[X] QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended: **March 31, 2016**

OR

[] TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 333-190456

AKERS BIOSCIENCES, INC.

(Exact name of registrant as specified in its charter)

New Jersey **22-2983783**
(State or other jurisdiction (IRS Employer
of incorporation) Identification No.)

201 Grove Road

Thorofare, NJ 08086

(Address of principal executive offices)

(856) 848-2116

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by section 13 or 15(d) of the Securities Exchange Act of 1934 during the past 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Sec.232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files. Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer ☐ Accelerated filer ☐

Non-accelerated filer ☐ Smaller reporting company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of May 11, 2016, there were 5,425,045 shares outstanding of the registrant's common stock.

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

Note 1 – Nature of Business

(a) Reporting Entity

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information. Accordingly, they do not include all the information and disclosures required by GAAP for complete financial statements. Operating results for the three months ended March 31, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016. In the opinion of management, the unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation. These unaudited condensed consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and notes for the year ended December 31, 2015 included in Form 10-K of Akers Biosciences, Inc. and Subsidiaries (“the Company”).

The condensed consolidated financial statements include two dormant subsidiaries, Akers Acquisition Sub, Inc. and Bout Time Marketing Corporation. All material intercompany balances have been eliminated upon consolidation.

(b) Nature of Business

The Company commenced research and development operations in September 1989, and until 2005 had devoted substantially all its efforts to establishing the new business.

The Company’s primary focus is the development and sale of disposable diagnostic testing devices that can be performed in minutes, to facilitate time sensitive therapeutic decisions. The Company’s main products are a disposable breathalyzer test that measures the blood alcohol content of the user, a rapid test detecting the antibody causing an allergic reaction to Heparin and a disposable breathalyzer test that measures Free Radical activity in the human body.

Note 2 – Basis of Presentation and Significant Accounting Policies

(a)Basis of Presentation

The condensed consolidated financial statements of the Company are prepared in U.S. Dollars and in accordance with GAAP.

The Company is an emerging growth company as the term is used in The Jumpstart Our Business Startups Act enacted on April 5, 2012 and has elected to comply with certain reduced public company reporting requirements.

~ 5 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes for revenue recognition, allowances for doubtful accounts, inventory write-downs, impairment of intangible assets and valuation of share based payments.

(c) Functional and Presentation Currency

These condensed consolidated financial statements are presented in U.S. Dollars, which is the Company's functional currency. All financial information presented in U.S. Dollars has been rounded to the nearest dollar. Foreign currency transaction gains or losses, resulting from loans and cash balances denominated in foreign currencies, are recorded in the condensed consolidated statement of operations.

(d) Comprehensive Income/(Loss)

The Company follows Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 220 in reporting comprehensive income (loss). Comprehensive income is a more inclusive financial reporting methodology that includes disclosure of certain financial information that historically has not been recognized in the calculation of net income.

(e) Cash and Cash Equivalents

Cash and cash equivalents comprise cash balances. The Company considers all highly liquid investments, which include short-term bank deposits (up to 3 months from date of deposit) that are not restricted as to withdrawal date or use, to be cash equivalents. Bank overdrafts are shown as part of trade and other payables in the condensed

consolidated balance sheet.

~ 6 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(f) Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, marketable securities, receivables and trade and other payables. The carrying value of cash and cash equivalents, receivables and trade and other payables approximate their fair value because of their short maturities. The fair value of marketable securities is described in Note 2(g).

(g) Fair Value Measurement – Marketable Securities

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2 Inputs to the valuation methodology include

quoted prices for similar assets or liabilities in active markets;

quoted prices for identical or similar assets or liabilities in inactive markets;

inputs other than quoted prices that are observable for the asset or liability;

inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

(h) Trade Receivables, Trade Receivables – Related Party and Allowance for Doubtful Accounts

The carrying amounts of current trade receivables is stated at cost, net of allowance for doubtful accounts and approximate their fair value given their short term nature.

~ 7 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

The normal credit terms extended to customers ranges between 30 and 90 days. The Company reviews all receivables that exceed terms and establishes an allowance for doubtful accounts based on management's assessment of the collectability of trade and other receivables. A considerable amount of judgment is required in assessing the amount of allowance. The Company considers the historical level of credit losses, makes judgments about the credit worthiness of each customer based on ongoing credit evaluations and monitors current economic trends that might impact the level of credit losses in the future.

As of March 31, 2016 and December 31, 2015, allowances for doubtful accounts were \$864,000. Allowances charged for doubtful accounts amounted to \$- for the three months ended March 31, 2016 and March 31, 2015.

(i) Concentration of Credit Risk

The Company is exposed to credit risk in the normal course of business primarily related to trade receivables and cash and cash equivalents.

Substantially all of the Company's cash is maintained with Fulton Bank of New Jersey and Bank of America. The funds are insured by the Federal Deposit Insurance Corporation up to a maximum of \$250,000 per account or instrument, but are otherwise unprotected. The Company placed \$161,429 and \$369,525 with Fulton Bank of New Jersey, \$14,921 and \$28,494 with Bank of America and \$4,040 with PayPal as of March 31, 2016 and December 31, 2015.

Concentration of credit risk with respect to trade receivables exists as approximately 74% of its revenue was generated by two customers for the three months ended March 31, 2016. These customers accounted for 30% of gross trade receivables (including related parties) as of March 31, 2016. In order to limit such risks, the Company performs ongoing credit evaluations of its customers' financial condition.

(j) Inventories

Inventories are measured at the lower of cost or market. The cost of inventories is based on the weighted-average principle, and includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, costs include an appropriate share of production overheads based on normal operating capacity.

(k) Property, Plant and Equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Costs include expenditures that are directly attributable to the acquisition of the asset.

~ 8 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized within “other income” in the condensed consolidated statement of operations.

Depreciation is recognized in the condensed consolidated statement of operations on the accelerated basis over the estimated useful lives of the property, plant and equipment. Leased assets are depreciated over the shorter of the lease term or their useful lives.

The estimated useful lives for the current and comparative periods are as follows:

	Useful Life (in years)
Plant and equipment	5-12
Furniture and fixtures	5-10
Computer equipment & software	3-5

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

(I) Intangible Assets

(i) Patents and Trade Secrets

The Company has developed or acquired several diagnostic tests that can detect the presence of various substances in a person’s breath, blood, urine and saliva. Propriety protection for the Company’s products, technology and process is important to its competitive position. As of March 31, 2016, the Company has eleven patents from the United States Patent Office in effect (7,896,167; 8,097,171; 8,003,061; 8,425,859; 8,871,521; 8,808,639; 7,285,246; 7,837,936; D691,056; D691,057 and D691,058). Other patents are in effect in Australia through the Design Registry (348,310; 348,311 and 348,312), the Community Trade Mark in the European Union ((OHIM) 002216895-0001; 002216895-0002 and 002216895-0003) and in Japan (1,515,170; 4,885,134; 4,931,821 and 5,775,790). Patents are in

the national phase of prosecution in many Patent Cooperation Treaty participating countries. Additional proprietary technology consists of numerous different inventions. The Company intends to file additional patent applications, where appropriate, relating to new products, technologies and their use in the U.S., European and Asian markets. Management intends to protect all other intellectual property (e.g. copyrights, trademarks and trade secrets) using all legal remedies available to the Company.

~ 9 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(ii) Patent Costs

Costs associated with applying for patents are capitalized as patent costs. Once the patents are approved, the respective costs are amortized over their estimated useful lives (maximum of 17 years) on a straight-line basis. Patent pending costs for patents that are not approved are charged to the statement of operations the year the patent is rejected.

