014, the Company converted the notes above into a single \$48,130 convertible note agreement with BNL Family Partners (a related party); Mr. Bruce N. Lemons, a director of the Company, is a partner of BNL Family Partners. The holder may accelerate repayment of the promissory note upon the Corporation raising additional capital of \$1,000,000. The holder may also convert the note into Common Shares at the holder's option at \$0.025 per Common Share. As the conversion option is above the value of the stock on the date of conversion, no beneficial conversion feature was recorded with this note.

The debenture carries a 20% interest rate until maturity at September 30, 2013 and is convertible into common shares at the holder's option at \$0.20 per common share. The computed interest of \$2,600 was added to the balance of the note and recorded as additional debt discount. During the fiscal years ended April 30, 2014 and 2013, \$936 and \$1,664 were recorded as amortization of the debt discount into interest expense with a remaining balance of \$0 as of April 30, 2014. In addition, the Corporation issued 13,000 Warrants at an exercise price of \$0.30 per Common Share until August 1, 2015 valued at \$1,292.

The Company allocated the proceeds from the issuance of the note to the warrants and the note based on their fair market values at the date of issuance using the Black-Scholes model. The value assigned to the warrants of \$1,292 was recorded as an increase in additional paid-in capital. The assignment of a value to the warrants resulted in a loan discount being recorded for the same amount. The discount will be amortized over the original one year term of the Note as additional interest expense. During the fiscal year ended April 30, 2014 and 2013, \$465 and \$827 was recorded as amortization of the debt discount into interest expense with a remaining discount balance of \$0 as of April 30, 2014.

On December 17, 2012, the Company entered into a \$6,500 convertible note agreement with Delavega Trading Ltd., Mr. Nabil Katabi, a director of the Corporation, is a control person of Delavega Trading Ltd. The debenture carries a 20% interest rate until maturity at December 17, 2013 and is convertible into common shares at the holder's option at \$0.20 per common share. The computed interest of \$1,300 was added to the balance of the note and recorded as additional debt discount. During the fiscal years ended April 30, 2014 and 2013, \$815 and \$485 were recorded as amortization of the debt discount into interest expense with a remaining discount balance of \$0 as of April 30, 2014. In addition, the Corporation issued 6,500 Warrants at an exercise price of \$0.30 per Common Share until December 17, 2015 valued at \$549.

The Company allocated the proceeds from the issuance of the note to the warrants and the note based on their fair market values at the date of issuance using the Black-Scholes model. The value assigned to the warrants of \$549 was recorded as an increase in additional paid-in capital. The assignment of a value to the warrants resulted in a loan discount being recorded for the same amount. The discount will be amortized over the original one year term of the Note as additional interest expense. During the fiscal years ended April 30, 2014 and 2013, \$344 and \$205 were recorded as amortization of the debt discount into interest expense with a remaining discount balance of \$0 as of April 30, 2014.

On April 30, 2014, the Company converted the notes above and associated accrued interest into a single \$27,100 convertible note agreement with Delavega Trading Ltd., Mr. Nabil Katabi, a director of the Corporation, is a control person of Delavega Trading Ltd. (a related party). The holder may accelerate repayment of the promissory note upon the Corporation raising additional capital of \$1,000,000. The holder may also convert the note into Common Shares at the holder's option at \$0.025 per Common Share. As the conversion option is above the value of the stock on the date of conversion, no beneficial conversion feature was recorded with this note.

Maple Gas Convertible Note

On April 30, 2014, the Company entered into a \$39,337 convertible note agreement with Maple Gas Corporation (a related party); Mr. Jack W. Hanks, a director of the Company, is owner of Maple Gas Corporation. The holder may accelerate repayment of the promissory note upon the Corporation raising additional capital of \$1,000,000. The holder may also convert the note into Common Shares at the holder's option at \$0.025 per Common Share. As the conversion option is above the value of the stock on the date of conversion, no beneficial conversion feature was recorded with this note.

See Item 9 above for information concerning director independence.

