Northern Trust Building

Chicago, Illinois 60675

April 30, 2010

Dear fellow stockholder:

On behalf of the board of directors (Board), you are cordially invited to attend the 2010 Caterpillar Inc. annual meeting of stockholders (Annual Meeting) to:

	§	Elect directors;
§		Ratify our Independent Registered Public Accounting Firm;
	§	Act on Company proposals;
§		Act on properly presented stockholder proposals; and
§		Conduct any other business properly brought before the meeting.

We have elected to furnish proxy materials for the Annual Meeting to stockholders via the Internet. We believe the use of the Securities and Exchange Commission's e-proxy rule will expedite stockholders' receipt of the proxy materials, lower the costs and reduce the environmental impact of our Annual Meeting. On April 30, 2010, we mailed a notice to most stockholders containing instructions on how to access the proxy materials and vote online. All other stockholders were sent a copy of the proxy materials by mail or e-mail. See page 4 of this proxy statement for more information on e-proxy and instructions on how you can (i) receive a paper copy of the proxy materials if you received a notice by mail, or (ii) elect to receive your proxy materials over the Internet or by e-mail, if you received them by mail this year.

You must have an admission ticket to attend the Annual Meeting. Procedures for requesting an admission ticket are detailed on page 74 of this proxy statement. Attendance and voting is limited to stockholders of record at the close of business on April 12, 2010.

Sincerely yours,

James W. Owens
Chairman

PART ONE — Information about E-proxy, Meeting Attendance and Voting Matters

Internet Availability of Proxy Materials

As permitted by e-proxy rules adopted by the Securities and Exchange Commission (SEC), Caterpillar Inc. (Caterpillar, the Company, we or us) is providing, in most cases, the proxy materials for its Annual Meeting electronically via the Internet or e-mail. On April 30, 2010, we initiated delivery of proxy materials to our stockholders of record as of the close of business on April 12, 2010 in one of three ways: 1) a notice containing

instructions on how to access proxy materials via the Internet (Internet Notice), 2) a paper copy mailing (Paper Mailing) or 3) an e-mail distribution. If you received an Internet Notice, you will not receive a printed copy of the proxy materials in the mail. Instead, the Internet Notice provides instructions on how to access the proxy materials and vote online or by telephone. If you received an Internet Notice and would like to receive a printed copy of the proxy materials or elect to receive the materials via e-mail in the future, please follow the instructions included in the Internet Notice. If you received a Paper Mailing and would like to register to receive an Internet Notice or an e-mail regarding availability of proxy materials in the future, you can do so by any of the following methods:

§ Internet – Go to www.eproxyaccess.com/cat2010 and follow the registration instructions.

§ Telephone – From within the United States or Canada, call us free of charge at 1-888-216-1363.

§ E-mail – Send us an e-mail at cat@eproxyaccess.com. Include the control number from your Paper Mailing as the subject line, and indicate whether you wish to receive a paper or e-mail copy of the proxy materials and whether your request is for this meeting only or for all future meetings.

Frequently Asked Questions Regarding Meeting Attendance and Voting

Q: Why am I receiving these proxy materials?

A: You have received these proxy materials because you are a Caterpillar stockholder, and Caterpillar's Board is soliciting your authority or proxy to vote your shares at the Annual Meeting. This proxy statement includes information that we are required to provide to you under SEC rules and is designed to assist you in voting your shares.

Q: What is e-proxy and why did Caterpillar choose to use it this year?

A: SEC rules allow companies to choose the method for delivery of proxy materials to stockholders. For most stockholders, we have elected to send an Internet Notice, rather than mailing a full set of proxy materials. We believe that this method of delivery will expedite your receipt of proxy materials and lower the costs and reduce the environmental impact of our Annual Meeting.

Q: Why didn't I receive an "annual report" or sustainability report with my proxy materials?

A: Our 2009 "Year in Review" and 2009 "Sustainability Report" are available exclusively online at www.CAT.com/investor. The online, interactive format of the reports furthers our efforts to lower costs and reduce the environmental impact of our communications. As required by SEC rules, complete financial statements, financial statement notes and management's discussion and analysis for 2009 are included as Appendix D to the proxy statement.

Q: How do I obtain an admission ticket to attend the Annual Meeting?

A:

Edgar Filing: CATERPILLAR INC - Form PRE 14A

Anyone wishing to attend the Annual Meeting must have an admission ticket issued in his or her name. Admission is limited to:

§ Stockholders of record on April 12, 2010 and one immediate family member;

§ An authorized proxy holder of a stockholder of record on April 12, 2010; or

§ An authorized representative of a stockholder of record who has been designated to present a stockholder proposal.

You must provide evidence of your ownership of shares with your ticket request and follow the requirements for obtaining an admission ticket specified in the “Admission and Ticket Request Procedure” on page 74. Accredited members of the media and analysts are also permitted to attend the Annual Meeting pursuant to the directions provided in the “Admission and Ticket Request Procedure” on page 74.

Q: What is a stockholder of record?

A: A stockholder of record or registered stockholder is a stockholder whose ownership of Caterpillar stock is reflected directly on the books and records of our transfer agent, BNY Mellon Shareowner Services (Transfer Agent). If you hold stock through a bank, broker or other intermediary, you hold your shares in “street name” and are not a stockholder of record. For shares held in street name, the stockholder of record is your bank, broker or other intermediary. Caterpillar only has access to ownership records for the stockholders of record. So, if you are not a stockholder of record, the Company needs additional documentation to evidence your stock ownership as of the record date – such as a copy of your brokerage account statement, a letter from your broker, bank or other nominee or a copy of your voting instruction card.

Q: When is the record date and who is entitled to vote?

A: The Board set April 12, 2010 as the record date for the Annual Meeting. Holders of Caterpillar common stock on that date are entitled to one vote per share. As of April 12, 2010, there were [] shares of Caterpillar common stock outstanding.

A list of all registered stockholders will be available for examination by stockholders during normal business hours at 100 NE Adams Street, Peoria, Illinois 61629, at least ten days prior to the Annual Meeting and will also be available for examination at the Annual Meeting.

Q: How do I vote?

A: You may vote by any of the following methods:

§ In person – Stockholders of record and stockholders with shares held in street name that obtain an admission ticket and attend the Annual Meeting will receive a ballot for voting. If you hold shares in street name, you must also obtain a legal proxy from your broker to vote in person and submit the proxy along with your ballot at the meeting.

§ By mail – Signing and returning the proxy and/or voting instruction card provided.

§ By phone or via the Internet – Following the instructions on your Internet Notice, proxy and/or voting instruction card or e-mail notice.

If you vote by phone or the Internet, please have your Internet Notice, proxy and/or voting instruction card or e-mail notice available. The control number appearing on your Internet Notice, proxy and/or voting instruction card or e-mail notice is necessary to process your vote. A phone or Internet vote authorizes the named proxies in the same manner as if you marked, signed and returned the card by mail.

Page 5

Q: Why is it so important that I vote my shares?

A: We value your input on questions facing the Company. Please note that if you hold your shares through a broker in street name, beginning this year, New York Stock Exchange (NYSE) rules will not permit your broker to vote your shares in the election of directors without your instruction. Your failure to vote this year may require us to incur additional solicitation costs. In addition, your voice can be heard on important Company matters when you vote. Whether or not you plan to attend the Annual Meeting, we encourage you to vote your shares promptly so that we can avoid additional costs.

Q: What are “broker non-votes” and why is it so important that I submit my voting instructions for shares I hold in street name?

A: Under the rules of the NYSE, if a broker or other financial institution holds your shares in its name and you do not provide your voting instructions to them, that firm has discretion to vote your shares for certain routine matters. For example, Company Proposal 2, the ratification of the appointment of our independent registered public accounting firm, is a routine matter.

On the other hand, the broker or other financial institution that holds your shares in its name does not have discretion to vote your shares for non-routine matters, including stockholder proposals. When a broker votes a client’s shares on some but not all of the proposals at the Annual Meeting, the missing votes are referred to as “broker non-votes.”

Q: How can I authorize someone else to attend the meeting or vote for me?

A: Stockholders of record can authorize someone other than the individual(s) named on the proxy and/or voting instruction card to vote on their behalf by crossing out the individual(s) named on the card and inserting the name of the individual being authorized or by providing a written authorization to the individual being authorized to attend or vote.

Street name holders can contact their broker to obtain documentation with authorization to attend or vote at the meeting.

To obtain an admission ticket for an authorized proxy representative, see the requirements specified in the "Admission and Ticket Request Procedure" on page 74.

Q: How can I change or revoke my vote?

A: For stockholders of record: You may change or revoke your vote by submitting a written notice of revocation to Caterpillar Inc. c/o Corporate Secretary at 100 NE Adams Street, Peoria, Illinois 61629 or by validly submitting another vote on or before June 9, 2010 (including a vote via the Internet or by telephone). For all methods of voting, the last vote cast will supersede all previous votes.

For holders in street name: You may change or revoke your voting instructions by following the specific directions provided to you by your bank or broker.

Q: Is my vote confidential?

A: Yes. Proxy cards, ballots, Internet and telephone votes that identify stockholders are kept confidential. There are exceptions for contested proxy solicitations or when necessary to meet legal requirements. Innisfree M&A Incorporated (Innisfree), the independent proxy tabulator used by Caterpillar, counts the votes and acts as the inspector of election for the Annual Meeting.

Page 6

Q: What is the quorum for the meeting?

A: A quorum of stockholders is necessary to hold a valid meeting. For Caterpillar, at least one-third of all stockholders must be present in person or by proxy at the Annual Meeting to constitute a quorum. Abstentions and broker non-votes are counted as present for establishing a quorum.

Q: What vote is necessary for action to be taken on proposals?

A:

Directors are elected by a plurality vote of the shares present at the meeting, meaning that director nominees with the most affirmative votes are elected to fill the available seats. Company proposals to amend the Restated Certificate of Incorporation and Bylaws require the affirmative vote of no less than 75 percent of the outstanding shares. All other actions presented for a vote of the stockholders at the Annual Meeting require an affirmative vote of the majority of shares present or represented at the meeting and entitled to vote. Abstentions will have the effect of a vote against matters other than director elections. Broker non-votes will not have an effect on any proposals presented for your vote.

Votes submitted by mail, telephone or Internet will be voted by the individuals named on the card (or the individual properly authorized) in the manner indicated. If you do not specify how you want your shares voted, they will be voted in accordance with the Board's recommendations. If you hold shares in more than one account, you must vote each proxy and/or voting instruction card you receive to ensure that all shares you own are voted.

Q: When are stockholder proposals due for the 2011 annual meeting?

A: To be considered for inclusion in the Company's 2011 proxy statement, stockholder proposals must be received in writing no later than January 1, 2011. Stockholder proposals should be sent to Caterpillar Inc. by mail c/o Corporate Secretary at 100 NE Adams Street, Peoria, Illinois 61629. Additionally, we request that you also forward all stockholder proposals via facsimile to the following facsimile number: 309-494-1467.

Q: What does it mean if I receive more than one proxy card?

A: Whenever possible, registered shares and plan shares for multiple accounts with the same registration will be combined into the same card. Shares with different registrations cannot be combined and as a result, you may receive more than one proxy card. For example, registered shares held individually by John Smith will not be combined on the same proxy card as registered shares held jointly by John Smith and his wife.

Street shares are not combined with registered or plan shares and may result in the stockholder receiving more than one proxy card. For example, street shares held by a broker for John Smith will not be combined with registered shares for John Smith.

If you hold shares in more than one account, you must vote for each notice, proxy and/or voting instruction card or e-mail notification you receive that has a unique control number to ensure that all shares you own are voted.

If you receive more than one card for accounts that you believe could be combined because the registration is the same, contact our Transfer Agent (for registered shares) or your broker (for street shares) to request that the accounts be combined for future mailings.

Q: Who pays for the solicitation of proxies?

A: Caterpillar pays the cost of soliciting proxies on behalf of the Board. This solicitation is being made by mail, but also may be made by telephone or in person. We have hired

Innisfree to assist in the solicitation. We will pay Innisfree a fee of \$15,000 for these services, and will reimburse their out-of-pocket expenses. We will reimburse brokerage firms and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for sending proxy materials to stockholders and obtaining their votes.

Page 7

Q: Are there any matters to be voted on at the Annual Meeting that are not included in this proxy statement?

A: We do not know of any matters to be voted on by stockholders at the meeting other than those discussed in this proxy statement. If any other matter is properly presented at the Annual Meeting, proxy holders will vote on the matter in their discretion.

Under Caterpillar's Bylaws, a stockholder may bring a matter to vote at the Annual Meeting by giving adequate notice to Caterpillar Inc. by mail c/o Corporate Secretary at 100 NE Adams Street, Peoria, Illinois 61629. To qualify as adequate, the notice must contain the information specified in our Bylaws and be received by us not less than 45 days nor more than 90 days prior to the Annual Meeting. However, if less than 60 days' notice of the Annual Meeting date is given to stockholders, notice of a matter to be brought before the Annual Meeting may be provided to us up to the 15th day following the date the notice of the Annual Meeting was provided.

Q: Can I submit a question in advance of the Annual Meeting?

A: Stockholders wishing to submit a question for consideration in advance of the Annual Meeting may do so by sending an e-mail to the Corporate Secretary at Directors@CAT.com or by mail to Caterpillar Inc. c/o Corporate Secretary at 100 NE Adams Street, Peoria, Illinois 61629. At the Annual Meeting, the Chairman will alternate taking live questions with questions submitted in advance, if any.

PART TWO — Corporate Governance Information

Corporate Governance Guidelines

Our Board has adopted Guidelines on Corporate Governance Issues (Corporate Governance Guidelines), which are available on our Internet site at www.CAT.com/governance. The Corporate Governance Guidelines reflect the Board's commitment to oversee the effectiveness of policy and decision-making both at the Board and management level, with a view to enhancing stockholder value over the long term.

Composition of the Board

Structure

As of the date of this proxy statement, our Board consists of 15 directors and is divided into three classes for election purposes. One class is elected at each annual meeting to serve for a three-year term.

In response to prior stockholder proposals, the Board has decided to recommend Company Proposal 4 to declassify the Board. If at least 75 percent of the outstanding shares of the Company are voted in favor of Company Proposal 4 to amend our Restated Certificate of Incorporation and Bylaws to declassify the Board, each director elected at the Annual Meeting will hold office until the 2011 annual meeting. At the 2011 annual meeting, all of our currently serving directors' terms would automatically expire, and all directors would stand for election at the 2011 annual meeting and on an annual basis thereafter.

If fewer than 75 percent of the outstanding shares of the Company are voted in favor of Company Proposal 4, there will be no change to our directors' terms of office or to the class structure of the Board and directors elected at the Annual Meeting will hold office for a three-year term expiring at the 2013 annual meeting. Directors in the other two classes will continue in office for the remainder of their terms.

If a nominee is unavailable for election, proxy holders will vote for another nominee proposed by the Board or, as an alternative, the Board may reduce the number of directors to be elected at the Annual Meeting.

Page 8

At its June 9, 2010 meeting, the Board is expected to elect Douglas R. Oberhelman as a director of the Company, effective on July 1, 2010. Mr. Oberhelman's election to the Board is expected to occur in connection with his appointment as Chief Executive Officer (CEO) of the Company. Mr. Oberhelman is not expected to serve on any Board committees and will be a Class II director. His business experience and recent directorships are provided with his description as a Class II director below. When Mr. Oberhelman is elected as a director, the Board will have 16 directors.

The Board has determined that, with the exception of Mr. Owens, all directors are independent as determined under NYSE listing standards and the standards described under "Director Independence Determinations" on page 14.

The Company's Corporate Governance Guidelines require a director to tender his or her resignation upon a significant change in business or personal circumstances. Accordingly, on November 10, 2009, Gail D. Fosler submitted a letter of resignation from her position as a director following her resignation as president of The Conference Board. On November 19, 2009, John R. Brazil also submitted a letter of resignation from his position as a director following his retirement as president of Trinity University. On February 10, 2010, the Board accepted Ms. Fosler's and Mr. Brazil's resignations, effective upon the expiration of their current terms as Class I directors on the date of the Company's annual meeting of stockholders in 2011.

The current composition of the Board classes is as follows:

Related Party Transaction Approval Process

Caterpillar's Board adopted a written process governing the approval of related party transactions for directors and certain officers in April 2007. Under the process, all related party transactions are to be approved in advance by the Governance Committee. Related parties include directors and executive officers and their immediate family members. Caterpillar's related party transaction policy includes transactions which may not require disclosure under applicable SEC rules.

Prior to entering into such a transaction, the applicable director or officer must submit the details of the proposed transaction to the Company's general counsel, including whether: (i) the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year; (ii) the Company is a party; and (iii) the related person or his or her immediate family member has or will have a direct or indirect interest (other than solely as a result of being a director or a less than 10 percent beneficial owner of an entity involved in the transaction). The general counsel will then evaluate, based on the facts and circumstances of the transaction, whether the related person has a direct or indirect material interest in the transaction. If so, the general counsel will submit the matter to the Governance Committee for it to consider the following:

§ The nature of the related person's interest in the transaction.

Page 12

§ The material terms of the transaction, including, without limitation, the amount and type of transaction.

§ The importance of the transaction to the related person.

§ The importance of the transaction to the Company.

§ Whether the transaction would impair the judgment of the director or executive officer to act in the best interest of the Company.

§ The alternatives to entering into the transaction.

§ Whether the transaction is on terms comparable to those available to third parties or, in the case of employment relationships, to employees generally.

§ The potential for the transaction to lead to an actual or apparent conflict of interest and any safeguards imposed to prevent such actual or apparent conflicts.

§ The overall fairness of the transaction to the Company.

In February 2010, Susan C. Schwab requested consideration of an arrangement whereby Ms. Schwab would provide consulting services to Mayer Brown LLP (Mayer Brown) on international trade issues. The Committee discussed the request, including the compensation she expected to receive from Mayer Brown, the fact that Mayer Brown provides legal services to the Company and that Ms. Schwab would not provide any services to Mayer Brown in connection with any of the Company's legal matters. After careful consideration, the Committee unanimously approved the transaction under the Company's related party transaction policy.

The Governance Committee also considered a matter reported by John T. Dillon under the Company's related party transaction approval process in February 2010. Mr. Dillon is Senior Managing Director of Evercore Partners, a subsidiary of which has been appointed Independent Fiduciary and Independent Monitor in connection with a litigation settlement involving Caterpillar. After careful consideration, the Committee determined that Mr. Dillon did not have a direct or indirect material interest in this transaction.

In addition, the Governance Committee considered long-term transactions and relationships between the Company and The Conference Board, for which Ms. Fosler is currently a senior advisor and was previously the president and

trustee, and with LSV Asset Management, for which Mr. Owens' son is a partner. The Governance Committee concluded that Ms. Fosler and Mr. Owens' son do not have a direct or indirect material interest in the applicable relationship or transaction.

The Governance Committee also considered the following matter:

In August 2007, Caterpillar entered into an exclusive marketing agreement with Claycrete, Ltd., a Hong Kong chartered manufacturer of products designed to harden dirt roads. Under this agreement, the Company agreed to market Claycrete's products to Caterpillar's dealers in exchange for a marketing fee paid to Caterpillar based on the revenues generated by the agreement. In February 2008, Caterpillar also loaned \$1 million to Claycrete for working capital and other uses. Caterpillar expected the loan to be repaid from sales generated under the marketing agreement.

Claycrete had been initially introduced to Caterpillar by Mr. Joshua I. Smith, a member of our Board. Mr. Smith had provided a variety of consulting services to Mr. Jens Bogh, the Chief Executive Officer of Claycrete, including with respect to matters such as agreements with large companies like Caterpillar. Mr. Smith had an arrangement with Mr. Bogh whereby Mr. Smith would be paid for the business coaching provided to Mr. Bogh based upon among other things, sales by Claycrete of its products. Ultimately, no Claycrete products were sold under the marketing agreement, and no marketing fees have been paid to Caterpillar. For his services to Mr. Bogh and Claycrete, Mr. Smith was paid approximately \$37,000. Mr. Bogh is no longer the Chief Executive Officer of Claycrete, and Mr. Smith's interest in any transactions between Caterpillar and Claycrete has concluded.

The Governance Committee has reviewed the transactions involving Claycrete, Mr. Smith and Caterpillar. The Governance Committee determined that Caterpillar's related party transaction approval process was not correctly followed in this instance, but the Committee did not find that Mr. Smith intentionally or willfully violated the policy. At the Board's request, Mr. Smith certified to the Board his commitment to comply with Caterpillar's policies and procedures and has undergone additional training focused on Caterpillar's corporate governance practices.

Director Independence Determinations

The Company's Corporate Governance Guidelines establish that no more than two non-independent directors shall serve on the Board at any point in time. A director is "independent" if he or she has no direct or indirect material relationship with the Company or with senior management of the Company and their respective affiliates. Annually, the Board makes an affirmative determination regarding the independence of each director based upon the recommendation of the Governance Committee. The Board makes its independence determinations on a case-by-case basis, after consideration of all relevant facts and circumstances. To assist in making its independence determinations, the Board has adopted the following standards, which conform to the applicable NYSE rules. Under these standards, a director is considered independent if he or she:

- (1) Has no material relationship with the Company, either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company, and does not have any relationship that precludes independence under the NYSE director independence standards;
- (2) Is not currently, or within the past three years, employed by the Company, or an immediate family member is not currently, or for the past three years, employed as an executive officer of the Company;

- (3) Is not a current employee, nor is an immediate family member a current executive officer of, a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the past three years, exceeds the greater of \$1 million or 2 percent of the consolidated gross revenues of that company;
- (4) Has not received, nor has an immediate family member received, during any twelve month period within the last three years, direct remuneration in excess of \$120,000 from the Company other than director and committee fees and pension or other forms of deferred compensation for prior services;
- (5) (i) is not a current partner or employee of a firm that is the Company's internal or external auditor; (ii) does not have an immediate family member who is a current partner of such a firm; (iii) does not have an immediate family member who is a current employee of such a firm and personally works on the Company's audit; or (iv) has not, nor has an immediate family member, been a partner or employee of such a firm and personally worked on the Company's audit within the last three years;
- (6) Is not part of an "interlocking directorate," whereby an executive officer of the Company simultaneously served on the compensation committee of another company that employed the director as an executive officer during the last three years;
- (7) Is free of any relationships with the Company that may impair, or appear to impair, his or her ability to make independent judgments; and
- (8) Is not employed by a non-profit organization where a substantial portion of funding for the past three years (exceeding the greater of \$1 million or 2 percent of the organization's annual consolidated gross revenues) comes from the Company or the Caterpillar Foundation.

Applying these standards, on April 7, 2010 the Board determined that each of the following directors met the independence standards: W. Frank Blount, John R. Brazil, Daniel M. Dickinson, John T. Dillon, Eugene V. Fife, Gail D. Fosler, Juan Gallardo, David R. Goode, Peter A. Magowan, William A. Osborn, Charles D. Powell, Edward B. Rust, Jr., Susan C. Schwab and Joshua I. Smith. In making its determination, the Board considered certain Company transactions, relationships or arrangements, including the following, which the Board determined did not affect the applicable director's independence:

§ The Conference Board, for which Ms. Fosler was the president and a trustee in 2009 and is currently serving as a senior advisor, received payments from the Company for research, subscriptions, conferences, webcasts, etc. The Board determined that the amount of the payments made by the Company was below the greater of \$1 million or 2 percent of The Conference Board's consolidated gross revenues and that Ms. Fosler's independence was not affected by these payments.

Page 14

§ Christopher Powell, brother of Charles D. Powell, is a member of the advisory board of PricewaterhouseCoopers in the United Kingdom; however, he is not a partner or employee of PricewaterhouseCoopers. PricewaterhouseCoopers is employed by us as our independent registered public accounting firm. The Board determined that Christopher Powell's limited role in providing advice to partners, business unit leaders and members of the PricewaterhouseCoopers United Kingdom executive board on the development of business for the firm does not affect Charles D. Powell's independence.

§ Various matching contributions made by the Caterpillar Foundation to non-profit organizations where directors or immediate family members are employed were also considered; however, none of the contributions were determined to have affected the independence of any of the directors.

In addition, the Board determined that, as a current employee of the Company, Mr. Owens is not independent based on the above standards.

Process for Identifying and Evaluating Potential Directors

The Governance Committee solicits and receives recommendations and reviews the qualifications of potential director candidates. After review, the Governance Committee recommends to the full Board candidates for election at the annual meeting of the Company's stockholders and candidates to fill vacancies on the Board. Potential director candidates may also be nominated by our stockholders and are similarly reviewed by the Governance Committee, which makes recommendations to the full Board. Additional information about the process for nominating directors and stockholder nominations is described in the "Governance Committee" section on page 21.

Our Chairman and CEO and Governance Committee periodically review with the Board the particular characteristics or attributes that would be most beneficial to the Company in future Board members. These characteristics, which are set forth in the Company's Corporate Governance Guidelines, include, but are not limited to: (i) integrity, honesty and accountability, with a willingness to express independent thought; (ii) successful leadership experience and stature in an individual's primary field, with a background that demonstrates an understanding of business affairs as well as the complexities of a large, publicly-held company (with particular consideration being given to candidates with experience as chief executive officers of successful capital-intensive businesses with international operations); (iii) demonstrated ability to think strategically and make decisions with a forward-looking focus, with the ability to assimilate relevant information on a broad range of complex topics; (iv) be a team player with a demonstrated willingness to ask tough questions in a constructive manner that adds to the decision-making process of the Board; (v) independence and absence of conflicts of interest; (vi) ability to devote necessary time to meet director responsibilities; and (vii) ability to commit to the Company's stock ownership guidelines.

