☒ Annual Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the fiscal year ended November 30, 2016

or

☐ Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission File Number 000-02384

INTERNATIONAL SPEEDWAY CORPORATION

(Exact name of registrant as specified in its charter)

FLORIDA

59-0709342

(State or other jurisdiction of incorporation) (I.R.S. Employer Identification No.)

ONE DAYTONA BOULEVARD,

32114

DAYTONA BEACH, FLORIDA

(Address of principal executive offices) (Zip code)

Registrant's telephone number, including area code: (386) 254-2700

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
---------------------	---

Class A Common Stock — \$.01 par value	NASDAQ/National Market System
--	-------------------------------

Securities registered pursuant to Section 12 (g) of the Act:

Common Stock — \$.10 par value

Class B Common Stock — \$.01 par value

(Title of Class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

YES ☒ NO ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

YES ☐ NO ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES ☒ NO ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and

post such files). YES ☒ NO ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☒ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES ☐ NO ☒

The aggregate market value of the voting stock held by nonaffiliates of the registrant as of May 31, 2016 was \$901,001,669.53 based upon the last reported sale price of the Class A Common Stock on the NASDAQ National Market System on Thursday, May 31, 2016 and the assumption that all directors and executive officers of the Company, and their families, are affiliates.

At December 31, 2016, there were outstanding: No shares of Common Stock, \$.10 par value per share, 25,320,365 shares of Class A Common Stock, \$.01 par value per share, and 19,759,469 shares of Class B Common Stock, \$.01 par value per share.

DOCUMENTS INCORPORATED BY REFERENCE. The information required by Part III is to be incorporated by reference from the definitive information statement which involves the election of directors at our April 2017 Annual Meeting of Shareholders and which is to be filed with the Commission not later than 120 days after November 30, 2016.

EXCEPT AS EXPRESSLY INDICATED OR UNLESS THE CONTEXT OTHERWISE REQUIRES, "ISC," "WE," "OUR," "COMPANY," "US," OR "INTERNATIONAL SPEEDWAY" MEAN INTERNATIONAL SPEEDWAY CORPORATION, A FLORIDA CORPORATION, AND ITS SUBSIDIARIES.

PART I

ITEM 1. BUSINESS

GENERAL

We are a leading owner of major motorsports entertainment facilities and promoter of motorsports themed entertainment activities in the United States. Our motorsports themed event operations consist principally of racing events at our major motorsports entertainment facilities. We currently own and/or operate 13 of the nation's major motorsports entertainment facilities:

• Daytona International Speedway® ("Daytona") in Florida;
• Talladega Superspeedway® ("Talladega") in Alabama;
• Michigan International Speedway® ("Michigan") in Michigan;
• Auto Club Speedway of Southern CaliforniaSM ("Auto Club Speedway") in California;
• Kansas Speedway® ("Kansas") in Kansas;
• Richmond International Raceway® ("Richmond") in Virginia;
• Darlington Raceway® ("Darlington") in South Carolina;
• Chicagoland Speedway® ("Chicagoland") in Illinois;
• Martinsville Speedway® ("Martinsville") in Virginia;
• Phoenix International Raceway® ("Phoenix") in Arizona;
• Homestead-Miami SpeedwaySM ("Homestead") in Florida;
• Watkins Glen International® ("Watkins Glen") in New York; and
• Route 66 RacewaySM ("Route 66") in Illinois.

In 2016, these motorsports entertainment facilities promoted well over 100 stock car, open wheel, sports car, truck, motorcycle and other racing events, including:

- 21 National Association for Stock Car Auto Racing ("NASCAR") Monster Energy NASCAR Cup Series events;
- 14 NASCAR Xfinity Series events;
- 9 NASCAR Camping World Truck Series events;
- 2 International Motor Sports Association ("IMSA") Weather Tech SportsCar Championship Series events including the premier sports car endurance event in the United States, the Rolex 24 At DAYTONA;
- 5 ARCA Racing Series events;
 - One National Hot Rod Association ("NHRA") Mello Yello Drag Racing Series event;
- 2 IndyCar ("IndyCar") Series events; and
- A number of other prestigious stock car, sports car, open wheel and motorcycle events.

Our business consists principally of promoting racing events at these major motorsports entertainment facilities, which, in total, currently have approximately 762,000 grandstand seats and 573 suites. We earn revenues and generate substantial cash flows primarily from admissions, television media rights fees, promotion and sponsorship fees, hospitality rentals (including luxury suites, chalets and the hospitality portion of club seating), advertising revenues, royalties from licenses of our trademarks, parking and camping, and track rentals. We own Americrown Service Corporation ("Americrown"), which provides catering, concessions and services at certain of our motorsports entertainment facilities. We also own and operate the Motor Racing Network, Inc. ("MRN") radio network, also doing business under the name "MRN Radio", the nation's largest independent motorsports radio network in terms of event programming. We also have an equity investment in a Hollywood Casino at Kansas Speedway that has generated substantial equity earnings and cash distributions to us since its opening in fiscal year 2012.

At the beginning of fiscal 2017, entitlement of NASCAR's premier series changed. The NASCAR Sprint Cup Series will become the Monster Energy NASCAR Cup Series. Throughout this document, the naming convention for this series is consistent with the branding in fiscal 2017 for prospective events and will be referred to as NASCAR Cup Series for retrospective discussion.

INCORPORATION

We were incorporated in 1953 under the laws of the State of Florida under the name “Bill France Racing, Inc.” and changed our name to “Daytona International Speedway Corporation” in 1957. With the groundbreaking for Talladega Superspeedway in 1968, we changed our name to “International Speedway Corporation.” Our principal executive offices are located at One

Table of Contents

Daytona Boulevard, Daytona Beach, Florida 32114, and our telephone number is (386) 254-2700. We maintain a website at <http://www.internationalspeedwaycorporation.com/>. The information on our website is not part of this report.

OPERATIONS

The general nature of our business is a motorsports themed amusement enterprise, furnishing amusement to the public in the form of motorsports themed entertainment. Our motorsports themed event operations consist principally of racing events at our major motorsports entertainment facilities, which include providing catering, and food and beverage concessions at our motorsports entertainment facilities that host NASCAR Cup Series events except for catering, and food and beverage concessions at Chicagoland and Route 66. Our other operations include MRN; our 50.0 percent equity investment in the joint venture Kansas Entertainment, LLC ("Kansas Entertainment"), which operates the Hollywood Casino at Kansas Speedway; and certain other activities including souvenir merchandising operations. We derived approximately 89.1 percent of our 2016 revenues from NASCAR-sanctioned racing events at our wholly owned motorsports entertainment facilities. In addition to events sanctioned by NASCAR, in fiscal 2016, we promoted other stock car, sports car, open wheel, motorcycle and go-kart racing events.

Food, Beverage and Merchandise Operations

We conduct, either through operations of the particular facility or through our wholly owned subsidiary, Americrown, food and beverage concession operations and catering services, both in suites and chalets, for customers at each of our motorsports entertainment facilities with the exception of food and beverage concessions and catering services at Chicagoland and Route 66. In January 2015, the Company entered into a 10-year agreement with Fanatics Retail Group Concessions, Inc. ("Fanatics") for Fanatics to have exclusive retail merchandise rights for its track trademarks and certain other intellectual property at all ISC tracks (see Merchandising Operations in Future Trends In Operating Results of MANAGEMENT'S DISCUSSION AND ANALYSIS).

Motor Racing Network, Inc.

Our wholly owned subsidiary, MRN, also does business under the name "MRN Radio". While not a radio station, MRN creates motorsports-related programming content carried on radio stations around the country, as well as a national satellite radio service, Sirius XM Radio. MRN produces and syndicates to radio stations live coverage of the Monster Energy NASCAR Cup, Xfinity and Camping World Truck series races and certain other races conducted at our motorsports entertainment facilities, as well as some races conducted at motorsports entertainment facilities we do not own. Sirius XM Radio also compensates MRN for the contemporaneous re-airing of race broadcasts and certain other production services. MRN produces and provides unique content to its website, <http://www.motorracingnetwork.com/>, and derives revenue from the sale of advertising on such website. Each motorsports entertainment facility has the ability to separately contract for the rights to radio broadcasts of NASCAR and certain other events held at its location. In addition, MRN provides production services for the trackside large screen video display units, at NASCAR Cup Series event weekends that take place at our motorsports facilities, as well as at Dover International Speedway and Pocono Raceway. MRN also produces and syndicates daily and weekly NASCAR racing-themed programs. MRN derives revenue from the sale of national advertising contained in its syndicated programming, the sale of advertising and audio and video production services for trackside large screen video display units, as well as from rights fees paid by radio stations that broadcast the programming.

EQUITY INVESTMENTS

Hollywood Casino at Kansas Speedway

We have a 50/50 partnership with Penn Hollywood Kansas Inc. ("Penn"), a subsidiary of Penn National Gaming Inc., which operates a Hollywood-themed and branded destination entertainment facility, overlooking turn two at Kansas. Penn is the managing member of Kansas Entertainment and is responsible for the operation of the casino.

Fairfield Inn Hotel at ONE DAYTONA

We have a 33.25 percent equity interest in a partnership with Daytona Hospitality Group II, LLC ("DHGII"), a subsidiary of Prime-Shaner Groups, to construct and operate a Fairfield Inn hotel. DHGII is the managing member of the Fairfield and will be responsible for the development and operations of the hotel.

We have entered into additional joint ventures, which are structured similarly to the Fairfield Inn joint venture. These joint venture projects include The Daytona, a full service Marriott Autograph Collection hotel, and a residential

component of the ONE DAYTONA project (see "Liquidity and Capital Resources - ONE DAYTONA").
Other Activities

Table of Contents

From time to time, we use our motorsports entertainment facilities for testing for teams, driving schools, riding experiences, car shows, auto fairs, concerts, music festivals and settings for television commercials, print advertisements and motion pictures. We also rent “show cars” for promotional events.

Competition

We are among the largest owners of major motorsports themed entertainment facilities based on revenues, number of facilities owned and/or operated, number of motorsports themed events promoted and market capitalization. Racing events compete with other professional sports such as football, basketball, hockey and baseball, as well as other recreational events and activities. Our events also compete with other racing events sanctioned by various racing bodies such as NASCAR, the American Sportbike Racing Association — Championship Cup Series, United States Auto Club (“USAC”), Sports Car Club of America (“SCCA”), IMSA, IndyCar Series, Automobile Racing Club of America (“ARCA”) and others, many of which are often held on the same dates at separate motorsports entertainment facilities. We believe that the type and caliber of promoted racing events, facility location, sight lines, pricing, variety of motorsports themed amusement options and level of customer conveniences and amenities are the principal factors that distinguish competing motorsports entertainment facilities.

Employees

As of November 30, 2016 we had over 792 full-time employees. We also engage a significant number of temporary personnel to assist during periods of peak attendance at our events, some of whom are volunteers. None of our employees are represented by a labor union. We believe that we enjoy a good relationship with our employees.

Company Website Access and SEC Filings

The Company’s website may be accessed at <http://www.internationalspeedwaycorporation.com/>. Through a link on the Investor Relations portion of our internet website, you can access all of our filings with the Securities and Exchange Commission (“SEC”). However, in the event that the website is inaccessible our filings are available to the public over the internet at the SEC’s website at <http://www.sec.gov/>. You may also read and copy any document we file with the SEC at its public reference facilities at 100 F Street, NE, Washington, D.C. 20549. You can also obtain copies of the documents at prescribed rates by writing to the Public Reference Room of the SEC at 100 F Street, NE, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities. You can also obtain information about us at the offices of the National Association of Securities Dealers, 1735 K St., N.W., Washington, D.C. 20006.

ITEM 1A. RISK FACTORS

Forward-looking statements

This report contains forward-looking statements. The documents incorporated into this report by reference may also contain forward-looking statements. You can identify a forward-looking statement by our use of the words “anticipate,” “estimate,” “expect,” “may,” “believe,” “objective,” “projection,” “forecast,” “goal,” and similar expressions. Forward-looking statements include our statements regarding the timing of future events, our anticipated future operations and our anticipated future financial position and cash requirements.

We believe that the expectations reflected in our forward-looking statements are reasonable. We do not know whether our expectations will ultimately prove correct.

In the section that follows below, in cautionary statements made elsewhere in this report, and in other filings we have made with the SEC, we list the important factors that could cause our actual results to differ from our expectations.

Our actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors described below and other factors set forth in or incorporated by reference in this report.

These factors and cautionary statements apply to all future forward-looking statements we make. Many of these factors are beyond our ability to control or predict. Do not put undue reliance on forward-looking statements or project any future results based on such statements or on present or prior earnings levels.

Additional information concerning these or other factors, which could cause the actual results to differ materially from those in our forward-looking statements is contained from time to time in our other SEC filings. Copies of those filings are available from us and/or the SEC.

Adverse changes in our relationships with NASCAR and other motorsports sanctioning bodies, or their sanctioning practices, could limit our future success

Our success has been, and is expected to remain, dependent on maintaining good working relationships with the organizations that sanction the races we promote at our facilities, particularly NASCAR. NASCAR-sanctioned races conducted at our wholly

Table of Contents

owned motorsports entertainment facilities accounted for approximately 89.1 percent of our total revenues in fiscal 2016. Previously, each NASCAR sanctioning agreement (and the accompanying media rights fees revenue) was awarded on an annual basis. In 2015, we entered into sanctioning agreements with five year terms with NASCAR Event Management, Inc. ("NEM"), an affiliate of NASCAR, for the promotion of our inventory of NASCAR Cup, Xfinity and Camping World Truck Series events. NASCAR is not required to continue to enter into, renew or extend these five year sanctioning agreements with us to conduct any event. These agreements may be terminated by NASCAR due to a breach by us or should we be unable to comply with the terms thereof. Any adverse change in these sanctioning practices, or the economic structure of the NASCAR industry, could adversely impact our operations and revenue. Moreover, while we may pursue the possible development and/or acquisition of additional motorsports entertainment facilities in the future, we have no assurance that any sanctioning body, including NASCAR, will enter into sanctioning agreements with us to conduct races at any newly developed or acquired motorsports entertainment facilities. Failure to obtain a sanctioning agreement for a major NASCAR event could negatively affect us. Similarly, although NASCAR has in the past approved our requests for realignment of sanctioned events, NASCAR is not obligated to modify its race schedules to allow us to schedule our races more efficiently or profitably.

Changes to media rights revenues could adversely affect us

Domestic broadcast and certain ancillary media rights fees revenues derived from NASCAR's three national touring series -- the Monster Energy NASCAR Cup Series, Xfinity Series, and Camping World Truck Series -- are an important component of our revenue and earnings stream and any adverse changes to such rights fees revenues could adversely impact our results.

Any material changes in the media industry that could lead to differences in historical practices or decreases in the term and/or financial value of future broadcast agreements, such as a significant decrease in subscriber fees or advertising revenues due to changing consumer habits, could have a material adverse effect on our revenues and financial results.

Changes, declines and delays in consumer and corporate spending as well as illiquid credit markets could adversely affect us

Our financial results depend significantly upon a number of factors relating to discretionary consumer and corporate spending, including economic conditions affecting disposable consumer income and corporate budgets such as:

- Employment;
- Business conditions;
- Interest rates; and
- Taxation rates.

These factors can impact both attendance at our events and advertising and marketing dollars available from the motorsports industry's principal sponsors and potential sponsors. Economic and other lifestyle conditions such as illiquid consumer and business credit markets adversely affect consumer and corporate spending thereby impacting our revenue, profitability and financial results. Further, changes in consumer behavior such as deferred purchasing decisions and decreased spending budgets adversely impact our cash flow visibility and revenues. For example, the significant economic deterioration that began in fiscal 2008 and the Great Recession significantly impacted these areas of our business and our revenues and financial results.

Unavailability of credit on favorable terms can adversely impact our growth, development and capital spending plans. General economic conditions may be significantly and negatively impacted by global events such as terrorist attacks, prospects of war, or global economic uncertainty. A weakened economic and business climate, as well as consumer uncertainty and the loss of consumer confidence created by such a climate, could adversely affect our financial results. Finally, our financial results could also be adversely impacted by a widespread outbreak of a severe epidemiological crisis.

Delay, postponement or cancellation of major motorsports events because of weather could adversely affect us. We promote outdoor motorsports entertainment events. Weather conditions affect sales of, among other things, tickets, food, drinks and merchandise at these events. Poor weather conditions prior to an event, or even the forecast of poor weather conditions, could have a negative impact on us, particularly for walk-up ticket sales to events which are

not sold out in advance. If an event scheduled for one of our facilities is delayed or postponed because of weather, we could incur increased expenses associated with conducting the rescheduled event, as well as possible decreased revenues from tickets, food, drinks and merchandise at the rescheduled event. Moreover, the forecast of poor weather conditions and/or the delay or postponement of an event due to weather conditions could have a negative impact on renewals for the following year. If such an event is canceled, we would incur the expenses associated with preparing to conduct the event as well as losing the revenues, including any live broadcast revenues, associated with the event. If a canceled event is part of the Monster Energy NASCAR Cup, Xfinity or Camping World Truck series, in the year of cancellation we could experience a reduction in the amount of money we expect to receive from television revenues for all of

Table of Contents

our NASCAR-sanctioned events in the series that experienced the cancellation. This would occur if, as a result of the cancellation, and without regard to whether the canceled event was scheduled for one of our facilities, NASCAR experienced a reduction in television revenues greater than the amount scheduled to be paid to the promoter of the canceled event.

Terrorism and/or fear of violence or attacks at mass gatherings could adversely affect us

Acts of terrorism or violence at mass gatherings or sporting events, prospects of war, global economic uncertainty, or a widespread outbreak of a severe epidemiological crisis, resulting in public fears regarding attendance at sporting events or mass gatherings, could negatively impact attendance at our events. Any one of these items could increase our expenses related to insurance, security and other related matters. In addition, the delay, postponement or cancellation of major motorsports events could have an adverse impact on us such as increased expenses associated with conducting the rescheduled event, as well as possible decreased revenues from tickets, food, drinks and merchandise at the rescheduled event. If such an event is canceled, we would incur the expenses associated with preparing to conduct the event as well as losing the revenues, including any live broadcast revenues, associated with the event.

France Family Group control of NASCAR creates conflicts of interest

Members of the France Family Group own and control NASCAR. James C. France, our Chairman of the Board, and Lesa France Kennedy, our Vice Chairwoman and Chief Executive Officer, are both members of the France Family Group in addition to holding positions with NASCAR. Each of them, as well as our general counsel, spends part of his or her time on NASCAR's business. Because of these relationships, even though all related party transactions are approved by our Audit Committee, certain potential conflicts of interest between us and NASCAR exist with respect to, among other things:

- The terms of any sanctioning agreements that may be awarded to us by NASCAR;

- The amount of time the employees mentioned above and certain of our other employees devote to NASCAR's affairs; and

- The amounts charged or paid to NASCAR for office rental, transportation costs, shared executives, administrative expenses and similar items.

France Family Group members, together, beneficially own approximately 41.0 percent of our capital stock and control over 73.0 percent of the combined voting power of both classes of our common stock. Historically members of the France Family Group have voted their shares of common stock in the same manner. Accordingly, they can (without the approval of our other shareholders) elect our entire Board of Directors and determine the outcome of various matters submitted to shareholders for approval, including fundamental corporate transactions and have done so in the past. If holders of class B common stock other than the France Family Group elect to convert their beneficially owned shares of class B common stock into shares of class A common stock and members of the France Family Group do not convert their shares, the relative voting power of the France Family Group will increase. Voting control by the France Family Group may discourage certain types of transactions involving an actual or potential change in control of us, including transactions in which the holders of class A common stock might receive a premium for their shares over prevailing market prices.

Our success depends on the availability and performance of key personnel

Our continued success depends upon the availability and performance of our senior management team, which possesses unique and extensive industry knowledge and experience. Our inability to retain and attract key employees in the future, could have a negative effect on our operations and business plans.

Our capital allocation plan may not achieve anticipated results

Enhancing the live event experience for our guests by investing in our major motorsports facilities is a critical strategy for our growth, and our Board of Directors has endorsed a capital allocation plan for fiscal 2013 through fiscal 2017 related to this strategy, which includes DAYTONA Rising. In fiscal 2016, our Board endorsed a capital allocation plan for fiscal 2017 through fiscal 2021, which includes strategic reinvestment in our motorsports facilities and the development project ONE DAYTONA. This plan involves significant challenges and risks including that the projects do not advance our business strategy or that we do not realize a satisfactory return on our investment. It may take longer than expected to realize the full benefits from these projects, such as increased revenue, or the benefits may

ultimately be smaller than anticipated or may not be realized. These events could harm our operating results or financial condition.

Future impairment or loss on disposal of goodwill and other intangible assets or long-lived assets by us or our equity investments and joint ventures could adversely affect our financial results

Our consolidated balance sheets include significant amounts of goodwill and other intangible assets and long-lived assets which could be subject to impairment or loss on retirement. During the fiscal years ended November 30, 2014, 2015 and 2016

Table of Contents

we recorded before-tax charges as losses on retirements of long-lived assets primarily attributable to the removal of certain other long-lived assets located at our motorsports facilities totaling approximately \$10.1 million, \$16.0 million and \$2.9 million, respectively. As part of our capital projects process, we identify existing assets that are impacted and require the acceleration of their remaining useful lives. During the fiscal years ended November 30, 2014, 2015, we recorded approximately \$11.1 million and \$6.8 million, respectively, of accelerated depreciation. There were no similar costs in fiscal 2016.

As of November 30, 2016, goodwill and other intangible assets and property and equipment accounts for approximately \$1.8 billion, or 80.7 percent of our total assets. We account for our goodwill and other intangible assets in accordance with Accounting Standards Codification (“ASC”) 350, “Intangibles — Goodwill and Other”, and for our long-lived assets in accordance with ASC 360, “Property, Plant and Equipment.” Both ASC 350 and 360 require testing goodwill and other intangible assets and long-lived assets for impairment based on assumptions regarding our future business outlook. While we continue to review and analyze many factors that can impact our business prospects in the future, our analyses are subjective and are based on conditions existing at and trends leading up to the time the assumptions are made. Actual results could differ materially from these assumptions. Our judgments with regard to our future business prospects could impact whether or not an impairment is deemed to have occurred, as well as the timing of the recognition of such an impairment charge. If future testing for impairment of goodwill and other intangible assets or long-lived assets results in a reduction in their carrying value, we will be required to take the amount of the reduction in such goodwill and other intangible assets or long-lived assets as a non-cash charge against operating income, which would also reduce shareholders’ equity.

In addition, our growth strategy includes investing in certain joint venture opportunities. In these equity investments we exert significant influence on the investee but do not have effective control over the investee. These equity investments add an additional element of risk where they may not advance our business strategy or that we do not realize a satisfactory return on our investment. It may take longer than expected to realize the full benefits from these equity investments, or the benefits may ultimately be smaller than anticipated or may not be realized. These events could harm our operating results or financial condition. Our equity investments total approximately \$92.4 million at November 30, 2016.

Personal injuries to spectators and participants could adversely affect financial results

Motorsports can be dangerous to participants and spectators. We maintain insurance policies that provide coverage within limits that we believe should generally be sufficient to protect us from a large financial loss due to liability for personal injuries sustained by persons on our property in the ordinary course of our business. There can be no assurance, however, that the insurance will be adequate or available at all times and in all circumstances. Our financial condition and results of operations could be affected negatively to the extent claims and expenses in connection with these injuries are greater than insurance recoveries or if insurance coverage for these exposures becomes unavailable or prohibitively expensive.

In addition, sanctioning bodies could impose more stringent rules and regulations for safety, security and operational activities. Such regulations include, for example, the improvements and additions of energy absorbing retaining walls at our facilities, which have increased our capital expenditures, and increased safety and security procedures, which have increased our operational expenses.

We operate in a highly competitive environment

As an entertainment company, our racing events face competition from other spectator-oriented sporting events and other leisure, entertainment and recreational activities, including professional football, basketball, hockey and baseball. As a result, our revenues are affected by the general popularity of motorsports, the availability of alternative forms of recreation and changing consumer preferences and habits, including how consumers consume entertainment. Our racing events also compete with other racing events sanctioned by various racing bodies such as NASCAR, USAC, NHRA, SCCA, IMSA, ARCA and others. Many sports and entertainment businesses have resources that exceed ours.

We are subject to changing governmental regulations and legal standards that could increase our expenses

While we believe that our operations are in material compliance with all applicable federal, state and local environmental, laws and regulations, if it is determined that damage to persons or property or contamination of the

environment has been caused or exacerbated by the operation or conduct of our business or by pollutants, substances, contaminants or wastes used, generated or disposed of by us, or if pollutants, substances, contaminants or wastes are found on property currently or previously owned or operated by us, we may be held liable for such damage and may be required to pay the cost of investigation and/or remediation of such contamination or any related damage. The amount of such liability as to which we are self-insured could be material.

State and local laws relating to the protection of the environment also can include noise abatement laws that may be applicable to our racing events.

Table of Contents

Our existing facilities continue to be used in situations where the standards for new facilities to comply with certain laws and regulations, including the Americans with Disabilities Act, are constantly evolving. Changes in the provisions or application of federal, state or local environmental, land use or other laws, regulations or requirements to our facilities or operations, or the discovery of previously unknown conditions, also could require us to make additional material expenditures to remediate or attain compliance.

Regulations governing the use and development of real estate may prevent us from advancing certain of our business strategies, such as real estate development, and could also substantially delay, complicate and/or increase the costs related to the process of improving existing facilities.

Our business is subject to, and regulated by certain federal, state and foreign privacy and data protection laws and regulations. Changes in regulations or regulatory activity related to the acquisition, storage and subsequent use of customer information and data may prevent us from advancing certain of our business strategies or can increase the costs necessary to comply with such regulations.

