The NDS Products are distributed principally through franchised General Nutrition Centers, Inc. NOTE 2 - BASIS OF PRESENTATION

The accompanying interim condensed unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In our opinion, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation are included. Operating results for the three and six month period ended June 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. While management of the Company believes the disclosures presented herein are adequate and not misleading, these interim condensed consolidated financial statements should be read in conjunction with the audited condensed consolidated financial statements and the footnotes thereto for the fiscal year ended December 31, 2016 as filed with the Securities and Exchange Commission as an exhibit to our Annual Report on Form 10-K.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States of America. Significant accounting policies are as follows:

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and NDS Nutrition Products, Inc. Intercompany accounts and transactions have been eliminated in the consolidated condensed financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities, (ii) the disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and (iii) the reported amount of net sales and expenses recognized during the periods presented. Adjustments made with respect to the use of estimates often relate to improved information not previously available. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of financial statements; accordingly, actual results could differ from these estimates.

These estimates and assumptions also affect the reported amounts of revenues, costs and expenses during the reporting period. Management evaluates these estimates and assumptions on a regular basis. Actual results could differ from those estimates.

Table of Contents

Impairment of Long-Lived Assets

The Company had goodwill and intangible assets with a carrying value of $4,422,448 and $1,875,495, respectively, as of the quarter ended June 30, 2017. In accordance with ASC Topic 350 – Goodwill and Other Intangible Assets, the Company assesses the carrying value of such intangible assets for impairment on a periodic basis and records an impairment charge if the carrying value of such intangible assets exceeds the estimated fair value of the reporting unit, which in this case is the Company. The Company performed its annual goodwill impairment test as of December 31, 2016, which did not indicate the existence of an impairment at that time. While the fiscal year-to-date financial performance have not met our expectations, and the enterprise value of the Company based on current price of the stock the Company may fluctuate at or near the recorded levels of goodwill and indefinite-lived intangible assets, Management does not consider these results to be a triggering event requiring the performance of an interim goodwill impairment test. The Company will continue to monitor its operating results for indicators of impairment and perform additional tests as necessary. The Company's fiscal 2017 annual impairment test will be performed as of December 31, 2017, which could result in an impairment charge to goodwill depending on the Company's finalized forecast for fiscal 2018 and other market conditions

Customer Concentration

Gross sales prior to reduction for vendor funded discounts and coupons to GNC during the period ended June 30, 2017 and 2016 were approximately $11,235,892 and $14,844,691, respectively representing 81.9% and 82.8% of total revenue respectively. Accounts receivable attributable to GNC as of June 30, 2017 and June 30, 2016 were approximately $3,115,274 and $5,489,253, respectively representing 84.7% and 86.0% of the Company's total accounts receivable balance, respectively.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers. ASU 2014-09 is a comprehensive revenue recognition standard that will supersede nearly all existing revenue recognition guidance under current U.S. GAAP and replace it with a principle based approach for determining revenue recognition. Under ASU 2014-09, revenue is recognized when a customer obtains control of promised goods or services and is recognized in an amount that reflects the consideration which the entity expects to receive in exchange for those goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The FASB has recently issued ASU 2016-08, ASU 2016-10, ASU 2016-11, ASU 2016-12, ASU 2016-20, and ASU 2017-05, all of which clarify certain implementation guidance within ASU 2014-09. ASU 2014-09 is effective for interim and annual periods beginning after December 15, 2017. Early adoption is permitted only in annual reporting periods beginning after December 15, 2016, including interim periods therein. The standard can be adopted either retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (the cumulative catch-up transition method). The Company is currently in the process of analyzing the information necessary to determine the impact of adopting this new guidance on its financial position, results of operations, and cash flows.

In February 2016, the FASB issued ASU No. 2016-02, Leases. This update will require the recognition of a right-of-use asset and a corresponding lease liability, initially measured at the present value of the lease payments, for all leases with terms longer than 12 months. For operating leases, the asset and liability will be expensed over the lease term on a straight-line basis, with all cash flows included in the operating section of the statement of cash flows. For finance leases, interest on the lease liability will be recognized separately from the amortization of the right-of-use

asset in the statement of comprehensive income and the repayment of the principal portion of the lease liability will be classified as a financing activity while the interest component will be included in the operating section of the statement of cash flows. ASU 2016-02 is effective for annual and interim reporting periods beginning after December 15, 2018. Early adoption is permitted. Upon adoption, leases will be recognized and measured at the beginning of the earliest period presented using a modified retrospective approach. The Company is currently evaluating the impact of the adoption of ASU 2016-02 on its financial statements and related disclosures.