Consistent with these criteria for potential director candidates and Caterpillar's Worldwide Code of Conduct, the Board values diversity of talents, skills, abilities and experiences and believes that the diversity that exists on the Board provides significant benefits to the Company. Although there is no specific diversity policy, the Governance Committee may also consider the diversity of its members and potential candidates in selecting new directors.

Board Leadership Structure

As set forth in the Company's Bylaws, the Chairman of our Board is also the CEO of the Company. In addition, in 2007 the independent directors of the Board unanimously elected a Presiding Director who is independent under the NYSE standards. As part of the Board's structure, all directors, other than the Chairman, are independent under the NYSE standards, and all committees of the Board are made up entirely of independent directors.

The Presiding Director's duties and responsibilities include: (i) presiding at all meetings of the Board at which the Chairman is not present; (ii) serving as a liaison between the Chairman and the independent directors; (iii) approving information sent to the Board; (iv) approving meeting agendas for the Board; (v) approving meeting schedules to assure that there is sufficient time for discussion of all agenda items; (vi) authority to call meetings of the independent directors; and (vii) if requested by major shareholders, ensuring that he is available for consultation and direct communication.

The Board has determined that the combined role of Chairman and CEO is appropriate for the Company as it promotes unified leadership and direction for the Company, allowing for a single, clear focus for management to execute the Company's strategy and business plans. This structure also avoids the added costs and inefficiencies that would result by mandating an independent Chairman. The Board believes that the governance structure and role of the Presiding Director allow the Board to effectively work with the combined role of the Chairman and CEO.

In anticipation of Mr. Owens' upcoming retirement and the leadership transition to Mr. Oberhelman, the Board has decided to allow Mr. Owens, the current Chairman and CEO, to continue to serve as Chairman of the Board until he retires on October 31, 2010. Mr. Oberhelman is expected to become the new CEO on July 1, 2010 and is expected to assume the role of Chairman of the Board on November 1, 2010. The Board considers that this approach to succession will provide stability and continuity to the Company during this period.

Board's Role in Risk Oversight

The full Board oversees enterprise risk as part of its role in reviewing and overseeing the implementation of the Company's strategic plans and objectives. The risk oversight function is administered both in full Board discussions and in individual committees that are tasked by the Board with oversight of specific risks as more fully described in the summary of each committee below.

On a regular basis, the Board and its committees receive information and reports from management on the status of the Company and the risks associated with the Company's strategy and business plans. In addition, the Audit Committee reviews the Company's risk assessment and risk management policies and procedures at least annually, including its major financial risk exposures and steps taken to monitor and control such exposures. The Chairman of the Audit Committee presents this information to the full Board for review.

The Board believes the combined role of Chairman and CEO is an effective structure for the Board to understand the risks associated with the Company's strategic plans and objectives. Additionally, maintaining an independent Board with a Presiding Director permits open discussion and assessment of the Company's ability to manage these risks.

Board Meetings and Committees

In 2009, our full Board met six times and regularly scheduled executive sessions, led by the Presiding Director, were held without management present. In addition to those meetings, directors attended meetings of individual Board committees. Overall attendance for our directors at full Board and committee meetings held in 2009 was 98.37 percent. For Board meetings only, attendance was 98.78 percent in 2009. No director attended fewer than 75 percent of the total meetings held in 2009. Company policy, posted on our Internet site, states that absent unavoidable conflict, all directors are expected to attend the Annual Meeting. All of our directors attended the Annual Meeting in June 2009.

Our Board has four standing committees – Audit, Compensation, Governance and Public Policy. Each committee's charter is available on our Internet site at www.CAT.com/governance. Following is a description of each committee of the Board. Current committee memberships are listed in the "Committee Membership" table on page 17.

The Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to the integrity of Caterpillar's financial statements, Caterpillar's compliance with legal and regulatory requirements, the qualifications and independence of Caterpillar's Independent Registered Public Accounting Firm (auditors), the performance of Caterpillar's internal audit function and the auditors, the effectiveness of Caterpillar's internal controls and the implementation and effectiveness of Caterpillar's ethics and compliance program. The Audit Committee performs this

function by monitoring Caterpillar's financial reporting process and internal controls and by assessing the audit efforts of the auditors and the internal auditing department. The Audit Committee has ultimate authority and responsibility to appoint, retain, compensate, evaluate and, where appropriate, replace the auditors. The Audit Committee also reviews updates on emerging accounting and auditing issues provided by the auditors and by management to assess their potential impact on Caterpillar. During 2009, the Audit Committee met 12 times and overall attendance was 95.83 percent. Daniel M. Dickinson, John T. Dillon, Gail D. Fosler and William A. Osborn, members of the Audit Committee, each meet the standards for independence set forth in the NYSE listing standards and the financial literacy standards adopted by the Board. Additionally, the Board has determined that Mr. Dickinson, Mr. Dillon and Mr. Osborn each qualify as an "audit committee financial expert" as defined under SEC rules.

Page 16

The Compensation Committee assists the Board in fulfilling its responsibilities in connection with the compensation of the Company's directors, officers and employees. It performs this function by establishing and overseeing the Company's compensation programs, recommending to the Board the compensation of directors who are not officers of the Company, administering the Company's equity compensation plans, furnishing an annual Compensation Committee Report on executive compensation and approving the Compensation Discussion and Analysis section in the Company's proxy statement, in accordance with applicable SEC rules and regulations. All members of the Compensation Committee meet the standards for independence set forth in the NYSE listing standards. During 2009, the Compensation Committee met four times and overall attendance was 100 percent.

The Governance Committee assists the Board by making recommendations regarding the size and composition of the Board and the criteria to be used for the selection of candidates to serve on the Board. The Governance Committee discusses and evaluates the qualifications of directors up for re-election and recommends the slate of director candidates to be nominated for election at the Annual Meeting. Stockholders who are interested in nominating a director candidate can do so in accordance with the policy discussed in the "Governance Committee" section on page 21. In addition, the Governance Committee recommends candidates to the Board for election as officers of the Company. The Governance Committee also oversees the Corporate Governance Guidelines and leads the Board in its annual self-evaluation process and shares the results thereof with the Board for discussion and deliberation. All members of the Governance Committee meet the standards for independence set forth in the NYSE listing standards. During 2009, the Governance Committee met six times and overall attendance was 100 percent.

The Public Policy Committee assists the Board in its oversight of matters of national and international public policy affecting the Company's business, trade policy and international trade negotiations impacting the Company, major global legislative and regulatory developments both in the U.S. and internationally affecting the Company, investor, consumer and community relations issues, employee relations, implementation of policies promoting diversity within the Company, sustainable development initiatives and charitable and political contributions by the Company or by any committee or foundation affiliated with the Company. All members of the Public Policy Committee meet the standards for independence set forth in the NYSE listing standards. During 2009, the Public Policy Committee met five times and overall attendance was 100 percent.

Audit Committee Report

The Audit Committee is comprised entirely of independent directors (as defined for members of an audit committee in the NYSE listing standards) and operates under a written charter adopted by the Board, a copy of which is available on our Internet site at www.CAT.com/governance. Management is responsible for the Company's internal controls and the financial reporting process. The auditors are responsible for performing an independent audit of the Company's consolidated financial statements and internal controls over financial reporting in accordance with standards established by the Public Company Accounting Oversight Board in the United States (PCAOB) and issuing a report thereon. The Audit Committee is responsible for monitoring these processes. In this regard, the Audit Committee meets periodically with management, the internal auditors and auditors. The Audit Committee has the authority to conduct or authorize investigations into any matters within the scope of its responsibilities and the authority to retain outside counsel, experts and other advisors as it determines appropriate to assist it in conducting any investigations. The Audit Committee is responsible for selecting and, if appropriate, replacing the current auditors, PricewaterhouseCoopers LLP.

Page 18

The Audit Committee has discussed with the Company's auditors the overall scope and execution of the independent audit and has reviewed and discussed the audited financial statements with management. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles in the United States. Discussions about the Company's audited financial statements included the auditors' judgments about the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Audit Committee also discussed with the auditors other matters required by Statement on Auditing Standards No. 61 Communication with Audit Committees, as amended by SAS No. 90 Audit Committee Communications (as adopted by the PCAOB in Rule 3200T). Management, the internal auditors and the auditors also made presentations to the Audit Committee throughout the year on specific topics of interest, including: (i) management's philosophy, asset allocation levels, risk management and oversight of the Company's benefit and pension funds; (ii) accounting for the Company's pension funding obligations; (iii) the Company's derivatives policy and usage review; (iv) the 2009 joint audit plan; (v) updates on the implementation of the internal audit plan for 2009; (vi) the Company's information technology systems and the controls in place within those systems for compliance with the Sarbanes-Oxley Act of 2002 (Sarbanes-Oxley Act); (vii) the applicability of new accounting releases; (viii) the Company's critical accounting policies; (ix) risk management initiatives and controls for various business units within the Company; (x) updates on the management of financial markets and liquidity risk; and (xi) the Company's compliance with the internal controls requirements under Section 404 of the Sarbanes-Oxley Act.

The auditors provided to the Audit Committee the written communications required by applicable requirements of the PCAOB regarding the independent accountant's communications with the Audit Committee concerning independence, and the Audit Committee discussed the auditors' independence with management and the auditors. The Audit Committee concluded that the auditors' independence had not been impaired.

Based on: (i) the Audit Committee's discussions with management and the auditors; (ii) the Audit Committee's review of the representations of management; and (iii) the report of the auditors to the Audit Committee, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, filed with the SEC on February 19, 2010.

By the current members of the Audit Committee consisting of:

John T. Dillon (Chairman)
Daniel M. Dickinson

Gail D. Fosler
William A. Osborn

Audit Fees and Approval Process

Pre-Approval Process

The Audit Committee pre-approves all audit and non-audit services to be performed by the auditors. It has policies and procedures in place to ensure that the Company and its subsidiaries are in full compliance with the requirements for pre-approval set forth in the Sarbanes-Oxley Act and the SEC rules regarding auditor independence. These policies and procedures provide a mechanism whereby management can request and secure pre-approval of audit and non-audit services in an orderly manner with minimal disruption to normal business operations. The policies and procedures are detailed as to the particular service and do not delegate the Audit Committee's responsibility to management. These policies and procedures address any service provided by the auditors and any audit or audit-related services to be provided by any other audit service provider. The pre-approval process includes an annual and interim component.

Annual Pre-Approval Process

Annually, not later than the Audit Committee meeting held in April of each year, management and the auditors jointly submit a service matrix of the types of audit and non-audit services that management may wish to have the auditors perform for the year. The service matrix categorizes the types of services by audit, audit-related, tax and all other services. Approval of a service is merely an authorization that this type of service is permitted by the Audit Committee, subject to pre-approval of specific services. Management and the auditors jointly submit an annual pre-approval limits request. The request lists individual project and aggregate pre-approval limits by service category. The request also lists known or anticipated services and associated fees. The Audit Committee approves or rejects the pre-approval limits and each of the listed services. For 2009, the pre-approval limits were as follows:

Page 19

Type of Service	Pre-Approval Limits (in thousands)	
	Per Project	Aggregate Limit
Audit Services	\$ 500	\$ 25,000
Audit-Related Services	\$ 500	\$ 10,000
Tax Services	\$ 500	\$ 15,000
All Other Services	\$ 500	\$ 1,000

Interim Pre-Approval Process

During the course of the year, the Audit Committee chairman has the authority to pre-approve requests for services that were not approved in the annual pre-approval process. Committee approval is not required for individual projects below the pre-approval project limits. However, all services, regardless of fee amounts, are subject to restrictions on the services allowable under the Sarbanes-Oxley Act and SEC rules regarding auditor independence. In addition, all fees are subject to on-going monitoring by the Audit Committee.

On-Going Monitoring

At each Audit Committee meeting subsequent to the Board meeting at which the service matrix and annual pre-approval limits request are approved, the chairman reports any interim pre-approvals since the last meeting. Also, at each of these meetings, management and the auditor provide the Audit Committee with an update of fees expected to be incurred for the year compared to amounts initially pre-approved.

The Governance Committee operates under a written charter adopted by the Board, a copy of which is available on our Internet site at www.CAT.com/governance. As part of its mandate, the Governance Committee evaluates and makes recommendations regarding proposed candidates to serve on the Board, including recommending the slate of nominees for election at the Annual Meeting.

Director Resignation Policy

The Board has adopted a director resignation policy (Resignation Policy), which can be found in the Corporate Governance Guidelines. The Resignation Policy establishes that any director who receives more “withheld” votes than “for” votes in an uncontested election shall promptly tender his or her resignation. The independent directors of the Board will then evaluate the relevant facts and circumstances and make a decision, within 90 days after the election, on whether to accept the tendered resignation. The Board will promptly publicly disclose its decision and, if applicable, the reasons for rejecting the tendered resignation.

Process for Nominating Directors

The Governance Committee solicits and receives recommendations for potential director candidates from directors, the Chairman and Caterpillar management and may also utilize the services of a third party consultant to identify and evaluate potential nominees. The Governance Committee also considers unsolicited inquiries and nominees recommended by stockholders in accordance with the following procedures and in compliance with the Company’s Bylaws.

When considering a candidate, the Governance Committee believes that certain characteristics are essential. For example, candidates must be individuals of high integrity, honesty and accountability, with a willingness to express independent thought. Candidates must also have successful leadership experience and stature in their primary fields, with a background that demonstrates an understanding of business affairs as well as the complexities of a large, publicly held company. Particular consideration will be given to candidates with experience as a chief executive officer of successful, capital-intensive businesses with international operations. In addition, candidates must have a demonstrated ability to think strategically and make decisions with a forward-looking focus and the ability to assimilate relevant information on a broad range of complex topics.

The Governance Committee also believes that certain characteristics are desirable, such as being a team player with a demonstrated willingness to ask tough questions in a constructive manner that adds to the decision-making process of the Board. At the same time, candidates should be independent, with an absence of conflicts of interests. Moreover, candidates should have the ability to devote the time necessary to meet director responsibilities and serve on no more than five public company boards in addition to the Board. Candidates must also have the ability to commit to stock ownership requirements according to the Company’s Corporate Governance Guidelines.

Stockholder Nominations

In accordance with the Company’s Bylaws, stockholders may nominate a director candidate to serve on the Board by providing advance written notice to Caterpillar Inc. c/o Corporate Secretary at 100 NE Adams Street, Peoria, Illinois 61629. Written notice of an intent to nominate a director candidate at an Annual Meeting must be given either by personal delivery or by United States mail, postage prepaid, to Caterpillar Inc. at the address previously provided no later than ninety (90) days in advance of such meeting. The notice must state: (i) the name and address of the stockholder who intends to make the nomination and of the person or persons to be nominated; (ii) a representation that the nominating stockholder is a stockholder of record of the Company’s stock entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice; (iii) a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the stockholder; (iv) such other information regarding each nominee proposed by such stockholder as would be required to be included in a proxy statement filed pursuant to the proxy rules of the SEC, had the nominee been nominated, or intended to be nominated, by the Board; and (v) the consent of each nominee to serve as a director of the Company if so elected. The presiding officer of the Annual Meeting may refuse to acknowledge the nomination of any person not made in compliance with the foregoing procedure. You may request a copy of the Company’s Bylaws by writing to the Corporate Secretary at 100 NE Adams Street, Peoria, Illinois 61629.

Company Proposals

PROPOSAL 1 — Election of Directors

The Board has nominated the following directors to stand for election for a three-year term expiring at the Annual Meeting in 2012. The nominees were evaluated and recommended by the Governance Committee in accordance with the process for nominating directors described on page 21.

YOUR BOARD OF DIRECTORS RECOMMENDS VOTING "FOR" THE NOMINEES PRESENTED IN PROPOSAL 1.

PROPOSAL 2 — Ratification of our Independent Registered Public Accounting Firm

The Board seeks an indication from stockholders of their approval or disapproval of the Audit Committee's appointment of PricewaterhouseCoopers as auditors for 2010.

PricewaterhouseCoopers has been our auditors since 1925. For additional information regarding the Company's relationship with PricewaterhouseCoopers, please refer to the "Audit Committee Report" on page 18 and the "Audit Fees and Approval Process" disclosure on page 19.

If the appointment of PricewaterhouseCoopers as auditors for 2010 is not approved by the stockholders, the adverse vote will be considered a direction to the Audit Committee to consider other auditors for next year. However, because of the difficulty in making any substitution of auditors so long after the beginning of the current year, the appointment for the year 2010 will stand, unless the Audit Committee finds other good reason for making a change.

Representatives of PricewaterhouseCoopers will be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so. The representatives will also be available to respond to questions at the meeting.

YOUR BOARD OF DIRECTORS AND AUDIT COMMITTEE RECOMMEND VOTING "FOR" PROPOSAL 2.

Page 23

PROPOSAL 3 — Amend 2006 Long-Term Incentive Plan

The Board has adopted and recommends that you approve amendments to the Caterpillar Inc. 2006 Long-Term Incentive Plan (Plan) that would: (i) increase the number of shares authorized for issuance under the Plan; (ii) increase the limitation on the number of authorized shares that may be issued regarding restricted stock, restricted stock units and performance shares; (iii) expressly prohibit the exchange of underwater options and/or stock appreciation rights (SARs) for cash; (iv) further restrict the Plan's definition of change of control; (v) clarify that shares withheld for the payment of taxes will not be made available for additional grants; and (vi) make certain other clarifications to the provisions of the Plan document. Under the current terms of the Plan, the Company is authorized to issue a total of 37,600,000 shares, of which, approximately 7,000,000 shares remain available for future grants. We are asking that you approve an additional 20,000,000 shares for issuance under the Plan. This proposed amendment would increase the shares available for future grants under the Plan to approximately 27,000,000.

By increasing the number of shares authorized under the Plan and increasing the limitation on the number of authorized shares that may be issued regarding restricted stock, restricted stock units and performance shares, the Company believes it will have the flexibility to continue to provide equity incentives in amounts and forms determined appropriate by the Compensation Committee (Committee) over the next three to four years. The Company's average annual burn rate for 2007 through 2009, which is the total number of net shares subject to equity awards granted in a given year divided by the total number of shares of Caterpillar stock outstanding, was 1.16 percent. If stockholders approve these amendments, the total number of shares available for grants under the Plan, plus the number of shares subject to outstanding awards under all the Company's current and prior equity plans as of March 31, 2010, would be approximately 101,320,000 shares. As of the record date, the total number of shares of Caterpillar stock outstanding was approximately [].

The purpose of the Plan is to further the Company's compensation philosophy, as outlined in the Compensation Discussion and Analysis. Specifically, the Plan allows the Board to provide key present and future employees and

members of the Board with cash-based incentives, stock-based incentives and other equity interests in the Company, thereby giving them a stake in the growth and prosperity of the Company, aligning their interests with those of stockholders and encouraging the continuance of their services with the Company and its subsidiaries.

The Board desires to ensure the Company's continued ability to offer cash and equity based compensation to its key employees. The Board believes this type of compensation is critical to its ability to attract and retain highly qualified individuals and otherwise attain the goals described above. Recognizing the importance of the Company's broad-based equity compensation program and its effectiveness in meeting the Board's goals, the Committee and the Board approved these amendments to the Plan and hereby submit them to the Company's stockholders for approval.

Stockholder approval of these amendments is required by NYSE rules. The affirmative vote of holders of a majority of the Company's common stock present or represented at the Annual Meeting and entitled to vote is required to approve the Plan amendments. If stockholders do not approve these amendments, the Plan will remain in full force and effect through June 13, 2016, without giving effect to the proposed amendments.

The following is a summary of the principal features of the Plan, including the proposed amendments. This summary is qualified in its entirety by reference to the complete text of the amendments and restatement of the Plan with the proposed changes highlighted (attached as Appendix A). Stockholders are encouraged to read the text of the Plan in its entirety.

The amendments to the Plan will become effective upon stockholder approval.

Approval of the amendments to the Plan will also constitute re-approval, for purposes of Section 162(m) of the Internal Revenue Code (Code), of the performance goals included in the Plan (described below) that are to be used in connection with awards under the Plan that are intended to qualify as "performance-based" compensation for purposes of Section 162(m).

Page 24

Administration

The Plan is administered by the Committee, or by another committee appointed by the Board. The Committee consists of at least two persons and Committee members must be "non-employee directors," as defined under Rule 16b-3 of the Securities Exchange Act of 1934, as amended, and "outside directors" within the meaning of Section 162(m) of the Code. The full Board performs the functions of the Committee for purposes of granting awards to non-employee directors.

The Committee also has full authority to interpret the Plan and to establish rules for its administration. Further, the Committee makes all other determinations, that may be necessary or advisable for the administration of the Plan. The Committee has the authority to select the employees, prospective employees and directors who may participate in the Plan and to determine the size and types of awards, the number of shares subject to awards and the terms and conditions of these awards in accordance with the terms of the Plan. Subject to certain limitations, the Committee may delegate its authority under the Plan to one or more members of the Committee or one or more officers or other designees of Caterpillar.

Shares Subject to the Plan and Maximum Awards

As amended, the Plan provides that the number of shares of Caterpillar stock that may be issued will not exceed 40 million shares, subject to certain adjustments. In addition, 17.6 million shares of Caterpillar stock that were authorized for the Caterpillar Inc. 1996 Stock Option and Long-Term Incentive Plan (1996 Plan) but that have not been issued and that were not subject to outstanding grants pursuant to the 1996 Plan as of the date of adoption of the Plan were reserved and available for grant under the Plan. Thus, if the amendment is approved, the total number of

shares that may be issued under the Plan will not exceed 57,600,000.

The per share closing price of Caterpillar stock on the NYSE on March 31, 2010 was \$62.85. Caterpillar will register the additional shares issuable under the Plan under the Securities Act of 1933, as amended, after it receives stockholder approval.

Of the shares authorized for issuance under the Plan, the maximum aggregate number of shares (including stock options, stock appreciation rights, restricted stock and restricted stock units and performance shares to be paid out in shares) that may be granted in any one fiscal year to a single participant is 800,000 shares. The maximum aggregate cash payout (including performance units and performance shares paid out in cash but excluding cash-settled SARs) with respect to awards granted in any one fiscal year that may be made to a single participant is \$5 million. As amended, the Plan also provides that only 35 percent of the shares authorized under the Plan may be issued in connection with awards of restricted stock, restricted stock units and performance shares. Prior to the amendment, this limitation was 20 percent of the shares authorized under the Plan.

To the extent that shares of Company stock subject to an outstanding award under the Plan are not issued by reason of expiration, forfeiture or cancellation of such award, by reason of the tendering or withholding of shares to pay all or a portion of the exercise price or by reason of being settled in cash in lieu of shares, then such shares will immediately again be available for issuance under the Plan. Shares underlying awards granted in substitution for awards previously granted by an entity acquired by Caterpillar will not be counted against the Plan limit.

Shares of Company stock issued with respect to awards may be authorized but unissued shares or treasury shares. In the event there is a change in the capital structure of the Company as a result of any stock dividend or split, recapitalization, merger, consolidation or spin-off or other corporate change affecting the shares, the number of shares of Company stock authorized for issuance, available for issuance or covered by any outstanding award and the price per share of any such award, and the various limitations described above, will be proportionately adjusted. Fractional shares will not be issued under the Plan.

The Plan limit is reduced on a one-for-one basis based upon the number of shares of Company stock for which an award is granted or denominated. An award of SARs reduces the Plan limit on a one-for-one basis based upon the number of shares of Company stock actually delivered pursuant to the SAR and any shares withheld for the payment of taxes.

Page 25

Eligibility and Participation

Any director, or current or future employee (including officer) of Caterpillar or any of its subsidiaries is eligible to receive an award under the Plan, except that incentive stock options may only be granted to persons who are employed by the Company or its subsidiaries and only if the recipient does not own more than 10 percent of Caterpillar's stock. Caterpillar currently has approximately 94,000 employees and 15 directors. The selection of participants and the nature and size of the awards granted to participants is subject to the discretion of the Committee.

Awards

The Plan provides for awards of stock options to purchase shares of Company stock, stock appreciation rights, restricted stock, restricted stock units, performance shares and performance units, the general terms and conditions of which are described in more detail below.

Stock Options. Stock options may be nonqualified stock options or incentive stock options that comply with Section 422 of the Code. Each stock option grant will be evidenced by an award document. If the award document does not

specify the time the stock option will first become exercisable, the stock option will become fully vested and exercisable by the participant on the third anniversary of the grant date. Each stock option may be exercised in whole or in part, from time to time, after the grant becomes exercisable. The Plan limits the term of any stock option to ten years and prohibits repricing of stock options without stockholder approval. As amended, the Plan would also prohibit the exchange of underwater options for cash.

The exercise price per share for all shares of Caterpillar stock issued pursuant to stock options under the Plan will be determined by the Committee but may not be less than 100 percent of the fair market value of a share of Caterpillar stock on the grant date. The exercise price of a stock option may be paid in cash, by tendering previously acquired shares or through a cashless exercise procedure.

Stock Appreciation Rights (SARs). SARs entitle a participant to receive an amount equal to the excess of the fair market value of a share of Caterpillar stock on the date the SAR is exercised over the fair market value of a share of Company stock on the date the SAR is granted, multiplied by the number of shares to which the SAR is exercised. The payment may be made in shares of Caterpillar stock having a fair market value on the date of exercise equal to the amount due upon the exercise of the SAR, may be paid in cash or a combination thereof.

