PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)

1. Basis of Presentation:

The unaudited consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America for interim financial information, as well as the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim financial statements have been included. Operating results for the three month period ended March 31, 2017 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2017.

For further information refer to the financial statements and footnotes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

2. Income (Loss) Per Common Share:

Basic earnings per share is calculated by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated based on the weighted average number of common shares outstanding during the period plus the effect of potentially dilutive common stock equivalents, including warrants to purchase the Company's common stock and convertible preferred stock. Management has determined that the calculation of diluted earnings per share for the quarters ended March 31, 2017 and March 31, 2016, is not applicable since any additions to outstanding shares related to common stock equivalents would be anti-dilutive.

As of March 31, 2017 and 2016, the potentially dilutive common stock equivalents not included in the calculation of diluted earnings per share as their effect would have been anti-dilutive are as follows:

	March 31, 2017	March 31, 2016
Warrants	250,000	250,000
Convertible preferred stock	1,751,005	1,751,005
Total possible dilution	2,001,005	2,001,005

PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries

Notes to Consolidated Financial Statements (Unaudited), Continued:

3.

Inventories:

Inventories at March 31, 2017 and December 31, 2016 consisted primarily of finished antimony products, antimony metal, antimony ore, and finished zeolite products that are stated at the lower of first-in, first-out cost or estimated net realizable value. Finished antimony products, antimony metal and finished zeolite products costs include raw materials, direct labor and processing facility overhead costs and freight. Inventory at March 31, 2017 and December 31, 2016, is as follows:

	March 31,	December 31,
	2017	2016
Antimony Metal	\$235,741	\$112,300
Antimony Oxide	252,553	326,126
Antimony Concentrates	28,317	30,815
Antimony Ore	172,347	181,815
Total antimony	688,958	651,056
Zeolite	222,065	204,581
	\$911,023	\$855,637

4.

Accounts Receivable and Due to Factor:

The Company factors designated trade receivables pursuant to a factoring agreement with LSQ Funding Group L.C., an unrelated factor (the "Factor"). The agreement specifies that eligible trade receivables are factored with recourse. We submit selected trade receivables to the factor, and receive 83% of the face value of the receivable by wire transfer. The Factor withholds 15% as retainage, and 2% as a servicing fee. Upon payment by the customer, we receive the remainder of the amount due from the factor. The 2% servicing fee is recorded on the consolidated statement of operations in the period of sale to the factor. John Lawrence, CEO, is a personal guarantor of the amount due to Factor.

Trade receivables assigned to the Factor are carried at the original invoice amount less an estimate made for doubtful accounts. Under the terms of the recourse provision, the Company is required to reimburse the Factor, upon demand, for factored receivables that are not paid on time. Accordingly, these receivables are accounted for as a secured financing arrangement and not as a sale of financial assets. The allowance for doubtful accounts is based on management's regular evaluation of individual customer's receivables and consideration of a customer's financial condition and credit history. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. Interest is not charged on past due accounts.

We present the receivables, net of allowances, as current assets and we present the amount potentially due to the Factor as a secured financing in current liabilities.

Accounts Receivable	March 31, December 31, 2017 2016	
Accounts receivable - non factored	\$408,369	\$401,720
Accounts receivable - factored with recourse	146,011	150,399
Accounts receivable - net	\$554,380	\$552,119

PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:

5.
Commitments and Contingencies:

In June of 2013, the Company entered into a lease to mine antimony ore from concessions located in the Wadley Mining district in Mexico. The lease calls for a mandatory term of one year and, and as of March 31, 2017, requires payments of \$10,000 plus a tax of \$1,700, per month. The lease is renewable each year with a 15 day notice to the lessor, and agreement of terms. The next lease is scheduled for renewal in June 2017.

6. Notes Payable to Bank:

At March 31, 2017 and December 31, 2016, the Company had the following notes payable to the bank:

	March 31,	December 31,
	2017	2016
Promissory note payable to First Security Bank of Missoula,		
bearing interest at 5.0%, maturing February 27, 2018,		
payable on demand, collateralized by a lien on Certificate of		
Deposit number 48614	\$83,303	\$76,350
Promissory note payable to First Security Bank of Missoula,		
bearing interest at 5.0%, maturing February 27, 2018,		
payable on demand, collateralized by a lien on Certificate of		
Deposit number 48615	99,999	90,967
Total notes payable to bank	\$183,302	\$167,317

These notes are personally guaranteed by John C. Lawrence the Company's President and Chairman of the Board of Directors. The maximum amount available for borrowing under each note is \$99,999.

