DATA I/O ANNOUNCES FIRST QUARTER 2009 FINANCIAL RESULTS

Redmond, Wash., April 23, 2009 – Data I/O Corporation (NASDAQ: DAIO), the leading provider of manual and automated device programming systems, today announced financial results for the first quarter ended March 31, 2009.

Revenues for the first quarter of 2009 were \$4.4 million, compared with \$6.2 million in the first quarter of 2008. In accordance with U.S. generally accepted accounting principles (GAAP), net loss in the first quarter of 2009 was (\$464,000), or (\$0.05) per share, compared with net income of \$2.6 million or \$0.29 per diluted share in the first quarter of 2008. (The first quarter of 2008 included a patent sale gain of \$2.1 million.) The company's cash position improved by \$1.1 million during the first quarter, with cash at March 31, 2009 at \$14.4 million compared to \$10 million at March 31, 2008. Net income for the first quarter of 2009 includes equity compensation expense under FAS 123R of \$94,000 which compares with \$94,000 for the first quarter of 2008.

Gross margin as a percentage of sales in the first quarter of 2009 was 55.7 percent, compared with 60.8 percent in the first quarter of 2008. This gross margin percentage decline was primarily due to impact of decreased sales volume relative to fixed operating costs and the impact of the strengthened U.S. dollar on amounts translated from Euros. Backlog at the end of the quarter was \$1.2 million.

Edgar Filing: DATA I/O CORP - Form 8-K

“Orders from customers in Asia were very weak during January and February with respect to the first quarter of 2009 and consistent with the overall industry conditions in Asia. We saw some improvement in March with more than 60% of the quarter’s Asia business booked in that month,” said Fred Hume, President and CEO, “We are seeing stronger worldwide sales funnels now in the second quarter. During the past three months we added several new sales representatives, a variable expense, to improve our sales coverage in the Americas and Asia. During the next month we will introduce and ship our new FlashCore III programmers and will be delivering our PS 388, the newest member of our PS family of automated programming systems. We have continued to focus on controlling expenses and expect that for the second quarter our estimated revenue breakeven is under \$4.7 million,” said Hume.

Conference Call Information

A conference call discussing the first quarter of 2009 financial results will follow this release today at 2:00 p.m. Pacific time/5:00 p.m. Eastern time. To listen to the conference call, please dial (703) 546-4242 passcode: DAIO. A taped replay will be made available approximately one hour after the conclusion of the call and will remain available for one week. To access the replay, please dial (320) 365-3844, access code: 995952.
