CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

All of the racing events that take place during our fiscal year are sanctioned by various racing organizations such as the American Historic Racing Motorcycle Association, the American Motorcyclist Association, the Automobile Racing Club of America, the American Sportbike Racing Association - Championship Cup Series, the Federation Internationale de L'Automobile, the Federation Internationale Motocycliste, International Motor Sports Association ("IMSA"), Historic Sportscar Racing, IndyCar Series, NASCAR, National Hot Rod Association, the Porsche Club of America, the Sports Car Club of America, the Sportscar Vintage Racing Association, the United States Auto Club and the World Karting Association.

NASCAR, which sanctions many of our principal racing events, is a member of the France Family Group which controls over 72.0 percent of the combined voting power of our outstanding stock and some members of which serve as directors and officers of our Company. Standard NASCAR sanction agreements require racetrack operators to pay NASCAR Event Management ("NEM") fees, which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by NASCAR to participants in the events. Prize and point fund monies paid by us to NASCAR for disbursement to competitors, which are exclusive of NEM fees, totaled approximately \$138.3 million, for the year ended November 30, 2015. We have outstanding receivables related to NASCAR and its affiliates of approximately \$29.8 million at November 30, 2015.

Under current agreements, NASCAR contracts directly with certain network providers for television rights to the entire NASCAR Sprint Cup, Xfinity and Camping World Truck series schedules. Under the terms of this arrangement, NASCAR retains 10.0 percent of the gross broadcast rights fees allocated to each NASCAR Sprint Cup, Xfinity and Camping World Truck series event as a component of its sanction fees. The promoter records 90.0 percent of the gross broadcast rights fees as revenue and then records 25.0 percent of the gross broadcast rights fees as part of its awards to the competitors. Ultimately, the promoter retains 65.0 percent of the net cash proceeds from the gross broadcast rights fees allocated to the event. Our television broadcast and ancillary rights fees received from NASCAR for the NASCAR Sprint Cup, Xfinity and Camping World Truck series events conducted at our wholly owned facilities were approximately \$314.5 million in fiscal year 2015.

In addition, we share a variety of expenses with NASCAR in the ordinary course of business. NASCAR pays rent, as well as a related maintenance fee (allocated based on square footage), to us for office space in Daytona Beach, Florida. NASCAR pays us for radio, program and strategic initiative advertising, hospitality and suite rentals, various tickets and credentials, catering services, participation in a NASCAR racing event banquet, and track and other equipment rentals based on similar prices paid by unrelated, third party purchasers of similar items. We pay NASCAR for certain advertising, participation in NASCAR racing series banquets, the use of NASCAR trademarks and intellectual images and production space for Sprint Vision based on similar prices paid by unrelated, third party purchasers of similar items. Our payments to NASCAR for Motor Racing Network's broadcast rights to NASCAR Camping World Truck races represent an agreed-upon percentage of our advertising revenues attributable to such race broadcasts. NASCAR also reimburses us for 50.0 percent of the compensation paid to certain personnel working in our legal, risk management and transportation departments, as well as 50.0 percent of the compensation expense associated with certain receptionists. We reimburse NASCAR for 50.0 percent of the compensation paid to certain personnel working in NASCAR's legal department. NASCAR's reimbursement for use of our mailroom, janitorial services, security services, catering, graphic arts, photo and publishing services, telephone system and our reimbursement of NASCAR for use of corporate aircraft is based on actual usage or an allocation of total actual usage. The aggregate amount received from NASCAR by us for shared expenses, net of amounts paid by us for shared expenses, totaled approximately \$10.2 million during fiscal 2015.

IMSA, a wholly owned subsidiary of NASCAR, sanctions various events at certain of our facilities. Standard IMSA sanction agreements require racetrack operators to pay event management fees, which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by IMSA to participants in the events. Event management fees paid by us to IMSA totaled approximately \$1.3 million for the year ended November 30, 2015.

AMA Pro Racing, an entity controlled by a member of the France Family Group, sanctions various events at certain of our facilities. Standard AMA Pro Racing sanction agreements require racetrack operators to pay event management

fees, which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by AMA Pro Racing to participants in the events. Event management fees paid by us to AMA Pro Racing totaled approximately \$0.1 million during fiscal 2015.

We strive to ensure, and management believes that, the terms of our transactions with NASCAR, IMSA and AMA Pro Racing are no less favorable to us than could be obtained from an unrelated party.

Certain members of the France Family Group paid us for the utilization of security services, event planning, event tickets, purchase of catering services, maintenance services, and certain equipment. The amounts paid for these items were based on actual costs incurred, similar prices paid by unrelated third party purchasers of similar items or estimated fair market values. The net amount received by us for these items, totaled approximately \$0.5 million during fiscal 2015.

Brown & Brown has received commissions for serving as our insurance broker for several of our insurance policies, including our property and casualty policy and certain employee benefit programs. The aggregate commissions received by Brown & Brown in connection with these policies were approximately \$0.5 million during fiscal 2015. The amounts paid for these items were based on similar prices paid by unrelated third party purchasers of similar items.

One of our directors, Christy F. Harris, is Of Counsel to Kinsey, Vincent Pyle, P.L., a law firm that provided legal services to us during fiscal 2015. We paid approximately \$35,000 for these services in fiscal 2015, which were charged to us on the same basis as those provided other clients.