If we do not maintain the security of customer-related information, we could damage our reputation with customers, incur substantial additional costs and become subject to litigation

In the ordinary course of our business, we collect and store certain personal information in digital form, including but not limited to name, address and payment account information from individuals, such as our customers, employees and business partners. We also process customer payment card transactions. In addition, our on-line operations depend upon the secure transmission of confidential, personal and payment account information over public networks, including information permitting cashless payments. We limit the amount of payment information by using “tokens” which is an industry best practice that does not require the credit card number to be stored. Significant resources are dedicated both internally and with external experts to help us manage information security, network security, data encryption, and other security practices to protect our systems and data, but these security measures cannot provide absolute security. As with all companies, these security measures are costly, require ongoing monitoring and rapid change due to technology advances, and are subject to third-party security breaches, cyber terrorism, employee error or malfeasance, intrusion or other unanticipated situations. Such a compromise of our information systems that results in personal or payment network information being obtained by unauthorized persons could adversely affect our reputation with our customers, the credit card brands (such as VISA, MasterCard and American Express) and others. Such a compromise could also adversely affect our operations, results of operations, financial condition and liquidity, and could result in litigation against us, the imposition of penalties, restrictions or other requirements by regulatory bodies or the credit card brands. In addition, a security systems breach could require that we expend significant additional resources related to our information security systems and could result in a disruption of our operations, particularly our sales operations. While we maintain cyber liability insurance, not all losses would be covered by such insurance. Further, there can be no assurance that we will be able to maintain such insurance at commercially reasonable rates.

Our quarterly results are subject to seasonality and variability

We derive most of our income from a limited number of NASCAR-sanctioned races. As a result, our business has been, and is expected to remain, highly seasonal based on the timing of major racing events. Future schedule changes as determined by NASCAR or other sanctioning bodies, as well as the acquisition of additional, or divestiture of existing, motorsports entertainment facilities could impact the timing of our major events in comparison to prior or future periods.

Route 66 Raceway	Joliet, Illinois	24,000	24	—	1	(2) Chicago	3

(1) Other major events include NASCAR Xfinity and Camping World Truck series; ARCA; IMSA; IndyCar; and, AMA Pro Racing.

(2) Route 66's other major event includes an NHRA Mello Yello Drag Racing Series event, DAYTONA INTERNATIONAL SPEEDWAY. Daytona is a 2.5 mile high-banked, lighted, asphalt, tri-oval superspeedway that also includes a 3.6-mile road course. We lease the land on which Daytona International Speedway is located from the City of Daytona Beach. The lease on the property expires in 2054, including renewal options. The facility is situated on 440 acres and is located in Daytona Beach, Florida.

TALLADEGA SUPERSPEEDWAY. Talladega is a 2.7 mile high-banked, asphalt, tri-oval superspeedway with a 1.3-mile infield road course. The facility is situated on 1,435 acres and is located about 100 miles from Atlanta, Georgia and approximately 50 miles from Birmingham, Alabama.

MICHIGAN INTERNATIONAL SPEEDWAY. Michigan is a 2.0 mile moderately-banked, asphalt, tri-oval superspeedway. The facility is situated on 1,180 acres and is located in Brooklyn, Michigan, approximately 70 miles southwest of Detroit.

AUTO CLUB SPEEDWAY OF SOUTHERN CALIFORNIA. Auto Club Speedway is a 2.0 mile moderately-banked, lighted, asphalt, tri-oval superspeedway. The facility is situated on 566 acres and is located approximately 40 miles east of Los Angeles in Fontana, California. The facility also includes a quarter mile drag strip and a 2.8-mile road course.

KANSAS SPEEDWAY. Kansas is a 1.5 mile variable-degree banked, asphalt, tri-oval superspeedway with a 0.9-mile infield road course. The facility is situated on 1,000 acres and is located in Kansas City, Kansas. Overlooking turn two of Kansas is a Hollywood-themed and branded destination entertainment facility (see Equity Investments).

Table of Contents

RICHMOND INTERNATIONAL RACEWAY. Richmond is a 0.8 mile moderately-banked, lighted, asphalt, oval, intermediate speedway. The facility is situated on 635 acres and is located approximately 10 miles from downtown Richmond, Virginia.

DARLINGTON RACEWAY. Darlington is a 1.3 mile high-banked, lighted, asphalt, egg-shaped superspeedway. The facility is situated on 230 acres and is located in Darlington, South Carolina.

CHICAGOLAND SPEEDWAY. Chicagoland is a 1.5 mile moderately-banked, lighted, asphalt, tri-oval superspeedway. The facility is situated on 930 acres and is located in Joliet, Illinois, approximately 35 miles from Chicago, Illinois.

MARTINSVILLE SPEEDWAY. Martinsville is a 0.5 mile moderately-banked, asphalt and concrete, oval speedway. The facility is situated on 250 acres and is located in Martinsville, Virginia, approximately 50 miles north of Winston-Salem, North Carolina.

PHOENIX INTERNATIONAL RACEWAY. Phoenix is a 1.0 mile low-banked, lighted, asphalt, oval superspeedway. The facility is situated on 598 acres that also includes a 1.5-mile road course located near Phoenix, Arizona.

HOMESTEAD-MIAMI SPEEDWAY. Homestead is a 1.5 mile variable-degree banked, lighted, asphalt, oval superspeedway. The facility is situated on 404 acres and is located in Homestead, Florida. Homestead is owned by the City of Homestead, however we operate Homestead under an agreement that expires in 2075, including renewal options.

WATKINS GLEN INTERNATIONAL. Watkins Glen includes 3.4-mile and 2.4-mile road course tracks. The facility is situated on 1,377 acres and is located near Watkins Glen, New York.

ROUTE 66 RACEWAY. Route 66 includes a quarter mile drag strip and dirt oval speedway. The facility, adjacent to Chicagoland, is situated on 240 acres and is located in Joliet, Illinois, approximately 35 miles from Chicago, Illinois.

OTHER FACILITIES: We own approximately 245 acres of real property near Daytona which is home to our corporate headquarters, ONE DAYTONA (see “Liquidity and Capital Resources - ONE DAYTONA”) and other offices and facilities. We also own an additional approximate 3,800 acres, outside the location of the respective racing facilities, that are used for event parking, camping, other non-motorsport events and ancillary purposes. In addition, we lease real estate and office space in Talladega, Alabama, Watkins Glen, New York, Concord, North Carolina and Avondale, Arizona.

Intellectual Property

We have various registered and common law trademark rights, including, but not limited to, “California Speedway,” “Chicagoland Speedway,” “Darlington Raceway,” “The Great American Race,” “Southern 500,” “Too Tough to Tame,” “Daytona International Speedway,” “Daytona 500 EXperience,” the “DAYTONA 500,” the “24 Hours of Daytona,” “Acceleration Alley,” “Daytona Dream Laps,” “Speedweeks,” “World Center of Racing,” “Homestead-Miami Speedway,” “Kansas Speedway,” “Martinsville Speedway,” “Michigan International Speedway,” “Phoenix International Raceway,” “Richmond International Raceway,” “Route 66 Raceway,” “The Action Track,” “Talladega Superspeedway,” “Watkins Glen International,” “The Glen,” “Americrown,” “Motor Racing Network,” “MRN,” and related logos. We also have licenses from NASCAR, various drivers and other businesses to use names and logos for merchandising programs and product sales. Our policy is to protect our intellectual property rights vigorously, through litigation, if necessary, chiefly because of their proprietary value in merchandise and promotional sales.

ITEM 3. LEGAL PROCEEDINGS

From time to time, we are a party to routine litigation incidental to our business. We do not believe that the resolution of any or all of such litigation will have a material adverse effect on our financial condition or results of operations.

ITEM 4. MINE SAFETY DISCLOSURES

None

PART II

ITEM 5. MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

At November 30, 2016, we had two issued classes of capital stock: class A common stock, \$.01 par value per share, and class B common stock, \$.01 par value per share. The class A common stock is traded on the NASDAQ National Market System under the symbol “ISCA.” The class B common stock is traded on the Over-The-Counter Bulletin Board

under the symbol “ISCB.OB” and, at the option of the holder, is convertible to class A common stock at any time. As of November 30, 2016,

Table of Contents

there were approximately 1,934 record holders of class A common stock and approximately 344 record holders of class B common stock.

The reported high and low sales prices or high and low bid information, as applicable, for each quarter indicated are as follows:

	ISCA		ISCB.OB(1)	
	High	Low	High	Low
Fiscal 2015				
First Quarter	\$32.65	\$28.54	\$32.50	\$30.75
Second Quarter	38.27	30.25	37.85	31.35
Third Quarter	38.06	28.96	37.23	31.52
Fourth Quarter	37.87	30.99	37.77	31.25
Fiscal 2016				
First Quarter	\$36.40	\$29.71	\$37.77	\$30.40
Second Quarter	37.80	31.75	37.00	32.08
Third Quarter	36.23	30.30	35.03	32.63
Fourth Quarter	38.05	30.05	37.43	31.23

(1) ISCB quotations were obtained from the OTC Bulletin Board and represent prices between dealers and do not include mark-up, mark-down or commission. Such quotations do not necessarily represent actual transactions.

Table of Contents

Stock Purchase Plan

An important component of our capital allocation strategy is returning capital to shareholders. We have solid operating margins that generate substantial operating cash flow. Using these internally generated proceeds, we have returned a significant amount of capital to shareholders primarily through our share repurchase program. The Company has a share repurchase program ("Stock Purchase Plan") under which it is authorized to purchase up to \$330.0 million of its outstanding Class A common shares. In November 2016, the Company's Board of Directors expanded its Stock Purchase Plan by an incremental \$200.0 million bringing its total current authorization to \$530.0 million. The timing and amount of any shares repurchased under the Stock Purchase Plan will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability and other market conditions. The Stock Purchase Plan may be suspended or discontinued at any time without prior notice. No shares have been or will be knowingly purchased from Company insiders or their affiliates.

Period	(a) Total number of shares purchased	(b) Average price paid per share	(c) Total number of shares purchased as part of publicly announced plans or Programs	(d) Maximum number of shares (or approximate dollar value of shares) that may yet be purchased under the plans or programs (in thousands)
December 1, 2015 — August 31, 2016				
Repurchase program(1)	1,098,525	\$ 34.04	1,098,525	\$ 24,346
Employee transactions(2)	17,130	33.49	—	
September 1, 2016 — September 30, 2016				
Repurchase program(1)	30,400	32.98	30,400	23,343
October 1, 2016 — October 31, 2016				
Repurchase program(1)	486,400	31.53	486,400	7,998
November 1, 2016 — November 30, 2016				
Repurchase program(1)	42,786	32.55	42,786	206,604
	1,675,241		1,658,111	

Since inception of the Stock Purchase Plan through November 30, 2016, we have purchased 8,722,073 shares of our Class A common shares, for a total of approximately \$323.4 million. There were no purchases, under the Stock Purchase Plan, of the Company's Class A common shares during fiscal 2014 or 2015. We purchased 1.7 million shares of our Class A common shares during fiscal 2016, at an average cost of approximately \$33.25 per share (including commissions), for a total of approximately \$55.1 million. At November 30, 2016, we have approximately \$206.6 million remaining repurchase authority under the current Stock Purchase Plan.

- (1) Represents shares of our common stock delivered to us in satisfaction of the minimum statutory tax withholding obligation of holders of restricted shares that vested during the period.
- (2)

Total	119,879	37.23	314,221

ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth our selected financial data as of and for each of the last five fiscal years in the period ended November 30, 2016. The income statement data for the three fiscal years in the period ended November 30, 2016, and the balance sheet data as of November 30, 2015 and November 30, 2016, have been derived from our audited historical consolidated financial statements included elsewhere in this report. The balance sheet data as of November 30, 2014, and the income statement data and the balance sheet data as of and for the fiscal years ended November 30, 2013 and 2012, have been derived from our audited historical consolidated financial statements, which are available on our website. You should read the selected financial data set forth below in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements and the accompanying notes included elsewhere in this report.

Table of Contents

- Fiscal year 2014 includes consolidated operations of Motorsports Authentics ("MA") following Speedway Motorsports, Inc.'s ("SMI") abandonment of its interest and rights in SMISC, LLC on January 31, 2014. As a result, ISC recognized merchandise revenue and operating expenses totaling approximately \$25.7 million and \$24.7 million, respectively, for the 10-month period February 1, 2014 through November 30, 2014.
- Fiscal year 2013 includes accelerated depreciation that was recorded due to the shortening the service lives of certain assets associated with DAYTONA Rising and capacity management initiatives totaling approximately \$15.4 million. Fiscal year 2014 includes accelerated depreciation that was recorded due to the shortening the service lives of certain assets associated with DAYTONA Rising totaling approximately \$11.1 million. Fiscal year 2015 includes accelerated depreciation that was recorded due to the shortening the service lives of certain assets associated with DAYTONA Rising totaling approximately \$6.8 million.
- Fiscal 2012 losses associated with the retirements of certain other long-lived assets is primarily attributable to the removal of certain assets in connection with the repaving of the track at Kansas, and certain other long-lived assets located at our motorsports facilities. Fiscal 2013 losses associated with the retirements of certain other long-lived assets is primarily attributable to the removal of assets not fully depreciated in connection with DAYTONA Rising, capacity management initiatives and other capital improvements. Fiscal 2014 losses associated with demolition costs in connection with DAYTONA Rising, capacity management initiatives and other capital improvements. Fiscal 2015 losses associated with demolition costs in connection with DAYTONA Rising and other capital improvements. Fiscal 2016 losses associated with asset retirements and demolition and/or asset relocation costs in connection with capacity management initiatives at Richmond and other facility capital improvements.
- Fiscal 2014 includes approximately \$1.8 million related to settlement of interest income on a long-term receivable. Fiscal 2013, 2014 and 2015 include approximately \$0.8 million \$7.2 million, and \$6.0 million, respectively, related to capitalized interest for DAYTONA Rising, (see DAYTONA Rising in Liquidity and Capital Resources of MANAGEMENT'S DISCUSSION AND ANALYSIS). Fiscal 2016 includes approximately \$1.5 million related to capitalized interest for ONE DAYTONA, DAYTONA Rising, and other capital projects.
- In fiscal 2012, we recorded a loss on early redemption of debt related to the redemption of \$87.0 million of outstanding senior notes maturing in 2014.
- Fiscal 2012 includes the net gain on sale of certain assets. Fiscal 2014 includes the valuation adjustment related to consolidation of MA, representing the fair value over the carrying value as of January 31, 2014. Fiscal 2016 includes the receipt of interest and other consideration, of approximately \$11.7 million, related to the sale of the Staten Island property.
- Equity in net (loss) income from equity investments includes the Company's 50.0 percent portion of Kansas Entertainment's net income, more fully discussed in Management's Discussion and Analysis, Equity and Other Investments. Fiscal 2011 includes pre-development operating expenses not capitalized prior to commencement of operations in February 2012. Fiscal 2012 reflects a partial year of operations from the Casino opening in February 2012 through November 30, 2012. Included in the Company's equity income in fiscal 2013 is a one-time property tax refund of approximately \$1.1 million.

Table of Contents

GAAP to Non-GAAP Reconciliation

The following discussion and analysis of our financial condition and results of operations is presented below using other than U.S. generally accepted accounting principles ("non-GAAP") and includes certain non-GAAP financial measures as identified in the reconciliation below. The non-GAAP financial measures disclosed herein do not have standard meaning and may vary from the non-GAAP financial measures used by other companies or how we may calculate those measures in other instances from time to time. Non-GAAP financial measures, such as EBITDA, which we interpret to be calculated as GAAP operating income, plus depreciation, amortization and other non-cash gain or losses, should not be considered a substitute for, or superior to, measures of financial performance prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Also, our "core" financial measures should not be construed as an inference by us that our future results will be unaffected by those items, which are excluded from our "core" financial measures.

We believe such non-GAAP information is useful and meaningful, and is used by investors to assess the performance of our core operations, which primarily consists of the ongoing promotions of racing events at our major motorsports entertainment facilities. Such non-GAAP information separately identifies, displays, and adjusts for items that are not considered to be reflective of our continuing core operations at our motorsports entertainment facilities. We believe that such non-GAAP information improves the comparability of the operating results and provides a better understanding of the performance of our core operations for the periods presented.

We use this non-GAAP information to analyze the current performance and trends and make decisions regarding future ongoing operations. This non-GAAP financial information may not be comparable to similarly titled measures used by other entities and should not be considered as an alternative to operating income, net income or diluted earnings per share, which are determined in accordance with GAAP. The presentation of this non-GAAP financial information is not intended to be considered independent of or as a substitute for results prepared in accordance with GAAP. Management uses both GAAP and non-GAAP information in evaluating and operating the business and as such deemed it important to provide such information to investors.

The following financial information is reconciled to comparable information presented using GAAP. Non-GAAP net income and diluted earnings per share below are derived by adjusting amounts determined in accordance with GAAP for certain items presented in the accompanying selected operating statement data.

The adjustments for 2012 relate to carrying costs of our Staten Island property, settlement of litigation, marketing and consulting costs incurred associated with DAYTONA Rising, losses associated with the retirements of certain other long-lived assets, loss on early redemption of debt, and net gain on sale of certain assets.

The adjustments for 2013 relate to carrying costs of our Staten Island property, legal judgment, marketing and consulting costs incurred associated with DAYTONA Rising, accelerated depreciation associated with DAYTONA Rising and capacity management initiatives, losses associated with the retirements of certain other long-lived assets, capitalized interest associated with DAYTONA Rising and net gain on sale of certain assets.

The adjustments for 2014 relate to legal settlement, marketing and consulting costs incurred associated with DAYTONA Rising, accelerated depreciation, losses associated with the retirements of certain other long-lived assets, impairment of MA long-lived intangible asset, settlement of interest income related to long-term receivable, DAYTONA Rising project capitalized interest, MA fair value adjustment and income tax benefits, and net loss on sale of certain assets.

The adjustments for 2015 relate to marketing and consulting costs incurred associated with DAYTONA Rising, accelerated depreciation, losses associated with the retirements of certain other long-lived assets, DAYTONA Rising project capitalized interest and net loss on sale of certain assets.

The adjustments for 2016 relate to a legal settlement, certain track redevelopment projects, non-recurring, pre-opening costs incurred associated with DAYTONA Rising, losses associated with the retirements of certain other long-lived assets related to capacity management initiatives (which predominately include the removal of grandstands at Richmond) and other facility capital improvements, capitalized interest related to DAYTONA Rising, ONE DAYTONA and the Phoenix redevelopment project, gain on sale of Staten Island property, non-cash gain related to the transition of merchandise operations, and net gain on sale of certain assets (predominately associated with the sale of trailers in association with the transition of merchandise operations).

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

General

The general nature of our business is a motorsports themed amusement enterprise, furnishing amusement to the public in the form of motorsports themed entertainment. We derive revenues primarily from (i) admissions to motorsports events and motorsports themed amusement activities held at our facilities, (ii) revenue generated in conjunction with or as a result of motorsports events and motorsports themed amusement activities conducted at our facilities, and (iii) catering, concession and merchandising services during or as a result of these events and amusement activities. "Admissions, net" revenue includes ticket sales for all of our racing events and other motorsports activities and amusements, net of any applicable taxes.

"Motorsports and other event related" revenue primarily includes television and ancillary media rights fees, promotion and sponsorship fees, hospitality rentals (including luxury suites, chalets and the hospitality portion of club seating), advertising revenues, royalties from licenses of our trademarks, parking and camping revenues, track rental fees and fees paid by third party promoters for management of non-motorsports events.

"Food, beverage and merchandise" revenue includes revenues from concession stands, direct sales of souvenirs, hospitality catering, programs and other merchandise and fees paid by third party vendors for the right to occupy space to sell souvenirs and concessions at our motorsports entertainment facilities.

Direct expenses include (i) NASCAR event management fees, (ii) motorsports and other event related expenses, which include labor, advertising, costs of competition paid to sanctioning bodies other than NASCAR and other expenses associated with the promotion of all of our motorsports and other events and activities, and (iii) food,

beverage and merchandise expenses, consisting primarily of labor and costs of goods sold.

Table of Contents

We receive distributions from the operations of our 50/50 joint venture in Kansas Entertainment, LLC (see "Equity and Other Investments - Hollywood Casino at Kansas Speedway").

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. While our estimates and assumptions are based on conditions existing at and trends leading up to the time the estimates and assumptions are made, actual results could differ materially from those estimates and assumptions. We continually review our accounting policies, how they are applied and how they are reported and disclosed in the financial statements.

The following is a summary of our critical accounting policies and estimates and how they are applied in the preparation of the financial statements.

Basis of Presentation and Consolidation. We consolidate all entities we control by ownership of a majority voting interest and variable interest entities for which we have the power to direct activities and the obligation to absorb losses. Our judgment in determining if we consolidate a variable interest entity includes assessing which party, if any, has the power and benefits. Therefore, we evaluate which activities most significantly affect the variable interest entities economic performance and determine whether we, or another party, have the power to direct these activities. We apply the equity method of accounting for our investments in joint ventures and other investees whenever we can exert significant influence on the investee but do not have effective control over the investee. Our consolidated net income includes our share of the net earnings or losses from these investees. Our judgment regarding the level of influence over each equity method investee includes considering factors such as our ownership interest, board representation and policy making decisions. We periodically evaluate these equity investments for potential impairment where a decline in value is determined to be other than temporary. We eliminate all significant intercompany transactions from financial results.

Revenue Recognition. Advance ticket sales and event-related revenues for future events are deferred until earned, which is generally once the events are conducted. The recognition of event-related expenses is matched with the recognition of event-related revenues.

NASCAR contracts directly with certain network providers for television rights to the entire Monster Energy NASCAR Cup, Xfinity and Camping World Truck series schedules. Event promoters share in the television rights fees in accordance with the provision of the sanction agreement for each NASCAR Cup, Xfinity and Camping World Truck series event. Under the terms of this arrangement, NASCAR retains 10.0 percent of the gross broadcast rights fees allocated to each Monster Energy NASCAR Cup, Xfinity and Camping World Truck series event as a component of its sanction fees. The promoter records 90.0 percent of the gross broadcast rights fees as revenue and then records 25.0 percent of the gross broadcast rights fees as part of its awards to the competitors. Ultimately, the promoter retains 65.0 percent of the net cash proceeds from the gross broadcast rights fees allocated to the event.

Our revenues from marketing partnerships are paid in accordance with negotiated contracts, with the identities of partners and the terms of sponsorship changing from time to time. Some of our marketing partnership agreements are for multiple facilities and/or events and include multiple specified elements, such as tickets, hospitality chalets, suites, display space and signage for each included event. The allocation of such marketing partnership revenues between the multiple elements, events and facilities is based on relative selling price. The sponsorship revenue allocated to an event is recognized when the event is conducted.

Revenues and related costs from the sale of merchandise to retail customers, internet sales and direct sales to dealers are recognized at the time of sale.

Business Combinations. All business combinations are accounted for under the acquisition method. Whether net assets or common stock is acquired, fair values are determined and assigned to the purchased assets and assumed liabilities of the acquired entity. The excess of the cost of the acquisition over fair value of the net assets acquired is recorded as goodwill. Business combinations involving existing motorsports entertainment facilities commonly result in a significant portion of the purchase price being allocated to the fair value of the contract-based intangible asset associated with long-term relationships manifest in the sanction agreements with sanctioning bodies, such as

NASCAR and IMSA series. The continuity of sanction agreements with these bodies has historically enabled the facility operator to host motorsports events year after year. While some individual sanction agreements may be of terms as short as one year, sanction agreements with NASCAR's national touring series' are five years in length and sanction agreements with IMSA are for a three year period. A significant portion of the purchase price in excess of the fair value of acquired tangible assets is commonly paid to acquire anticipated future cash flows from events promoted pursuant to these agreements which are expected to continue for the foreseeable future and

Table of Contents

therefore, in accordance with ASC 805-50, “Business Combinations,” are recorded as indefinite-lived intangible assets recognized apart from goodwill.

Capitalization and Depreciation Policies. Property and equipment are stated at cost. Maintenance and repairs that neither materially add to the value of the property nor appreciably prolong its life are charged to expense as incurred. Depreciation and amortization for financial statement purposes are provided on a straight-line basis over the estimated useful lives of the assets. When we construct assets, we capitalize costs of the project, including, but not limited to, certain pre-acquisition costs, permitting costs, fees paid to architects and contractors, certain costs of our design and construction subsidiary, property taxes and interest.

We must make estimates and assumptions when accounting for capital expenditures. Whether an expenditure is considered an operating expense or a capital asset is a matter of judgment. When constructing or purchasing assets, we must determine whether existing assets are being replaced or otherwise impaired, which also is a matter of judgment. Our depreciation expense for financial statement purposes is highly dependent on the assumptions we make about our assets’ estimated useful lives. We determine the estimated useful lives based upon our experience with similar assets, industry, legal and regulatory factors, and our expectations of the usage of the asset. Whenever events or circumstances occur which change the estimated useful life of an asset, we account for the change prospectively.

Interest costs associated with major development and construction projects are capitalized as part of the cost of the project. Interest is typically capitalized on amounts expended using the weighted-average cost of our outstanding borrowings, since we typically do not borrow funds directly related to a development or construction project. We capitalize interest on a project when development or construction activities begin, and cease when such activities are substantially complete or are suspended for more than a brief period.

Impairments / Losses on Retirements of Long-Lived Assets, Goodwill and Other Intangible Assets. Our consolidated balance sheets include significant amounts of long-lived assets, goodwill and other intangible assets, which could be subject to impairments / losses on retirements. During the fiscal years ended November 30, 2014, 2015 and 2016 we recorded before-tax charges as losses on retirements of long-lived assets primarily attributable to costs to remove certain other long-lived assets located at our motorsports facilities totaling approximately \$10.1 million, \$16.0 million and \$2.9 million, respectively.