The Committee may grant SARs under the Plan alone or in tandem with stock options. SARs that are granted alone must be granted with a per share exercise price not less than 100 percent of the fair market value of a share of Company stock on the date of grant. The grant price of tandem SARs will equal the option price of the related stock option. The Plan limits the term of SARs to 10 years from the grant date and prohibits repricing of SARs without stockholder approval. The Plan also prohibits the exchange of underwater SARs for cash.

SARs granted alone may be exercised upon the terms and conditions the Committee, in its sole discretion, imposes upon them in the award document. SARs granted in tandem with stock options may be exercised for all or part of the shares subject to the related stock option upon the surrender of the right to exercise the equivalent portion of the related stock option. A tandem SAR may be exercised only with respect to the shares for which its related stock option is then exercisable. With respect to a tandem SAR granted in connection with an incentive stock option: (i) the tandem SAR will expire no later than the expiration of the underlying incentive stock option; (ii) the value of the payout with respect to the tandem SAR may be for no more than 100 percent of the difference between the option price of the underlying incentive stock option and the fair market value of the shares subject to the underlying incentive stock option at the time the tandem SAR is exercised; and (iii) the tandem SAR may be exercised only when the fair market value of the shares subject to the incentive stock option exceeds the option price of the incentive stock option.

Page 26

Restricted Stock and Restricted Stock Units. An award of restricted stock is a share of Company stock granted to the participant that may not be sold or otherwise disposed of during a restricted period as determined by the Committee in the award document. The Committee may impose such conditions and/or restrictions on any shares of restricted stock granted pursuant to the Plan as it may deem advisable including without limitation, a requirement that shares will not be issued until the end of the applicable period of restriction (i.e., a restricted stock unit), restrictions based upon the achievement of specific performance goals (company-wide, subsidiary-wide, divisional and/or individual), time-based restrictions on vesting, which may or may not be following the attainment of the performance goals, sales restrictions under applicable stockholder agreements or similar agreements, a requirement that participants pay a stipulated purchase price for each share of restricted stock and/or restrictions under applicable federal or state securities laws.

Restriction periods must be at least three years for time-based restrictions. However, a maximum of 5 percent of the aggregate shares authorized for issuance of restricted stock, restricted stock units or performance shares) may be

issued as restricted stock or restricted stock units with no minimum vesting periods. If the period of restriction is not set forth in the award document, the transfer and any other restrictions will lapse (i) to the extent of one-third of the shares (rounded to the nearest whole) covered by the restricted stock award on the third anniversary of the grant date, (ii) to the extent of two-thirds of the shares (rounded to the nearest whole) covered by the restricted stock award on the fourth anniversary of the grant date and (iii) to the extent of 100 percent of the shares covered by the restricted stock award on the fifth anniversary of the grant date.

For awards of restricted stock (but not for restricted stock units), the participant may have all rights as a holder of shares of Caterpillar stock except that the restricted shares cannot be sold, transferred, assigned, pledged or otherwise encumbered or disposed of until the end of the restriction period established by the Committee and specified in the award document, or upon earlier satisfaction of any other conditions, as specified by the Committee in its sole discretion and set forth in the award document.

Performance Shares and Performance Units. Performance shares and performance units are awards of a fixed or variable number of shares or of dollar-denominated units that are earned by achievement of performance goals established by the Committee. Amounts earned under performance shares and performance units may be paid in shares of Caterpillar stock, cash or a combination thereof.

The terms and conditions of the performance awards are determined by the Committee, and the granting, vesting and/or exercisability of performance awards are conditioned on the achievement in whole or in part of performance goals (as described below) during a performance period as selected by the Committee. At the sole discretion of the Committee, participants may be entitled to receive any dividends declared with respect to shares that have been earned in connection with grants of performance units and/or performance shares that have been earned, but not yet distributed to participants.

Performance units and/or performance shares may not be sold or transferred, other than by will or by the laws of descent and distribution. Further, except as otherwise provided in the award document, a participant's rights under the Plan will be exercisable during the participant's lifetime only by the participant or the participant's legal representative.

Performance Goals

Section 162(m) of the Code limits publicly-held companies such as the Company to an annual deduction for federal income tax purposes of \$1 million for compensation paid to each of their "covered employees." Generally, "covered employees" are the CEO and the three other most highly compensated officers, other than the CFO, who are named in the summary compensation table of the Company's proxy statement each year. However, performance-based compensation is excluded from this limitation. The Plan is designed to permit the Committee to grant awards that qualify, to the extent possible, as performance-based for purposes of satisfying the conditions of Section 162(m).

Under the Plan, the Committee may condition the grant, vesting and/or exercisability of any award, including, but not limited to, performance shares and performance units, upon the attainment of performance targets related to one or more performance goals over a performance period selected by the Committee. The Committee may reduce any award below the maximum amount that could be paid based upon the degree to which the performance targets related to such award were attained. However, the Committee may not increase any award that is intended to satisfy the exception for "qualified performance-based compensation" set forth in Section 162(m) of the Code above the maximum amount that could be paid based on the attainment of performance targets.

For any awards that are intended to satisfy the Section 162(m) exception for "qualified performance-based compensation," the awards will be subject to one or more, or any combination, of the following performance goals

which will be established by the Committee in writing and stated in terms of the attainment of specified levels of or percentage changes in any one or more of the following measurements: (i) revenue; (ii) primary or fully-diluted earnings per share; (iii) earnings before interest, taxes, depreciation, and/or amortization; (iv) pretax income; (v) cash flow from operations; (vi) total cash flow; (vii) return on equity; (viii) return on invested capital; (ix) return on assets; (x) net operating profits after taxes; (xi) economic value added; (xii) total stockholder return; (xiii) return on sales; or (xiv) any individual performance objective which is measured solely in terms of quantifiable targets related to the Company or the businesses of the Company; or any combination thereof. In addition, such performance goals may be based in whole or in part upon the performance of the Company, a subsidiary, division and/or other operational unit under one or more of such measures. Further, for any awards that are not intended to satisfy the Section 162(m) exception, the Committee may establish performance targets based on other performance goals, as it deems appropriate.

Award Forfeitures

Unless otherwise determined by the Committee, in the case of a forfeiture event, the following forfeitures will result:

- The unexercised portion of any stock option, whether or not vested, and any other award not then settled (except for an award that has not been settled solely due to an elective deferral by the participant and otherwise is not forfeitable in the event of any termination of service of the participant) will be immediately forfeited and canceled upon the occurrence of the forfeiture event; and
- The participant will be obligated to repay to Caterpillar, in cash, within five business days after demand is made by Caterpillar, the total amount of award gain (as defined in the Plan) realized by the participant upon each exercise of a stock option or settlement of an award (regardless of any elective deferral) that occurred on or after (i) the date that is six months before the occurrence of the forfeiture event, if the forfeiture event occurred while the participant was employed by Caterpillar or a subsidiary, or (ii) the date that is six months before the date the participant's employment by, or service as a director with Caterpillar or a subsidiary terminated, if the forfeiture event occurred after the participant ceased to be employed.

Forfeiture Events. The forfeiture of an award will be triggered upon either (i) the violation by a participant of certain non-solicitation provisions or (ii) the participant's disclosure to any person or entity, or the participant's unauthorized use of any "confidential or proprietary information" (as defined in the Plan) at any time during the participant's employment or service as a director with Caterpillar or a subsidiary or during the one-year period following termination of such employment or service.

Waivers. The Committee may, in its sole discretion, waive in whole or in part the Company's right to forfeiture. In addition, the Committee may impose additional conditions on awards, by inclusion of appropriate provisions in the award document.

Clawback

Any Plan participant who is an officer of the Company and whose negligent, intentional or gross misconduct contributes to the Company having to restate all or a portion of its financial statements, will be required to forfeit awards granted under the Plan and repay the Company the total amounts realized by the participant upon the exercise of an option or settlement of an award.

Change of Control

If any participant's (i.e., an officer employee's, a non-officer employee's or director's) employment or service with the Company and/or any subsidiary terminates either without cause or for good reason within the 12 month period following a change of control (as defined in the Plan), unless otherwise specifically prohibited under applicable laws, or by the rules and regulations of any governmental agencies or national securities exchanges:

- All stock options and SARs granted will become immediately exercisable, and shall remain exercisable throughout their entire term;
- Any period of restriction and other restrictions imposed on restricted stock will lapse;

- All restricted stock units will become fully vested; and

Page 28

- Unless otherwise specified in an award document, the maximum payout opportunities attainable under all outstanding awards of performance units and performance shares will be deemed to have been fully earned for the entire performance period(s) as of the effective date of the change of control. The vesting of all such awards will be accelerated as of the effective date of the change of control, and in full settlement of such awards, there shall be paid out in cash to participants within 30 days following the effective date of the change of control the maximum of payout opportunities associated with such outstanding awards.

Other Provisions

The Committee may provide that the receipt of payment of cash or the delivery of shares that would otherwise be due to a participant under an award may be deferred at the election of the participant pursuant to an applicable deferral plan established by the Company or a subsidiary.

The Committee may make awards on terms and conditions other than those described above or in the Plan to comply with the laws and regulations of any foreign jurisdiction or to make the award effective under such laws or regulations.

The Committee may, at its discretion, accelerate the vesting of options, SARs, restricted stock and restricted stock units, performance units and performance shares at any time. The Committee may also, at its discretion, extend the period during which an option or SAR is exercisable following a participant's termination of employment or services.

No award will be construed as giving any participant a right to receive future awards or to continued employment or service with the Company.

U.S. Federal Income Tax Consequences

Incentive Stock Options. The grant of an incentive stock option will not be a taxable event for the participant or for the Company. A participant will not recognize taxable income upon exercise of an incentive stock option (except that the alternative minimum tax may apply), and any gain realized upon a disposition of Caterpillar stock received pursuant to the exercise of an incentive stock option will be taxed as long-term capital gain if the participant holds the shares of Company stock for at least two years after the date of grant and for one year after the date of exercise (holding period requirement). The Company will not be entitled to any income tax deduction with respect to the exercise of an incentive stock option, except as discussed below.

For the exercise of an incentive stock option to qualify for the foregoing tax treatment, the participant generally must be an employee of the Company or an employee of a Company subsidiary from the date the option is granted through a date within three months before the date of exercise of the option. If all of the foregoing requirements are met except the holding period requirement mentioned above, the participant will recognize ordinary income upon the disposition of the Company stock in an amount generally equal to the excess of the fair market value of the Company stock at the time the option was exercised over the option exercise price (but not in excess of the gain realized on the sale). The balance of the realized gain, if any, will be capital gain. The Company will be allowed an income tax deduction to the extent the participant recognizes ordinary income, subject to the Company's compliance with Section 162(m) of the Code and to certain reporting requirements.

Nonqualified Stock Options. The grant of a nonqualified stock option will not be a taxable event for the participant or the Company. Upon exercising a nonqualified stock option, a participant will recognize ordinary income in an amount equal to the difference between the exercise price and the fair market value of the Company stock on the date

of exercise. Upon a subsequent sale or exchange of shares acquired pursuant to the exercise of a nonqualified stock option, the participant will have taxable capital gain or loss, measured by the difference between the amount realized on the disposition and the tax basis of the shares of Company stock (generally, the amount paid for the shares plus the amount treated as ordinary income at the time the option was exercised). If the Company complies with applicable reporting requirements and with the restrictions of Section 162(m) of the Code, the Company generally will be entitled to an income tax deduction in the same amount and generally at the same time as the participant recognizes ordinary income.

Page 29

Restricted Stock and Restricted Stock Units. A participant who is awarded restricted stock will not recognize any taxable income for federal income tax purposes in the year of the award, provided that the shares of Company stock are subject to restrictions (that is, the restricted stock is nontransferable and subject to a substantial risk of forfeiture). However, if shares are issued at the time of grant, the participant may elect under Section 83(b) of the Code to recognize compensation income in the year of the award in an amount equal to the fair market value of the Company stock on the date of the award (less the purchase price, if any), determined without regard to the restrictions. If the participant does not make such a Section 83(b) election, the fair market value of the Company stock on the date the restrictions lapse (less the purchase price, if any) will be treated as compensation income to the participant and will be taxable in the year the restrictions lapse and dividends paid while the Caterpillar stock is subject to restrictions will be treated as compensation income and may be subject to withholding taxes. If, on the other hand, shares are not issued until after the restriction period ends (i.e., restricted stock units), the participant is not eligible to make an election under Section 83(b) of the Code. If the Company complies with applicable reporting requirements and with the restrictions of Section 162(m) of the Code, the Company generally will be entitled to an income tax deduction in the same amount and generally at the same time as the participant recognizes ordinary income.

Generally, there are no immediate tax consequences of receiving an award of restricted stock units under the Plan, provided the restricted stock units are subject to a substantial risk of forfeiture. Upon vesting of the restricted stock units, a participant will recognize ordinary income in an amount equal to the value of the fair market value of Company stock on the date shares are issued. If the Company complies with applicable reporting requirements and, if applicable, with the restrictions of Section 162(m) of the Code, the Company generally will be entitled to an income tax deduction in the same amount and generally at the same time as the participant recognizes ordinary income.

Stock-Settled Stock Appreciation Rights. There are no immediate tax consequences of receiving an award of stock-settled SARs under the Plan. Upon exercising a stock appreciation right, a participant will recognize ordinary income in an amount equal to the difference between the exercise price and the fair market value of the Company stock on the date of exercise. If the Company complies with applicable reporting requirements and, if applicable, with the restrictions of Section 162(m) of the Code, the Company generally will be entitled to an income tax deduction in the same amount and generally at the same time as the participant recognizes ordinary income.

Performance Awards. The award of a performance award will have no federal income tax consequences for the Company or for the participant. The payment of the award is taxable to a participant as ordinary income. If the Company complies with applicable reporting requirements and, if applicable, with the restrictions of Section 162(m) of the Code, the Company generally will be entitled to an income tax deduction in the same amount and generally at the same time as the participant recognizes ordinary income.

PROPOSAL 4 —

Amend Restated
Certificate of
Incorporation and
Bylaws to Provide for
Annual Election of
Directors

The Board proposes the annual election of directors.

The Company's Restated Certificate of Incorporation (Certificate of Incorporation) and Bylaws currently provide that the Board is to be divided into three classes of directors, with each class elected every three years. On the recommendation of the Governance Committee, your Board has approved amendments to the Company's Certificate of Incorporation and Bylaws to provide for the annual election of directors. Stockholder proposals seeking to implement the annual election of directors were brought before stockholders in 2008 and 2009, and received the vote of more than 69 percent and 65 percent, respectively, of the votes cast at each annual meeting of stockholders.

Each director will stand for re-election annually beginning at the 2011 annual meeting.

If approved, this proposal would become effective upon the filing of an amended and restated Certificate of Incorporation containing the proposed amendments with the Secretary of State of Delaware, which the Company

intends to do promptly after the required stockholder approval is obtained. Upon filing, each director elected at the 2010 Annual Meeting would hold office until the 2011 annual meeting. At the 2011 annual meeting, all of our current directors' terms would expire, and all directors would stand for election at the 2011 annual meeting and on an annual basis thereafter. For example, directors elected in 2009 would serve until 2011 and stand for election annually thereafter rather than for their originally elected three-year term expiring in 2012. At all times, directors will serve until their successors have been elected and qualified. This proposal would not change the present number of directors, and it would not change the Board's authority to change that number and to fill any vacancies or newly created directorships.

Subsections (b), (c), (d) and (f) of the SIXTH provision of the Certificate of Incorporation and subsections (b), (c) and (f) of Section 1, Election of Directors, of Article III of the Bylaws contain the provisions that will be affected if this proposal is adopted.

Vote Required

The affirmative vote of no less than 75 percent of the outstanding shares is needed to adopt these amendments.

Background of Proposal

This proposal is a result of the Board's ongoing review of corporate governance matters. The Board, assisted by the Governance Committee, considered the benefits and disadvantages of maintaining the classified board structure. The Board considered the view of some stockholders who believe that classified boards (i) encourage management entrenchment and self-dealing, (ii) have the effect of reducing the accountability of directors to stockholders because stockholders are unable to elect all directors on an annual basis and (iii) discourage possible bids to purchase the Company because classified boards prevent a hostile bidder from removing all directors at a single meeting.

The Board also considered the benefits of retaining the classified board structure, which has a long history in corporate law. Proponents of a classified structure believe it (i) provides continuity and stability in the management of the business and affairs of a company, (ii) enhances long-term planning and (iii) helps attract and retain director candidates. Proponents also assert that classified boards may enhance stockholder value by forcing an entity seeking control of a target company to initiate arms-length discussions with the board of that company. While the Board recognizes those potential benefits, it also recognizes that even without a classified board, the Company has other means that may allow it to compel a takeover bidder to negotiate with the Board, including certain provisions in its Certificate of Incorporation and Bylaws.

On the recommendation of the Governance Committee and after due deliberation based on the facts and data presented, your Board, subject to the approval of no less than 75 percent of the outstanding shares of the Company, approved the proposed amendments to the Certificate of Incorporation and Bylaws, and now recommends that you approve them.

Page 31

The proposed amendments to the Certificate of Incorporation and Bylaws to declassify the Board are described in more detail below. Appendix B to this proxy statement sets out the Certificate of Incorporation and Appendix C to this proxy statement sets out the Bylaws, each including these proposed amendments.

FOR THESE REASONS, YOUR BOARD OF DIRECTORS RECOMMENDS VOTING "FOR" PROPOSAL 4.

PROPOSAL 5

— Amend Restated
Certificate of
Incorporation and
Bylaws to Eliminate
Supermajority Voting
Requirements

The Board proposes replacing supermajority voting requirements with a simple majority of outstanding shares requirement.

We are proposing amendments to our Certificate of Incorporation and Bylaws that would remove any requirements for a supermajority vote of at least 75 percent of the outstanding stock of the Company.

The Company's Certificate of Incorporation and Bylaws currently require a supermajority vote of at least 75 percent of the outstanding shares of the Company to alter, amend or repeal provisions relating to (i) procedures and processes for the election and removal of directors, (ii) special meetings and shareholder actions by written consent, and (iii) policies and procedures relating to the annual meeting. This proposed amendment would reduce the required stockholder approval for these actions to a simple majority of outstanding shares.

Vote Required

The affirmative vote of no less than 75 percent of the outstanding shares is needed to adopt these amendments.

Background of Proposal

Supermajority voting provisions are intended to provide protection against self-interested action by large stockholders and to encourage a person seeking control of a company to negotiate with its board to reach terms that are fair and provide the best results for all stockholders. However, as corporate governance standards have evolved, many investors and commentators now view these provisions as limiting a board's accountability to stockholders and the ability of stockholders to effectively participate in corporate governance.

Page 33

On the recommendation of the Governance Committee and after due deliberation based on the facts and data presented, your Board, subject to the approval of no less than 75 percent of the outstanding shares of the Company, approved the proposed amendments to the Certificate of Incorporation and Bylaws, and now recommends that you approve them.

The proposed amendments to the Certificate of Incorporation and Bylaws to eliminate these supermajority provisions are described in more detail below. Appendix B to this proxy statement sets out the Certificate of Incorporation and Appendix C to this proxy statement sets out the Bylaws, each including these proposed amendments.

Certificate of Incorporation

- Article Fifth – Currently requires a supermajority vote to amend certain provisions in the Bylaws relating to policies and procedures relating to the annual meeting (Article II, Section 1(b)(ii)), special meetings (Article II, Section 1(c)), stockholder action by consent (Article II, Section 3(e)) and election of directors (Article III, Section 1):

“FIFTH: In furtherance and not in limitation of the powers conferred by statute, the Board of Directors shall have power to make, alter, amend and repeal the bylaws (except so far as the bylaws adopted by the stockholders shall otherwise provide). Any bylaws made by the Board of Directors under the powers conferred hereby may be altered, amended or repealed by the Board of Directors or by the stockholders. Notwithstanding the foregoing and anything contained in this Certificate of Incorporation to the contrary, Sections 1(b)(ii), 1(c) and 3(e)(f)1 of Article II, and Section 1 of Article III of the bylaws shall not be altered, amended or repealed, and no provisions inconsistent therewith shall be adopted, without the affirmative vote of the holders of not less than a majority seventy-five percent (75%) of the outstanding stock of the corporation entitled to vote generally in the election of directors, voting together as a single class (it being understood that for the purposes of this Article FIFTH, each share shall have one vote except as otherwise provided in accordance with Article FOURTH).”

- Article Sixth, subsection (e) – Currently requires a supermajority vote to remove a director without cause:

“(e) Any director may be removed from office without cause but only by the affirmative vote of the holders of not less than a majority seventy-five percent (75%) of the outstanding stock of the corporation entitled to vote generally in the election of directors, voting together as a single class (it being understood that for the purpose of this Article SIXTH, each share shall have one vote except as otherwise provided in accordance with Article FOURTH).”

- Article Eighth – Currently requires a supermajority vote to amend Articles Fifth, Sixth, Seventh and Eighth:

“EIGHTH: The corporation reserves the right to amend, alter, change or repeal any provision contained in this Certificate of Incorporation, in the manner now or hereafter prescribed by statute and this Certificate of Incorporation, and all rights conferred on stockholders herein are granted subject to this reservation. Notwithstanding the foregoing, the affirmative vote of not less than a majority seventy-five percent (75%) of the total voting power of all outstanding shares of stock in this corporation entitled to vote generally in the election of directors voting together as a single class (it being understood that for the purposes of this Article EIGHTH, each share shall have one vote except as otherwise

provided in accordance with Article FOURTH) shall be required to alter, amend or repeal, or adopt any provisions inconsistent with the provisions set forth in Articles FIFTH, SIXTH, SEVENTH, and this Article EIGHTH."

Bylaws

- Article III, Section 1(e): Requires a supermajority vote to remove a director without cause.

"(e) Removal. Any director may be removed from office without cause but only by the affirmative vote of the holders of not less than a majority seventy-five percent (75%) of the outstanding stock of the corporation entitled to vote generally in the election of directors, voting together as a single class."

FOR THESE REASONS, YOUR BOARD OF DIRECTORS RECOMMENDS VOTING "FOR" PROPOSAL 5.

Stockholder Proposals

PROPOSAL 6 — Independent Chairman of the Board

Pursuant to Rule 14a-8(l)(1) of the Securities Exchange Act of 1934, the Company will provide the name, address and number of Company securities held by the proponent of this stockholder proposal promptly upon receipt of a written or oral request.

This proposal requires an affirmative vote of the majority of shares present or represented at the Annual Meeting and entitled to vote to pass.

Supporting Statement of Proponent

I believe:

- The role of the CEO and management is to run the company.
- The role of the Board of Directors is to provide independent oversight of the CEO and management.

I believe that the Chair of the Board of Directors should not be the CEO but should be a director independent of management.

As Intel co-founder and former chairman Andrew Grove put it, "The separation of the two jobs goes to the heart of the conception of a corporation. Is a company a sandbox for the CEO, or is the CEO an employee? If he's an employee, he needs a boss, and that boss is the board. The chairman runs the board. How can the CEO be his own boss?"

In 2009, Yale University's Millstein Center for Corporate Governance and Performance published a Policy Briefing paper "Chairing the Board," arguing the case for a separate, independent Board Chair. The report states that chairing and overseeing the Board is a time intensive responsibility and that a separate Chair leaves the CEO free to manage the

company and build effective business strategies.

A nonexecutive Chair is the prevailing practice in the United Kingdom and many other countries. More and more U. S. companies are separating the Chair and the CEO as a matter of good corporate governance. Nearly 40% of the S&P 500 companies have boards not chaired by their CEO.

I believe many U. S. companies hold back in making this transition to an independent Chair out of concern that such a move might be viewed as the demotion of the incumbent Chair/CEO, suggesting perhaps a loss of confidence in him or her. In apparent reflection of this, shareholder resolutions have been proposed in a number of companies requesting that the Board adopt a policy of an independent Chair and implementing that policy when the next CEO is chosen.

In October 2009, Caterpillar announced that Douglas Oberhelman would succeed James Owens as CEO. I am delighted that Caterpillar has been able to achieve CEO succession of promoting from within someone whom the board knows well and who has a 35-year successful career at Caterpillar. I have every confidence in Mr. Oberhelman's ability to run the company.

However, I feel now is the time that Caterpillar should transition to an independent Chair. I believe that, as a matter of good corporate governance, Mr. Oberhelman should not chair the Board, but the Board should elect a director independent of management as chair to lead it in its role of providing independent oversight of the new CEO and his management team.

Resolution Proposed by Stockholder

Resolved: The shareholders request the Board of Directors to adopt as policy that, whenever possible, the Chair of the Board of Directors not be the Chief Executive Officer or anyone reporting, directly or indirectly, to the chief executive officer.

Page 35

Caterpillar Response to PROPOSAL 6 – Independent Chairman of the Board

Statement in Opposition to Proposal

After careful consideration, the Board recommends voting AGAINST this proposal for the reasons provided below.

The combined role of Chairman and CEO promotes unified leadership and a clear focus for management as it executes our strategy and business plans.

The Board believes the combined role of Chairman and CEO promotes unified leadership and direction for the Company, which allows for a single, clear focus for management to execute our strategy and business plans. The Board has adopted Guidelines on Corporate Governance Issues (available at www.CAT.com/governance), consistent with our Bylaws, which state that the role of the Chairman of the Board is to be filled by the Company's CEO. This leadership structure has fostered the continued success of the Company, which has paid a cash dividend every year since its formation in 1925. Over the past five years, our annual total cumulative stockholder return has consistently outperformed the S&P 500 Index. Even in 2009, in the most challenging economic environment since the Great Depression, we remained profitable, improved our balance sheet and maintained our dividend rate and our "mid-A" credit ratings. The Board believes that these results are, in part, the product of the unified and focused leadership of

our Chairman and CEO. The combined structure also avoids the added costs and inefficiencies that would result by mandating an independent Chairman.

