## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

### 1. Description of the Business and Basis of Presentation

Description of the Business - Bloomin' Brands, Inc., through its subsidiaries ("Bloomin' Brands" or the "Company"), owns and operates casual, upscale casual and fine dining restaurants. The Company's restaurant portfolio has four concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar. Each of the Company's concepts has additional restaurants in which it has no direct investment and are operated under franchise agreements.

Basis of Presentation - The accompanying interim unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles in the United States ("U.S. GAAP") for complete financial statements. In the opinion of the Company, all adjustments necessary for fair financial statement presentation for the periods presented have been included and are of a normal, recurring nature. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Recently Adopted Financial Accounting Standards - On January 1, 2018, the Company elected to early adopt Accounting Standards Update ("ASU") No. 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment," ("ASU No. 2017-04") on a prospective basis. ASU No. 2017-04 eliminates the second step of goodwill impairment, which requires a hypothetical purchase price allocation. Under ASU No. 2017-04, goodwill impairment is calculated as the amount a reporting unit's carrying value exceeds its calculated fair value. The adoption of ASU No. 2017-04 did not impact the Company's Consolidated Financial Statements. Goodwill and indefinite-lived intangible assets are tested for impairment annually, as of the first day of the second fiscal quarter, or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

On January 1, 2018, the Company adopted ASU No. 2014-09 "Revenue Recognition (Topic 606), Revenue from Contracts with Customers" ("ASU No. 2014-09") using the full retrospective transition method. Under ASU No. 2014-09, revenue is recognized in an amount that reflects the consideration an entity expects to receive for the transfer of goods and services. The standard also requires additional disclosures about the nature, timing and uncertainty of revenue and cash flows arising from contracts with customers. Under the new standard, the Company recognizes gift card breakage proportional to redemptions, which are highest in the Company's first fiscal quarter. Previously, under the remote method, the majority of breakage revenue was recorded in the Company's fourth fiscal quarter corresponding with the timing of the original gift card sale. Advertising fees charged to franchisees, which were previously recorded as a reduction to Other restaurant operating expenses, are recognized as Franchise revenue. In addition, initial franchise and renewal fees are recognized over the term of the franchise agreements. As part of the adoption of ASU No. 2014-09, the Company applied the practical expedient to use the portfolio approach to assess contracts and performance obligations. In connection with adoption of ASU No. 2014-09, a cumulative effect adjustment of \$33.1 million, net of tax, was recorded as a credit to the ending balance of Accumulated deficit as of December 27, 2015.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - Continued

See Note 2 - Revenue Recognition for required disclosures under ASU No. 2014-09.

Effective June 26, 2017, the Company adopted ASU No. 2016-18, "Statement of Cash Flows (Topic 230), Restricted Cash" ("ASU No. 2016-18"). ASU No. 2016-18 provides guidance on the presentation of restricted cash and restricted cash equivalents, which are now included with cash and cash equivalents when reconciling the beginning and ending cash amounts shown on the statements of cash flows. Using the retrospective transition method required under the standard, the Company has adjusted the presentation of its Condensed Consolidated Statements of Cash Flows for all periods presented. The adoption of ASU No. 2016-18 did not have any other impact on the Company's Consolidated Financial Statements.

The following table provides additional details by financial statement line item of the restated presentation in the Company's Condensed Consolidated Statement of Cash Flows for the thirteen weeks ended March 26, 2017:

Recently Issued Financial Accounting Standards Not Yet Adopted - In February 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-02: "Leases (Topic 842)" ("ASU No. 2016-02"). ASU No. 2016-02 requires the lease rights and obligations arising from lease contracts, including existing and new arrangements, to be recognized as assets and liabilities on the balance sheet. ASU No. 2016-02 is effective for the Company in 2019 and must be adopted using a modified retrospective approach. The Company has begun evaluating and planning for adoption and implementation of ASU No. 2016-02, including selecting a new lease accounting system, evaluating practical expedients and accounting policy elections, and assessing the overall financial statement impact. The Company expects the adoption of ASU No. 2016-02 to have a significant impact on its Consolidated Balance Sheets due to recognition of right-of-use assets and lease liabilities for operating leases. The Company's evaluation of ASU No. 2016-02 is ongoing and may identify additional impacts on its Consolidated Financial Statements and related disclosures.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities ("ASU No. 2017-12") which provides guidance for reporting the economic results of hedging activities and to simplify the disclosures of risk exposures and hedging strategies. ASU No. 2017-12 will be effective for the Company in 2019, with early adoption permitted and is not expected to have a material impact on the Company's Consolidated Financial Statements and related disclosures.