2020	275,467
2021	172,936
2022	108,312
Thereafter	571,104
	\$1,834,308

PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:

8. Hillgrove Advances Payable

On November 7, 2014, the Company entered into a loan and processing agreement with Hillgrove Mines Pty Ltd of Australia (Hillgrove) by which Hillgrove will advance the Company funds to be used to expand their smelter in Madero, Mexico, and in Thompson Falls, Montana, so that they may process antimony and gold concentrates produced by Hillgrove's mine in Australia. The agreement requires that the Company construct equipment so that it can process approximately 200 metric tons of concentrate initially shipped by Hillgrove, with a provision so that the Company may expand to process more than that. The parties agreed that the equipment will be owned by USAC and USAMSA. The final terms of when the repayment takes place have not yet been agreed on. The agreement called for the Company to sell the final product for Hillgrove, and Hillgrove to have approval rights of the customers for their products. The agreement allows the Company to recover its operating costs as approved by Hillgrove, and to charge a 7.5% processing fee and a 2.0% sales commission. The initial term of the agreement is five years; however, Hillgrove may suspend or terminate the agreement at its discretion. The Company may terminate the agreement and begin using the furnaces for their own production if Hillgrove fails to recommence shipments within 365 days of a suspension notice. At March 31, 2017, the net amount due to Hillgrove for advances was \$1,134,216. As of March 31, 2107, repayment of the advances is not expected to occur within the next twelve months so the balance is classified as a long term liability.

9. Concentrations of Risk:

Sales to Three	For the Period Ended	
Largest Customers	March 31, 2017	March 31, 2016
Kohler Corporation	\$445,178	\$432,283

% of Total Receivables	56.50%	48.00%

PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:

10. Related Party Transactions:

During the three months ended March 31, 2017 and 2016, the Chairman of the audit committee and compensation committee received \$4,500 and \$9,000, respectively, for services performed. See Note 12 for shares of common stock issued to directors.

During the three months ended March 31, 2017 and 2016, the Company paid \$2,480 and \$13,710, respectively, to John Lawrence, our President and Chief Executive Officer, as reimbursement for equipment used by the Company.

11. Income Taxes:

During the quarter ended March 31, 2017, and the year ended December 31, 2016, the Company determined that a valuation allowance equal to 100% of any deferred tax asset was appropriate, as management of the Company cannot determine that it is more likely than not the Company will realize the benefit of a net deferred tax asset. The net effect is that the deferred tax asset as of December 31, 2016, and any deferred tax assets that may have been incurred since then, are fully reserved for at March 31, 2017.

Management estimates the effective tax rate at 0% for the current year.

In 2015, the Mexican tax authority ("SAT") initiated an audit of the USAMSA's 2013 income tax return. In October 2016, as a result of its audit, SAT assessed the Company \$13.8 million pesos, which is approximately \$666,400 in U.S. Dollars ("USD") as of December 31, 2016. Approximately \$285,000 USD of the total assessment is interest and penalties. SAT's assessment is based on the disallowance of specific costs that the Company deducted on the 2013 USAMSA income tax return. These disallowed costs were incurred by the Company for USAMSA's business operations. SAT claims that the costs were not deductible or were not supported by appropriate documentation. At March 31, 2017, the assessed amount is \$737,000 in U.S. dollars.

Management has reviewed the assessment notice from SAT and believes numerous findings have no merit. The Company has engaged accountants and tax attorneys in Mexico to defend its position. An appeal has been filed which is expected to be completed during 2017.

At December 31, 2016, management has estimated possible outcomes for this assessment and believes it will ultimately pay an amount ranging from 30% of the total assessment to the total assessed amount. The Company's agreement with the tax professionals is that the professionals will receive 30% of the amount of tax relief they are able to achieve.

At December 31, 2016, we accrued a potential liability of \$410,510 USD of which \$259,490 is for unpaid income taxes, \$75,510 is for interest expense, and \$49,952 is for penalties. The amount accrued represents management's best estimate of the amount that will ultimately be paid. The outcome could vary from this estimate. At March 31, 2017, the Company recognized a \$41,151 increase due to the change in exchange rate. Fluctuation in exchange rates has an ongoing impact on the amount the Company will pay in U.S. dollars.

If an issue addressed during the SAT audit is resolved in a manner inconsistent with management expectations, the Company will adjust its net operating loss carryforward, or accrue any additional penalties, interest, and tax associated

with the audit. Our tax professionals in Mexico have reviewed and filed tax returns with the SAT for 2014 and 2015, and have advised us that they do not expect us to have a tax liability for those years relating to similar issues.

