Item 2. Acquisitions or Disposition of Assets

On November 1, 2002, LaBarge, Inc. sold the railroad industry portion of its ScadaNET Network (TradeMark) remote equipment monitoring business to GE Transportation Systems Global Signaling, LLC (GETS Global Signaling), Grain Valley, Mo.

The sale is valued at approximately \$6.8 million, including \$5.3 million in cash and GETS Global Signaling's assumption of approximately \$1.5 million in certain liabilities. In connection with the sale, LaBarge and GETS Global Signaling have entered into a manufacturing agreement under which LaBarge will continue to produce the ScadaNET hardware. Under a separate service agreement, LaBarge will also provide back-end network services to GETS Global Signaling through the earlier of June 2003 or such date as GE TS Global Signaling integrates the

services sooner.

The sale will be recorded in LaBarge's fiscal 2003 second quarter, and the Company will realize \$3.2 million in cash after taxes on the transaction. On a book basis, LaBarge will record a pretax gain of \$2.3 million. Because the transaction reflects the sale of intellectual property with a low tax basis, it will result in an after-tax book loss of approximately \$.01 per share, and will be treated as discontinued operations.

A copy of LaBarge's Press Release dated November 4, 2002, announcing this transaction is attached hereto as Exhibit 99 and incorporated herein by reference.
