GMAC FIRST QUARTER 2003 EARNINGS SUMMARY

General Motors Acceptance Corporation (GMAC) recorded its highest quarterly earnings ever in the first quarter of 2003, in large part due to record results at the Mortgage Group. Consolidated net income of \$699 million was up 59% from the \$439 million earned in the same quarter of 2002.

For the quarter, net income from financing operations totaled \$302 million, up \$47 million from the \$255 million earned in the prior year. The increase reflects a combination of higher asset levels and lower credit loss provisions, which more than offset the unfavorable impact of wider borrowing spreads and the continued weakness in lease residuals.

GMAC Insurance Holdings, Inc. generated net income of \$26 million in the first quarter of 2003, down \$10 million from the same period in 2002. The overall reduction in earnings reflects a write-down of certain investment securities due to the continued weaknesses in equity markets, partially offset by improved underwriting results.

GMAC Mortgage Group, Inc. earned a quarterly record \$371 million in the first quarter of 2003, up 151% from the \$148 million earned in the same period of 2002. The higher earnings reflect exceptional production volumes across all three divisions in the Group.