Reclassifications - The Company reclassified certain items in the accompanying Consolidated Financial Statements for prior periods to be comparable with the classification for the current period.

### 2. Revenue Recognition

The Company records food and beverage revenues, net of discounts and taxes, upon sale. Franchise-related revenues are included in Franchise and other revenues in the Company's Consolidated Statements of Operations and Comprehensive Income. Royalties, which are a percentage of net sales of the franchisee, are recognized as income when earned. - (1) See Note 1 Description of the Business and Basis of Presentation for details of the impact of implementing ASU No. 2014-09.
- (2) In 2017, the Company sold 53 Outback Steakhouse restaurants and one Carrabba's Italian Grill restaurant, which are now operated as franchises.

Gift Card Revenue - Proceeds from the sale of gift cards, which do not have expiration dates, are recorded as deferred revenue and recognized as revenue upon redemption by the customer. Gift cards sold at a discount are recorded as revenue upon redemption of the associated gift cards at an amount net of the related discount. Gift card breakage, the amount of gift cards which will not be redeemed, is recognized using estimates based on historical redemption patterns.

<u>Table of Contents</u> BLOOMIN' BRANDS, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - Continued

If actual redemptions vary from the estimated breakage, gift card breakage income may differ from the amount recorded. The Company periodically updates its estimates used for breakage. Gift card sales that are accompanied by a bonus card to be used by the customer at a future visit result in a separate deferral of a portion of the original gift card sale. Revenue is recorded when the bonus card is redeemed at the estimated fair market value of the bonus card. Approximately 87% of the current deferred gift card revenue is expected to be recognized over the next 12 months.

Gift card sales commissions paid to third-party providers are initially capitalized and subsequently amortized to Other restaurant operating expenses upon redemption of the associated gift card.

Advertising Fees - Advertising fees charged to franchisees are recognized as Franchise revenue in the Company's Consolidated Statements of Operations and Comprehensive Income.

Franchise Fees - Initial franchise and renewal fees are recognized over the term of the franchise agreement and renewal period, respectively. The weighted average remaining term of franchise agreements and renewal periods was approximately 15 years as of April 1, 2018.

Loyalty Program - The Company maintains a customer loyalty program, Dine Rewards, in the U.S., where customers have the ability to earn a reward after a number of qualified visits. The Company has developed an estimated value of the partial reward earned from each qualified visit, which is recorded as deferred revenue. Each reward has a maximum value and must be redeemed within three months of earning such reward. The revenue associated with the fair value of the qualified visit is recognized upon the earlier of redemption or expiration of the reward.

### Derivative Instruments and Hedging Activities

Cash Flow Hedges of Interest Rate Risk - On September 9, 2014, the Company entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of the Company's variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, the Company pays a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receives payments from the counterparty based on the 30-day LIBOR rate. The interest rate swaps, which have been designated and qualify as a cash flow hedge, are recognized on the Company's Consolidated Balance Sheets at fair value and are classified based on the instruments' maturity dates.

### 11. Fair Value Measurements

Fair value is the price that would be received for an asset or paid to transfer a liability, or the exit price, in an orderly transaction between market participants on the measurement date. Fair value is categorized into one of the following three levels based on the lowest level of significant input:

- Level 1 Unadjusted quoted market prices in active markets for identical assets or liabilities
- Level 2 Observable inputs available at measurement date other than quoted prices included in Level 1
- Level 3 Unobservable inputs that cannot be corroborated by observable market data

<sup>(1)</sup> During the thirteen weeks ended April 1, 2018 and March 26, 2017, the Company did not recognize any gain or loss as a result of hedge ineffectiveness.

Carrying value approximates fair value because maturities are less than three

months.

The Company's derivative instruments include interest rate swaps. Fair value measurements are based on the contractual terms of the derivatives and use observable market-based inputs. The interest rate swaps are valued using a discounted cash flow analysis on the expected cash flows of each derivative using observable inputs including interest rate curves and credit spreads. The Company also considers its own nonperformance risk and the respective counterparty's

nonperformance risk when performing fair value measurements. As of April 1, 2018 and December 31, 2017, the Company has determined that the credit valuation

adjustments are not significant to the overall valuation of its derivatives.

