Part I

Item 1 - Business

General Information

Lowe's Companies, Inc. and subsidiaries (the Company) is a Fortune 50 company and the world's second largest home improvement retailer, with specific emphasis on retail do-it-yourself (DIY) customers, do-it-for-me (DIFM) customers who utilize our installation services, and Commercial Business Customers. We offer a complete line of products and services for home decorating, maintenance, repair, remodeling, and property maintenance. As of February 2, 2007, we operated 1,385 stores in 49 states, with 157 million square feet of retail selling space.

Incorporated in North Carolina in 1952, Lowe's Companies, Inc. has been publicly held since 1961. Our common stock is listed on the New York Stock Exchange - ticker symbol "LOW."

See Item 6, "Selected Financial Data," for historical revenues, profits and identifiable assets.

Who We Serve

We serve homeowners, renters and Commercial Business Customers. Homeowners and renters primarily consist of do-it-yourselfers, those taking advantage of our installed sales programs, and others buying for personal and family use. Commercial Business Customers include repair and remodeling contractors, electricians, landscapers, painters, plumbers, and commercial and residential property maintenance professionals, among others.

To meet customers' varying needs, we combine merchandise sales and service in categories that are relevant to them. We offer a full array of home improvement products in the following categories: appliances, lumber, flooring, millwork, paint, building materials, fashion plumbing, lighting, tools, lawn & landscape products, hardware, seasonal living, cabinets & countertops, outdoor power equipment, rough plumbing, rough electrical, nursery, home environment, walls/windows and home organization.

Our Stores

New Store Expansion

Our expansion strategy led to the opening of 155 stores in fiscal 2006 (151 new and four relocated) that included two primary prototypes: a 117,000-square-foot (117K) store for large markets and a 94,000-square-foot (94K) store to serve smaller markets. In fiscal 2007, we estimate that approximately 80% of our growth will be comprised of 117K stores in larger markets and approximately 20% of our growth will be comprised of 94K stores in smaller markets.

| | 2006 | 2005 | 2004 |
|--|-------|-------|-------|
| Number of stores, beginning of fiscal year | 1,234 | 1,087 | 952 |
| New stores opened | 151 | 147 | 136 |
| Relocated stores opened | 4 | 3 | 4 |
| Stores closed (including relocated stores) | (4) | (3) | (5) |
| Number of stores, end of fiscal year | 1,385 | 1,234 | 1,087 |

International Expansion

In June 2005, we announced expansion plans into Canada. Based on information obtained through a thorough market assessment, we are adapting our U.S. business model to best meet the unique needs and attributes of the Canadian market. Plans are to open five to six stores in the Greater Toronto Area in the second half of fiscal 2007.

In January 2007, we announced expansion plans into Mexico. We expect to open three to five stores in Monterrey in fiscal 2009.

Investments in Existing Stores

During fiscal 2006, we continued our long history of investing in our existing stores to create a more inviting shopping experience for our retail and Commercial Business Customers. This included relamping our stores at regular intervals to ensure they remain bright, adding new displays, improving point-of-sale and directional signage, adding more product selection, repainting our building exteriors, and re-stripping our parking lots. We categorize our merchandising-related investments in our stores as follows:

4

Resets

Resets are necessary to drive comparable store sales increases and keep our stores fresh with new and innovative products. These resets involve the replacement of a particular product or vendor and do not require major changes in the store. We conducted hundreds of resets in fiscal 2006.

Remerchandising

In fiscal 2006, we completed the remerchandising of 150 of our earlier format stores to make them more closely resemble our most current store prototypes. These remerchandising efforts focused on moving entire departments, improving adjacencies, and enhancing the shopability within the appliances, cabinets & countertops, flooring, fashion plumbing, paint, walls/windows, lighting, home organization, lumber and building materials departments. In addition, we replaced or refurbished all of our selling centers, including the returns and customer service areas of these stores. All new interior graphics, signage, and way-finding materials were also added to increase shopability and brighten the atmosphere. Finally, we installed self check-out in all 150 of our remerchandised stores. We were able to remerchandise these stores with minimal disruption to our customers. We continuously make these investments to maintain our best-in-class stores. These enhancements enable our stores to continue to deliver the sales performance we expect, and also offer customers the shopping experience and environment they deserve.

Serving Our Customers

Our vision is to be our customers' first choice for home improvement. To achieve this vision, we continue to focus on excellent customer service, Everyday Low Prices, and innovative operational, merchandising, marketing and distribution strategies. We believe customers' perceptions of the quality of service determine a retailer's success or failure. Therefore, we are always looking for ways to improve our level of service, optimize store labor and drive in-store process improvement, build our talent pool, and enhance our sales culture. The following are several key initiatives we believe will continue to support our growth and success going forward.

Specialty Sales

We recognize the opportunity that our Specialty Sales initiatives represent and the importance of these businesses to our long-term growth. Our Specialty Sales initiatives include three major categories: Installed Sales, Special Order Sales and Commercial Business Customer sales, internally referred to as the "Big 3." In addition, our effort to utilize e-Commerce to drive sales and conveniently provide product information to customers is managed by our Specialty Sales group.

Installed Sales

We offer installation services in over 40 categories with flooring, millwork and cabinets & countertops generating the highest sales. Our Installed Sales model, which includes the separation of selling and administrative tasks, allows our sales associates to shift their focus to project selling, while project managers ensure that the details related to an installation job are efficiently executed. Installed Sales, which includes both product and labor, has proven to be a successful service initiative accounting for approximately 6% of total sales in fiscal 2006. We also continue to refine our offerings, including an ongoing test of an in-home selling model for certain Installed Sales categories.

Special Order Sales

Our Special Order Sales product offerings provide our customers the opportunity to select a wider assortment of product options beyond the approximately 40,000 we carry in our stores. We are making the Special Order Sales process easier for customers by providing more product displays and electronic product catalogs in our stores, as well as on Lowes.com. We continue to enhance integrated design tools and ordering systems storewide in order for customers to envision projects, as well as to efficiently receive quotations and complete an order.

Special Order kiosks are available in departments such as appliances, walls/windows, lighting, millwork, hardware, building materials, seasonal living, fashion plumbing and tools for facilitating special orders in addition to what is

made available on Lowes.com. Whether these kiosks are electronic or literature-based, all facilitate the ability of customers to view product pictures, and special order over a million products and parts.

Our flexible fulfillment initiative is intended to allow for faster and more efficient delivery of Special Order products to customers, while at the same time manage our inventory investment. Under this approach, certain items that do not have enough individual store demand to be economically stocked in all stores, but have sizeable demand across a group of stores, will be kept on hand in our distribution centers. This allows for fast shipment to our stores, or in some cases, direct shipment to a customer's home. Our flexible fulfillment initiative allows us to balance quickly satisfying customers' needs with a desire to minimize our inventory investment. We will continue to refine and enhance this fulfillment option in fiscal 2007.

Commercial Business Customers

Growth in sales to Commercial Business Customers remained strong in fiscal 2006. Our focus is to continue offering exceptional service to construction, residential property management, and business maintenance customers. Because we understand that time is money for these businesses, we continue to focus on ways to tailor our product and service offerings for these customers to quickly find what they need, when they need it.

In order to enable Commercial Business Customers to quickly access the products they need, our stores are merchandised with high-volume, take-with product appropriate for the season. We continue to evaluate and expand our contractor packs, which are economical quantities of the items Commercial Business Customers use most. In addition, Commercial Business Customers can phone or fax their orders in advance for pickup the same day or the next day, depending on the time of day the order is placed. For added convenience, we deliver to job sites seven days a week in most areas. We want to be a valued business partner to Commercial Business Customers, so we ensure our LowesForPros.com site features up-to-date articles, job estimators and business forms, e-newsletters, statistics and other vital information that Commercial Business Customers can use for their business.

e-Commerce

Our multi-channel capabilities enable customers to buy at the store or online. Lowes.com is an information and e-Commerce destination for customers around the world. Our site facilitates customers researching, comparing and buying Lowe's products and services wherever and whenever they desire. We offer how-to and buying guides online to help customers make smarter, more informed buying decisions and to empower them in their home improvement projects. We also offer customers the ability to check product availability at their local store and our direct-ship facilities, and offer store pick-up and hassle-free returns regardless of where the product was purchased. As more and more people are using the internet to research the products they want, we continue to add content to our site and enhance our merchandise selection to meet their needs. We remain committed to the internet as a channel for future growth.

Everyday Low Prices

Our customers do not have to wait for a sale to find a great value. We offer low prices every day. Our promise to customers is that if they find a lower everyday or advertised price on an identical stock product at a local competitor, we will not just match that price, but we will beat it by 10%.

Credit Financing

We offer a proprietary credit card for retail customers. In fiscal 2006, we launched Lowe's Project Card in all stores. Lowe's Project Card provides a major project, in-store financing solution to complement our Lowe's Customer Revolving Credit Card. Lowe's Project Card provides consumers an APR as low as 7.99% (ranging from 7.99% to 17.99%), credit lines up to \$30,000 with repayment terms from 48 months to 120 months, and low fixed monthly payments. A project window allows customers to purchase with no payments or interest accrual for a six-month period after the first purchase.

