REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the HII Administrative Committee and Participants of the
Huntington Ingalls Industries Financial Security and Savings Program
Newport News, Virginia

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the Huntington Ingalls Industries Financial Security and Savings Plan (the "Plan") as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Report on Supplemental Schedule

The supplemental schedule of assets (held at end of year) as of December 31, 2017, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, such schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

DELOITTE & TOUCHE LLP

Richmond, Virginia

June xx, 2018

We have served as the auditor of the Plan since 2011.

HUNTINGTON INGALLS INDUSTRIES FINANCIAL SECURITY AND SAVINGS PROGRAM
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2017 AND 2016, AND FOR THE YEAR ENDED DECEMBER 31, 2017

1. DESCRIPTION OF THE PLAN

The following description of the Huntington Ingalls Industries Financial Security and Savings Program (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General — The Plan is a savings and employee stock ownership plan sponsored by Huntington Ingalls Industries, Inc. (the "Company" or "HII") established on March 31, 2011.

This Plan provides benefits for certain employees who are at least 18 years old, are citizens or residents of the United States of America, and are employed by one of the Company's affiliates listed in the Plan document. The HII Administrative Committee controls and manages the operation and administration of the Plan. State Street Bank and Trust Company ("State Street" or the "Trustee") serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan maintains all retirement account assets ("FSSP Retirement Account") and all savings account assets ("FSSP Savings Account") in the Huntington Ingalls Industries, Inc. Defined Contribution Plans Master Trust (the "DC Master Trust").

Employee Deposits and Company Contributions — A participant may deposit from 1% to 4% of annual compensation into the FSSP Retirement Account. A participant's FSSP Retirement Account deposits provide the basis for determining the extent to which the participant is entitled to receive pension benefits under other Company pension plans. A participant who deposits 4% of annual compensation into the FSSP Retirement Account could elect to deposit an additional 1% to 75% into the FSSP Savings Account. The Company matches 50% of a participant's deposits to the FSSP Savings Account of the first 4% of annual compensation, subject to certain collective bargaining agreements, with such contributions remitted to the participant's FSSP Savings Account. The aggregate amount of deposits and contributions to the Plan may not exceed the limitations prescribed by the Internal Revenue Code of 1986 (the "Code").

Effective January 1, 2017, the Plan enrollment provisions were amended to provide certain hired or rehired employees, or an employee transferred into the Plan, is automatically enrolled in the Plan to make deposits of 3% of annual compensation. On each annual anniversary of the enrollment, if the employee has not opted out of the Plan or has not otherwise made an election, their deferral rate increases by 1%.

Investment of FSSP Retirement Account deposits is directed solely by the HII Investment Committee (the "Investment Committee"). FSSP Savings Account deposits are invested, as designated by the participant, in one or more of the investment funds available under the Plan. Each year the Plan re-allocates current year deposits to ensure that each participant receives his/her eligible maximum pension and Company matching contributions, subject to tax deferral and compensation limits imposed by the Code. Match maximization is performed after the end of the calendar year or upon termination of employment, whichever occurs first. To the extent that deposits are re-allocated from a participant's FSSP Savings Account to the FSSP Retirement Account, the amount of Company matching

contributions on any such re-allocated amounts may be forfeited if the re-allocation reduces a participant's deposits below the maximum level eligible for Company matching contributions.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's deposits, any employer contributions, and an allocation of the Plan's earnings, net of administration expenses, and charged with the participant's withdrawals and an allocation of the Plan's losses borne by the Plan. Allocations are based on the participant's account balance, as defined in the Plan document. The benefit to which a participant is entitled is that which can be provided from the participant's vested account.

Vesting — Plan participants are immediately vested in their own contributions (including any investment earnings thereon). Participants vest at 50% in all Company matching contributions plus earnings thereon after two full years of service and 100% after three full years of service. Full vesting also occurs if a participant (while in the employment of the Company) dies, becomes totally disabled or terminates employment on or after reaching age 65.

Nonvested amounts of a participant's Company matching contributions plus investment earnings thereon are forfeited upon termination of employment if the participant takes a distribution of his or her vested account balance. Otherwise, forfeiture does not occur until the participant has incurred a five-year break in service. Forfeitures for a terminated and re-hired participant may be restored depending on the time elapsed from the termination date and the date that the participant becomes re-employed by the Company.

Forfeited Accounts — Forfeitures of nonvested Company contributions plus earnings thereon may be used to reduce subsequent Company contributions. As of December 31, 2017 and 2016, forfeited nonvested accounts were approximately \$83,000 and \$93,000, respectively. During 2017, employer contributions were reduced by \$83,000 due to forfeited nonvested accounts.

Investment Options — Participant deposits to the FSSP Retirement Account are invested in balanced fund in the DC Master Trust. Once the participant has deposited the maximum 4% of tax deferred compensation into the FSSP Retirement Account, the participant may direct his or her employee deposits and Company matching contributions in the FSSP Savings Account, in 1% increments, to be invested in any of the 18 investment options described in the Plan document. The investment funds are managed by independent investment managers appointed by the Investment Committee. Except for the Stable Value Fund as disclosed in Note 5, there are no redemption restrictions nor unfunded commitments.

Participants may change their investment direction in the FSSP Savings Account weekly. Existing account balances can be transferred daily, subject to certain restrictions.

Contributions deposited into each investment fund buy units of that fund based on unit values that are updated daily prior to any Plan transactions, including contributions, withdrawals, distributions, and transfers. The value of each participant's account within each fund depends on the number of units purchased to date and the current value of each unit.

Notes Receivable from Participants — Participants may borrow from their vested FSSP Savings Account balance a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000, reduced by the highest outstanding loan balance over the past 12 months, or 50% of their account balance (not including certain Company contributions). A participant may not have more than two outstanding loans at any given time (except for those merged from other plans). Loans are secured by the assignment of the participant's vested interest in the Plan. The interest rate is fixed on the last business day of each month at the prime rate as determined by the Trustee plus 1%. Repayments are made from payroll deductions (for active employees) or other form of payment (for former employees or employees on leave of absence). The maximum loan period for a regular loan is five years. Participants may obtain 15 year

loans if used to acquire a dwelling that is the principal residence of the participant. Loans transferred in as a result of a plan merger may, however, have maximum loan periods greater than 15 years. Loans may be repaid early in full; partial early repayments are not permitted. As of December 31, 2017, participant loans have maturities through 2032 at interest rates ranging from 4.09% to 9.25%.

Payment of Benefits — On termination of employment with the Company (including termination due to death, disability, or retirement), a participant may receive a lump sum payment of FSSP Retirement and/or Savings Account balances (net of any outstanding loan balances). A participant may also delay payment until the age of 70 1/2 if the total account balance exceeds \$1,000. In addition, a participant has the option of choosing to take the total distribution as an annuity subject to Plan terms or, at retirement, to elect a rollover of his or her FSSP Retirement Account to other Company pension plans. Certain partial distributions after termination of employment and before age 70 1/2 are permitted by the Plan. Participants may rollover account balances to individual retirement accounts or another employer's qualified retirement plan to postpone federal and most state income taxes. Participants with frozen account balances under a previous savings plan may be eligible to elect special distribution options under the previous plan. Distributions from the Huntington Ingalls Industries Stock Fund ("HII Stock Fund") may be paid in cash, stock, or a combination of both, depending on the participant's election.

A participant's benefit under other Company pension plans is determined by the amount of deposits to the participant's FSSP Retirement Account. To achieve the maximum retirement benefit under such retirement plans, the Plan provides that employees must, on an annual basis, deposit the lesser of: (i) 4% of their annual compensation, (ii) the 401(k) deferral limit as defined by the Code, (iii) 4% of the pay cap limit as defined by the Code, or (iv) such lesser maximum amount as may result from the application of the nondiscrimination tests.

Withdrawals — A participant may withdraw all or a portion of his or her vested Company matching contributions (plus earnings) and all or a portion of his or her FSSP Savings Account deposits, net of any loan balances outstanding, for any reason after reaching age 59 1/2, or prior to reaching age 59 1/2 in the case of hardship (as described in the Plan document), and such withdrawals are subject to tax withholdings as appropriate.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, U.S. and foreign government and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur in the near term, and those changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value as determined by the Trustee pursuant to the DC Master Trust Agreement as directed and overseen by the

Investment Committee. The Plan's investments, including the underlying investments in the DC Master Trust, are valued as follows:

Investments in common stock are valued at the last reported sales price of the stock on the last business day of the Plan year. The shares of registered investment company funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year end. Investments in units of the stable value collective trusts are valued at the respective net asset values as reported by such underlying trusts. Investments in fixed income securities are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing values on yields currently available on comparable securities of issuers with similar credit ratings. Investments in collective trust funds are valued based on the redemption prices of units owned by the Plan, which is based on the current fair value of the funds' underlying assets. Fair values for securities are based on information in financial publications of general circulation, statistical and valuation services, records of security exchanges, appraisals by qualified persons, transactions and bona fide offers in assets of the type in question and other information customarily used in the valuation of assets or, if market values are not available, at their fair values as provided to the Trustee by the party with authority to trade in such securities (investment managers, the Investment Committee, or in the case of participant-directed brokerage accounts, the participant's broker, as applicable).

Synthetic guaranteed investment contracts ("SICs") held by the Plan through the Stable Value Fund of the DC Master Trust are recorded at contract value. The SICs' are considered to be fully benefit-responsive and their carrying values are therefore presented as contract values in the statements of net assets available for benefits. The SICs contract values are equal to principal balances plus accrued interest plus deposits and less withdrawals.

All securities and money market funds are quoted in the local currency and then converted into U.S. dollars using the appropriate exchange rate obtained by the Trustee, if necessary. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Broker commissions, transfer taxes, and other charges and expenses incurred in connection with the purchase, sale, or other disposition of securities or other investments are added to the cost of such securities or other investments, or deducted from the proceeds of the sale or other disposition thereof, as appropriate. Taxes, if any, on the assets of the funds, or on any gain or loss resulting from the sale or other disposition of such assets, or on the earnings of the funds, are apportioned among the participants whose interests in the Plan are affected.

The DC Master Trust allocates investment income, realized gains and losses, and unrealized appreciation and depreciation on the underlying securities to the participating plans daily based upon the fair value of each plan's investment. The unrealized appreciation or depreciation amount is the aggregate difference between the current fair value and the cost of investments. The realized gain or loss on investments is the difference between the proceeds received upon sale and the average cost of investments sold.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Expenses — Administrative expenses of the Plan may be paid by the Plan, the DC Master Trust, or the Plan's sponsor as provided in the Plan document.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, were approximately \$259,000 and \$819,000 as of December 31, 2017 and 2016, respectively.

Transfers — Participants may elect to transfer their vested Plan account balances to certain Company pension plans or elect a lump-sum payment or annuity as permitted by the Plan. The total amount transferred from the Plan to other Company pension plans was approximately \$2,837,000 for the year ended December 31, 2017.

New Accounting Pronouncements — In February 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2017-06, Employee Benefit Plan Master Trust Reporting - a consensus of the FASB Emerging Issues Task Force, which is intended to improve the usefulness of the information reported to users of employee benefit plan financial statements. The ASU relates primarily to how a plan reports its interest in a master trust. For each master trust in which a plan holds an interest, the plan will be required to disclose, as separate line items, the plan’s interest in the statement of net assets available for benefits and any changes in that interest in the statement of changes in net assets available for benefits. In addition, a plan with a divided interest in the individual investments of the master trust will no longer be required to disclose its percentage interest in the master trust, but rather will be required to disclose the master trust’s investments by general type and the individual plan’s dollar amount of its interest in the master trust’s investments by general type. Further, all plans will be required to disclose both their master trust’s other asset and liability balances and the dollar amount of the individual plan’s interest in each of those balances.

The amendments in the ASU are effective for fiscal years beginning after December 15, 2018, with early adoption permitted. Entities will be required to adopt the guidance retrospectively to all periods presented. Management does not expect the adoption of the ASU will have a material impact on the financial statements.

3. INVESTMENTS

The Plan’s investments consist of a proportionate interest in certain investments held by the DC Master Trust. Those investments are stated at fair values determined and reported by the Trustee, in accordance with the DC Master Trust Agreement.

Proportionate interests of each plan participating in the DC Master Trust are determined based on the standard trust method of plan accounting for master trust arrangements. Plan assets represented 12% of total net assets as reported by the Trustee of the DC Master Trust as of each of December 31, 2017 and 2016, respectively.

The net assets of the DC Master Trust as of December 31, 2017 and 2016, were as follows (\$ in thousands):

	2017	2016
Assets:		
At fair value:		
Short-term investment funds	\$ 11,686	\$ 16,412
HII common stock	219,246	193,502
Collective trust funds	2,292,602	1,848,353
Schwab Personal Choice Retirement Account	169,641	142,787
Total investments at fair value	2,693,175	2,201,054
At contract value:		
Synthetic guaranteed investment contracts	559,100	639,044
Total investments at contract value	559,100	639,044
Pending receivable	30,287	32,464
Total assets	3,282,562	2,872,562
Liabilities:		
Accrued expenses	1,345	1,257
Total liabilities	1,345	1,257
Net assets of the DC Master Trust	\$3,281,217	\$2,871,305

Investment income for the DC Master Trust for the year ended December 31, 2017, was as follows (\$ in thousands):

Investment income:

Net appreciation in fair value of investments	\$420,208
Dividends	5,308
Interest	14,248
Administrative and investment expenses	(4,332)
Total investment income	\$435,432

4. FAIR VALUE MEASUREMENTS

Accounting Standards Codification 820, Fair Value Measurement ("ASC 820"), clarifies the definition of fair value, prescribes methods for measuring fair value, establishes a fair value hierarchy based on the inputs used to measure fair value, and expands disclosures about the use of fair value measurements.

The valuation techniques under ASC 820 are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect internal market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 — Quoted prices for identical instruments in active markets. Level 1 investments of the DC Master Trust primarily include common stock, registered investment company funds, and money market funds based on pricing, frequency of trading, and other market considerations.

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable. Level 2 investments of the DC Master Trust primarily include fixed income securities based on model-derived valuations calculated by the fund managers.

Level 3 — Significant inputs to the valuation model are unobservable. There were no Level 3 financial instruments in the Plan as of December 31, 2017 and 2016.

Transfers Between Levels - The Plan's policy is to recognize transfers in and transfers out of hierarchy levels as of the actual date of the event or change in circumstances that caused the transfer. There were no transfers of investments between levels during the year ended December 31, 2017.

The following tables set forth by level the fair value hierarchy of the investments held by the DC Master Trust and the Plan as of December 31, 2017 and 2016 (\$ in thousands):

	As of December 31, 2017				Total
	Level 1	Level 2	Level 3	NAV (a)	
DC Master Trust					
Short-term investment funds	\$—	\$—	\$—	-\$11,686	\$11,686
HII common stock	219,246	—	—	—	219,246
Collective trust funds	—	—	—	2,292,602	2,292,602
Schwab Personal Choice Retirement Fund	169,336	305	—	—	169,641
Total assets in the DC Master Trust	\$388,582	\$305	\$—	-\$2,304,288	\$2,693,175
Other Plan Investments					
Short-term investment fund	\$—	\$—	\$—	-\$201	\$201
Total Other Plan Investments	\$—	\$—	\$—	-\$201	\$201
	As of December 31, 2016				Total
	Level 1	Level 2	Level 3	NAV (a)	
DC Master Trust					
Short-term investment funds	\$—	\$—	\$—	-\$16,412	\$16,412
HII common stock	193,502	—	—	—	193,502
Collective trust funds	—	—	—	1,848,353	1,848,353
Schwab Personal Choice Retirement Fund	142,529	258	—	—	142,787
Total assets in the DC Master Trust	\$336,031	\$258	\$—	-\$1,864,765	\$2,201,054
Other Plan Investments					
Short-term investment fund	\$—	\$—	\$—	-\$800	\$800
Total Other Plan Investments	\$—	\$—	\$—	-\$800	\$800

(a) Investments in the collective trust funds are measured at fair value using NAV, and therefore have not been classified in the fair value hierarchy.

5. INTEREST IN STABLE VALUE FUND

The DC Master Trust includes amounts in the Stable Value Fund, which was established for the investment of assets of certain savings plans sponsored by the Company. Each participating savings plan has an undivided interest in the Stable Value Fund. As of each of December 31, 2017 and 2016, the Plan's interest in the net assets of the Stable Value Fund was approximately 10% of the total fund value. Investment income and administrative expenses relating to the Stable Value Fund are allocated among the participating plans on a daily basis.

Investments held in the Stable Value Fund as of December 31, 2017 and 2016, were as follows (\$ in thousands):

	2017	2016
Synthetic guaranteed investment contracts - at contract value	\$559,100	\$639,044
Short-term investment fund - at fair value	11,290	15,462
Total	\$570,390	\$654,506

The Stable Value Fund holds wrapper contracts in order to manage the market risk and return of certain securities held by the Stable Value Fund. The wrapper contracts generally modify the investment characteristics of certain underlying securities such that they perform in a manner similar to guaranteed investment contracts. Each wrapper contract and the related underlying assets comprise the SICs, which are recorded at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals and contract administrative expenses.

The Stable Value Fund imposes certain restrictions on the Plan, and the Stable Value Fund itself may be subject to circumstances that affect its ability to transact at fair value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, a withdrawal from a wrapper contract in order to switch to a different investment provider, or adoption of a successor plan (in the event of the spin-off or sale of a division) that does not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract. Plan management believes that the events described above that could result in the payment of benefits at fair value rather than contract value are not probable of occurring in the foreseeable future.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions through the DC Master Trust include the purchase and sale of investments managed by affiliates of the Trustee, transactions involving HII common stock, and payments made to the Company for certain Plan administrative costs. The HII Stock Fund within the DC Master Trust held 930,189 and 1,050,555 shares of common stock of the Company with fair values of approximately \$219,246,000 and \$193,502,000 as of December 31, 2017 and 2016, respectively. The HII Stock Fund within the DC Master Trust also held interest bearing cash with fair values of approximately \$396,000 and \$950,000 as of December 31, 2017 and 2016, respectively. The Plan's interests in the net assets of the HII Stock Fund were approximately 4.9% and 5.2% as of December 31, 2017 and 2016, respectively. During 2017, the HII Stock Fund earned approximately \$2,537,000 in dividends from its investment in HII common stock.

The Plan had transactions with the Trustee's collective trust funds and short-term investment fund, a liquidity pooled fund in which participation commences and terminates on a daily basis. The DC Master Trust utilized various investment managers to manage its net assets. These net assets may also be invested into funds managed by such investment managers. All of these transactions qualify as party-in-interest transactions.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA

and applicable collective bargaining agreements. In the event of the Plan's termination, the interests of all participants in their accounts would become 100% vested.

8. FEDERAL INCOME TAX STATUS

The Plan administrator believes that the Plan is designed and is currently being operated in accordance with the applicable requirements of the Code. The Plan Administrator received a favorable determination letter from the Internal Revenue Service ("IRS") dated November 14, 2017, which indicated the Plan, as designed, was in compliance with the Internal Revenue Code ("IRC"). The Plan has been amended since the date of submission of the determination letter. The Plan Administrator believes, however, that the Plan is designed and is being operated in accordance with the applicable requirements of the IRC in all material respects and that the Plan therefore continues to be tax-exempt. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2017, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. While the Plan is subject to routine audits by taxing jurisdictions, no audits are currently in progress for any tax periods.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following tables reconcile net assets available for benefits per the financial statements to Form 5500 as of December 31, 2017 and 2016 (\$ in thousands):

	2017	2016
Net assets available for benefits per the financial statements	\$425,590	\$387,260
Less: amounts allocated to withdrawing participants	(259)	(819)

Net assets available for benefits per Form 5500 \$425,331 \$386,441

The following table reconciles benefits paid to participants per the financial statements to Form 5500 for the year ended December 31, 2017 (\$ in thousands):

Benefits paid to participants per the financial statements	\$34,192
Add: amounts allocated to withdrawing participants at December 31, 2017	259
Less: amounts allocated to withdrawing participants at December 31, 2016	(819)

Benefits paid to participants per Form 5500 \$33,632