In addition, patents may be purchased from third parties. The costs of acquiring the patent are capitalized as patent costs if it represents a future economic benefit to the Company. Once a patent is acquired it is amortized over its remaining useful life.

(iii) Other Intangible Assets

Other intangible assets that are acquired by the Company, which have definite useful lives, are measured at cost less accumulated amortization and accumulated impairment losses.

(iv) Amortization

Amortization is recognized on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use. The estimated useful lives for the current and comparative periods are as follows:

	Useful Life (in years)
Patents and trademarks	12-17
Customer lists	5

(m) Recoverability of Long-lived Assets

In accordance with FASB ASC 360-10-35 “Impairment or Disposal of Long-lived Assets”, long-lived assets to be held and used are analyzed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable or that the useful lives of those assets are no longer appropriate. The Company evaluates at each balance sheet date whether events and circumstances have occurred that indicate possible impairment.

The Company determines the existence of such impairment by measuring the expected future cash flows (undiscounted and without interest charges) and comparing such amount to the carrying amount of the assets. An impairment loss, if one exists, is then measured as the amount by which the carrying amount of the asset exceeds the discounted estimated future cash flows. Assets to be disposed of are reported at the lower of the carrying amount or fair value of such assets less costs to sell. Asset impairment charges are recorded to reduce the carrying amount of the long-lived asset that will be sold or disposed of to their estimated fair values. Charges for the asset impairment reduce the carrying amount of the long-lived assets to their estimated salvage value in connection with the decision to dispose of such assets.

~ 10 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(n) Investments

In accordance with FASB ASC 323, the Company recognizes investments in joint ventures based upon the Company's ability to significantly influence the operational or financial policies of the joint venture. An objective judgment of the level of influence is made at the time of the investment based upon several factors including, but not limited to the following:

- a) Representation on the Board of Directors
- b) Participation in policy-making processes
- c) Material intra-entity transactions
- d) Interchange of management personnel
- e) Technological dependencies
- f) Extent of ownership and the ability to influence decision making based upon the makeup of other owners when the shareholder group is small.

The Company follows the equity method for valuing investments in joint ventures when the existence of significant influence over operational and financial policy has been established, as determined by management; otherwise, the Company will value these investments using the cost method.

Investments recorded using the cost method will be assessed for any decrease in value that has occurred that is other than temporary and the other than temporary decrease in value shall be recognized. As and when circumstances and facts change, the Company will evaluate the Company's ability to significantly influence operational and financial policy to establish a basis for converting the investment accounted for using the cost method to the equity method of valuation.

On March 9, 2015, the Company contributed capital of \$64,675 in Hainan Savy Akers Biosciences, Ltd., a company incorporated in the People's Republic of China, resulting in a 19.9% ownership interest. The contribution was adjusted downward to \$64,091 on April 8, 2015; the net effect of the currency conversion when the contribution was processed in Hainan. This is included in other assets in the condensed consolidated balance sheet as of March 31, 2016 and is accounted for using the cost method.

(o) Revenue Recognition

In accordance with FASB ASC 605, the Company recognizes revenue when (i) persuasive evidence of a customer or distributor arrangement exists, (ii) a retailer, distributor or wholesaler receives the goods and acceptance occurs, (iii) the price is fixed or determinable, and (iv) the collectability of the revenue is reasonably assured. Subject to these criteria, the Company recognizes revenue from product sales when title passes to the customer based on shipping terms. The Company typically does not accept returns nor offer charge backs or rebates except for certain distributors. Revenue recorded is net of any discount, rebate or sales return. No accrual for estimated sales returns are necessary as of March 31, 2016 and December 31, 2015.

~ 11 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

The Company instituted a significant price increase for certain PIFA products effective May 1, 2015. In an effort to phase in the increase for existing customers, the Company is providing a rebate to its distributors for the price increase through March 31, 2016 for their existing customer base as of April 30, 2015. The Company has recorded rebates of \$99,968, which is a reduction of revenue, for the three months ended March 31, 2016 for this program. Accounts receivable will be reduced when the rebates are applied by the customer.

License fee revenue is recognized on a straight-line basis over the term of the license agreement.

When the Company enters into arrangements that contain more than one deliverable, the Company allocates revenue to the separate elements under the arrangement based on their relative selling prices in accordance with FASB ASC 605-25.

(p) Income Taxes

The Company follows FASB ASC 740 when accounting for income taxes, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for temporary differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense or benefit is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

(q) Shipping and Handling Fees and Costs

The Company charges actual shipping plus a handling fee to customers, which amounted to \$16,045 for the three months ended March 31, 2016 and \$18,941 for the three months ended March 31, 2015. These fees are classified as part of product revenue in the condensed consolidated statements of operations. Shipping and other related delivery costs, including those for incoming raw materials are classified as part of the cost of net revenue, which amounted to \$21,714 for the three months ended March 31, 2016 and \$44,690 for the three months ended March 31, 2015.

~ 12 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(r) Research and Development Costs

In accordance with FASB ASC 730, research and development costs are expensed when incurred.

(s) Stock-based Payments

The Company accounts for stock-based compensation under the provisions of FASB ASC 718, “Compensation—Stock Compensation”, which requires the measurement and recognition of compensation expense for all stock-based awards made to employees and directors based on estimated fair values on the grant date. The Company estimates the fair value of stock-based awards on the date of grant using the Black-Scholes model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the shorter of the period over which services are to be received or the vesting period.

The Company accounts for stock-based compensation awards to non-employees in accordance with FASB ASC 505-50, “Equity-Based Payments to Non-Employees”. Under FASB ASC 505-50, the Company determines the fair value of the stock-based compensation awards granted as either the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable.

The Company estimates the fair value of stock-based awards on the date of grant using the Black-Scholes model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the period which services are to be received. At the end of each financial reporting period, prior to vesting or prior to the completion of services, the fair value of equity based payments will be re-measured and the non-cash expense recognized during the period will be adjusted accordingly. Since the fair value of equity based payments granted to non-employees is subject to change in the future, the amount of the future expense will include fair value re-measurements until the equity based payments are fully vested or the service is completed.

(t) Basic and Diluted Earnings per Share of Common Stock

Edgar Filing: Akers Biosciences Inc - Form 10-Q

Basic earnings per common share are based on the weighted average number of shares outstanding during the periods presented. Diluted earnings per share are computed using the weighted average number of common shares plus dilutive common share equivalents outstanding during the period.

The calculation of the basic and diluted loss per share for the three months ended March 31, 2016 and 2015 was based on a loss attributable to common stockholders of \$1,508,929 and \$1,321,799.

Potential common shares consist of options and warrants. Diluted net loss per common share was the same as basic loss per common share for the three months ended March 31, 2016 and 2015 since the effect of options and warrants would be anti-dilutive due to the net loss attributable to the common stockholders for the periods. Instruments excluded from dilutive earnings per share, because their inclusion would be anti-dilutive, were 220,500 units of options for the three months ended March 31, 2016 and 175,000 units of options for the three months ended March 31, 2015.

~ 13 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

(u) Recently Adopted Accounting Pronouncements

As of March 31, 2016 and for the three months then ended, there were no recently adopted accounting pronouncements that had a material effect on the Company's financial statements.

(v) Recently Issued Accounting Pronouncements not Yet Adopted

As of March 31, 2016, there are no recently issued accounting standards not yet adopted which would have a material effect on the Company's financial statements through 2017.

Note 3 – Marketable Securities

Following is a description of the valuation methodologies used for assets measured at fair value as of March 31, 2016 and December 31, 2015.