We feature proprietary credit programs for Commercial Business Customers. These programs include a Lowe's Business Account, which is ideal for small- to medium-size businesses and offers minimum monthly payments; and Lowe's Accounts Receivable, which is ideal for medium- to large-size businesses that pay in full each month.

In addition, we accept Visa®, MasterCard®, Discover® and American Express® credit cards, as well as debit cards.

Self-Checkout

To meet customer expectations for convenience at all levels of the shopping experience, we have self-checkout in approximately 400 of our stores. All product types and quantities are permitted, most tender types are accepted and the customer interface is bi-lingual. Our plan for fiscal 2007 is to add self-checkout to over 250 additional stores, which includes stores that will be remerchandised as well as all new stores.

Our Products

A typical Lowe's home improvement store stocks approximately 40,000 items, with hundreds of thousands of items available through our Special Order Sales system. Each store carries a wide selection of national brand name merchandise such as KitchenAid®, Samsung, Whirlpool®, Pella®, Werner®, Kohler®, DeWalt®, John Deere, Troy-Bilt®, Jenn-Air®, Bosch® and many more. Our merchandise selection provides the DIY retail, DIFM and Commercial Business Customer a one-stop shop for products needed to complete home improvement, repair, maintenance or construction projects. See page 42 of Lowe's 2006 Annual Report to Shareholders for the table summarizing sales by product category for each of the last three fiscal years.

Lowe's Exclusives

In many product categories, customers look for a brand they know and trust to instill confidence in their purchase. To further differentiate our offering, we carry many brands that are exclusive to Lowe's. These unique brands cover several categories like paint, lighting, flooring, walls/windows, tools and more, and give our customers superior performance and results. Exclusive brand names such as Premier Living™, Kobalt®, Portfolio®, Harbor Breeze®, Reliabl® and Perfect Flame™ and Top-Choice® Lumber are found only at Lowe's.

We continue to cultivate and create strategic alliances with our vendor partners in an effort to enhance our market share where such partnerships are advantageous to the customer, our Company and our vendors. We are also concentrating on increasing the electronic exchange of item and order information with our vendors, improving data integrity and reducing errors, leading to fewer returns and order changes and a better overall customer experience.

Product Sourcing

We source our products from approximately 7,000 merchandise vendors worldwide, with no single vendor accounting for more than five percent of total purchases. Management believes that alternative and competitive suppliers are available for virtually all our products. Where product specifications and customer preferences permit, we purchase directly from foreign manufacturers, avoiding third-party importers. This provides savings for our customers and both brand building and gross margin improvement opportunities for Lowe's.

Distribution Network

To efficiently move product from our vendors to our stores and maintain in-stock levels, we own and operate 11 highly-automated regional distribution centers (RDCs). The RDCs are strategically located in North Carolina (2), Georgia (1), Indiana (1), Pennsylvania (1), Texas (1), California (1), Ohio (1), Florida (1), Connecticut (1), and Wyoming (1). On average, each RDC serves 126 stores. We expect to open additional RDCs in Rockford, Illinois, and Lebanon, Oregon, in fiscal 2007, and are planning for an additional RDC in fiscal 2008.

We also operate 13 flatbed distribution centers to distribute merchandise that requires special handling due to size or type of packaging such as lumber, boards, panel products, irrigation pipe, vinyl sidings, ladders and building materials. We own 12 of these flatbed distribution centers, and we lease one flatbed distribution center. We expect to open two additional flatbed distribution centers in fiscal 2007.

We also operate four facilities to support our import business, Special Order Sales, and internet fulfillment. We own two of these facilities, and we lease two of these facilities. In addition, we utilize two third-party transload facilities. These facilities do not hold inventory, but are the first point of receipt for imported products. The transload facilities sort and allocate products to RDCs based on individual store demand and forecasts.

On average in fiscal 2006, nearly 70% of the stock merchandise we purchased was shipped through our distribution network, while the remaining portion was shipped directly to stores from our vendors. In the fourth quarter of fiscal 2006, we reached nearly 75%.

Building Our Brand

Television, radio, newspaper, magazine, direct mail, sponsorships, internet, and in-store programs all play a critical role in helping us reach customers. Each marketing initiative is based on understanding customers in terms of demographics, needs, expectations, insights and beliefs as these relate to the home, home improvement and business.

Broadcast - Television, Radio

We continued to utilize national television to build brand awareness and positioning. We supplemented our national broadcast advertising in key markets with local television and radio. National radio was used to support major promotional events throughout the year, in particular during key holiday weekends like the Fourth of July. We also continued to foster relationships with cable network partners such as HGTV (Home and Garden Television), BET (Black Entertainment Television) and Univision.