Fair Value Measurements on a Nonrecurring Basis - Assets and liabilities that are measured at fair value on a nonrecurring basis relate primarily to property, fixtures and equipment, goodwill and other intangible assets, which are remeasured when carrying value exceeds fair value. The following table summarizes the Company's assets measured at fair value by hierarchy level on a nonrecurring basis:

### 12. Income Taxes

Other notes payable

THIRTEEN
WEEKS ENDED
APRIIMARCH 26,
2018 2017

Effective income tax rate 2.8% 26.6 %

The effective income tax rate for the thirteen weeks ended April 1, 2018 decreased by 23.8 percentage points as compared to the thirteen weeks ended March 26, 2017. The decrease is primarily due to the reduction in the U.S. federal corporate tax rate from 35% to 21% as part of the legislation enacted in December 2017 known as the Tax Cuts and Jobs Act (the "Tax Act"), lower forecasted pre-tax income and excess tax benefits from equity-based compensation arrangements.

The Company has a blended federal and state statutory rate of approximately 26%. The effective income tax rate for the thirteen weeks ended April 1, 2018 was lower than the statutory rate primarily due to the benefit of tax credits for FICA taxes on certain employees' tips and excess tax benefits from equity-based compensation arrangements.

The Company has applied guidance under SEC Staff Accounting Bulletin No. 118 which allows for a measurement period up to one year after the December 22, 2017 enactment date of the Tax Act to complete the accounting requirements. As of April 1, 2018, the Company made reasonable estimates of the effects of the Tax Act but has not completed its accounting for all tax effects. A provisional \$7.5 million net tax expense was recorded during 2017. With the exception of the retrospective adjustment for the January 2018 adoption of ASU No. 2014-09, no

adjustments were made to these provisional amounts during the thirteen weeks ended April 1, 2018. The Company is continuing to gather information and additional guidance is expected from the U.S. Treasury and state taxing authorities on the application of certain provisions of the Tax Act and will continue to make and refine its calculations as additional analysis is completed. The Company's estimates may also be affected as it gains a more thorough understanding of the tax law. These changes could be material to income tax expense. The Company expects to complete its analysis within the year measurement period.

<u>Table of Contents</u> BLOOMIN' BRANDS, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - Continued

In connection with its analysis of the impact of the Tax Act, the Company recorded a provisional net tax expense of \$7.5 million in December 2017, as described in the following table:

	FISCAL
	YEAR
(dollars in thousands)	2017
Transition Tax (provisional)	\$ 100
Net impact on U.S. deferred tax assets and liabilities (provisional) (1)	1,600
Net changes in deferred tax liability associated with anticipated repatriation taxes (provisional)	200
Impact from the adoption of ASU No. 2014-09 (provisional)	5,600
	\$7,500

Includes \$4.7 million of expense for a valuation allowance recorded against foreign tax credit carryforwards, \$3.9 (1) million of benefit from the impact of the corporate rate reduction on net deferred tax liability balances, and an expense of \$0.8 million for the write-off of certain deferred tax assets that will no longer be realized.

### Items considered provisional include:

Reduction of U.S. Federal Corporate Income Tax Rate - The Tax Act reduced the corporate income tax rate to 21%, effective January 1, 2018. While the Company is able to make a reasonable estimate of the impact of the reduction in corporate rate on its deferred tax assets and liabilities, it may be affected by other analyses related to the Tax Act, including, but not limited to, its calculation of deemed repatriation of deferred foreign income and the state tax effect of adjustments made to federal temporary differences.

Deemed Repatriation Transition Tax - The Deemed Repatriation Transition Tax ("Transition Tax") is a tax on previously untaxed accumulated and current earnings and profits ("E&P") of the Company's foreign subsidiaries. To determine the amount of the Transition Tax, the Company must determine, in addition to other factors, the amount of post-1986 E&P of the relevant subsidiaries, as well as the amount of non-U.S. income taxes paid on such earnings. The Company is able to make a reasonable estimate of the Transition Tax and recorded a provisional amount. Due to the ability to utilize foreign tax credits in the calculation of the Transition Tax, the obligation primarily related to the estimated state impacts. However, the Company is continuing to gather additional information. Additional guidance from the U.S. Treasury and state taxing authorities on the application of certain provisions of the Tax Act is expected in the future.

Valuation Allowances - The Company must assess whether its valuation allowance analyses or deferred tax assets are affected by various aspects of the Tax Act (e.g., deemed repatriation of deferred foreign income, GILTI inclusions and new categories of FTCs). While the Company did record an additional valuation allowance against foreign tax credit carryforwards, the Company has recorded provisional amounts related to certain portions of the Tax Act and any corresponding determination of the need for a change in a valuation allowance is also provisional.