Money market funds, U.S. Agency Securities, Corporate and Municipal Securities and Certificates of Deposits: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

	2016				
	Cost	Accrued Income	Unrealized Gains	Unrealized Losses	Fair Value
Level 2:					
Money market funds	\$1,837	\$ 17	\$ -	\$ -	\$1,854
US agency securities	40,307	66	-	-	40,373
Certificates of deposits	1,070,000	1,193	2,712	-	1,073,905
Corporate securities	1,028,308	2,294	-	(707)	1,029,895
Municipal securities	294,651	1,491	298	-	296,440

Edgar Filing: Akers Biosciences Inc - Form 10-Q

Total Level 2:	2,435,103	5,061	3,010	(707)	2,442,467
Total:	\$2,435,103	\$ 5,061	\$ 3,010	\$ (707)	\$2,442,467

The above securities are classified as available for sale. The securities are valued at fair market value. Maturities of the securities range from one to two years. Unrealized gains and losses relating to the available for sale investment securities were recorded in the condensed consolidated statement of changes in stockholders' equity as comprehensive income. The net unrealized gains were \$8,534 and \$26,713 for the three months ended March 31, 2016 and 2015.

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

As of March 31, 2016, investments in money market funds, U.S. agency securities, certificates of deposit, corporate securities and municipal securities classified as available for sale mature as follows:

Within			After
1 Year	1 - 5 Years	5 - 10 Years	10 Years
\$1,030,868	\$1,411,599	\$ -	\$ -

Proceeds from the sale of marketable securities for the three months ended March 31, 2016 and 2015 were \$1,601,456 and \$1,253,436, respectively. For the three months ended March 31, 2016 and 2015 the gross gain was \$308 and \$448 as a result of these sales.

Note 4 - Trade Receivables – Related Party

Trade receivables – related party are made up of amounts due from Hainan Savy Akers Biosciences, a joint venture partner located in the Peoples Republic of China. The amount due is non-interest bearing, unsecured and generally has a term of 90 days.

Note 5 - Inventories

Inventories at March 31, 2016 and December 31, 2015 consists of the following categories:

	2016	2015
Raw Materials	\$387,269	\$348,216
Sub-Assemblies	831,069	786,656
Finished Goods	22,759	25,721

Edgar Filing: Akers Biosciences Inc - Form 10-Q

Reserve for Obsolescence	(28,939)	(28,939)
	\$1,212,158	\$1,131,654

For the three months ended March 31, 2016 and 2015, \$2,968 and \$- were expensed to cost of goods sold for obsolete inventory.

Note 6 - Property, Plant and Equipment

Property, plant and equipment as of March 31, 2016 and December 31, 2015 are as follows:

	2016	2015
Computer Equipment	\$ 110,649	\$ 100,405
Computer Software	40,681	40,681
Office Equipment	39,959	50,049
Furniture & Fixtures	29,939	29,939
Machinery & Equipment	1,126,005	1,112,060
Molds & Dies	799,202	756,279
Leasehold Improvements	222,593	222,593
	2,369,028	2,312,006
Less		
Accumulated Depreciation	2,047,813	2,060,861
	\$ 321,215	\$ 251,145

Note 8 - Trade and Other Payables

Trade and other payables as of March 31, 2016 and December 31, 2015 are as follows:

	2016	2015
Trade Payables	\$694,900	\$538,449
Accrued Expenses	753,523	1,020,532
Legal Settlements Payable	35,000	50,000
Deferred Compensation	59,750	59,750
	\$1,543,173	\$1,668,731

Trade and other payables are non-interest bearing and are normally settled on 30 day terms.

Note 9 - Share-based Payments

On January 23, 2014, upon effectiveness of the registration statement filed with the SEC, the Company adopted the 2013 Stock Incentive Plan (the “Plan”) which will provide for the issuance of up to 400,000 shares. The purpose of the Plan is to provide additional incentive to those officers, employees, consultants and non-employee directors of the Company and its parents, subsidiaries and affiliates whose contributions are essential to the growth and success of the Company’s business.

On January 9, 2015, the Board of Directors of the Company approved, upon recommendation from the Compensation Committee of the Board, by unanimous written consent the Amended and Restated 2013 Incentive Stock and Award Plan (the “Plan”), which increases the number of authorized shares of common stock subject to the Plan to 800,000 shares.

The 2013 Plan may be administered by the board or a board-appointed committee. Eligible recipients of option awards are employees, officers, consultants or directors (including non-employee directors) of the Company or of any parent, subsidiary or affiliate of the Company. The board has the authority to grant to any eligible recipient any options, restricted stock or other awards valued in whole or in part by reference to, or otherwise based on, our common stock.

Qualified option holders may exercise their options at their discretion. Each option granted may be exchanged for a prescribed number of shares of common stock. The following table summarizes the option activities for the three months ended March 31, 2016:

~ 17 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Balance at December 31, 2015	220,500	\$ 4.38		
Granted	-	-		
Exercised	-	-		
Forfeited	-	-		
Canceled/Expired	-	-		
Balance at March 31, 2016	220,500	\$ 4.38		
Exercisable as of March 31, 2016	220,500	\$ 4.38	3.56	\$ 13,500

The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the closing stock price of \$1.68 for the Company's common shares on March 31, 2016. The above intrinsic value represents that of awards with an exercise price below \$1.68.

The total grant date fair value of stock options vested for the three months ended March 31, 2016 and 2015 was \$-.

As of March 31, 2016, there was \$- of unrecognized compensation cost related to outstanding employee stock options.

Note 10 - Equity

The holders of common shares are entitled to one vote per share at meetings of the Company. Holders of Series A convertible preferred shares are entitled to five votes per share at meetings of the Company.

Edgar Filing: Akers Biosciences Inc - Form 10-Q

On December 29, 2015, the Company issued 227,708 common shares to directors and officers for services rendered to the Company through December 31, 2015. The fair value of these shares was \$280,081 which was expensed in 2015.

On December 29, 2015, the Company issued 22,500 common shares to key employees for services rendered to the Company through December 31, 2015. The fair value of these shares was \$27,675 which was expensed in 2015.

On December 29, 2015, the Company issued 30,000 common shares in exchange for legal services rendered. The fair value of these shares was \$36,900 which was expensed in 2015.

As of March 31, 2016 and December 31, 2015 the Company has 220,500 reserved shares of its common stock for outstanding options.

~ 18 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

Note 11 - Income Tax Expense

There is no income tax benefit for the losses for the three months ended March 31, 2016 and 2015 since management has determined that the realization of the net deferred tax asset is not assured and has created a valuation allowance for the entire amount of such benefits.

The Company's policy is to record interest and penalties associated with unrecognized tax benefits as additional income taxes in the statement of operations. As of January 1, 2016, the Company had no unrecognized tax benefits, or any tax related interest or penalties. There were no changes in the Company's unrecognized tax benefits during the three months ended March 31, 2016 related to unrecognized tax benefits. With few exceptions, the U.S. and state income tax returns filed for the tax years ending on December 31, 2012 and thereafter are subject to examination by the relevant taxing authorities.

Note 12 - Related Party Transactions

On June 19, 2012, the Company entered into a 3 year exclusive License & Supply Agreement with Chubeworkx Guernsey Limited (as successor to SONO International Limited) ("Chubeworkx") for the purchase and distribution of ABI's proprietary breathalyzers outside North America. Chubeworkx paid a licensing fee of \$1,000,000 which was recognized over the term of the agreement through June 30, 2015.

On June 13, 2013, the Company announced an expansion of the License and Supply Agreement with Chubeworkx to include worldwide marketing and distribution of the "Be CHUBE" program using the Company's breathalyzer.

