## **Item 2.05 Costs Associated with Exit or Disposal Activities**

On June 23, 2016, the Board of Directors of Ballantyne Strong, Inc. (the “Company”) approved a plan under which the Company will pursue a sale or closure of the operations conducted by its subsidiaries Strong Westrex (Beijing) Technology Inc. and Strong Westrex Inc. (the “China Operations”). The purpose of the plan is to focus the efforts of the Company on the business units that have opportunities for higher return on invested capital. Additionally, due to the continuing negative earnings of the China Operations, the Company elected not to invest further into this business.

For financial reporting purposes, beginning with the Form 10-Q for the six months ended June 30, 2016 the Company intends to classify the assets and liabilities of the China Operations as assets and liabilities held for sale and classify the related operating activities of the China Operations as discontinued operations. The results of the China Operations, as well as exit costs and other expenses, net of proceeds, related to the sale of the business will be reflected as loss from discontinued operations.

In connection with the plan, the Company expects to incur a charge of approximately \$1.2 million in the second quarter of 2016 as a loss from discontinued operations. Approximately \$0.9 million of this charge is expected to be non-cash related. The final loss from discontinued operations may differ from this estimate depending on the actual or expected proceeds received from the sale of the China Operations and the actual disposition costs incurred. The Company anticipates \$0.3 million in charges for employee termination costs in connection with the plan, which are part of the above estimate.