For tax years beginning after December 31, 2017, the Tax Act subjects a U.S. shareholder to tax on global intangible low-taxed income ("GILTI") earned by certain foreign subsidiaries. The FASB Staff Q&A, Topic 740, No. 5, Accounting for Global Intangible Low-Taxed Income, states that an entity can make an accounting policy election to either recognize deferred taxes for temporary basis differences expected to reverse as GILTI in future years or provide for the tax expense related to GILTI in the year the tax is incurred. As of April 1, 2018, the Company has not yet determined its accounting policy with regard to GILTI, and does not expect GILTI in 2018.

## 13. Commitments and Contingencies

Litigation and Other Matters - The Company had \$5.0 million and \$4.3 million of liabilities recorded for various legal matters as of April 1, 2018 and December 31, 2017, respectively.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - Continued

The Company is subject to legal proceedings, claims and liabilities, such as liquor liability, slip and fall cases, wage-and-hour and other employment-related litigation, which arise in the ordinary course of business and are generally covered by insurance if they exceed specified retention or deductible amounts. In the opinion of management, the amount of ultimate liability with respect to those actions will not have a material adverse impact on the Company's financial position or results of operations and cash flows.

Lease Guarantees - The Company assigned its interest, and is contingently liable, under certain real estate leases. These leases have varying terms, the latest of which expires in 2032. As of April 1, 2018, the undiscounted payments the Company could be required to make in the event of non-payment by the primary lessees was approximately \$28.8 million. The present value of these potential payments discounted at the Company's incremental borrowing rate as of April 1, 2018 was approximately \$19.8 million. In the event of default, the indemnity clauses in the Company's purchase and sale agreements govern its ability to pursue and recover damages incurred. The Company believes the financial strength and operating history of the buyers significantly reduces the risk that it will be required to make payments under these leases. Accordingly, no liability has been recorded.

#### 14. Segment Reporting

The Company has two reportable segments, U.S. and International, which reflects how the Company manages its business, reviews operating performance and allocates resources. The U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. Resources are allocated and performance is assessed by the Company's Chief Executive Officer ("CEO"), whom the Company has determined to be its Chief Operating Decision Maker ("CODM"). Following is a summary of reporting segments:

Segment accounting policies are the same as those described in Note 2 - Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2017. Revenues for all segments include only transactions with customers and exclude intersegment revenues. Excluded from net income from operations for U.S. and International are certain legal and corporate costs not directly related to the performance of the segments, stock-based compensation expenses and certain bonus expenses.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis of financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and the related notes. Unless the context otherwise indicates, as used in this report, the term the "Company," "we," "us," "our" and other similar terms mean Bloomin' Brands, Inc. and its subsidiaries.

#### **Cautionary Statement**

This Quarterly Report on Form 10-Q (the "Report") includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms "believes," "estimates," "anticipates," "expects," "feels," "seeks," "forecasts," "projects," "intends," "plans," "may," "will," "should," "could" or "wou their negative or other variations or comparable terminology, although not all forward-looking statements are accompanied by such terms. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Report and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies and the industry in which we operate.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and industry developments may differ materially from statements made in or suggested by the forward-looking statements contained in this Report. In addition, even if our results of operations, financial condition and liquidity, and industry developments are consistent with the forward-looking statements contained in this Report, those results or developments may not be indicative of results or developments in subsequent periods. Important factors that could cause actual results to differ materially from statements made or suggested by forward-looking statements include, but are not limited to, the following:

- (i) Consumer reactions to public health and food safety issues;
- Our ability to compete in the highly competitive restaurant industry with many well-established competitors and new market entrants;
- (iii) Minimum wage increases and additional mandated employee benefits;
- Economic conditions and their effects on consumer confidence and discretionary spending, consumer traffic, the cost and availability of credit and interest rates;
- (v) Fluctuations in the price and availability of commodities;

(vi)Our ability to effectively respond to changes in patterns of consumer traffic, consumer tastes and dietary habits;

Our ability to comply with governmental laws and regulations, the costs of compliance with such laws and (vii)regulations and the effects of changes to applicable laws and regulations, including tax laws and unanticipated liabilities;