On February 12, 2016, the Company purchased several manufacturing molds through Hainan Savy – Akers Biosciences, Ltd., our joint venture partner in the Peoples Republic of China. The total cost of the molds and sample components during the three months ended March 31, 2016 was \$42,093. The cost of the sample components, totaling \$1,020, was included in research and development expenses in the condensed consolidated statement of operations and comprehensive income. The cost of the molds, totaling \$41,073, is included in property, plant and equipment in

the condensed consolidated balance sheet.

Trade receivables – related party as of March 31, 2016 and December 31, 2015 are \$31,522 and \$31,512. The amounts due is non-interest bearing, unsecured and generally have a term of 30 to 90 (Note 4). This receivable is past due and management deemed it fully collectable.

Product revenue – related party for the three months ended March 31, 2016 and 2015 were \$- and \$14,343. The revenue was the result of sales to Hainan Savy Akers Biosciences, a joint venture partner.

Note 13 - Commitments

The Company leases its facility in West Deptford, New Jersey under an operating lease with annual rentals of \$130,200 plus common area maintenance (CAM) charges. The lease, which took effect on January 1, 2008, reduced the CAM charges allowing the Company to reach their own agreements with utilities and other maintenance providers.

On January 7, 2013, the Company extended its lease agreement for a term of 7 years, expiring December 31, 2019. Under the terms of the lease, The Company will pay \$132,000 per year.

Rent expense, including related CAM charges, was \$40,290 for the three months ended March 31, 2016 and 2015.

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(unaudited)

The Company entered into a 60 month operating lease for equipment with annual rentals of \$6,156 on September 29, 2014. The lease commenced on October 21, 2014 upon the delivery of the equipment.

The schedule of lease commitments is as follows:

	Building Lease	Equipment Lease	Total
Next 12 Months	\$ 132,000	\$ 6,156	\$ 138,156
Next 13-24 Months	132,000	6,156	138,156
Next 25-36 Months	132,000	6,156	138,156
Next 37-48 Months	99,000	3,591	102,591

Note 14 – Major Customers

For the three months ended March 31, 2016, two customers each generated more than 10% of the Company's product revenue. In aggregate, sales to these customers accounted for 74% of the Company's product revenue. As of March 31, 2016, the amount due from these two customers was \$500,742. This concentration makes the Company vulnerable to a near-term severe impact should the relationships be terminated.

For the three months ended March 31, 2015, two customers each generated more than 10% of the Company's product revenue. Sales to these customers accounted for 66% of the Company's product revenue.

Note 15 – Major Suppliers

For the three months ended March 31, 2016, two suppliers each accounted for more than 10% of the Company's purchases. In aggregate, these suppliers accounted for 23% of the Company's total purchases. As of March 31, 2016, the amount due to the suppliers was \$-. This concentration makes the Company vulnerable to a near-term severe

impact should the relationships be terminated.

For the three months ended March 31, 2015, two suppliers each accounted for more than 10% of the Company's purchases. These suppliers accounted for 45% of the Company's total purchases.

~ 20 ~

AKERS BIOSCIENCES, INC. AND SUBSIDIARIES

(unaudited)

Note 16 – Contingencies

On April 23, 2015, a complaint was filed by the Company in federal district court (District of New Jersey) against ChubeWorkx Guernsey Limited (“ChubeWorkx”) for breach of contract (the “Breach of Contract Claim”) for failure of timely interest payments by ChubeWorkx under a promissory note (the “Chube Note”) entered into by the Company and ChubeWorkx in December 2014. As part of this action, the Company also filed a preliminary injunction which sought to bar ChubeWorkx from disposing of the Company’s common stock owned by ChubeWorkx for which the Company retained a right of sale in the event of a default by ChubeWorkx under the Chube Note. A consent decree has been finalized and entered by the court to resolve the issues of the preliminary injunction which requires ChubeWorkx to escrow a certain of number of shares of the Company’s common stock currently held by ChubeWorkx until the Breach of Contract Claim has been fully adjudicated. The Breach of Contract Claim is currently in the discovery phase and while the parties have communicated in good faith to resolve this dispute all discussions to date have not yielded any results. This case was closed by the court pursuant to an order entered on December 22, 2015 as requested by Akers in light of near final settlement discussions with Chubeworks regarding the settlement and release of all claims between the parties. The settlement discussions were terminated on March 24, 2016 after substantial good faith efforts by the Company to bring this dispute to a resolution. Under the Federal Rules of Civil Procedure the Company will seek to reopen the case under Fed. R. Civ P. 60(b)(1) and prosecute this case with full vigor to retrieve the monies owed to the Company.

On August 21, 2015, Chubeworkx filed a lawsuit against the Company in The High Court of Justice, Queen’s Bench Division Commercial Court, Royal Courts of Justice, United Kingdom, alleging a breach of contract under the exclusive license agreement entered into by Chubeworkx with Company in June 2012 and damages resulting from said alleged breach. The lawsuit is in the preliminary stage and was suspended by mutual agreement of the parties pursuant to ongoing global settlement discussions which were focused on settling all outstanding claims between the parties.

The Company and ChubeWorkx have agreed in principal to all of the material terms of a global settlement for all existing claims and pending law suits. The parties are working with their counsel to finalize and execute the settlement agreements.

After reviewing the terms of the agreement in principal the Company has determined that no accrual for losses was necessary as of March 31, 2016. Legal fees were expensed in the period in which they were incurred.

Note 17 – Subsequent Events

On April 25, 2016, Mr. Thomas Knox, previously the Company's Non-Executive Co-Chairman, became the Company's sole Chairman. Raymond F. Akers, Jr. PhD, formally the Company's Executive Chairman, became the Chief Scientific Director. Dr. Akers will continue to lead the scientific developments of the Company's product pipeline and the enhancements of the Company's commercialized products. Dr. Akers remains an Executive Director on the Board and, as Co-Founder, will continue to be the primary interface with shareholders.

On April 29, 2016, the Company received a payment of \$250,000, in accordance with the terms of sale, from NovoTek Pharmaceuticals Limited ("NovoTek"), for the initial release of PIFA Heparin PF/4 products against the \$2,500,000 order received February 29, 2016. The revenue from this initial lot of goods totaling \$500,000, will be recognized when the criteria for the recognition of revenue are met. Management believes that these criteria will be met in the second quarter of 2016. NovoTek is the Company's exclusive distributor in the Peoples Republic of China for the Company's PIFA Heparin products.

~ 21 ~

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This quarterly report on Form 10-Q and other reports filed by Akers Biosciences, Inc. ("Akers", "Akers Bio", "we" or the "Company") from time to time with the SEC (collectively, the "Filings") contain or may contain forward-looking statements and information that are based upon beliefs of, and information currently available to, the Company's management as well as estimates and assumptions made by Company's management. Readers are cautioned not to place undue reliance on these forward-looking statements, which are only predictions and speak only as of the date hereof. When used in the Filings, the words "anticipate," "believe," "estimate," "expect," "future," "intend," "plan," or the neg of these terms and similar expressions as they relate to the Company or the Company's management identify forward-looking statements. Such statements reflect the current view of the Company with respect to future events and are subject to risks, uncertainties, assumptions, and other factors, including the risks relating to the Company's business, industry, and the Company's operations and results of operations. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended, or planned.

Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, the Company cannot guarantee future results, levels of activity, performance, or achievements. Except as required by applicable law, including the securities laws of the United States, the Company does not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. Our financial statements would be affected to the extent there are material differences between these estimates and actual results. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require management's judgment in its application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result. The following discussion should be read in conjunction with our financial statements and notes thereto appearing elsewhere in this report.