Approval of Related Party Transactions

We have adopted written policies and procedures for review, approval and ratification of transactions with related persons. These policies are evidenced in the Code of Conduct. In addition, our employees are subject to similar policies concerning conflicts of interest, business ethics and conduct, as contained in our Employee Handbook. The Audit Committee is charged in its Charter with the ultimate responsibility for the review and approval of all related party transactions meeting the thresholds that require disclosure pursuant to Item 404 of Regulation S-K. All proposed transactions (regardless of the amount involved) with any director or executive officer (or their affiliates) are required to be submitted to the Audit Committee for approval prior to the transaction taking place. As part of our disclosure controls, all related party transactions are reported monthly and reviewed by the Disclosure Committee quarterly, which includes the Chief Compliance Officer and the Director of Internal Audit. The Disclosure Committee is responsible for elevating matters for Audit Committee consideration. While the standard used to evaluate a transaction will vary depending upon the particular circumstances, the goal is to make sure that we are treated fairly and on the same basis as transactions with parties that are not related. There have been no instances during the last fiscal year where such policies and procedures were not followed, nor were there any transactions listed in “Certain Relationships and Related Transactions” that were not reviewed by the Audit Committee.

DIRECTOR MEETINGS AND COMMITTEES

Our Board of Directors met three times during fiscal 2015. Our Board of Directors has an Audit Committee, a Compensation Committee, a Nominating and Corporate Governance Committee, a Growth & Development Committee and a Financing and Stock Repurchase Committee.

The Audit Committee met seven times during fiscal 2015.

The functions of the Compensation Committee (which presently consists of Ms. Renda (Chair) and Messrs. Graves and Woodard) include (i) reviewing existing compensation levels of executive officers, (ii) making compensation recommendations to management and the Board, and (iii) performing other duties deemed appropriate by the Board. The Board of Directors has adopted a written charter for the Compensation Committee, which is available on our website at www.internationalspeedwaycorporation.com. During fiscal 2015, all of the directors attended at least 75 percent of the aggregate of (1) the total number of meetings of the Board of Directors and (2) the total number of meetings held by all committees of the Board on which they served.

BOARD LEADERSHIP

Our Board has the flexibility to determine whether the roles of Chairman of the Board and Chief Executive Officer should be separated or combined. The Board makes this decision based on its evaluation of the circumstances and the Company's specific needs. Effective June 2009, upon the retirement of James C. France from the position of Chief Executive Officer, the roles of Chairman and Chief Executive Officer were separated. James C. France continues to serve as Chairman of the Board, while Lesa France Kennedy serves as Vice Chairwoman and Chief Executive Officer. Prior to June 2009, the positions of Chairman and Chief Executive Officer were held jointly by James C. France.

We believe that this leadership structure is desirable under present circumstances because it allows Ms. Kennedy to focus her efforts on running our business and managing it in the best interests of our shareholders, while we are able to continue to benefit from Mr. James C. France's extensive business and motorsports industry experience, knowledge of our Company and proven leadership ability. We believe that having Mr. James C. France as Chairman benefits the Company in that it allows him to use his expertise in both industry relationships and sanctioning body partnerships, as well as his extensive Company knowledge, in setting the strategic agenda of the Board.

Our lead independent director, J. Hyatt Brown, coordinates providing feedback from other non-management members of the Board to the Chief Executive Officer and other management regarding business issues and risk. Mr. Brown, through his role as Chairman of the Nominating and Corporate Governance Committee, also manages the process of annual director self-assessment and evaluation of the Board as a whole.

RISK OVERSIGHT

Our Board of Directors takes an active role in the oversight of risks impacting our Company. While management is responsible for managing the Company's risk on a daily basis and for bringing to the Board's attention areas of risk which are most material to our business, the Board and management work closely to ensure that integrity and accountability are integrated into our operations. The Board, including through certain of its committees, discussed in more detail below (which are comprised solely of independent directors), and through regular meetings of the independent directors without management present, regularly reviews areas of risk (both compliance and business risk) to us and advises and directs management on the scope and implementation of policies, strategy and other actions designed to mitigate such risks.

Many of the direct risk oversight functions are performed by the Audit Committee and our internal audit staff. Specific examples of risks primarily overseen by the Audit Committee include risks related to the preparation of our financial statements, disclosure controls and procedures, internal controls and procedures required by the Sarbanes-Oxley Act, accounting, financial and auditing risks, matters reported to the Audit Committee through our Internal Audit Department and through anonymous reporting procedures, cyber security, and regulations and risks associated with related party transactions. Through our regular compliance work related to the Sarbanes-Oxley Act, we have created entity level controls that are validated on a regular basis by our Internal Audit Department. These controls are designed to help prevent control failures as well as assist in the awareness of a control failure. Members

of our management team also participate in an enterprise risk management committee, which regularly evaluates those risks deemed to be significant to us. The Audit Committee receives regular updates regarding those risks identified by the enterprise risk management committee.

The Nominating and Corporate Governance Committee regularly monitors our compliance with corporate governance standards and regulations. The Compensation Committee reviews and evaluates potential risks related to compensation programs for executive and certain non-executive employees of the Company, as further described below in the section entitled “Compensation Discussion and Analysis.” The Growth and Development Committee reviews and evaluates risks related to any strategic ventures, transactions or capital expenditures.