As of November 30, 2016, goodwill and other intangible assets and property and equipment account for approximately \$1.8 billion, or 80.7 percent of our total assets. We account for our goodwill and other intangible assets in accordance with ASC 350 and for our long-lived assets in accordance with ASC 360.

We follow applicable authoritative guidance on accounting for goodwill and other intangible assets which specifies, among other things, non-amortization of goodwill and other intangible assets with indefinite useful lives and requires testing for possible impairment, either upon the occurrence of an impairment indicator or at least annually. We complete our annual testing in our fiscal fourth quarter, based on assumptions regarding our future business outlook and expected future discounted cash flows attributable to such assets (using the fair value assessment provision of applicable authoritative guidance), supported by quoted market prices or comparable transactions where available or applicable.

While we continue to review and analyze many factors that can impact our business prospects in the future (as further described in “Risk Factors”), our analysis is subjective and is based on conditions existing at, and trends leading up to, the time the estimates and assumptions are made. Different conditions or assumptions, or changes in cash flows or profitability, if significant, could have a material adverse effect on the outcome of the impairment evaluation and our future condition or results of operations.

In connection with our fiscal 2016 assessment of goodwill and intangible assets for possible impairment we used the methodology described above. We believe our methods used to determine fair value and evaluate possible impairment were appropriate, relevant, and represent methods customarily available and used for such purposes. Our latest annual assessment of goodwill and other intangible assets in the fourth quarter of fiscal 2016 indicated there had been no impairment and the fair value substantially exceeded the carrying value for the respective reporting units.

In addition, our growth strategy includes investing in certain joint venture opportunities. In these equity investments we exert significant influence on the investee but do not have effective control over the investee, which adds an additional element of risk that could harm our operating results or financial condition. The carrying value of our

equity investments were \$92.4 million at November 30, 2016.

Income Taxes. The tax law requires that certain items be included in our tax return at different times than when these items are reflected in our consolidated financial statements. Some of these differences are permanent, such as expenses not deductible on our tax return. However, some differences reverse over time, such as depreciation expense, and these temporary differences create deferred tax assets and liabilities. Our estimates of deferred income taxes and the significant items giving rise to deferred tax assets and liabilities reflect our assessment of actual future taxes to be paid on items reflected in our financial statements,

Table of Contents

giving consideration to both timing and probability of realization. Actual income taxes could vary significantly from these estimates due to future changes in income tax law or changes or adjustments resulting from final review of our tax returns by taxing authorities, which could also adversely impact our cash flow.

In the ordinary course of business, there are many transactions and calculations where the ultimate tax outcome is uncertain. Accruals for uncertain tax positions are provided for in accordance with the requirements of ASC 740, "Income Taxes." Under this guidance, we may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than 50.0 percent likelihood of being realized upon the ultimate settlement. This interpretation also provides guidance on de-recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, and income tax disclosures. Judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns. Although we believe the estimates are reasonable, no assurance can be given that the final outcome of these matters will not be different than what is reflected in the historical income tax provisions and accruals. Such differences could have a material impact on the income tax provision and operating results in the period in which such determination is made.

Contingent Liabilities. Our determination of the treatment of contingent liabilities in the financial statements is based on our view of the expected outcome of the applicable contingency. In the ordinary course of business, we consult with legal counsel on matters related to litigation and other experts both within and outside our Company. We accrue a liability if the likelihood of an adverse outcome is probable and the amount of loss is reasonably estimable. We disclose the matter but do not accrue a liability if the likelihood of an adverse outcome is reasonably possible and an estimate of loss is not determinable. Legal and other costs incurred in conjunction with loss contingencies are expensed as incurred.

Equity and Other Investments

Hollywood Casino at Kansas Speedway

Kansas Entertainment, a 50/50 joint venture of Penn, a subsidiary of Penn National Gaming, Inc. and Kansas Speedway Development Corporation ("KSDC"), a wholly owned indirect subsidiary of ISC, operates the Hollywood-themed casino and branded destination entertainment facility, overlooking turn two at Kansas Speedway. Penn is the managing member of Kansas Entertainment and is responsible for the operations of the casino. We have accounted for Kansas Entertainment as an equity investment in our financial statements as of November 30, 2016. Our 50.0 percent portion of Kansas Entertainment's net income was approximately \$8.9 million, \$14.1 million and \$14.9 million for fiscal years 2014, 2015 and 2016, respectively, and is included in equity in net income from equity investments in our consolidated statements of operations.

Distributions from Kansas Entertainment, for the year ended November 30, 2016, totaling \$25.9 million, consist of \$16.1 million received as a distribution from its profits included in net cash provided by operating activities on our statement of cash flows; the remaining \$9.8 million received was recognized as a return of capital from investing activities on our statement of cash flows. We received total distributions of approximately \$32.1 million in fiscal 2015.

Fairfield Inn Hotel at ONE DAYTONA

Since June 2013, we have pursued development of ONE DAYTONA (see "Liquidity and Capital Resources - ONE DAYTONA"), the proposed premier mixed use and entertainment destination across from its Daytona International Speedway. Daytona Hotel Two, LLC ("Fairfield"), a joint venture of Daytona Hospitality Group II, LLC ("DHGII"), a subsidiary of Prime-Shaner Groups, and Daytona Beach Property Holdings Retail, LLC ("DBR"), a wholly owned indirect subsidiary of ISC, was formed to own, construct and operate a Fairfield Inn hotel. The hotel will be situated within the ONE DAYTONA development. As per the partnership agreement, our 33.25 percent share of equity will be limited to our non-cash land contribution and we will share in the profits and losses from the joint venture proportionately to our equity ownership.

In June 2016, DBR contributed land to the joint venture as per the agreement. Vertical construction of the hotel has commenced and is expected to open in third quarter of fiscal 2017. DHGII is the managing member of the Fairfield

and will be responsible for the development and operations of the hotel. There were no operations as of November 30, 2016.

As part of the ONE DAYTONA project, we have entered into additional joint ventures, which are structured similarly to the Fairfield joint venture, where our share of equity will be limited to our non-cash land contribution and we will share in the profits and losses from the joint venture proportionately to our equity ownership. These joint venture projects include The Daytona, a full service Marriott Autograph Collection hotel, and a residential component of the ONE DAYTONA project.

Staten Island Property

Table of Contents

On August 5, 2013, we announced that we sold our 676 acre parcel of property located in Staten Island, New York, to Staten Island Marine Development, LLC ("Marine Development"). Marine Development purchased 100 percent of the outstanding equity membership interests of 380 Development LLC ("380 Development"), a wholly owned indirect subsidiary of ISC and owner of the Staten Island property, for a total sales price of \$80.0 million. In addition, we previously received approximately \$4.2 million for an option provided to the purchaser that is nonrefundable and does not apply to the \$80.0 million sales price.

We received \$7.5 million, less closing and other administrative costs, of the sales price at closing. The remaining sales price was financed with us holding a secured mortgage interest in 380 Development as well as the underlying property. The mortgage balance bore interest at an annual rate of 7.0 percent. In accordance with the terms of the agreement, we have received a principal payment of approximately \$6.1 million plus interest on the mortgage balance through February 29, 2016. The remaining purchase price of \$66.4 million was due in March 2016. We have accounted for the transaction using the cost recovery method and have deferred the recognition of profit of approximately \$1.9 million, and interest totaling approximately \$11.4 million at May 31, 2016, until the carrying amount of the property was recovered, upon final payment.

In March 2016, we completed an assignment of all rights, title and interest in the mortgage and underlying promissory note to an affiliate of Matrix Development Group, a New York/New Jersey area developer, and received the remaining principal balance of \$66.4 million, plus additional consideration of approximately \$0.3 million. We have no further commitments or contingencies related to the property or its sale. As a result, in the second quarter of fiscal 2016, we recorded a gain of approximately \$13.6 million. The deferred gain of \$1.9 million is included in Other operating revenue in our consolidated statement of operations, and the interest, and additional consideration, received is included in Other in our consolidated statement of operations.

The net proceeds from the sale, combined with the mortgage interest and related cash tax benefits, has provided us with approximately \$129.8 million in cash through the term of the mortgage.

Income Taxes

The principal causes of the decreased income tax rate for the fiscal year ended November 30, 2014 are the tax treatment related to the other income recognized as a result of SMI's abandonment of their interest in SMISC, LLC on January 31, 2014, including the related tax benefits associated with various operating loss and other carryforwards of MA and certain tax filing positions of SMISC, LLC totaling approximately \$4.0 million along with certain state income tax adjustments. The principal causes of the decreased effective income tax rate as compared to the statutory income tax rate, for the fiscal year ended November 30, 2015 and 2016 are reductions in certain state tax rates. As a result of the above items, the Company's effective income tax rate decreased from the statutory income rate to approximately 33.0 percent, 37.7 percent and 38.5 percent for the fiscal years ended November 30, 2014, 2015 and 2016, respectively.

In December 2015, Congress passed the Protecting Americans from Tax Hikes Act which included a retroactive renewal back to January 1, 2015 of the previously expired tax legislation. The Act extended accelerated depreciation on qualified capital investments placed into service. This bonus depreciation provision is 50% for qualifying assets placed into service from 2015 through 2017. The impact of this tax legislation did not affect the Company's fiscal 2016 effective tax rate, but correspondingly reduced the current income tax payable and increased the noncurrent deferred tax liability by \$73.4 million.

Future Trends in Operating Results

International Speedway Corporation is the leading owner of major motorsports entertainment facilities and promoter of motorsports-themed entertainment activities in the United States. We compete for discretionary spending and leisure time with many other entertainment alternatives and are subject to factors that generally affect the recreation, leisure and sports industry, including general economic conditions. Our operations are also sensitive to factors that affect corporate budgets. Such factors include, but are not limited to, general economic conditions, employment and wage levels, business conditions, interest and taxation rates, relative commodity prices, and changes in consumer tastes and spending habits.

In 2008, an unprecedented global economic crisis began that significantly impacted consumer confidence and disproportionately affected key demographics of our target customers. Continuing economic uncertainty including the

lack of a broad-based middle class recovery may continue to adversely impact our future attendance, guest spending, and our ability to grow corporate marketing partnerships all of which could negatively affect revenues and profitability. In fiscal 2009, we implemented sustainable cost containment initiatives to mitigate declines in certain revenue categories. We are sustaining the significant cost reductions implemented in previous years and continuously seek ways to improve our operating efficiency without negatively impacting the guest experience.

Looking to the future, we expect the continuing slow, but uneven, recovery in the broader U.S. economy to provide an environment for improved attendance-related and corporate partnership revenues. Our industry is also benefiting from NASCAR securing its broadcast rights through the 2024 season with the largest broadcast rights deal in the sport's 68-year

Table of Contents

history. Consistent with major sports properties throughout the world, broadcast rights represent our company's largest revenue segment. Expanding and extending this contracted revenue will provide us unparalleled long-term cash flow visibility. We also believe the strategic initiatives and investments we and the motorsports industry have undertaken to grow the sport will continue to strengthen the long-term health of our Company.

The industry and its stakeholders have demonstrated their commitment to growing the sport by aligning with and executing upon growth initiatives supporting NASCAR's industry-wide strategic plan whose objective is to build upon NASCAR's appeal by enhancing the connection with existing fans, as well as attracting and engaging new Gen Y, youth and multicultural consumers in motorsports. Additional areas of focus include building greater product relevance, cultivating driver star power, growing social media activities and enhancing the event experience.

A few recent, successful innovations that resulted from NASCAR initiatives that have improved on-track competition and excitement, include the introduction of refined aerodynamic and downforce specifications providing the driver more control of the car, knockout group qualifying formats, and overtime rules and enhancements to the Chase for the Championship. In January 2014 NASCAR announced a new championship format that puts greater emphasis on winning races throughout the season and expands the current Chase field to 16 drivers. For 2016, the Chase format has been expanded to both Xfinity and Camping World Truck series events, qualifying 12 drivers and 8 drivers, respectively. The Chase implements a round-by-round advancement format that ultimately rewards a battle-tested, worthy champion. The format makes every race matter even more, diminishes points racing, puts a premium on winning races and concludes with a best-of-the-best, first-to-the-finish line showdown race – all of which is exactly what fans want. The new Chase structure has driven competition to a whole new level with a thrilling, easy to understand format that we believe translates into greater fan interest and revenue opportunities for these events. We anticipate continued favorable momentum at our Chase-related events as we move forward.

We support NASCAR's industry strategy on a number of fronts. We are committed to improving our major motorsports facilities to enhance guest experiences and create stronger fan engagement. Specifically, one of the most ambitious and important projects in our history is the redevelopment of the frontstretch of the Daytona International Speedway ("Daytona"), the Company's 57-year-old flagship motorsports facility. The new Daytona International Speedway is the world's first and only motorsports stadium featuring unique experiences for our guests and providing several new marketing platforms for corporate partners, broadcasters and industry stakeholders. Fan and stakeholder feedback, related to redevelopment at Daytona, has been overwhelmingly positive and we were pleased with the financial results after the first full year of events (See "DAYTONA Rising: Reimagining an American Icon"). We remain confident that elevating the experience at the most important and iconic motorsports facility in North America will drive further growth for the DAYTONA 500 brand, our 12 other major motorsports facilities' brands, and the NASCAR brand. We are also confident, that this strategic project will positively influence attendance trends, corporate involvement in the sport, and the long-term strength of future broadcast media rights revenues.

As part of our strategic plan and updated capital allocation strategy (See "Capital Improvements" and "Growth Strategies"), ISC recently announced that the Board of Directors approved a project to redevelop the grandstands and infield for Phoenix International Raceway ("Phoenix"). The project's cost is estimated to be approximately \$178.0 million and addresses critical facility maintenance, enhances the fan experience, provides valuable marketing assets for new sponsorship opportunities, and creates updated infield amenities including a new 'fanzone'. Phoenix is an attractive asset in ISC's portfolio of tracks with a number of key attributes that include two major NASCAR Cup series weekends, including the second to the last NASCAR Cup Series event in the Chase, and a fan-favorite, unique racetrack configuration in the twelfth major media market. Phoenix exists in an attractive, but competitive marketplace with an exciting opportunity to grow its brand, enhance the facility and guest experience and provide a sustainable financial return.

Admissions

Driving event sellouts and creating excess demand is key to the optimal performance of our Monster Energy NASCAR Cup Series events. An important component of our operating strategy continues to be a long-standing focus on supply and demand when evaluating ticket pricing and adjusting capacity at our facilities. By effectively managing both ticket prices and seating capacity, we have historically shown the ability to stimulate ticket renewals and advance ticket sales.

Advance ticket sales provide us many benefits such as earlier cash inflow, and reducing the potential negative impact of actual or forecasted inclement weather. When evaluating ticketing initiatives, we first examine our ticket pricing structure for each segmented seating area and/or offering within our major motorsports entertainment facilities to ensure prices are on target with market demand. When determined necessary, we adjust ticket pricing. We believe our ticket pricing philosophy appropriately factors current demand and provides attractive price points for all income levels and desired fan experiences.

It is important that we maintain the integrity of our ticket pricing model by ensuring our customers who purchase tickets during the renewal period get preferential pricing. We do not adjust pricing downward inside of the sales cycle to avoid rewarding last-minute ticket buyers by discounting tickets. Further, we closely monitor and manage the availability of promotional tickets. Encouraging late cycle buying and offering excess promotional tickets could have a detrimental effect on our ticket pricing model and long-term value of our business. We believe it is more important to encourage advance ticket sales and maintain

Table of Contents

price integrity to achieve long-term growth rather than to capture short-term incremental revenue at the expense of our customers who purchased tickets during the renewal period. We continue to implement innovative ticket pricing strategies to capture incremental admissions revenue including ticket price increases over time as the event nears and adjusting pricing of specific seats within a section or row with desirable attributes and greater demand.

To provide our guests with the best fan experience possible, we have improved fan amenities such as wider seating, increased the amount of social zones to promote greater fan interaction/engagement for our guests, and adjusted sight lines for better viewing. Based on our experience, and the continual evolution of modern sports facilities, ticket demand relies strongly on creating a more personal experience for the fans. Enhancing the live event experience to differentiate it from the at-home television viewing experience is a critical strategy for our future growth. Other benefits derived from capacity management include:

- improved pricing power for our events;
- enticing more customers to renew or purchase tickets earlier in the sales cycle;
- increasing customer retention;
- driving greater attendance to our lead-in events, such as NASCAR's Xfinity and Camping World Truck series events;
- generating stronger interest from corporate sponsors; and
- creating a more visually compelling event for the television audience.

Other key strategic focus areas designed to build fan engagement and augment the live-event experience include providing enhanced at-track audio and visual experiences, additional and improved concession and merchandise points-of-sale, creating more interactive social zones and offering greater wireless connectivity. We continuously monitor market demand, evaluate customer feedback, and explore next generation live-sports entertainment fan amenities, all of which could further impact how we manage capacity and spend capital at our major motorsports facilities.

Corporate Partnerships

NASCAR is a powerful brand with a loyal fan base that we believe is aware of, appreciates and supports corporate participation to a greater extent than fans of any other sports property. The combination of brand power and fan loyalty provides an attractive platform for robust corporate partnerships. The number of FORTUNE 500 companies invested in NASCAR remains higher than any other sport. More than one-in-four FORTUNE 500 companies, and nearly half of FORTUNE 100 companies, use NASCAR as part of their marketing strategy and the trend is increasing. The number of FORTUNE 500 companies investing in NASCAR has increased approximately 20.0 percent since fiscal 2008.

We believe that our presence in key metropolitan statistical areas, year-round event schedule, impressive portfolio of major motorsports events and attractive fan demographics are beneficial as we continue to pursue renewal and expansion of existing corporate marketing partnerships and establish new corporate relationships. Companies are demanding more quantifiable return on investment from their sports marketing strategies and our company is focused on delivering enhanced value through our strategic initiatives. This includes enhanced facilities, more frequent and diverse content at our facilities, and deeper understanding of and integration with our customers' business, among other things.

We are very encouraged by organic growth of corporate sales and new sales boosted by strong corporate demand from the grand opening of DAYTONA Rising. For DAYTONA Rising, we have secured five long-term founding partnerships with Toyota, Florida Hospital, Chevrolet, Sunoco, and most recently Axalta, all of them equal or exceed ten year relationships. We also continue to see longer deal terms that provide greater long-term income visibility, which allows our sales team to focus on incremental revenue generation, and more time for sponsor activation. 2017 marks the beginning of a new, exciting era for NASCAR's premiere racing series. The introduction of Monster Energy as the series entitlement sponsor for the NASCAR Cup Series establishes a new brand identity that is modern, yet embraces the heritage of NASCAR racing. NASCAR has expressed that Monster Energy will bring greater commitment and activation to the sponsorship platform including greater exposure to younger demographics.

It is important to note that 2016 was the last year our revenue included agreements between ISC and Sprint, previous series sponsor, for various inventory and activation rights at ISC racetracks. These agreements were originally formed in the mid-2000's, pre-recession. While we currently expect to have similar agreements in place with Monster Energy,

we anticipate the economics of the agreements will result in a one-time reset in 2017. Our current estimate for gross corporate sales is to decline approximately 1.0 percent in 2017 due to the reset of these agreements. Excluding this one-time reset, at this time, we expect an increase between 1.0 percent and 2.0 percent in 2017, with escalators in the low-to-mid single digits going forward.

As of January 2017, we have sold all but two Monster Energy NASCAR Cup race entitlements, all but three NASCAR Xfinity series entitlements, and all except one NASCAR Camping World Truck series entitlements. For fiscal 2017, we have agreements in place for approximately 76.0 percent of our gross marketing partnership revenue target. This is compared to fiscal 2016 at this time when we had approximately 75.0 percent of our gross marketing partnership revenue target sold and had

Table of Contents

entitlements for one Monster Energy NASCAR Cup and four NASCAR Xfinity entitlements either open or not announced. With the vast majority of our event entitlements secured, we can focus more resources on official status categories, which will better position us to meet our gross marketing partnership revenue target for fiscal 2017. We believe this demonstrates the value proposition for our corporate partners is stronger than ever.

Television Broadcast and Ancillary Media Rights

Domestic broadcast and ancillary media rights fees are ISC's largest revenue source, accounting for approximately 49.2 percent of 2016 total revenues.

In August 2013, NASCAR finalized multi-platform broadcast rights agreements with NBCUniversal ("NBC") and FOX Broadcasting Company ("FOX") for 10 years, beginning in 2015 through the 2024 season, for the broadcast and related rights for NASCAR's three national touring series. Financial terms were not disclosed but leading industry sources estimate the combined agreements value at approximately \$8.2 billion over the 10 years. The agreements include Spanish-language rights and the rights to stream authenticated NASCAR content over the broadcasters' affiliated digital platforms. The streaming and/or video-on-demand rights are often referred to as 'TV Everywhere' rights in the broadcast industry. These rights are important to the broadcasters, who can monetize alternative digital delivery methods of NASCAR content, and address the shifting ways people consume live sports content.

FOX has exclusive rights to the first 16 Monster Energy NASCAR Cup Series point races beginning each year with the prestigious DAYTONA 500. In addition, FOX retains the rights to the NASCAR Cup Series All-Star Race, The Advance Auto Parts Clash (formerly the Sprint Unlimited), Can-Am Duel, 14 NASCAR Xfinity Series events and the entire NASCAR Camping World Truck Series. NBC has exclusive rights to the final 20 Monster Energy NASCAR Cup Series points races including NASCAR's playoffs, final 19 NASCAR Xfinity Series events, select NASCAR Regional & Touring Series events and other live content beginning in 2015. In 2017, NASCAR will have 17 Monster Energy Cup races on network television, the same as 2016.

NASCAR's solid ratings, the strong demand for live sports programming and the proliferation of on-demand content were significant factors for NASCAR signing the largest broadcast rights deal in the sport's 68-year history.

In August 2013, FOX debuted its 24-hour Fox Sports 1 network to compete with ESPN. Fox Sports 1 is available in approximately 86 million television households. In addition to NASCAR, Fox Sports 1 has deals for Major League Baseball, college football and basketball, Ultimate Fighting Championship, Major League Soccer, United States Golf Association, as well as other sports. Fox Sports 1 represents the latest in the long migration of marquee sports from broadcast television to cable/satellite, who generally can support a higher investment due to subscriber fees that are not available to traditional networks. In 2016, Fox Sports 1 broadcast seven live NASCAR Cup events and eleven NASCAR Xfinity events. NASCAR events and content are consistently among the highest rated programming on Fox Sports 1.

In January 2, 2012, NBC Sports Network (NBCSN) was re-branded to align NBC owned sports channels with its NBC sports division, which consists of a unique array of sports assets, including NBC Sports, NBC Olympics, NBC Sports Network ("NBCSN"), Golf Channel, 10 NBC Sports Regional Networks, NBC Sports Radio and NBC Sports Digital (Sports Live Extra). NBCSN is available in approximately 78 million pay television homes. NBC Sports Group possesses an unparalleled collection of television rights agreements, and in addition to NASCAR partners with some of the most prestigious sports properties in the world including the International Olympic Committee and United States Olympic Committee, the NFL, NHL, PGA TOUR, The R&A, PGA of America, Churchill Downs, Premier League, Tour de France, French Open, Formula One, IndyCar and many more. In 2016, NBCSN broadcast twelve NASCAR Cup events and thirteen NASCAR Xfinity events, which represented some of the highest rated programming for NBCSN.

Specific events, such as the impact of inclement weather for events in the current and/or prior year, and from media competition faced from the 2016 Summer Olympics and the 2016 Presidential campaign, impacts year over year comparability of television ratings.

NASCAR continues to deliver strong audiences in a changing media consumption environment. Even as fans of all sporting events choose to consume content through digital and social media alternatives in addition to television viewing, NASCAR's live television draw is powerful. NASCAR Cup events ranked as the number one or two sports broadcast of the weekend seventeen times during the 2016 season with the premier series events averaging

approximately 4.6 million viewers per broadcast and approximately 58.0 million total unique television viewers. During 2016, ratings on FOX declined versus prior year, paralleling the general trend in 2016 for sports viewership and media consumption. Notable other marquee sports events saw 2016 viewership declines including the Super Bowl, NCAA Final Four,

Table of Contents

the Kentucky Derby and the Masters. However, Fox Sports 1 NASCAR ratings increased approximately 3.8% versus 2015 demonstrating that value the NASCAR product brings to the sports network.

In 2016, NASCAR Cup Races on NBC and NBCSN began with a successful kickoff in Daytona for the July NASCAR weekend resulting in the most-watched summer Daytona race since 2011, with 5.7 million viewers. Some significant 2016 season highlights for NBCSN include the number one most watched NBCSN telecast in record for the Brickyard 400 Cup event, and NASCAR Cup races now account for the five most watched telecasts ever on that network. Finally, the NASCAR Cup Championship race from Miami was the second most-watched NASCAR season championship since 2011 and at peak recorded 8.4 million viewers per minute.

Domestic broadcast media rights fees provide significant cash flow visibility to us, race teams and NASCAR over the contract term. Television broadcast and ancillary rights fees received from NASCAR for the NASCAR Cup, Xfinity and Camping World Truck series events conducted at our facilities under these agreements, and recorded as part of motorsports related revenue, were approximately \$302.9 million, \$314.5 million and \$325.1 million for fiscal 2014, 2015 and 2016, respectively. Operating income generated by these media rights were approximately \$220.1 million, \$228.4 million and \$236.7 million for fiscal 2014, 2015 and 2016, respectively.

As media rights revenues fluctuate so do the variable costs tied to the percentage of broadcast rights fees required to be paid to competitors as part of NASCAR Cup, Xfinity and Camping World Truck series sanction agreements.

