(Amounts in thousands, except share, per share and per tonne data)

1. BASIS OF PRESENTATION

On January 22, 2014, the Company completed a spin-off of the coal business held by Feishang Anthracite Resources Limited ("Feishang Anthracite," formerly known as Wealthy Year Limited) by the distribution of CHNR's 100% equity interest in Feishang Anthracite, on a pro rata basis to all its shareholders (the "Distribution" or "Spin-off"). On the effective date of the Distribution, the Company also completed the listing of the shares of Feishang Anthracite by introduction on the Main Board of The Stock Exchange of The Hong Kong Limited ("Hong Kong Stock Exchange") (Note 2).

An impairment loss on property, plant and equipment of CNY7.37 million (US\$1.19 million) was recorded for the six months ended June 30, 2014 in connection with the price decline of iron concentrates. The carrying value of the long-term mining related assets was compared to the recoverable amount of the CGU, which was based predominantly on the value-in-use ("VIU") approach. VIU calculations use pre-tax cash flow projections. Other key assumptions applied in the impairment tests include the production volume, expected iron price, product cost and related expenses. Management determined that these key assumptions were based on past performance and their expectations on market development. Further, the Group adopted an after-tax rate of 12.00% that reflects specific risks related to CGU as discount rates.

Forward-looking statements are not a guarantee of future performance and involve risks and uncertainties, many of which are outside of our control, and actual results may differ materially from those in the forward-looking statements. Among the risks and uncertainties that could cause our actual results to differ from our forward-looking statements are: uncertainties relating to our business operations and operating results; uncertainties regarding the governmental, economic and political environment in the People's Republic of China; uncertainties associated with metal and coal price volatility; uncertainties associated with the Company's reliance on third-party contractors and other risks detailed from time to time in the Company's filings with the Securities and Exchange Commission, including without limitation the information set forth in our Annual Report on Form 20-F under the heading "Risk Factors". While management believes that its assumptions forming the bases for forward-looking statements are reasonable, assumed facts or bases generally vary from actual results, and there can be no assurance that the expectations or beliefs expressed in forward-looking statements will be achieved or accomplished.

OVERVIEW

On January 22, 2014, the Company completed a spin-off of the coal business held by Feishang Anthracite by the distribution of CHNR's 100% equity interest in Feishang Anthracite, pro rata to all its shareholders (the "Distribution" or "Spin-off"). On the effective date of the Distribution, the Company also completed the listing of the shares of Feishang Anthracite by introduction on the Main Board of The Stock Exchange of The Hong Kong Limited ("Hong Kong Stock Exchange").

Following the Spin-Off the Company's sole operations consist of the operation of its non-ferrous metal mining operations at Yangchong Mine in the PRC. Based on production levels of iron ore for the first half of 2014, mining activity of our probable reserves for Yangchong mine is expected to continue until approximately 2016. As depletion approaches, production levels at the mine decrease from levels in prior periods. Therefore, it is expected that the Company will continue to operate at a loss unless management is able to identify new mining properties or new lines of business that are successfully integrated into the Company. While management is actively pursuing both alternatives, there is no assurance that such will occur.

SALES AND GROSS PROFIT

Sales for the six months ended June 30, 2014 totaled CNY7.90 million (US\$1.27 million), a 50.15% decrease over the same period of 2013. The decrease was mainly comprised of (i) a decrease in the sales volume of iron concentrates by 52.35% to 8,056 tonnes during the period from 16,908 tonnes for the same period of 2013 in response to the low selling price of iron concentrates; and (ii) the drop in the average selling price of iron concentrate from CNY917 (US\$148) per tonne in the six months ended June 30, 2013 to CNY851 (US\$137) in the same period in 2014, which was partially offset by an increase in the sales of sulfur concentrate to CNY1.04 million (US\$0.17 million) in the six months ended June 30, 2014 from CNY0.34 million (US\$0.05 million) in the same period in 2013.

Sales for the second quarter of 2014 totaled CNY4.68 million (US\$0.75 million), a 60.27% decrease over the same period last year. This decrease was mainly due to the decrease in the sales volume of iron concentrates by 62.00% to 4,910 tonnes during the period from 12,921 tonnes for the same period of 2013. The reasons for the change were the same as above.

The overall gross profit margin decreased from 27.56% for the six months ended June 30, 2013 to 23.65% for the same period of 2014. The drop was mainly due to a decline in the average selling price of iron concentrates. The drop in the selling prices was caused by the temporarily cyclical movement in the iron markets.

The drop in gross profit margin for the second quarter of 2014 from 32.72% to 19.62% is attributable to the same factors.

ADMINISTRATIVE EXPENSES

Administrative expenses decreased by CNY2.88 million (US\$0.46 million) or 33.80% to CNY5.64 million (US\$0.91 million) for the six months ended June 30, 2014 from CNY8.52 million (US\$1.37 million) for the same period of 2013. This decrease was mainly caused by (i) a drop in audit fees amounting to CNY1.10 million (US\$0.18 million) and (ii) a decrease of rent and rates fee amounting to CNY0.32 million (US\$0.05 million) incurred in connection with the Spin-Off to shareholders of the Company's ownership of shares in Feishang Anthracite.

Administrative expenses decreased by CNY1.73 million (US\$0.28 million) or 39.86% to CNY2.61 million (US\$0.42 million) for the second quarter of 2014 from CNY4.34 million (US\$0.70 million) for the same quarter of 2013. The decrease was attributable to the factors cited above.

IMPAIRMENT LOSS ON PROPERTY, PLANT AND EQUIPMENT

An impairment loss on property, plant and equipment of CNY7.37 million (US\$1.19 million) was recorded for the six months ended June 30, 2014 in connection with the price decline of iron concentrates in the period. We determined the recoverable value of Yangchong Mine based on the mine's value-in-use ("VIU") using pre-tax cash flow projections, adopting certain assumptions based on the mine's past performance and our expectations on market development, applying an after-tax discount rate of 12.00%.

There was no impairment loss in the same period of 2013.

INCOME TAX EXPENSE

Management believes that the Company is not subject to US taxes.

Under the current laws of the BVI, dividends and capital gains arising from the Company's investments in the BVI are not subject to income taxes and no withholding tax is imposed on payments of dividends to the Company.

The decrease in loss was mainly caused by: (i) the decrease of loss by CNY212.05 million (US\$34.18 million) from the discontinued operations for the period; and (ii) the decrease in administrative expenses amounting to CNY2.88 million (US\$0.46 million), notwithstanding: (i) the decrease in gross profits as a result of the drop in the sale price and volume of iron concentrate in the first half of 2014; and (ii) an impairment loss on property, plant and equipment of CNY7.37 million (US\$1.19 million) incurred for the six months ended June 30, 2014.

The loss for the period of the Company decreased by CNY49.54 million (US\$7.99 million) from CNY58.39 million (US\$9.41 million) for the three months ended June 30, 2013 to CNY8.85 million (US\$1.43 million) for the three months ended June 30, 2014. The decrease in loss was mainly due to (i) the decrease of loss by CNY58.16 million (US\$9.38 million) from the discontinued operations for the period; (ii) the increase in administrative expenses amounting to CNY1.73 million (US\$0.28 million), partially offset by the decrease in gross profits as a result of the drop in the sale price and volume of iron concentrate in the first half of 2014 and an impairment loss on property, plant and equipment of CNY7.37 million (US\$1.19 million) incurred for the three months ended June 30, 2014.