Other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future financial statements.

Table of Contents

NOTE 7 - NET INCOME / (LOSS) PER SHARE

Basic net income per share is calculated by dividing the net income attributable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted net income per share also includes the weighted average number of outstanding warrants and options in the denominator. In the event of a loss, the diluted loss per share is the same as basic loss per share. Because of the net loss, the weighted average number of diluted shares of common stock outstanding for the three and six months ended June 30, 2017 did not include 60,620 shares of common stock issuable upon the exercise of outstanding common stock purchase warrants, and 899,375 shares of common stock issuable upon the exercise of outstanding options to purchase common stock due to its anti-dilutive effect. The following table represents the computation of basic and diluted income and (losses) per share for the three and six months ended June 30, 2017 and 2016.

	June 30, 2017	June 30, 2016
Income / (Losses) available for common shareholders	$(551,559)	$1,079,036
Basic weighted average common shares outstanding	10,470,158	10,408,264
Basic income / (loss) per share	$(0.05)	$0.10
Diluted weighted average common shares outstanding	10,470,158	11,520,541
Diluted income / (loss) per share	$(0.05)	$0.09

Private Placements, Other Issuances and Cancellations

The Company periodically issues shares of its common stock, as well as options and warrants to purchase shares of common stock to investors in connection with private placement transactions, and to advisors, consultants and employees for the fair value of services rendered. Absent an arm's length transaction with an independent third-party, the value of any such issued shares is based on the trading value of the stock at the date on which such transactions or agreements are consummated. The Company expenses the fair value of all such issuances in the period incurred, with the exception of options that are subject to vesting which are expensed ratably on a monthly basis over the life of the vesting period. During the quarter ended June 30, 2017, the Company issued 63,003 shares of common stock subscribed for services rendered by directors that elected to take their board fees in shares of common stock in lieu of cash payment and recorded an expense of $35,000 for the fair value of services rendered. The common shares were valued at the date of issuances.

NOTE 9 – INCOME TAXES

No federal tax provision has been provided for the period ended June 30, 2017 due to the loss incurred during such periods. A provision for $114,000 was provided for the period ended June 30, 2016 based on the Company's net income for the period and projected annual effective tax rate.

NOTE 10 – SUBSEQUENT EVENTS

The Company's revolving line of credit from U.S. Bank, dated April 9, 2009, as amended July 15, 2010, May 25, 2011, August 22, 2012, April 29, 2013, May 22, 2014, June 25, 2014, May 15, 2015 and August 15, 2016, matured on June 15, 2017. However, U.S. Bank agreed to extend the maturity date of the line of credit for an additional 60 days to August 15, 2017. As of August 21, 2017, a condition of default exists under the line of credit. Although no assurances can be given, management is currently negotiating with U.S. Bank to extend the line of credit through December 15, 2017, and avoid an event of default. The line of credit is secured by substantially all the assets of the Company (see Note 6).

In accordance with the Subsequent Events Topic of the FASB ASC 855, we have evaluated subsequent events through the filing date and noted that no additional subsequent events exist that are reasonably likely to impact the financial statements.

Management will elect additional changes to revenue recognition to comply with the most conservative SEC recognition on a forward going accrual basis as the model is replicated with other similar markets. The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth therein.

Forward-looking statements involve risks, uncertainties and other factors, which may cause our actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Factors and risks that could affect our results and achievements and cause them to materially differ from those contained in the forward-looking statements include those identified in the section titled "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, as well as other factors that we are currently unable to identify or quantify, but that may exist in the future.

In addition, the foregoing factors may affect generally our business, results of operations and financial position. Forward-looking statements speak only as of the date the statement was made. We do not undertake and specifically decline any obligation to update any forward-looking statements.