NASCAR event management fees ("NEM" or "NASCAR direct expenses") are outlined in the sanction agreement for each event and are negotiated in advance of an event. As previously discussed, included in these NASCAR direct expenses are amounts equal to 25.0 percent of the gross domestic television broadcast rights fees allocated to our NASCAR Cup Cup, Xfinity and Camping World Truck series events, as part of NASCAR event management fees (See "Critical Accounting Policies and Estimates - Revenue Recognition"). The NASCAR event management fees are contracted from 2016 through 2020 under the five-year sanction agreements (see Sanctioning Bodies) and paid to NASCAR to contribute to the support and growth of the sport of NASCAR stock car racing through payments to the teams and sanction fees paid to NASCAR. As such, we do not expect these costs to materially decrease in the future as a percentage of admissions and motorsports related income.

Digital Media Content

A 2016 digital media study conducted by Deloitte confirmed that the current dynamic media landscape is transforming as a result of new technologies available and the evolving ways people choose to consume media content. A few of the study's key findings are as follows:

The study evaluated the key segments of the U.S. adult population for technology and consumption preferences.

• Millennials, defined as adults born after 1983, now make up the largest single segment of generational consumers at 33% of the adult population.

• Across all generations, smart phones are the highest valued technology product device, far outweighing flat-screen TV's.

• Nearly a quarter of the U.S. population own a streaming media device, and nearly half of U.S. consumers subscribe to a streaming video service.

• Millennials spend approximately 50% of their time watching movies and TV shows on a device other than a television, with 20% watching on mobile devices.

• Checking social networks is a daily habit for more than half of all U.S. consumers, skewing much higher for younger demographics.

• Social media has surpassed television as the most popular source of news for millennials.

Even though the environment is changing, content is still in high-demand regardless of how it is consumed. However, these statistics point to the importance of providing content through multiple, alternative channels as the importance of digital and social delivery methods continues to progress.

A key plank of NASCAR's strategy is to continue developing rich content and ensuring its delivery through all of the potential ways that people consume media, whether through traditional television viewership, dynamic web/mobile content, and/or through social-media channels. In addition, NASCAR continuously measures content consumption with balanced metrics that track all the distribution channels to measure the effectiveness of television, digital channels, and social media interest and demand. On the digital front, NASCAR is continually enhancing

NASCAR.com and NASCAR Mobile applications to strengthen the Industry's digital presence and drive fan engagement. And NASCAR continues to gain critical Industry insights from the Fan and Media Engagement Center to better understand digital conversations and optimize engagement with the social community.

Table of Contents

Through the 2016 NASCAR season, NASCAR has experienced mostly positive results with its digital product offerings experiencing steady overall growth. Digital media held strong delivering approximately 55.0 million unique visitors to NASCAR.com, NASCAR Mobile web and NASCAR Mobile applications.

Two bright spots in the 2016 season are growth of fans using NASCAR related mobile applications, which is up approximately 8.0 percent year-over-year; and growth in the all-important male 18-34 year old demographic. In addition, as the NASCAR season concluded on NBC, consumption of NASCAR content on NBC Sports' digital properties (NBCSports.com, the NBC Sports app and connected devices) garnered 105 million live minutes and 873,000 unique devices this season, up +56% and +50%, respectively, compared to the 2015 NASCAR season. These reflect positive digital metric trends and demonstrate progress in NASCAR's key strategic focus areas. On the social media front NASCAR's platforms combined to generate over 4.0 billion social impressions and 256.0 million fan engagements in 2016. Overall, social media reach continues to increase this year with Facebook growing by almost 20.0 percent the prior year, and Twitter increased by more than 24.0 percent versus prior year. This tremendous growth in reach and engagement is a direct result of our Industry's strategic initiatives and a testament to the broader audience of NASCAR and what can be done with targeted activation. We expect these channels to continue to grow and believe the industry is well positioned to monetize these channels as our fans (mirroring society-at-large) consume more content.

Along with NASCAR, we closely monitor changes in the television and media landscape. As the media landscape continues to evolve we believe we are well positioned to navigate because of our long-term partnerships with industry leaders FOX and NBC, who own the rights to digital distribution of NASCAR content through our current broadcast agreement through 2024. Collectively we view the shifts in media consumption as positives for consumers and provides our sport the opportunity to develop and deliver compelling content in rich and diverse ways to interact with our fans. In addition, NASCAR continuously monitors the broadcast environment and seeks to maximize its return on content with our partners and for the industry stakeholders.

Sanctioning Bodies

Our success has been, and is expected to remain, dependent on maintaining good working relationships with the organizations that sanction events at our facilities, particularly with NASCAR, whose sanctioned events at our wholly owned facilities accounted for approximately 89.1 percent of our revenues in fiscal 2016. NASCAR continues to entertain and discuss proposals from track operators regarding potential realignment of their portfolio of NASCAR Cup series dates to more geographically diverse and potentially more desirable markets where there may be greater demand, resulting in an opportunity for increased revenues to the track operators. We believe that realignments have provided, and will continue to provide, incremental net positive revenue and earnings as well as further enhance the sport's exposure in highly desirable markets, which we believe benefits the sport's fans, teams, sponsors and television broadcast partners as well as promoters.

In October 2015, we entered into five year sanction agreements with NEM, an affiliate of NASCAR, for the promotion of the Company's inventory of NASCAR Cup, Xfinity and Camping World Truck Series events. In fiscal 2016, we conducted 21 NASCAR Cup Series events, 14 NASCAR Xfinity Series events, and 9 NASCAR Camping World Truck Series events. Each Sanction Agreement is for a term of five years. Other than the term, the Sanction Agreements are substantially similar to those entered into in previous years. The Sanction Agreements contain annual increases of between 3.0 percent and 4.0 percent in media rights fees for each sanctioned event conducted, and provide a specific percentage of media rights fees to be paid to competitors. The Sanction Agreements also provide for annual increases in sanction fees and non-media rights related prize and point fund monies (to be paid to competitors) of approximately 4.0 percent annually over the term of the Sanction Agreements. NASCAR and NEM are controlled by members of the France Family Group which controls approximately 73.4 percent of the combined voting power of the outstanding stock of the Company, as of November 30, 2016, and some members of which serve as directors and officers of International Speedway Corporation. The Company strives to ensure, and management believes that, the terms of the Sanction Agreements transactions are reasonable. Collectively, the media rights fees, sanction fees and non-media prize and point fund fees that we pay are referred to as NASCAR Event Management fees.

Merchandise Operations

In 2015, NASCAR and NASCAR Team Properties announced a 10-year agreement with Fanatics, to operate NASCAR's entire at-track merchandise business and deliver fans an enhanced, experiential at-track shopping environment. As part of the agreement, Fanatics became the exclusive retailer of NASCAR and driver merchandise at trackside for all 38 NASCAR Cup Series events. In addition, we also contracted with Fanatics for 10 years of exclusive retail merchandise rights for our track trademarks and certain other intellectual property at all of our tracks. The new trackside retail model operated by Fanatics has evolved from using solely haulers for each specific team or driver to displaying all merchandise in a superstore retail environment supported by, in instances, smaller satellite retail touch points around the track. The new model provides a more personal and convenient shopping experience for race fans. We believe this improved trackside merchandise model, combined with select brand name merchandise and an upgraded on-line and mobile experience, better positions us and the industry to maximize merchandise sales while delivering top quality experience to our fans. Consequently, our wholly owned subsidiaries,

Table of Contents

Americrown and MA, no longer provide at track merchandise to fans at motorsports events and therefore no longer recognize related revenues and expenses. Instead, we receive a percentage of sales from Fanatics, recorded as part of Food, Beverage and Merchandise Revenue.

For fiscal 2015, we recognized the following non-recurring transactions associated with the transition: sales of merchandise inventory to Fanatics and wholesale transactions by MA totaling approximately \$10.4 million recognized in food, beverage and merchandise revenue and associated expenses totaling approximately \$11.0 million recognized in food, beverage and merchandise expense;

general and administrative expenses associated with the transition totaling approximately \$1.3 million.

There were no comparable transactions in fiscal 2016.

Comparable merchandise sales per capita utilizing the new superstore shopping model are, on average, approximately 6.0 percent greater than sales per capita using the 'hauler' model employed historically. We expect the new merchandising model will continue to enhance the event experience for our fans and grow the operating margin contribution from the merchandise line of business.

Capital Improvements

Enhancing the live event experience for our guests is a key strategic pillar to drive future growth. We compete for the consumers' discretionary dollar with other entertainment options such as concerts and other major sporting events not just motorsports events. In addition, fans continue to demonstrate willingness to pay for more unique, immersive, and segmented experiences that cannot be duplicated at-home. Today's consumer wants improved traffic flow, comfortable and wider seating, clean and available restroom facilities, more points of sale, enhanced audio and visual engagement, social zones and greater connectivity. Providing these enhancements often requires capital reinvestment. We are confident that our focus on driving incremental earnings by improving the fan experience leads to increased ticket sales and better ticket pricing power, growth in sponsorship and hospitality sales, solidifying prospects for longer-term growth in broadcast media rights fees agreements, and greater potential to capture market share. We continue to be confident that by continuing to smartly reinvest to create memorable guest experiences, provide attractive pricing and fantastic racing, we will generate increased revenues and bottom-line results. This has most recently been evident in the success of our redevelopment of the frontstretch at Daytona International Speedway (see "Liquidity and Capital Resources - DAYTONA Rising").

While we focus on allocating our capital to generate returns in excess of our cost of capital, certain of our capital improvement investments may not provide immediate, directly traceable near term positive returns on invested capital but over the longer term will better enable us to effectively compete with other entertainment venues for consumer and corporate spending. See Capital Allocation in Liquidity and Capital Resources section of Management's Discussion and Analysis for a complete discussion of how capital improvements at existing facilities integrates into our overall capital allocation.

Growth Strategies

Our growth strategies also continuously explores ways to grow our businesses through acquisitions and external developments that offer attractive financial returns and leverage our core competencies. A prime example is our joint venture to develop and operate a Hollywood-themed and branded entertainment destination facility overlooking turn two of Kansas Speedway (see "Hollywood Casino at Kansas Speedway").

The Hollywood Casino at Kansas Speedway provides positive cash flow to us and positive equity income in our consolidated statement of operations for fiscal 2014, 2015 and 2016. We expect for our 2017 fiscal year that our share of the cash flow from the casino's operations will be approximately \$26.0 million to \$27.0 million dollars.

Since June 2013, we have pursued development of ONE DAYTONA, a premier mixed use and entertainment destination across from the Daytona International Speedway. We have commenced site work on the property, completed construction of the Cobb Theater, and began vertical construction on other phases of the development. We are targeting phase one completion in late 2017 (see "Liquidity and Capital Resources - ONE DAYTONA").

We remain interested in pursuing further ancillary developments at certain of our other motorsports facilities which enhance our core business, are market-driven, and provide a prudent return on investment.

Net income	10.3	%	8.8	%	11.6	%

Comparison of Fiscal 2016 to Fiscal 2015

The comparison of fiscal 2016 to fiscal 2015 is impacted by the following factors:

Year-over-year increases in operating revenues and expenses are significantly driven by the completion of the DAYTONA Rising project prior to the first quarter of fiscal 2016 events at Daytona International Speedway ("Daytona");

In the second and third quarters of fiscal 2016 we hosted the Country 500 music festival at Daytona and HARD summer music festival at Auto Club Speedway, respectively. Comparatively, in the third quarter of fiscal 2015, we hosted the Phish Magnaball music festival at Watkins Glen. For these aforementioned music festivals we earned a facility rental and certain other fees, and recognized revenues and expenses from the sale of concession operations; For fiscal 2015, we recognized non-recurring revenue and expense related to the transition of merchandise operations of approximately \$10.4 million and \$12.3 million, respectively. Included in this amount is approximately \$6.4 million for inventory sold to Fanatics and \$4.0 million of wholesale transactions by MA. These revenues drove a total of approximately \$12.3 million in expense including product costs associated with the non-recurring transactions, non-recurring costs related to the transition of trackside merchandise operations to Fanatics, as well as partial period operating expenses incurred prior to the transition of Americrown and MA merchandise operations, for which there was no related revenue(see "Future Trends in Operating Results, Merchandise Operations"). There were no comparable transactions in fiscal 2016;

In fiscal 2016, we recognized approximately \$0.8 million, or \$0.01 per diluted share, in non-recurring, pre-opening costs that are included in general and administrative expense related to DAYTONA Rising. During fiscal 2015, we recognized approximately \$1.4 million, or \$0.02 per diluted share, of similar costs;

- During fiscal 2015, we recognized approximately \$6.8 million, or \$0.09 per diluted share, of accelerated depreciation that was recorded due to the shortening the service lives of certain assets associated with

DAYTONA Rising and capacity management initiatives. There were no comparable costs during fiscal 2016;

Table of Contents

In fiscal 2016, we recognized approximately \$2.9 million, or \$0.04 per diluted share, of losses associated with asset retirements and demolition and/or asset relocation costs in connection with capacity management initiatives and other facility capital improvements. Included in these losses were approximately \$0.5 million of expenditures related to demolition and/or asset relocation costs, the remaining charges were non-cash charges. During fiscal 2015, we recognized approximately \$16.0 million, or \$0.21 per diluted share, of similar charges, in connection with DAYTONA Rising and capacity management initiatives. Included in these losses were approximately \$12.5 million of expenditures related to demolition and/or asset relocation costs, the remaining charges were non-cash charges; During fiscal 2016, we capitalized approximately \$1.5 million, or \$0.02 per diluted share, of interest related to ONE DAYTONA, DAYTONA Rising and the redevelopment at Phoenix. During fiscal 2015, we recognized approximately \$6.0 million, or \$0.08 per diluted share, of similar interest capitalization related to DAYTONA Rising; During fiscal 2016, we completed an assignment of all rights, title and interest in the mortgage and underlying promissory note of our Staten Island property. As a result, we recorded a gain of approximately \$13.6 million, or 0.18 per diluted share, comprised of deferred gain, interest, and other consideration paid. The deferred gain of \$1.9 million is included in Other operating revenue in our consolidated statement of operations, and the interest, and additional consideration, received is included in Other in our consolidated statement of operations (see "Equity and Other Investments"). There was no comparable transaction in the prior year; During fiscal 2016, we recognized a non-cash gain related to the transition of merchandise operations of approximately \$0.8 million, or \$0.01 per diluted share. There was no comparable transaction in the prior year; and During fiscal 2016, we received a favorable settlement relating to certain ancillary operations of approximately \$1.1 million or \$0.02 per diluted share. There was no comparable activity in the prior year.

Fiscal 2016 admissions revenue decreased approximately \$6.6 million, or 5.1 percent compared to fiscal 2015. The decrease is predominately due to decreased attendance and/or admissions at NASCAR events held at certain of our locations. In addition, the NASCAR Cup event held at Richmond International Raceway ("Richmond") was moved from its traditional Saturday evening schedule to a Sunday afternoon time slot, and the threat of inclement weather during the NASCAR events held at Talladega Superspeedway ("Talladega") also contributed to the decrease. Partially offsetting these decreases were increased attendance and/or admissions related to DAYTONA Rising for events held during Daytona Speedweeks, including the Daytona 500, Bikeweek events, the Coke Zero 400 and the Rolex 24, as well as NASCAR and IMSA weekends at Watkins Glen.

Motorsports and other event related revenue increased approximately \$25.4 million, or 5.6 percent, in fiscal 2016 as compared to fiscal 2015. The increase is largely attributable to increases in sponsorship and hospitality revenues of approximately \$12.7 million, primarily related to DAYTONA Rising and the events held during Daytona Speedweeks. Also contributing to the increase were increases in television broadcast revenue of approximately \$8.5 million, ancillary rights of approximately \$2.2 million and other track related revenues totaling approximately \$1.6 million, as well increased revenues from the aforementioned music festivals totaling approximately \$1.0 million, as compared to the prior year.

Food, beverage and merchandise revenue decreased approximately \$5.3 million, or 11.2 percent, in fiscal 2016 as compared to fiscal 2015. When excluding the aforementioned transition of merchandise operations of approximately \$11.1 million, food, beverage and merchandise revenue increased approximately \$5.8 million as compared to the prior year. This increase is attributed to increased non-motorsports related catering and concessions revenue related to the aforementioned HARD and Country 500 music festivals of approximately \$3.6 million, approximately \$1.5 million related to disaster relief efforts in the Daytona Beach area related to Hurricane Matthew, and increased motorsports related catering and concessions of approximately \$2.5 million. Slightly offsetting the increase was approximately \$1.8 million related to the aforementioned Phish Magnaball music festival held in fiscal 2015, for which the event was not held in fiscal 2016.

NASCAR event management fees increased by approximately \$4.0 million, or 2.4 percent, in fiscal 2016 as compared to fiscal 2015. The increase includes approximately \$5.6 million attributable to contracted NEM fees, of which approximately \$2.7 million is attributable to the increase in television broadcast rights fees, as NASCAR sanction agreements require a specific percentage of television broadcast rights fees to be paid to competitors for the NASCAR

Sprint Cup, Xfinity and Camping World Truck series. This increase is offset by the aforementioned Chicagoland Xfinity series held in 2015 for which there is no comparable events in 2016.

Motorsports and other event related expense increased by approximately \$2.2 million, or 1.7 percent, in fiscal 2016 as compared to fiscal 2015. The increase is attributable to increased purchased services and personnel related expenses for other events of approximately \$2.6 million, higher operating costs of approximately \$1.5 million, associated with the opening of the world's first motorsports stadium at Daytona, and approximately \$1.9 million of expenses related to the aforementioned IndyCar event held at Phoenix in fiscal 2016, which was not held in fiscal 2015. Partially offsetting the increase were

Table of Contents

reductions in expenses of approximately \$4.0 million, related to certain fiscal 2015 events held at Chicagoland and Auto Club Speedway which were not held in fiscal 2016. Motorsports and other event related expenses as a percentage of combined admissions and motorsports and other event related revenue remained consistent at approximately 22.2 percent for fiscal 2016, as compared to 22.5 percent for the same period in the prior year. Food, beverage and merchandise expense decreased approximately \$8.3 million, or 21.7 percent, in fiscal 2016 as compared to fiscal 2015. When excluding the aforementioned fiscal 2015 costs for transition of merchandise operations of approximately \$10.5 million, food, beverage and merchandise expense increased by approximately \$2.2 million, as compared to the prior year. The increase was primarily attributed to increased concession related expenses of approximately \$3.2 million, attributed to the aforementioned HARD summer music festival at Auto Club Speedway and the Country 500 music festival at Daytona, for which these events were not held in fiscal 2015, and increased motorsports related concessions and catering expenses of approximately \$0.8 million. Slightly offsetting the increase was approximately \$1.6 million of concession expenses related to the aforementioned Phish Magnaball music festival at Watkins Glen for which this event was not held in fiscal 2016. Food, beverage and merchandise expense as a percentage of food, beverage and merchandise revenue decreased to approximately 71.8 percent for fiscal 2016, as compared to 81.4 percent for the same period in the prior year. The margin improvement is primarily a result of the aforementioned transition in merchandising operations in fiscal 2015, as well as lower cost of sales related to concessions and catering as compared to the same period in the prior year, driven by improvements in menu engineering and production strategy coupled with a modest per cap increase.

General and administrative expense decreased approximately \$0.8 million, or 0.7 percent, in fiscal 2016 as compared to fiscal 2015, predominately due to a reduction of approximately \$2.2 million in certain administrative costs, a decrease in certain land lease payments of approximately \$1.1 million and approximately \$0.5 million of costs related to building maintenance that occurred in fiscal 2015, for which there were no comparable costs in fiscal 2016.

Partially offsetting the decrease were approximately \$1.4 million of costs associated with the opening of the world's first motorsports stadium at Daytona, approximately \$0.4 million of property taxes, approximately \$0.7 million of lower reimbursed expenses related to the aforementioned transition in merchandising operations, and approximately \$0.5 million in purchased services, as compared to prior year. General and administrative expenses as a percentage of total revenues decreased slightly to approximately 16.8 percent for fiscal 2016, as compared to 17.3 percent for fiscal 2015. The slight margin increase is predominately due to higher total revenues in fiscal 2016.

Depreciation and amortization expense increased approximately \$7.4 million, or 7.8 percent, in fiscal 2016, as compared to fiscal 2015. Depreciation increased approximately \$9.5 million due to new assets placed in service associated with DAYTONA Rising in fiscal 2016. Partially offsetting the increase is approximately \$1.1 million attributable to the shortening of service lives of certain assets associated with the repaving of Watkins Glen, in fiscal 2015, for which there was no comparable event in the same periods of fiscal 2016 and approximately \$1.0 million related to assets that have been fully depreciated, or removed from service.

Losses on retirements of long-lived assets decreased approximately \$13.1 million, or 81.9 percent, in fiscal 2016, as compared to fiscal 2015. The decrease is primarily due to approximately \$12.1 million of fiscal 2015 demolition costs in connection with DAYTONA Rising, for which there were no comparable cost in fiscal 2016.

Interest income, during fiscal 2016, of approximately \$0.3 million, was comparable to the prior year.

Interest expense increased approximately \$4.3 million, or 44.4 percent, in fiscal 2016, as compared to fiscal 2015. The increase was predominately due to lower capitalized interest associated with DAYTONA Rising. Partially offsetting the increase was capitalized interest of approximately \$1.2 million related to ONE DAYTONA.

Equity in net income from equity investments in fiscal 2016 and 2015, respectively, substantially represents our 50.0 percent equity investments in Hollywood Casino at Kansas Speedway (see "Equity and Other Investments").

Our effective income tax rate increased from approximately 37.7 percent to approximately 38.5 percent during fiscal 2016 compared to fiscal 2015 (see "Income Taxes").

As a result of the foregoing, net income increased approximately \$19.7 million, or \$0.45 per diluted share, for fiscal 2016 as compared to fiscal 2015.

Comparison of Fiscal 2015 to Fiscal 2014

The comparison of fiscal 2015 to fiscal 2014 is impacted by the following factors:

In the third quarter of fiscal 2015, we hosted the Phish Magnaball music festival at Watkins Glen, for which there was no comparable event in the prior year. Also in the third quarter of fiscal 2015, we hosted the third annual Faster Horses music festival at Michigan.

Table of Contents

During fiscal 2014, we received a favorable settlement relating to a legal judgment of litigation involving certain ancillary operations of approximately \$0.6 million, or \$0.01 per diluted share. There was no comparable activity during fiscal 2015.

On January 31, 2014, SMI abandoned its interest and rights in our 50/50 partnership MA, consequently bringing our ownership of MA to 100.0 percent. MA's operations are included in our consolidated operations subsequent to the date of SMI's abandonment. Prior to January 31, 2014, MA was accounted for as an equity investment in our financial statements. As a result of SMI's abandonment of their interest in MA, we recorded other income of approximately \$5.4 million representing the fair value of MA, over the carrying value, as of January 31, 2014. In addition we recognized tax benefits relating to MA of approximately \$4.0 million for fiscal 2014 (see "Equity and Other Investments and "Income Taxes"). There was no comparable event in the same period of fiscal 2015;

For fiscal 2015, we recognized revenue and expense related to merchandise operations of approximately \$16.5 million and \$12.3 million, respectively. Included in this amount are \$5.1 million of commission from third party merchandise sales, predominately from Fanatics, non-recurring transactions of approximately \$10.4 million, which includes approximately \$6.4 million for inventory sold to Fanatics and \$4.0 million of wholesale transactions by MA. These revenues drove a total of approximately \$12.3 million in expense including product costs associated with the non-recurring transactions, non-recurring costs related to the transition of trackside merchandise operations to Fanatics, as well as partial period operating expenses incurred prior to the transition of Americrown and MA merchandise operations, for which there was no related revenue. This compares to fiscal 2014, where we recognized revenue and expense related to merchandise operations of approximately \$44.1 million and \$35.5 million, respectively, which included direct sales of trackside merchandise and excluded the partial period pre-consolidation operation of MA prior to SMI's abandonment of its MA interest (see "Future Trends in Operating Results, Merchandise Operations");

In fiscal 2015, we recognized approximately \$1.4 million, or \$0.02 per diluted share, in marketing and consulting costs that are included in general and administrative expense related to DAYTONA Rising. During fiscal 2014, we recognized approximately \$1.1 million, or \$0.02 per diluted share, of similar costs;

During fiscal 2015, we recognized approximately \$6.8 million, or \$0.09 per diluted share, of accelerated depreciation that was recorded due to the shortening the service lives of certain assets associated with DAYTONA Rising and other projects. During fiscal 2014, we recognized approximately \$11.1 million, or \$0.14 per diluted share, of accelerated depreciation that was recorded due to the shortening the service lives of certain assets associated with DAYTONA Rising and capacity management initiatives;

In fiscal 2015, we recognized approximately \$16.0 million, or \$0.21 per diluted share, of losses associated with asset retirements of losses primarily attributable to demolition and/or asset relocation costs in connection with DAYTONA Rising, capacity management initiatives and other capital improvements. Included in these losses were approximately \$12.5 million of expenditures related to demolition and/or asset relocation costs, the remaining charges were non-cash charges. During fiscal 2014, we recognized approximately \$10.1 million, or \$0.12 per diluted share, of similar charges, of which approximately \$7.5 million of expenditures related to demolition and/or asset relocation costs, the remaining charges were non-cash, which included an impairment of a long-lived intangible asset related to MA, discussed above; and

During fiscal 2015, we capitalized approximately \$6.0 million, or \$0.08 per diluted share, of interest related to DAYTONA Rising. During fiscal 2014, we recognized approximately \$7.2 million, or \$0.09 per diluted share, of similar interest capitalization.