PART I - FINANCIAL INFORMATION, CONTINUED:

United States Antimony Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited), Continued:

12. Stockholder's Equity:

Issuance of Common Stock for Payable to Board of Directors

During the quarter ended March 31, 2016, the Board of Directors was issued a total of 550,000 shares of common stock for \$137,500 in directors' fees that were payable at December 31, 2015. In addition during the quarter, the Company accrued \$37,500 in directors' fees payable that will be paid in common stock.

During the quarter ended March 31, 2017, the Board of Directors was issued a total of 421,875 shares of common stock for \$168,750 in directors' fees that were payable at December 31, 2016. In addition during the quarter, the Company accrued \$43,750 in directors' fees payable that will be paid in common stock.

13. Business Segments:

The Company is currently organized and managed by four segments, which represent our operating units: United States antimony operations, Mexican antimony operations, precious metals recovery and United States zeolite operations.

The Madero smelter and Puerto Blanco mill at the Company's Mexico operation brings antimony up to an intermediate stage, which may be sold directly or shipped to the United States operation for finishing and sales at the Thompson Falls, Montana plant. The precious metals recovery plant is operated in conjunction with the antimony processing plant at Thompson Falls, Montana. The Zeolite operation produces Zeolite near Preston, Idaho. Almost all of the sales of products from the United States antimony and Zeolite operations are to customers in the United States.

Disclosure of the activity relating to our precious metals recovery requires that it be reported as a separate business segment. The prior period comparative information has been reclassified to reflect this change.

Segment disclosure regarding sales to major customers is located in Note 9.

Management's Discussion and Analysis of Results of Operations and Financial Condition

General

Certain matters discussed are forward-looking statements that involve risks and uncertainties, including the impact of antimony prices and production volatility, changing market conditions and the regulatory environment and other risks. Actual results may differ materially from those projected. These forward-looking statements represent our judgment as of the date of this filing. We disclaim, however, any intent or obligation to update these forward-looking statements.

PART I - FINANCIAL INFORMATION, CONTINUED:

ITEM 2.

Management's Discussion and Analysis of Results of Operations and Financial Condition, continued:

The Mexico non-production costs for the three months ending March 31, 2017, are primarily due to holding costs from inactivity at the Los Juarez, Guadalupe, and Soyatal mines and the Puerto Blanco mill, as well as the foreign exchange loss on the outstanding tax liability in Mexico. The loss of production at the Madero smelter from transitioning to Mexican raw material due to the closing of the Hillgrove mine in Australia and the subsequent loss of Hillgrove raw material contributed to non-production costs during the first quarter of 2017.

Company-Wide

For the first quarter of 2017, we recognized a net loss of \$391,303 on sales of \$2,619,330, compared to a net loss of \$188,640 in the first quarter of 2016 on sales of \$3,322,203. The loss in the first quarter of 2017 was primarily due to the loss of raw material from Hillgrove Mines of Australia. We also recognized approximately \$124,732 of settlement costs related to our precious metals production during the first quarter of 2017. Hillgrove Mines has given us permission to use the LRF and other furnaces built for their use for our own production.

For the first quarter of 2017, EBITDA was a negative \$175,628 compared to a positive EBITDA of \$72,510 for the same period of 2016.

For the first quarter of 2017, the non-production general and administrative expenses were \$412,317 compared to \$365,881 for the same period of 2016.

Antimony

We began the mining and processing of ore from our own Mexican mines during Q1 of 2017 and although it had produced 132,184 pounds, only 88,184 pounds were sold. Producing from our own Mexican mines will allow the Company to benefit from 100% of the price increases rather than a processing fee and a small percent of the price increases.

The average sales price of antimony during Q1 2017 was \$3.63 per pound compared to \$2.76 during the same period in 2016. Unfortunately, we realized only a small part of the price increase because we were selling approximately three months ahead. We are no longer taking orders this far in advance.

The metallurgical problems with the Los Juarez ore have been solved, and we are processing the ore presently in inventory. As soon as we are permitted, we will complete construction of our leach circuit at the Puerto Blanco mill if it is needed.

In response to the loss of the raw material supply from Australia, we are implementing the following actions:

At the Wadley mine, production is being increased with more miners. The use of pneumatic hammers is planned in lieu of explosives.

At the Soyatal mine, we have begun the direct shipping of high grade ore from the mine directly to the Madero smelter.