Item 14. Principal Accountant Fees and Services

Our independent auditors, M&K CPAs, PLLC ("M&K"), have no direct or indirect interest in the Company and have been the Company's Independent Registered Public Accounting Firm since 2009. The following table sets forth the fees billed and estimated fees for professional audit services provided by such firm for the fiscal years ended April 30, 2014 and 2013:

2014	2013
------	------

Edgar Filing: MMEX Resources Corp - Form 10-K

Audit Fees (a)	\$	10,000	\$	10,000
Audit-Related Fees (b)	\$	0	\$	0
Tax Fees (c)	\$	0	\$	0
All Other Fees	\$	0	\$	0

- (a) Includes fees for services related to the audits of our annual financial statements and the reviews of our interim financial statements and assistance with SEC filings.
- (b) Includes fees for services related to transaction due diligence and consultations with respect to compliance with Section 404 of the Sarbanes-Oxley Act.
- (c) Includes fees for services related to tax compliance, preparation and planning services (including U.S. federal, state and local returns) and tax examination assistance.

Our Board of Directors established a policy whereby the outside auditors are required to seek pre-approval on an annual basis of all audit, audit-related, tax and other services by providing a prior description of the services to be performed. For the year ended April 30, 2014, 100% of all audit-related services were pre-approved by the Board of Directors, which concluded that the provision of such services by M&K was compatible with the maintenance of that firm's independence in the conduct of its auditing functions.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

MMEX Resources Corporation

Dallas, Texas

We have audited the accompanying balance sheets of MMEX Resources Corporation (the "Company") as of April 30, 2014 and 2013 and the related statements of operations, stockholders' equity (deficit) and cash flows for the twelve month periods then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of MMEX Resources Corporation as of April 30, 2014 and 2013 and the results of its operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 3 to the financial statements, the Company suffered a net loss from operations and has a net capital deficiency, which raises substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters are also described in Note 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

MMEX Resources Corporation

Notes to Consolidated Financial Statements

NOTE 1 – BACKGROUND, ORGANIZATION, AND BASIS OF PRESENTATION

On May 25, 2011, the Board of Directors approved a 1 for 10 reverse stock split of its common stock. All references in the accompanying financial statements to the number of shares of common stock and loss per share have been retroactively restated to reflect the reverse stock split.

Organization

MMEX Resources Corporation (the Company or "MMEX") was formed in the State of Nevada on May 19, 2005 as Inkie Entertainment Group, Inc., for the purpose of engaging in the production, distribution and marketing of filmed entertainment products. On January 15, 2008, the Company changed its name to Quantum Information, Inc. In January 2009, the Company announced that it would transition out of the filmed entertainment products business and into the coal business. As part of that transition, on January 14, 2009, the Company sold all of its assets in exchange for the surrender to the Company of 400,000 shares of the Company's common stock, and the assumption of all of the Company's liabilities. The Company also changed its name to MGMT Energy, Inc. on February 5, 2009 and to Management Energy, Inc. on May 28, 2009 to better reflect the Company's business focus. On September 23, 2010, the Company, through a reverse merger, acquired 100% of the outstanding shares of Maple Carpenter Creek Holdings, Inc., ("MCCH") a Delaware Corporation, organized on October 15, 2009 as a holding Company with an 80% interest in Maple Carpenter Creek, LLC ("MCC"), which in turn owns a 95% interest in the subsidiary, Carpenter Creek, LLC ("CC"), and a 98.12% interest in Armadillo Holdings Group Corp. ("AHGC"), which in turn owned at April 30, 2012 a 98.6% interest in Armadillo Mining Corp. ("AMC"). The non-controlling interest of 1.88% in AHGC was subsequently acquired by MCCH on December 21, 2010 in exchange for 31,334 shares of MMEX. On February 22, 2011, the Company amended its articles of incorporation to change the corporate name from Management Energy, Inc. to MMEX Mining Corporation. On April 6, 2016 the Company amended its articles of incorporation to change the corporate name from MMEX Mining Corporation to MMEX Resources Corporation and to authorize the Company to issue up to 1,000,000,000 common shares and 10,000,000 preferred shares.