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

- Our ability to implement our expansion, remodeling and relocation plans due to uncertainty in locating and acquiring attractive sites on acceptable terms, obtaining required permits and approvals, recruiting and training necessary personnel, obtaining adequate financing and estimating the performance of newly opened, remodeled or relocated restaurants;
- Our ability to protect our information technology systems from interruption or security breach, including cyber security threats, and to protect consumer data and personal employee information;
- The effects of international economic, political and social conditions and legal systems on our foreign operations and on foreign currency exchange rates;
- Our ability to preserve and grow the reputation and value of our brands, particularly in light of changes in consumer engagement with social media platforms;
- (xii) Any impairment in the carrying value of our goodwill or other intangible or long-lived assets and its effect on our financial condition and results of operations;
- (xiii) Strategic actions, including acquisitions and dispositions, and our success in implementing these initiatives or integrating any acquired or newly created businesses;
- Seasonal and periodic fluctuations in our results and the effects of significant adverse weather conditions and other disasters or unforeseen events;
- The effects of our substantial leverage and restrictive covenants in our various credit facilities on our ability to raise additional capital to fund our operations, to make capital expenditures to invest in new or renovate restaurants and to react to changes in the economy or our industry, and our exposure to interest rate risk in connection with our variable-rate debt:
- (xvi) The adequacy of our cash flow and earnings and other conditions which may affect our ability to pay dividends and repurchase shares of our common stock; and
- Such other factors as discussed in Part I, Item IA. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2017.

In light of these risks and uncertainties, we caution you not to place undue reliance on these forward-looking statements. Any forward-looking statement that we make in this Report speaks only as of the date of such statement, and we undertake no obligation to update any forward-looking statement or to publicly announce the results of any revision to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless specifically expressed as such, and should only be viewed as historical data.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

#### Overview

We are one of the largest casual dining restaurant companies in the world with a portfolio of leading, differentiated restaurant concepts. As of April 1, 2018, we owned and operated 1,200 restaurants and franchised 294 restaurants across 48 states, Puerto Rico, Guam and 19 countries. We have four founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar. Executive Summary

Our financial results for the thirteen weeks ended April 1, 2018 ("first quarter of 2018") include the following:

A decrease in Total revenues of 3.3% to \$1.1 billion in the first quarter of 2018, as compared to the first quarter of 2017, primarily due to domestic refranchising and the one-week shift in the fiscal calendar, partially offset by increases from higher comparable restaurant sales and an increase in franchise and other revenues.

Income from operations of \$78.4 million in the first quarter of 2018, as compared to \$76.8 million in the first quarter of 2017, increased primarily due to lower impairment charges and increases in average check per person. These increases were partially offset by decreases primarily due to higher labor costs, changes in product mix, higher operating expenses and higher commodity costs.

### **Key Performance Indicators**

Key measures that we use in evaluating our restaurants and assessing our business include the following:

Average restaurant unit volumes—average sales (excluding gift card breakage) per restaurant to measure changes in customer traffic, pricing and development of the brand;

Comparable restaurant sales—year-over-year comparison of sales volumes (excluding gift card breakage) for Company-owned restaurants that are open 18 months or more in order to remove the impact of new restaurant openings in comparing the operations of existing restaurants;

System-wide sales—total restaurant sales volume for all Company-owned and franchise restaurants, regardless of ownership, to interpret the overall health of our brands;

Restaurant-level operating margin, Income from operations, Net income and Diluted earnings per share — financial measures utilized to evaluate our operating performance.

Restaurant-level operating margin is widely regarded in the industry as a useful metric to evaluate restaurant level operating efficiency and performance of ongoing restaurant-level operations, and we use it for these purposes, overall and particularly within our two segments. Our restaurant-level operating margin is expressed as the percentage of our Restaurant sales that Cost of sales, Labor and other related and Other restaurant operating (including advertising expenses) represent, in each case as such items are reflected in our Consolidated Statement of Operations. The following categories of our revenue and operating expenses are not included in restaurant-level operating margin because we do not consider them reflective of operating performance at the restaurant-level within a period:

Franchise and other revenues which are earned primarily from franchise royalties and other non-food and beverage revenue streams, such as rental and sublease income.

Depreciation and amortization which, although substantially all of which is related to restaurant-level assets, represent historical sunk costs rather than cash outlays for the restaurants.

<u>Table of Contents</u> BLOOMIN' BRANDS, INC.

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

- General and administrative expense which includes primarily non-restaurant-level costs associated with support of the restaurants and other activities at our corporate offices.
- Asset impairment charges and restaurant closing costs which are not reflective of ongoing restaurant performance in a period.