Overview

Akers Bio develops, manufactures and supplies rapid, point-of-care screening and testing products designed to bring health-related information directly to the patient or clinician in a time and cost-efficient manner. Akers believes it has advanced the science of diagnostics through the development of several innovative proprietary platform technologies that provide product development flexibility.

All of Akers' rapid, single-use tests are performed *in vitro* (outside the body) and are designed to enhance patient well-being and reduce the cost of healthcare. The Company's current product offerings and pipeline products focus on delivering diagnostic assistance in a wide variety of healthcare fields/specialties, including cardiology/emergency medicine, metabolism/nutrition, diabetes, oncology and infectious disease detection, as well as for on and off-the-job alcohol safety initiatives.

Akers believes that low-cost, single-use testing not only saves time and money, but allows for more frequent, near-patient testing which may save lives. We believe that our FDA-cleared rapid diagnostic tests help facilitate targeted diagnoses and real-time treatment. We also believe that our rapid diagnostic tests surpass most other current diagnostic products with their flexibility, speed, ease-of-use, readability, low cost and accuracy. In minutes, detection of disease states and medical conditions can be performed on single-patient specimens, without sacrificing accuracy.

We believe the use of rapid tests, which can be performed at the point-of-care when and where the patient is being consulted, can result in immediate diagnostic decisions and subsequent treatment regimens and is an important development in the practice of medicine. Point-of-care testing addresses today's challenges in the healthcare industry, such as:

- cost pressures/efficiency of healthcare delivery;

- need for easy to use, accurate at-home tests for individuals to monitor their personal health and wellness;

- need for affordable mass screening tests for key infectious diseases, cardiac conditions, and metabolic markers; and

- public health needs in developing countries lacking basic health infrastructure.

Recently, the Company has developed tests for non-medical use within the health and wellness industry. These tests will monitor general markers of health and wellness as they relate to diet, nutrition, and exercise programs.

Management's Plans and Basis of Presentation

To date, the Company has in large part relied on equity financing to fund its operations, raising \$13,101,336, net of expenses, in an initial public offering on the NASDAQ Capital Market in 2014. The Company has experienced recurring losses and negative cash flows from operations. Management's strategic plans include the following:

continuing to advance the development and commercialization of the Company's products, especially those that utilize MPC Biosensor, PIFA and seraSTAT technologies;

continuing to strengthen and forge domestic and international relationships with well-established sales organizations with strong distribution channels in specific target markets for both our currently marketed and emerging products;

establishing clinical protocols that support regulatory submissions and publication of data within peer-reviewed journals; and

continuing to monitor and implement cost control initiatives to conserve cash.

~ 23 ~

Despite our plans, the Company expects to continue to incur losses from operations for the near-term and these losses could be significant for the following reasons:

some of Akers' distribution partnerships have been recently established or are in the process of being initiated and, therefore, consistent and historical ordering patterns have not been instituted;

the Company continues to incur expenses related to the initial commercialization and marketing activities for its wellness products and product development (research, clinical trials, regulatory tasks) costs for its emerging products including Breath PulmoHealth, BreathScan® DKA and PIFA PLUS® Infectious Disease point-of-care tests; and

to expand the use of its clinical laboratory products, the Company may need to invest in additional marketing support programs to increase brand awareness.

At March 31, 2016, Akers had cash and marketable securities totaling \$2,622,857, working capital of \$3,292,890, stockholders' equity of \$100,793,649 and an accumulated deficit of \$95,684,928. The Company believes that its current working capital position will be sufficient to meet its estimated cash needs for at least the next twelve months. The Company closely monitors its cash balances, cash needs and expense levels.

Summary of Statements of Operations for the Three Months Ended March 31, 2016 and 2015

Revenue

Akers' revenue for the three months ended March 31, 2016 totaled \$738,023, a 45% increase from the three months ended March 31, 2015. Product revenue increased by 79%, primarily a result of sales of our PIFA Heparin/PF4 Rapid Assay products. The elimination of license fee revenue following the cancellation of the License and Supply Agreement with ChubeWorkx Guernsey Limited ("ChubeWorkx") in May, 2015 reduced the net revenue improvement year-over-year.

The table below summarizes our revenue by product line for the three months ended March 31, 2016 and 2015 as well as the percentage of change year-over-year:

Product Lines	3 Months Ended March	3 Months Ended March	Percent Change
---------------	----------------------------	----------------------------	-------------------

Edgar Filing: Akers Biosciences Inc - Form 10-Q

	31, 2016	31, 2015		
MicroParticle Catalyzed Biosensor (“MPC”)	\$64,785	\$41,361	57	%

Total Revenue	\$738,023	\$510,047	45	%

~ 24 ~

The Company's MPC product sales increased 57% during the three months ended March 31, 2016 over the same period of 2015. The increase is associated to sales of the Company's BreathScan Alcohol Breathalyzer products in Great Britain and increased domestic demand for the product which represents 53% of the Company's MPC product revenue.

While all the MPC product sales in the three months ended March 31, 2016 came from BreathScan Alcohol Breathalyzers, we expect to begin generating sales of other MPC products within our health and wellness line, including the METRON disposable breath test for ketones and the BreathScan Lync products later in 2016.

Domestic sales of the Company's PIFA Heparin/PF4 Rapid Assay products increased 80% during the three months ended March 31, 2016, primarily reflecting the new pricing schedule implemented during the period. Demand for the PIFA PF/4 Classic and PIFA PF/4 PLUSS products has remained steady, regardless of the increased pricing and we believe demand will increase with the implementation of the new sales and marketing strategy targeting hospital networks. The Company has restructured its sales and marketing staff, replacing the senior management team, reducing the number of Area Business Directors ("ABD") to five and implementing a highly targeted program to enhance the ABD's ability to expand market share through direct sales and by supporting the sales representatives of Akers' US distribution partners, Cardinal Health ("Cardinal"), Fisher HealthCare ("Fisher") and Typenex Medical ("Typenex").

The Company received a \$2.5 million order for our PIFA Heparin/PF4 Rapid Assay products from Novotek, our exclusive distributor in the Peoples Republic of China on February 29, 2016. The Company received an initial payment of \$250,000 on April 29, 2016 for the first scheduled product shipment, per the terms of sale. The remaining products will be scheduled to ship at various points throughout the current fiscal year with revenue being recognized when the criteria for the recognition of revenue is met. The Company also received a specialized order for PIFA Heparin/PF4 from Novotek, totaling \$27,600 during the three months ended March 31, 2016.

Other operating revenue increased due to a rise in miscellaneous component sales and shipping and handling fees.

The Company's gross margin improved significantly, rising to 73% (2015: 56%) for the three months ended March 31, 2016.

Cost of sales for the three months ended March 31, 2016 decreased by 12% to \$200,028 (2015: \$226,341). Direct cost of sales decreased to 11% of product revenue while other cost of sales decreased to 16% for the three months ended March 31, 2016 as compared to 12% and 43% respectively for the same period in 2015.

Direct cost of sales for the three month period ended March 31, 2016 were \$81,121 (2015: 49,847). The increase for the three months ended March 31, 2016 was related to the increase in sales volume for the period.

Other cost of sales for the three months ended March 31, 2016 were \$118,907 (2015: 176,494). The decrease is attributed to the offset of manufacturing costs to inventory, significant reductions in freight and shipping expenses and is offset by increases manufacturing consumable supplies and product testing.

General and Administrative Expenses

General and administrative expenses for the three months ended March 31, 2016, totaled \$923,560, which was a 32% increase as compared to \$698,434 for the three months ended March 31, 2015.

~ 25 ~

The table below summarizes our general and administrative expenses for the three months ended March 31, 2016 and 2015 as well as the percentage of change year-over-year:

Description	3 Months Ended March 31, 2016	3 Months Ended March 31, 2015	Percent Change	
Personnel Costs	\$378,748	\$221,163	71	%
Professional Service Costs	249,848	166,717	50	%
Stock Market & Investor Relations Costs	117,040	129,520	(10)	%
Other General and Administrative Costs	177,924	181,034	(2)	%
Total General and Administrative Expense	\$923,560	\$698,434	32	%

The increase in personnel costs for the three months ended March 31, 2016 is associated with the addition of a staff accountant in June 2015 and the Company's new Chief Executive Officer in November 2015.

Professional service costs increased for the three months ended March 31, 2016. A significant increase in accounting and legal fees (\$230,115 (2015: \$75,775)) was offset by decreases in personnel recruiting and general consulting fees (\$19,733 (2015: \$90,942)).

Increases in general consulting, stock exchange and transfer agent fees (\$55,286 (2015: \$34,065)) were offset by a significant decline in investor relations fees (\$61,754 (2015: \$95,454)) during the three months ended March 31, 2016 accounting for the decline in stock market and investor relations costs.

Sales and Marketing Expenses

Sales and marketing expenses for the three months ended March 31, 2016 totaled \$725,324, which was a 26% increase as compared to \$575,252 for the three months ended March 31, 2015.

The table below summarizes our sales and marketing expenses for the three months ended March 31, 2016 and 2015 as well as the percentage of change year-over-year:

Description

Edgar Filing: Akers Biosciences Inc - Form 10-Q

	3 Months Ended March 31, 2016	3 Months Ended March 31, 2015	Percent Change	
Personnel Costs	\$419,688	\$323,209	30	%
Professional Service Costs	193,104	204,575	(6))%
Royalties and Outside Commission Costs	19,744	6,639	197	%
Other Sales and Marketing Costs	92,788	40,829	127	%
Total Sales and Marketing Expenses	\$725,324	\$575,252	26	%

Personnel costs increased in the three months ended March 31, 2016 as compared to the same period of 2015. During 2016, the Company replaced the senior management team and reduced the number of ABDs, resulting in increased costs associated with severance programs.

A decrease in the use of contracted marketing services firms resulted in a small decrease in professional service costs. The Company has terminated contracts with two firms, resulting in cost savings of \$28,500 per month beginning in the second quarter of 2016.

Outside sales commissions increased in the three months ended March 31, 2016 (\$19,744 (2015: \$6,639)) as a result of the increased sales volume with the PIFA products. The Company's royalty program terminated as of December 31, 2015. Other sales and marketing costs increased primarily due to the increased travel by the sales and marketing staff in support of our customer and distributor base and costs associated with the hosting and maintenance of the Company's world-wide web presence.

Research and Development

Research and development expenses for the three months ended March 31, 2016 totaled \$363,292, which was a 19% increase as compared to \$305,574 for the three months ended March 31, 2015.

The table below summarizes our research and development expenses for the three months ended March 31, 2016 and 2015 as well as the percentage of change year-over-year:

Description	3 Months Ended March 31, 2016	3 Months Ended March 31, 2015	Percent Change
Personnel Costs	\$ 159,022	\$ 166,115	(4)%
Clinical Trial Costs	97,078	9,676	903 %
Professional Service Costs	38,569	82,933	(53)%
Other Research and Development Costs	68,623	46,850	46 %
Total Research and Development Expenses	\$ 363,292	\$ 305,574	19 %

The Company had two clinical trials in-process during the three months ended March 31, 2016 resulting in a significant increase in costs associated with these programs. The on-going trials are collecting data to support submissions to the U.S. Food and Drug Administration for approvals and to support the clinical effectiveness of the products.

During the three months ended March 31, 2015, the Company was expending funds for the engineering and design of the BreathScan Lync reader and the cartridge being used with the new MPC products. These design projects are now complete, reducing the costs.

Purchases of antigens used in product development increased to \$20,177 (2015: \$8,622) and participation at an international conference resulted in the increase in other research and development costs during the three months ended March 31, 2016.

The following table illustrates research and development costs by project for the three months ended March 31, 2016 and 2015, respectively:

Project	2016	2015
Breath Alcohol	\$ 1,381	\$ 9,901
Chlamydia Trachomatis	5,340	56,562
CHUBE	-	397
Heparin/PF4	56,347	43,514
HIV	-	9,473
Ketone	1,417	12,865
KetoChek / OxiChek	183,898	-

Lithium	-	28,724
METRON	2,507	1,956
Other Projects	68,226	68,967
Pulmo Health	2,906	-
Sonicator OQ	-	886
Troponin (heart attacks)	-	55,309
Tri-Cholesterol	41,270	3,239
VIVO	-	13,781
Total R&D Expenses:	\$363,292	\$305,574

Other Income and Expense

Other income and expenses for the three months ended March 31, 2016 totaled \$8,029, which was a 79% decrease as compared to \$38,398 for the three months ended March 31, 2015.

~ 27 ~

The table below summarizes our other income and expenses for the three months ended March 31, 2016 and 2015 as well as the percentage of change year-over-year:

Description	3 Months Ended March 31, 2016	3 Months Ended March 31, 2015	Percent Change	
Currency Translation Gain/(Loss)	\$ (2,256)	\$ 995	(327)%	
Realized Gain on Investments	308	448	(31)%	
Interest and Dividends	9,977	31,600	(68)%	
Other Income	-	5,355	(100)%	
Total Other Income and Expense	\$ 8,029	\$ 38,398	(79)%	

Other income and expenses primarily consist of interest and dividend earnings on the marketable securities and the note receivable totaling \$10,285 (2015: \$32,048) and a loss on foreign currency transactions of \$2,256 (2015: gain of \$995).

Income Taxes

As of March 31, 2016, the Company does not believe any uncertain tax positions exist that would result in the Company having a liability to the taxing authorities. The Company's policy is to classify interest and penalties related to unrecognized tax benefits, if and when required, as part of interest expense and general and administrative expense, respectively in the consolidated statement of operations.

Liquidity and Capital Resources

For the three months ended March 31, 2016 and 2015, the Company generated a net loss attributable to shareholders of \$1,508,929 and \$1,321,799, respectively. As of March 31, 2016 and December 31, 2015, the Company has an accumulated deficit of \$95,684,928 and \$94,175,999 and had cash and marketable securities totaling \$2,622,857 and \$4,427,163, respectively.

Currently, our primary focus is to expand the domestic and international distribution of our PIFA Heparin/PF4 rapid assays. The Company's secondary focus is preparing for the launch of our health and wellness product line linked to smartphones and tablets. The Company continues commercialization tasks for METRON as well as development activities for its PIFA PLUS[®] Infectious Disease single-use assays, BreathScan[®] DKA, and Breath PulmoHealth products, including advancement of the steps required for FDA clearance or CE marking in the EU where necessary.

We expect to continue to incur losses from operations for the near-term and these losses could be significant as we incur product development, clinical and regulatory activities, contract consulting and other product development and commercialization related expenses. We believe that our current working capital position will be sufficient to meet our estimated cash needs for at least twelve months. We are closely monitoring our cash balances, cash needs and expense levels. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that might result in the possible inability of the Company to continue as a going concern.