Merger with Maple Carpenter Creek Holdings, Inc

On September 21, 2010, MMEX entered into a merger agreement with Maple Carpenter Creek Holdings, Inc. ("MCCH") that closed on September 23, 2010. Under the terms of the merger agreement, MCCH merged with a wholly owned subsidiary of MMEX, MCC Merger, Inc. ("MCCM"), which was formed just prior to the merger and subsequently dissolved, in exchange for the issuance of 6,500,000 shares of MMEX, common stock to the owners of

MCCH, of which 5,000,000 shares were issued on October 8, 2010 and 1,500,000 shares issued on January 12, 2011. The merger resulted in the owners of MCCH gaining control of MMEX. The owners of MCCH also were granted the right to receive an additional 1,500,000 shares of common stock as contingent consideration to vest on certain milestones defined in the definitive merger agreement as follows:

- 1,000,000 shares upon the closing of equity or debt financing that generates at least 2 million in net proceeds,
- 250,000 shares upon the successful generation of \$250,000 in revenue from coal sales in any fiscal quarter,
- 250,000 shares upon the successful closing of additional equity or debt financing that will generate at least \$2,000,000 in net proceeds.

For financial statement reporting purposes, the merger agreement was treated as a reverse acquisition with MCCH deemed the accounting acquirer and the Company deemed the accounting acquiree under the purchase method of accounting in accordance with Accounting Standards Codification ("ASC") 805-10-40, *Business Combinations – Reverse Acquisitions*. The reverse merger is deemed a recapitalization and the consolidated financial statements reflect the assets and liabilities of MCCH recognized and measured at their carrying value before the combination and the assets and liabilities of the Company (the legal acquirer/legal parent) are measured at fair value. The carrying value of the Company's net assets approximates fair value at the date of acquisition. The fair value of the net assets acquired is (\$70,832). The equity structure reflects the equity structure of the Company, the legal parent, and the equity structure of MCCH, the accounting acquirer, as restated using the exchange ratios established in the merger agreement to reflect the numbers of shares of the legal parent. References to the "Company" in these notes refer to MMEX and its wholly owned subsidiary, MCCH, as well as the subsidiaries discussed below.

MMEX Resources Corporation

Notes to Consolidated Financial Statements

As of the date of the merger agreement, MCCH was focused on the development of both thermal and metallurgical coal projects in the United States and in Colombia. MCCH had two coal project interests at the date of closing, Carpenter Creek, which was sold on March 18, 2011 for \$2,248,401 and Snider Ranch, Montana which was sold on December 21, 2010 for \$1,500,000.

Armadillo Group Holdings Corporation: A 78.12% ownership of Armadillo Mining Corp. ("AMC") in Colombia. As of the date of closing of the merger, AMC had exclusive options to acquire two metallurgical coal mines in the Cundinamarca province of Colombia: (i) Caparrapi is a permitted mine with minimum production and with a resource potential of 11 million metric tons; (ii) Yacopi has resource potential of 40 million metric tons. AMC has terminated the exclusive options for the Caparrapi and Yacopi mines. On January 20, 2011, AMC acquired an option to purchase a 50% interest in a permitted and operating mine Company in Colombia producing metallurgical coal, with a potential resource of 16 million tons to 90 million tons based on existing exploration resources reports. The agreement required an exclusivity fee of \$1,400,000 that was completed on March 22, 2011, and \$5,000,000 to be deposited to an exploration fund to continue the financing of an exploration and drilling program. On February 3, 2012 the parties to the Hunza Agreement executed and delivered an amendment thereto, which, among other things, provided that:

- (a) in order to exercise the option to acquire 50% of Hunza, AMCC would be required to complete the payment of exclusivity fees on or before February 29, 2012, including issuing on February 3, 2012 a \$1,200,000 debenture convertible into 4,000,000 Common Shares to Black Stone Investment S.A. Black Stone Investment S.A. converted the March 2012 Debenture into 4,000,000 Common Shares in two tranches: (i) 1,794,000 Common Shares were issued on March 8, 2012; and (ii) 2,206,000 Common Shares were issued on May 1, 2012.
- (b) after exercise of the option, AMCC would be obligated to fund an additional \$3,000,000 upon the earlier of May 1, 2013 and 90 calendar days after the delivery of a technical report in respect of the work program to be carried out on the Hunza Project (see "The Hunza Project - Recommendations"); and
- (c) AMCC would pledge one half of its interest in Hunza to secure any payment default by AMCC, which default would result in a reduction of the AMCC's interest to 25% of Hunza.

As of April 30, 2013, due to the fact that the Columbian government has suspended the Hunza Projects mining permits, the Company recorded a 2013 fiscal year impairment charge of \$4,006,722 which represents 100% of the Hunza Project's net value after first reducing the assets by the payable of \$3,000,000. See further discussion in the Footnote 6 to the financial statements.