PART I - FINANCIAL INFORMATION, CONTINUED:

ITEM 2.

Management's Discussion and Analysis of Results of Operations and Financial Condition, continued:

Precious Metals

The caustic leach of flotation concentrates from Los Juarez was successful, and the sequential pilot production of the Los Juarez gold, silver, and antimony project has commenced at an initial rate of 400 metric tons per month. Assuming that the pilot testing of Los Juarez is economic, the production will be ramped up to 2,000 metric tons per month. In addition, a cyanide leach circuit to increase the recoveries of precious metals from mill tailings and the completion of a 400 ton capacity mill at Puerto Blanco will be considered.

Precious Metals Sales

Silver/Gold

Montana	2014	2015	2016	2017
Ounces Gold Shipped (Au)	64.77	89.12	108.10	24.60

Ounces Gold Shipped (Au)			496.65	57.25
Revenues - Gross			\$597,309	\$53,971
Revenues to Hillgrove			(481,088)	(166,666)
Revenues to USAC			\$116,221	\$(112,695)
Total Revenues	\$461,083	\$491,426	\$672,871	\$20,811

Bear River Zeolite (BRZ)

During Q1 2017, BRZ sold 3,353 tons of zeolite compared to 3,097 tons in the same period of 2016, up 256 tons or 8.3%.

BRZ realized a profit of \$86,205 in Q1 of 2017, compared to \$29,802 in 2016. The increase in our profit from our zeolite operations was \$56,403 (189%).

BRZ realized an EBITDA for Q1 2017 of \$136,205 compared to \$86,802 for the same period in 2016, an increase of \$49,403 (56.9%).

Our new sales program for zeolite products has two field representatives and a research person that prepares sales brochures and literature. At this time this effort is adding new customers.

ITEM 2.

Management's Discussion and Analysis of Results of Operations and Financial Condition, continued:

Financial Position

Financial Condition and Liquidity	March 31,	March 31,
	2017	2016
Current Assets	\$1,733,777	\$2,326,089
Current liabilities	(3,754,101)	(2,948,379)
Net Working Capital	\$(2,020,324)	\$(622,290)
Cash provided (used) by operations	\$143,613	\$252,476
Cash used for capital outlay	(79,599)	(245,702)
Cash provided (used) by financing:		
Net proceeds (payments to) factor	(4,388)	84,083
Proceeds from notes payable to bank	15,985	-
Change in check issued and payable	(21,519)	-
Payment of notes payable to bank	-	(44,912)
Principal paid on long-term debt	(53,020)	(41,824)
Net change in cash	\$1,072	\$4,121

Our net working capital decreased by approximately \$331,000 from December 31, 2016. Our cash increased by approximately \$1,000 during the same period. The decrease in our net working capital was primarily due to an increase of approximately \$325,000 in accounts payable, and expenditures of approximately \$80,000 for capital outlay. An increase in inventory of approximately \$55,000 and decreases in our current liabilities increased our working capital. We have estimated commitments for construction and improvements, including \$50,000 to finish building and installing precious metals leach circuits. We believe that with our current cash balance, along with the future cash flow from operations, we have adequate liquid assets to meet these commitments and service our debt for the next twelve months. We have lines of credit of \$202,000 which have been drawn down by \$183,302 at March 31, 2017.

ITEM 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, as appropriate, to allow timely decisions regarding required disclosure. Our chief financial officer conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of March 31, 2017. It was determined that there were material weaknesses affecting our disclosure controls and procedures and, as a result of those weaknesses, our disclosure controls and procedures were not effective as of March 31, 2017. These material weaknesses are as follows:

Inadequate design of internal control over the preparation of the financial statements and financial reporting processes;

Inadequate monitoring of internal controls over significant accounts and processes including controls associated with domestic and Mexican subsidiary operations and the period-end financial reporting process; and

The absence of proper segregation of duties within significant processes and ineffective controls over management oversight, including antifraud programs and controls.

We are aware of these material weaknesses and will develop procedures to ensure that independent review of material transactions is performed. The chief financial officer will develop internal control measures to mitigate the lack of inadequate documentation of controls and the monitoring of internal controls over significant accounts and processes including controls associated with the period-ending reporting processes, and to mitigate the segregation of duties within significant accounts and processes and the absence of controls over management oversight, including antifraud programs and controls.

We plan to consult with independent experts when complex transactions are entered into.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no significant changes made to internal controls over financial reporting for the quarter ended March 31, 2017.

PART II - OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

None

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS
