THE CATO CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)
FOR THE THREE MONTHS AND SIX MONTHS ENDED JULY 30, 2016 AND AUGUST 1, 2015

NOTE 1 - GENERAL:

The condensed consolidated financial statements have been prepared from the accounting records of The Cato Corporation and its wholly-owned subsidiaries (the “Company”), and all amounts shown as of and for the periods ended July 30, 2016 and August 1, 2015 are unaudited. In the opinion of management, all adjustments considered necessary for a fair statement have been included. All such adjustments are of a normal, recurring nature unless otherwise noted. The results of the interim period may not be indicative of the results expected for the entire year.

The interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto, included in the Company’s Annual Report on Form 10-K for the fiscal year ended January 30, 2016. Amounts as of January 30, 2016 have been derived from the audited balance sheet, but do not include all disclosures required by accounting principles generally accepted in the United States of America.

During the first quarter of 2016, the Company determined that there was an error in the classification of unrecognized tax benefits for uncertain tax positions as current liabilities in Accrued income taxes that resulted in a revision to the prior year end balance sheet as of January 30, 2016. The Condensed Consolidated Balance Sheet as of January 30, 2016 has been revised to correct the presentation of the amounts, which resulted in a decrease to Accrued income taxes and a corresponding increase to Other noncurrent liabilities of \$13.6 million, which primarily consists of deferred rent and deferred compensation liabilities. There was no impact to the statement of income and comprehensive income and no impact to total net cash provided by operating activities or used in investing and financing activities in the statement of cash flows. The Company concluded that the revision was immaterial to prior period financial statements.

During the first quarter of 2016, the Company changed its estimate for recognizing gift card breakage income. The Company changed the dormancy period to 24 months of inactivity from 60 months of inactivity to more closely align with recent Company experience, industry practice and tax treatment. As a result, the Company recognized \$2.4 million of additional breakage income (recorded in Interest and other income in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income) for gift cards that were dormant from January 30, 2011 through February 1, 2014.

In August 2016, the Company repurchased 294,500 shares for \$10,156,531.

On August 25, 2016, the Board of Directors maintained the quarterly dividend at \$0.33 per share.

NOTE 2 - EARNINGS PER SHARE:

Accounting Standard Codification (“ASC”) 260 – *Earnings Per Share* requires dual presentation of basic and diluted Earnings Per Share (“EPS”) on the face of all income statements for all entities with complex capital structures. The Company has presented one basic EPS and one diluted EPS amount for all common shares in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. While the Company’s certificate of incorporation provides the right for the Board of Directors to declare dividends on Class A shares without declaration of commensurate dividends on Class B shares, the Company has historically paid the same dividends to both Class A and Class B shareholders and the Board of Directors has resolved to continue this practice. Accordingly, the Company’s allocation of income for purposes of the EPS computation is the same for Class A and Class B shares and the EPS amounts reported herein are applicable to both Class A and Class B shares.

Basic EPS is computed as net income less earnings allocated to non-vested equity awards divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options and the Employee Stock Purchase Plan.

FOR THE THREE MONTHS AND SIX MONTHS ENDED JULY 30, 2016 AND AUGUST 1, 2015

NOTE 4 – FINANCING ARRANGEMENTS:

As of July 30, 2016, the Company had an unsecured revolving credit agreement to borrow \$35.0 million less the balance of any revocable letters of credit as discussed below. The revolving credit agreement is committed until August 2018. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of July 30, 2016. There were no borrowings outstanding under this credit facility during the periods ended July 30, 2016 or January 30, 2016. The weighted average interest rate under the credit facility was zero at July 30, 2016 due to no borrowings during the year.

At July 30, 2016 and January 30, 2016, the Company had no outstanding revocable letters of credit relating to purchase commitments.

NOTE 5 – REPORTABLE SEGMENT INFORMATION:

The Company has determined that it has four operating segments, as defined under ASC 280-10, including Cato, It's Fashion, Versona and Credit. As outlined in ASC 280-10, the Company has two reportable segments: Retail and Credit. The Company has aggregated its three retail operating segments, including e-commerce, based on the aggregation criteria outlined in ASC 280-10, which states that two or more operating segments may be aggregated into a single reportable segment if aggregation is consistent with the objective and basic principles of ASC 280-10, which require the segments to have similar economic characteristics, products, production processes, clients and methods of distribution.

The Company's retail operating segments have similar economic characteristics and similar operating, financial and competitive risks. They are similar in nature of product, as they all offer women's apparel, shoes and accessories. Merchandise inventory for the Company's retail operating segments is sourced from the same countries and some of

the same vendors, using similar production processes. Merchandise for the Company's operating segments is distributed to retail stores in a similar manner through the Company's single distribution center and is subsequently distributed to clients in a similar manner.

The Company operates its women's fashion specialty retail stores in 33 states as of July 30, 2016, principally in the southeastern United States. The Company offers its own credit card to its customers and all credit authorizations, payment processing and collection efforts are performed by a separate subsidiary of the Company.

NOTE 6 – STOCK-BASED COMPENSATION:

As of July 30, 2016, the Company had three long-term compensation plans pursuant to which stock-based compensation was outstanding or could be granted. The Company's 1987 Non-Qualified Stock Option Plan is for the granting of options to officers and key employees. As of July 30, 2016, there were no available stock options for grant. The 2013 Incentive Compensation Plan and 2004 Amended and Restated Incentive Compensation Plan are for the granting of various forms of equity-based awards, including restricted stock and stock options for grant, to officers, directors and key employees. Effective May 23, 2013, shares for grant were no longer available under the 2004 Amended and Restated Incentive Compensation Plan.

The following table presents the number of options and shares of restricted stock initially authorized and available for grant under each of the plans as of July 30, 2016:

	1987 Plan	2004 Plan	2013 Plan	Total
Options and/or restricted stock initially authorized	5,850,000	1,350,000	1,500,000	8,700,000
Options and/or restricted stock available for grant: July 30, 2016	-	-	1,015,587	1,015,587

In accordance with ASC 718, the fair value of current restricted stock awards is estimated on the date of grant based on the market price of the Company's stock and is amortized to compensation expense on a straight-line basis over the related vesting periods. As of July 30, 2016 and January 30, 2016, there was \$15,249,000 and \$12,214,000, respectively, of total unrecognized compensation expense related to nonvested restricted stock awards, which had a remaining weighted-average vesting period of 3.0 years and 2.6 years, respectively. The total fair value of the shares recognized as compensation expense during the three and six months ended July 30, 2016 was \$1,449,000 and \$1,802,000, respectively, compared to \$1,319,000 and \$1,940,000, respectively, for the three and six months ended August 1, 2015. These expenses are classified as a component of Selling, general and administrative expenses in the Condensed Consolidated Statements of Income.

NOTE 6 – STOCK BASED-COMPENSATION (CONTINUED):

The Company's Employee Stock Purchase Plan allows eligible full-time employees to purchase a limited number of shares of the Company's Class A Common Stock during each semi-annual offering period at a 15% discount through payroll deductions. During the six months ended July 30, 2016 and August 1, 2015, the Company sold 8,143 and 8,781 shares to employees at an average discount of \$5.29 and \$5.40 per share, respectively, under the Employee Stock Purchase Plan. The compensation expense recognized for the 15% discount given under the Employee Stock Purchase Plan was approximately \$43,000 and \$47,000 for the six months ended July 30, 2016 and August 1, 2015, respectively. These expenses are classified as a component of Selling, general and administrative expenses.

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securities held in managed accounts with underlying ratings of A or better at July 30, 2016 and January 30, 2016. The state, municipal and corporate bonds have contractual maturities which range from two days to 27.0 years. The U.S. Treasury Notes and Certificates of Deposit have contractual maturities which range from two months to 1.6 years. These securities are classified as available-for-sale and are recorded as Short-term investments, Restricted cash and investments and Other assets on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income.

Additionally, at July 30, 2016, the Company had \$0.6 million of corporate equities and deferred compensation plan assets of \$7.8 million. At January 30, 2016, the Company had \$0.6 million of corporate equities and deferred compensation plan assets of \$6.4 million. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets.

Level 1 category securities are measured at fair value using quoted active market prices. Level 2 investment securities include corporate and municipal bonds for which quoted prices may not be available on active exchanges for identical instruments. Their fair value is principally based on market values determined by management with assistance of a third-party pricing service. Since quoted prices in active markets for identical assets are not available, these prices are determined by the pricing service using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics, among other factors.

Deferred compensation plan assets consist of life insurance policies. These life insurance policies are valued based on the cash surrender value of the insurance contract, which is determined based on such factors as the fair value of the underlying assets and discounted cash flow and are therefore classified within Level 3 of the valuation hierarchy. The Level 3 liability associated with the life insurance policies represents a deferred compensation obligation, the value of which is tracked via underlying insurance funds. These funds are designed to mirror existing mutual funds and money market funds that are observable and actively traded. Cash surrender values are provided by third parties and reviewed for reasonableness by the Company.

NOTE 8 – RECENT ACCOUNTING PRONOUNCEMENTS:

Recently Adopted Accounting Policies

In March 2016, the Financial Accounting Standards Board issued Accounting Standards Update 2016-09. This new accounting guidance requires entities to record the differences between income tax stock expense and book tax expense as a component of income tax expense in the income statement. The standard is effective for annual periods beginning after December 15, 2016, with early adoption permitted. In the second quarter of 2016, we early adopted this new guidance. The impact on the Condensed Consolidated Statements of Income and Comprehensive Income for the three and six months ended July 30, 2016 was \$594,000.

In November 2015, the Financial Accounting Standards Board issued Accounting Standards Update 2015-17. This new accounting guidance requires entities to present deferred tax assets and deferred tax liabilities, along with any related valuation allowance, as noncurrent in a balance sheet. The standard is effective for annual and interim periods beginning after December 15, 2016, with early adoption permitted. We have early adopted this new guidance prospectively beginning with the Condensed Consolidated Balance Sheet at January 30, 2016, which is included in the Company's Annual Report on Form 10-K. Prior periods were not retrospectively adjusted.

Recent Accounting Pronouncements

In November 2015, the Financial Accounting Standards Board issued an effective date for a new leasing standard that will require substantially all leases to be recorded on the balance sheet. The standard is effective for the Company's first quarter of its 2019 fiscal year; early adoption is permitted as of the beginning of an interim or annual reporting period. The Company is assessing what impacts this new standard will have on its Consolidated Financial Statements.

In July 2015, the Financial Accounting Standards Board issued an accounting standards update that will simplify the measurement of inventory for companies. The standard differentiates the valuation methods used to measure inventory

based on the type of inventory method utilized by a company. Companies using the first-in, first-out method and the average cost method will measure inventory at the net realizable value method to measure inventory. Companies using the last-in, first-out method and the retail method will use the lower of cost or market to measure inventory. The standard is effective for the Company's first quarter of its 2017 fiscal year; early adoption is permitted as of the beginning of an interim or annual reporting period. The Company is assessing what impacts this new standard will have on its Consolidated Financial Statements.

In May 2014, the Financial Accounting Standards Board issued an accounting standards update that will supersede most current revenue recognition guidance and modify the accounting treatment for certain costs associated with revenue generation. The core principle of the revised revenue recognition standard is that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services, and provides several steps to apply to achieve that principle. In addition, the new guidance enhances disclosure requirements to include more information about specific revenue contracts entered into by the entity. The standard is effective for the Company's first quarter of its 2018 fiscal year; early adoption is permitted as of the original effective date. The Company is assessing what impacts this new standard will have on its Consolidated Financial Statements.

NOTE 9 – INCOME TAXES:

The effective tax rate for the second quarter of 2016 was 11.6% compared to 37.5% for the second quarter of 2015. The decrease in the effective tax rate for the second quarter of 2016 as compared to the second quarter of 2015 is primarily due to a \$9.6 million benefit related to continuing foreign and domestic tax initiatives, which also includes the impact of Protecting Americans from Tax Hikes (PATH Act) and the early adoption of Share Based Accounting Improvements (ASU 2016-09) during the second quarter of 2016. The decrease in the effective tax rate is also due to the change in relative proportions of net earnings attributable to various discrete items to total pre-tax earnings between the periods due to lower pre-tax earnings in the current period.

FORWARD-LOOKING INFORMATION:

The following information should be read along with the unaudited Condensed Consolidated Financial Statements, including the accompanying Notes appearing in this report. Any of the following are “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended: (1) statements in this Form 10-Q that reflect projections or expectations of our future financial or economic performance; (2) statements that are not historical information; (3) statements of our beliefs, intentions, plans and objectives for future operations, including those contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations”; (4) statements relating to our operations or activities for our fiscal year ending January 28, 2017 (“fiscal 2016”) and beyond, including, but not limited to, statements regarding expected amounts of capital expenditures and store openings, relocations, remodels and closures; and (5) statements relating to our future contingencies. When possible, we have attempted to identify forward-looking statements by using words such as “will,” “expects,” “anticipates,” “approximates,” “believes,” “estimates,” “hopes,” “intends,” “plans,” “could,” “would,” “should” and any variations or negative formations of such words and similar expressions. We can give no assurance that actual results or events will not differ materially from those expressed or implied in any such forward-looking statements. Forward-looking statements included in this report are based on information available to us as of the filing date of this report, but subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from those contemplated by the forward-looking statements. Such factors include, but are not limited to, the following: any actual or perceived deterioration in the conditions that drive consumer confidence and spending, including, but not limited to, levels of unemployment, fuel, energy and food costs, wage rates, tax rates, home values, consumer net worth and the availability of credit; uncertainties regarding the impact of any governmental responses to the foregoing conditions; competitive factors and pricing pressures; our ability to predict and respond rapidly to changing fashion trends and consumer demands; adverse weather or similar conditions that may affect our sales or operations; inventory risks due to shifts in market demand; and other factors discussed under “Risk Factors” in Part I, Item 1A of our annual report on Form 10-K for the fiscal year ended January 30, 2016 (“fiscal 2015”), as amended or supplemented, and in other reports we file with or furnish to the Securities and Exchange Commission (“SEC”) from time to time. We do not undertake, and expressly decline, any obligation to update any such forward-looking information contained in this report, whether as a result of new information, future events, or otherwise.

CRITICAL ACCOUNTING POLICIES:

The Company’s accounting policies are more fully described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s Annual Report on Form 10-K for the fiscal year ended January 30, 2016. As disclosed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the preparation of the Company’s financial statements in conformity with generally accepted accounting principles in the United States (“GAAP”) requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The most significant accounting estimates inherent in the preparation of the Company’s financial statements include the allowance for doubtful accounts, inventory shrinkage, the calculation of potential asset impairment, workers’ compensation, general and auto insurance liabilities, reserves related to self-insured health insurance, and uncertain tax positions.

The Company’s critical accounting policies and estimates are discussed with the Audit Committee.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

RESULTS OF OPERATIONS (CONTINUED):

Comparison of the Three and Six Months ended July 30, 2016 with August 1, 2015

Total retail sales for the second quarter were \$236.7 million compared to last year's second quarter sales of \$249.2 million, a 5.0% decrease. Sales decreased primarily due to a 6.0% decrease in same-store sales, partially offset by sales from non-comparable stores. For the six months ended July 30, 2016, total retail sales were \$522.2 million compared to last year's comparable six month sales of \$530.8 million. Sales in the first six months of fiscal 2016 decreased primarily due to a 3.1% decrease in same-store sales, partially offset by sales from non-comparable stores. Same-store sales include stores that have been open more than 15 months. Stores that have been relocated or expanded are also included in the same-store sales calculation after they have been open more than 15 months. The method of calculating same-store sales varies across the retail industry. As a result, our same-store sales calculation may not be comparable to similarly titled measures reported by other companies. E-commerce sales were less than 2% of sales for the six months ended July 30, 2016 and are included in the same-store sales calculation. Total revenues, comprised of retail sales and other revenue (principally finance charges and late fees on customer accounts receivable and layaway fees), were \$238.9 million and \$526.9 million for the three and six months ended July 30, 2016, compared to \$251.3 million and \$535.2 million for the three and six months ended August 1, 2015, respectively. The Company operated 1,373 stores at July 30, 2016 compared to 1,358 stores at the end of last year's second quarter. For the first six months of fiscal 2016, the Company opened two new stores, relocated four stores and closed one store. In total, the Company currently expects to open approximately 12 stores, relocate six stores and close 14 stores in fiscal 2016.

Credit revenue of \$1.2 million represented 0.5% of total revenues in the second quarter of fiscal 2016, compared to 2015 credit revenue of \$1.4 million or 0.5% of total revenues. Credit revenue decreased slightly for the most recent comparable period due to lower finance charge income under the Company's proprietary credit card. Credit revenue is comprised of interest earned on the Company's private label credit card portfolio and related fee income. Related expenses principally include bad debt expense, payroll, postage and other administrative expenses and totaled \$0.7 million in the second quarter of fiscal 2016, compared to last year's second quarter expense of \$0.9 million. The slight decrease was primarily due to lower bad debt expense.

Other revenue was \$2.2 million and \$4.7 million for the three and six months ended July 30, 2016, compared to \$2.1 million and \$4.4 million for the prior year's comparable three and six month periods. The overall increase resulted primarily from e-commerce shipping revenue, partially offset by lower finance charges.

Cost of goods sold was \$149.1 million, or 63.0% of retail sales and \$313.0 million or 60.0% of retail sales for the three and six months ended July 30, 2016, compared to \$154.5 million, or 62.0% of retail sales and \$317.0 million, or 59.7% of retail sales for the comparable three and six month periods of fiscal 2015. The overall increase in cost of goods sold as a percent of retail sales for the second quarter of fiscal 2016 resulted primarily from lower sales of regular priced goods and higher purchasing and sourcing costs. Cost of goods sold includes merchandise costs (net of discounts and allowances), buying costs, distribution costs, occupancy costs, freight and inventory shrinkage. Net merchandise costs and in-bound freight are capitalized as inventory costs. Buying and distribution costs include payroll, payroll-related costs and operating expenses for the buying departments and distribution center. Occupancy costs include rent, real estate taxes, insurance, common area maintenance, utilities and maintenance for stores and distribution facilities. Total gross margin dollars (retail sales less cost of goods sold exclusive of depreciation) decreased by 7.5% to \$87.6 million for the second quarter of fiscal 2016 and decreased by 2.2% to \$209.1 million for the first six months of fiscal 2016 compared to \$94.7 million and \$213.8 million for the prior year's comparable three and six months of fiscal 2015. Gross margin as presented may not be comparable to those of other entities.

Table of Contents

**THE CATO CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

Selling, general and administrative expenses ("SG&A") primarily include corporate and store payroll, related payroll taxes and benefits, insurance, supplies, advertising, bank and credit card processing fees and bad debts. SG&A expenses were \$67.6 million, or 28.5% of retail sales and \$138.6 million, or 26.5% of retail sales for the second quarter and first six months of fiscal 2016, respectively, compared to \$67.1 million, or 26.9% of retail sales and \$135.7 million, or 25.6% of retail sales for the prior year's comparable three and six month periods. The increase in SG&A expense for the second quarter and for the first six months of fiscal 2016 was primarily attributable to higher store expenses, partially offset by lower incentive-based compensation expense.

Depreciation expense was \$5.7 million, or 2.4% of retail sales and \$11.3 million, or 2.2% of retail sales for the second quarter and first six months of fiscal 2016, respectively, compared to \$5.6 million, or 2.2% of retail sales and \$10.9 million or 2.1% of retail sales for the prior year's comparable three and six month periods of fiscal 2015, respectively.

Interest and other income was \$1.4 million, or 0.6% of retail sales and \$4.3 million, or 0.8% of retail sales for the three and six months ended July 30, 2016, respectively, compared to \$0.8 million, or 0.3% of retail sales and \$1.4 million, or 0.3% of retail sales for the prior year's comparable three and six month periods of fiscal 2015, respectively. The increase is primarily attributable to a change in the recognition of unredeemed gift card breakage income, as described in Note 1.

Income tax expense was \$2.1 million, or 0.9% of retail sales and \$16.4 million, or 3.1% of retail sales for the second quarter and first six months of fiscal 2016, respectively, compared to \$9.4 million, or 3.8% of retail sales and \$26.3 million, or 4.9% of retail sales for the prior year's comparable three and six month periods of fiscal 2015, respectively. The effective tax rate for the second quarter of 2016 was 11.6% compared to 37.5% for the second quarter of 2015. The decrease in the effective tax rate for the second quarter of 2016 as compared to the second quarter of 2015 is primarily due to a \$9.6 million benefit related to continuing foreign and domestic tax initiatives, which also includes the impact of Protecting Americans from Tax Hikes (PATH Act) and the early adoption of Share Based Accounting Improvements (ASU 2016-09) during the second quarter of 2016. The decrease in the effective tax rate is also due to the change in relative proportions of net earnings attributable to various discrete items to total pre-tax earnings between the periods due to lower pre-tax earnings in the current period.

LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK:

The Company has consistently maintained a strong liquidity position. Cash provided by operating activities during the first six months of fiscal 2016 was \$55.0 million as compared to \$55.8 million in the first six months of fiscal 2015. These amounts enable the Company to fund its regular operating needs, capital expenditure program, cash dividend payments, and share repurchases. In addition, the Company maintains a \$35.0 million unsecured revolving credit facility for short-term financing of seasonal cash needs. There were no outstanding borrowings on this facility at July 30, 2016 and January 30, 2016.

Cash provided by operating activities for the first six months of fiscal 2016 was primarily generated by earnings adjusted for depreciation and changes in working capital. The decrease of \$0.8 million for the first six months of fiscal 2016 as compared to the first six months of fiscal 2015 was primarily due to an increase in merchandise inventories, partially offset by an increase in net income and a decrease in accounts receivable.

**THE CATO CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

The Company believes that its cash, cash equivalents and short-term investments, together with cash flows from operations and borrowings available under its revolving credit agreement, will be adequate to fund the Company's regular operating requirements, expected capital expenditures, dividends and share repurchases for fiscal 2016 and the next 12 months.

At July 30, 2016, the Company had working capital of \$329.0 million compared to \$292.6 million at January 30, 2016.

At July 30, 2016 and January 30, 2016, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35.0 million, less the value of revocable letters of credit discussed below. The revolving credit agreement is committed until August 2018. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of July 30, 2016. There were no borrowings outstanding under the credit facility as of July 30, 2016 and January 30, 2016.

At July 30, 2016 and January 30, 2016, the Company had no outstanding revocable letters of credit relating to purchase commitments.

Expenditures for property and equipment totaled \$10.0 million in the first six months of fiscal 2016, compared to \$11.4 million in last fiscal year's first six months. The expenditures for the first six months of fiscal 2016 were primarily for the development of two new stores, additional investments in new technology and home office renovations. For the full fiscal 2016 year, the Company expects to invest approximately \$26.8 million for capital expenditures to open approximately 12 new stores, relocate approximately six stores, upgrade merchandise system, purchase corporate assets and complete home office renovations.

Net cash used in investing activities totaled \$54.4 million in the first six months of fiscal 2016 compared to \$62.6 million used in the comparable period of 2015. The decrease was due primarily to lower capital expenditures, a

decrease in the purchase of other assets and higher sales of short-term investments, partially offset by higher purchases of short-term investments.

Net cash used in financing activities totaled \$24.6 million in the first six months of fiscal 2016 compared to \$16.9 million used in the comparable period of fiscal 2015. The increase was primarily due to larger share repurchases.

In August 2016, the Company repurchased 294,500 shares for \$10,156,531.

On August 25, 2016, the Board of Directors maintained the quarterly dividend at \$0.33 per share.

As of July 30, 2016, the Company had 1,796,241 shares remaining in open authorizations under its share repurchase program.

The Company does not use derivative financial instruments.

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securities held in managed accounts with underlying ratings of A or better at July 30, 2016 and January 30, 2016. The state, municipal and corporate bonds have contractual maturities which range from two days to 27.0 years. The U.S. Treasury Notes and Certificates of Deposit have contractual maturities which range from two months to 1.6 years. These securities are classified as available-for-sale and are recorded as Short-term investments, Restricted cash and investments and Other assets on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK:

The Company is subject to market rate risk from exposure to changes in interest rates based on its financing, investing and cash management activities, but the Company does not believe such exposure is material.

ITEM 4. CONTROLS AND PROCEDURES:

We carried out an evaluation, with the participation of our Principal Executive Officer and Principal Financial Officer, of the effectiveness of our disclosure controls and procedures as of July 30, 2016. Based on this evaluation, our Principal Executive Officer and Principal Financial Officer concluded that, as of July 30, 2016, our disclosure controls and procedures, as defined in Rule 13a-15(e), under the Securities Exchange Act of 1934 (the "Exchange Act"), were effective to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING:

No change in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) has occurred during the Company's fiscal quarter ended July 30, 2016 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