Results of Operations

Comparison of Three and Six Months Ended June 30, 2017 to the Three and Six Months Ended June 30, 2016

Net Sales. Revenue for the three months ended June 30, 2017 decreased 42.0% to $5,022,338 as compared to $8,662,760 for the three months ended June 30, 2016. Revenue for the six months ended June 30, 2016 decreased 34.8% to $10,611,693 as compared to $16,274,989 for the six months ended June 30, 2016. Revenue for the six months ended June 30, 2017 included a one-time non-recurring adjustment of $700,000 related to a margin support credit memorandum entered into between the Company and GNC in April 2017.

Revenue for the three months ended June 30, 2017 for the Company's NDS Nutrition division decreased 40.0% to $3,594,507 as compared to $5,993,166 for the three months ended June 30, 2016. The decrease in total revenue attributable to NDS products is principally attributable to the impact of convention revenue during the second quarter in 2016 and the Company's election not to attend the convention in 2017 as well as efforts of the Company's largest distribution partner to reduce average existing inventory levels to fulfill product demand in the short term, which resulted in an unprecedented divergence of wholesale purchases compared to product movement at retail. Revenue attributable to the Company's iSatori operating division was $1,427,831 during the quarter ended June 30, 2017 compared to $2,669,595 for the three months ended June 30, 2016. The decrease in total revenue attributable to iSatori products in the three months ended June 30, 2017 compared to the comparable period last year is attributable to several factors, principally to fewer new product introductions during the period as compared to the prior year and the restructuring and reorganization at iSatori's largest third-party distributor. The impact of both are expected to stabilize in the coming quarters and management anticipates that it will continue to benefit from new product introductions going forward as a key element of its strategic growth plan for both iSatori and NDS.

Table of Contents

Cost of Goods Sold. Cost of goods sold for the three months ended June 30, 2017 decreased to $3,499,120 as compared to $4,851,166 for the three months ended June 30, 2016. The decrease during the three-month period is principally attributable to lower sales in the period. Cost of goods sold for the six months ended June 30, 2017 decreased to $7,167,910 as compared to $9,115,857 for the six months ended June 30, 2016. The decrease during the six-month period is principally attributable to lower sales in the period. Notwithstanding the decrease, cost of goods sold was negatively impacted during the second quarter ended June 30, 2017 by an unusually large amount of inventory write-offs totaling approximately $376,000, of which $276,000 related to the write off of all remaining inventory with picamilion.

General and Administrative Expense. General and administrative expense for the three months ended June 30, 2017 decreased to $1,009,934 as compared to $1,356,464 for the three months ended June 30, 2016. The decrease in general and administrative expense for the three months ended June 30, 2017 is principally attributable to ongoing cost reduction initiatives as well as the continued integration efforts at the iSatori division which resulted in a lower headcount. General and administrative expense for the six months ended June 30, 2017 decreased to $2,170,003 as compared to $2,745,671 for the six months ended June 30, 2016. The decrease in general and administrative expense for the six months ended June 30, 2017 is similarly attributable to ongoing cost reduction initiatives and cost savings resulting from the integration of iSatori.

Selling and Marketing Expense. Selling and marketing expense for the three months ended June 30, 2017 decreased to $913,371 as compared to $1,111,129 for the three months ended June 30, 2016. Selling and marketing expense for the six months ended June 30, 2017 decreased to $1,860,758 as compared to $2,026,687 for the six months ended June 30, 2016. The decrease in selling and marketing expense for the three and six and month periods ended June 30, 2017 is principally the result of budgetary controls and efficiencies gained through the acquisition of iSatori.

Depreciation and Amortization. Depreciation and amortization for the three months ended June 30, 2017 decreased to $117,312 as compared to $125,995 for the three months ended June 30, 2016. Depreciation and amortization for the six months ended June 30, 2017 decreased to $236,650 as compared to $250,751 for the six months ended June 30, 2016.

Net Income/(Loss). We generated a net loss of $(551,559) for the three-month period ended June 30, 2017 as compared to a net income of $1,079,036 for the three months ended June 30, 2016. The decrease in net income for the three-month period ended June 30, 2017 compared to the comparable period last year is principally attributable to lower sales volumes due to a variety of factors discussed above and write-off activity. We generated a net loss of $(884,449) for the six-month period ended June 30, 2017 as compared to a net income of $1,893,190 for the six months ended June 30, 2016, which was principally attributable to a one-time non-recurring adjustment of $700,000 related to a margin support credit memorandum entered into between the Company and GNC in April 2017, lower sales volumes, increased write-off activity and the decision to not participate in 2017 annual franchise convention.

