Item 7.01. Regulation FD Disclosure.

The Company has received questions regarding the Company's operations. The Company felt it was better to answer the questions through an 8-K instead emailing the individuals directly.

Q.1. Is the Company looking at starting to grow its own plants for medical marijuana?

A.1. Yes. Beginning in 2018, new regulations will be in place in California. The Company is currently exploring the possibility of establishing a growing operation in Santa Rosa, CA. Santa Rosa is currently allowing companies to obtain licenses for growing operations.

Q.2. Does the Company sell its products on consignment?

A.2. No the Company does not sell its products on consignment. Typically, all orders are cash on delivery.

Q.3. How does the Company sell its products?

A.3. Last year the Company primarily focused on events such as Hempcon and Blazers Cup. In January 2016, the Company shifted to focus on selling to dispensaries. In March 2016, the Company began using distributors. The Company begun its operations in August 2015 and sells have only commenced in the past 4 months. The industry is a cash business and require physical deliveries since traditional shipping method are not available. The Company has had to navigate these difficulties during its development and start-up phase. Which is way the Company begun using distributors in March 2016. This simplified the Company's structure. For example, in Northern California 35 dispensaries carry our products. Currently though the Company deliveries orders to one distributor who in turn deliveries to the dispensaries. This also simplified the collection and documentation of payment since payment is due upon delivery.

Item 8.01. Other Events.

On June 17, 2016, the Company completed development of its THC Shot. The THC Shot contains 100MG of THC and will begin being sold June 22, 2016.