Fiscal 2015 admissions revenue of \$130.2 million was comparable to fiscal 2014. Factors driving attendance increases and higher average ticket prices include:

- Increases in attendance and admissions at the DAYTONA 500, Talladega, Martinsville, Auto Club Speedway, Darlington, Phoenix, Watkins Glen and Homestead;

- Increased attendance and admissions for NASCAR's Cup Chase for the Championship events at Chicagoland and Talladega as well as sold out events for the Fall Phoenix and Homestead Cup races; and

- Certain non-NASCAR events new to the Company's event schedule in 2015.

Several factors contributed to attendance decreases which offset the noted increases, including:

The reduced number of seats available at Daytona for the July NASCAR Cup and Xfinity series events as a result of the construction cycle related to DAYTONA Rising (see Liquidity and Capital Resources - DAYTONA Rising: Reimagining an American Icon);

- Inclement weather and the threat of inclement weather during Speedweeks events preceding the DAYTONA 500;
- Inclement weather impacting major events at Michigan, Richmond and Kansas; and

Table of Contents

Other decreases in certain markets.

Motorsports and other event related revenue increased approximately \$18.1 million, or 4.2 percent, in fiscal 2015 as compared to fiscal 2014. The increase is largely attributable to increases in television broadcast revenue of approximately \$11.6 million. Also contributing to the increase were advertising, hospitality and sponsorship revenues of approximately \$4.2 million, other ancillary motorsports revenue totaling approximately \$1.5 million, as well as the aforementioned music festivals totaling approximately \$0.8 million.

Food, beverage and merchandise revenue decreased approximately \$25.6 million, or 35.1 percent, in fiscal 2015 as compared to fiscal 2014. The decrease is primarily due to the aforementioned transition of merchandise operations of approximately \$27.5 million. Slightly offsetting the decrease were concession sales of approximately \$1.8 million related to the aforementioned Phish Magnaball music festival held in the third quarter of fiscal 2015, for which there was no comparable event in fiscal 2014.

NASCAR event management fees increased by approximately \$4.9 million, or 3.0 percent, in fiscal 2015 as compared to fiscal 2014. The increase includes approximately \$3.0 million attributable to increases in television broadcast rights fees, for the NASCAR Cup, Xfinity and Camping World Truck series events held during the period as standard NASCAR sanctioning agreements require a specific percentage of television broadcast rights fees to be paid to competitors. The remaining increase is attributable to higher contracted NEM fees.

Motorsports and other event related expense increased by approximately \$2.9 million, or 2.2 percent, in fiscal 2015 as compared to fiscal 2014. The increase is primarily due to personnel related expenses, incremental costs for certain events largely driven by inclement weather, as well as other purchased services. Motorsports and other event related expenses as a percentage of combined admissions and motorsports and other event related revenue remained consistent at approximately 22.5 percent for fiscal 2015, as compared to 22.8 percent for the same period in the prior year.

Food, beverage and merchandise expense decreased approximately \$19.8 million, or 34.0 percent, in fiscal 2015 as compared to fiscal 2014. The decrease is predominately attributable to the aforementioned transition of merchandise operations of approximately \$22.0 million. Slightly offsetting the decrease were concession related expenses of approximately \$1.6 million attributed to the aforementioned Phish Magnaball music festival held in the third quarter of fiscal 2015, for which there was no comparable event in fiscal 2014. In addition, motorsports related concessions and catering yielded an increase of approximately \$0.6 million. Food, beverage and merchandise expense as a percentage of food, beverage and merchandise revenue increased to approximately 81.4 percent for fiscal 2015, as compared to 79.9 percent for the same period in the prior year. The decrease in margin is primarily a result of the aforementioned transition in merchandising operations, however, excluding this activity, food, beverage and merchandise expense as a percentage of food, beverage and merchandise sales decreased compared to the same period in 2014 due to increased catering revenues driven by an approximate 3.0 percent increase in prices, slightly offset by increased spoilage due to inclement weather affecting certain events.

General and administrative expense increased approximately \$3.1 million, or 2.8 percent, in fiscal 2015 as compared to fiscal 2014, due to approximately \$3.6 million of certain administrative costs and ancillary facility operations, as well as a net decrease to our general liability insurance reserve in the prior year period of approximately \$1.1 million, for which there is no comparable reduction in the current period. Slightly offsetting the increase was approximately \$0.9 million of costs related to real and tangible property taxes and \$0.7 million of non-recurring costs related to the aforementioned transition in merchandising operations. General and administrative expenses as a percentage of total revenues decreased slightly to approximately 17.3 percent for fiscal 2015, as compared to 16.7 percent for fiscal 2014. The margin decrease for the period is primarily due one-time, non-recurring administrative costs related to DAYTONA Rising and to adjustments in our general liability insurance reserves in the 2014 period.

Depreciation and amortization expense increased approximately \$4.4 million, or 4.8 percent, in fiscal 2015 as compared to fiscal 2014. Approximately \$11.9 million of the increase relates to new assets placed in service associated with DAYTONA Rising, and approximately \$5.5 million is attributable to the continued shortening of the service lives of certain assets that will eventually be retired associated with DAYTONA Rising. Also contributing to the increase is approximately \$1.3 million is attributable to the shortening of service lives of certain assets associated with the repaving of Watkins Glen. Offsetting these increases are approximately \$14.3 million related to assets that

have been fully depreciated, or removed from service.

Losses on retirements of long-lived assets of approximately \$16.0 million during fiscal 2015 is primarily due to demolition costs in connection with DAYTONA Rising and other capital improvements.

Interest income during fiscal 2015 decreased approximately \$2.0 million as compared to fiscal 2014. The decrease is predominately due to a settlement reached in fiscal 2014 related to prior years interest associated with a long-term receivable. There was no comparable event in fiscal 2015.

Table of Contents

Interest expense increased approximately \$0.4 million, or 4.4 percent, in fiscal 2015, as compared to fiscal 2014. The increase was predominately due to slightly lower capitalized interest associated with DAYTONA Rising.

Equity in net income from equity investments in fiscal 2015 and 2014, respectively, represents our 50.0 percent equity investments in Hollywood Casino at Kansas Speedway (see "Equity and Other Investments").

Our effective income tax rate increased from approximately 33.0 percent to approximately 37.7 percent during fiscal 2015 compared to fiscal 2014 (see "Income Taxes").

As a result of the foregoing, net income decreased approximately \$10.7 million, or \$0.24 per diluted share, for fiscal 2015 as compared to fiscal 2014.

Liquidity and Capital Resources

General

We have historically generated sufficient cash flow from operations to fund our working capital needs, capital expenditures at existing facilities, and return of capital through payments of an annual cash dividend and repurchase of our shares under our Stock Purchase Plan. In addition, we have used the proceeds from offerings of our Class A Common Stock, the net proceeds from the issuance of long-term debt, borrowings under our credit facilities and state and local mechanisms to fund acquisitions and development projects. The following table sets forth certain selected financial information as of November 30, (in thousands):

	2014	2015	2016
Cash and cash equivalents	\$ 158,847	\$ 160,548	\$ 263,727
Working capital	110,783	146,915	217,802
Total debt	271,746	265,836	262,820

At November 30, 2016, our working capital was primarily supported by our cash and cash equivalents totaling approximately \$263.7 million. The increase in working capital at November 30, 2016, as compared to the prior period, is predominantly attributable to the refund received, of approximately \$50.8 million, in February 2016 of all of the Federal income tax estimated payments made in fiscal year 2015. This was a result of the Protecting Americans from Tax Hikes Act, passed by Congress in December 2015, which renewed previously expired tax legislation that included a retroactive renewal back to January 1, 2015 (see "Capital Allocation"). Also contributing to the increase in working capital were the cash proceeds from the sale of the Staten Island property (see "Equity and Other Investments - Staten Island Property").

Significant cash flow items during fiscal the fiscal years ended November 30 are as follows (in thousands):

	2014	2015	2016
Net cash provided by operating activities ⁽¹⁾	\$ 162,847	\$ 151,987	\$ 245,888
Capital expenditures ⁽²⁾	(183,936)	(155,016)	(140,793)
Distribution from equity investee and affiliate ⁽³⁾	22,000	32,050	25,900
Proceeds from sale of Staten Island property ⁽⁴⁾	11,187	4,648	67,890
Equity investments and advances to affiliate ⁽⁵⁾	(1,322)	—	(130)
Net proceeds (payments) related to long-term debt	(2,807)	(3,437)	(3,408)
Dividends paid and reacquisitions of previously issued common stock	(11,504)	(13,111)	(74,571)

(1) Variances in net cash provided by operating activities were predominately due to the amount and timing of cash payments for income taxes (see "Income Taxes"). The increase in net cash provided by operating activities, during the period ended November 30, 2016, as compared to the same period in the prior year, is driven primarily by the aforementioned Federal income tax refund received in February 2016

(2) Activity in capital expenditures is predominately due to DAYTONA Rising (see "Capital Expenditures") and ONE DAYTONA (see "ONE DAYTONA")

(3) Distributions from equity investee and affiliates, consist of amounts received as distribution from their profits and returns of capital as detailed in our statement of cash flows

(4) Proceeds from sale of Staten Island property consist of interest and principle amounts received as detailed in our statement of cash flows

Table of Contents

(5) Amounts relate to Hollywood Casino at Kansas Speedway (see “Equity and Other Investments”) and ONE DAYTONA (see “ONE DAYTONA”), respectively

(6) Amounts relate to dividends paid and reacquisition of previously issued common stock (see “Item 2. Unregistered Sales of Equity Securities and Use of Proceeds”)

Our liquidity is primarily generated from our ongoing motorsports operations, and we expect our strong operating cash flow to continue in the future. In addition, as of November 30, 2016, we have approximately \$294.0 million available to draw upon under our 2016 Credit Facility, if needed. See “Future Liquidity” for additional disclosures relating to our credit facility and certain risks that may affect our near term operating results and liquidity.

Allocation of capital is driven by our long-term strategic planning and initiatives that encompass our mission, vision and values. Our primary uses of capital are to maintain modest debt levels that are consistent with our current investment grade debt rating from Standard and Poor’s. We will invest in our facilities to improve the guest experience and we will make investments in strategic projects that complement our core business and provide value for our shareholders, all of which is balanced with returning capital to our shareholders through share repurchases and dividends.

Capital Allocation

We have established a long-term capital allocation plan to ensure we generate sufficient cash flow from operations to fund our working capital needs, capital expenditures at existing facilities, and return of capital through payments of an annual cash dividend and repurchase of our shares under our Stock Purchase Plan. In addition, we have used the proceeds from offerings of our Class A Common Stock, the net proceeds from the issuance of long-term debt, borrowings under our credit facilities and state and local mechanisms to fund acquisitions and development projects. Since 2013, we have operated under a capital expenditure plan totaling \$600.0 million for reinvestment in existing facilities, which included capital expenditures related to DAYTONA Rising (see “DAYTONA Rising - Reimagining an American Icon”). This plan was adopted by the Board of Directors in 2013 and established a multi-year capital facility reinvestment plan through 2017. At November 30, 2016, there was approximately \$58.7 million remaining for capital expenditures in approved and/or planned projects under this plan.

In 2016, our working capital position was further strengthened by the following events:

Federal tax legislation passed in December 2015 providing for extension of 7-year depreciation for tax purposes on certain motorsports facility assets placed in service during fiscal 2015 through 2016, and bonus depreciation on capital expenditures placed in service fiscal 2015 through 2019. While the tax legislation does not impact our overall tax liability, it does impact the timing of the annual payment of cash taxes. Cash taxes paid for federal and state taxes in fiscal 2015 was approximately \$45.0 million. As a result of this legislation, which was passed subsequent to our fiscal 2015 year-end, but retroactive for all assets placed in service during 2015, we received a tax refund of approximately \$50.8 million in fiscal 2016 related to overpayment of estimated taxes in prior years, primarily attributable to depreciation for assets placed in service related to DAYTONA Rising. Cash tax payments for fiscal 2016 were approximately \$24.4 million. Cash tax payments for fiscal 2017 are currently estimated to be between \$50.0 million to \$55.0 million; and

In March 2016, we completed an assignment of all rights, title and interest in the mortgage and underlying promissory note to an affiliate of Matrix Development Group, a New York/New Jersey area developer, and received the remaining principal balance of \$66.4 million, plus additional consideration of approximately \$0.3 million. We have no further commitments or contingencies related to the property or its sale. As a result, in the second quarter of fiscal 2016, we recorded a gain of approximately \$13.6 million. The deferred gain of \$1.9 million is included in Other operating revenue in our consolidated statement of operations, and the interest and additional consideration received is included in Other below Operating Income in our consolidated statement of operations.

Following the successful completion of DAYTONA Rising (delivering the project on time, on budget and achieving incremental \$15.0 million EBITDA), along with the aforementioned events strengthening working capital, the Board of Directors transitioned the remaining commitments under the 2013 \$600.0 million plan as of November 30, 2016 and adopted the following capital allocation plan covering fiscal years 2017 through 2021:

Capital expenditures for existing facilities up to \$500.0 million from fiscal 2017 through fiscal 2021, which includes approximately \$58.7 million for 2017 carried over from the 2013 \$600 million plan. This allocation will fund a

reinvestment at Phoenix, the first phase of redevelopment at Richmond, as well as all other maintenance and guest experience capital expenditures for the remaining existing facilities. In 2017 we will begin the redevelopment of Phoenix (see “Phoenix Redevelopment”) with completion targeted in late 2018, therefore, we expect spending to be somewhat front-loaded. While many components of these expected projects will exceed weighted average cost of

Table of Contents

capital, considerable maintenance capital expenditures, approximately \$40.0 million to \$60.0 million annually, will likely result in a blended return of this invested capital in the mid to low single digits;

In addition to the aforementioned \$500.0 million in capital expenditures for existing facilities, we expect we will have an additional \$95.0 million of capital expenditures in fiscal 2016 through 2018 related to phase one of ONE

DAYTONA. We expect this investment to exceed our weighted average cost of capital (see "ONE DAYTONA");

Return of capital to shareholders is a significant pillar of our capital allocation. In fiscal 2016 we increased our dividend approximately 58.0 percent to \$0.41 per share. We expect dividends to increase in 2017, and beyond, by approximately four to five percent annually. For the year ended November 30, 2016, we repurchased 1.7 million shares of ISCA on the open market at a weighted average share price of \$33.25 for a total of approximately \$55.1 million. In November 2016, our Board of Directors expanded the Stock Purchase Plan by an incremental \$200.0 million bringing its total current authorization to \$530.0 million. For 2017 through 2021 we expect our return of capital program will be approximately \$280.0 million, comprised of close to \$100.0 million in total annual dividends and the balance being open market repurchase of ISCA shares over the five year period. At this time we expect this spending to be evenly allocated per year, although we will scale the repurchase program to buy opportunistically; and

We will continue to explore development and/or acquisition opportunities beyond the initiatives discussed above that build shareholder value and exceed our weighted average cost of capital. Should additional development and/or acquisitions be pursued, we will provide discrete information on timing, scope, cost and expected returns of such opportunities.

The aforementioned represents certain components of our capital allocation plan for fiscal 2017 and beyond. This capital allocation plan is reviewed annually, or more frequently, and can be revised, if necessary, based on changes in business conditions.

Capital Expenditures

As discussed in "Future Trends in Operating Results," an important strategy for our future growth will come from investing in our major motorsports facilities to enhance the live event experience and better enable us to effectively compete with other entertainment venues for consumer and corporate spending.

Capital expenditures for fiscal 2016 total approximately \$140.8 million, inclusive of capitalized interest and labor. In comparison, the Company spent approximately \$155.0 million on capital expenditures for projects at its existing facilities in fiscal 2015, including DAYTONA Rising. For fiscal 2017, we expect capital expenditures associated with the \$500.0 million capital expenditure plan to range between \$100.0 million and \$115.0 million, which includes commencement of construction for the Phoenix Redevelopment project. Incremental to this is approximately \$50.0 million to \$60.0 million in capital expenditures related to construction for ONE DAYTONA.

We review the capital expenditure program periodically and modify it as required to meet current business needs.

Future Liquidity

General

As discussed in "Future Trends in Operating Results," we compete for discretionary spending and leisure time with many other entertainment alternatives and are subject to factors that generally affect the recreation, leisure and sports industry, including general economic conditions. Our operations are also sensitive to factors that affect corporate budgets. Such factors include, but are not limited to, general economic conditions, employment levels, business conditions, interest and taxation rates, relative commodity prices, and changes in consumer tastes and spending habits. These factors may negatively impact year-over-year comparability for our revenue categories for the full year, with the exception of domestic broadcast media rights fees. While we are sustaining the significant cost reductions implemented subsequent to the unprecedented adverse economic conditions that began in 2008, we do not expect further significant cost reductions.

Our cash flow from operations consists primarily of ticket, hospitality, merchandise, catering and concession sales and contracted revenues arising from television broadcast rights and marketing partnerships. We believe that cash flows from operations, along with existing cash, cash equivalents and available borrowings under our credit facility, will be sufficient to fund:

- operations of our major motorsports facilities for the foreseeable future;

ONE DAYTONA (see "ONE DAYTONA");
the previously discussed capital allocation plans for our existing facilities;

Table of Contents

payments required in connection with the funding of the Unified Government's debt service requirements related to the TIF bonds;

payments related to our other existing debt service commitments;

contributions in connection with any future expansion of the Hollywood Casino at Kansas Speedway; and

our annual dividend payment and share repurchases under our Stock Purchase Plan.

We remain interested in pursuing acquisition and/or development opportunities that would increase shareholder value, of which the timing, size, success and associated potential capital commitments, are unknown at this time.

Accordingly, a material acceleration of our growth strategy could require us to obtain additional capital through debt and/or equity financings. Although there can be no assurance, we believe that adequate debt and equity financing will be available on satisfactory terms.

While we expect our strong cash flows to continue in the future, our financial results depend significantly on a number of factors. In addition to local, national, and global economic and financial market conditions, consumer and corporate spending could be adversely affected by security and other lifestyle conditions resulting in lower than expected future cash flows. See "Future Trends in Operating Results - Postponement and/or Cancellation of Major Motorsports Events" for further discussion of items that could have a singular or compounded material adverse effect on our financial success and future cash flow.

Long-Term Obligations and Commitments

Our \$65.0 million principal amount of senior unsecured notes ("4.63 percent Senior Notes") bear interest at 4.63 percent and are due January 2021, require semi-annual interest payments on January 18 and July 18 through their maturity.

The 4.63 percent Senior Notes may be redeemed in whole or in part, at our option, at any time or from time to time at redemption prices as defined in the indenture. Certain of our wholly owned domestic subsidiaries are guarantors of the 4.63 percent Senior Notes. Certain restrictive covenants of the 4.63 percent Senior Notes require that the Company's ratio of its Consolidated Funded Indebtedness to its Consolidated EBITDA ("leverage ratio") does not exceed 3.50 to 1.0, and its Consolidated EBITDA to Consolidated Interest Expense ("interest coverage ratio") is not less than 2.0 to 1.0. In addition the Company may not permit the aggregate of certain Priority Debt to exceed 15.0 percent of its Consolidated Net Worth. The 4.63 percent Senior Notes contain various other affirmative and negative restrictive covenants including, among others, limitations on liens, sales of assets, mergers and consolidations and certain transactions with affiliates. As of November 30, 2016, the Company was in compliance with its various restrictive covenants. At November 30, 2016, outstanding principal on the 4.63 percent Senior Notes was approximately \$65.0 million.

Our \$100.0 million principal amount of senior unsecured notes ("3.95 percent Senior Notes") bear interest at 3.95 percent and are due September 2024. The 3.95 percent Senior Notes require semi-annual interest payments on March 13 and September 13 through their maturity. The 3.95 percent Senior Notes may be redeemed in whole or in part, at our option, at any time or from time to time at redemption prices as defined in the indenture. Certain of our wholly owned domestic subsidiaries are guarantors of the 3.95 percent Senior Notes. Certain restrictive covenants of the 3.95 percent Senior Notes require that the Company's leverage ratio does not exceed 3.50 to 1.0, and its interest coverage ratio is not less than 2.0 to 1.0. In addition the Company may not permit the aggregate of certain Priority Debt to exceed 15.0 percent of its Consolidated Net Worth. The 3.95 percent Senior Notes contain various other affirmative and negative restrictive covenants including, among others, limitations on liens, sales of assets, mergers and consolidations and certain transactions with affiliates. As of November 30, 2016, the Company was in compliance with its various restrictive covenants. At November 30, 2016, outstanding principal on the 3.95 percent Senior Notes was approximately \$100.0 million.

The term loan ("6.25 percent Term Loan"), related to our International Motorsports Center, has a 25 year term due October 2034, an interest rate of 6.25 percent, and a current monthly payment of approximately \$323,000 principal and interest. At November 30, 2016, the outstanding principal on the 6.25 percent Term Loan was approximately \$47.9 million.

At November 30, 2016, outstanding TIF bonds totaled approximately \$52.1 million, net of the unamortized discount, which is comprised of a \$2.8 million principal amount, 6.15 percent term bond due December 1, 2017 and a \$49.7 million principal amount, 6.75 percent term bond due December 1, 2027. The TIF bonds are repaid by the Unified

Government with payments made in lieu of property taxes (“Funding Commitment”) by our wholly owned subsidiary, Kansas Speedway Corporation (“KSC”). Principal (mandatory redemption) payments per the Funding Commitment are payable by KSC on October 1 of each year. The semi-annual interest component of the Funding Commitment is payable on April 1 and October 1 of each year. KSC granted a mortgage and security interest in the Kansas project for its Funding Commitment obligation.

In October 2002, the Unified Government issued subordinate sales tax special obligation revenue bonds (“2002 STAR Bonds”) totaling approximately \$6.3 million to reimburse us for certain construction already completed on the second phase of the Kansas Speedway project and to fund certain additional construction. The 2002 STAR Bonds, which require annual debt service payments and are due December 1, 2022, will be retired with state and local taxes generated within the Kansas Speedway’s boundaries and are not our obligation. KSC has agreed to guarantee the payment of principal, any required

Table of Contents

premium and interest on the 2002 STAR Bonds. At November 30, 2016, the Unified Government had approximately \$0.9 million in 2002 STAR Bonds outstanding. Under a keepwell agreement, we have agreed to provide financial assistance to KSC, if necessary, to support its guarantee of the 2002 STAR Bonds.

On September 27, 2016, we amended and extended our existing \$300.0 million credit facility, maturing November 2017, and entered into a new \$300.0 million revolving credit facility ("2016 Credit Facility"). The 2016 Credit Facility contains a feature that allows us to increase the credit facility to a total of \$500.0 million, subject to certain conditions, provides for separate sub-limits of \$25.0 million for standby letters of credit and \$10.0 million for swing line loans. The 2016 Credit Facility is scheduled to mature five years from the date of inception, with two 1-year extension options. Interest accrues, at our option, at either LIBOR plus 100.0 — 162.5 basis points or a base rate loan at the highest of i) Wells Fargo Bank's prime lending rate, ii) the Federal Funds rate, as in effect from time to time, plus 0.5 percent, and iii) one month LIBOR plus 1.0 percent. The 2016 Credit Facility also contains a commitment fee ranging from 0.125 percent to 0.225 percent of unused amounts available for borrowing. The interest rate margin on the LIBOR borrowings and commitment fee are variable depending on the better of our debt rating as determined by specified rating agencies or its leverage ratio. Certain of our wholly owned domestic subsidiaries are guarantors on the 2016 Credit Facility. The 2016 Credit Facility requires that our leverage ratio does not exceed 3.50 to 1.0 (4.0 to 1.0 for the four quarters ending after any Permitted Acquisition), and our interest coverage ratio is not less than 2.5 to 1.0. The 2016 Credit Facility also contains various other affirmative and negative restrictive covenants including, among others, limitations on indebtedness, investments, sales of assets, certain transactions with affiliates, entering into certain restrictive agreements and making certain restricted payments as detailed in the agreement. As of November 30, 2016, we were in compliance with the various restrictive covenants contained in the credit facility agreement. At November 30, 2016, we had no outstanding borrowings under our credit facility.

At November 30, 2016 we had contractual cash obligations to repay debt and to make payments under operating agreements, leases and commercial commitments in the form of guarantees and unused lines of credit. Payments due under these long-term obligations are as follows as of November 30, 2016 (in thousands):

	Total	Obligations Due by Period			
		Less Than One Year	2-3 Years	4-5 Years	After 5 Years
Long-term debt	\$265,418	\$3,738	\$8,613	\$76,134	\$176,933
Interest	104,686	13,967	27,185	23,320	40,214
Motorsports entertainment facility operating agreement	16,968	1,055	2,110	2,110	11,693
Other operating leases	41,896	4,570	4,942	2,066	30,318
Total Contractual Cash Obligations	\$428,968	\$23,330	\$42,850	\$103,630	\$259,158

Commercial commitment expirations are as follows as of November 30, 2016 (in thousands):

	Total	Commitment Expiration by Period			
		Less Than One Year	2-3 Years	4-5 Years	After 5 Years
Guarantees	\$940	\$205	\$ 275	\$255	\$ 205
Unused credit facilities	300,000	2,000	—	298,000	—
Total Commercial Commitments	\$300,940	\$2,205	\$ 275	\$298,255	\$ 205

DAYTONA Rising: Reimagining an American Icon

DAYTONA Rising is the redevelopment of the frontstretch at Daytona, ISC's 57-year-old flagship motorsports facility, to enhance the event experience for our fans, marketing partners, broadcasters and the motorsports industry. In May 2016, Axalta joined Toyota, Florida Hospital, Chevrolet and Sunoco as Founding Partners at Daytona International Speedway's new motorsports stadium. With each partnership extending over 10 years, the Founding partners received sponsorship rights for a dedicated injector, as well as innovative fan engagement space, and interior and exterior branding space, that will enhance the overall guest experience.