In addition to the foregoing, the Board has adopted a Code of Ethics, which is applicable to all of our employees, including the directors, our principal executive officer, the principal financial officer and the principal accounting officer. The Code of Ethics is designed, among other things, to deter wrongdoing and promote ethical conduct, full and accurate reporting in all our filings with the SEC, and compliance with applicable laws. The Code of Ethics mandates the maintenance of a 24 hour hotline that any employee can use to report, anonymously if they so choose, any suspected fraud, financial impropriety or other alleged wrongdoing. All calls are handled by the Senior Vice President and Chief Compliance Officer, the Senior Vice President, Corporate Services and/or Director of Internal Audit, as appropriate, who regularly report to the Audit Committee on calls received. A copy of the current Code of Ethics is available on our website at www.internationalspeedwaycorporation.com.

DIRECTOR NOMINATION PROCESS

A current copy of the Nominating and Corporate Governance Committee charter is available on our website at www.internationalspeedwaycorporation.com. Each director on the Nominating and Corporate Governance Committee has been determined by the Board to be “independent” (as independence is presently defined by the NASDAQ listing standards).

As part of its process and procedures, the Nominating and Corporate Governance Committee considers director candidates recommended by shareholders. All recommendations of director candidates by shareholders following the proper procedures (as set forth below) will be furnished to the Nominating and Corporate Governance Committee and will be considered in the same manner and according to the same criteria as would all other director candidates. There have been no material changes to the procedures by which shareholders may recommend nominees to our Board. Shareholders who wish to nominate directors for election at an annual meeting of shareholders are required to follow the procedures contained in Article VI of our Amended and Restated Articles of Incorporation, which are available on our website at www.internationalspeedwaycorporation.com. Nominations must be in writing, addressed to the Secretary, and must be received in writing not less than 120 days nor more than 180 days prior to the first anniversary of the date of our notice of annual meeting of shareholders provided for the previous year’s annual meeting. The shareholder’s notice to the Secretary must set forth (i) certain information regarding the nominee, such as name, age and principal occupation, and (ii) certain information regarding the shareholder(s) such as the name and record address of the shareholder(s) and the number of shares of our capital stock such shareholder(s) own. No person nominated by shareholders will be eligible for election as a director unless nominated in accordance with these procedures. There were no shareholder nominations submitted for the 2016 annual meeting of shareholders. Nominations by shareholders for the 2017 annual meeting must be received by the Secretary between September 8, 2016 and November 7, 2016.

As stated in its charter, the Nominating and Corporate Governance Committee will annually assess the Board’s effectiveness, including the core competencies and qualifications of members of the Board. If the Nominating and Corporate Governance Committee deems it necessary, it may select and retain an executive search firm to identify qualified candidates for nomination to serve as members of the Board.

The Nominating and Corporate Governance Committee will consider all nominees to our Board of Directors, and make its recommendations to the full Board, which will then decide whether to nominate a Board candidate. The Nominating and Corporate Governance Committee will consider each nominee’s skill, experience, knowledge and judgment, and believes that members of and nominees to the Board should reflect expertise in one or more of the following areas important to us: accounting and finance, business of motorsports, mergers and acquisitions, leadership, business and management, strategic planning, government relations, investor relations, legal issues, executive leadership development and executive compensation. Further, the assessment of a nominee’s qualifications will include consideration of the nominee’s ability to use sound judgment; service on the boards of directors of other companies, public and private; integrity, honesty, fairness and independence; understanding of our business; and interest and willingness to serve on the Board and dedicate the requisite time and attention to service on the Board. All nominees to our Board will be considered by the Nominating and Corporate Governance Committee with these factors in mind.

As part of the Nominating and Corporate Governance Committee’s assessment of a prospective director nominee’s skill, experience, knowledge and judgment, the committee considers diversity of background and personal experience.

Ideally, the Board should be composed of persons having a diversity of skills, background and experience that are useful to us and our present and future needs. However, the Nominating and Corporate Governance Committee does not have a formal policy specifying how diversity of background and personal experience should be applied and assessed in identifying or evaluating director nominees. When considering potential nominees for the Board, the Nominating and Corporate Governance Committee considers the standards above and each potential nominee's individual qualifications in light of the needs of the Board at such time and its anticipated needs in the future. It is our policy to hold the annual meeting of directors immediately following the annual meeting of shareholders. All Board members are invited to attend the annual meeting of shareholders and are expected to attend, but are not required to attend. In fiscal 2015, all members of the Board attended the annual meeting of shareholders.

the decision is presented at the next meeting of the Audit Committee. All of the engagements resulting in the fees disclosed above for fiscal 2015 and 2014 were approved by the Audit Committee prior to the engagement.

REPORT OF THE AUDIT COMMITTEE

The following is the report of the Audit Committee with respect to the Company's audited financial statements for the fiscal year ended November 30, 2015. The information contained in this report shall not be deemed "soliciting material" or otherwise considered "filed" with the SEC, and such information shall not be incorporated by reference into any future filing under the Securities Act or the Exchange Act except to the extent the Company specifically incorporates such information by reference of such filing.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. The Company's management has the primary responsibility for the financial statements, for maintaining effective internal control over financial reporting, and for assessing the effectiveness of internal control over financial reporting. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited consolidated financial statements and the related schedules in the Annual Report with Company management, including a discussion of the quality, not just the acceptability, of the accounting principles; the reasonableness of significant judgments; and the clarity of disclosures in the financial statements.