You have repeatedly rejected similar proposals in the past.

Our stockholders rejected similar stockholder proposals in 2006, 2007 and 2009. The proposal suggests that the Board cannot provide effective independent oversight of the Company and its management team because an independent director does not hold the office of Chairman. The Board believes that this assertion is without merit and the majority of our stockholders have indicated that they agree. Indeed, the majority of S&P 500 companies currently combine the positions of Chairman of the Board and CEO.

The proposal suggests that the succession of a new Chairman in 2010 is an opportunity to transition to an independent Chairman of the Board. Rather than introduce uncertainty and doubt regarding roles and responsibilities during the succession, as suggested by the proposal, the Board has determined to amend the Company's Bylaws to allow the current Chairman and CEO to continue to serve as Chairman of the Board during a transition period of no more than six months, following which time the new CEO will assume the role of Chairman. The Board considers that this approach to succession will provide stability and continuity as we execute on our strategy and business plans.

The Board has already adopted measures, including establishing the role of an independent Presiding Director, to assure its ability to provide independent oversight of management.

The Board agrees with the proponent that its role, among others, is to provide independent oversight of the CEO and management and has adopted various policies to ensure its independence. Each of the directors, with the exception of the Chairman, has been determined to be independent as defined under NYSE regulations, and all committees of the Board are made up entirely of independent directors. The Board and Governance Committee have consistently selected strong, accomplished individuals as directors, many of whom are currently or recently have been leaders of major companies or institutions, and all of whom are independent thinkers and have a wide range of relevant expertise and skills.

In addition, in 2007 the independent directors unanimously elected, from the ranks of the independent directors, the Chairman of the Governance Committee as the Board's Presiding Director. The Presiding Director's duties and responsibilities include: (i) presiding at all meetings of the Board at which the Chairman is not present; (ii) serving as a liaison between the Chairman and the independent directors; (iii) approving information sent to the Board; (iv) approving meeting agendas for the Board; (v) approving meeting schedules to assure that there is sufficient time for discussion of all agenda items; (vi) authority to call meetings of the independent directors; and (vii) if requested by major shareholders, ensuring that he is available for consultation and direct communication. Based on these duties and responsibilities, the Board believes that the Presiding Director provides an effective "counter-balance" to the combined role of CEO and Chairman.

Page 36

The Board regularly meets in executive session without management. The Presiding Director chairs these meetings and provides the Board's guidance and feedback to the Chairman and the Company's management team. The Board has complete access to the Company's management team. On a regular basis, the Board and its committees receive information and reports from management on the status of the Company and the risks associated with the Company's strategy and business plans.

Given the strong leadership of the Company's Chairman and CEO, the counter-balancing role of the Presiding Director and a Board comprised of strong and independent directors, the Board continues to believe it is in the best long-term interests of the Company and its stockholders to maintain the combined role of Chairman and CEO.

FOR THESE REASONS, YOUR BOARD OF DIRECTORS RECOMMENDS VOTING "AGAINST" PROPOSAL 6.

PROPOSAL 7 – Review of Global Corporate Standards

Pursuant to Rule 14a-8(l)(1) of the Securities Exchange Act of 1934, the Company will provide the name, address and number of Company securities held by the proponents of this stockholder proposal promptly upon receipt of a written or oral request.

This proposal requires an affirmative vote of the majority of shares present or represented at the Annual Meeting and entitled to vote to pass.

Supporting Statement of Proponents

Caterpillar's current policy, the Worldwide Code of Conduct, contains no references to existing international human rights codes except for a corporate policy of non-discrimination, and aspirational goals to maintain employee health and safety. It also does not apply to company dealers whose activities can carry extensive reputational risks for Caterpillar. We believe company policies should reflect more robust, comprehensive understanding of human rights.

We recommend the review include policies designed to protect human rights-civil, political, social, environmental, cultural and economic-based on internationally recognized human rights standards: i.e.; the Universal Declaration of Human Rights, the Fourth Geneva Convention, the International Covenant on Civil and Political Rights, core labor standards of the International Labor Organization, the International Covenant on Economic, Cultural and Social Rights, and United Nations resolutions and reports of UN special rapporteurs on countries where Caterpillar does business.

This review and report will assure shareholders that Caterpillar policies and practices reflect or conform to human rights conventions and guidelines and international law. While we are not recommending specific provisions of the above-named international conventions, we believe significant commercial advantages may accrue to our company by adopting a comprehensive human rights policy based on the UN Human Rights Norms serving to enhance corporate reputation, improve employee recruitment and retention, improve community and stakeholder relations and reduce risk of adverse publicity, consumer boycotts, divestment campaigns and lawsuits.

Resolution Proposed by Stockholders

Whereas, Caterpillar, a global corporation, faces increasingly complex problems as the international social and cultural context within which Caterpillar operates changes.

Companies are faced with ethical and legal challenges arising from diverse cultures and political and economic contexts. Today, management must address issues that include human rights, workers' right to organize, non-discrimination in the workplace, protection of environment and sustainable community development. Caterpillar itself does business in countries with human rights challenges including China, Colombia, Myanmar/Burma, Syria and Israel and the occupied Palestinian territories.

We believe global companies must implement comprehensive codes of conduct, such as those found in “Principles for Global Corporate Responsibility: Bench Marks for Measuring Business Performance,” developed by an international group of religious investors. (April, 2003, www.ben-marks.org) Companies must formulate policies to reduce risk to reputation in the global marketplace. To address this situation, some companies, such as Hewlett-Packard and Coca-Cola, are even extending policies to include franchisees, licensees and agents that market, distribute or sell their products.

In August 2003, the United Nations Sub-Commission on the Promotion and Protection of Human Rights took historic action by adopting “Norms on the Responsibilities of Transnational Corporations and Other Business Enterprises with Regard to Human Rights.”(www1.umn.edu/humanrts/links/NormsApril2003.html)

RESOLVED, the shareholders request the Board of Directors to review and amend, where applicable, Caterpillar’s policies related to human rights that guide international and U.S. operations, extending policies to include franchisees, licensees and agents that market, distribute or sell its products, to conform more fully with international human rights and humanitarian standards, and that a summary of this review be posted on Caterpillar’s website by October 2010.

Caterpillar Response to PROPOSAL 7 – Review of Global Corporate Standards

Statement in Opposition to Proposal

After careful consideration, the Board recommends voting AGAINST this proposal for the reasons provided below.

Our Worldwide Code of Conduct (Code of Conduct) defines what we stand for and believe in, documenting the uncompromisingly high ethical standards our Company has upheld since its founding in 1925.

Our Code of Conduct, first published in 1974, is readily available on the Company’s website at www.CAT.com/code and, as illustrated in the following excerpts, already embodies many of the principles contained in the proponents’ proposal.

We Treat People Fairly and Prohibit Discrimination

- We build and maintain a productive, motivated work force by treating all employees fairly and equitably. We respect and recognize the contributions of employees.
- We will select and place employees on the basis of their qualifications for the work to be performed, considering accommodations as appropriate and needed -- without regard to their race, religion, national origin, color, gender, sexual orientation, age, and/or physical or mental disability.
 - We support and obey laws that prohibit discrimination everywhere we do business.

We Select, Place and Evaluate Employees Based on their Qualifications and Performance

- Caterpillar selects employees, and places them in positions, based on their personal qualifications and skills for the job. We evaluate and reward employees based on the quality of the work they do and the contributions they make to Caterpillar.

We Foster an Inclusive Environment

- We understand and accept the uniqueness, and are non-judgmental regarding differences, of individuals. We value the diversity of unique talents, skills, abilities, and experiences that enable Caterpillar people to achieve superior business and personal results.

We Conduct Business Worldwide With Consistent Global Standards

- As a global company, we understand that there are many differing economic and political philosophies and forms of government throughout the world. We acknowledge the wide diversity that exists among the social customs and cultural traditions in the countries in which we operate. We respect such differences, and to the extent that we can do so in keeping with the principles of our Code of Conduct, we will maintain the flexibility to adapt our business practices to them.

Page 38

We Protect the Health and Safety of Others and Ourselves

- As a company, we strive to contribute toward a global environment in which all people can work safely and live healthy, productive lives, now and in the future. We actively promote the health and safety of employees with policies and practical programs that help individuals safeguard themselves and their co-workers.

We Support Environmental Responsibility Through Sustainable Development

- Our products and services are intended to support sustainable development of global resources and they will meet or exceed applicable regulations and standards wherever they are initially sold. We establish and adhere to environmentally sound policies and practices in product design, engineering, and manufacturing. We educate and encourage our customers to use the products they purchase from us in environmentally responsible ways. We take effective steps to continually increase the natural resources efficiency and cleanliness of our facilities. We offer leadership and financial support to industry and community initiatives that share our commitment to the environment.

We Refuse to Make Improper Payments

- In dealing with public officials, other corporations, and private citizens, we firmly adhere to ethical business practices. We will not seek to influence others, either directly or indirectly, by paying bribes or kickbacks, or by any other measure that is unethical or that will tarnish our reputation for honesty and integrity. Even the appearance of such conduct must be avoided.

Living By the Code

- While we conduct our business within the framework of applicable laws and regulations, for us, mere compliance with the law is not enough. We strive for more than that. Through our Code of Conduct, we envision a work environment all can take pride in, a company others respect and admire, and a world made better by our actions.

We View Our Suppliers As Our Business Allies

- We look for suppliers and business allies who demonstrate strong values and ethical principles and who support our commitment to quality. We avoid those who violate the law or fail to comply with the sound business practices we promote.

At Caterpillar, we are dedicated to promoting a healthy, productive and rewarding work environment for our employees worldwide.

Our Code of Conduct reflects our dedication to these issues. Your Board believes that the Code of Conduct effectively articulates our long-standing support for, and continued commitment to, human rights and does not believe that implementation of this proposal is necessary or desirable as the concerns raised by the proponent are already being addressed in a meaningful way. As these issues are already provided for in our Code of Conduct, the Board further believes that this proposal would add unnecessary cost to the Company and divert management's attention from the current processes in place to address these issues.

FOR THESE REASONS, YOUR BOARD OF DIRECTORS RECOMMENDS VOTING "AGAINST" PROPOSAL 7.

PROPOSAL 8 – Special Stockholder Meetings

Pursuant to Rule 14a-8(l)(1) of the Securities Exchange Act of 1934, the Company will provide the name, address and number of Company securities held by the proponent of this stockholder proposal promptly upon receipt of a written or oral request.

This proposal requires an affirmative vote of the majority of shares present or represented at the Annual Meeting and entitled to vote to pass.

Supporting Statement of Proponent

A special meeting allows shareowners to vote on important matters, such as electing new directors, that can arise between annual meetings. If shareowners cannot call a special meeting investor returns may suffer. Shareowners should have the ability to call a special meeting when a matter merits prompt attention. This proposal does not impact our board's current power to call a special meeting.

This proposal topic also won more than 60% support at these companies in 2009: CVS Caremark (CVS), Sprint Nextel (S), Safeway (SWY), Motorola (MOT) and R.R. Donnelley (RRD).

We gave more than 57%-support each to 2008 and 2009 shareholder proposals calling for one-year terms for directors (declassification of the board). The Council of Institutional Investors www.cii.org recommends that management adopt shareholder proposals upon receiving their 50%-plus vote.

I believe that shareholders like us, who repeatedly give more than 57%-support to one-year terms for directors, will support a shareholder right to call a special meeting by a majority vote.

Please encourage our board to respond positively to this proposal regarding Special Shareowner Meetings.

Resolution Proposed by Stockholder

RESOLVED, Shareowners ask our board to take the steps necessary to amend our bylaws and each appropriate governing document to give holders of 10% of our outstanding common stock (or the lowest percentage allowed by law above 10%) the power to call a special shareowner meeting. This includes that a large number of small shareowners can combine their holdings to equal the above 10% of holders. This includes that such bylaw and/or charter text will not have any exception or exclusion conditions (to the fullest extent permitted by state law) that apply only to shareowners but not to management and/or the board.

Caterpillar Response to PROPOSAL 8 – Special Stockholder Meetings

Statement in Opposition to Proposal

After careful consideration, the Board recommends voting AGAINST this proposal for the reasons provided below.

Our Certificate of Incorporation already provides a process for calling special meetings, effectively safeguarding the broader interests of all stockholders.

The Board has a longstanding goal of providing effective governance of our business for the long-term benefit of our stockholders. The Board is composed of independent, active and effective directors. 14 of our 15 directors meet the independence requirements of the NYSE, the SEC and the Board's standards for determining director independence. The primary responsibility of the Board is to promote the best interests of Caterpillar and its stockholders by overseeing the management of the Company's business and affairs.

Page 40

Our Certificate of Incorporation provides that a special meeting of stockholders may be called at any time by a majority of the Board members. This provision is appropriate for a public company the size of Caterpillar because it allows the Board members, in accordance with their fiduciary duties, to exercise their business judgment to determine when it is in the best interests of the Company and its stockholders to convene a special meeting. These provisions effectively safeguard the broader interests of the Company and all stockholders by entrusting such decisions to a qualified and experienced group of directors elected by all stockholders who have a fiduciary duty to act in the best interests of the Company and all stockholders.

This proposal would enable holders of only 10 percent of our outstanding shares to call special stockholders' meetings without any limitation on the number or frequency of such meetings. Adoption of this proposal would mean that a small minority of stockholders acting together would be able to call such a special meeting. Thus, a very small group of stockholders could call special meetings on topics that do not concern, or may be of little or no interest or value to, the majority of stockholders.

A special stockholders' meeting would be an expensive and time-consuming event. Proxy materials would have to be prepared, printed and distributed, requiring the Company to incur significant costs. The Board and management of the Company would be required to spend a significant amount of time preparing for the meeting, diverting their attention from overseeing and managing the Company's business. As a result, the Board believes that a special stockholders' meeting should be convened when the Board members, exercising their fiduciary obligations, determine that there is an extraordinary matter or significant strategic concern that requires consideration by the Company's stockholders before the next annual meeting.

Our corporate governance policies ensure that the Board is held accountable and provide stockholders with access to the Board and ample opportunity to submit items for approval at annual meetings.

The Board believes that the Company's existing corporate governance policies provide an appropriate balance between ensuring that the Board is accountable to the stockholders and enabling the Board to effectively oversee the Company's business for the long-term benefit of the stockholders. In particular, stockholders may communicate directly with any director, any Board committee or the full Board; propose director nominees to the Governance Committee; and submit proposals for presentation at an annual meeting of the stockholders of the Company and for inclusion in the Company's proxy statement for that annual meeting.

In fact, the Board's governance practices and policies demonstrate its commitment to being accountable to the Company's stockholders, including the following:

- In June 2005, the Company terminated its shareholder rights plan, or “poison pill,” early in response to stockholder concerns.
- Based on shareholder votes in 2008 and 2009, the Board has approved a plan to declassify the Board so that all of the Directors are elected annually. We are seeking your approval for this plan set forth in Company Proposal 4.
- In response to current trends in corporate governance, we are also seeking your approval to eliminate certain supermajority voting requirements in our Certificate of Incorporation and Bylaws. See Company Proposal 5.

These policies provide stockholders with reasonable access to Board members and adequate opportunities to bring matters before the stockholders on an annual basis.

Our stockholders already have the right to vote on certain significant corporate transactions.

The suggestion that stockholders need the right to call special meetings to protect their interests in the case of extraordinary events involving the Company is simply misleading. We are subject to rules governing Delaware corporations and companies listed on the NYSE that already require us to submit certain significant matters to a stockholder vote for approval. For example, amendments to the Company’s Certificate of Incorporation, mergers, a sale of all or substantially all of the Company’s assets, increases in the number of authorized shares and the adoption of equity-based compensation plans all require a stockholder vote.

Page 41

Our stockholders expect us to make decisions based on facts – not speculation.

Currently, over half of the S&P 500 companies do not permit stockholders to call special meetings. However, without providing any factual basis, the proponent speculates that investor returns may suffer if stockholders are unable to call a special meeting. The Board believes that speculation is an insufficient justification to disrupt the Company’s operations and to incur the additional costs that would certainly be required if a small minority of activist stockholders were able to call special meetings.

FOR THESE REASONS, YOUR BOARD OF DIRECTORS RECOMMENDS VOTING “AGAINST” PROPOSAL 8.

Compensation Discussion and Analysis

At Caterpillar, integrity is one of our core values. We believe in the power of honesty and know the only way to build and strengthen our reputation is through trust. We hold ourselves to the highest standard of integrity and ethical behavior and strive for transparency. We welcome the opportunity to share this Compensation Discussion and Analysis (CD&A) with our stockholders.

We understand investors have a vested interest in executive compensation. After reading this CD&A, we hope you will recognize a few vital points:

- § We have a thorough compensation review process
- § We have a competitive compensation plan that aligns executive performance and long-term stockholder interests
 - § We believe the best way to compensate our executives is to base their rewards on performance
- § We have no severance packages that apply solely to executives. Change in Control provisions are found within existing compensation plans and apply equally to all participants in those plans.
 - § We do not backdate or re-price equity grants

During fiscal year 2009, Caterpillar was organized into six groups, each led by a group president. Because the six group presidents have comparable responsibilities and are similarly compensated, we are including all six of the group presidents as named executive officers (NEOs), in addition to the Chief Executive Officer and Chief Financial Officer.

On October 22, 2009, we announced that James W. Owens, Chairman and CEO, would retire on October 31, 2010. As Owens' successor, Douglas R. Oberhelman became Vice Chairman and CEO-Elect on January 1, 2010, and is expected to become CEO on July 1, 2010 and Chairman on November 1, 2010.

This CD&A describes the overall compensation practices at Caterpillar and specifically describes the 2009 total compensation for the following NEOs:

	§	James W. Owens, Chairman and CEO
§		Douglas R. Oberhelman, Vice Chairman, CEO-Elect and Group President
	§	Richard P. Lavin, Group President
	§	Stuart L. Levenick, Group President
	§	Edward J. Rapp, Group President
	§	Gerard R. Vittecoq, Group President
	§	Steven H. Wunning, Group President
§		David B. Burritt, Vice President and Chief Financial Officer

We are fortunate to have executives who are “career employees” with a strong commitment to the long-term success of Caterpillar. In fact, the average tenure of our NEOs is 33 years. Our reputation is a reflection of our employees’ ethical performance, and the values that guide Caterpillar have in turn rewarded our employees and stockholders with a successful and profitable Company.

Compensation Philosophy and Objectives

Two primary components define Caterpillar’s compensation philosophy: Pay for Performance and Pay at Risk.

As an employee’s responsibility increases, so does the proportional amount of “at risk” pay. This is especially true for our executives who have direct responsibility for overall Company performance. A significant portion of executive pay depends on meeting certain performance goals, which is fundamental to aligning executive pay with long-term stockholder interests.

Page 44

The Compensation Committee established three principles to drive this philosophy through the Company’s compensation design.

1. Base salary, as a percentage of total direct compensation, should decrease as salary grade levels increase. As employees move to higher levels of responsibility with more direct influence over the Company’s performance, they have a higher percentage of pay at risk.
2. The ratio of long-term incentive compensation to short-term incentive compensation should increase as salary grade levels increase. Caterpillar expects executives to focus on the Company’s long-term success. The compensation program is designed to motivate executives to take actions that are best for the Company’s long-term viability.
3. Equity compensation should increase as salary grade levels increase. Employees in positions that most directly affect the Company’s performance should have profitable growth for the Company as their main priority. Receiving part of their compensation in the form of equity reinforces the link between their actions and stockholders’ investment. Equity ownership encourages executives to behave like owners and provides a clear link with stockholders’ interests.

In following these principles and by tying employee compensation to both individual performance and the long-term performance of the Company, Caterpillar links the interests of management and long-term stockholders. In addition, the compensation program is designed to attract and retain high-caliber, talented employees who will guide the Company in continuing to meet and exceed its performance goals.

Overview of Compensation Practices

The Compensation Committee is responsible for the compensation program design and decision-making process for NEOs. The Compensation Committee regularly reviews Caterpillar's compensation practices, including the methodologies for setting NEO total compensation, the goals of the compensation program and the underlying compensation philosophies. The Compensation Committee believes that by utilizing long-term cash and equity as the predominant components of NEO total compensation, along with significant stock ownership requirements, the NEO objectives are aligned with those of our long-term stockholders.

The Compensation Committee also uses benchmarking data, provided by its compensation consultant, to track Caterpillar's practices and compensation levels against comparable companies within its industry and across multiple industries. However, the Compensation Committee exercises its independent judgment when establishing compensation policies, especially when rewarding individual performance. The responsibilities of the Compensation Committee are described more fully in its charter, which is available at www.CAT.com/governance.

How Caterpillar Determines Total Compensation for Executives

Performance Evaluation: CEO

The Board, excluding the CEO, performs the CEO's evaluation. The Board's evaluation includes both objective and subjective criteria of the CEO's performance, including:

	§	Caterpillar's financial performance
§		The accomplishment of Caterpillar's long-term strategic objectives
§		The achievement of individual goals set at the beginning of each year
	§	The development of Caterpillar's top management team

Prior to the Board's determination, the Compensation Committee evaluates CEO compensation using benchmarking information (discussed on page 47) to set total compensation. The Compensation Committee also performs its own performance review and provides its recommendations to the Board.

Page 45

Performance Evaluations: NEOs other than CEO

The Compensation Committee, in conjunction with the CEO, performs the other NEOs' evaluations, excluding Mr. Burritt whose evaluation is performed by Mr. Rapp. Each February, the CEO submits a performance assessment and compensation recommendation to the Compensation Committee for each of the other NEOs. The performance evaluation is based on factors such as:

	§	Achievement of individual and Company objectives
	§	Contribution to the Company's performance
	§	Leadership accomplishments

The Compensation Committee also reviews total compensation benchmark information, with respect to the other NEOs, in determining whether to increase or decrease the CEO's compensation recommendation. The Compensation Committee makes the final decision regarding the total compensation for the other NEOs.

Compensation Consultant

For 2009, the Compensation Committee retained John L. Anderson of Hewitt Associates LLC (Hewitt) to provide ongoing advice and information regarding design and implementation of Caterpillar's executive compensation programs. Mr. Anderson also provided information and updates to the Compensation Committee about regulatory and

other technical developments that may affect the Company's executive compensation programs. In addition, Mr. Anderson and a team at Hewitt provided the Compensation Committee with competitive market information, analyses and trends on executive base salary, short-term incentives, long-term incentives, benefits and perquisites.

With the full knowledge of the Compensation Committee, Caterpillar has retained a separate and distinct unit of Hewitt to be the third-party administrator for Caterpillar's U.S. retirement plans, as well as Caterpillar's U.S. Health & Welfare plans, in 2009.

In 2010, Hewitt's executive compensation group separated from Hewitt and formed Meridian Compensation Partners, LLC (Meridian). Mr. Anderson joined Meridian and is no longer employed by Hewitt. For 2010, the Compensation Committee hired Meridian solely as its consultant.

The Compensation Committee believes that Mr. Anderson and, for 2009, a team working with him from Hewitt, provided candid, direct and objective advice to the Compensation Committee, which was not influenced by any other services provided by Hewitt. To ensure independence:

- § The Compensation Committee directly hired and has the authority to terminate Mr. Anderson
- § Mr. Anderson is engaged by and reports directly to the Compensation Committee and its chairman
- § Mr. Anderson meets regularly and as needed with the Compensation Committee in executive sessions that are not attended by any personnel of the Company
- § Mr. Anderson has direct access to all members of the Compensation Committee during and between meetings
- § Mr. Anderson was not the Hewitt client relationship manager for Caterpillar
- § Neither Mr. Anderson nor any member of the team from Hewitt participated in any activities related to the administration services provided to Caterpillar by other Hewitt business units
- § Interactions between Mr. Anderson and management generally are limited to discussions on behalf of the Compensation Committee and information presented to the Compensation Committee for approval

Annual Review of Consultant Independence

The Compensation Committee is responsible, without the influence or input of management, for retaining and terminating compensation consultants and determining their terms and conditions, including fees. Hewitt provided the Compensation Committee an annual update on its services and related fees. The Compensation Committee determined whether the compensation consultant's services were performed objectively and free from the influence of management. The Compensation Committee also closely examined the safeguards and steps Hewitt took to ensure that its executive compensation consulting services were objective, for example:

- § Hewitt separated its executive compensation consulting services into a single, segregated business unit within Hewitt

Page 46

- § Hewitt paid its executive compensation consultants solely on their individual results and the results of its executive compensation consulting practice. In 2009, Mr. Anderson received no incentives based on other services Hewitt provided to Caterpillar.
- § Mr. Anderson does own shares in Hewitt; however, he did not receive stock options or other equity-related awards from Hewitt
- § The total amount of fees for executive compensation consulting services to the Compensation Committee in 2009 was \$255,822
- § The total amount of fees paid by Caterpillar to Hewitt in 2009 for all other services, excluding Compensation Committee services, was \$14,928,178. This is compared to total Hewitt fiscal 2009 revenues of \$3,073,560,000.
- § Other services were provided under a separate contractual arrangement and by a separate business unit at Hewitt

For these reasons, the Compensation Committee does not believe the services provided by Hewitt in conjunction with administering Caterpillar's benefit plans compromised Mr. Anderson's ability to provide the Compensation Committee with perspective and advice that was objective.