By providing our fans with a better experience as well as an expansive platform for our marketing partners, including an elevated hospitality experience, we expected, upon completion of DAYTONA Rising, to provide an immediate incremental lift in Daytona's revenues of approximately \$20.0 million, and earnings before interest, taxes, depreciation

and amortization ("EBITDA") lift of approximately \$15.0 million. For the year ended November 30, 2016, we slightly exceeded these expectations. We also currently anticipate the project to be accretive to our net income per share within three years of

Table of Contents

completion. While these forward-looking amounts are management's projections and we believe they are reasonable, our actual results may vary from these estimates due to unanticipated changes in projected attendance, lower than expected ticket prices, and/or lower than forecasted corporate sponsorships. We do not know whether these expectations will ultimately continue as actual revenues and operating results may differ materially from these estimates.

Despite not anticipating the need for additional long-term debt to fund this project, accounting rules dictate that we capitalize a portion of the interest on existing outstanding debt during the construction period. Through November 30, 2016, we recorded approximately \$14.6 million of capitalized interest associated with the DAYTONA Rising project since inception.

Total spending incurred, exclusive of capitalized interest, relating to DAYTONA Rising was approximately \$65.9 million for fiscal 2016, and is approximately \$398.7 million since the inception of the project.

We have identified existing assets that were expected to be impacted by the redevelopment and that those assets required accelerated depreciation, certain removal costs and losses on asset retirements, over the approximate 31-month project time span. Total accelerated depreciation, certain removal costs and losses on retirements of assets recognized, since the inception of the project, was approximately \$45.4 million. There were no similar costs related to the DAYTONA Rising project in fiscal 2016.

In addition, our depreciation expense, related directly to DAYTONA Rising, increased incrementally by approximately \$11.9 million in fiscal 2015, and an additional \$16.4 million in fiscal 2016. The incremental increase in depreciation expense for fiscal 2015 is based on the opening of approximately 40.0 percent of the new stadium's seating capacity for Budweiser Speedweeks 2015 and an additional approximate 10.0 percent of the new stadium's seating capacity for the 2015 Coke Zero 400.

As a result, our total depreciation expense for fiscal 2016 is approximately \$102.2 million, and is estimated to be between approximately \$100.0 million to \$105.0 million in fiscal 2017.

ONE DAYTONA

Since June 2013, we have pursued development of ONE DAYTONA, a premier mixed use and entertainment destination across from the Daytona International Speedway.

We have crafted a strategy that will create synergy with the Speedway, enhance customer and partner experiences, monetize real estate on International Speedway Blvd and leverage our real estate on year-round basis.

We have approved land use entitlements for ONE DAYTONA to allow for up to 1.4 million square feet of retail/dining/entertainment, a 2,500 seat movie theater, 660 hotel rooms, 1,350 residential units, 567,000 square feet of additional office space and 500,000 square feet of commercial/industrial space.

A Community Development District ("CDD") has been established for the purpose of installing and maintaining public infrastructure at ONE DAYTONA. The CDD is a local, special purpose government framework authorized by Chapter 190 of the Florida Statutes for managing and financing infrastructure to support community development. The CDD has negotiated agreements with the City of Daytona Beach and Volusia County for a total of \$40.0 million in incentives to finance a portion of the estimated \$53.0 million in infrastructure required to move forward with the ONE DAYTONA project.

In March 2015, we announced Legacy Development, a leading national development group, as development consultant for ONE DAYTONA. Intensely focused on innovative destination retail and mixed-use projects, Legacy Development is working closely with ISC's development staff on the project. The Legacy Development team is a natural fit for the project, having served as the developer for Legends Outlets Kansas City, a mixed-use retail destination across from our Kansas Speedway.

We have completed the design for the first phase of ONE DAYTONA. This first phase will be comprised of three components: retail, dining and entertainment ("RD&E"); hotels; and residential.

The RD&E component of phase one will be owned and managed 100.0 percent by us. The expected total square footage for the RD&E first phase is approximately 300,000 square feet. We expect to spend approximately \$95.0 million in fiscal 2016 through 2017 on the RD&E component of ONE DAYTONA's first phase. Other sources of funds will include the public incentives discussed above and land to be contributed to the project. In September 2016, we announced VCC has been selected as general contractor to oversee construction of the RD&E component of phase

one including Victory Circle and the parking garage. VCC has an outstanding national reputation for quality and a proven track record leading and managing the development and construction of some of the country's most engaging mixed-use developments.

Table of Contents

Lease agreements have been executed with Bass Pro Shops®, America's most popular outdoor store, and Cobb Theatres, the highly respected Southeastern-based exhibitor, as anchor tenants of ONE DAYTONA. Other announced tenants include P.F. Chang's, Hy's Toggery, Kilwins Confections, Guitar Center, Tervis, IT'SUGAR, Jeremiah's Italian Ice, Venetian Nail Spa, Sunglass World, Oklahoma Joe's BBQ, Rock Bottom Restaurant & Brewery, MidiCi: The Neapolitan Pizza Company, Lindbergh, Designers Market, and GameTime. Leasing remains strong and we are exceeding our leasing goals for the project.

Shaner Hotels and Prime Hospitality Group ("PHG") have been selected as hotel partners. They have executed a franchise agreement with Marriott International for an exclusive 145-room full service Autograph Collection hotel at ONE DAYTONA that will be known as The DAYTONA. They are also building a 105-room select-service Fairfield Inn & Suites by Marriott that is currently under vertical construction. As part of the partnership agreement, our portion of equity will be limited to our land contribution and we will share proportionately in the profits from the joint venture.

Prime Group has been selected as the partner for ONE DAYTONA's residential development. Following an extensive request for proposal process, ONE DAYTONA chose the Florida developer based on their command of market demographics, development experience and expert property management systems. Prime Group is proceeding with the development in ONE DAYTONA for approximately 276 luxury apartment rental units that will add critical mass to the overall ONE DAYTONA campus. Similar to the hotel partnership, our portion of equity will be limited to our land contribution and we will share proportionately in the profits from the joint venture.

Cobb Daytona Luxury Theatres opened in December 2016 and Bass Pro Shops is planning a February 2017 opening, followed by the Fairfield Inn & Suites later in fiscal 2017. We are targeting phase one completion in late fiscal 2017. At stabilization we expect this first phase on ONE DAYTONA to deliver annual revenue and EBITDA of approximately \$12.0 million and approximately \$9.0 million, respectively, and deliver an unlevered return above our weighted average cost of capital. We expect to add leverage to ONE DAYTONA's phase one post-stabilization. Total capital expenditures for ONE DAYTONA, excluding capitalized interest and net of capital incentives, are expected to be approximately \$95.0 million. Through November 30, 2016 capital expenditures totaled approximately \$22.0 million, exclusive of capitalized interest and labor. At this time, there is no project specific financing in place for ONE DAYTONA. Ultimately, we expect to secure financing for the project upon stabilization. However, accounting rules dictate that we capitalize a portion of the interest on existing outstanding debt during the construction period. Through November 30, 2016, we recorded approximately \$1.6 million of capitalized interest related to ONE DAYTONA, since inception, and expect approximately \$3.5 million to \$4.0 million to be recorded by completion of construction.

Any future phases will be subject to prudent business considerations for which we will provide discrete cost and return disclosures.

Phoenix Redevelopment

On November 30, 2016, we announced our Board of Directors had approved a multi-year redevelopment project to elevate the fan and spectator experience at Phoenix, the company's 52-year-old motorsports venue. The redevelopment is expected to focus on new and upgraded seating areas, vertical transportation options, new concourses, enhanced hospitality offerings and an intimate infield experience with greater accessibility to pre-race activities.

The redevelopment of Phoenix is included in our aforementioned \$500.0 million capital allocation covering fiscal years 2017 through 2021. The redevelopment project at Phoenix is expected to cost approximately \$178.0 million, including maintenance capital, before capitalized interest. Okland Construction ("Okland") has been selected as general contractor of the project. Effective November 30, 2016, Phoenix entered into a Design-Build Agreement with Okland. The Design-Build Agreement obligates Phoenix to pay Okland approximately \$136.0 million for the completion of the work described in the Design-Build Agreement. This amount is a guaranteed maximum price to be paid for the work, which may not change absent a requested change in the scope of work by Phoenix.

Based on the Company's current plans for Phoenix, it has identified existing assets that are expected to be impacted by the redevelopment and will require accelerated depreciation, or losses on asset retirements, totaling approximately \$3.4 million, non-cash charges, over the approximate 22-month project time span. Upon completion, the redevelopment is expected to provide an immediate incremental lift in Phoenix's EBITDA between approximately

\$8.5 million and \$9.0 million. The project is expected to commence in early 2017 and be complete in late 2018. Despite the Company not anticipating the need for additional long-term debt to fund this project, accounting rules dictate that the Company capitalize a portion of the interest on existing outstanding debt during the construction period. The Company estimates it will record approximately \$4.0 million to \$4.5 million of capitalized interest from fiscal 2017 through fiscal 2018.

For fiscal 2017, we expect capital expenditures related to the redevelopment of Phoenix to total approximately \$70.0 million to \$75.0 million and capitalized interest of approximately \$1.2 million.

Table of Contents

Speedway Developments

In light of NASCAR's publicly announced position regarding additional potential realignment of the Monster Energy NASCAR Cup Series schedule, we believe there are still potential development opportunities for public/private partnerships in new, underserved markets across the country that would create value for our shareholders. However, we are not currently pursuing any new speedway development opportunities.

Inflation

We do not believe that inflation has had a material impact on our operating costs and earnings.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB"), in conjunction with the International Accounting Standards Board ("IASB"), issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers". The objective of this Update is to significantly enhance comparability and clarify principles of revenue recognition practices across entities, industries, jurisdictions, and capital markets. On July 9, 2015, the FASB approved a one-year deferral of the effective date, while permitting entities to elect to adopt one year earlier on the original effective date. As a result, for a public entity, the amendments in this Update are effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The standard can be adopted either retrospectively to each prior reporting period presented or as a cumulative effect adjustment as of the date of adoption. We are currently in the process of analyzing the information necessary to determine the impact of adopting this new guidance on our financial position, results of operations, and cash flows. We will adopt the provisions of this statement in the first quarter of fiscal 2019.

In April 2015, the FASB, in conjunction with the IASB, issued ASU No. 2015-03, "Interest - Imputation of Interest". The objective of this Update is to simplify the presentation of debt issuance costs. The amendments in this Update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this Update. We have adopted the provisions of this statement in the first quarter of fiscal 2016 and prior periods have been retrospectively adjusted (see "Note 6. Long-Term Debt").

In August 2015, the FASB issued ASU No. 2015-15, "Interest - Imputation of Interest (Sub-Topic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements". Given the absence of authoritative guidance within Update 2015-03 for debt issuance costs related to line-of-credit arrangements, the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. We have adopted the provisions of this statement in the first quarter of fiscal 2016 and prior periods have been retrospectively adjusted. In November 2015, the FASB issued ASU No. 2015-17, "Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes". The objective of this Update is to simplify the presentation of deferred income taxes. The amendments in this Update require that deferred assets and liabilities be classified as long-term on the balance sheet instead of separating the deferred taxes into current and noncurrent amounts. For a public entity, the amendments in this Update are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is permitted for financial statements that have not been previously issued. We believe that this treatment of deferred taxes reduces the complexity of financial reporting while improving the usefulness of the information provided to users of the financial statements. As a result the Company elected to early adopt this Update prospectively as of November 30, 2015.

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842): Leases". The objective of this Update is to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. To meet that objective, the FASB is amending the FASB Accounting Standards Codification and creating Topic 842, Leases. This Update, along with IFRS 16, Leases, are the results of the FASB's and the International Accounting Standards Board's (IASB's) efforts to meet that objective and improve financial reporting. For a public entity, the amendments in this Update are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption

of the amendments in this Update is permitted for all entities. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The Company is currently evaluating the impact of adopting this new guidance on its financial position, results of operations, and cash flows, and will adopt the provisions of this statement in the first quarter of fiscal 2020.

Factors That May Affect Operating Results

This report and the documents incorporated by reference may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. You can identify a forward-looking statement by our use of the words “anticipate,” “estimate,” “expect,” “may,” “believe,” “objective,” “projection,” “forecast,” “goal,” and similar expressions. These forward-looking statements include our statements regarding the timing of future events, our anticipated future operations and our anticipated future financial position and cash requirements. Although we believe that the expectations reflected in our forward-looking statements are reasonable, we do not know whether our expectations will prove correct. We disclose the important factors that could cause our actual results to differ from our expectations in cautionary statements made in this report and in other filings we have made with the SEC. All subsequent written and oral forward-looking statements attributable to us or to persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors described in this report and other factors set forth in or incorporated by reference in this report.

Many of these factors are beyond our ability to control or predict. We caution you not to put undue reliance on forward-looking statements or to project any future results based on such statements or on present or prior earnings levels. Additional information concerning these, or other factors, which could cause the actual results to differ materially from those in the forward-looking statements is contained from time to time in our other SEC filings. Copies of those filings are available from us and/or the SEC.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates in the normal course of business. Our interest income and expense are most sensitive to changes in the general level of U.S. interest rates and the LIBOR rate. In order to manage this exposure, from time to time we use a combination of debt instruments, including the use of derivatives in the form of interest rate swap and lock agreements. We do not enter into any derivatives for trading purposes.

The objective of our asset management activities is to provide an adequate level of interest income and liquidity to fund operations and capital expansion, while minimizing market risk. We utilize overnight sweep accounts and short-term investments to minimize the interest rate risk. We do not believe that our interest rate risk related to our cash equivalents and short-term investments is material due to the nature of the investments.

Our objective in managing our interest rate risk on our debt is to negotiate the most favorable interest rate structures that we can and, as market conditions evolve, adjust our balance of fixed and variable rate debt to optimize our overall borrowing costs within reasonable risk parameters. Interest rate swaps and locks are used from time to time to convert a portion of our debt portfolio from a variable rate to a fixed rate or from a fixed rate to a variable rate as well as to lock in certain rates for future debt issuances.

The following analysis provides quantitative information regarding our exposure to interest rate risk. We utilize valuation models to evaluate the sensitivity of the fair value of financial instruments with exposure to market risk that assume instantaneous, parallel shifts in interest rate yield curves. There are certain limitations inherent in the sensitivity analyses presented, primarily due to the assumption that interest rates change instantaneously. In addition, the analyses are unable to reflect the complex market reactions that normally would arise from the market shifts modeled.

We have various debt instruments that are issued at fixed rates. These financial instruments, which have a fixed rate of interest, are exposed to fluctuations in fair value resulting from changes in market interest rates. The fair values of long-term debt are based on quoted market prices at the date of measurement. Our credit facilities approximate fair value as they bear interest rates that approximate market. At November 30, 2016, we had no variable debt outstanding. At November 30, 2016, the fair value of our total long-term debt as determined by quotes from financial institutions was approximately \$278.2 million. The potential decrease in fair value resulting from a hypothetical 10.0 percent shift in interest rates would be approximately \$5.2 million at November 30, 2016.

Credit risk arises from the possible inability of counterparties to meet the terms of their contracts on a net basis. However, we minimize such risk exposures for these instruments by limiting counterparties to large banks and financial institutions that meet established credit guidelines. We do not expect to incur any losses as a result of counterparty default.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
International Speedway Corporation

We have audited the accompanying consolidated balance sheets of International Speedway Corporation (the “Company”) as of November 30, 2016 and 2015, and the related consolidated statements of operations, comprehensive income, changes in shareholders’ equity and cash flows for each of the three years in the period ended November 30, 2016. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of International Speedway Corporation at November 30, 2016 and 2015, and the consolidated results of its operations and its cash flows for each of the three years in the period ended November 30, 2016, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), International Speedway Corporation’s internal control over financial reporting as of November 30, 2016, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated January 27, 2017, expressed an unqualified opinion thereon.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
International Speedway Corporation

We have audited International Speedway Corporation's internal control over financial reporting as of November 30, 2016, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). International Speedway Corporation's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Report of Management on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, International Speedway Corporation maintained, in all material respects, effective internal control over financial reporting as of November 30, 2016, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of International Speedway Corporation as of November 30, 2016 and 2015, and the related consolidated statements of operations, comprehensive income, changes in shareholders' equity and cash flows for each of the three years in the period ended November 30, 2016 of International Speedway Corporation and our report dated January 27, 2017 expressed an unqualified opinion thereon.

INTERNATIONAL SPEEDWAY CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 NOVEMBER 30, 2016

NOTE 1 — DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
 DESCRIPTION OF BUSINESS: International Speedway Corporation (“ISC”), including its wholly owned subsidiaries (collectively the “Company”), is a leading promoter of motorsports themed entertainment activities in the United States. As of November 30, 2016, the Company owned and/or operated 13 of the nation’s major motorsports entertainment facilities as follows:

Track Name	Location	Track Length
Daytona International Speedway	Daytona Beach, Florida	2.5 miles
Talladega Superspeedway	Talladega, Alabama	2.7 miles
Michigan International Speedway	Brooklyn, Michigan	2.0 miles
Auto Club Speedway of Southern California	Fontana, California	2.0 miles
Kansas Speedway	Kansas City, Kansas	1.5 miles
Richmond International Raceway	Richmond, Virginia	0.8 miles
Darlington Raceway	Darlington, South Carolina	1.3 miles
Chicagoland Speedway	Joliet, Illinois	1.5 miles
Martinsville Speedway	Martinsville, Virginia	0.5 miles
Phoenix International Raceway	Phoenix, Arizona	1.0 miles
Homestead-Miami Speedway	Homestead, Florida	1.5 miles
Watkins Glen International	Watkins Glen, New York	3.4 miles
Route 66 Raceway	Joliet, Illinois	0.25 miles

In 2016, these motorsports entertainment facilities promoted well over 100 stock car, open wheel, sports car, truck, motorcycle and other racing events, including:

- 21 National Association for Stock Car Auto Racing (“NASCAR”) NASCAR Cup Series events;
- 14 NASCAR Xfinity Series events;
- 9 NASCAR Camping World Truck Series events;
- 2 International Motor Sports Association (“IMSA”) Weather Tech SportsCar Championship Series events including the premier sports car endurance event in the United States, the Rolex 24 At DAYTONA;
- 5 ARCA Racing Series events;
 - One National Hot Rod Association (“NHRA”) Mello Yello Drag Racing Series event;
- Two IndyCar (“IndyCar”) Series event; and
- A number of other prestigious stock car, sports car, open wheel and motorcycle events.

The general nature of the Company’s business is a motorsports themed amusement enterprise, furnishing amusement to the public in the form of motorsports themed entertainment. The Company’s motorsports themed event operations consist principally of racing events at these major motorsports entertainment facilities, which, in total, currently have approximately 762,000 grandstand seats and 573 suites. The Company also conducts, either through operations of the particular facility or through certain wholly owned subsidiaries operating under the name “Americrown,” food and beverage concession operations and catering services, both in suites and chalets, for customers at its motorsports entertainment facilities.

At the beginning of fiscal 2017, entitlement of NASCAR's premier series changed. The NASCAR Sprint Cup Series will become the Monster Energy NASCAR Cup Series. Throughout this document, the naming convention for this series is consistent with the branding in fiscal 2017 for prospective events and will be referred to as NASCAR Cup Series for retrospective discussion.

Motor Racing Network, Inc. (“MRN”), the Company’s proprietary radio network, produces and syndicates to radio stations live coverage of the Monster Energy NASCAR Cup, Xfinity and Camping World Truck series races and certain other races conducted at the Company’s motorsports entertainment facilities, as well as some races from

motorsports entertainment facilities the Company does not own. In addition, MRN provides production services for the trackside large screen video

Table of Contents

display units, at NASCAR Cup Series event weekends that take place at the Company's motorsports facilities. MRN also produces and syndicates daily and weekly NASCAR racing-themed programs.

SIGNIFICANT ACCOUNTING POLICIES:

PRINCIPLES OF CONSOLIDATION: The accompanying consolidated financial statements include the accounts of International Speedway Corporation, and its wholly owned subsidiaries. All material intercompany accounts and transactions have been eliminated in consolidation.

CASH AND CASH EQUIVALENTS: For purposes of reporting cash flows, cash and cash equivalents include cash on hand, bank demand deposit accounts and overnight sweep accounts used in the Company's cash management program. All highly liquid investments with stated maturities of three months or less from the date of purchase are classified as cash equivalents.

The Company maintained its cash and cash equivalents with a limited number of financial institutions at November 30, 2016.

RECEIVABLES: Receivables are stated at their estimated collectible amounts. The allowance for doubtful accounts is estimated based on historical experience of write offs and current expectations of conditions that might impact the collectability of accounts.

PROPERTY AND EQUIPMENT: Property and equipment, including improvements to existing facilities, are stated at cost. Depreciation is provided for financial reporting purposes using the straight-line method over the estimated useful lives as follows:

Buildings, grandstands and motorsports entertainment facilities	10-30 years
---	-------------

Furniture and equipment	3-8 years
-------------------------	-----------

Leasehold improvements are depreciated over the shorter of the related lease term or their estimated useful lives. The Company evaluates the carrying value of property and equipment and if there are indicators of potential impairment. If events or circumstances indicate that the carrying value of an asset may not be recoverable, an impairment loss would be recognized equal to the difference between the carrying value of the asset and its fair value.

EQUITY INVESTMENTS: The Company's investments in joint ventures and other investees where it can exert significant influence on the investee, but does not have effective control over the investee, are accounted for using the equity method of accounting. The Company's equity in the net income (loss) from equity method investments is recorded as income (loss) with a corresponding increase (decrease) in the investment. Distributions received from the equity investees reduce the investment. Distributions from equity investees representing the Company's share of the equity investee's earnings are treated as cash proceeds from operations while distributions in excess of the equity investee's earnings are considered a return of capital and treated as cash proceeds from investing activities in the Company's consolidated statement of cash flows.

GOODWILL AND INTANGIBLE ASSETS: All business combinations are accounted for under the purchase method. The excess of the cost of the acquisition over fair value of the net assets acquired (including recognized intangibles) is recorded as goodwill. Business combinations involving existing motorsports entertainment facilities commonly result in a significant portion of the purchase price being allocated to the fair value of the contract-based intangible asset associated with long-term relationships manifest in the sanction agreements with sanctioning bodies, such as NASCAR and IMSA. The continuity of sanction agreements with these bodies has historically enabled the Company to host these motorsports events year after year. While individual sanction agreements may be of terms as short as one year, a significant portion of the purchase price in excess of the fair value of acquired tangible assets is commonly paid to acquire anticipated future cash flows from events promoted pursuant to these agreements which are expected to continue for the foreseeable future and therefore, in accordance with Accounting Standards Codification ("ASC") 805, are recorded as indefinite-lived intangible assets recognized apart from goodwill. The Company's goodwill and other intangible assets are all associated with our Motorsports Event segment.

The Company follows applicable authoritative guidance on accounting for goodwill and other intangible assets which specifies, among other things, non-amortization of goodwill and other intangible assets with indefinite useful lives and requires testing for possible impairment, either upon the occurrence of an impairment indicator or at least annually.

The Company completes its annual testing in its fiscal fourth quarter, based on assumptions regarding the Company's future business outlook and expected future discounted cash flows attributable to such assets (using the fair value

assessment provision of applicable authoritative guidance), supported by quoted market prices or comparable transactions where available or applicable.

In connection with the Company's fiscal 2016 assessment of goodwill and intangible assets for possible impairment, the Company used the future discounted cash flows / income approach based on Level 3 Fair Value hierarchy. The Company believes its methods used to determine fair value and evaluate possible impairment were appropriate, relevant, and represent

Table of Contents

methods customarily available and used for such purposes. The Company's latest annual assessment of goodwill and other intangible assets in the fourth quarter of fiscal 2016 indicated there had been no impairment and the fair value exceeded the carrying value for the respective reporting units.

During fiscal 2016, the Company believes there has been no significant change in the long-term fundamentals of its ongoing motorsports event business. The Company believes its present operational and cash flow outlook further support its conclusion. While the Company continues to review and analyze many factors that can impact its business prospects in the future, its analysis is subjective and is based on conditions existing at, and trends leading up to, the time the estimates and assumptions are made. Different conditions or assumptions, or changes in cash flows or profitability, if significant, could have a material adverse effect on the outcome of the impairment evaluation and the Company's future condition or results of operations.

FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with the "Financial Instruments" Topic, ASC 825-10 and in accordance with the "Fair Value Measurements and Disclosures" Topic, ASC 820-10, these topics discuss key considerations in determining fair value in such markets, and expanding disclosures on recurring fair value measurements using unobservable inputs (Level 3), clarification and additional disclosure is required about the use of fair value measurements.

Various inputs are considered when determining the carrying values of cash and cash equivalents, accounts receivable, accounts payable, and accrued liabilities. These items approximate fair value due to the short-term maturities of these assets and liabilities. These inputs are summarized in the three broad levels listed below:

Level 1 — observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets

Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)

Level 3 — significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

DEFERRED FINANCING FEES: Deferred financing fees are amortized over the term of the related debt and are included in other non-current assets.

COMPREHENSIVE INCOME: Comprehensive income is the changes in equity of an enterprise except those resulting from shareholder transactions.

INCOME TAXES: Income taxes have been provided using the asset and liability method. Under this method the Company's estimates of deferred income taxes and the significant items giving rise to deferred tax assets and liabilities reflect its assessment of actual future taxes to be paid on items reflected in its financial statements, giving consideration to both timing and probability of realization.

The Company establishes tax reserves related to certain matters, including penalties and interest, in the period when it is determined that it is probable that additional taxes, penalties and interest will be paid, and the amount is reasonably estimable. Such tax reserves are adjusted, as needed, in light of changing circumstances, such as statute of limitations expirations and other developments relating to uncertain tax positions and current tax items under examination, appeal or litigation.

REVENUE RECOGNITION: Advance ticket sales and event-related revenues for future events are deferred until earned, which is generally once the events are conducted. The recognition of event-related expenses is matched with the recognition of event-related revenues.

NASCAR contracts directly with certain network providers for television rights to the entire Monster Energy NASCAR Cup, Xfinity and Camping World Truck series schedules. Event promoters share in the television rights fees in accordance with the provision of the sanction agreement for each Monster Energy NASCAR Cup, Xfinity and Camping World Truck series event. Under the terms of this arrangement, NASCAR retains 10.0 percent of the gross broadcast rights fees allocated to each Monster Energy NASCAR Cup, Xfinity and Camping World Truck series event as a component of its sanction fees. The promoter records 90.0 percent of the gross broadcast rights fees as revenue and then records 25.0 percent of the gross broadcast rights fees as part of its awards to the competitors. Ultimately, the promoter retains 65.0 percent of the net cash proceeds from the gross broadcast rights fees allocated to the event. The Company's revenues from marketing partnerships are paid in accordance with negotiated contracts, with the identities of partners and the terms of sponsorship changing from time to time. Some of our marketing partnership

agreements are for multiple facilities and/or events and include multiple specified elements, such as tickets, hospitality chalets, suites, display space and signage for each included event. The allocation of such marketing partnership revenues between the multiple

Table of Contents

elements, events and facilities is based on relative selling price. The sponsorship revenue allocated to an event is recognized when the event is conducted.

Revenues and related costs from the sale of food, beverage and merchandise to retail customers are recognized at the time of sale.

Kansas Speedway ("Kansas") and Chicagoland Speedway ("Chicagoland") offer Preferred Access Speedway Seating ("PASS") agreements, which give purchasers the exclusive right and obligation to purchase season-ticket packages for certain sanctioned racing events annually, under specified terms and conditions. Among the conditions, licensees are required to purchase all season-ticket packages when and as offered each year. PASS agreements automatically terminate without refund should owners not purchase any offered season tickets.

Net fees received under PASS agreements are deferred and are amortized into income over the term of the agreements. Long-term deferred income under the PASS agreements totals approximately \$4.6 million and \$3.8 million at November 30, 2015 and 2016, respectively.

ADVERTISING EXPENSE: Advertising costs are expensed as incurred. Advertising expense was approximately \$16.5 million, \$17.1 million and \$17.7 million for the years ended November 30, 2014, 2015 and 2016, respectively.

LOSS CONTINGENCIES: Legal and other costs incurred in conjunction with loss contingencies are expensed as incurred.

USE OF ESTIMATES: The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATIONS: Certain prior year amounts in the Consolidated Balance Sheets have been reclassified to conform with the current year presentation.

NEW ACCOUNTING PRONOUNCEMENTS: In May 2014, the Financial Accounting Standards Board ("FASB"), in conjunction with the International Accounting Standards Board ("IASB"), issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers". The objective of this Update is to significantly enhance comparability and clarify principles of revenue recognition practices across entities, industries, jurisdictions, and capital markets. On July 9, 2015, the FASB approved a one-year deferral of the effective date, while permitting entities to elect to adopt one year earlier on the original effective date. As a result, for a public entity, the amendments in this Update are effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The standard can be adopted either retrospectively to each prior reporting period presented or as a cumulative effect adjustment as of the date of adoption. The Company is currently in the process of analyzing the information necessary to determine the impact of adopting this new guidance on its financial position, results of operations, and cash flows. The Company will adopt the provisions of this statement in the first quarter of fiscal 2019.

In April 2015, the FASB, in conjunction with the IASB, issued ASU No. 2015-03, "Interest - Imputation of Interest". The objective of this Update is to simplify the presentation of debt issuance costs. The amendments in this Update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this Update. The Company has adopted the provisions of this statement in the first quarter of fiscal 2016 and prior periods have been retrospectively adjusted (see "Note 6. Long-Term Debt").

In August 2015, the FASB issued ASU No. 2015-15, "Interest - Imputation of Interest (Sub-Topic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements". Given the absence of authoritative guidance within Update 2015-03 for debt issuance costs related to line-of-credit arrangements, the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The Company has adopted the provisions of this statement in the first quarter of fiscal 2016 and prior periods have been retrospectively

adjusted.

In November 2015, the Financial Accounting Standards Board issued ASU No. 2015-17, "Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes". The objective of this Update is to simplify the presentation of deferred income taxes. The amendments in this Update require that deferred assets and liabilities be classified as long-term on the balance sheet instead of separating the deferred taxes into current and noncurrent amounts. For a public entity, the amendments in this Update are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is permitted for financial statements that have not been previously issued. The Company believes that

Table of Contents

this treatment of deferred taxes reduces the complexity of financial reporting while improving the usefulness of the information provided to users of the financial statements. As a result the Company elected to early adopt this Update prospectively as of November 30, 2015.

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842): "Leases". The objective of this Update is to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. To meet that objective, the FASB is amending the FASB Accounting Standards Codification and creating Topic 842, Leases. This Update, along with IFRS 16, Leases, are the results of the FASB's and the International Accounting Standards Board's (IASB's) efforts to meet that objective and improve financial reporting. For a public entity, the amendments in this Update are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption of the amendments in this Update is permitted for all entities. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The Company is currently evaluating the impact of adopting this new guidance on its financial position, results of operations, and cash flows, and will adopt the provisions of this statement in the first quarter of fiscal 2020.

NOTE 2 — EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share for the years ended November 30, (in thousands, except share and per share amounts):

	2014	2015	2016
Numerator:			
Net income	\$ 67,379	\$ 56,634	\$ 76,338
Basic earnings per share			
denominator:			
Weighted average shares outstanding	46,559,232	46,621,211	45,981,471
Basic earnings per share:			
Income from continuing operations	\$ 1.45	\$ 1.21	\$ 1.66
Loss from discontinued operations			
Net income	\$ 1.45	\$ 1.21	\$ 1.66
Denominator:			
Weighted average shares outstanding	46,559,232	46,621,211	45,981,471
Common stock options	13,806	14,619	14,220
Diluted weighted average shares outstanding	46,573,038	46,635,830	45,995,691
Basic and diluted earnings per share	\$ 1.45	\$ 1.21	\$ 1.66
Anti-dilutive shares excluded in	121,462	98,928	81,292

the computation
of diluted
earnings per share

NOTE 3 — PROPERTY AND EQUIPMENT

Property and equipment consists of the following as of November 30, (in thousands):

	2015	2016
Land and leasehold improvements	\$244,496	\$244,337
Buildings, grandstands and motorsports entertainment facilities	1,695,682	1,831,804
Furniture and equipment	215,928	258,510
Construction in progress	131,897	55,011
	2,288,003	2,389,662
Less accumulated depreciation	839,039	934,156
	\$1,448,964	\$1,455,506

Depreciation expense was approximately \$90.2 million, \$94.7 million and \$102.2 million for the years ended November 30, 2014, 2015 and 2016, respectively. The depreciation expense for the year ended November 30, 2015, includes approximately

Table of Contents

\$6.8 million of accelerated depreciation that was recorded due to the shortening of the service lives of certain assets associated with DAYTONA Rising and capacity management initiatives. There were no similar costs in fiscal 2016.

NOTE 4 — RETIREMENTS OF LONG-LIVED ASSETS

The Company recorded before-tax charges relating to retirements of long-lived assets during the fiscal years ending November 30, as follows (in thousands):

	2014	2015	2016
Losses on retirements of long-lived assets	\$10,148	\$16,015	\$2,905
Less: cash portion of losses on asset retirements	7,504	12,525	506
Non-cash losses on retirements of long-lived assets	\$2,644	\$3,490	\$2,399

The fiscal 2014 retirements are primarily attributable to the ongoing removal of certain assets in connection with the track repaving at Kansas, as well as guest enhancements at Talladega Superspeedway ("Talladega"), Richmond International Raceway ("Richmond") and certain of the Company's other facilities.

The fiscal 2015 retirements are primarily attributable to the removal of assets not fully depreciated in connection with DAYTONA Rising, capacity management initiatives and other capital improvements.

The fiscal 2016 retirements are primarily attributable to the removal of assets not fully depreciated in connection with DAYTONA Rising and other capital improvements.

NOTE 5 — EQUITY AND OTHER INVESTMENTS**Hollywood Casino at Kansas Speedway**

Kansas Entertainment, LLC, ("Kansas Entertainment") a 50/50 joint venture of Penn Hollywood Kansas, Inc. ("Penn"), a subsidiary of Penn National Gaming, Inc. and Kansas Speedway Development Corporation ("KSDC"), a wholly owned indirect subsidiary of ISC, operates the Hollywood-themed casino and branded destination entertainment facility, overlooking turn two at Kansas Speedway. Penn is the managing member of Kansas Entertainment and is responsible for the operations of the casino.

The Company has accounted for Kansas Entertainment as an equity investment in its consolidated financial statements as of November 30, 2014, 2015 and 2016, respectively. The Company's 50.0 percent portion of Kansas Entertainment's net income was approximately \$8.9 million, \$14.1 million and \$14.9 million for fiscal years 2014, 2015 and 2016, respectively, and is included in equity in net income from equity investments in the Company's consolidated statements of operations.

Distributions from Kansas Entertainment, for the years ended November 30, are as follows (in thousands):

	2014	2015	2016
Distribution from profits	\$10,076	\$15,209	\$16,067
Distribution in excess of profits	11,924	16,841	9,833
Total Distributions	\$22,000	\$32,050	\$25,900

Fairfield Inn at ONE DAYTONA

Since June 2013, the Company has pursued development of ONE DAYTONA, the proposed premier mixed use and entertainment destination across from its Daytona International Speedway. Daytona Hotel Two, LLC ("Fairfield"), a joint venture of Daytona Hospitality Group II, LLC ("DHGII"), a subsidiary of Prime-Shaner Groups, and Daytona Beach Property Holdings Retail, LLC ("DBR"), a wholly owned indirect subsidiary of the Company, was formed to own, construct and operate a Fairfield Inn Hotel. The Fairfield will be situated within the ONE DAYTONA development. As per the partnership agreement, the Company's 33.25 percent share of equity will be limited to its non-cash land contribution and it will share in the profits from the joint venture proportionately to its equity ownership.

In June 2016, DBR contributed land to the joint venture as per the agreement. Vertical construction of the hotel has commenced and is expected to open in the third quarter of fiscal 2017. DHGII is the managing member of the Fairfield and will be responsible for the development and operations of the hotel. There were no operations during the year ended November 30, 2016.

Table of Contents

Staten Island Property

On August 5, 2013, the Company announced that it sold its 676 acre parcel of property located in Staten Island, New York, to Staten Island Marine Development, LLC ("Marine Development"). Marine Development purchased 100 percent of the outstanding equity membership interests of 380 Development LLC ("380 Development"), a wholly owned indirect subsidiary of ISC and owner of the Staten Island property, for a total sales price of \$80.0 million. In addition, the Company previously received approximately \$4.2 million for an option provided to the purchaser that is nonrefundable and does not apply to the \$80.0 million sales price.

The Company received \$7.5 million, less closing and other administrative costs, of the sales price at closing. The remaining sales price was financed with the Company holding a secured mortgage interest in 380 Development as well as the underlying property. The mortgage balance bore interest at an annual rate of 7.0 percent. In accordance with the terms of the agreement, the Company received a principal payment of approximately \$6.1 million plus interest on this mortgage balance through February 29, 2016. The remaining purchase price of \$66.4 million, was due in March 2016.

In March 2016, the Company completed an assignment of all rights, title and interest in the mortgage and underlying promissory note to an affiliate of Matrix Development Group, a New York/New Jersey area developer, and received the remaining principal balance of \$66.4 million, plus additional consideration of approximately \$0.3 million. The Company has no further commitments or contingencies related to the property or its sale. As a result, in the second quarter of fiscal 2016, the Company recorded a gain of approximately \$13.6 million, comprised of recognition of profit of approximately \$1.9 million, interest totaling approximately \$11.4 million, and other consideration paid. The deferred gain of \$1.9 million is included in Other operating revenue in the Company's consolidated statement of operations, and the interest, and additional consideration received, is included in Other Revenue in the Company's consolidated statement of operations.

The net proceeds from the sale, combined with the mortgage interest and related total cash tax benefit, has provided the Company with approximately \$129.8 million in incremental cash flow through the aforementioned assignment of all rights.

Motorsports Authentics

Prior to January 31, 2014, the Company was partners with Speedway Motorsports, Inc. ("SMI") in a 50/50 joint venture, SMISC, LLC, which, through its wholly owned subsidiary Motorsports Authentics, LLC conducts business under the name Motorsports Authentics ("MA"). MA designs, promotes, markets and distributes motorsports licensed merchandise. On January 31, 2014, SMI abandoned its interest and rights in SMISC, LLC, consequently bringing the Company's ownership to 100.0 percent. MA's operations are included in the Company's consolidated operations subsequent to the date of SMI's abandonment. Prior to January 31, 2014, MA was accounted for as an equity investment in the Company's consolidated financial statements.

As a result of SMI's abandonment of their interest in SMISC, LLC, the Company recorded other income of approximately \$5.4 million, representing the fair value of MA, over the carrying value, as of January 31, 2014. The fair value was based on a discounted cash flow analysis using level 3 inputs. Most of the fair value represented the value of MA's working capital and the fair value was not sensitive to assumptions used in the discounted cash flow analysis. In addition, the Company recognized tax benefits of approximately \$4.0 million, representing the tax benefit associated with various operating loss carryforwards of MA that are expected to be realized in its consolidated tax filings in the future and certain other tax filing positions of SMISC, LLC. In November 2014, the Company recognized an impairment of a long-lived intangible asset of approximately \$0.6 million, which is included in non-cash losses on retirements of long-lived assets. MA's operating income contribution, subsequent to consolidation, was immaterial, and is included in the Motorsports Event segment.

Table of Contents

Summarized financial information of the Company's equity investments as of and for the years ended November 30, are as follows (in thousands):

	2014	2015	2016
Current assets	\$33,349	\$17,204	\$15,856
Noncurrent assets	215,226	196,164	177,479
Current liabilities	19,273	17,749	17,380
Noncurrent liabilities	—	—	—
Net sales	141,849	153,183	153,276
Gross profit	72,031	80,691	82,087
Operating income	20,153	30,417	32,136
Net income	20,153	30,417	32,136

NOTE 6 — GOODWILL AND INTANGIBLE ASSETS

The gross carrying value and accumulated amortization of the major classes of intangible assets as of November 30, are as follows (in thousands):

	2015 Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:			
Food, beverage and merchandise contracts	\$10	\$ 10	\$—
Other	114	94	20
Total amortized intangible assets	124	104	20
Non-amortized intangible assets:			
NASCAR — sanction agreements	177,813	—	177,813
Other	793	—	793
Total non-amortized intangible assets	178,606	—	178,606
Total intangible assets	\$178,730	\$ 104	\$178,626

	2016 Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:			
Food, beverage and merchandise contracts	\$10	\$ 10	\$—
Other	120	97	23
Total amortized intangible assets	130	107	23
Non-amortized intangible assets:

Schedule of Payments (in thousands)

For the year ending

November 30:

2017	\$3,738
2018	4,091
2019	4,522
2020	5,326
2021	70,808
Thereafter	176,933
	265,418

Net premium (395)

Total \$265,023

The Company's \$65.0 million principal amount of senior unsecured notes ("4.63 percent Senior Notes") bear interest at 4.63 percent and are due January 2021, require semi-annual interest payments on January 18 and July 18 through their maturity. The 4.63 percent Senior Notes may be redeemed in whole or in part, at the Company's option, at any time or from time to time at redemption prices as defined in the indenture. Certain of the Company's wholly owned domestic subsidiaries are guarantors of the 4.63 percent Senior Notes. Certain restrictive covenants of the 4.63 percent Senior Notes require that the Company's ratio of its Consolidated Funded Indebtedness to its Consolidated EBITDA ("leverage ratio") does not exceed 3.50 to 1.0, and its Consolidated EBITDA to Consolidated Interest Expense

("interest coverage ratio") is not less than 2.0 to 1.0. In addition the

59

Table of Contents

Company may not permit the aggregate of certain Priority Debt to exceed 15.0 percent of its Consolidated Net Worth. The 4.63 percent Senior Notes contain various other affirmative and negative restrictive covenants including, among others, limitations on liens, sales of assets, mergers and consolidations and certain transactions with affiliates. As of November 30, 2016, the Company was in compliance with its various restrictive covenants. At November 30, 2016, outstanding principal on the 4.63 percent Senior Notes was approximately \$65.0 million.

The Company's \$100.0 million principal amount of senior unsecured notes ("3.95 percent Senior Notes") bear interest at 3.95 percent and are due September 2024. The 3.95 percent Senior Notes require semi-annual interest payments on March 13 and September 13 through their maturity. The 3.95 percent Senior Notes may be redeemed in whole or in part, at our option, at any time or from time to time at redemption prices as defined in the indenture. Certain of the Company's wholly owned domestic subsidiaries are guarantors of the 3.95 percent Senior Notes. Certain restrictive covenants of the 3.95 percent Senior Notes require that the Company's leverage ratio does not exceed 3.50 to 1.0, and its interest coverage ratio is not less than 2.0 to 1.0. In addition the Company may not permit the aggregate of certain Priority Debt to exceed 15.0 percent of its Consolidated Net Worth. The 3.95 percent Senior Notes contain various other affirmative and negative restrictive covenants including, among others, limitations on liens, sales of assets, mergers and consolidations and certain transactions with affiliates. As of November 30, 2016, the Company was in compliance with its various restrictive covenants. At November 30, 2016, outstanding principal on the 3.95 percent Senior Notes was approximately \$100.0 million.

Debt associated with the Company's wholly owned subsidiary, Chicagoland Speedway, LLC, which owns and operates Chicagoland and Route 66 Raceway, consisted of revenue bonds payable ("4.82 percent Revenue Bonds") consisting of economic development revenue bonds issued by the City of Joliet, Illinois to finance certain land improvements. The 4.82 percent Revenue Bonds had an interest rate of 4.82 percent and a monthly payment of approximately \$29,000 principal and interest. The principal on the 4.82 percent Revenue Bonds was paid in full in November 2015.

The term loan ("6.25 percent Term Loan"), related to the Company's International Motorsports Center, has a 25 year term due October 2034, an interest rate of 6.25 percent, and a current monthly payment of approximately \$323,000 principal and interest. At November 30, 2016, the outstanding principal on the 6.25 percent Term Loan was approximately \$47.9 million.

At November 30, 2016, in connection with the financing of Kansas Speedway, totaled approximately \$52.1 million, net of the unamortized discount, which is comprised of a \$2.8 million principal amount, 6.15 percent term bond due December 1, 2017 and a \$49.7 million principal amount, 6.75 percent term bond due December 1, 2027. The TIF bonds are repaid by the Unified Government of Wyandotte County/Kansas City, Kansas ("Unified Government") with payments made in lieu of property taxes ("Funding Commitment") by the Company's wholly owned subsidiary, Kansas Speedway Corporation ("KSC"). Principal (mandatory redemption) payments per the Funding Commitment are payable by KSC on October 1 of each year. The semi-annual interest component of the Funding Commitment is payable on April 1 and October 1 of each year. KSC granted a mortgage and security interest in the Kansas project for its Funding Commitment obligation.

On September 27, 2016, the Company amended and extended its existing \$300.0 million credit facility, maturing November 2017, and entered into a new \$300.0 million revolving credit facility ("2016 Credit Facility"). The 2016 Credit Facility contains a feature that allows the Company to increase the credit facility to a total of \$500.0 million, subject to certain conditions, provides for separate sub-limits of \$25.0 million for standby letters of credit and \$10.0 million for swing line loans. The 2016 Credit Facility is scheduled to mature five years from the date of inception, with two 1-year extension options. Interest accrues, at the Company's option, at either LIBOR plus 100.0 — 162.5 basis points or a base rate loan at the highest of i) Wells Fargo Bank's prime lending rate, ii) the Federal Funds rate, as in effect from time to time, plus 0.5 percent, and iii) one month LIBOR plus 1.0 percent. The 2016 Credit Facility also contains a commitment fee ranging from 0.125 percent to 0.225 percent of unused amounts available for borrowing. The interest rate margin on the LIBOR borrowings and commitment fee are variable depending on the better of the Company's debt rating as determined by specified rating agencies or its leverage ratio. Certain of the Company's wholly owned domestic subsidiaries are guarantors on the 2016 Credit Facility. The 2016 Credit Facility requires that the Company's leverage ratio does not exceed 3.50 to 1.0 (4.0 to 1.0 for the four quarters ending after any Permitted

Acquisition), and its interest coverage ratio is not less than 2.5 to 1.0. The 2016 Credit Facility also contains various other affirmative and negative restrictive covenants including, among others, limitations on indebtedness, investments, sales of assets, certain transactions with affiliates, entering into certain restrictive agreements and making certain restricted payments as detailed in the agreement. As of November 30, 2016, the Company was in compliance with its various restrictive covenants. At November 30, 2016, the Company had no outstanding borrowings under the 2016 Credit Facility.

At November 30, 2016, the Company has approximately \$2.7 million, net of tax, deferred in accumulated other comprehensive loss associated with a terminated interest rate swap which is being amortized as interest expense over life of the 4.63 percent Senior Notes (see above).

Table of Contents

Total interest expense incurred by the Company for the years ended November 30, are as follows (in thousands):

	2014	2015	2016
Interest expense	\$16,479	\$16,286	\$16,038
Less: capitalized interest	7,297	6,704	2,201
Net interest expense	\$9,182	\$9,582	\$13,837

At November 30, 2015 and 2016, the Company recorded deferred financing costs of approximately \$3.1 million and \$3.6 million, respectively, net of accumulated amortization. These costs are being amortized on a straight line method, which approximates the effective yield method, over the life of the related financing.

NOTE 8 — FEDERAL AND STATE INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Significant components of the provision for income taxes for the years ended November 30, are as follows (in thousands):

	2014	2015	2016
Current tax expense (benefit):			
Federal	\$42,243	\$46,095	\$(27,061)
State	3,336	3,891	1,856
Deferred tax expense (benefit):			
Federal	(13,450)	(15,164)	70,186
State	1,104	(514)	2,750
Provision for income taxes	\$33,233	\$34,308	\$47,731

The reconciliation of income tax expense computed at the federal statutory tax rates to income tax expense for the years ended November 30, is as follows (percent of pre-tax income):

	2014	2015	2016
Income tax computed at federal statutory rates	35.0 %	35.0 %	35.0 %
State income taxes, net of federal tax benefit	3.8	2.5	3.2
MA abandonment benefit	(5.9)	—	—
Other, net	0.1	0.2	0.3
	33.0 %	37.7 %	38.5 %

The principal causes of the decreased income tax rate for the fiscal year ended November 30, 2014 are the tax treatment related to the other income recognized as a result of SMI's abandonment of their interest in SMISC, LLC on January 31, 2014, including the related tax benefits associated with various operating loss and other carryforwards of MA and certain tax filing positions of SMISC, LLC totaling approximately \$4.0 million along with certain state income tax adjustments. The principal causes of the decreased effective income tax rate as compared to the statutory income tax rate, for the fiscal year ended November 30, 2015 and 2016 are reductions in certain state tax rates.

As a result of the above items, the Company's effective income tax rate decreased from the statutory income rate to approximately 33.0 percent, 37.7 percent and 38.5 percent for the fiscal years ended November 30, 2014, 2015 and 2016, respectively.

Table of Contents

The components of the net deferred tax assets (liabilities) at November 30, are as follows (in thousands):

	2015	2016
Loss carryforwards	\$13,918	\$15,477
Deferred revenues	2,609	1,529
Accruals	7,204	2,946
Compensation related	3,509	4,065
Interest	3,406	2,740
Deferred tax assets	30,646	26,757
Valuation allowance	(7,893)	(7,031)
Deferred tax assets, net of valuation allowance	22,753	19,726
Amortization and depreciation	(357,389)	(428,828)
Equity investment	(1,273)	(180)
Other	(323)	(303)
Deferred tax liabilities	(358,985)	(429,311)
Net deferred tax liabilities	\$(336,232)	\$(409,585)
Deferred tax assets — current	\$—	\$—
Deferred tax liabilities — noncurrent	(336,232)	(409,585)
Net deferred tax liabilities	\$(336,232)	\$(409,585)

At November 30, 2016 the Company has deferred tax assets related to various state loss carryforwards totaling approximately \$13.2 million that expire in varying amounts beginning in fiscal 2019. The Company also has deferred tax assets related to federal loss carryforwards subject to limitations under IRC 382 related to MA totaling approximately \$2.3 million that expire beginning in fiscal 2032. The valuation allowance at November 30, 2015 and 2016 was primarily related to state loss carryforwards that, in the judgment of management, are not more likely to be realized. In evaluating the Company's ability to recover its deferred income tax assets it considers all available positive and negative evidence, including operating results, ongoing tax planning and forecasts of future taxable income on a jurisdiction by jurisdiction basis.

Federal returns for fiscal years 2012 through 2015 remain open and subject to examination by the Internal Revenue Service. The Company files and remits state income taxes in various states where the Company has determined it is required to file state income taxes. The Company's filings with those states remain open for audit for the fiscal years 2011 through 2015.

A reconciliation of the beginning and ending amount of unrecognized tax liability is as follows (in thousands):

Balance at December 1, 2015	\$356
Reductions for tax positions of prior years	(45)
Balance at November 30, 2016	\$311

In December 2015, Congress passed the Protecting Americans from Tax Hikes Act which included a retroactive renewal back to January 1, 2015 of the previously expired tax legislation. The Act extended accelerated depreciation on qualified capital investments placed into service. This bonus depreciation provision is 50% for qualifying assets placed into service from 2015 through 2017, 40% for qualifying assets placed into service in 2018 and 30% for qualifying assets placed into service in 2019. The impact of this tax legislation did not affect the Company's fiscal 2016 effective tax rate, but correspondingly reduced the current income tax payable and increased the noncurrent deferred tax liability by \$73.4 million.