The Audit Committee is governed by a charter. A copy of the charter is available on the Company's website at www.internationalspeedwaycorporation.com. The Audit Committee performs a review and reassessment of its charter annually. The charter was last amended effective November 12, 2015. The Audit Committee held seven meetings during fiscal year 2015. The Audit Committee consists of four members: Ms. Renda and Messrs. Aiello, Brown and Graves. The Board of Directors has determined that Ms. Renda and Messrs. Aiello and Brown are qualified as audit committee financial experts (as defined by the SEC) and that all of the members of the Audit Committee are "independent" (as independence is presently defined in Rule 4200(a)(15) of the NASDAQ listing standards and Rule 10A-3 of the Securities Exchange Act of 1934).

The meetings of the Audit Committee are designed to facilitate and encourage communication among the Audit Committee, the Company, the Company's internal audit function and the Company's independent auditor. The Audit Committee discussed with the Company's internal auditors and independent auditor the overall scope and plans for their respective audits. The Audit Committee meets with the internal auditors and the independent auditor, with and without management present, to discuss the results of their examinations; their evaluations of the Company's internal control including internal control over financial reporting; and the overall quality of the Company's financial reporting. The Audit Committee recognizes the importance of maintaining the independence of the Company's Independent Auditor, both in fact and appearance. Each year, the Audit Committee evaluates the qualifications, performance and independence of the Company's Independent Auditor and determines whether to re-engage the current Independent Auditor. In doing so, the Audit Committee considers the quality and efficiency of the services provided by the auditors, the auditors' capabilities and the auditors' technical expertise and knowledge of the Company's operations and industry. Based on this evaluation, the Audit Committee has retained Ernst & Young LLP ("EY") as the Company's Independent Auditor for fiscal year 2015. EY has been the Independent Auditor for the Company since 1966.

The Audit Committee reviewed with the independent auditor, which is responsible for expressing an opinion on the conformity of those audited consolidated financial statements and related schedules with US generally accepted accounting principles, its judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee by the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), including PCAOB Auditing Standard No. 16, Communications With Audit Committees, the rules of the Securities and Exchange Commission, and other applicable regulations. In addition, the Audit Committee has discussed with the independent auditor the firm's independence from Company management and the Company, including the matters in the letter from the firm required by PCAOB Rule 3526, Communication with Audit Committees Concerning Independence, and considered the compatibility of non-audit services with the independent auditor's independence.

The Audit Committee also reviewed and discussed together with management and the independent auditor the Company's audited consolidated financial statements for the fiscal year ended November 30, 2015, and the results of management's assessment of the effectiveness of the Company's internal control over financial reporting and the

independent auditor's audit of internal control over financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited consolidated financial statements and related schedules and management's assessment of the effectiveness of the Company's internal control over financial reporting be included in the Annual Report on Form 10-K for the fiscal year ended November 30, 2015, filed by the Company with the Securities and Exchange Commission.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Overview and Objectives of Compensation Program

The goal of the compensation programs for our named executive officers is to retain and reward leaders who create long-term value for our shareholders. This goal affects the compensation elements we use and our compensation decisions.

We have designed and implemented our compensation programs for our named executives to:

- reward them for financial and operating performance;
- align their interests with those of our shareholders; and
- encourage them to remain with the Company.

Most of our compensation elements simultaneously fulfill one or more of our performance, alignment and retention objectives. These elements consist of:

- salary and annual discretionary bonus;
- non-equity (cash) incentive compensation based upon annually determined performance criteria;
- equity incentive compensation based upon annually determined performance criteria combined with a time based vesting schedule; and
- other benefits.

In deciding on the type and amount of compensation for each executive, we focus almost exclusively on each executive's current pay, rather than historic pay. We combine the compensation elements for each executive in a manner we believe optimizes the value for our shareholders and supports the goals of our compensation programs. We provide a combination of pay elements with the goal of aligning executive incentives with shareholder value. The three major elements of our executive compensation — base salary, annual cash awards (which include bonuses and non-equity incentives) and long-term equity incentives — simultaneously fulfill one or more of our performance, alignment and retention objectives.

The following summarizes the compensation elements we use as tools to reward, retain and align the performance expectations of our named executives.

Base Salary, Non-Equity Incentives and Cash Bonuses

Base salaries for our named executives are designed to provide competitive levels of compensation dependent on the scope of their responsibilities, their leadership skills and values, and their performance. For each named executive officer, we pay annual non-equity incentives each February for the prior year's performance based upon management's evaluation and the Compensation Committee's qualitative assessment of the executives' performance. This short term compensation element is in line with the stated goal of our compensation programs, namely retaining and rewarding leaders who create long-term value for our shareholders. The incentives were determined using the criteria approved by the Compensation Committee for performance against normalized corporate financial performance measures based on budget of revenue; operating margin based on budget, and capital allocation based on budget. For fiscal 2015, the corporate financial measurements for these non-equity incentives were weighted as follows: 1) revenue based on budget as 34 percent, 2) operating margin based on budget as 33 percent and 3) capital allocation based on budget as 33 percent.

In addition to amounts paid pursuant to our non-equity incentive plan, the Compensation Committee retains discretion to award cash bonuses where performance may warrant. We also award a small annual holiday cash bonus based on seniority.