Peer Group Benchmarking

For 2009 peer group benchmarking, Caterpillar continued to use the Caterpillar Compensation Comparator Group (CCCG) for NEO compensation benchmarking, which consisted of the 28 large public companies listed below. Because we compete for executive talent from a variety of industries, the 28 companies represent a cross section of industries, not just heavy manufacturing companies. The peer group study methodology is consistent each year, which makes it easier to isolate how Caterpillar's executive compensation program is changing in relation to the market. The Compensation Committee monitors the CCCG to ensure that it continues to provide a reasonable comparison basis for executive compensation. There were no changes from 2008 to 2009 with respect to the companies included in the CCCG.

The CCCG's median annual revenue is less than Caterpillar's. To account for differences in the size of the companies in that group, the compensation consultant conducts a regression analysis with each comparison and presents the analysis to the Compensation Committee. Regression analysis adjusts the compensation data for differences in the companies' revenue, allowing Caterpillar to compare its compensation levels to similarly sized companies. The following companies compose the CCCG:

Page 47

Caterpillar uses a comparator group to benchmark (compare) all components of compensation to other companies within the group. Caterpillar targets the executive total cash compensation package, as well as the long-term incentive compensation components, at the size-adjusted median level of the comparator group. The Compensation Committee believes that targeting at the size-adjusted median level of the comparator group is necessary to attract and retain high-caliber employees. This ensures that Caterpillar remains competitive while maximizing its resources for stockholders.

Components of Caterpillar's Compensation Program

Total compensation is a mix of total cash and long-term incentives.

Executive Short-Term Incentive Plan (ESTIP) and Short-Term Incentive Plan (STIP) are annual incentive plans that deliver a targeted percentage of base salary (excluding any variable base pay) based on performance against predetermined enterprise goals. The plans are designed to focus the

NEOs on the shorter-term critical issues that are indicative of improved year-over-year performance.

The Long-Term Incentive Plan (LTIP) includes both equity and cash under the Long-Term Cash Performance Plan (LT CPP). LTIP is designed to reward the Company's key employees for achieving and/or exceeding the Company's long-term goals, to drive stockholder return and to foster stock ownership.

Total compensation for all NEOs is a mix of annual total cash and long-term incentives.

Annual base salary represents a relatively small portion of our NEOs' compensation. In fact, on average, 73 percent of annual compensation for our NEOs varies each year based on Caterpillar's performance. The following chart shows the 2009 total compensation mix (based on targeted compensation).

Page 48

Total Annual Cash Compensation

The Compensation Committee's review of 2009 market data showed total annual cash compensation structures for all NEOs were in line with the size-adjusted median level of the CCCG. The Compensation Committee made no adjustments to the base salary compensation structures, or to the short-term incentive target opportunities shown below.

Total cash includes base salary and the Executive Short-Term Incentive Plan or Short-Term Incentive Plan.

Base Salary

Base salary increases are performance-driven. The Compensation Committee uses the criteria described in the "Performance Evaluation" section to assess performance, which are assigned no particular weighting. Base salary increases, however, are dependent upon assessment of these factors. Base salary structures for Caterpillar executives are designed with a midpoint set at the size-adjusted median level of the CCCG. For all employees, the minimum of the base salary structure is 80 percent of the midpoint of the salary structure and the maximum is 120 percent of the midpoint of the salary structure. Base salaries for the NEOs are not increased above the midpoint of their respective

structures without meeting certain performance requirements. If NEOs reach the midpoint of their salary structure, any amount awarded above the midpoint must be re-earned annually and approved by the Compensation Committee. This amount is called variable base pay and is paid in the form of an annual lump sum cash award (disclosed in the "Bonus" column of the Summary Compensation table on page 61). This reinforces the Pay for Performance component of Caterpillar's compensation program. Additionally, due to current economic conditions, NEO base salary structures have been frozen and merit increases have been eliminated for 2009 and 2010.

Executive Short-Term Incentive Plan

The NEOs, excluding Mr. Burritt, participated in the 2009 ESTIP. The CEO was eligible for a target opportunity of 135 percent of base salary and the group presidents were eligible for a target opportunity of 100 percent of base salary.

In February 2009, the Compensation Committee reviewed and approved two enterprise-focused measures for the 2009 ESTIP. As further described below, these two measures link the compensation of the CEO and group presidents directly to the overall performance of Caterpillar. The measures and their relative weights in determining ESTIP payouts are as follows:

\$75% Corporate Return on Assets
\$25% Enterprise Quality

Prior to any ESTIP payout a "trigger" must be achieved, which is based on the Company's PPS. If the trigger is not achieved, there is no ESTIP payout. The Compensation Committee approved a PPS trigger of \$2.50 for ESTIP because Caterpillar has a strategic goal of achieving a PPS of at least \$2.50 annually. Due to a PPS of \$1.43 in 2009, no payments were made under ESTIP.

Corporate Return on Assets (ROA) is Machinery and Engines profit after tax plus short-term incentive compensation expense (after tax) divided by average monthly Machinery and Engines assets.

Enterprise Quality is an average of the business unit quality performance factors.

Profit Per Share (PPS) is the portion of a company's profit allocated to each outstanding share of common stock, diluted by the assumed exercise of stock-based compensation awards. PPS serves as an indicator of a company's profitability. This is also known as Earnings Per Share.

Page 49

As with all components of Caterpillar's compensation program, ESTIP rewards performance. For both measures listed above, the Compensation Committee established the threshold, target and maximum performance levels. If the threshold level is not achieved for a given measure, there is no ESTIP payout on that measure. Increasingly larger payouts are awarded for achievement of target and maximum performance levels. The following table outlines the payout factor range that applied to each performance level. The payout factor for each measure does not exceed 200 percent.

Return On Assets

Mean Dealer Repair Frequency measures the dealer repair frequency for a collection of products over a period of time approximately equal to their first year of operation.

The Compensation Committee approved ROA as the largest portion of 2009 ESTIP. The Compensation Committee selected ROA because it is a good indicator of how efficiently the Company is using its assets to generate earnings and driving value for our stockholders. The Compensation Committee reviewed forecasted versus actual ROA results to determine the appropriate target for the 2009 measure. The corporate ROA slope ranged from a threshold of 4.40 percent to the maximum of 12.40 percent, with a target of 7.10 percent. The following table illustrates ROA performance levels:

Very Early Hour Reliability captures the number of dealer-performed repairs to a product that occur from the pre-delivery inspection through the initial hours of machine operation.

Enterprise Quality

The Compensation Committee approved enterprise quality as the other 2009 ESTIP factor. The Compensation Committee selected enterprise quality because Caterpillar must continue to place an increased emphasis on quality across the entire organization to meet our long-term goals. Enterprise quality was measured by the average of the various business unit quality performance factors, which are Mean Dealer Repair Frequency, Very Early Hour Reliability, Significant Part Numbers and Cat Production System Assessment. Each business unit's quality performance factor or factors were weighted based on its applicable 2009 net sales and transfers (inter-company sales). The results were averaged to determine the enterprise quality result.

Significant Part Numbers are part numbers that have had failures in the last three years on products built in the last five years (unless the part is a remanufactured part).

The 2009 ESTIP results were as follows:

Cat Production System (CPS) Assessment is the common Order-To-Delivery process used to achieve our long-term safety, quality, velocity, earnings and growth goals.

Due to a PPS of \$1.43 in 2009, no payments were made under 2009 ESTIP and the individual payout factors were not applicable.

Page 50

Short-Term Incentive Plan

As a vice president, our CFO, Mr. Burritt, participated in Caterpillar's 2009 STIP. Mr. Burritt was eligible for a target opportunity of 90 percent of base salary. The measures and their relative weights in determining the 2009 STIP are as follows:

§	87.5% Corporate Return on Assets
§	12.5% Enterprise Quality

PPS of \$2.50 was also used as the "trigger" for payout under the 2009 STIP. The same trigger methodology applies for STIP as described previously for ESTIP.

Due to a PPS of \$1.43 in 2009, no payments were made under 2009 STIP and the individual payout factors were not applicable.

Long-Term Incentive Plan

Run rate measures the rate at which companies grant

The Compensation Committee annually analyzes market data on portfolio approaches for long-term incentive plans. Based on advice from the compensation consultant, portfolio approaches, where two or more long-term incentive compensation awards are used in some combination, are common practice. For example, SARs reward share appreciation; time-vested restricted units strengthen and enhance retention; and cash performance awards reinforce a long-term pay-for-results culture (see page 52 for definition of SARs and restricted stock units).

Caterpillar uses all three awards in its executive compensation package. Instead of awarding all long-term compensation in the form of equity, the Compensation Committee has decided to award a portion in cash. The Compensation Committee sets the cash percent for NEOs each year. The cash award is tied to long-term stockholder performance due to the measures within the plan. This amount is then removed from the total CCCG long-term market award value. Providing a portion of long-term incentive in the form of cash also allows Caterpillar the ability to manage its share run rate, and preserve the available pool of shares authorized for issuance under LTIP. The 2009 LTIP award mix is illustrated in the following table:

equity. It is the number of shares granted under LTIP in any one year divided by the number of common shares outstanding.

An equity award is a stock award representing ownership in the Company. Equity for Caterpillar currently consists of stock-settled Stock Appreciation Rights, Restricted Stock Units and restricted stock.

The standard equity award is the equity value determined each year by the Compensation Committee. Each year, we benchmark against the CCCG to determine our standard award level, which is set at the size-adjusted median level of the comparator group.

Equity

Each year, the Compensation Committee benchmarks against the CCCG to determine a competitive equity award for each salary grade, including NEOs. Our process benchmarks total equity value for all salary grades. Consistent with the Company's compensation philosophy, individuals at higher levels receive a greater proportion of total pay in the form of equity.

In February 2009, the Compensation Committee approved the 2009 equity design, which consisted of a mix of SARs and RSUs. This equity design supports our Pay for Performance and Pay at Risk philosophy. RSUs represent actual shares of stock and therefore carry less risk than SARs.

The Compensation Committee has the discretion to make positive or negative adjustments to equity awards based on a subjective assessment of an individual's performance, provided these adjustments do not increase the total number of awards issued to employees.

A Stock Appreciation Right (SAR) is a right to receive Caterpillar common shares based on the appreciation in value of a set number of shares of Company stock between the grant date and the exercise date. SARs were introduced in 2006 because they extend the life of the Caterpillar stock option pool and minimize stockholder dilution.

At the February 2009 Compensation Committee meeting, Mr. Owens discussed his recommendations with respect to standard equity award adjustments for all NEOs, other than himself. Equity award adjustments were made and were based upon individual performance (discussed in the “Other NEOs Compensation Decisions” section of this CD&A). NEO equity grants, other than Mr. Owens’, ranged from 71,176 to 166,252 SARs and 4,449 to 7,335 RSUs. At the February 2009 Board meeting, the Chairman of the Compensation Committee, Mr. Goode, in consultation with the Board and in accordance with the following “Annual Equity Grant Timing” section, established the equity award for Mr. Owens based on exceptional performance (discussed in “Compensation Decisions – Chairman and CEO Compensation Decisions – Equity Grant for 2010” section of this CD&A). Accordingly, for the 2009 equity grant, Mr. Owens received 504,180 SARs and 20,152 RSUs.

The final 2009 SAR and RSU awards for the NEOs are disclosed in the Grants of Plan-Based Awards in 2009 table on page 63.

Annual Equity Grant Timing

At the October 2008 Compensation Committee meeting, the Committee approved a formal policy for setting the timing of the annual equity grant date. As a result, beginning in 2009, the grant date for the annual equity grant will be the first Monday in March.

Caterpillar does not backdate, re-price or grant equity awards retroactively. The Compensation Committee approved the valuation of the 2009 equity awards at the February 10, 2009 meeting and delegated its authority to finalize the individual grants on the grant date to the Compensation Committee chair. The grant price (\$22.17) was the closing price for Caterpillar stock as reported on the NYSE on March 2, 2009 (grant date). All 2009 equity grants for the NEOs are disclosed in the Grants of Plan-Based Awards in 2009 table on page 63.

Chairman’s Restricted Stock Award Program

The CEO may submit restricted stock grant recommendations to the Compensation Committee at any Compensation Committee meeting. The Compensation Committee reviews the amount of the proposed grants as well as the CEO’s reasoning and approves or rejects the requested restricted stock grants. The Compensation Committee delegated the authority to execute the Chairman’s Restricted Stock Award Program, in its entirety, to the CEO. At the end of each year, the CEO will report an annual summary of the program to the Compensation Committee.

A Restricted Stock Unit (RSU) is a grant valued in terms of Company stock. At the time of the grant, no Company stock is issued. The grant entitles the recipient to receive Caterpillar common shares at the time of vesting. RSUs were introduced in 2007 because they reduce the share run rate and may be more tax efficient for equity-eligible employees outside the United States.

The Chairman’s Restricted Stock Award Program is a tool that makes equity a part of the compensation program to help attract and retain outstanding performers. Key elements of the program are (i) selected performance and retention-based grants can be made to officers and other key employees, as well as prospective employees; (ii) restricted shares have three to five year vesting schedules; and (iii) restricted shares are forfeited if the grantee leaves Caterpillar prior to vesting.

Stock Ownership Requirements

Equity compensation encourages our executives to have an owner's perspective in managing the Company. Accordingly, the Compensation Committee approved stock ownership requirements for all participants receiving equity compensation.

Specifically, NEOs are required to own shares equal to a minimum of 50 percent of the average (based on number of shares) of the last five grants received. Failure to meet these guidelines results in automatic grant reductions, unless compelling personal circumstances prevent an employee from meeting his or her targeted ownership requirement.

Even though Caterpillar targets all officers' total compensation at the size-adjusted median level of the CCCG, its stock ownership requirements are much higher than the median level, reaching well into the upper quartile of practices of the companies examined. At present, all NEOs exceed stock ownership requirements.

Long-Term Cash Performance Plan

The LTCPP is a Pay at Risk plan that delivers a targeted percentage of base salary to each participant based on performance against the goals of the entire Company. The LTCPP is offered to NEOs and other key employees. A three-year performance cycle is established each year for determining compensation under the LTCPP. The Compensation Committee generally sets threshold, target and maximum levels that make the relative difficulty of achieving the target level consistent from year to year. The payout amount can vary greatly from one year to the next. The objective is to have payouts under the LTCPP be at target, on average, over a period of years.

Each year the Compensation Committee specifies two measures and their payout factors, such as relative PPS growth and ROA, both weighted 50 percent for the LTCPP. The threshold performance levels must be met under both measures before a payout is made under that particular measure; however, there is no overall trigger as there is under ESTIP and STIP. In other words, each measure triggers independently of the other. Increasingly larger payments are awarded when the target and maximum performance levels are achieved. The following table outlines the payout factor range that applies to each performance level.

The Compensation Committee selected the following Standard & Poor's 500 companies (S&P Group) to compare Caterpillar's performance against the performance of our specific industry. This S&P Group is used because market cycle fluctuations are minimized when compared to similar companies. The S&P Group is used only for the relative PPS growth measure, not for setting levels of compensation under the LTCPP. There were no changes in the S&P Group from 2008 to 2009.

Relative PPS growth is one of two measures in the LTCPP. It measures Caterpillar's PPS growth against those companies in the Standard & Poor's peer group.

Return On Assets (ROA) is a profitability measure that reveals how much profit a company generates with the assets of the company. This is one of two measures in the 2007-2009 LTCPP.

The companies in this S&P Group are:

The 2009 LTCPP payout was based on a three-year performance cycle, which began in 2007 and ended in 2009. The 2007-2009 cycle evaluated two components: relative PPS growth, measured against the S&P Group, and ROA, again each weighted 50 percent. At the February 2007 meeting, the Compensation Committee determined that the targets (shown in the following table) were very challenging and that achieving the targets during this performance cycle would put the Company far ahead of historical benchmark levels at other companies, including the CCCG, the S&P Group and the S&P 500 overall.

The final 2009 LTCPP ROA was 8.6 percent, resulting in a payout factor of 66.41 percent. The relative PPS growth percentile rank was 19, resulting in no payout for this performance measure. The resulting weighted payout factors were added together to calculate the total cash payout factor of 33.21 percent, which resulted in a collective payout of \$2.5 million for all of the NEOs.

The Compensation Committee has the discretion to reduce individual LTCPP awards based on performance, but individual increases are not permitted. No adjustments were made to the 2009 LTCPP payouts to the NEOs. Individual payouts were capped at \$5 million and are disclosed in the “Non-Equity Incentive Plan Compensation” column of the Summary Compensation table on page 61.

Similar to the 2007-2009 LTCPP cycle, the 2008-2010 and 2009-2011 LTCPP cycles include a relative PPS Growth and ROA measure.

Compensation Decisions

The Executive Office (CEO and six group presidents) works as a team to drive our corporate strategy and deliver the annual business plan. Our ESTIP is based on corporate ROA and enterprise quality metrics and is the same for each executive officer. Our LTIP is the same for each executive officer and is based on corporate PPS growth relative to our peer group and ROA. Annual merit pay adjustment and equity grants are based on the NEOs’ achievement of their goals set at the beginning of the year. Both elements of compensation are benchmarked with peer companies and therefore keep the total compensation package competitive.

Page 54

Chairman and CEO Compensation Decisions

The CEO is evaluated by the Board on Company and individual performance metrics. In February of 2010, the Board reviewed the Compensation Committee’s assessment of Mr. Owens’ individual goals (which were created at the beginning of 2009) and his performance against those goals. The most critical results for Mr. Owens for 2009 were as follows:

Despite the most significant recessionary industry conditions since the 1930s, Caterpillar delivered profitability for the year at \$1.43 per share, or \$2.18 per share excluding redundancy costs

- § Further, in the face of a \$19 billion drop in top line sales and revenues, the Company strengthened its balance sheet and maintained its credit rating and dividend
- § Caterpillar maintained positive employee communications throughout the financial crisis – the employee survey, with 94 percent participation, achieved a record 82 percent favorable response
- § Using the Cat Production System, the Company maintained enterprise focus on process discipline and execution through disruptive schedule fluctuations – safety, product quality, and delivery performance all improved

Equity Grant for 2010

On March 1, 2010, the Compensation Committee, with approval from the Board, granted Mr. Owens an equity award of 300,000 RSUs under the Company's LTIP. This award represents Mr. Owens' total equity compensation for 2010. The RSUs will vest on November 1, 2010; however, the Compensation Committee placed transfer restrictions on the shares of common stock that will be issued upon the vesting of the award. Pursuant to the restrictions, the shares may not be assigned, transferred or pledged until three years after the March 1, 2010 grant date.

In making this award, the Compensation Committee considered, among other things, Mr. Owens' significant contributions in leading Caterpillar through the present economic downturn and positioning it for future success.

The Compensation Committee determined that instead of the usual mixture of SARs and RSUs, which would vest soon after his retirement, a grant of RSUs, with a three-year transfer restricted period, would better tie Mr. Owens' final year compensation more directly to the longer-term success or failure of the actions taken in his final year as Chairman and CEO.

Other NEOs Compensation Decisions

The CEO presents each NEO's performance evaluation to the Compensation Committee (excluding Mr. Burritt's performance evaluation). The focus of the evaluation for other NEOs is based upon product and business unit metrics in their respective areas of responsibility. The CEO presented the Compensation Committee the following key points for Group Presidents in making compensation decisions for 2009. Mr. Rapp conducted the performance evaluation for Mr. Burritt.

Douglas R. Oberhelman, Group President

Retirement and Other Benefits

The defined contribution and defined benefit plans available to the NEOs (excluding Mr. Vittecoq for the reasons described below) are also available to many U.S. Caterpillar salaried and management employees. All of the NEOs (excluding Mr. Vittecoq) participate in all of the following U.S. retirement plans.

Mr. Vittecoq is not eligible for the U.S. benefit plans because he is on the Swiss payroll and eligible for the Swiss benefit programs. He participates in Caprevi, Prevoyance Caterpillar and the Swiss Employees' Investment Plan. Both are Swiss retirement plans that are available to all other Swiss management employees. Mr. Vittecoq is eligible under Caprevi, Prevoyance Caterpillar for an early retirement benefit with no reduction.

A defined contribution savings plan is a retirement plan that provides for an individual account for each participant and for benefits based solely upon the amount contributed to the participant's account, and any income, expenses, gains and losses.

A defined benefit pension plan is a retirement plan in which benefits must be definitely determinable. Plan formulas are geared to retirement benefits, not contributions. The plan is funded by contributions to a trust account that are separate from the general assets of the Company. The Pension Benefit Guaranty Corporation insures certain benefits.

A qualified retirement plan is afforded special tax treatment for meeting a host of requirements of the Internal Revenue Code.

A nonqualified plan is designed primarily to provide retirement

income for essential employees. There are no limits on benefits or contributions, and there are no reporting requirements so long as it is not funded.

Pension Plans

Caterpillar Inc. Retirement Income Plan (RIP)

Many U.S. salaried and management employees are eligible to participate in RIP. Benefit amounts are not offset for any Social Security benefits. Plan participants may choose among several payment options, such as a single life annuity, term-certain or various joint and survivor annuity benefits. Of the NEOs, Mr. Lavin, Mr. Levenick, Mr. Oberhelman, Mr. Rapp, Mr. Wunning and Mr. Burritt are currently eligible for early retirement, with a four percent benefit reduction, per year, from age 62. Mr. Owens is currently eligible to retire with no reduction in benefits.

Supplemental Retirement Plan (SERP)

If an employee's annual compensation or retirement income benefit under RIP exceeds the Internal Revenue Service tax code limitations, the excess benefits are paid from the SERP. The formula used to calculate the benefit payable in SERP is similar to the one used under RIP. The formula is described in detail in the 2009 Pension Benefits table on page 66.

Page 57

Savings Plans

Caterpillar 401(k) Plan

Most U.S. salaried and management employees, including the U.S.-based NEOs, are eligible to participate in the 401(k) plan.

	§	Contributions are made on a pre-tax basis
§	Participants can contribute up to 70 percent of their base salary and STIP awards	
	§	Contributions are limited by the tax code
§	Company matches 100 percent of the first six percent of pay contributed to the savings plan	
	§	All contributions vest immediately

Supplemental Deferred Compensation Plan (SDCP)

In addition to the 401(k) plan, all U.S.-based NEOs are allowed to participate in SDCP, which provides the opportunity to increase deferrals of base salary and to elect deferrals of STIP and LTCPP awards.

§ The plan was created in March 2007 with a retroactive effective date of January 1, 2005. It effectively replaces SEIP and DEIP (both defined below). The change allows the Company to comply with Internal Revenue Code Section 409A.

§ Contributions are made on a pre-tax basis and are comprised of four possible contribution types:

- Supplemental Base Pay Deferrals (maximum 70 percent deferral election)
- Supplemental STIP Deferrals (maximum 70 percent deferral election)
- Supplemental LTCPP Deferrals (maximum 70 percent deferral election)
- Excess Base Pay Deferrals (flat six percent deferral election)

§ Supplemental Base Pay Deferrals earn matching contributions at a rate of six percent of the deferred amount

§ Up to six percent of Supplemental STIP Deferrals are matched dollar-for-dollar

§ Supplemental LTCPP Deferrals are not eligible for an employer matching contribution

§ Excess Base Pay Deferrals are matched 100 percent by the Company. This is provided to restore the matching opportunity that is not available under the qualified plan due to Internal Revenue Service tax code limitations.

§ All contributions vest immediately

Supplemental Employees' Investment Plan (SEIP) and Deferred Employees' Investment Plan (DEIP)

In addition to the 401(k) plan, all U.S.-based NEOs were previously allowed to participate in SEIP and DEIP. These plans were frozen to new participants and new salary deferrals in March of 2007. Pay deferred into SEIP and DEIP prior to January 1, 2005 remains in SEIP and DEIP. Pay deferred on and after January 1, 2005 was transferred to SDGP.

Perquisites

The Company provides NEOs a very limited number of perquisites that it and the Compensation Committee believe are reasonable and consistent with its overall compensation program, and necessary to remain competitive. The Compensation Committee annually reviews the levels of perquisites provided to the NEOs. Costs associated with perquisites provided by the Company are included in the 2009 All Other Compensation table on page 62. Descriptions of these perquisites are provided below:

§ Home security systems are provided to ensure the safety of our NEOs

§ Mr. Owens participates in the Director's Charitable Award program, which is provided to all directors of the Company, and is funded by life insurance arrangements for which the Company pays the premiums. Mr. Owens derives no direct financial benefit from the program.

§ The Director's Charitable Award program was discontinued for new directors after April 1, 2008. Directors as of that date were grandfathered under the program.

§ Limited personal use of the Company aircraft is permitted for security purposes and to allow the NEOs to devote additional time to Caterpillar business.

Change in Control

Except as required by applicable law, Caterpillar has no special executive severance packages or contracts. Mr. Vittecoq has an employment contract, which is required under Swiss law. The change in control provisions are provided under our long-term and short-term plans and are standard provisions for these types of plans, which apply to all participants in those plans. Our change in control provisions have no direct correlation with other compensation decisions.

The change in control provisions generally provide accelerated vesting and maximum payout under the incentive plans. The change in control provisions impose a "double-trigger," whereby a change in control and termination of employment without cause within 12 months of the change in control are needed to trigger the change in control provisions. These provisions are intended to allow executives to evaluate business opportunities with the best interests of stockholders in mind, as opposed to maximizing their own personal interests. The terms of the change in

control provisions are applicable to all employees covered by these plans and are not specific to the NEOs. Additionally, no payments are made for voluntary separation, resignation and termination for cause.

In the event of a change in control, maximum payout factors are assumed for amounts payable under the 1996 and 2006 Stock Option and LTIP.