We expect that our primary expenditures will be to continue development of our health and wellness line, PIFA PLUS[®] Infectious Disease single-use assays, BreathScan[®] DKA and Breath PulmoHealth products, enrolling patients in clinical trials to support performance claims, generating studies in peer-reviewed journals to support product marketing, and provide data for the FDA 510(k) clearance/CE certifications processes when required. We will also continue to support commercialization and marketing activities of commercialized products (PIFA Heparin/PF4 rapid assays, PIFA PLUS[®] PF4, breath alcohol detectors and METRON in the US and internationally. Based upon our experience, clinical trial and related regulatory expenses can be significant costs. Steps to achieve commercialization of emerging products will be an ongoing and evolving process with expected improvements and possible subsequent generations being evaluated for commercialized and emerging tests. Should we be unable to achieve FDA clearance for products that require such regulatory "approval", develop performance characteristics for rapid tests that satisfy market needs, or generate sufficient revenue from commercialized products, we would need to rely on other business or product opportunities to generate revenue and costs that we have incurred for the patents may be deemed impaired.

Capital expenditures for the three months ended March 31, 2016 were \$83,772 (2015: \$44,510). Capital expenditures, primarily for production, laboratory and facility improvement costs for the year ending December 31, 2016 are expected to be approximately \$200,000. As per the Company's lease agreement, the owner of the facility will be handling the majority of facility upgrades, and we anticipate financing any production and laboratory capital expenditures through working capital.

During the three months ended March 31, 2015, the Company invested \$64,675 for a 19.9% ownership position in a joint venture with Hainan Savy Investment Management, Ltd and Mr. Thomas Knox, the Company's Chairman, to research, develop, produce and sell Akers' rapid diagnostic screening and testing products in China. The new entity, incorporated in the People's Republic of China, operates as Hainan Savy Akers Biosciences, Ltd.

The Company may enter into generally short-term consulting and development agreements primarily for testing services and in connection with clinical trials conducted as part of the Company's development process which may include activities related to the development of technical files for FDA 510(k) clearance submissions. Such commitments at any point in time may be significant but the agreements typically contain cancellation provisions.

We lease our manufacturing facility which also contains our administrative offices. Our current lease was executed January 1, 2013 and is effective through December 31, 2019. The Company has leased this property from the current owner since 1997.

Due to recent market events that have adversely affected all industries and the economy as a whole, management has placed increased emphasis on monitoring the risks associated with the current environment, particularly the recoverability of current assets, the fair value of assets, and the Company's liquidity. At this point in time, there has not been a material impact on the Company's assets and liquidity. Management will continue to monitor the risks associated with the current environment and their impact on the Company's results.

The table below summarizes our cash flows for the three months ended March 31, 2016 and 2015 as well as the percentage of change year-over-year:

Description	3 Months Ended March 31, 2016	3 Months Ended March 31, 2015	Percent Change	
Cash at beginning of period	\$402,059	\$455,841	(12))%
Loss from operations	(1,508,929)	(1,321,799)	14	%
Adjustments				

Edgar Filing: Akers Biosciences Inc - Form 10-Q

Non-Operating Gains	-	(5,355)	(100)%	
Non-Cash Activities	73,933	87,505		(16)%	
Cash Used in Operating Activities						
Cash Consumed by Operating Activities	(378,575)	(168,589)	125	%
Cash Contributed by Operating Activities	93,716	166,262		(44)%	
Cash Flows from Investing Activities						
Cash Consumed by Investing Activities	(103,270)	(136,413)	(24)%

Cash Consumed by Financing Activities	-	-		-	%	
Cash Contributed by Financing Activities	-	-		-	%	
Cash at end of period	\$180,390	\$336,243		(46)%	

The Company's net cash provided by investing and financing activities totaled \$1,498,186 during the three months ended March 31, 2016. Cash of \$103,270 was consumed by capital expenditures and the purchase of marketable securities. Proceeds from the sale of marketable securities contributed cash of \$1,601,456 for the period ended March 31, 2016.

The Company's net cash provided by investing and financing activities totaled \$1,122,378 during the three months ended March 31, 2015. Cash of \$136,413 was consumed by capital expenditures, the investment in Hainan Savy Akers Biosciences, Ltd. and the purchase of marketable securities. Proceeds from the sale of marketable securities and a policy renewal incentive from an insurer contributed cash of \$1,258,791 for the period ended March 31, 2015.

~ 29 ~

Our net cash consumed by operating activities totaled \$1,719,855 during the three months ended March 31, 2016. Cash was consumed by the loss of \$1,508,929 plus non-cash adjustments of \$56,479 for depreciation and amortization of non-current assets, \$8,241 for options issued for services and \$9,213 for accrued interest and dividends on marketable securities. For the three months ended March 31, 2016, decreases in deposits and other receivables of \$46,055 and prepaid expenses of \$47,661 provided cash, primarily related to routine changes in operating activities. A net increase in trade receivables of \$172,513 and inventories of \$80,504 and a decrease in trade and other payables of \$115,558 consumed cash from operating activities.

Akers' net cash consumed by operating activities totaled \$1,241,976 during the three months ended March 31, 2015. Cash was consumed by the loss of \$1,321,799 less non-operating gains of \$5,355 plus non-cash adjustments of \$80,349 for depreciation and amortization of non-current assets and \$7,156 for accrued interest and dividends on marketable securities. For the three months ended March 31, 2015, decreases in trade receivables of \$20,042, notes receivable – related party of \$43,491, deposits and other receivables of \$14,985 and an increase in trade and other payables of \$87,745 provided cash while a net increase in inventories of \$64,786 and prepaid expenses of \$20,470 and a decrease in deferred revenue – related party of \$83,333 consumed cash from operating activities.

Critical Accounting Policies

We intend to utilize the extended transition period provided in Securities Act Section 7(a)(2)(B) as allowed by Section 107(b)(1) of the JOBS Act for the adoption of new or revised accounting standards as applicable to emerging growth companies. Under the JOBS Act, emerging growth companies may delay adopting new or revised accounting standards that have different effective dates for public and private companies until such time as those standards apply to private companies. We have elected to use the extended transition period for complying with these new or revised accounting standards. Since we will not be required to comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for other public companies, our financial statements may not be comparable to the financial statements of companies that comply with public company effective dates. If we were to elect to comply with these public company effective dates, such election would be irrevocable pursuant to Section 107 of the JOBS Act.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The most significant accounting estimates inherent in the preparation of our financial statements include estimates associated with revenue recognition, impairment analysis of intangibles and stock-based compensation.

The Company's financial position, results of operations and cash flows are impacted by the accounting policies the Company has adopted. In order to get a full understanding of the Company's financial statements, one must have a clear understanding of the accounting policies employed. A summary of the Company's critical accounting policies follows:

Trade Receivables, Trade Receivables – Related Party and Allowance for Doubtful Accounts

The carrying amounts of current trade receivables is stated at cost, net of allowance for doubtful accounts and approximate their fair value given their short term nature.

The normal credit terms extended to customers ranges between 30 and 90 days. The Company reviews all receivables that exceed terms and establishes an allowance for doubtful accounts based on management's assessment of the collectability of trade and other receivables. A considerable amount of judgment is required in assessing the amount of allowance. The Company considers the historical level of credit losses, makes judgments about the credit worthiness of each customer based on ongoing credit evaluations and monitors current economic trends that might impact the level of credit losses in the future.

~ 30 ~

Fair Value Measurement – Marketable Securities

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the Ability to access.