Long —Term Compensation — 2006 Long Term Incentive Plan

We emphasize long-term variable compensation at the senior executive levels because of our desire to reward effective long-term management decision making and our desire to retain executive officers who have the potential to impact both our short-term and long-term profitability. We believe that providing Restricted Stock Units (RSUs) is an effective means to focus our named executives on delivering long-term value to our shareholders. RSUs allow us to reward and retain the named executives by offering them the opportunity to receive shares of our stock on the date the restrictions lapse so long as they continue to be employed by the Company.

Other Compensation

We provide our named executive officers with other benefits, reflected in the All Other Compensation column in the Summary Compensation Table, that we believe are reasonable, competitive and consistent with our overall compensation program and

Table of Contents

goals. The costs of these benefits constitute only a small percentage of each named executive officer's total compensation, and include premiums paid on life insurance policies and Company contributions to a 401(k) plan. The named executive officers also participate in the standard health insurance benefits offered to all employees. We also provide the use of a car provided by the Company and comprehensive physical examinations every other year. The named executive officers are encouraged to attend events at the motorsports entertainment facilities operated by the Company as part of their job function and permitted to bring a guest with them to these events at no charge to the executive.

Compensation Implementation

Determination of Compensation

As part of our total overall compensation plan the compensation for our named executive officers depends on the scope of their responsibilities, their leadership skills and values, and their individual performance, as well as the Company's performance. Decisions regarding salary increases are affected by the named executives' current salary and the amounts paid within and outside the Company. Base salary rates are reviewed on annual basis and adjusted when appropriate by the Compensation Committee based upon changes in market conditions and the Company's performance factors. When making decisions regarding compensation, we focus almost exclusively on each executive's current pay, rather than historic pay.

The Compensation Committee exercises its discretion in initially making compensation decisions, after reviewing the performance of the Company and evaluating an executive's prospects and performance during the year against established goals, operational performance, business responsibilities, and current compensation arrangements. The following is a summary of key considerations affecting the determination of compensation for the named executives: **Emphasis on Consistent Performance.** Our compensation program provides a greater pay opportunity for executives who demonstrate superior performance for sustained periods of time. Each of our named officers has served us for many years, during which she/he has held diverse positions of increasing responsibility. The amount of their pay reflects their consistent contribution with the expectation of continued contribution to our success. Our emphasis on performance affects our discretionary annual cash bonus, non-equity incentives and equity incentive compensation. We incorporate current year and expected performance into our compensation decisions and percentage increases or decreases in the amount of annual compensation. For fiscal 2015, the criteria to determine overall compensation remained consistent with prior years and our stated philosophy.

Discretion and Judgment. We generally adhere to our historic practices and formulas in determining the amount and mix of compensation elements. Because of our reliance on the formulaic achievement of annual Company financial goals in determining the amount of plan-based compensation, short term changes in business performance can have a significant impact on the compensation of the named executive officers. We consider competitive market compensation paid by other companies of similar size and market capitalization, but we do not attempt to maintain a certain target percentile within a peer group or otherwise rely on data of peer companies to determine executive compensation.

We do not have any specific apportionment goal with respect to the mix between equity incentive awards and cash payments. We generally attempt to assess an executive's total pay opportunities and whether we have provided the appropriate incentives to accomplish our compensation objectives. Our mix of compensation elements is designed to reward recent results and performance through a combination of non-equity (cash) and equity incentive awards. We also seek to balance compensation elements that are based on financial, operational and strategic metrics. We believe the most important indicator of whether our compensation objectives are being met is our ability to motivate our named executives to deliver superior performance and retain them.

Significance of Company Results. The Compensation Committee primarily evaluates the named executives' contributions to the Company's overall performance rather than focusing only on their individual function. The Compensation Committee believes that the named executives share the responsibility to support the goals and performance of the Company, as the executive members of the Company's leadership team. While this compensation philosophy influences all of the committee's compensation decisions, it has the biggest impact on annual non-equity incentive awards and, generally, discretionary bonuses.

Consideration of Risk. Our compensation programs are discretionary, balanced and focused on rewarding performance for both current year and long-term strategy. Under this structure, a greater amount of compensation can be achieved through consistent superior performance over sustained periods of time. Long term incentive plan compensation in the form of restricted stock is restricted to multiple vesting years with 50 percent vesting in three years and the remainder vesting in five years. We believe this provides strong incentives for our named executive officers to manage the Company for the long term while avoiding excessive risk-taking in the short term. Goals and objectives reflect a balanced mix of quantitative and qualitative performance measures to avoid excessive weight on a single performance measure. The elements of compensation are mixed among current non-equity (cash) payments and equity awards. With limited exceptions the Compensation Committee retains the ability to adjust compensation for quality of performance and adherence to our values. The Company does not believe that its compensation policies and practices are reasonably likely to have a material adverse effect on the Company.

Table of Contents

No Employment and Severance Agreements. None of our named executive officers have employment or change-of-control agreements nor do they have pre-negotiated severance agreements in place. Our named executive officers serve at the will of the Board, which enables the Company to terminate their employment with discretion as to the terms of any severance arrangement. This is consistent with our performance-based employment and compensation philosophy. Of course, the fact that our Chairman of the Board and our Vice Chairwoman and Chief Executive Officer are members of the France Family Group, which has the ability to elect the entire Board, does impact such discretion in their case. In addition, the time vesting of our plan-based restricted stock awards help retain our executives by subjecting to forfeiture any unvested shares if they leave the Company prior to retirement. There are change-of-control provisions associated with each award of such plan-based restricted stock awards. Change of control is defined in the individual participant plans for all participants in the restricted stock incentive program. A copy of the plan is on file with the SEC in connection with our Form S-8 registration statement, filed on February 11, 2010.