Liquidity and Capital Resources

The Company has historically financed its operations primarily through equity and debt financings, and more recently, cash flow from operations. The Company has also provided for its cash needs by issuing common stock, options and warrants for certain operating costs, including consulting and professional fees. The anticipated cash derived from operations and existing cash resources are expected to provide for the Company’s liquidity for the next 12 months.

Cash Provided by Operations. Our cash provided by operating activities for the six months ended June 30, 2017 was $418,100, as compared to cash provided by operating activities of $176,610 for the six months ended June 30, 2016. The increase is primarily attributable to variations in certain working capital accounts consistent with normal business

practices and outcomes. Net working capital decreased to $2,660,220 as of the quarter ended June 30, 2017 compared to $5,059,096 as of June 30, 2016.

Cash Used in Investing Activities. Cash used in investing activities for the six months ended June 30, 2017 was $(4,888) as compared to $(19,592) used in investing activities for the six months ended June 30, 2016.

Cash Provided by (Used in) Financing Activities. Our cash used in financing activities for the six months ended June 30, 2017 was $(275,879), as compared to cash provided by financing activities of $250,548 during the six months ended June 30, 2016. The primary difference was that we drew down $520,000 during the six months ended June 30, 2016 from our existing line of credit with U.S. Bank and made no draw downs on the line of credit during the six months ended June 30, 2017. The line of credit matured on June 15, 2017; however, U.S. Bank has agreed to extend the maturity date of the line of credit for an additional 60 days to August 15, 2017. The line of credit is secured by substantially the assets of the Company. During the 60-day period in which U.S. Bank has extended the maturity date of the line of credit, U.S. Bank is conducting an audit of the Company's assets securing the line of credit. We expect to pay back all amounts borrowed under the line of credit, as well as any outstanding principal under the Company's existing term loan with U.S. Bank as soon as practicable.

Goodwill and Indefinite-Lived Intangible Assets

The Company had goodwill and indefinite-lived intangible assets with a carrying value of $4,422,448 and $1,875,495, respectively, as of the quarter ended June 30, 2017. In accordance with ASC Topic 350 – Goodwill and Other Intangible Assets, in lieu of amortizing such amounts the Company assesses the carrying value of such intangible assets for impairment on a periodic basis and records an impairment charge if the carrying value of such intangible assets exceeds the estimated fair value of the reporting unit, which in this case is the Company. The Company performed its annual goodwill impairment test as of December 31, 2016, which did not indicate the existence of an impairment at that time. While the fiscal year-to-date financial performance has not met our expectations, and the enterprise value of the Company based on current price of the stock the Company may fluctuate at or near the recorded levels of goodwill and indefinite-lived intangible assets, Management does not consider these results to be a triggering event requiring the performance of an interim goodwill impairment test. The Company will continue to monitor its operating results for indicators of impairment and perform additional tests as necessary. The Company's fiscal 2017 annual impairment test will be performed as of December 31, 2017, which could result in an impairment charge to goodwill depending on the Company’s finalized forecast for fiscal 2018 and other market conditions.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our business is currently conducted principally in the United States. As a result, our financial results are not affected by factors such as changes in foreign currency exchange rates or economic conditions in foreign markets. We do not engage in hedging transactions to reduce our exposure to changes in currency exchange rates, although as the geographical scope of our business broadens, we may do so in the future.

Our exposure to risk for changes in interest rates relates primarily to our investments in short-term financial instruments. Investments in both fixed rate and floating rate interest earning instruments carry some interest rate risk. The fair value of fixed rate securities may fall due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall. Partly as a result of this, our future interest income may fall short of expectations due to changes in interest rates or we may suffer losses in principal if we are forced to sell securities that have fallen in estimated fair value due to changes in interest rates. However, as substantially all of our cash equivalents consist of bank deposits and short-term money market instruments, we do not expect any material change with respect to our net income as a result of an interest rate change.