Nature of Business

The MMEX Board of Directors have made the decision to focus the Company efforts into the oil, gas, refining and electric power business in the U.S. and in Latin America.

Notes to Consolidated Financial Statements

The condensed consolidated financial statements herein contain the operations of the above listed subsidiaries as of the dates and for the periods as indicated. All significant inter-company transactions have been eliminated in the preparation of these financial statements. On September 21, 2010 the Company's wholly-owned subsidiary, MCC Merger, Inc. ("Acquisition Sub"), formed previous to the merger, and Maple Carpenter Creek Holdings, Inc. ("The Target Company") entered into an Agreement and Plan of Merger (the "Merger Agreement"). Under the Merger Agreement, as closed on September 23, 2010, Acquisition Sub merged with and into the Target Company, with the Target Company remaining as the surviving corporation and wholly-owned subsidiary of the Company (the "Merger"). Going forward, the Company will be a holding company parent of the Target Company, and the Company's business operations following the Merger will be those of the Target Company.

These statements reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management are necessary for fair presentation of the information contained therein.

The Company has adopted a fiscal year end of April 30th.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consolidation

The accompanying condensed consolidated financial statements include the accounts of the Company and its aforementioned subsidiaries. See *Recently Issued Accounting Pronouncements* ("ASC 810") below for additional information on Non-controlling interests in Consolidated Financial Statements. All significant intercompany accounts and transactions have been eliminated in consolidation.

Equity method accounting

The Company accounts for investments in properties for which it owns a voting interest and for which it has the ability to exercise significant influence over operating and financing decisions using the equity method of accounting.

These investments are included in investment in property in the long-term portion of assets of the balance sheet. Equity method investments are subject to impairment testing and the Company's proportionate share of income or loss is included in other income (expense). During the years ended April 30, 2014 and 2013 the Company recognized \$0 and (\$280,983), respectively, as a result of losses in investments in property. See Footnote 6 for further information regarding investments in properties.

Impairment of Long-Lived Assets

The Company has adopted Accounting Standards Codification subtopic 360-10, Property, Plant and Equipment ("ASC 360-10"). ASC 360-10 requires that long-lived assets and certain identifiable intangibles held and used by the Company be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company evaluates its long-lived assets for impairment annually or more often if events and circumstances warrant. Events relating to recoverability may include significant unfavorable changes in business conditions, recurring losses or a forecasted inability to achieve break-even operating results over an extended period. The Company evaluates the recoverability of long-lived assets based upon forecasted undiscounted cash flows. Should impairment in value be indicated, the carrying value of intangible assets will be adjusted, based on estimates of future discounted cash flows resulting from the use and ultimate disposition of the asset. ASC 360-10 also requires that those assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

MMEX Resources Corporation

Notes to Consolidated Financial Statements

Property and equipment

Equipment is recorded at the lower of cost or estimated net recoverable amount, and is depreciated using the straight-line method over the estimated useful life of the related asset as follows:

Furniture and fixtures	5 years
Machinery and equipment	5 years
Software and hardware	5 years

Maintenance and repairs will be charged to expense as incurred. Significant renewals and betterments will be capitalized. At the time of retirement or other disposition of equipment, the cost and accumulated depreciation will be removed from the accounts and the resulting gain or loss, if any, will be reflected in operations.

The Company will assess the recoverability of equipment by determining whether the depreciation and amortization of these assets over their remaining life can be recovered through projected undiscounted future cash flows. The amount of equipment impairment, if any, will be measured based on fair value and is charged to operations in the period in which such impairment is determined by management.

Fair value of financial instruments

Under FASB ASC 820-10-05, the Financial Accounting Standards Board establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement reaffirms that fair value is the relevant measurement attribute. The adoption of this standard did not have a material effect on the Company's financial statements as reflected herein. The carrying amounts of cash, accounts payable and accrued expenses reported on the balance sheet are estimated by management to approximate fair value primarily due to the short term nature of the instruments. The Company had no other items that required fair value measurement on a recurring basis.

Advertising and promotion

All costs associated with advertising and promoting products are expensed as incurred. No expenses were incurred for the years ended April 30, 2014 and 2013, respectively.

Income taxes

The Company recognizes deferred tax assets and liabilities based on differences between the financial reporting and tax bases of assets and liabilities using the enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered. The Company provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets to be more likely than not.

Basic and diluted loss per share

The basic net loss per common share is computed by dividing the net loss by the weighted average number of common shares outstanding. Diluted net loss per common share is computed by dividing the net loss adjusted on an "as if converted" basis, by the weighted average number of common shares outstanding plus potential dilutive securities. For the periods presented, potential dilutive securities had an anti-dilutive effect and were not included in the calculation of diluted net loss per common share.

Stock-based compensation

The Company adopted FASB guidance on stock based compensation upon inception at April 23, 2009. Under FASB ASC 718-10-30-2, all share-based payments to employees, including grants of employee stock options, are to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. For the fiscal years ended April 30, 2014 and 2013, \$0 and \$364,942, respectively, in share based payments as compensation were expensed.

MMEX Resources Corporation

Notes to Consolidated Financial Statements

In December of 2004, the FASB issued a standard which applies to transactions in which an entity exchanges its equity instruments for goods or services and also applies to liabilities an entity may incur for goods or services that are based on the fair value of those equity instruments. For any unvested portion of previously issued and outstanding awards, compensation expense is required to be recorded based on the previously disclosed methodology and amounts. Prior periods presented are not required to be restated. The Company adopted this standard upon inception on May 23, 2007 and applied the standard using the modified prospective method.

Issuance of Shares for Non-Cash Consideration

The Company accounts for the issuance of equity instruments to acquire goods and/or services based on the fair value of the goods and services or the fair value of the equity instrument at the time of issuance, whichever is more reliably determinable. The Company's accounting policy for equity instruments issued to consultants and vendors in exchange for goods and services follows the provisions of the standards issued by the FASB. The measurement date for the fair value of the equity instruments issued is determined as the earlier of (i) the date at which a commitment for performance by the consultant or vendor is reached or (ii) the date at which the consultant or vendor's performance is complete. In the case of equity instruments issued to consultants, the fair value of the equity instrument is recognized over the term of the consulting agreement.

Uncertain tax positions

Effective upon the Company's fiscal year ended April 30, 2009, the Company adopted new standards for accounting for uncertainty in income taxes. These standards prescribe a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. These standards also provide guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

Various taxing authorities periodically audit the Company's income tax returns. These audits include questions regarding the Company's tax filing positions, including the timing and amount of deductions and the allocation of income to various tax jurisdictions. In evaluating the exposures connected with these various tax filing positions, including state and local taxes, the Company records allowances for probable exposures. A number of years may elapse before a particular matter, for which an allowance has been established, is audited and fully resolved. The Company has not yet undergone an examination by any taxing authorities.

The assessment of the Company's tax position relies on the judgment of management to estimate the exposures associated with the Company's various filing positions.

Income or loss per share

Basic EPS is calculated by dividing net income or loss (available to common stockholders) by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock, such as stock options, warrants, convertible preferred stock and convertible debentures, were exercised or converted into common stock. For 2014 and 2013, potential dilutive securities had an anti-dilutive effect and were not included in the calculation of diluted net loss per common share.

Loss per share is based on the weighted average number of shares outstanding of 57,188,313 and 55,571,545, for the years ended April 30, 2014, and 2013, respectively.

Recently issued accounting pronouncements

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 310-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The amendments in this Update provide guidance in GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. In doing so, the amendments are intended to reduce diversity in the timing and content of footnote disclosures. The amendments are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The Company has not determined the impact of the future adoption of the provisions of ASU No. 2014-15 on its financial statements.

MMEX Resources Corporation

Notes to Consolidated Financial Statements

NOTE 3 – GOING CONCERN

Our financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern, which contemplate the realization of assets and liquidation of liabilities in the normal course of business. We have incurred continuous losses from operations, have an accumulated deficit of \$26,311,270 and a working capital deficit of \$5,998,307 at April 30, 2014, and have reported negative cash flows from operations since inception. In addition, we do not currently have the cash resources to meet our operating commitments for the next twelve months, and we expect to have ongoing requirements for capital investment to implement our business plan. Finally, our ability to continue as a going concern must be considered in light of the problems, expenses and complications frequently encountered by entrance into established markets and the competitive environment in which we operate.

Since inception, our operations have primarily been funded through private debt and equity financing, as well as capital contributions by our subsidiaries' partners, and we expect to continue to seek additional funding through private or public equity and debt financing.

Our ability to continue as a going concern is dependent on our ability to generate sufficient cash from operations to meet our cash needs and/or to raise funds to finance ongoing operations and repay debt. However, there can be no assurance that we will be successful in our efforts to raise additional debt or equity capital and/or that our cash generated by our operations will be adequate to meet our needs. These factors, among others, indicate that we may be unable to continue as a going concern for a reasonable period of time.

The financial statements do not include any adjustments that might result from the outcome of any uncertainty as to the Company's ability to continue as a going concern. The financial statements also do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 4 – RELATED PARTY TRANSACTIONS

During the period from May 1, 2009 through April 30, 2010, Tydus Richards, the former Chairman of our board of directors and shareholder, made payments totaling \$71,700 on behalf of the Company. The Company reimbursed Mr. Richards \$8,700 on September 3, 2009 and the remaining balance of \$63,000 was outstanding as of April 30, 2010. During the first and second quarter of the current fiscal year, Mr. Richards made additional payments totaling \$7,633 on behalf of the Company. On May 12, 2010, the Company reimbursed an additional \$39,000 of the balance and as of April 30, 2014 and 2013, the remaining balance of \$31,633 remains outstanding.

On September 4, 2010, MCCH entered into an employment agreement with the Company's CEO, Jack W. Hanks for a two year term, automatically renewable for one year terms thereafter, at an annual compensation of \$300,000 per year.

NOTE 6 – INVESTMENT IN PROPERTY

On January 20, 2011, AMC acquired an option to purchase a 50% interest in a permitted and operating mine company in Colombia, the Hunza lease, producing metallurgical coal, with a potential resource of 16 million tons to 90 million tons based on existing exploration resources reports. The agreement required an exclusivity fee of \$1,400,000 that was completed on March 22, 2011, and \$5,000,000 to be deposited to an exploration fund to continue the financing of an exploration and drilling program. On February 3, 2012 the Company executed and delivered an amendment to the Hunza option agreement which, among other items, provides that:

- In order to exercise the option to acquire 50% of Hunza, the Company would be required to complete the payment of exclusivity fees on or before February 29, 2012, including issuing a \$1.2 million note convertible into 4,000,000 shares of the Company's common stock. On March 8, 2012, \$538,200 of the note was converted into 1,794,000 shares of the Company's common stock.
- After exercise of the option, the Company would be obligated to fund an additional \$3.0 million upon the earlier of May 1, 2013 or 90 days after the completion of the technical resources report which will be commissioned by Hunza.
- The Company would pledge one half of its interest in Hunza to secure any payment default by the Company, which default would result in a reduction of the Company's interest to 25% of Hunza.

As a result of the acquisition of the 50% interest in Hunza, the board of directors and operating committee of Hunza consist of four members in total: two members from the Company; namely, Jack Hanks (CEO) and Nabil Katabi (Director). The other two members of the board of directors and operating committee are non-related party to MMEX and jointly own the other 50% interest in Hunza and are themselves, brothers, and therefore, related party to each other (the "Original Shareholders"). The Original Shareholders have the right to, in the occurrence of a deadlock between themselves and the two board members from the Company, repurchase the 50% ownership from the Company at its fair value. The Company does not have primary control over the Original Shareholders or Hunza.

On March 8, 2012, the final exclusivity payment of \$3,600,000 was made with an additional \$700,000 payment to the exploration fund, for a total of \$2,015,559 contributed to the exploration fund, the Hunza purchase was completed.

During the course of fiscal year ended April 30, 2012 an impairment \$932,343 was taken due to the fact that it was uncertain whether or not the Company would be able to purchase the option to own 50% of Hunza. During the fourth quarter of the fiscal year ended April 30, 2012, the Company did obtain the option with the final payment of \$3,600,000 of cash and exercised it with the final payment of \$700,000. In addition, the Company obtained a valuation report from an independent contractor, as well as a feasibility report, indicating that production and exploration of Hunza is probable and economical. The Company considered whether impairment of the payments made during the fourth quarter of 2012 was necessary, but determined that based upon the information contained within the two reports received, that the investment bears value to the Company that exceeded the cash amounts paid during the fourth quarter of 2012, in addition to the future cash payment of \$3,000,000 expected to be paid within the next twelve months.

On January 2, 2013, the Company closed a note purchase agreement with an accredited investor pursuant to which the Company sold a \$120,000 note in a private placement transaction. The note is due and payable on March 1, 2013, carries a 1.87% per month interest rate due and payable on March 1, 2013 and included 300,000 shares of the Company's common stock. If the note is not paid by March 1, 2013, the interest rate is increased by an additional 30% annually. The note is secured with 900,000 of the Company's common stock which were pledged and owned by Jack Hanks, the Company's President and CEO. The 300,000 shares were valued at \$0.10 per share, the closing price of the Company stock on January 2, 2013, and recorded as a \$30,000 increase to discount on notes payable and an increase in common stock payable. The discount will be amortized over the term of the note. During the fiscal year ended April 30, 2013, \$30,000 was amortized into interest expense with a remaining discount balance of \$0 as of April 30, 2014 and 2013. This note is currently in default.

February 1, 2013 Convertible Note

On February 1, 2013, the Company entered into a \$150,000 convertible note agreement with an unrelated party. The debentures carry a 20% interest rate until maturity at February 1, 2014 and are convertible into Common Shares at the holder's option at \$0.20 per Common Share. The note is convertible upon default at the option of the holder into our common stock at a fixed conversion price of \$0.20, subject to adjustment for stock splits and combinations. The Company recorded as a \$30,000 increase to debt discount on notes payable from the additional accrued interest. The discount will be amortized over the term of the note. During the fiscal year ended April 30, 2014 and 2013, \$22,500 and \$7,500 were amortized into interest expense with a remaining discount balance of \$0 as of April 30, 2014. In addition, the Company issued 150,000 warrants to purchase shares of the Company's common stock at an exercise price of \$0.20 per share on or before three years from the repayment or conversion date.

MMEX Resources Corporation

Notes to Consolidated Financial Statements

The Company allocated the proceeds from the issuance of the note to the warrants and the note based on their fair market values at the date of issuance using the Black-Scholes model. The value assigned to the warrants of \$16,103 was recorded as an increase in additional paid-in capital. The assignment of a value to the warrants resulted in a loan discount being recorded for the same amount. The discount will be amortized over the original one year term of the Note as additional interest expense. During the fiscal years ended April 30, 2014 and 2013, \$12,077 and \$4,026 were recorded as amortization of the debt discount into interest expense with a remaining discount balance of \$0 as of April 30, 2014.

Maple Gas Convertible Note

On April 30, 2014, the Company entered into a \$39,337 convertible note agreement with Maple Gas Corporation (a related party); Mr. Jack W. Hanks, a director of the Company, is owner of Maple Gas Corporation. The holder may accelerate repayment of the promissory note upon the Corporation raising additional capital of \$1,000,000. The holder may also convert the note into Common Shares at the holder's option at \$0.025 per Common Share. As the conversion option is above the value of the stock on the date of conversion, no beneficial conversion feature was recorded with this note.

NOTE 10 – CONVERTIBLE PREFERRED STOCK

On March 22, 2011 the Company issued 1,000,000 shares of Series A Preferred Stock (the "Preferred Stock") to an unrelated party in exchange for an investment of \$1,000,000. The shares may be converted into the Company's common shares at \$0.40 per common share. The Preferred Stock carry a 10% cumulative dividend and have a mandatory redemption feature on the earlier of March 1, 2016 or on a change of control transaction. The Company is required to redeem the shares at a liquidation value of \$1.00 per share plus any accrued and unpaid dividends. Due to the mandatory redemption feature, the Company recorded the investment as a liability under ASC Subtopic 480-10.

The Company recorded the intrinsic value of the beneficial conversion of \$1,000,000 as debt discount and will amortize the discount through the mandatory redemption feature date of March 1, 2016. The investment is collateralized with a security interest in 2,500,000 MMEX Resources Corporation common stock shares. During the fiscal years ended April 30, 2014 and 2013, \$153,190 and \$161,221 were amortized into interest expense with a remaining discount balance of \$645,172 as of April 30, 2014.

Loan costs of \$50,000 incurred on the issuance of the Preferred Stock were recorded as deferred loan costs and will be amortized by the effective interest method. The Company recorded amortization on loan costs in the amount of \$10,000 and \$21,178 for the years ended April 30, 2014 and 2013, respectively. Dividends payable were \$310,685 and \$210,685 for the periods ended April 30, 2014 and 2013, respectively.

On June 30, 2011, the Company issued 360,000 shares of Armadillo Mining Corporation Preferred Stock to five unrelated parties in exchange for an investment of \$360,000. The Preferred Stock carry a 25% cumulative dividend and have a mandatory redemption feature on December 31, 2011 at a price of \$1.25 per share. In addition, the Company issued 360,000 warrants to purchase shares of the Company's common stock at an exercise price of \$0.60 per share on or before three years from the repayment or conversion date.

On January 6, 2012, three unrelated parties converted their Preferred Stock and accrued dividends of \$312,500 into 2,983,293 shares of MMEX Mining Corporation common stock at a price of \$0.10475 per share. As the conversion took place at below the market price and not within the terms of the agreement on the date of conversion, a loss of \$75,328 was recorded.

On August 15, 2012, the company amended the Preferred Stock agreement and lowered the conversion rate provided from \$0.40 per common share to \$0.20 per common share. The amendment generated a \$302,694 fair value adjustment that was recorded as additional interest expense and increased additional paid in capital.

Stock Based Compensation – Stock warrants

During the fiscal year ended April 30, 2013, the Company issued vested warrants totaling 32,865,345 respectively to non-employees. These warrants were valued using a Black Scholes Model and the amounts were recorded as either debt discounts or stock-based compensation.

During the fiscal year ended April 30, 2014, the Company did not issue any warrants.

Expense Information

The Company measures and recognizes compensation expense for all stock-based payment awards made to non-employees based upon estimated fair values. The Company recorded stock-based compensation in operating expenses for non-employees of \$0 and \$661,045 for the fiscal years ended April 30, 2014 and 2013, respectively.

Valuation Assumptions

The Company uses the Black-Scholes option pricing model in determining its warrants expense issued to non-employees. The ranges of assumptions used during the fiscal year ended April 30, 2013, are as follows:

	April 30, 2014
	Warrants
Expected Volatility	146% to 309%
	0.27% to
Risk-free interest rate	0.42%
Forfeiture Rate	0%
Expected Dividend Rate	0%
Expected Life (yrs)	2 to 3

The expected volatility is based on the weighted average of the historical volatility of the Company's stock.

The risk-free interest rate assumption is based upon published interest rates appropriate for the expected life of the Company's non-employee stock options.

The dividend yield assumption is based on the Company's history of not paying dividends and no future expectations of dividend payouts.

The expected life of the warrants represent the weighted-average period that the warrants are expected to remain outstanding and was determined based on historical experience of similar warrants, giving consideration to the contractual terms of the warrants, vesting and expectations of future investor behavior as influenced by changes to the terms of its warrants.

NOTE 13 – COMMITMENTS AND CONTINGENCIES

Legal

There were no legal proceedings against the Company.

Operating Lease Commitments

The Company acquired the Bolzer Lease pursuant to the September 23, 2010 merger. Subsequently, notice of termination on this lease effective April 26, 2010 was provided by previous management. The Company has recorded an accrued expense for the minimum lease payment of \$62,541 for the January 2010 payment.

NOTE 14 – INCOME TAXES

The Company accounts for income taxes in accordance with standards of disclosure propounded by the FASB, and any related interpretations of those standards sanctioned by the FASB. Accordingly, deferred tax assets and liabilities are determined based on differences between the financial statement and tax bases of assets and liabilities, as well as a consideration of net operating loss and credit carry forwards, using enacted tax rates in effect for the period in which the differences are expected to impact taxable income. A valuation allowance is established, when necessary, to reduce deferred tax assets to the amount that is more likely than not to be realized.

No provision for income taxes has been recorded due to the net operating loss carryforwards totaling approximately \$7,645,915 as of April 30, 2014 that will be offset against future taxable income. The available net operating loss carry forwards of approximately \$7,645,915 expire in various years through 2034. No tax benefit has been reported in the financial statements because the Company believes there is a 50% or greater chance the carry forwards will expire unused. There were no uncertain tax positions taken by the Company.

Deferred tax asset and the valuation account is as follows:

	April 30, 2014	April 30, 2013
Deferred tax asset:		
NOL Carryforward	2,676,070	2,221,927
Valuation Allowance	(2,676,070)	(2,221,927)
Total	-	-

The components of income tax expense are as follows:

Change in NOL benefit	454,143	1,654,038
Change in valuation allowance	(454,143)	(1,654,038)