Restaurant-level operating margin excludes various expenses, as discussed above, that are essential to support the operations of our restaurants and may materially impact our Consolidated Statement of Operations. As a result, restaurant-level operating margin is not indicative of our consolidated results of operations and is presented exclusively as a supplement to, and not a substitute for, net income or income from operations. In addition, our presentation of restaurant operating margin may not be comparable to similarly titled measures used by other companies in our industry;

Adjusted restaurant-level operating margin, Adjusted income from operations, Adjusted net income and Adjusted diluted earnings per share—non-GAAP financial measures utilized to evaluate our operating performance.

We believe that our use of non-GAAP financial measures permits investors to assess the operating performance of our business relative to our performance based on U.S. GAAP results and relative to other companies within the restaurant industry by isolating the effects of certain items that may vary from period to period without correlation to core operating performance or that vary widely among similar companies. However, our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items or that the items for which we have made adjustments are unusual or infrequent or will not recur. We believe that the disclosure of these non-GAAP measures is useful to investors as they form part of the basis for how our management team and Board of Directors evaluate our operating performance, allocate resources and administer employee incentive plans; and

Customer satisfaction scores—measurement of our customers' experiences in a variety of key areas.

Includes an approximate \$19.0 million negative impact on Restaurant sales from a one-week shift in the fiscal calendar.

BLOOMIN' BRANDS, INC.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

The decrease in Restaurant sales in the thirteen weeks ended April 1, 2018 was primarily attributable to domestic refranchising, the one-week shift in the fiscal calendar and the closing of 48 restaurants since December 25, 2016. The decrease in restaurant sales was partially offset by the opening of 42 new restaurants not included in our comparable restaurant sales base and higher comparable restaurant sales.

The thirteen weeks ended March 26, 2017 included several high-volume days between December 26th and December 31st and the thirteen weeks ended April 1, 2018 excluded these high-volume days. This shift had an approximate \$19.0 million negative impact on Restaurant sales.

The effective income tax rate for the thirteen weeks ended April 1, 2018 decreased by 23.8 percentage points as compared to the thirteen weeks ended March 26, 2017. The decrease is primarily due to the reduction in the U.S. federal corporate tax rate from 35% to 21% as part of the Tax Act, lower forecasted pre-tax income and excess tax benefits from equity-based compensation arrangements.

#### SEGMENT PERFORMANCE

We have two reportable segments, U.S. and International, which reflects how we manage our business, review operating performance and allocate resources. The U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. Resources are allocated and performance is assessed by our CEO, whom we have determined to be our CODM. Following is a summary of reporting segments:

SEGMENT (1) CONCEPT GEOGRAPHIC LOCATION
Outback Steakhouse

Carrabba's Italian Grill

U.S. United States of America

Bonefish Grill

Bonelish Grill

Fleming's Prime Steakhouse & Wine Bar

Outback Steakhouse Brazil, Hong Kong, China

International

Revenues for both segments include only transactions with customers and exclude intersegment revenues. Excluded from net income from operations for U.S. and International are legal and certain corporate costs not directly related to the performance of the segments, certain stock-based compensation expenses and certain bonus expenses.

Following is a reconciliation of segment income from operations to the consolidated operating results:

Restaurant-level operating margin is widely regarded in the industry as a useful metric to evaluate restaurant-level operating efficiency and performance of ongoing restaurant-level operations, and we use it for these purposes, overall and particularly within our two segments. See the Overview-Key Performance Indicators section of Management's Discussion and Analysis for additional details regarding the calculation of restaurant-level operating margin.

We believe that our expected liquidity sources are adequate to fund debt service requirements, lease obligations, capital expenditures and working capital obligations for at least the next 12 months. However, our ability to continue to meet these requirements and obligations will depend on, among other things, our ability to achieve anticipated levels of revenue and cash flow and our ability to manage costs and working capital successfully.

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Cash and Cash Equivalents - As of April 1, 2018, we had \$105.8 million in cash and cash equivalents, of which \$36.0 million was held by foreign affiliates. The international jurisdictions in which we have significant cash do not have any known restrictions that would prohibit the repatriation of cash and cash equivalents.

We previously considered the earnings in our non-U.S. subsidiaries to be indefinitely reinvested and, accordingly, recorded no deferred income taxes. Given the Tax Act's significant changes and potential opportunities to repatriate cash free of U.S. federal tax, we continue to evaluate our current permanent reinvestment assertions. This evaluation includes the repatriation of historical earnings (2017 and prior) that have been previously taxed under the Tax Act. See Note 12 - Income Taxes of the Notes to Consolidated Financial Statements for further information regarding the Tax Act.