Roles of Compensation Committee and Named Executives

Executive officer compensation is overseen by the Compensation Committee of the Board of Directors, which is composed entirely of independent directors, pursuant to its charter. A copy of the charter may be viewed on the Company's website at www.internationalspeedwaycorporation.com.

Prior to the beginning of each fiscal year the Compensation Committee establishes a total pool of dollars to be used for increases in annual salary compensation for all of our employees, including all of the named executive officers. In setting this total pool of dollars the members of the Compensation Committee consider a variety of factors, including, but not limited to, historic and projected earnings per share, anticipated revenue growth, established salary ranges and market conditions. The committee members then use their collective business judgment to establish the total pool of dollars for increases in annual salary compensation.

Under the direction of the CEO, the proposed salaries, individual performance goals and targeted bonuses for each of the named executive officers other than the CEO are presented to the Compensation Committee which reviews and approves them. The salary of the CEO is then separately considered and approved by the Compensation Committee. Although no particular weighting of the factors or formula is used, the Committee considers (1) Company and individual performance as measured against management goals approved by the Board of Directors, (2) personal performance in support of the Company's goals as measured by annual evaluation criteria, and (3) intangible factors and criteria such as payments by competitors for similar positions and market movement.

Each of the named executive officers is assigned a target non-equity incentive opportunity based on corporate and personal goals for the year. The actual non-equity incentive for each named executive officer will range from 0 percent to 150 percent of the target depending upon results of corporate performance and personal performance during the year. The 2015 fiscal year corporate financial measurements consist of three components which are weighted as follows: 1) revenue based on budget as 34 percent, 2) operating margin based on budget as 33 percent and 3) capital allocation based on budget as 33 percent. Both the targets and the actual performance are determined on a normalized basis and may vary from year to year as established by the Compensation Committee.

For fiscal 2015, our named executive officers are: Ms. Lesa France Kennedy, Chief Executive Officer; Mr. John R. Saunders, President; Mr. Daniel W. Houser, Executive Vice President and Chief Financial Officer; Mr. Daryl Q. Wolfe, Executive Vice President and Chief Marketing Officer; and Mr. Joel S. Chitwood, Executive Vice President and President of Daytona International Speedway.

The Compensation Committee reviews and approves the recommended corporate performance goals and objectives which are used in establishing plan-based incentive compensation for all of the named executive officers.

Compensation Consultants

Neither the Company nor the Compensation Committee has any contractual arrangement with any compensation consultant who has a role in determining or recommending the amount or form of senior executive or director compensation. Our named executive officers have not participated in the selection of any particular compensation consultant. The Company obtains market intelligence on compensation trends from a variety of sources through our human resources personnel, with the oversight of the Committee. Each year we participate in compensation surveys conducted by well-known compensation consultants as a means of understanding external market practices. Except for

the foregoing, we have not used the services of any other compensation consultant in matters affecting senior executive or director compensation. In the future, either the Company or the Compensation Committee may engage or seek the advice of compensation consultants.

Equity Grant Practices

The only form of equity compensation currently provided to our named executive officers is awards of shares of restricted stock under our 2006 Long Term Incentive Plan. For each fiscal year the named executive officers are provided an opportunity

Table of Contents

to be awarded shares of restricted stock based upon the same normalized corporate financial performance measures established for non-equity incentive payments, as discussed above. The targeted number of shares is fixed by the Compensation Committee and represents a specified percentage of the named executive officer's annual base salary based upon the average price of our publicly traded shares during the fiscal year prior to the establishment of the share target. This targeted share award amount is communicated to the named executive officers during the second quarter of our fiscal year. Upon completion of the fiscal year and the financial audit, our normalized performance against the financial performance measures is evaluated, a percentage of the targeted award to be actually awarded is determined, reviewed and approved by the Compensation Committee and the restricted shares are issued in the name of the named executive officers on May 1 following the completion of the fiscal year. The restricted shares then vest over time, with 50 percent vesting three years after issuance and the remaining 50 percent vesting five years after issuance. Prior to vesting the recipient may vote the shares and receive dividends on the restricted shares as granted. If employment ends prior to the expiration of the vesting period due to a change of control or for reasons acceptable to the Compensation Committee (death, disability, retirement, etc.) all or a portion of the unvested restricted shares may be allowed to vest. Termination of employment for any other reason will result in forfeiture of all unvested shares. The timing of calculations of opportunities, amounts, awards and vesting dates are made solely for administrative efficiency and without regard to earnings or other major announcements by the Company. There are change-of-control provisions associated with each award of restricted shares. Change of control is defined in the individual participant plans for all participants in the restricted stock incentive program. A copy of the plan is on file with the SEC in connection with our Form S-8 registration statement, filed on February 11, 2010.

Share Ownership Guidelines

The Company has no equity security ownership guidelines or requirements for the named executive officers. We have share ownership guidelines for our non-employee directors, as more fully described below in the "Compensation of Directors" section.

Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended, imposes a \$1.0 million limit on the amount that a public company may deduct for compensation paid to the company's CEO or any of the Company's four other most highly compensated executive officers who are employed as of the end of the year. None of the individuals covered by Section 162(m) received taxable compensation in excess of the \$1.0 million limit. The amounts shown in the Summary Compensation Table contain components which are not considered taxable income to the individuals under current Internal Revenue Code provisions. The Company does not presently structure any component of executive compensation to meet the requirements under Section 162(m) for "qualifying performance-based" compensation (i.e., compensation paid only if the individual's performance meets pre-established objective goals based on performance criteria approved by shareholders).

Potential Impact on Compensation from Executive Misconduct

If the Board should determine that an executive officer has engaged in fraudulent or intentional misconduct, the Board could take action to remedy the misconduct, prevent its recurrence, and impose such discipline on the wrongdoers as would be appropriate. Discipline would vary depending on the facts and circumstances, and may include, without limitation, (1) termination of employment, (2) initiating an action for breach of fiduciary duty, and (3) if the misconduct resulted in a restatement of the Company's financial results, seeking reimbursement of any portion of performance-based or incentive compensation paid or awarded to the executive that is greater than would have been paid or awarded if calculated based on the restated financial results. These remedies would be in addition to, and not in lieu of, any actions imposed by law enforcement agencies, regulators or other authorities.

Compensation for the Named Executive Officers in 2015

Company Performance

The specific compensation decisions made for each of the named executive officers for fiscal 2015 reflect the focus on the performance of the Company against specific financial and operational measurements.

A significant portion of each of the named executive officer's plan-based incentive compensation is based upon the Company's performance against the normalized corporate financial performance measures and weighting of 1) revenue based on budget (34 percent), 2) operating margin based on budget (33 percent), and 3) capital allocation based on

budget (33 percent). Based on the evaluation of the Company's performance against these measures in fiscal 2015, the payout of plan based non-equity incentives was at 100 percent of the targeted opportunity. For fiscal 2015, the non-equity incentives further aligned earning opportunities in support of overall business cost containment measures, as well as the execution of long term strategic growth measures such as managing to budget our Daytona Rising project. At the beginning of the fiscal year, consistent with the Company's cost containment initiatives, the plan-based non-equity incentive was intended to be capped at 75 percent of the usual earning potential for named executive officers. However, based on Company performance and following the conclusion

Table of Contents

of the fiscal year, the Compensation Committee authorized and approved an incremental 25 percent discretionary earning opportunity for the plan-based non-equity incentive. The approved incremental earning opportunity returned the total target opportunity to 100 percent (75 percent cap plus approved incremental discretionary 25 percent) for 2015. The target opportunity of 100 percent has not been considered since 2010. Amounts described below regarding plan-based non-equity incentives are reflective of performance against this 100 percent earning opportunity. Potential awards of restricted stock made pursuant to our long-term incentive plan continued to be at 100 percent of earning potential for the named executive officers.

For the named executive officers eligible for plan-based non-equity incentives, 100 percent of the earning potential for fiscal 2015 (which, as noted above, is 100 percent of the usual earning potential) was as follows: \$402,444 for Ms. Kennedy; \$157,560 for Mr. Houser; \$313,368 for Mr. Saunders; \$117,263 for Mr. Wolfe; and \$115,896 for Mr. Chitwood. A more detailed analysis of our financial and operational performance is contained in the Management's Discussion & Analysis section of our 2015 Annual Report on Form 10-K filed with the SEC.

CEO Compensation

In determining Ms. Kennedy's base salary compensation for 2015, the Compensation Committee considered her performance as CEO and the performance of the Company in fiscal 2015. In addition, the Compensation Committee considered general trends of Company performance over the prior several years, outcomes related to growth and development activities and strategic initiatives, market conditions, as well as the responsibilities of the position and her strategic value to the Company. Ms. Kennedy and the Board continued to respond to the evolving economic conditions by focusing on the following performance framework (1) outperforming in a tough environment, (2) maintaining and maximizing financial flexibility, (3) optimizing sustainable cost containment and (4) protecting the Company's reputation and long-term strategy. The Committee determined that Ms. Kennedy performed at a high level resulting in a 3.0 percent increase in base salary for Ms. Kennedy from the previous year.

The Compensation Committee believes that Ms. Kennedy performed well in 2015 by executing on the established performance framework and in delivering a strong financial performance. The Compensation Committee believes that the Company's fiscal 2015 reflected leadership decisions that effectively mitigated revenue deterioration with sustainable cost containment, capital allocation discipline and execution against defined strategic initiatives, including meeting financial and schedule metrics for the completion of the reconstruction of Daytona International Speedway, the Company's flagship facility. In determining the bonus and incentive portions of her compensation for fiscal 2015, the Compensation Committee determined that Ms. Kennedy performed at a high level. In light of Ms. Kennedy's performance, she received a total plan-based non-equity incentive in the amount of \$402,444, which was 100 percent (75 percent cap plus the incremental discretionary 25 percent approved by the Compensation Committee as noted above) of her total target opportunity. This reflects a 100 percent payout of total target opportunity due to strong performance against the corporate financial performance measures, as well as an additional amount related to her performance against individual goals set by the Compensation Committee. Ms. Kennedy also received 10,567 shares of restricted stock (valued at \$384,216 as of the May 1, 2015 grant date) for her fiscal year 2014 leadership performance. This grant is pursuant to the established long-term incentive plan of the Company. The restricted stock is subject to a vesting schedule, with 50 percent vesting in three years and the remainder vesting in five years. The final value will be determined on the actual vesting date.

In addition, pursuant to the aforementioned fiscal year 2015 performance factors, the Compensation Committee determined that Ms. Kennedy is eligible for a restricted stock award of 10,468 shares, the value of which will be determined based upon the May 1, 2016 grant date. This grant is pursuant to the established long-term incentive plan and based on annual financial performance of the Company.

Other Named Officers

In determining the base salary compensation of Mr. Houser, Mr. Saunders, Mr. Wolfe and Mr. Chitwood for fiscal 2015 the Compensation Committee considered the same criteria as for the CEO. The Compensation Committee also considered the recommendations based upon evaluation of individual functional area responsibilities and goals as submitted by the CEO.

No thresholds are provided for in the applicable plan. The final award is determined through a calculation based on (1) the weighted measurements as described below, and using the same formula as the equity based cash payout along with a discretionary amount based on performance against individual goals and achievement.

For fiscal 2015, a significant portion of the named executive officer's plan-based non-equity incentive compensation is based upon the Company's actual performance against the budgeted normalized corporate financial performance measures approved by the Board. The approved measurements are weighted to calculate the total target, detailed as follows: (1) Revenue 34 percent, (2) Operating Margin 33 percent, and (3) Capital Allocation metrics 33 percent. Accordingly, and consistent with the Company's cost containment initiatives, the plan-based non-equity incentive was capped at 75 percent of the usual earning potential for named executive officers.

However, based on Company performance, the Compensation Committee authorized and approved an incremental 25 percent discretionary earning opportunity for the plan-based non-equity incentive. The approved incremental (2) earning opportunity returned the total target opportunity to 100 percent (75 percent cap plus approved incremental discretionary 25 percent) for 2015. The target opportunity of 100 percent has not been considered since 2010. The calculated variance percentage of actual performance compared to budgeted performance is then used to determine the percentage payout for each respective measure, as represented in Table 1. Based on the evaluation of the Company's performance against these measures for fiscal 2015, the portion of each named executive officer's plan-based incentive compensation was set at 93 percent of the targeted opportunity, with weighted performance of 34 percent for the revenue target, 26 percent for the operating margin target and 33 percent for the capital allocation target. A more detailed analysis of our financial and operational performance is contained in the Management's Discussion & Analysis section of our 2015 Annual Report on Form 10-K filed with the SEC.

Table 1

Percent Variance	Payout	
> + 10%	Discretionary	
> 0.0%	100	%
< - 2.5%	90	%

The targeted number of shares is fixed by the Compensation Committee and represents a specified earning opportunity for the named executive officer's annual base salary based upon the average price of our publicly traded (3) shares during the fiscal year prior to the establishment of the share target. This targeted share award amount is communicated to the named executive officers during the second quarter of our fiscal year. Upon completion of the fiscal year and the

financial audit, our normalized performance against the financial performance measures is evaluated, a percentage of the targeted award to be actually awarded is determined, reviewed and approved by the Compensation Committee and the restricted shares are issued in the name of the named executive officers on May 1 following the completion of the fiscal year. The maximum amount of the award is 1.5 times the target. In 2015, payout of the award was determined by actual performance against the budgeted normalized corporate financial performance measures approved by the Board. The approved measurements are weighted to calculate the total target, detailed as follows: (1) Revenue, (2) Operating Margin and (3) Capital Allocation.

The Grant Date Fair Value of Stock and Option Awards reflects the aggregate grant date fair value of the restricted stock granted pursuant to our 2006 Long-Term Incentive Plan computed in accordance with Financial Accounting Standards Board ASC Topic 718. See Note 13 – Long-Term Stock Incentive Plan to the Consolidated Financial Statements in our fiscal 2015 Annual Report on Form 10-K for additional information concerning this plan and related Stock Awards and valuation assumptions.

The Board has adopted share ownership guidelines applicable to non-employee directors providing that non-employee directors should, upon three years of becoming a director, own and hold a minimum of common stock of the Company with a market value of at least \$90,000. Each such non-employee director is required to maintain that level of stock ownership for so long as he or she serves on the Board. PERFORMANCE GRAPH

* Assumes \$100 investment in the common stock of International Speedway Corporation, Nasdaq Stocks SIC 7900-7999 (US Companies) and Nasdaq Stock Market Indices on November 30, 2010 (US Companies) with dividend reinvestment.

The rules of the SEC require us to provide a line graph covering at least the last five fiscal years and comparing the yearly percentage change in our total shareholder return on a class of our common stock with the cumulative total return of a broad equity index, assuming reinvestment of dividends, and the cumulative total return, assuming reinvestment of dividends, of a published industry or line-of-business index; peer issuers selected in good faith; or issuers with similar market capitalization. The graph above compares the cumulative total five year return of our class A common stock with that of the NASDAQ Stock Market Index (U.S. Companies) and with the 40 NASDAQ issuers (U.S. companies) listed in SIC codes 7900-7999, which encompasses service businesses in the amusement, sports and recreation industry, including indoor operations that are not subject to the impact of weather on operations, and pari-mutual and other wagering operations. We conduct large outdoor sporting and entertainment events that are subject to the impact of weather. The stock price shown has been estimated from the high and low prices for each quarter for which the close is not available. Because of the unique nature of our business and the fact that public information is available concerning only a limited number of companies involved in the same line of business, and no public information is available concerning other companies in our line of business, we do not believe that the information presented above is meaningful.
