UTStarcom Reports Unaudited Financial Results for Second Quarter 2018

Hong Kong, August 3, 2018— UTStarcom (“UT” or “the Company”) (NASDAQ: UTSI), a global telecommunications infrastructure provider, today reported its unaudited financial results for the second quarter ended June 30, 2018.

UTStarcom’s Chief Executive Officer Tim Ti commented, “Second quarter results met our expectations. Revenue was at the high end of guidance due to the initiation of two large projects in India. Despite a gross margin decrease from a year ago due to changes in product and geographic mix, we achieved positive operating income for the quarter. Importantly, our financial position remains strong, with over \$80 million in cash.”

Tim continued, “Innovation is our strength and we are committed to technology leadership through continuing investments in our R&D capabilities. We are excited about the opportunities presented by the worldwide transition to 5G wireless network and are positioning our product portfolio accordingly. For instance, we are an early entrant in SRv6 routing platforms, as well as offering leading synchronization and software-defined network products. Our new product offerings enable network operators to meet the challenges of the rapidly escalating network traffic generated by new trends such as internet of things and 5G mobile data.”

Business Highlights

¶ In July 2018, UT participated in the SoftBank World 2018 Exhibition and Conference in Tokyo, where the Company displayed a number of its newest products. Products displayed at the show included the next-generation SRv6-based routing platforms SkyFlux products, 5G-ready timing solution SyncRing, the SDN platform “SOO Station” and the intelligent gateway device “VBG”. In addition, the executive management team presented its view on optimal networking solutions to facilitate 5G deployment and operations

¶ In July 2018, the Company showcased a number of its cutting-edge technologies in the UT-sponsored “Network Evolution 2018 – Live Demonstration” event in Tokyo. These technologies enable networks to evolve to support 5G, IoT (“Internet of Things”) and M2M (“Machine-to-Machine”). UT’s existing, new and potential customers as well as strategic partners attended the event

¶ UT introduced its new smart commercial refrigerator “goBox” featuring a new integrated load and image sensing technology. The Company began initial commercial deployment of this new retail product in the second quarter and expects to see a significant ramp in shipment in the second half of 2018

Total Revenues

Q2 2018 total revenues were \$28.5 million, compared to \$31.5 million in the corresponding period of 2017.

Q2 2018 net equipment sales were \$24.1 million, a decrease of 7.8% from \$26.2 million in the corresponding period in 2017. The decrease was due to the initial sales of SyncRing in Q2 2017 in Japan

Q2 2018 net services sales were \$4.4 million, a decrease of 17.0% from \$5.3 million in the corresponding period in 2017. Sales decreased due to the expiration of a legacy India service contract

2

Gross Profit

Q2 2018 gross profit was \$7.5 million, or 26.2% of net sales, compared to \$8.9 million, or 28.3% of net sales, in the corresponding period in 2017.

Q2 2018 equipment gross profit was \$6.2 million, compared to \$7.5 million in the corresponding period in 2017. Q2 2018 equipment gross margin was 25.6%, compared to 28.6% for the corresponding period in 2017

Q2 2018 service gross profit was \$1.3 million, compared to \$1.4 million in the corresponding period in 2017. Q2 2018 service gross margin was 29.5%, compared to 27.2% for the corresponding period in 2017

Operating Expenses

Q2 2018 operating expenses were \$7.0 million, compared to \$7.2 million in the corresponding period in 2017.

Q2 2018 selling, general and administrative (“SG&A”) expenses were \$4.2 million, compared to \$4.9 million in the corresponding period in 2017. The higher SG&A expenses in second quarter of 2017 were mainly due to professional services expenses associate with change of auditors and the privatization which had been withdrawn in October 2017

Q2 2018 research and development expenses were \$2.8 million, compared to \$2.3 million in the corresponding period in 2017. The increase was mainly due to higher headcount, as the Company continues to hire engineering talent to address key new market opportunities

Operating Income

Q2 2018 operating income was \$0.5 million, compared to \$1.7 million in the corresponding period of 2017.

Interest Income, Net

Q2 2018 net interest income was \$0.3 million, compared to \$0.2 million in the corresponding period in 2017.

Net Income (Loss)

Q2 2018 net loss attributable to shareholders was \$0.1 million, compared to net income of \$2.4 million in the corresponding period in 2017. Q2 2018 basic net loss per share was \$0.00, compared to basic net income per share of \$0.07 for the corresponding period of 2017.

Cash Flow

In the second quarter of 2018, cash used in operating activities was \$13.7 million, cash used in investing activities was \$1.8 million, and cash used in financing activities (stock repurchases) was \$1.1 million. As of June 30, 2018, UTStarcom had cash, cash equivalent and restricted cash of \$80.5 million.

Outlook

Earnings results in the third quarter will be driven by the ongoing fulfillment of large projects in India. These projects should result in strong revenue growth, but at reduced gross margin relative to the second quarter of 2018. For the third quarter, the Company expects to generate revenue in the range of \$38 million to \$43 million.