§ LTIP allows for the maximum performance level, 150 percent payout factor, to be paid under each open plan cycle of the LTCPP. This is prorated based on the time of active employment during the performance cycle.

§ All unvested stock options, SARs, restricted stock and restricted stock units vest immediately

§ Stock options and SARs remain exercisable over the normal life of the grant

§ The ESTIP is assumed to achieve the maximum payout factor, 200 percent, under a change in control

Change in control information is disclosed in the “Potential Payments Upon Termination or Change in Control” section on page 68 of this proxy statement.

Tax and Accounting Implications

Deductibility of Compensation

The goal of the Compensation Committee is to comply with the requirements of Internal Revenue Code Section 162(m), to the extent possible, with respect to long-term and short-term incentive programs to avoid losing the deduction for compensation in excess of \$1 million paid to the chief executive officer and the three other most highly compensated officers (other than the chief financial officer). Caterpillar has generally structured performance-based compensation plans with the objective that amounts paid under those plans will be tax deductible and the plans must be approved by the Company’s stockholders. However, the Compensation Committee may elect to provide compensation outside those requirements when necessary to achieve its compensation objectives.

Compensation Recoupment Policy

If the Board learns of any misconduct by an officer who contributed to the Company restating all or a portion of its financial statements, it will do what is required to correct the misconduct and prevent it from occurring again and, if appropriate, take necessary remedial action.

Page 59

To determine the corrective action, the Board will review the situation to identify whether the restatement was the result of negligence, or intentional misconduct. The Board will require reimbursement of any bonus or incentive compensation awarded to an officer or cancel unvested restricted or deferred stock awards previously granted to the executive officer if all of the following apply:

§ The amount of the bonus or incentive compensation was calculated based on the achievement of certain financial results that were subsequently the subject of a restatement

§ The officer engaged in intentional misconduct that caused or partially caused the need for the restatement

§ The amount of the bonus or incentive compensation that would have been awarded to the executive had the financial results been properly reported would have been lower than the amount actually awarded

Additionally, at the Board’s discretion, it may dismiss the officer, authorize legal action for breach of fiduciary duty or take other action to enforce the officer’s obligations to the Company. In determining appropriate remedial action, the Board may take into account penalties or punishments imposed by third parties, such as law enforcement agencies,

regulators or other authorities. The Board's power to determine the appropriate punishment for the wrongdoer is in addition to, and not in replacement of, third party actions.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the CD&A included in this proxy statement with management. The Compensation Committee is satisfied that the CD&A fairly and completely represents the philosophy, intent and actions of the Compensation Committee with regard to executive compensation. We recommend to the Board that the CD&A be included in this proxy statement and the Company's Annual Report on Form 10-K for filing with the SEC.

1 Mr. Lavin and Mr. Rapp were not NEOs in 2007.

2 There was no Lump Sum Discretionary Cash Bonus awarded to NEOs for 2009 performance.

- 3 The following Restricted Stock Units (RSUs) were granted to NEOs on March 2, 2009: Mr. Owens — 20,152; Mr. Oberhelman — 7,335; Mr. Lavin — 6,561; Mr. Levenick — 6,561; Mr. Rapp — 6,561; Mr. Vittecoq — 6,925; Mr. Wunning — 6,561; and Mr. Burritt — 4,449. The amounts included in this column represent the aggregate grant date fair market value for RSUs and restricted stock granted in the years shown calculated in accordance with Financial Accounting Standards Board Standards Codification Topic 718, Compensation – Stock Compensation (FASB ASC Topic 718). In general, the aggregate grant date fair market value is the amount of the total expense the Company expects to report in its financial reporting over the equity award's vesting schedule. The amounts reported reflect the total accounting expense and do not reflect the actual value that will be realized by the NEO. Assumptions made in the calculation of these amounts are included in Note 2 "Stock based compensation" to the Company's consolidated financial statements for the fiscal year ended December 31, 2009, included in the Company's Annual Report on Form 10-K (Form 10-K) filed with the SEC on February 19, 2010.
- 4 The following SARs were granted to NEOs on March 2, 2009: Mr. Owens — 504,180; Mr. Oberhelman — 166,252; Mr. Lavin — 148,722; Mr. Levenick — 148,722; Mr. Rapp — 148,722; Mr. Vittecoq — 156,962; Mr. Wunning — 148,722; and Mr. Burritt — 71,176. The amounts included in this column represent the aggregate grant date fair market value for SARs granted in the years shown in accordance with FASB ASC Topic 718. In general, the aggregate grant date fair market value is the amount of the total expense the Company expects to report in its financial reporting over the equity award's vesting schedule. The amounts reported reflect the total accounting expense and do not reflect the actual value that will be realized by the NEO. Assumptions made in the calculation of these amounts are included in Note 2 "Stock based compensation" to the Company's consolidated financial statements for the fiscal year ended December 31, 2009, included in the Company's Form 10-K filed with the SEC on February 19, 2010.
- 5 The amounts in this column reflect the cash payments made to NEOs under the LTCPP with respect to performance over a three-year plan cycle from 2007 through 2009. The 2009 ESTIP or STIP did not trigger a payout, as the performance metrics of the plan(s) were not achieved.
- 6 Because NEOs do not receive "preferred" or "above market" earning on compensation deferred into SDCP, SEIP and/or DEIP, the amount shown represents only the change between the actuarial present value of each officer's total accumulated pension benefit between December 31, 2008 and December 31, 2009. The amount assumes the pension benefit is payable at each NEO's earliest unreduced retirement age based upon the officer's current compensation.
- 7 All Other Compensation for 2009 consists of the following items detailed in a separate table appearing on page 62: Matching contributions to the Company's 401(k) plan; matching contributions to SDCP/EIP; corporate aircraft usage; home security; life insurance premiums for Mr. Owens under the Directors' Charitable Award Program; and ISE allowances.
- 8 All amounts reported for Mr. Vittecoq were paid in Swiss Francs and have been converted to U.S. dollars using the exchange rate in effect on December 31, 2009 (1 Swiss Franc = .96340 US Dollar). Mr. Vittecoq's 2009 Swiss Franc base salary has remained constant from 2008's level at CHF 929,994. The conversion of Swiss Franc to the U.S. dollar amount inflates Mr. Vittecoq's reported base salary, as the U.S. dollar has depreciated against the Swiss Franc.

1 Mr. Vittecoq participates in a non-U.S. Employee Investment Plan.

2 The Officers Financial Counseling Program was eliminated effective January 1, 2009.

3 Several of our NEOs serve as board members for other corporations at the request of the Company, and the personal usage noted above primarily consists of NEO flights to attend these outside board meetings. Under the rules of the SEC, use of aircraft for this purpose is deemed to be personal, even though Caterpillar considers these flights beneficial to the Company and for a business purpose. Other personal usage is limited to the NEOs, their spouses or other guests, and CEO approval is required for all personal use. The value of personal aircraft usage reported above is based on Caterpillar's incremental cost per flight hour, including the weighted average variable operating cost of fuel, oil, aircraft maintenance, landing and parking fees, catering and other smaller variable costs. Occasionally, a spouse or other guest may accompany the NEO, and if the Company aircraft is already scheduled for business purposes and can accommodate additional passengers, no additional variable operating cost is incurred. Effective January 1, 2009, the tax gross-up on spousal accompanied travel was eliminated. Company aircraft is provided for security purposes and allows the NEOs to devote additional time to Caterpillar business.

Amounts reported for Home Security represent the cost provided by an outside security provider for hardware and monitoring service. The incremental cost associated with the home security services is determined based upon the amounts paid to the outside service provider.

- 5 Mr. Owens received no direct compensation for serving on the Board, but is entitled to participate in the Directors' Charitable Award Program. The amount reported includes Company paid life insurance premiums and administrative fees for Mr. Owens' participation in the program.
- 6 Mr. Lavin was an International Service Employee (ISE) based in China until his return to the U.S. in December of 2007. The amount shown includes foreign service allowances typically paid by the Company on behalf of ISEs, including allowances for Mr. Lavin's foreign and U.S. taxes attributable to his international service assignment. These allowances are intended to ensure that our ISEs are in the same approximate financial position as they would have been if they lived in the U.S. during the time of their international service. The amount shown also includes the premium cost of Company provided basic life insurance under a Group Variable Universal Life policy. The coverage amount is two times base salary, capped at \$500,000. The premium cost is as follows: Mr. Owens — \$2,520; Mr. Oberhelman — \$1,620; Mr. Lavin — \$1,620; Mr. Levenick — \$1,620; Mr. Rapp — \$900; Mr. Wunning — \$1,620; and Mr. Burritt — \$900. Mr. Vittecoq is not covered under a Company sponsored life insurance product.

- 1 The amounts reported in this column are estimated awards under the LTCPP, ESTIP and STIP. The LTCPP estimates are based upon a predetermined percentage of an executive's base salary throughout the three-year cycle, and Caterpillar's achievement of specified performance levels (relative PPS growth and return on assets) over the three-year period. The threshold amount is earned if at least 50 percent of the targeted performance level is achieved. The target amount is earned if at least 100 percent of the targeted performance level is achieved. The maximum award is earned at 150 percent or greater of the targeted performance level. Base salary levels for 2009 were used to calculate the estimated dollar value of future payments for the 2009 to 2011 performance cycle. The ESTIP estimates are based upon the executive's base salary for 2009, and the achievement of specific performance metrics (75 percent Corporate Return on Assets and 25 percent Enterprise Quality). Prior to any ESTIP payout, a profit per share of \$2.50 must be achieved for a payout to occur. The STIP estimate for Mr. Burritt was based upon his base salary for 2009, and the achievement of specific performance metrics (87.5 percent Corporate Return on Assets and 12.5 percent Enterprise Quality). Prior to any STIP payout, a profit per share of \$2.50 must be achieved for a payout to occur. For the 2009 ESTIP and STIP, the threshold amount was earned if at least 30 percent of the targeted performance level was achieved. The target amount was earned if at least 70 percent of the targeted performance level was achieved. The maximum award was earned at 200 percent or greater of the targeted performance level, with a plan cap set at \$4,000,000. The 2009 ESTIP and STIP performance metrics were not achieved, and there was no cash payout for the 2009 plan year to report in the column "Non-Equity Incentive Plan Compensation" of the Summary Compensation table.
- 2 All RSUs are granted to the NEOs under the LTIP and will vest three years from the grant date. Plan provisions exist for accelerated vesting in the event of termination due to long-service separation (age 55 with 10 or more years of Company service), death, total disability or change in control. The actual realizable value of the RSU will depend on the fair market value of Caterpillar stock at the time of vesting.
- 3 Amounts reported represent SARs granted under the LTIP. The base price for all SARs granted to the NEOs is the closing price of Caterpillar stock on the grant date. The grant price was based upon the closing price (\$22.17) for Caterpillar stock on the grant date of March 2, 2009. All SARs granted to the NEOs will vest three years from the grant date. Plan provisions exist for accelerated vesting in the event of termination due to long-service separation (age 55 with 10 or more years of Company service), death, total disability or change in control. The actual realizable value of the SAR will depend on the fair market value of Caterpillar stock at the time of exercise.

- 4 The amounts shown do not reflect realized compensation by the NEO. The amounts shown represent the value of the SAR and RSU awards granted to the NEOs based upon the grant date value of the award as determined in accordance with FASB ASC Topic 718.

- 1 Caterpillar Inc. Retirement Income Plan (RIP) is a noncontributory U.S. qualified defined benefit pension plan and the Supplemental Retirement Plan (SERP) is a U.S. non-qualified pension plan. The benefit formula is 1.5 percent for each year of service (capped at 35 years) multiplied by the final average earnings during the highest five of the final ten years of employment. Final average earnings include base salary, short-term incentive compensation and deferred compensation. If an employee's annual retirement income benefit under the qualified plan exceeds the Internal Revenue Code limitations, the excess benefits are paid from SERP. SERP is not funded. The same formula is used to calculate the benefits payable in both the SERP and RIP. Mr. Vittecoq participates in Caprevi, Prevoyance Caterpillar, a Swiss pension benefit plan. The Swiss plan requires participants to contribute approximately seven percent of pensionable income to the plan. The benefit formula is 1.75 percent for each year of service multiplied by the final average earnings for the highest three years of a participant's career. Final average earnings consist of base salary and short-term incentive pay, reduced by a prescribed percentage to arrive at "salary considered for contribution." The benefit can be received in a 100 percent lump sum payment or annuity.
- 2 Mr. Owens and Mr. Wunning have more than 35 years of service with the Company. Amounts payable under both RIP and SERP are based upon a maximum of 35 years of service. All RIP and SERP participants may receive their benefit immediately following termination of employment, or may defer benefit payments until any time between early retirement age and normal retirement age. Normal retirement age is defined as age 65 with five years of service. Early retirement is defined as: any age with 30 years of service; age 55 with 15 years of service; age plus service = 85 points; or age 60 with 10 years of service. If a participant elects early retirement, benefits are reduced by four percent per year, before age 62. Currently, all NEOs are eligible to retire. Mr. Lavin, Mr. Levenick, Mr. Oberhelman, Mr. Rapp, Mr. Wunning and Mr. Burritt are eligible for early retirement, with a four percent reduction per year under age 62. Mr. Vittecoq is eligible under the Swiss pension plan for a retirement benefit with no reduction.

The amount in this column represents the actuarial present value for each NEO's accumulated pension benefit on December 31, 2009, assuming benefits are payable at each NEO's earliest unreduced retirement age based upon current level of pensionable income. The interest rate of 5.80 percent and the RP2000 mortality table used in the calculations are based upon the FASB ASC 715 disclosure on December 31, 2009. Mr. Vittecoq's pension measurement date changed from a fiscal (September to September) date to a calendar date in 2009. Mr. Vittecoq's lump sum present value accumulated benefit is based upon the 12 month pension measurement date ending on December 31, 2009. The EVK 2000 mortality table and the Swiss disclosure interest rate of 3.25 percent were used to calculate Mr. Vittecoq's benefit.

1 The Supplemental Deferred Compensation Plan (SDCP) is a non-qualified deferred compensation plan created in March of 2007 with a retroactive effective date of January 1, 2005, which effectively replaced the existing plans, Supplemental Employees' Investment Plan (SEIP) and Deferred Employees' Investment Plan (DEIP). All future contributions will be made under SD CP.

2 SD CP allows eligible U.S. employees, including all NEOs (except Mr. Vittecoq), to voluntarily defer a portion of their base salary and short-term incentive pay into the plan and receive a

Company matching contribution. LTCP pay may also be deferred, but does not qualify for any Company matching contributions. Mr. Vittecoq is a participant in a non-U.S. Employee Investment Plan that allows him to contribute a portion of his base salary to the plan and receive a Company matching contribution. Amounts deferred by executives in 2009 for base salary, short-term incentive pay and/or long-term cash performance payouts are included in the 2009 Summary Compensation Table. Matching contributions in non-qualified deferred compensation plans made by Caterpillar in 2009 are also included in the 2009 All Other Compensation Table under the Matching Contributions SDCP column. SDCP participants may elect a lump sum payment, or an installment distribution payable for up to 15 years after separation.

- 3 Aggregate earnings comprise interest, dividends, capital gains and appreciation/depreciation of investment results.
- 4 This column includes any amounts deferred under SEIP and/or DEIP prior to the creation of SDCP. The investment choices available to the participant mirror those of our 401(k) plan. Amounts in this column were previously reported in the Summary Compensation table for the years 2007 - 2009 as follows: Mr. Owens \$1,143,892; Mr. Oberhelman \$595,261; Mr. Lavin \$315,318; Mr. Levenick \$829,753; Mr. Rapp \$146,428; Mr. Vittecoq \$260,313; Mr. Wunning \$1,396,360; and Mr. Burritt \$362,062.

Potential Payments Upon Termination or Change in Control

General

Caterpillar does not have any special severance agreements or packages (such as golden parachutes) under which payments are to be made to any NEO. Potential payments to NEOs may, however, be available under the terms of existing compensation and benefit programs in the case of 1) termination (including voluntary separation, termination for cause or long-service separation) or 2) a change in control of the Company. The terms applicable to these potential payments in various termination scenarios are discussed below.

The following payments are not quantified in the following tabular information: Payments that would be provided to an NEO under plans generally available to management employees who are similarly situated to the NEOs in age, years of service, date of hire, etc. and that do not discriminate in favor of the NEOs (such as death and disability benefits, retiree medical and life insurance benefits). The discussion below assumes that each NEO is eligible for benefits unless otherwise noted.

The following narrative and tabular information describes and quantifies certain payments and benefits that would become payable under existing plans and arrangements if the named executive's employment had terminated on December 31, 2009. The information is provided relative to the NEO's compensation and service levels as of the date specified. If applicable, they are based on the Company's closing stock price on December 31, 2009.

Terms of Potential Payments - Termination

The terms of potential payments to NEOs in each of the following termination scenarios under existing compensation and benefit programs follows:

§	Voluntary Separation (resignation or termination without cause)
§	Termination for Cause (termination)
§	Long-Service Separation (retirement)

Equity awards

Unvested equity awards granted to NEOs in accordance with the long-term plan become fully vested and exercisable upon retirement. In the event of resignation, NEOs keep vested equity awards but forfeit any that are not yet vested. If terminated, equity awards that are outstanding (whether vested or unvested) will expire. Potential amounts and assumptions regarding equity awards are included in the Potential Payments upon Termination or Change in Control table (Potential Payments table) on page 70. These terms are applicable to all employees covered by the LTIP.

Short-term incentive pay

In the event of retirement at December 31, 2009, NEOs would be eligible to receive the amount otherwise payable to them for the 2009 plan year under their applicable STIP. In the case of termination or resignation at December 31, 2009, the NEO would forfeit all short-term incentive pay. Potential amounts and assumptions regarding the short-term incentive pay are included in the Potential Payments table on page 70.

Long-term performance awards

In the event of retirement at December 31, 2009, NEOs would be eligible to receive amounts otherwise payable to them under the LTCPP feature of the Caterpillar Inc. 2006 Long-Term Incentive Plan and the 1996 Stock Option and Long-Term Incentive Plan. The NEOs' eligibility and award amount would be determined at the conclusion of the performance period, depending on the achievement of the established performance criteria. Potential amounts and assumptions regarding the short-term incentive pay are included in the Potential Payments table on page 70. These terms are applicable to all employees covered by these long-term plans.

Page 68

Deferred compensation

The 2009 Nonqualified Deferred Compensation table on page 67 describes unfunded, non-qualified deferred compensation plans that permit the deferral of salary, bonus and short-term cash performance awards by NEOs. These plans also provide for matching contributions by the Company. LTCPP pay may also be deferred, but is not eligible for a Company matching contribution.

NEOs are eligible to receive the amount in their deferred compensation accounts following termination under any termination scenario unless the named executive elects to further defer payment as permitted by the plans. The Non-Qualified Deferred Compensation column of the Potential Payments table assumes the NEO terminated employment at December 31, 2009 with no further deferral of payments.

Severance pay

Other than in accordance with the terms of existing compensation and benefit programs, the Company is not obligated to provide any special severance payments to any NEOs.

Perquisites

In the event of retirement, perquisites such as security may be provided to the NEO, at the discretion of the Compensation Committee.

Pension benefits

The footnotes to the 2009 Pension Benefits table on page 66 include a description of the defined benefit pension plans (qualified and non-qualified) in which the NEOs participate, including the years of credited service and the present value of each NEO's accumulated pension benefit. These pension benefits are available to management employees generally and are not quantified in the tabular information in the Potential Payments table.

Terms & Potential Payments – Change in Control

Change in control provisions within our long and short-term plans generally provide for accelerated vesting. Potential payment amounts and assumptions are included in the following Potential Payments table. These change in control provisions are designed so that employees are not harmed in the event of termination of employment without cause or for good reason within 12 months following a change in control. The provisions are intended to ensure that executives evaluate business opportunities in the best interests of stockholders. The terms are applicable to all employees covered by these plans and there are no payments made for voluntary separation, resignation or termination for cause.

1 In the event of termination of employment due to a change in control, maximum payout factors are assumed for amounts payable under the Caterpillar Inc. 2006 Long-Term Incentive Plan (LTIP) and the prior plan, the Caterpillar Inc. 1996 Stock Option and Long-Term Incentive Plan and ESTIP. Additionally, all unvested stock options, SARs, restricted stock and RSUs vest immediately. Stock options and SARs remain exercisable over the normal life of the grant. For valuation purposes as of December 31, 2009, when the closing price of Caterpillar common stock was \$56.99, grants for 2007 and 2008 were “under water,” with grant prices of \$63.04 and \$73.20, respectively; the 2009 grant, with a \$22.17 grant price, was in the money by \$34.82. The 2007, 2008 and 2009 grants were not fully vested as of December 31, 2009. For separations due to long-service separation/retirement, death and disability, the life of the equity grant is reduced to a maximum of 60 months from the date of separation or 10 years from the original granting date, whichever occurs first. For voluntary separations, the equity grant life is reduced to 60 days from the date of separation.

- 2 The LTIP allows immediate vesting to occur on outstanding restricted stock and RSUs in the event of a change in control. The valuation shown is based upon the number of shares vesting multiplied by the closing price of Caterpillar common stock on December 31, 2009, which was \$56.99 per share.
- 3 ESTIP provisions provide for the maximum payout allowed under the plan in the event of a change in control. The plan provisions limit the payout to a maximum of \$4 million in any single year. Mr. Owens' payout for a change in control is capped at \$4 million. This amount is less than his plan payout at maximum. Therefore, amounts shown for change in control represent the maximum payout available under ESTIP for all NEOs, with the exception of Mr. Burritt. Mr. Burritt is a participant in STIP, which has no plan provisions for a change in control. Thus, Mr. Burritt's amount shown for change in control is his actual payout available under the plan. In the event of a voluntary separation or termination for cause before the completion of the performance period, both the ESTIP and STIP plan participant forfeit any benefit. Participants in both the ESTIP and STIP who separate due to long-service separation/retirement receive a prorated benefit based on the time of active employment during the performance period.
- 4 The LTCPP provisions provide for maximum payout allowed for each open plan cycle in the event of a change in control. Participants who separate via a change in control receive a prorated benefit based on the time of active employment during the performance period. Change in control amounts shown for all NEOs represent a prorated benefit at maximum payout for plan cycles 2008-2010 and 2009-2011, both of which are open cycles as of December 31, 2009. Plan provisions in effect for the 2008-2010 and 2009-2011 performance cycle restrict Mr. Owens' payout to \$5 million per plan cycle. The 2007-2009 plan cycle amounts are not shown as this cycle was fully vested as of December 31, 2009. Participants who separate via a long-service separation/retirement receive a prorated benefit based on the time of active employment during the performance period. The amount shown for long-service separation/retirement is the NEO's prorated benefit based on a target payout for plan cycles 2008-2010 and 2009-2011, both of which were open cycles as of December 31, 2009. Participants forfeit any benefit upon a voluntary separation or a termination for cause that occurs prior to the completion of the performance period.
- 5 Amounts assume Termination or Change in Control separation occurring on December 31, 2009, with no further deferral of available funds.

Director Compensation

Of our current Board members, only Mr. Owens is a salaried employee of Caterpillar. Non-employee directors are compensated for Board service. For 2009, compensation for non-employee directors was comprised of the following components:

Retainer: \$208,000 annually (effective April, 2009)

Committee Chairman Stipend:	Audit	\$15,000 annually
	Compensation	\$10,000 annually
	Governance	\$10,000 annually
	Public Policy	\$10,000 annually

Audit Committee Members Stipend: \$10,000 annually

In April of 2009, the cash retainer fee was increased from \$90,000 to \$208,000. This increase in the retainer was to compensate for the elimination of the annual equity grant to directors. In conjunction with this increase, new target ownership guidelines were implemented that require directors to own Caterpillar common stock in the amount of two and one half times their annual retainer fee. Directors have a five-year period to meet the new target ownership guidelines.

In addition to the above, the Company reimburses non-employee directors' expenses related to meeting attendance.

Under Caterpillar's Directors' Deferred Compensation Plan (DDCP), directors may defer 50 percent or more of their annual retainer and stipend in an interest-bearing account or an account representing equivalent shares of Caterpillar stock.

Eligible directors may also participate in a Charitable Award Program. Under the program, a donation of up to \$1 million will be made by the Company, in the director's name, in 10 equal annual installments, with the first installment to be made as soon as practicable after the director's death. Of the total donation, half will be donated to the eligible tax-exempt organization(s) selected by the director, and the remainder will be directed to the Caterpillar Foundation. The maximum amount payable is \$1 million on behalf of each eligible director. The sum is based on the director's length of service. The program is financed through the purchase of life insurance policies. Directors derive no financial benefit from the program. Premiums paid by the Company for this program are included in the following 2009 All Other Director Compensation Table for non-employee directors and in the 2009 All Other Compensation Table on page 62 for Mr. Owens.

Other Matters

Section 16(a) Beneficial Ownership Reporting Compliance

Based upon a review of our records, all reports required to be filed pursuant to Section 16(a) of the Securities Exchange Act of 1934 were filed on a timely basis, except one Form 4 filed with the SEC on April 14, 2009 reporting that 196 shares were surrendered to satisfy tax withholding requirements upon the vesting of restricted stock held by James B. Buda on April 1, 2009.

Director Legal Proceedings

On May 11, 2000, the First Circuit Court in Mexico City granted Grupo Azucarero México, S.A. de C.V., a public company of which Juan Gallardo is the controlling stockholder, suspension of payments protection, which was at that time a legal protection under Mexican law similar to Chapter 11 of the U.S. Bankruptcy Code. This protection enabled the company to continue its operations pending a debt restructuring. In August 2006, the company and its subsidiaries reached an agreement with its creditors and such agreement was approved by the Mexican Court. As a result of the foregoing Grupo Azucarero México, S.A. de C.V. is no longer under the suspension of payments protection. Pursuant to the agreed debt restructuring, the company paid 80 percent of its debt on August 30, 2008.

(b) Upon:

- (i) a payout of a Non-Tandem SAR or Tandem SAR in the form of cash;
- (ii) a cancellation, termination, expiration, forfeiture, or lapse for any reason (with the exception of the termination of a Tandem SAR upon exercise of the related Options, or the termination of a related Option upon exercise of the corresponding Tandem SAR) of any Award; or

Page 79

4.2. Individual Participant Limitations. Unless and until the Committee determines that an Award to a Named Executive Officer shall not be designed to comply with the Performance-Based Exception, the following rules shall apply to grants of such Awards under the Plan:

(a) Subject to adjustment as provided in Section 4.3, the maximum aggregate number of Shares (including Options, SARs, Restricted Stock and Performance Shares to be paid out in Shares) that may be granted in any one fiscal year to a Participant shall be eight hundred thousand (800,000) Shares.

4.3. Adjustments in Authorized Shares. In the event of any change in corporate capitalization, such as a stock split, or a corporate transaction, such as any merger, consolidation, separation, including a spin-off, or other distribution of stock or property of the Company, any reorganization (whether or not such reorganization comes within the definition of such term in Code Section 368) or any partial or complete liquidation of the Company, an adjustment shall be made in the number and class of Shares available for Awards, the number and class of and/or price of Shares subject to outstanding Awards granted under the Plan and the number of Shares set forth in Sections 4.1 and 4.2, to prevent dilution or enlargement of rights. Such adjustment shall be made in a manner determined by the Committee, in its sole discretion, to be appropriate and equitable; provided, however, that (a) no such adjustment shall cause an increase in the fair value of an Award for purposes of Statement of Financial Accounting Standards No. 123 (revised 2004) or any successor thereto; and (b) the number of Shares subject to any Award shall always be a whole number by rounding any fractional Share (up or down) to the nearest whole Share.

Section 5. Eligibility and Participation

5.1. Eligibility. Persons eligible to participate in the Plan include all current and future Employees (including officers), persons who have been offered employment by the Company or a Subsidiary (provided that such prospective Employee may not receive any payment or exercise any right relating to an Award until such person begins employment with the Company or Subsidiary), and Directors, as determined by the Committee.

5.2. Participation. Subject to the provisions of the Plan, the Committee shall determine and designate, from time to time, the Employees, prospective Employees, and Directors to whom Awards shall be granted, the terms of such Awards, and the number of Shares subject to such Award.

5.3. Foreign Participants. In order to assure the viability of Awards granted to Participants employed in foreign countries, the Committee may provide for such special terms as it may consider necessary or appropriate to

accommodate differences in local law, tax policy, or custom. Moreover, the Committee may approve such supplements to, or amendments, restatements, or alternative versions of the Plan as it may consider necessary or appropriate for such purposes without thereby affecting the terms of the Plan as in effect for any other purpose; provided, however, that no such supplements, amendments, restatements, or alternative versions shall increase the share limitations contained in Section 4 of the Plan.

Section 6.
Stock Options

6.1. Grant of Options.

(a) Option Grant. Subject to the terms and provisions of the Plan, Options may be granted to one or more Participants in such number, upon such terms and provisions, and at any time and from time to time, as determined by the Committee, in its sole discretion. The Committee may grant either Nonqualified Stock Options or (in the case of Options granted to Employees) Incentive Stock Options, and shall have complete discretion in determining the number of Options of each granted to each Participant, subject to the limitations of Section 4. Each Option grant shall be evidenced by a resolution of the Committee approving the Option grant.

Page 80

(b) Award Document. All Options shall be evidenced by an Award Document. The Award Document shall specify the Option Price, the term of the Option, the number of Shares subject to the Option, and such other provisions as the Committee shall determine, and which are not inconsistent with the terms and provisions of the Plan. The Award Document shall also specify whether the Option is to be treated as an ISO within the meaning of Code Section 422. If such Option is not designated as an ISO, such Option shall be a NQSO.

6.2. Option Price. The Committee shall designate the Option Price for each Share subject to an Option under the Plan, provided that such Option Price shall not be less than 100% of the Fair Market Value of Shares subject to an Option on the date the Option is granted, and which Option Price may not be subsequently changed by the Committee except pursuant to Section 4.3.. With respect to a Participant who owns, directly or indirectly, more than 10% of the total combined voting power of all classes of the stock of the Company or any Subsidiary, the Option Price of Shares subject to an ISO shall be at least 110% of the Fair Market Value of such Shares on the ISO's grant date.

6.3. Term of Options. Each Option granted to a Participant shall expire at such time as the Committee shall determine at the time of grant, but in no event shall be exercisable later than the 10th anniversary of the grant date. Notwithstanding the foregoing, with respect to ISOs, in the case of a Participant who owns, directly or indirectly, more than 10% of the total combined voting power of all classes of the stock of the Company or any Subsidiary, no such ISO shall be exercisable later than the fifth anniversary of the grant date.

6.4. Exercise of Options. Options granted under this Section 6 shall be exercisable at such times and be subject to such restrictions and conditions as the Committee shall in each instance approve, which need not be the same for each grant or for each Participant, and shall be set forth in the applicable Award Document. Notwithstanding the preceding sentence, the Fair Market Value of Shares to which ISOs are exercisable for the first time by any Participant during any calendar year (under all plans of the Company and its Subsidiaries) may not exceed \$100,000. Any ISOs that become exercisable in excess of such amount shall be deemed NQSOs to the extent of such excess. If the Award

Document does not specify the time or times at which the Option shall first become exercisable, such an Option shall become fully vested and exercisable by the Participant on the third anniversary of the grant date.

6.5. Payment. Options granted under this Section 6 shall be exercised by the delivery of a notice of exercise to the Company (or its designated agent(s)), setting forth the number of Shares with respect to which the Option is to be exercised, accompanied by full payment for the Shares. The Option Price upon exercise of any Option shall be payable to the Company in full either:

- (a) in cash or its equivalent, or
- (b) by tendering previously acquired Shares having an aggregate Fair Market Value at the time of exercise equal to the total Option Price, or
- (c) by cashless exercise through delivery of irrevocable instructions to a broker to promptly deliver to the Company the amount of proceeds from a sale of shares having a Fair Market Value equal to the purchase price.

6.6. Termination of Employment or Service as a Director. The Committee, in its sole discretion, shall set forth in the applicable Award Document the extent to which a Participant shall have the right to exercise the Option or Options following termination of his or her employment with the Company or any Subsidiary or following termination of his or her service as a Director. Such provisions need not be uniform among all Options issued pursuant to the Plan, and may reflect distinctions based on the reasons for such termination, including, but not limited to, termination for Cause or for Good Reason, or reasons relating to the breach or threatened breach of restrictive covenants. Subject to Section 15, in the event that a Participant's Award Document does not set forth such provisions, the following provisions shall apply:

(a) Long Service Separation, Death or Disability. If a Participant's employment with the Company and/or any Subsidiary or service as a Director terminates by reason of Long Service Separation, death or Disability, to the extent that the Option is not exercisable, all Shares covered by his or her Options shall immediately become fully vested and shall remain exercisable until the earlier of (i) the remainder of the term of the Option, or (ii) 60 months from the date of such termination. In the case of the Participant's death, the Participant's beneficiary or estate may exercise the Option.

Page 81

(b) Termination for Cause. If a Participant's employment with the Company and/or any Subsidiary or service as a Director terminates for Cause, all Options granted to such Participant shall expire immediately and all rights to purchase Shares (vested or nonvested) under the Options shall cease upon such termination.

(c) Other Termination. If a Participant's employment with the Company and/or any Subsidiary or service as a Director terminates for any reason other than Long Service Separation, death, Disability, or for Cause, all Options shall remain exercisable until the earlier of (i) the remainder of the term of the Option, or (ii) 60 days from the date of such termination. In such circumstance, the Option shall only be exercisable to the extent that it was exercisable as of such termination date and shall not be exercisable with respect to any additional Shares. Notwithstanding the foregoing or anything herein or in an Award Document to the contrary, the Committee, in its sole discretion, shall have the authority to extend the period during which an Option is exercisable pursuant to this Section 6.6(c) to a

period that is no longer than the earlier of (A) the remainder of the term of the Option, or (B) 60 months from the date of the Participant's termination of employment.

6.7. Restrictions on Shares. The Committee may impose such restrictions on any Shares acquired pursuant to the exercise of an Option granted under this Section 6 as it may deem advisable, including, without limitation, restrictions under applicable Federal securities laws, under the requirements of any stock exchange or market upon which such Shares are then listed and/or traded, and under any blue sky or state or foreign securities laws applicable to such Shares.

6.8. Transferability of Options.

(a) Incentive Stock Options. No ISO granted under the Plan may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Further, all ISOs granted to a Participant under the Plan shall be exercisable during his or her lifetime only by such Participant.

(b) Nonqualified Stock Options. NQSOs may only be transferred in accordance with this Section 6.8(b).

(i) Except as otherwise provided in paragraph (ii) below or in an Award Document, no NQSO shall be assignable or transferable by a Participant other than by will, by the laws of descent and distribution or pursuant to a Domestic Relations Order (as such term is defined in Section 414(p)(1)(B) of the Code).

(ii) NQSOs (whether vested or unvested) held by (A) Participants who are Section 16 Officers; (B) Participants who are Directors; or (C) any Participants who previously held the positions in clauses (A) and (B) may be transferred by gift or by domestic relations order to one or more Permitted Transferees. NQSOs (whether vested or unvested) held by all other Participants and by Permitted Transferees may be transferred by gift or by domestic relations order only to Permitted Transferees upon the prior written approval of the Company's Director of Compensation + Benefits.

6.9. Prohibition on Repricing. Except (a) as provided in Section 4.3 or (b) to the extent approved by the stockholders of the Company, the Option Price of an Option may not be changed following the date such Option is granted. Similarly, the exchange of an Option (an "Original Option") for cash, Shares, or other Awards at a time when the Option Price of such Original Option is equal to or greater than the Fair Market Value of a Share is prohibited. Notwithstanding the preceding sentence, the exchange of an Original Option for a SAR or another Option (a "New Option") shall be permitted only if: (a) the exchange is approved by the stockholders of the Company and (b) either (i) the grant price of the SAR is greater than the Option Price of the Original Option or (ii) the Option Price of the New Option is greater than the Option Price of the Original Option.

6.10. 6.9. Acceleration of Vesting. Notwithstanding anything in this Section 6 to the contrary, the Committee, in its sole discretion, shall have the authority to accelerate the vesting of Options at any time.

The Committee may grant Non-Tandem SARs, Tandem SARs, or any combination of these forms of SARs. The Committee shall designate, at the time of grant, the grant price of a Non-Tandem SAR, which grant price shall not be less than 100% of the Fair Market Value of a Share on the grant date of the SAR. The grant price of Tandem SARs shall equal the Option Price of the related Option. Grant prices of SARs shall not subsequently be changed by the Committee, except pursuant to Section 4.3.

(b) **Award Document.** All SARs shall be evidenced by an Award Document. The Award Document shall specify the grant price, the term of the SAR, and such other provisions as the Committee shall determine, and which are not inconsistent with the terms and provisions of the Plan.

7.2. **Term of SARs.** The term of a SAR granted under the Plan shall be determined by the Committee, in its sole discretion; provided, however, that unless otherwise designated by the Committee, such term shall not exceed ten years from the grant date.

7.3. **Exercise of Tandem SARs.** Tandem SARs may be exercised for all or part of the Shares subject to the related Option upon the surrender of the right to exercise the equivalent portion of the related Option. A Tandem SAR may be exercised only with respect to the Shares for which its related Option is then exercisable. Notwithstanding any other provision of the Plan to the contrary, with respect to a Tandem SAR granted in connection with an ISO: (i) the Tandem SAR will expire no later than the expiration of the underlying ISO; (ii) the value of the payout with respect to the Tandem SAR may be for no more than 100% of the difference between the Option Price of the underlying ISO and the Fair Market Value of the Shares subject to the underlying ISO at the time the Tandem SAR is exercised; and (iii) the Tandem SAR may be exercised only when the Fair Market Value of the Shares subject to the ISO exceeds the Option Price of the ISO.

7.4. **Exercise of Non-Tandem SARs.** Non-Tandem SARs may be exercised upon whatever terms and conditions the Committee, in its sole discretion, imposes upon them.

7.5. **Payment of SAR Amount.**

(a) Upon exercise of a SAR, a Participant shall be entitled to receive payment from the Company in an amount determined by multiplying:

- (i) The excess of the Fair Market Value of a Share on the date of exercise over the grant price; by
- (ii) The number of Shares with respect to which the SAR is exercised.

(b) Unless otherwise provided in the Award Document, the payment upon SAR exercise may be in cash, in Shares of equivalent value, or in some combination thereof. If, and to the extent that the payment upon SAR exercise is made in cash, such cash payment shall not be subject to the limitation of Section 4.2(b).

7.6. **Termination of Employment or Service as a Director.** The Committee, in its sole discretion, shall set forth in the applicable Award Document the extent to which a Participant shall have the right to exercise the SAR or SARs following termination of his or her employment with the Company or any Subsidiary or following termination of his or her service as a Director. Such provisions need not be uniform among all SARs issued pursuant to the Plan, and may reflect distinctions based on the reasons for such termination, including, but not limited to, termination for Cause

or for Good Reason, or reasons relating to the breach or threatened breach of restrictive covenants. Subject to Section 15, in the event that a Participant's Award Document does not set forth such provisions, the following provisions shall apply:

Page 83

(a) Long Service Separation, Death or Disability. If a Participant's employment with the Company and/or any Subsidiary or service as a Director terminates by reason of Long Service Separation, death or Disability, to the extent that the SARs are not exercisable, all of his or her SARs shall immediately become fully vested and shall remain exercisable until the earlier of (i) the remainder of the term of the SAR, or (ii) 60 months from the date of such termination. In the case of the Participant's death, the Participant's beneficiary or estate may exercise the SAR.

(b) Termination for Cause. If a Participant's employment with the Company and/or any Subsidiary or service as a Director terminates for Cause, all SARs shall expire immediately and all rights thereunder shall cease upon such termination.

(c) Other Termination. If a Participant's employment with the Company and/or any Subsidiary or service as a Director terminates for any reason other than Long Service Separation, death, Disability, or for Cause, all SARs shall remain exercisable until the earlier of (i) the remainder of the term of the SAR, or (ii) 60 days from the date of such termination. In such circumstance, the SAR shall only be exercisable to the extent it was exercisable as of such termination date and shall not be exercisable with respect to any additional SARs. Notwithstanding the foregoing or anything herein or in an Award Document to the contrary, the Committee, in its sole discretion, shall have the authority to extend the period during which a SAR is exercisable pursuant to this Section 7.6(c) to a period that is no longer than the earlier of (A) the remainder of the term of the SAR, or (B) 60 months from the date of the Participant's termination of employment.

7.7. Transferability of SARs. SARs may only be transferred in accordance with this Section 7.7.

(a) Except as otherwise provided in paragraph (b) below or in an Award Document, no SAR shall be assignable or transferable by a Participant other than by will, by the laws of descent and distribution or pursuant to a Domestic Relations Order (as such term is defined in Section 414(p)(1)(B) of the Code).

(b) SARs held by (i) Participants who are Section 16 Officers; (ii) Participants who are Directors; or (iii) any Participants who previously held the positions in clauses (i) and (ii) may be transferred by gift or by domestic relations order to one or more Permitted Transferees. SARs held by all other Participants and by Permitted Transferees may be transferred by gift or by domestic relations order to Permitted Transferees only upon the prior written approval of the Company's Director of Compensation and Benefits.

(c) Notwithstanding the foregoing, with respect to a Tandem SAR granted in connection with an ISO, no such Tandem SAR may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution.

7.8. Prohibition on Repricing. Except (a) as provided in Section 4.3 or (b) to the extent approved by the stockholders of the Company, the grant price of a SAR may not be changed following the date the SAR is granted. Similarly, the exchange of a SAR (an "Original SAR") for cash, Shares, or other Awards at a time when the grant price of such Original SAR is equal to or greater than the Fair Market Value of a Share is

prohibited. Notwithstanding the preceding sentence, the exchange of an Original SAR for an Option or another SAR (a "New SAR") shall be permitted only if: (a) the exchange is approved by the stockholders of the Company and (b) either (i) the Option Price amount is greater than the grant price of the Original SAR or (ii) the grant price of the New SAR is greater than the grant price of the Original SAR.

7.9. 7.8. Acceleration of Vesting. Notwithstanding anything in this Section 7 to the contrary, the Committee, in its sole discretion, shall have the authority to accelerate the vesting of SARs at any time.

Section 8. Restricted Stock

8.1. Grant of Restricted Stock.

(a) Grant of Restricted Stock. Subject to the terms and provisions of the Plan, the Committee, at any time and from time to time, may grant Shares of Restricted Stock to Participants in such amounts as the Committee shall determine.

Page 84

(b) Award Document. All sharesgrants of Restricted Stock shall be evidenced by an Award Document. The Award Document shall specify the Period or Periods of Restriction (consistent with the next sentence), the number of Shares of Restricted Stock granted, and such other provisions as the Committee shall determine pursuant to Section 8.38.2 or otherwise, and which shall not be inconsistent with the terms and provisions of the Plan. Shares of Restricted Stock not in excess of five percent of the number of shares that may be issued with respect to Awards of Restricted Stock, as provided in Section 4.1, may have a Period or Periods of Restriction as determined by the Committee in its sole discretion, and any other shares of Restricted Stock shall have a Period of Restriction, as determined by the Committee, that shall not lapse in any respect until on or after the third anniversary of the grant date. If no Period of Restriction is set forth in the Award Document, the transfer and any other restrictions shall lapse (i) to the extent of one-third of the Shares (rounded to the nearest whole) covered by the Restricted Stock Award on the third anniversary of the grant date, (ii) to the extent of two-thirds of the Shares (rounded to the nearest whole) covered by the Restricted Stock Award on the fourth anniversary of the grant date, and (iii) to the extent of 100% of the Shares covered by the Restricted Stock Award on the fifth anniversary of the grant date.

(c) Limitation on the Committee. Notwithstanding the preceding provisions of Section 8.1(b) and subject to the provisions of the Plan, no more than five percent (5%) of the shares that may be issued as Restricted Stock pursuant to Section 4.1) may have a Period of Restriction as determined by the Committee at the time of grant that will lapse prior to the third anniversary of the grant date. All remaining shares that may be issued with respect to Awards of Restricted Stock pursuant to Section 4.1 shall have a Period of Restriction determined by the Committee at the time of grant that will not lapse until on or after the third anniversary of the grant date. For the avoidance of doubt, this Section 8.1(c) shall not impair the Committee's ability to accelerate the vesting of Restricted Stock pursuant to Section 8.6 or to make grants that provide that vesting is accelerated upon Long Service Separation, death or Disability pursuant to Section 8.5 and the shares of Restricted Stock for which such acceleration of vesting occurs shall not be considered in applying the limitations set forth in this Section 8.1(c).

8.2. Other Restrictions. Subject to Section 10 herein, the Committee may impose such other conditions and/or restrictions on any Shares of Restricted Stock granted pursuant to the Plan as it may deem advisable including

without limitation, a requirement that Shares will not be issued until the end of the applicable Period of Restriction (i.e., a restricted stock unit), a requirement that Participants pay a stipulated purchase price for each Share of Restricted Stock, restrictions based upon the achievement of specific performance goals (Company-wide, Subsidiary-wide, divisional, and/or individual), time-based restrictions on vesting, which may or may not be following the attainment of the performance goals, sales restrictions under applicable shareholder agreements or similar agreements, and/or restrictions under applicable Federal or state securities laws. The Company shall retain the certificates representing Shares of Restricted Stock in the Company's possession until such time as all conditions and/or restrictions applicable to such Shares have been satisfied. Except as otherwise provided in this Section 8 or in any Award Document, Shares of Restricted Stock covered by each Restricted Stock grant made under the Plan shall become freely transferable by the Participant after the last day of the applicable Period of Restriction.

8.3. **Voting Rights.** Unless otherwise designated by the Committee at the time of grant, Participants to whom Shares of Restricted Stock (but not restricted stock units) have been granted hereunder may exercise full voting rights with respect to those Shares during the Period of Restriction.

8.4. **Dividends and Other Distributions.** Unless otherwise designated by the Committee at the time of grant, Participants holding Shares of Restricted Stock (but not restricted stock units) granted hereunder shall be credited with regular cash dividends paid with respect to the underlying Shares while they are so held during the Period of Restriction. The Committee may apply any restrictions to the dividends that the Committee deems appropriate. Without limiting the generality of the preceding sentence, if the grant or vesting of Shares of Restricted Stock granted to a Named Executive Officer is designed to comply with the requirements of the Performance-Based Exception, the Committee may apply any restrictions it deems appropriate to the payment of dividends declared with respect to such Shares of Restricted Stock, such that the dividends and/or the Shares of Restricted Stock maintain eligibility for the Performance-Based Exception. In the event that any dividend constitutes a derivative security or an equity security pursuant to the rules under Section 16 of the Exchange Act, such dividend shall be subject to a vesting period equal to the remaining vesting period of the Shares of Restricted Stock with respect to which the dividend is paid.

Page 85

8.5. **Termination of Employment or Service as a Director.** The Committee, in its sole discretion, shall set forth in the applicable Award Document the extent to which the Participant shall have the right to receive unvested Shares of Restricted Stock following termination of the Participant's employment with the Company and/or its Subsidiaries or termination of service as a Director. Such provisions need not be uniform among all Shares of Restricted Stock issued pursuant to the Plan, and may reflect distinctions based on the reasons for termination of employment including; but not limited to, termination of employment for Cause or for Good Reason, or reasons relating to the breach or threatened breach of restrictive covenants; provided, however that, except in the cases of terminations connected with a Change of Control and terminations by reason of death or Disability, the vesting of Shares of Restricted Stock that qualify for the Performance-Based Exception and that are held by Named Executive Officers shall not occur before the time they otherwise would have, but for the employment termination. Subject to Section 15, in the event that a Participant's Award Document does not set forth such termination provisions, the following termination provisions shall apply:

(a) **Long-Service Separation, Death and Disability.** Unless the Award qualifies for the Performance-Based Exception, if a Participant's employment with the Company and/or any Subsidiary or service as a Director is terminated due to Long Service Separation, death or Disability, all Shares of Restricted Stock of such Participant shall immediately become fully vested on the date of such termination and any restrictions shall lapse.

(b) Other Termination. If a Participant's employment with the Company and/or any Subsidiary or service as a Director is terminated for any reason other than Long Service Separation, death or Disability, all Shares of Restricted Stock that are unvested at the date of termination shall be forfeited to the Company.

8.6. Acceleration of Vesting. Notwithstanding anything in this Section 8 to the contrary, the Committee, in its sole discretion, shall have the authority to accelerate the vesting of Shares of Restricted Stock at any time.

8.7. Transferability. Except as provided in this Section 8, the Shares of Restricted Stock granted herein may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, voluntarily or involuntarily, until the end of the applicable Period of Restriction established by the Committee and specified in the Award Document, or upon earlier satisfaction of any other conditions, as specified by the Committee in its sole discretion and set forth in the Award Document. All rights with respect to the Restricted Stock granted to a Participant under the Plan shall be available during his or her lifetime only to such Participant.

Section 9.

Performance Units and Performance Shares

9.1. Grant of Performance Units/Shares.

(a) Grant of Performance Unit/Shares. Subject to the terms of the Plan, Performance Units and/or Performance Shares may be granted to Participants in such amounts and upon such terms, and at any time and from time to time, as shall be determined by the Committee, which shall not be inconsistent with the terms and provisions of the Plan and shall be set forth in an Award Document.

(b) Award Document. All Performance Units and Performance Shares shall be evidenced by an Award Document. The Award Document shall specify the initial value of the Award, the performance goals and the Performance Period, as the Committee shall determine, and which are not inconsistent with the terms and provisions of the Plan.

9.2. Value of Performance Units/Shares. Each Performance Unit shall have an initial value (which may be \$0) that is established by the Committee at the time of grant. Each Performance Share shall have an initial value equal to the Fair Market Value of a Share on the grant date. The Committee shall set performance goals in its sole discretion which, depending on the extent to which they are met will determine the number and/or value of Performance Units and/or Performance Shares that will be paid out to the Participant. For purposes of this Section 9, the time period during which the performance goals must be met shall be called a Performance Period. Performance Shares not in excess of five percent of the number of shares that may be issued with respect to Awards of Performance Shares, as provided in Section 4.1, may have a Performance Period as determined by the Committee in its sole discretion, and any other Performance Shares shall have a Performance Period, as determined by the Committee, of not less than one year.

Page 86

9.3. Earning of Performance Units/Shares. Subject to the terms of the Plan, after the applicable Performance Period has ended, the holder of Performance Units and/or Performance Shares shall be entitled to receive payout on the number and value of Performance Units and/or Performance Shares earned by the Participant over the Performance Period, to be determined as a function of the extent to which the corresponding performance goals have been achieved, as established by the Committee.

9.4. Form and Timing of Payment of Performance Units/Shares. Except as provided below, payment of earned Performance Units and/or Performance Shares shall be made in a single lump sum as soon as reasonably practicable following the close of the applicable Performance Period. Subject to the terms of the Plan, the Committee, in its sole discretion, may pay earned Performance Units and/or Performance Shares in the form of cash or in Shares (or in a combination thereof) which have an aggregate Fair Market Value equal to the value of the earned Performance Units and/or Performance Shares at the close of the applicable Performance Period. Such Shares may be granted subject to any restrictions deemed appropriate by the Committee. At the sole discretion of the Committee, Participants may be entitled to receive any dividends declared with respect to Shares which have been earned in connection with grants of Performance Units and/or Performance Shares which have been earned, but not yet distributed to Participants.

9.5. Termination of Employment or Service as a Director. The Committee, in its sole discretion, shall set forth in the applicable Award Document the extent to which the Participant shall have the right to receive payment for Performance Units and/or Performance Shares following termination of the Participant's employment with the Company and/or its Subsidiaries or termination of service as a Director. Such provisions need not be uniform among all Performance Units and/or Performance Shares granted pursuant to the Plan, and may reflect distinctions based on the reasons for such termination including; but not limited to, termination for Cause or for Good Reason, or reasons relating to the breach or threatened breach of restrictive covenants. Subject to Section 15, in the event that a Participant's Award Document does not set forth such termination provisions, the following termination provisions shall apply:

(a) Long Service Separation, Death or Disability. Subject to Section 15, if a Participant's employment with the Company and/or any Subsidiary or service as a Director is terminated during a Performance Period due to Long Service Termination, death or Disability, the Participant shall receive a prorated payout of the Performance Units and/or Performance Shares, unless the Committee determines otherwise. The prorated payout shall be determined by the Committee, shall be based upon the length of time that the Participant held the Performance Units and/or Performance Shares during the Performance Period, and shall further be adjusted based on the achievement of the preestablishedpre-established performance goals. Unless the Committee determines otherwise in the event of a termination due to death, Disability or Long Service Separation, payment of earned Performance Units and/or Performance Shares shall be made at the same time as payments are made to Participants who did not terminate employment during the applicable Performance Period.

(b) Other Termination. If a Participant's employment with the Company and/or any Subsidiary or service as a Director is terminated during a Performance Period for any reason other than Long Service Termination, death or Disability all Performance Units and/or Performance Shares shall be forfeited by the Participant to the Company.

9.6. Nontransferability. Except as otherwise provided in a Participant's Award Document, Performance Units and/or Performance Shares may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Further, except as otherwise provided in a Participant's Award Document, a Participant's rights under the Plan shall be exercisable during the Participant's lifetime only by the Participant or the Participant's legal representative.

9.7. Acceleration of Vesting. Notwithstanding anything in this Section 9 to the contrary, the Committee, in its sole discretion, shall have the authority to accelerate the vesting of Performance Units and/or Performance Shares at any time.

Section 10.
Performance Measures

10.1. Performance Measures. Unless and until the Committee proposes for stockholder vote and stockholders approve a change in the general performance measures set forth in this Section 10, the attainment of which may determine the degree of payout and/or vesting with respect to Awards to Named Executive Officers that are designed to qualify for the Performance-Based Exception, the performance goals to be used for purposes of such grants shall be established by the Committee in writing and stated in terms of the attainment of specified levels of or percentage changes in any one or more of the following measurements: (a) revenue; (b) primary or fully-diluted earnings per Share; (c) earnings before interest, taxes, depreciation, and/or amortization; (d) pretax income; (e) cash flow from operations; (f) total cash flow; (g) return on equity; (h) return on invested capital; (i) return on assets; (j) net operating profits after taxes; (k) economic value added; (l) total stockholder return; (m) return on sales; or (n) any individual performance objective which is measured solely in terms of quantifiable targets related to the Company or the Company's business; or any combination thereof. In addition, such performance goals may be based in whole or in part upon the performance of the Company, a Subsidiary, division and/or other operational unit under one or more of such measures.

10.2. Performance Procedures. The degree of payout and/or vesting of such Awards designed to qualify for the Performance-Based Exception shall be determined based upon the written certification of the Committee as to the extent to which the performance goals and any other material terms and conditions precedent to such payment and/or vesting have been satisfied. The Committee shall have the sole discretion to adjust the determinations of the degree of attainment of the preestablished performance goals; provided, however, that the performance goals applicable to Awards which are designed to qualify for the Performance-Based Exception, and which are held by Named Executive Officers, may not be adjusted so as to increase the payment under the Award (the Committee shall retain the sole discretion to adjust such performance goals upward, or to otherwise reduce the amount of the payment and/or vesting of the Award relative to the pre-established performance goals). In the event that applicable tax and/or securities laws change to permit Committee sole discretion to alter the governing performance measures without obtaining stockholder approval of such changes, the Committee shall have sole discretion to make such changes without obtaining stockholder approval. In addition, in the event that the Committee determines that it is advisable to grant Awards which shall not qualify for the Performance-Based Exception, the Committee may make such grants without satisfying the requirements of Code Section 162(m) and, thus, which use performance measures other than those specified above.

Section 11.
Award Forfeitures

11.1. Forfeiture of Options and Other Awards. Each Award granted hereunder shall be subject to the following additional forfeiture conditions, to which the Participant, by accepting an Award hereunder, agrees. If any of the events specified in Section 11.2 occurs (a "Forfeiture Event"), all of the following forfeitures will result:

(a) The unexercised portion of any Option, whether or not vested, and any other Award not then settled (except for an Award that has not been settled solely due to an elective deferral pursuant to Section 13 by the Participant and otherwise is not forfeitable in the event of any termination of service of the Participant) will be immediately forfeited and canceled upon the occurrence of the Forfeiture Event; and

(b) The Participant will be obligated to repay to the Company, in cash, within five business days after demand is made therefor by the Company, the total amount of Award Gain (as defined herein) realized by the Participant upon each exercise of an Option or settlement of an Award (regardless of any elective deferral pursuant to Section 13) that occurred on or after (i) the date that is six months before the occurrence of the Forfeiture Event, if the Forfeiture Event

occurred while the Participant was employed by the Company or a Subsidiary, or (ii) the date that is six months before the date the Participant's employment by, or service as a Director with the Company or a Subsidiary terminated, if the Forfeiture Event occurred after the Participant ceased to be so employed.

11.2. Events Triggering Forfeiture. The forfeitures specified in Section 11.1 will be triggered upon the occurrence of any one of the following Forfeiture Events at any time during the Participant's employment by or service as a Director with the Company or a Subsidiary or during the one-year period following termination of such employment or service:

Page 88

(a) Non-Solicitation. The Participant, for his or her own benefit or for the benefit of any other person, company or entity, directly or indirectly, (i) induces or attempts to induce or hires or otherwise counsels, induces or attempts to induce or hire or otherwise counsel, advise, encourage or solicit any person to leave the employment of or the service for the Company or any Subsidiary, (ii) hires or in any manner employs or retains the services of any individual employed by or providing services to the Company or any Subsidiary as of the date of his or her termination of employment, or employed by or providing services to the Company or any Subsidiary subsequent to such termination, (iii) solicits, pursues, calls upon or takes away, any of the customers of the Company or any Subsidiary, (iv) solicits, pursues, calls upon or takes away, any potential customer of the Company or any Subsidiary that has been the subject of a bid, offer or proposal by the Company or any Subsidiary, or of substantial preparation with a view to making such a bid, proposal or offer, within six months before such Participant's termination of employment with the Company or any Subsidiary, or (v) otherwise interferes with the business or accounts of the Company or any Subsidiary.

(b) Confidential Information. The Participant discloses to any person or entity or makes use of any "confidential or proprietary information" (as defined below in this subparagraph (b)) for his or her own purpose or for the benefit of any person or entity, except as may be necessary in the ordinary course of employment with or other service to the Company or any Subsidiary. Such "confidential or proprietary information" of the Company or any Subsidiary, includes, but is not limited to, the design, development, operation, building or manufacturing of products manufactured and supplied by the Company and its Subsidiaries, the identity of the Company's or any Subsidiary's customers, the identity of representatives of customers with whom the Company or any Subsidiary has dealt, the kinds of services provided by the Company or any Subsidiary to customers and offered to be performed for potential customers, the manner in which such services are performed or offered to be performed, the service needs of actual or prospective customers, pricing information, information concerning the creation, acquisition or disposition of products and services, customer maintenance listings, computer software and hardware applications and other programs, personnel information, information identifying, relating to or concerning investors in the Company or any Subsidiary, joint venture partners of the Company or any Subsidiary, business partners of the Company or any Subsidiary or other entities providing financing to the Company or any Subsidiary, real estate and leasing opportunities, communications and telecommunications operations and processes, zoning and licensing matters, relationships with, or matters involving, landlords and/or property owners, and other trade secrets.

11.3. Agreement Does Not Prohibit Competition or Other Participant Activities. Although the conditions set forth in this Section 11 shall be deemed to be incorporated into an Award, the Plan does not thereby prohibit the Participant from engaging in any activity, including but not limited to competition with the Company and its Subsidiaries. Rather, the non-occurrence of the Forfeiture Events set forth in Section 11.2 is a condition to the Participant's right to realize and retain value from his or her compensatory Awards, and the consequence under the Plan if the Participant engages in an activity giving rise to any such Forfeiture Event are the forfeitures specified herein. This provision shall not preclude the Company and the Participant from entering into other written agreements

concerning the subject matter of Sections 11.1 and 11.2 and, to the extent any terms of this Section 11 are inconsistent with any express terms of such agreement, this Section 11 shall not be deemed to modify or amend such terms.

11.4. **Committee Discretion.** The Committee may, in its sole discretion, waive in whole or in part the Company's right to forfeiture under this Section 11, but no such waiver shall be effective unless evidenced by a writing signed by a duly authorized officer of the Company. In addition, the Committee may impose additional conditions on Awards, by inclusion of appropriate provisions in the Award Document. Nothing contained herein shall require the Committee to enforce the forfeiture provisions of this Section 11. Failure to enforce these forfeiture provisions against any individual shall not be construed as a waiver of the Company's right to forfeiture under this Section 11.

11.5. **Clawback Provision.** Notwithstanding any other provision of the Plan to the contrary, including Section 16.1 which prohibits material and adverse changes to any outstanding Award, any Participant who is an officer of the Company whose negligent, intentional or gross misconduct contributes to the Company's having to restate all or a portion of its financial statements, will be required to forfeit Awards granted under this Plan and repay the Company the total amount of Award Gain realized by the Participant upon the exercise of an Option or settlement of an Award, as determined by the Board of Directors, an authorized committee, or its designee, pursuant to the Caterpillar Inc. Guidelines on Corporate Governance Issues, as adopted on February 14, 2007 and any subsequent amendments. Any Awards granted under this Plan prior to February 14, 2007 are subject to the provisions of this Section 11.5 only with the written consent of the Participant.

Page 89

Section 12. Beneficiary Designation

12.1. **Beneficiary Designations.** Each Participant under the Plan may, from time to time, name any beneficiary or beneficiaries (who may be named contingently or successively) to whom any benefit under the Plan is to be paid in case of his or her death before he or she receives any or all of such benefit. Each such designation shall revoke all prior designations by the same Participant, shall be in a form prescribed by the Company, and will be effective only when filed by the Participant in writing with the Company during the Participant's lifetime. In the absence of any such designation, benefits remaining unpaid at the Participant's death shall be paid to the Participant's estate.

Section 13. Deferrals

13.1. **Deferrals.** The Committee may permit a Participant to defer such Participant's receipt of the payment of cash or the delivery of Shares that would otherwise be due to such Participant upon the exercise of any Option or by virtue of the lapse or waiver of restrictions with respect to Restricted Stock, or the satisfaction of any requirements or goals with respect to Performance Units/Shares. If any such deferral election is required or permitted, the Committee shall, in its sole discretion, establish rules and procedures for such payment deferrals. All such deferrals (and rules and procedures) shall be consistent with Code Section 409A and any other applicable law.

Section 14. Rights and Obligations of Parties

14.1. **No Guarantee of Employment or Service Rights.** Nothing in the Plan shall interfere with or limit in any way the right of the Company to terminate any Participant's employment at any time, nor confer upon any Participant any right to continue in the employ of the Company or any Subsidiary.

14.2. Temporary Absence. For purposes of the Plan, temporary absence from employment because of illness, vacation, approved leaves of absence, and transfers of employment among the Company and its Subsidiaries, shall not be considered to terminate employment or to interrupt continuous employment.

14.3. Participation. No Employee or Director shall have the right to be selected to receive an Award under the Plan, or, having been so selected, to be selected to receive a future Award.

14.4. Right of Setoff. The Company or any Subsidiary may, to the extent permitted by applicable law, deduct from and set off against any amounts the Company or Subsidiary may owe to the Participant from time to time, including amounts payable in connection with any Award, owed as wages, fringe benefits, or other compensation owed to the Participant, such amounts as may be owed by the Participant to the Company, although the Participant shall remain liable for any part of the Participant's payment obligation not satisfied through such deduction and setoff. By accepting any Award granted hereunder, the Participant agrees to any deduction or setoff under this Section 14.

14.5. Section 83(b) Election. No election under Section 83(b) of the Code (to include in gross income in the year of transfer the amounts specified in Code Section 83(b)) or under a similar provision of the laws of a jurisdiction outside the United States may be made, unless expressly permitted by the terms of the Award Document or by action of the Committee in writing before the making of such election. In any case in which a Participant is permitted to make such an election in connection with an Award, the Participant shall notify the Company of such election within ten days of filing notice of the election with the Internal Revenue Service or other governmental authority, in addition to any filing and notification required pursuant to regulations issued under Code Section 83(b) or other applicable provision.

14.6. Disqualifying Disposition Notification. If any Participant shall make any disposition of Shares delivered pursuant to the exercise of an Incentive Stock Option under the circumstances described in Code Section 421(b) (relating to certain disqualifying dispositions), such Participant shall notify the Company of such disposition within ten days thereof.

Page 90

Section 15. Change of Control

15.1. Change of Control. If a Participant's employment or service with the Company and/or any Subsidiary terminates either without Cause or for Good Reason within the 12 month period following a Change of Control, unless otherwise specifically prohibited under applicable laws, or by the rules and regulations of any governing governmental agencies or national securities exchanges:

- (a) Any and all Options and SARs granted hereunder shall become immediately exercisable, and shall remain exercisable throughout their entire term;
- (b) Any Period of Restriction and other restrictions imposed on Restricted Stock shall lapse; and
- (c) Unless otherwise specified in an Award Document, the maximum payout opportunities attainable under all outstanding Awards of Performance Units and Performance Shares shall be deemed to have been fully earned for the entire Performance Period(s) as of the effective date of the Change of Control. The vesting of all such Awards shall be accelerated as of the effective date of the Change of Control, and in full settlement of such Awards, there shall be paid out in cash to Participants within 30 days following the effective date of the Change of Control the maximum of payout opportunities associated with such outstanding Awards.

Section 16.
Amendment, Modification, and Termination

16.1. Amendment, Modification, and Termination. The Board may amend, suspend or terminate the Plan or the Committee's authority to grant Awards under the Plan without the consent of stockholders or Participants; provided, however, that any amendment to the Plan shall be submitted to the Company's stockholders for approval not later than the earliest annual meeting for which the record date is after the date of such Board action if such stockholder approval is required by any federal or state law or regulation or the rules of any stock exchange or automated quotation system on which the Shares may then be listed or quoted and the Board may otherwise, in its sole discretion, determine to submit other amendments to the Plan to stockholders for approval; and provided further, that, without the written consent of an affected Participant, no such Board action may materially and adversely affect the rights of such Participant under any outstanding Award. The Committee shall have no authority to waive or modify any other Award term after the Award has been granted to the extent that the waived or modified term was mandatory under the Plan.

Section 17.
Withholding

17.1. Tax Withholding. The Company shall have the power and the right to deduct or withhold, or require a Participant to remit to the Company, an amount sufficient to satisfy Federal, state, and local taxes, domestic or foreign, required by law or regulation to be withheld with respect to any taxable event arising as a result of the Plan.

17.2. Share Withholding. With respect to withholding required upon the exercise of Options or SARs, upon the lapse of restrictions on Restricted Stock, or upon any other taxable event arising as a result of Awards granted hereunder, the withholding requirement shall be satisfied by the Company withholding Shares having a Fair Market Value on the date the tax is to be determined equal to the minimum statutory total tax which would be imposed on the transaction.

Section 18.
Miscellaneous

18.1. Unfunded Plan. The Plan is intended to constitute an "unfunded" plan for incentive and deferred compensation. With respect to any payments not yet made to a Participant or obligation to deliver Shares pursuant to an Award, nothing contained in the Plan or any Award shall give any such Participant any rights that are greater than those of a general creditor of the Company; provided that the Committee may authorize the creation of trusts and deposit therein cash, Shares, other Awards or other property, or make other arrangements to meet the Company's obligations under the Plan. Such trusts or other arrangements shall be consistent with the "unfunded" status of the Plan unless the Committee otherwise determines with the consent of each affected Participant. No such funding shall be established that would cause an amount to be taxable under Code Section 409A before it is received by a Participant or cause an amount to be subject to additional tax under such Section.

Page 91

18.2. Forfeitures; Fractional Shares. Unless otherwise determined by the Committee, in the event of a forfeiture of an Award with respect to which a Participant paid cash consideration, the Participant shall be repaid the amount of such cash consideration. No fractional Shares shall be issued or delivered pursuant to the Plan or any Award. The Committee shall determine whether cash, other Awards or other property shall be issued or paid in lieu of such fractional Shares or whether such fractional Shares or any rights thereto shall be forfeited or otherwise eliminated.

18.3. Compliance with Code Section 162(m). The Company intends that Options and SARs granted to Named Executive Officers and other Awards designated as Awards to Named Executive Officers shall constitute qualified “performance-based compensation” within the meaning of Code Section 162(m) and regulations thereunder, unless otherwise determined by the Committee at the time of allocation of an Award. Accordingly, the terms of Sections 4.2, 6, 7, 8.5, 8.6, 9 and 10, including the definitions of Named Executive Officer and other terms used therein, shall be interpreted in a manner consistent with Code Section 162(m) and regulations thereunder. The foregoing notwithstanding, because the Committee cannot determine with certainty whether a given Participant will be a Named Executive Officer with respect to a fiscal year that has not yet been completed, the Committee may, in its discretion, extend the terms of such Sections to any Participant that the Committee deems appropriate. If any provision of the Plan or any Award Document relating to a Performance Award that is designated as intended to comply with Code Section 162(m) does not comply or is inconsistent with the requirements of Code Section 162(m) or regulations thereunder, such provision shall be construed or deemed amended to the extent necessary to conform to such requirements, and no provision shall be deemed to confer upon the Committee or any other person sole discretion to increase the amount of compensation otherwise payable in connection with any such Award upon attainment of the applicable performance objectives.

18.4. Gender and Number; Headings. Except where otherwise indicated by the context, any masculine term used herein also shall include the feminine; the plural shall include the singular and the singular shall include the plural. Headings are included for the convenience of reference only and shall not be used in the interpretation or construction of any such provision contained in the Plan.

18.5. Severability. In the event any provision of the Plan shall be held illegal or invalid for any reason, the illegality or invalidity shall not affect the remaining parts of the Plan, and the Plan shall be construed and enforced as if the illegal or invalid provision had not been included.

18.6. Successors. All obligations of the Company under the Plan with respect to Awards granted hereunder shall be binding on any successor to the Company, whether the existence of such successor is the result of a direct or indirect merger, consolidation, purchase of all or substantially all of the business and/or assets of the Company or otherwise.

18.7. Requirements of Law. The granting of Awards and the issuance of Shares under the Plan shall be subject to all applicable laws, rules, and regulations, and to such approvals by any governmental agencies or national securities exchanges as may be required.

18.8. Securities Law Compliance. With respect to “insiders,” transactions under the Plan are intended to comply with all applicable conditions of Rule 16b-3 or its successors under the Exchange Act. To the extent any provision of the Plan or action by the Committee fails to so comply, it shall be deemed null and void, to the extent permitted by law and deemed advisable by the Committee. An “insider” includes any individual who is, on the relevant date, an officer, Director or more than 10% beneficial owner of any class of the Company’s equity securities that is registered pursuant to Section 12 of the Exchange Act, all as defined under Section 16 of the Exchange Act.

18.9. Governing Law. To the extent not preempted by Federal law, the Plan, and all agreements hereunder, shall be construed in accordance with and governed by the laws of the State of Illinois without regard to the conflict of law provisions thereof.

If Proposal 4 is approved by stockholders at the 2010 Annual Meeting, amendments to Article Sixth, subsections (b), (c), (d) and (f) will be approved. If Proposal 5 is approved by stockholders at the 2010 Annual Meeting, amendments to Article Fifth and Article Sixth, subsection (e) and Article Eighth will be approved.

The corporation shall indemnify to the full extent permitted by, and in the manner permissible under, the laws of the State of Delaware any person made, or threatened to be made, a party to an action or proceeding, whether criminal, civil, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he, his testator or intestate is or was a director or officer of the corporation or any predecessor of the corporation, or served any other enterprise as a director or officer at the request of the corporation or any predecessor of the corporation. The corporation shall pay or reimburse the actual and reasonable expenses (including attorneys fees) of such person incurred in defending any threatened or pending proceeding in advance of its final disposition if the corporation has received an undertaking by the person receiving such payment or reimbursement to repay all amounts advanced if it should be ultimately determined that he or she is not entitled to be indemnified under this Article V or otherwise.

The foregoing provisions of this Article V shall be deemed to be a contract between the corporation and each director and officer who serves in such capacity at any time while this bylaw is in effect, and any repeal or modification thereof shall not affect any rights or obligations then existing with respect to any state of facts then or theretofore existing or any action, suit or proceeding theretofore or thereafter brought based in whole or in part upon any such state of facts.

The foregoing rights of indemnification and advancement of expenses shall not be deemed exclusive of any other rights to which any director or officer may be entitled apart from the provisions of this Article.

The board of directors in its discretion shall have power on behalf of the corporation to indemnify and advance expenses to any person, other than a director or officer, made a party to any action, suit or proceeding by reason of the fact that he, his testator or intestate, is or was an employee of the corporation.

Article VI
Miscellaneous

Section 1. Record Date.

- (a) In order that the corporation may determine the stockholders entitled to notice of any meeting of stockholders or any adjournment thereof, the board of directors may fix, in advance, a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the board of directors and which record date shall not be more than sixty (60) nor less than ten (10) days prior to the date of such meeting. If the board of directors so fixes a date, such date shall also be the record date for determining the stockholders entitled to vote at such meeting unless the board of directors determines, at the time it fixes such record date, that a later date on or before the date of the meeting shall be the date for making such determination. If no record date is fixed by the board of directors, the record date for determining stockholders entitled to notice of and to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held. A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the board of directors may fix a new record date for determination of stockholders entitled to vote at the adjourned meeting, and in such case shall also fix as the record date for stockholders entitled to notice of such adjourned meeting the same or an earlier date as that fixed for determination of stockholders entitled to vote in accordance with the foregoing provisions at the adjourned meeting.
- (b) In order that the corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment of any rights or entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purpose of any other lawful action, the board may fix, in advance, a record date, which shall not be more than sixty (60) days prior to any such corporate action. If not fixed by the board, the record date shall be at the close of business on the day on which the board of directors adopts resolution relating thereto.

- (c) Stockholders on a record date are entitled to notice, to vote or to receive the dividend, distribution or allotment of rights or to exercise the rights, as the case may be, notwithstanding any transfer of any shares on the books of the corporation after the record date, except as otherwise provided by agreement or by applicable law.

Section 2. Stock Certificates.

- (a) Shares of the corporation may be certificated or uncertificated, as provided under the laws of the State of Delaware. Every holder of certificated shares in the corporation shall be entitled to have a certificate signed in the name of the corporation by the chairman of the board or the vice chairman, or by the president or vice president, and by the treasurer or an assistant treasurer, or the secretary or an assistant secretary, certifying the number of shares and the class or series of shares owned by the stockholder. Any or all of the signatures on the certificate may be a facsimile. In case any officer, transfer agent or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent or registrar before such certificate is issued, it may be issued by the corporation with the same effect as if such person were an officer, transfer agent or registrar at the date of issue.
- (b) The corporation may issue a new share certificate or a new certificate for any other security in the place of any certificate theretofore issued by it, alleged to have been lost, stolen or destroyed, and the corporation may require the owner of the lost, stolen or destroyed certificate or the owner's legal representative to give the corporation a bond (or other adequate security) sufficient to indemnify it against any claim that may be made against it (including any expense or liability) on account of the alleged loss, theft or destruction of any such certificate or the issuance of such new certificate.

Section 3. Corporate Seal.

The corporation shall have a corporate seal in such form as shall be prescribed and adopted by the board of directors.

Section 4. Construction and Definitions.

Unless the context requires otherwise, the general provisions, rules of construction, and definitions in the General Corporation Law of Delaware shall govern the construction of these bylaws.

Section 5. Amendments.

Subject to the provisions of the certificate of incorporation, these bylaws may be altered, amended or repealed at any regular meeting of the stockholders (or at any special meeting thereof duly called for that purpose) by a majority vote of the shares represented and entitled to vote at the meeting; provided that in the notice of such special meeting notice of such purpose shall be given. Subject to the laws of the State of Delaware, the certificate of incorporation and these bylaws, the board of directors may by majority vote of those present at any meeting at which a quorum is present amend these bylaws, or enact such other bylaws as in their judgment may be advisable for the regulation of the conduct of the affairs of the corporation.