We do not hold any derivative instruments and do not engage in any hedging activities.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Our disclosure controls and procedures were designed to provide reasonable assurance that the controls and procedures would meet their objectives. As required by SEC Rule 13a-15(b), our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

Our Chief Executive Officer and Chief Financial Officer are responsible for establishing and maintaining adequate internal control over our financial reporting. In order to evaluate the effectiveness of internal control over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act, management has conducted an assessment, including testing, using the criteria in Internal Control — Integrated Framework, issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Our system of internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Management has used the framework set forth in the report entitled Internal Control-Integrated Framework published by the COSO to evaluate the effectiveness of our internal control over financial reporting. Based on this assessment, our Chief Executive Officer and Chief Financial Officer have concluded that our internal control over financial reporting was effective as of June 30, 2017. This Quarterly Report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Our internal control over financial reporting was not subject to attestation by our independent registered public accounting firm pursuant to temporary rules of the SEC that permit us to provide only management's report in this Quarterly Report. There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

(b) Changes in Internal Controls Over Financial Reporting

There have been no changes in our internal controls over financial reporting or in other factors that could materially affect, or are reasonably likely to affect, our internal controls over financial reporting during the quarter ended June 30, 2017. There have not been any significant changes in the Company's critical accounting policies identified since the Company filed its Annual Report on Form 10-K as of December 31, 2016.

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On December 31, 2014, various plaintiffs, individually and on behalf of a purported nationwide and sub-class of purchasers, filed a lawsuit in the U.S. District Court for the Northern District of California, captioned Ryan et al. v. Gencor Nutrients, Inc. et al., Case No.: 4:14-CV-05682. The lawsuit includes claims made against the manufacturer and various producers and sellers of products containing a nutritional supplement known as Testofen, which is manufactured and sold by Gencor Nutrients, Inc. ("Gencor"). Specifically, the Ryan plaintiffs allege that various defendants have manufactured, marketed and/or sold Testofen, or nutritional supplements containing Testofen, and in doing so represented to the public that Testofen had been clinically proven to increase free testosterone levels. According to the plaintiffs, those claims are false and/or not statistically proven. Plaintiffs seek relief under violations of the Racketeering Influenced Corrupt Organizations Act, breach of express and implied warranties, and violations of unfair trade practices in violation of California, Pennsylvania, and Arizona law. NDS utilizes Testofen in a limited number of nutritional supplements it manufactures and sells pursuant to a license agreement with Gencor.

On February 19, 2015 this matter was transferred to the Central District of California to the Honorable Manuel Real. Judge Real had previously issued an order dismissing a previously filed but similar lawsuit that had been filed by the same lawyer who represents the plaintiffs in the Ryan matter. The United States Court of Appeals recently reversed part of the dismissal issued by Judge Real and remanded the case back down to the district court for further proceedings. As a result, the parties in the Ryan matter recently issued a joint status report and that matter is again active.

On February 28, 2017, Kevin Fahey, through his attorney, and on behalf of himself and the citizens of the District of Columbia, file a Complaint in the Superior Court of the District of Columbia Civil Division captioned Fahey vs. BioGenetic Laboratories, Inc, et al, case No.2017 CA 001240. The Complaint was filed against BioGenetics, a division of the Company, and various General Nutrition Center ("GNC") entities. Fahey asserts in his Complaint that the labeling and marketing materials of the product HCG Activator are fraudulent, false and misleading with respect to certain weight loss and hunger suppression claims. Fahey claims these actions violate the District of Columbia Consumer Protection Procedures Act Section 28-3901 et seq., and has asked the court for direct treble damages, punitive damages, disgorgement of profits, attorneys' fees and injunctive relief. This matter was resolved and the lawsuit was dismissed June 27, 2017. The resolution did not have a material impact on the Company, its financial condition or results from operations.

We are currently not involved in any litigation except noted above that we believe could have a material adverse effect on our financial condition or results of operations. Other than described above, there is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of the Company or any of its subsidiaries, threatened against or affecting the Company, our common stock, any of our subsidiaries or of the Company's or our subsidiaries' officers or

directors in their capacities as such, in which an adverse decision could have a material adverse effect.

During the quarter ended June 30, 2017, the Company did not repurchase any shares of its common stock. Additional purchases under the Repurchase Program may be made from time to time at the discretion of management as market conditions warrant and subject to certain regulatory restrictions and other considerations.