As of April 1, 2018, we had aggregate undistributed accumulated and current earnings and profits from foreign subsidiaries of approximately \$138.0 million, which is considered previously taxed income subsequent to the Tax Act. We currently consider the remaining financial statement carrying amounts over the tax basis of our investments in our foreign subsidiaries to be indefinitely reinvested and have not recorded a deferred tax liability. The determination of any unrecorded deferred tax liability on this amount is not practicable due to the uncertainty of how these investments would be recovered.

Restructuring - Total aggregate future undiscounted cash expenditures of \$22.2 million to \$29.0 million for the Closure Initiatives, primarily related to lease liabilities, are expected to occur over the remaining lease terms with the final term ending in January 2029.

Capital Expenditures - We estimate that our capital expenditures will total approximately \$200.0 million in 2018. The amount of actual capital expenditures may be affected by general economic, financial, competitive, legislative and regulatory factors, among other things, including restrictions imposed by our borrowing arrangements.

Credit Facilities - As of April 1, 2018, we had \$1.1 billion of outstanding borrowings under our Senior Secured Credit Facility. Following is a summary of principal payments and debt issuance from December 31, 2017 to April 1, 2018:

	SENIOR S	ECURED	TOTAL
	CREDIT F	Δ(`ΠΤΤΥ

Balance as of April 1, 2018	\$493,750	\$ 631,000	\$1,124,750

We continue to evaluate whether we will make further payments of our outstanding debt ahead of scheduled maturities. Following is a summary of our outstanding credit facilities as of the dates indicated:

_	INTERES'	T		OUTSTAN	IDING

Total Senior secured credit \$1,500,000 \$1,124,750 \$ 1,100,000

Credit Agreement - As of April 1, 2018, we had \$345.5 million in available unused borrowing capacity under our revolving credit facility, net of letters of credit of \$23.5 million.

<sup>(1)</sup> Represents the weighted-average interest rate.

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

The Credit Agreement contains term loan mandatory prepayment requirements of 50% of our annual excess cash flow, as defined in the Credit Agreement. The amount outstanding required to be prepaid may vary based on our leverage ratio and year end results. Other than the required minimum amortization premiums of \$25.0 million, we do not anticipate any other payments will be required through March 31, 2019.

Debt Covenants - Our Credit Agreement contains various financial and non-financial covenants. A violation of these covenants could negatively impact our liquidity by restricting our ability to borrow under the revolving credit facility and cause an acceleration of the amounts due under the credit facilities. See Note 12 - Long-term Debt, Net in our Annual Report on Form 10-K for the year ended December 31, 2017 for further information.

As of April 1, 2018 and December 31, 2017, we were in compliance with our debt covenants. We believe that we will remain in compliance with our debt covenants during the next 12 months.

#### SUMMARY OF CASH FLOWS

The following table presents a summary of our cash flows provided by (used in) operating, investing and financing activities for the periods indicated:

	THIRTEE	N WEEKS	
	<b>ENDED</b>		
(dollars in thousands)	APRIL 1,	MARCH 2	26,
(dollars in thousands)		2017	
Net cash provided by operating activities	\$51,535	\$ 136,198	
Net cash used in investing activities	(46,210)	(20,581	)
Net cash used in financing activities	(29,082)	(154,355	)
Effect of exchange rate changes on cash and cash equivalents	54	1,740	
Net decrease in cash, cash equivalents and restricted cash	\$(23,703)	\$ (36,998	)

Operating activities - Net cash provided by operating activities decreased during the thirteen weeks ended April 1, 2018, as compared to the thirteen weeks ended March 26, 2017 primarily due to decreases from: (i) the amount and timing of collections of gift card receivables, (ii) an increase in incentive compensation payments and (iii) timing of payments. These decreases were partially offset by lower income tax payments.

Investing activities - Net cash used in investing activities for the thirteen weeks ended April 1, 2018 consisted of capital expenditures.

Net cash used in investing activities for the thirteen weeks ended March 26, 2017 consisted primarily of capital expenditures, partially offset by proceeds from sale-leaseback transactions.

Financing activities - Net cash used in financing activities for the thirteen weeks ended April 1, 2018 was primarily attributable to the following: (i) the repurchase of common stock, (ii) payment of cash dividends on our common stock, (iii) the repayment of long-term debt and (iv) repayments of partner deposits and accrued partner obligations. Net cash used in financing activities was partially offset by drawdowns on our revolving credit facility, net of repayments and proceeds from the exercise of stock options.

Net cash used in financing activities for the thirteen weeks ended March 26, 2017 was primarily attributable to the following: (i) the repurchase of common stock, (ii) payments on our revolving credit facility, net of drawdowns, (iii)

repayments on our PRP Mortgage loan, (iv) payment of cash dividends on our common stock and (v) repayments of partner deposits and accrued partner obligations. Net cash used in financing activities was partially offset by proceeds by proceeds from the sale of certain properties, which are considered financing obligations.

#### FINANCIAL CONDITION

Following is a summary of our current assets, current liabilities and working capital (deficit):

 APRIL 1, 2018
 DECEMBER 31, 2017

 Current assets
 \$271,291
 \$360,209

 Current liabilities
 667,380
 813,392

 Working capital (deficit)
 \$(396,089)
 \$ (453,183)

Working capital (deficit) includes Unearned revenue primarily from unredeemed gift cards of \$235.7 million and \$330.8 million as of April 1, 2018 and December 31, 2017, respectively. We have, and in the future may continue to have, negative working capital balances (as is common for many restaurant companies). We operate successfully with negative working capital because cash collected on restaurant sales is typically received before payment is due on our current liabilities, and our inventory turnover rates require relatively low investment in inventories. Additionally, ongoing cash flows from restaurant operations and gift card sales are used to service debt obligations and to make capital expenditures.

Deferred Compensation Programs - The deferred compensation obligation due to managing and chef partners was \$88.2 million and \$96.3 million as of April 1, 2018 and December 31, 2017, respectively. We invest in various corporate-owned life insurance policies, which are held within an irrevocable grantor or "rabbi" trust account for settlement of our obligations under the deferred compensation plans. The rabbi trust is funded through our voluntary contributions. The unfunded obligation for managing and chef partners' deferred compensation was \$28.6 million as of April 1, 2018.

We use capital to fund the deferred compensation plans and currently expect annual cash funding of \$13.0 million to \$15.0 million. Actual funding of the deferred compensation obligations and future funding requirements may vary significantly depending on the actual performance compared to targets, timing of deferred payments of partner contracts, forfeiture rates, number of partner participants, growth of partner investments and our funding strategy.

#### **DIVIDENDS AND SHARE REPURCHASES**

Dividends - In April 2018, the Board declared a quarterly cash dividend of \$0.09 per share, payable on May 18, 2018. Future dividend payments are dependent on our earnings, financial condition, capital expenditure requirements, surplus and other factors that the Board considers relevant.

Share Repurchases - On February 16, 2018, our Board canceled the remaining \$55.0 million of authorization under the 2017 Share Repurchase Program and approved a new \$150.0 million authorization. The 2018 Share Repurchase Program will expire on August 16, 2019.

Recently Issued Financial Accounting Standards

For a description of recently issued Financial Accounting Standards, see Note 1 - Description of the Business and Basis of Presentation of the Notes to the Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

#### Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from changes in interest rates, changes in foreign currency exchange rates and changes in commodity prices. We believe that there have been no material changes in our market risk since December 31, 2017. See Part II, Item 7A., "Quantitative and Qualitative Disclosures about Market Risk," in our Annual Report on Form 10-K for the year ended December 31, 2017 for further information regarding market risk.

#### Item 4. Controls and Procedures

#### Evaluation of Disclosure Controls and Procedures

We have established and maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial and Administrative Officer, as appropriate to allow timely decisions regarding required disclosure. We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial and Administrative Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial and Administrative Officer concluded that our disclosure controls and procedures were effective as of April 1, 2018.

#### Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the thirteen weeks ended April 1, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II: OTHER INFORMATION

### Item 1. Legal Proceedings

For a description of our legal proceedings, see Note 13 - Commitments and Contingencies, of the Notes to the Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

#### Item 1A. Risk Factors

In addition to the other information discussed in this report, please consider the factors described in Part I, Item 1A., "Risk Factors" in our 2017 Form 10-K which could materially affect our business, financial condition or future results. There have not been any material changes to the risk factors described in our 2017 Form 10-K, but these are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may adversely affect our business, financial condition or operating results.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no sales of equity securities during the first quarter of 2018 that were not registered under the Securities Act of 1933.

The following table provides information regarding our purchases of common stock during the thirteen weeks ended April 1, 2018:
