Item 5. Other Events

On December 9, 2003, Trustmark Corporation (NASDAQ:TRMK) and Allied Houston Bank, Houston, Texas, announced the signing of a definitive Branch Purchase and Assumption Agreement pursuant to which Trustmark National Bank will acquire five branches of Allied Houston Bank serving the greater Houston market for a \$10 million deposit premium.

The Agreement contemplates the assumption of selected deposit accounts of approximately \$160 million, the purchase of selected loan accounts of approximately \$158 million and the operation of five Allied Houston Bank branch locations. At November 30, 2003, Allied Houston Bank deposits and loans totaled approximately \$198 million and \$178 million, respectively. The proposed transaction, which is subject to approval by regulatory authorities and Allied Houston shareholders, is expected to close during the first quarter of 2004.

Richard G. Hickson, Chairman and CEO of Trustmark, stated, "We are delighted to expand the Trustmark franchise into the dynamic Houston market. The associates of Allied Houston Bank share our dedication to providing superior customer satisfaction. The customers of these branches and the demographics of this

market represent an outstanding opportunity for Trustmark. We look forward to growing our franchise in this most desirable market."

George R. Farish, Chairman of Allied Houston Bank, commented, "This is a significant transaction for Allied Houston Bank and our shareholders. Trustmark will be gaining five excellent branch locations with outstanding employees and a solid customer base."

In order to facilitate its entry into Texas, Trustmark has signed a definitive agreement to acquire an existing Texas state bank charter from an unrelated party. The merger of the Texas state bank charter into Trustmark National Bank will provide Trustmark the authority to conduct business throughout Texas. Trustmark will not be acquiring any loans or deposits as part of the charter acquisition, which is subject to regulatory approval and expected to be completed early in the first quarter of 2004.