Level 2 Inputs to the valuation methodology include

quoted prices for similar assets or liabilities in active markets;

quoted prices for identical or similar assets or liabilities in inactive markets;

inputs other than quoted prices that are observable for the asset or liability;

inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Intangible Assets

The Company has developed or acquired several diagnostic tests that can detect the presence of various substances in a person's breath, blood, urine and saliva. Propriety protection for the Company's products, technology and process is important to its competitive position. As of March 31, 2016, the Company has eleven patents from the United States Patent Office in effect (7,896,167; 8,097,171; 8,003,061; 8,425,859; 8,871,521; 8,808,639; 7,285,246; 7,837,936; D691,056; D691,057 and D691,058). Other patents are in effect in Australia through the Design Registry (348,310;

348,311 and 348,312), the Community Trade Mark in the European Union ((OHIM) 002216895-0001; 002216895-0002 and 002216895-0003) and in Japan (1,515,170; 4,885,134; 4,931,821 and 5,775,790). Patents are in the national phase of prosecution in many Patent Cooperation Treaty participating countries. Additional proprietary technology consists of numerous different inventions. The Company intends to file additional patent applications, where appropriate, relating to new products, technologies and their use in the US, European and Asian markets. Management intends to protect all other intellectual property (e.g. copyrights, trademarks and trade secrets) using all legal remedies available to the Company.

Costs associated with applying for patents are capitalized as patent costs. Once the patents are approved, the respective costs are amortized over a period of twelve to seventeen years on a straight-line basis. Patent pending costs for patents that are not approved are charged to operations the year the patent is rejected.

In addition, patents may be purchased from third parties. The costs of acquiring the patent are capitalized as patent costs if it represents a future economic benefit to the Company. Once a patent is acquired it is amortized over its remaining life. The Company amortizes these costs over the shorter of the legal life of the patent or its estimated economic life using the straight-line method. The Company tests intangible assets with finite lives upon significant changes in the Company's business environment.

~ 31 ~

Long-Lived Assets

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within “other income” in profit or loss.

Investments

In accordance with FASB ASC 323, the Company recognizes investments in joint ventures based upon the Company’s ability to significantly influence the operational or financial policies of the joint venture. An objective judgment of the level of influence is made at the time of the investment based upon several factors including, but not limited to the following:

- a) Representation on the Board of Directors
- b) Participation in policy-making processes
- c) Material intra-entity transactions
- d) Interchange of management personnel
- e) Technological dependencies
- f) Extent of ownership and the ability to influence decision making based upon the makeup of other owners when the shareholder group is small.

The Company follows the equity method for valuating investments in joint ventures when the existence of significant influence over operational and financial policy has been established, as determined by management; otherwise, the Company will value these investments using the cost method.

Investments recorded using the cost method will be assessed for any decrease in value that has occurred that is other than temporary and the other than temporary decrease in value shall be recognized. As and when circumstances and facts change, the Company will evaluate the Company’s ability to significantly influence operational and financial policy to establish a basis for converting the investment accounted for using the cost method to the equity method of

valuation.

Revenue Recognition

In accordance with FASB ASC 605, the Company recognizes revenue when (i) persuasive evidence of a customer or distributor arrangement exists, (ii) a retailer, distributor or wholesaler receives the goods and acceptance occurs, (iii) the price is fixed or determinable, and (iv) the collectability of the revenue is reasonably assured. Subject to these criteria, the Company recognizes revenue from product sales when title passes to the customer based on shipping terms. The Company typically does not accept returns nor offer charge backs or rebates except for certain distributors. Revenue recorded is net of any discount, rebate or sales return.

License fee revenue is recognized on a straight-line basis over the term of the license agreement.

When the Company enters into arrangements that contain more than one deliverable, the Company allocates revenue to the separate elements under the arrangement based on their relative selling prices in accordance with FASB ASC 605-25.

Stock-based Compensation

FASB ASC 718, *Share-Based Payment*, defines the fair-value-based method of accounting for stock-based employee compensation plans and transactions used by the Company to account for its issuances of equity instruments to record compensation cost for stock-based employee compensation plans at fair value as well as to acquire goods or services from non-employees. Transactions in which the Company issues stock-based compensation to employees, directors and consultants and for goods or services received from non-employees are accounted for based on the fair value of the equity instruments issued. The Company utilizes pricing models in determining the fair values of options and warrants issued as stock-based compensation. The Black-Scholes model is utilized to calculate the fair value of equity instruments

Recently Issued and Adopted Accounting Pronouncements

The Company has evaluated all recently issued and adopted accounting pronouncements and believes such pronouncements do not have a material effect on the Company's financial statements.

Interest Rates

The primary objective for our investment activities is to preserve principal while maximizing yields without significantly increasing risk. This is accomplished by investing excess cash in highly liquid debt and equity investments of highly rated entities which are classified as trading securities.

Off-Balance Sheet Arrangements

We have no significant known off balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We do not hold any derivative instruments and do not engage in any hedging activities.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures.

Pursuant to Rule 13a- 15(b) under the Exchange Act, the Company carried out an evaluation, with the participation of the Company's management, including the Company's Principal Executive Officer ("PEO") and Principal Financial Officer ("PFO"), of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report.

As of March 31, 2016 and based upon that evaluation, the Company's PEO and PFO concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's PEO and PFO, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting.

There were no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we are a party to litigation and subject to claims incident to the ordinary course of business. Future litigation may be necessary to defend ourselves and our customers by determining the scope, enforceability and validity of third party proprietary rights or to establish our proprietary rights.

~ 33 ~

On April 23, 2015, a complaint was filed by the Company in federal district court (District of New Jersey) against ChubeWorkx Guernsey Limited (“ChubeWorkx”) for breach of contract (the “Breach of Contract Claim”) for failure of timely interest payments by ChubeWorkx under a promissory note (the “Chube Note”) entered into by the Company and ChubeWorkx in December 2014. As part of this action, the Company also filed a preliminary injunction which sought to bar ChubeWorkx from disposing of the Company’s common stock owned by ChubeWorkx for which the Company retained a right of sale in the event of a default by ChubeWorkx under the Chube Note. A consent decree was entered by the court to resolve the issues of the preliminary injunction which requires ChubeWorkx to escrow a certain number of shares of the Company’s common stock currently held by ChubeWorkx until the Breach of Contract Claim has been fully adjudicated. The Breach of Contract Claim is currently in the discovery phase and while the parties have communicated in good faith to resolve this dispute all discussions to date have not yielded any results. Pursuant to a request from the Company, this case was closed by the Court pursuant to an order entered on December 22, 2015 in light of discussions with ChubeWorks related to the final settlement and release of all claims between the parties. The settlement discussions were terminated on March 24, 2016 after substantial good faith efforts by the Company to bring this dispute to a resolution. The Company will seek to reopen the case and pursue all legal remedies available to retrieve the monies owed to the Company.

On August 21, 2015, ChubeWorkx filed a lawsuit against the Company in The High Court of Justice, Queen’s Bench Division Commercial Court, Royal Courts of Justice, United Kingdom, alleging a breach of contract under the exclusive license agreement entered into by ChubeWorkx with Company in June 2012 and damages resulting from said alleged breach. The lawsuit is in the preliminary stage and was suspended by mutual agreement of the parties pursuant to ongoing global settlement discussions which were focused on settling all outstanding claims between the parties.

The Company and ChubeWorkx have agreed in principal to all of the material terms of a global settlement for all existing claims and pending law suits. The parties are working with their counsel to finalize and execute the settlement agreements.

With the exception of the foregoing, we are not currently involved in any litigation that we believe could have a materially adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our Company, threatened against or affecting our Company or our common stock, in which an adverse decision could have a material adverse effect.

Item 1A. Risk Factors.

We believe there are no changes that constitute material changes from the risk factors previously disclosed in our Annual Report on Form 10-K, filed with the SEC on March 30, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

There were no unregistered sales of the Company's equity securities during the quarter ended March 31, 2016, other than those previously reported in a Current Report on Form 8-K.

Item 3. Defaults Upon Senior Securities.

There has been no default in the payment of principal, interest, sinking or purchase fund installment, or any other material default, with respect to any indebtedness of the Company.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

There is no other information required to be disclosed under this item which was not previously disclosed.