Table of Contents

NOTE 9 — CAPITAL STOCK

The Company's authorized capital includes 80.0 million shares of Class A Common Stock, par value \$.01 ("Class A Common Stock"), 40.0 million shares of Class B Common Stock, par value \$.01 ("Class B Common Stock"), and 1.0 million shares of Preferred Stock, par value \$.01 ("Preferred Stock"). The shares of Class A Common Stock and Class B Common Stock are identical in all respects, except for voting rights and conversion rights as described below. Each share of Class A Common Stock entitles the holder to one-fifth (1/5) vote on each matter submitted to a vote of the Company's shareholders and each share of Class B Common Stock entitles the holder to one (1) vote on each such matter, in each case including the election of directors. Holders of Class A Common Stock and Class B Common Stock are entitled to receive dividends at the same rate if and when declared by the Board of Directors out of funds legally available there from, subject to the dividend and liquidation rights of any Preferred Stock that may be issued and outstanding. Class A Common Stock has no conversion rights. Class B Common Stock is convertible into Class A Common Stock, in whole or in part, at any time at the option of the holder on the basis of one share of Class A Common Stock for each share of Class B Common Stock converted. Each share of Class B Common Stock will also automatically convert into one share of Class A Common Stock if, on the record date of any meeting of the shareholders, the number of shares of Class B Common Stock then outstanding is less than 10.0 percent of the aggregate number of shares of Class A Common Stock and Class B Common Stock then outstanding.

The Board of Directors of the Company is authorized, without further shareholder action, to divide any or all shares of the authorized Preferred Stock into series and fix and determine the designations, preferences and relative rights and qualifications, limitations, or restrictions thereon of any series so established, including voting powers, dividend rights, liquidation preferences, redemption rights and conversion privileges. No shares of Preferred Stock are outstanding. The Board of Directors has not authorized any series of Preferred Stock, and there are no plans, agreements or understandings for the authorization or issuance of any shares of Preferred Stock.

Stock Purchase Plan

The Company has a share repurchase program ("Stock Purchase Plan") under which it is authorized to purchase up to \$330.0 million of its outstanding Class A common shares. In November 2016, the Company's Board of Directors expanded its Stock Purchase Plan by an incremental \$200.0 million, bringing its total current authorization to \$530.0 million. The timing and amount of any shares repurchased under the Stock Purchase Plan will depend on a variety of factors, including price, corporate and regulatory requirements, capital availability and other market conditions. The Stock Purchase Plan may be suspended or discontinued at any time without prior notice. No shares have been or will be knowingly purchased from Company insiders or their affiliates.

Since inception of the Stock Purchase Plan through November 30, 2016, the Company has purchased 8,722,073 shares of its Class A common shares, for a total of approximately \$323.4 million. There were no purchases of the Company's Class A shares during fiscal 2014 or 2015. In fiscal 2016 the Company purchased 1.7 million shares of our Class A common shares, at an average cost of approximately \$33.25 per share (including commissions), for a total of approximately \$55.1 million. Transactions occur in open market purchases and pursuant to a trading plan under Rule 10b5-1. At November 30, 2016, the Company has approximately \$206.6 million remaining repurchase authority under the current Stock Purchase Plan.

NOTE 10 — COMMITMENTS AND CONTINGENCIES

International Speedway Corporation has a salary incentive plan (the "ISC Plan") designed to qualify under Section 401(k) of the Internal Revenue Code. Employees of International Speedway Corporation and certain participating subsidiaries who have completed one month of continuous service are eligible to participate in the ISC Plan. After twelve months of continuous service, matching contributions are made to a savings trust (subject to certain limits) concurrent with employees' contributions. The level of the matching contribution depends upon the amount of the employee contribution. Employees become 100 percent vested upon entrance to the ISC Plan. The contribution expense for the ISC Plan was approximately \$1.6 million, \$1.7 million and \$1.7 million for the years ended November 30, 2014, 2015 and 2016, respectively.

The estimated cost to complete approved projects and current construction in progress at November 30, 2016 at the Company's existing facilities is approximately \$247.2 million. Included in Other current liabilities on the Company's Consolidated Balance Sheets are approximately \$6.5 million and \$4.1 million, of certain administrative costs as of

November 30, 2015 and 2016, respectively.

In October 2002, the Unified Government issued subordinate sales tax special obligation revenue bonds (“2002 STAR Bonds”) totaling approximately \$6.3 million to reimburse the Company for certain construction already completed on the second phase of the Kansas Speedway project and to fund certain additional construction. The 2002 STAR Bonds, which require annual debt service payments and are due December 1, 2022, will be retired with state and local taxes generated within the speedway’s boundaries and are not the Company’s obligation. KSC has agreed to guarantee the payment of principal, any required

Table of Contents

premium and interest on the 2002 STAR Bonds. At November 30, 2016, the Unified Government had approximately \$0.9 million outstanding on 2002 STAR Bonds. Under a keepwell agreement, the Company has agreed to provide financial assistance to KSC, if necessary, to support KSC's guarantee of the 2002 STAR Bonds.

The Company operates Homestead-Miami Speedway under an operating agreement which expires December 31, 2032 and provides for subsequent renewal terms through December 31, 2075. The Company operates Daytona International Speedway under an operating lease agreement which expires November 7, 2054. The Company also has various operating leases for office space and equipment. The future minimum payments under the operating agreement and leases utilized by the Company having initial or remaining non-cancelable terms in excess of one year at November 30, 2016, are as follows (in thousands):

For the year ending November 30:	Operating Agreement	Operating Leases
2017	\$ 1,055	\$ 4,570
2018	1,055	2,995
2019	1,055	1,947
2020	1,055	1,123
2021	1,055	943
Thereafter	11,693	30,318
Total	\$ 16,968	\$ 41,896

Total expenses incurred under the track operating agreement, these operating leases and all other short-term rentals during the years ended November 30, 2014, 2015 and 2016 were approximately \$14.7 million, \$14.4 million, and \$13.7 million, respectively.

In connection with the Company's automobile and workers' compensation insurance coverages and certain construction contracts, the Company has standby letter of credit agreements in favor of third parties totaling approximately \$6.0 million at November 30, 2016. At November 30, 2016, there were no amounts drawn on the standby letters of credit.

Current Litigation

The Company is from time to time a party to routine litigation incidental to its business. Management does not believe that the resolution of any or all of such litigation will have a material adverse effect on the Company's financial condition or results of operations.

NOTE 11 — RELATED PARTY DISCLOSURES AND TRANSACTIONS

All of the racing events that take place during the Company's fiscal year are sanctioned by various racing organizations such as the American Historic Racing Motorcycle Association, the American Motorcyclist Association, the Automobile Racing Club of America, the American Sportbike Racing Association — Championship Cup Series, the Federation Internationale de L'Automobile, the Federation Internationale Motocycliste, IMSA, Historic Sportscar Racing, IndyCar Series, NASCAR, NHRA, the Porsche Club of America, the Sports Car Club of America, the Sportscar Vintage Racing Association, the United States Auto Club and the World Karting Association. NASCAR, which sanctions many of the Company's principal racing events, is a member of the France Family Group which controls over 73.0 percent of the combined voting power of the outstanding stock of the Company, as of November 30, 2016, and some members of which serve as directors and officers of the Company.

Under current agreements, NASCAR contracts directly with certain network providers for television rights to the entire Monster Energy NASCAR Cup, Xfinity and Camping World Truck series schedules. Under the terms of this arrangement, NASCAR retains 10.0 percent of the gross broadcast rights fees allocated to each NASCAR Cup, Xfinity and Camping World Truck series event as a component of its sanction fees. The promoter records 90.0 percent of the gross broadcast rights fees as revenue and then records 25.0 percent of the gross broadcast rights fees as part of its awards to the competitors, included in NASCAR event management fees (discussed below). Ultimately, the promoter retains 65.0 percent of the net cash proceeds from the gross broadcast rights fees allocated to the event. The Company's television broadcast and ancillary rights fees received from NASCAR for the NASCAR Cup, Xfinity and Camping World Truck series events conducted at its wholly owned facilities were approximately \$302.9 million, \$314.5 million and \$325.1 million in fiscal years 2014, 2015 and 2016, respectively. The Company recorded prize

money of approximately \$84.0 million, \$87.2 million and \$89.6 million in fiscal years 2014, 2015 and 2016, respectively, included in NASCAR event management fees (discussed below) related to the aforementioned 25.0 percent of gross broadcast rights fees ultimately paid to competitors.

Table of Contents

Standard NASCAR and IMSA sanction agreements require racetrack operators to pay event management fees (collectively "NASCAR event management or NEM fees"), which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by NASCAR to participants in the events. Total NEM fees paid by the Company were approximately \$163.0 million, \$167.8 million and \$171.8 million, for the fiscal years ended November 30, 2014, 2015 and 2016, respectively. The Company has outstanding receivables related to NASCAR and its affiliates of approximately \$29.8 million and \$21.3 million at November 30, 2015 and 2016, respectively.

The Company and NASCAR, along with certain NASCAR affiliates, share a variety of expenses in the ordinary course of business. NASCAR pays rent, as well as a related maintenance fee (allocated based on square footage), to the Company for office space in Daytona Beach, Florida. NASCAR pays the Company for radio, program and strategic initiative advertising, hospitality and suite rentals, various tickets and credentials, catering services, participation in a NASCAR racing event banquet, and track and other equipment rentals. The Company pays NASCAR for certain advertising, participation in NASCAR racing series banquets, the use of NASCAR trademarks and intellectual images and production space on trackside large screen video display units. The Company's payments to NASCAR for MRN's broadcast rights to NASCAR Camping World Truck races represent an agreed-upon percentage of the Company's advertising revenues attributable to such race broadcasts. NASCAR also reimburses the Company for 50.0 percent of the compensation paid to certain personnel working in the Company's legal, risk management and transportation departments, as well as 50.0 percent of the compensation expense associated with certain receptionists. The Company reimburses NASCAR for 50.0 percent of the compensation paid to certain personnel working in NASCAR's legal department. NASCAR's reimbursement for use of the Company's mailroom, janitorial services, security services, catering, graphic arts, photo and publishing services, telephone system and the Company's reimbursement of NASCAR for use of corporate aircraft is based on actual usage or an allocation of total actual usage. The aggregate amount received and receivable from NASCAR for shared expenses, net of amounts paid by the Company for shared expenses, totaled approximately \$10.5 million, \$10.2 million and \$10.2 million during fiscal 2014, 2015 and 2016, respectively. We believe the amounts earned from or charged by us under each of the aforementioned transactions are commercially reasonable.

IMSA, a wholly owned subsidiary of NASCAR, sanctions various events at certain of the Company's facilities. Standard IMSA sanction agreements require racetrack operators to pay event management fees, which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by IMSA to participants in the events. Event management fees paid by the Company to IMSA totaled approximately \$1.3 million, \$1.3 million and \$1.3 million for the years ended November 30, 2014, 2015 and 2016, respectively.

AMA Pro Racing, an entity controlled by a member of the France Family Group, sanctions various events at certain of the Company's facilities. Standard AMA Pro Racing sanction agreements require racetrack operators to pay event management fees, which include prize and point fund monies for each sanctioned event conducted. The prize and point fund monies are distributed by AMA Pro Racing to participants in the events. Event management fees paid by the Company to AMA Pro Racing totaled approximately \$0.5 million, \$0.1 million and \$0.1 million during fiscal 2014, 2015 and 2016, respectively. Furthermore, the Company and AMA Pro Racing share a variety of expenses in the ordinary course of business. The aggregate amount received from AMA Pro Racing by the Company for shared expenses, net of amounts paid by the Company for shared expenses, totaled approximately \$0.2 million.

The Company strives to ensure, and management believes that, the terms of the Company's transactions with NASCAR, IMSA and AMA Pro Racing are commercially reasonable.

Other Related Party Transactions

Certain members of the France Family Group paid the Company for the utilization of security services, event planning, event tickets, purchase of catering services, maintenance services, and certain equipment. The amounts paid for these items were based on actual costs incurred, similar prices paid by unrelated third party purchasers of similar items or estimated fair market values. The net amount received by the Company for these items, totaled approximately \$320,000, \$456,000 and \$306,000 during fiscal 2014, 2015 and 2016, respectively.

Crotty, Bartlett & Kelly, P.A. ("Crotty, Bartlett & Kelly"), is a law firm controlled by family members of W. Garrett Crotty, one of the Company's executive officers. The Company engages Crotty, Bartlett & Kelly for certain legal and

consulting services. The aggregate amount paid to Crotty, Bartlett & Kelly by the Company for legal and consulting services totaled approximately \$31,000, \$39,000 and \$36,000 during fiscal 2014, 2015 and 2016, respectively. J. Hyatt Brown, one of the Company's directors, serves as Chairman of Brown & Brown, Inc. ("Brown & Brown"). Brown & Brown has received commissions for serving as the Company's insurance broker for several of the Company's insurance policies, including the Company's property and casualty policy and certain employee benefit programs. The aggregate commissions received by Brown & Brown in connection with the Company's policies were approximately \$492,000, \$517,000

Table of Contents

and \$555,000 during fiscal 2014, 2015 and 2016, respectively. In fiscal 2014, Brown & Brown paid the Company approximately \$100,000 for the purchase of tickets. There were no comparable transactions in fiscal 2015 or 2016. One of the Company's directors, Christy F. Harris, is Of Counsel to Kinsey, Vincent Pyle, L.C., a law firm that provided legal services to the Company during fiscal 2014, 2015 and 2016. The Company paid approximately \$78,000, \$35,000 and \$97,000 for these services in fiscal 2014, 2015 and 2016, respectively.

We believe the amounts earned from or charged by us under each of the aforementioned transactions are commercially reasonable.

NOTE 12 — SUPPLEMENTAL DISCLOSURES OF CASH FLOW INFORMATION

Cash paid for income taxes and interest for the years ended November 30, is summarized as follows (in thousands):

	2014	2015	2016
Income taxes paid	\$51,314	\$44,989	\$24,392

Interest paid	\$14,429	\$14,504	\$14,199
---------------	----------	----------	----------

NOTE 13 — LONG-TERM STOCK INCENTIVE PLAN

On November 30, 2016, the Company has two share-based compensation plans, which are described below.

Compensation cost included in operating expenses in the accompanying consolidated statements of operations for those plans was \$2.8 million, \$2.9 million, and \$3.7 million for the years ended November 30, 2014, 2015 and 2016, respectively. The total income tax benefit recognized in the consolidated statements of operations for share-based compensation arrangements was approximately \$1.2 million, \$1.2 million and \$1.5 million for the years ended November 30, 2014, 2015 and 2016, respectively.

The Company's 1996 Long-Term Stock Incentive Plan (the "1996 Plan") authorized the grant of stock options (incentive and nonqualified), stock appreciation rights and restricted stock. The Company reserved an aggregate of 1,000,000 shares (subject to adjustment for stock splits and similar capital changes) of the Company's Class A Common Stock for grants under the 1996 Plan. The 1996 Plan terminated in September 2006. All unvested stock options and restricted stock granted prior to the termination will continue to vest and will continue to be exercisable in accordance with their original terms.

In April, 2006, the Company's shareholders' approved the 2006 Long-Term Incentive Plan (the "2006 Plan") which authorizes the grant of stock options (incentive and non-qualified), stock appreciation rights, restricted and unrestricted stock, cash awards and Performance Units (as defined in the 2006 Plan) to employees, consultants and advisers of the Company capable of contributing to the Company's performance. The Company has reserved an aggregate of 1,000,000 shares (subject to adjustment for stock splits and similar capital changes) of the Company's Class A Common Stock for grants under the 2006 Plan. Incentive Stock Options may be granted only to employees eligible to receive them under the Internal Revenue Code of 1996, as amended. The 2006 Plan approved by the shareholders appoints the Compensation Committee (the "Committee") to administer the 2006 Plan. Awards under the 2006 Plan will contain such terms and conditions not inconsistent with the 2006 Plan as the Committee in its discretion approves. The Committee has discretion to administer the 2006 Plan in the manner which it determines, from time to time, is in the best interest of the Company.

Restricted Stock Awards

Restricted stock awarded under the 1996 Plan and 2006 Plan (collectively the "Plans") generally is subject to forfeiture in the event of termination of employment prior to vesting dates. Prior to vesting, the Plans participants own the shares and may vote and receive dividends, but are subject to certain restrictions. Restrictions include the prohibition of the sale or transfer of the shares during the period prior to vesting of the shares. The Company also has the right of first refusal to purchase any shares of stock issued under the Plans which are offered for sale subsequent to vesting. In accordance with ASC 718, "Compensation - Stock Compensation" the Company is recognizing stock-based compensation on these restricted shares awarded on the accelerated method over the requisite service period. The fair value of nonvested restricted stock is determined based on the opening trading price of the Company's Class A Common Stock on the grant date.

The Company granted 91,076, 89,343 and 92,583 shares of restricted stock awards of the Company's Class A Common Stock during the fiscal years ended November 30, 2014, 2015 and 2016, respectively, to certain officers, managers, and other employees under the Plans. The shares of restricted stock awarded vest at the rate of 50.0 percent on the third anniversary of the award date and the remaining 50.0 percent on the fifth anniversary of the award date. The weighted average grant date fair value of these restricted stock awards was \$31.44, \$36.36 and \$33.49 per share, respectively.

Table of Contents

The Company granted 8,118, 8,190 and 8,073 shares of restricted stock awards of the Company's Class A Common Stock during the fiscal years ended November 30, 2014, 2015 and 2016, respectively, to non-employee directors as partial compensation for their service as a director. The shares of restricted stock awarded vest at the rate of 100.0 percent on the one year anniversary after the date of grant. The weighted average grant date fair value of these restricted share awards was \$33.28, \$36.67 and \$33.45 per share, respectively.

A summary of the status of the Company's restricted stock as of November 30, 2016, and changes during the fiscal year ended November 30, 2016, is presented as follows:

	Restricted Shares	Weighted- Average Grant- Date Fair Value (Per Share)	Weighted- Average Remaining Contractual Term (Years)
Unvested at November 30, 2015	359,793	\$ 32.03	
Granted	100,656	33.49	
Vested	(69,574)	32.55	
Forfeited	(882)	26.69	
Unvested at November 30, 2016	389,993	32.32	3.5

As of November 30, 2016, there was approximately \$5.4 million of total unrecognized compensation cost related to unvested restricted stock awards granted under the Stock Plans. This cost is expected to be recognized over a weighted-average period of approximately 3.5 years. The total fair value of restricted stock awards vested during the fiscal years ended November 30, 2014, 2015 and 2016, was approximately \$1.5 million, \$3.7 million and \$2.3 million, respectively.

Nonqualified and Incentive Stock Options

In fiscal 2010 a portion of each non-employee director's compensation for their service as a director is through awards of options to acquire shares of the Company's Class A Common Stock under the Plans. These options become exercisable one year after the date of grant and expire on the tenth anniversary of the date of grant. The Company also grants options to certain non-officer managers to purchase the Company's Class A Common Stock under the Plans. These options generally vest over a two and one-half year period and expire on the tenth anniversary of the date of grant. The Company records stock-based compensation cost on its stock options awarded on the straight-line method over the requisite service period.

The fair value of each option granted is estimated on the grant date using the Black-Scholes-Merton option-pricing valuation model that uses the assumptions noted in the following table. Expected volatilities are based on implied volatilities from historical volatility of the Company's stock and other factors. The Company uses historical data to estimate option exercises and employee terminations within the valuation model. Separate groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. The expected term of options granted is estimated based on historical exercise behavior and represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

Table of Contents

A summary of option activity under the Stock Plan as of November 30, 2016, and changes during the year then ended is presented as follows:

Options	Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at November 30, 2015	148,951	\$ 38.31		
Expired	(23,751)	46.59		
Exercised	(5,321)	25.65		
Forfeited	—	—		
Outstanding at November 30, 2016	119,879	37.23	1.9	\$ 598,489
Vested and Exercisable at November 30, 2016	119,879	\$ 37.23	1.9	\$ 598,489

There were no options granted in fiscal years 2014, 2015 and 2016. There were no options exercised during fiscal years 2014, 2015 and there were 5,321 options exercised during fiscal year 2016. The total intrinsic value of options exercised during the fiscal year ended November 30, 2016, was approximately \$0.6 million. The actual tax benefit realized for the tax deductions from exercise of the stock options totaled approximately \$20,251 for the fiscal year ended November 30, 2016.

As of November 30, 2016, there was no unrecognized compensation cost related to unvested stock options granted under the Stock Plan.

NOTE 14 — FINANCIAL INSTRUMENTS

In accordance with the “Financial Instruments” Topic, ASC 825-10 and in accordance with the “Fair Value Measurements and Disclosures” Topic, ASC 820-10, these topics discuss key considerations in determining fair value in such markets, and expanding disclosures on recurring fair value measurements using unobservable inputs (Level 3), clarification and additional disclosure is required about the use of fair value measurements.

Various inputs are considered when determining the carrying values of cash and cash equivalents, accounts receivable, accounts payable, and accrued liabilities. These items approximate fair value due to the short-term maturities of these assets and liabilities. These inputs are summarized in the three broad levels listed below:

Level 1 — observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets

Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)

Level 3 — significant unobservable inputs (including the Company’s own assumptions in determining the fair value of investments)

At November 30, 2016, the Company had money market funds totaling approximately \$68.4 million and are included in cash and cash equivalents in the consolidated balance sheets. All inputs used to determine fair value are considered level 1 inputs.

Fair values of long-term debt are based on quoted market prices at the date of measurement. The Company’s credit facilities approximate fair value as they bear interest rates that approximate market. These inputs used to determine fair value are considered level 2 inputs. At November 30, 2016, the fair value of the long-term debt, as determined by quotes from financial institutions, was approximately \$278.2 million compared to the carrying amount of approximately \$265.0 million.

The Company had no level 3 inputs as of November 30, 2016.

NOTE 15 — QUARTERLY DATA (UNAUDITED)

The Company derives most of its income from a limited number of NASCAR-sanctioned races. As a result, the Company’s business has been, and is expected to remain, highly seasonal based on the timing of major events.

Table of Contents

The following table presents certain unaudited financial data for each quarter of fiscal 2015 and 2016 (in thousands, except per share amounts):

	Fiscal Quarter Ended			
	February 2015	May 31, 2015	August 31, 2015	November 30, 2015
Total revenue	\$ 136,552	\$ 164,010	\$ 125,490	\$ 219,318
Operating income (loss)	21,591	19,217	(7,138)	51,907
Net income (loss)	14,953	13,355	(3,956)	32,282
Basic and diluted earnings (loss) per share	0.32	0.29	(0.08)	0.69

	Fiscal Quarter Ended			
	February 2016	May 31, 2016	August 31, 2016	November 30, 2016
Total revenue	\$ 142,630	\$ 167,561	\$ 128,986	\$ 221,839
Operating income	31,166	23,679	3,737	51,245
Net income	19,831	21,898	2,173	32,436
Basic and diluted earnings per share	0.43	0.47	0.05	0.72

NOTE 16 — SEGMENT REPORTING

The general nature of the Company's business is a motorsports themed amusement enterprise, furnishing amusement to the public in the form of motorsports themed entertainment. The Company's motorsports event operations consist principally of racing events at its major motorsports entertainment facilities. The reporting units within the motorsports segment portfolio are reviewed together as the nature of the products and services, the production processes used, the type or class of customer using our products and services, and the methods used to distribute our products or provide their services are consistent in objectives and principles, and predominately uniform and centralized throughout the Company. The Company's remaining business units, which are comprised of the radio network production and syndication of numerous racing events and programs, certain souvenir merchandising operations not associated with the promotion of motorsports events at the Company's facilities, construction management services, leasing operations, and financing and licensing operations are included in the "All Other" segment. The Company evaluates financial performance of the business units on operating profit after allocation of corporate general and administrative ("G&A") expenses. Corporate G&A expenses are allocated to business units based on each business unit's net revenues to total net revenues.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. Intersegment sales are accounted for at prices comparable to unaffiliated customers. Intersegment revenues were approximately \$2.0 million, \$2.1 million and \$2.2 million for the years ended November 30, 2014, 2015 and 2016, respectively. The following table shows information by operating segment (in thousands):

	For the Year Ended November 30, 2014		
	Motorsport Event	All Other	Total
Revenues	\$609,973	\$43,981	\$653,954
Depreciation and amortization	84,614	5,738	90,352
Operating income (loss)	99,332	(5,941)	93,391
Equity investments income	—	8,916	8,916
Capital expenditures	177,318	6,618	183,936

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

We conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act), under the supervision of and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures, subject to limitations as noted below, were effective at November 30, 2016, and during the period prior to and including the date of this report.

Because of its inherent limitations, our disclosure controls and procedures may not prevent or detect misstatements. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

Report of Management on Internal Control Over Financial Reporting

January 27, 2017

We, as members of management of International Speedway Corporation, are responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements. Because of its inherent limitations, our disclosure controls and procedures may not prevent or detect misstatements. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

We, under the supervision of and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, assessed the Company's internal control over financial reporting as of November 30, 2016, based on criteria for effective internal control over financial reporting described in "Internal Control-Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework). Based on this assessment, we concluded that we maintained effective internal control over financial reporting as of November 30, 2016, based on the specified criteria. There were no changes in our internal control over financial reporting during the quarter ended November 30, 2016, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The effectiveness of our internal control over financial reporting has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which is included herein.