Print - Newspaper, Magazine

We implemented an enhanced print plan in fiscal 2006 that included national magazine advertising and ROP (Run of Press) newspaper ads. Circulars remained a critical avenue for reaching customers with our Everyday Low Price message and wide product and service selection.

Direct to Consumer

In fiscal 2006, we continued to refine programs to respond to the changing needs and lifestyles of consumers. Through innovative database technology, we created direct mail campaigns based on precise criteria such as purchase activity, affinity group memberships, home purchases and sales, household demographics and even regional weather patterns. Additionally, an opt-in e-mail program links up with Lowe's affinity groups, including subscribers to our bi-monthly magazine *Lowe's Creative Ideas*®, as well as members of Lowe's Woodworkers Club, Lowe's Garden Club and Team Lowe's Racing Fan Club. This fosters an ongoing relationship with customers even when they are not in a Lowe's store.

Multicultural Marketing

We continued to produce marketing and communications designed to reach specific cultural segments, including the growing number of Hispanic and African-American home improvement consumers. Print, direct mail, point-of-purchase materials and television are just a few of the channels through which we communicated with these consumer groups. To make shopping easier for Hispanic customers, we continued to expand bi-lingual store signage. At the end of fiscal 2006, nearly 78% of the stores had bi-lingual way-finding signage.

Team Lowe's Racing

As one of the world's fastest growing sports, NASCAR is an important part of building our brand. We are the proud sponsor of Jimmie Johnson, the 2006 NASCAR Nextel® Cup Series champion, and the #48 car, the #5 car in the Busch® Series, and Lowe's Motor Speedway. We also host hospitality events at various sites throughout the racing season, leveraging and further building membership in the Team Lowe's Racing Fan Club. In 2006, we continued to foster our relationship with Adrian Fernandez, who drove in several NASCAR Busch® Series races for Lowe's. In addition, we teamed up with Adrian Fernandez and Fernandez Racing to field the #12 car in the 14-race Grand American Rolex Sports Car series.

Reaching Out

We believe community involvement extends beyond the boundaries of our stores. Following are some examples of how we are partnering with respected organizations to make a difference in communities and homes across America.

Habitat for Humanity

Lowe's is a national partner with Habitat for Humanity International, helping provide safe, affordable housing for thousands of working families. Lowe's contributed more than \$5 million to Habitat projects in 2006 and Lowe's employee volunteers gave hands-on support at home sites coast-to-coast to help Habitat families build their dreams.

Lowe's is also the national underwriter of Habitat for Humanity's Women Build program, empowering women volunteer teams in the construction of Habitat homes. The volunteers in this program built more than 50 homes in 2006.

American Red Cross

As a national Disaster Relief partner with the American Red Cross, Lowe's made it easier for the Red Cross chapters to respond to disasters such as floods and tornadoes with much-needed supplies from local stores. We also worked side-by-side with the Red Cross at hurricane fairs along the Gulf and East coasts. In 2006, Lowe's contributed more than \$500,000 to the American Red Cross, including customer and employee donations.

The Home Safety Council

Founded by Lowe's in 1993, The Home Safety Council is a nonprofit organization with a vision of creating safer American homes. In 2006, we, along with our vendors, helped reach thousands of children and families with vital safety information.

Lowe's Charitable and Educational Foundation

Founded in 1957, the Lowe's Charitable and Educational Foundation (LCEF) has a long and proud history of contributing to grassroots community projects. LCEF's primary philanthropic focus areas include community and public school improvement projects, safe and affordable housing, and education scholarships. LCEF provides funding only to

501(c)(3) organizations in communities where we operate stores or distribution centers. In 2006, LCEF awarded more than \$15 million for community improvement projects and K-12 public school initiatives.

Lowe's Heroes

Lowe's Heroes employee volunteers tackle local problems in their communities. In 2006, Lowe's stores worked with representatives from nonprofit organizations and concerned individuals from their communities to help improve schools, build Habitat for Humanity homes or address safety issues—making their communities better places to live.

Lowe's Employee Relief Fund

Lowe's Employee Relief Fund is dedicated to distributing emergency funds to our employees who face financial hardships due to natural disasters, house fires or illness. The Company matches employee donations to the Fund. Since 1999, Lowe's Employee Relief Fund has assisted more than 4,000 employees with more than \$5 million in funds.

Our Market

We estimate the size of the U.S. home improvement market to be approximately \$725 billion annually, \$560 billion of product demand, and \$165 billion of installed labor opportunity. Data from a variety of primary and secondary sources, including trade associations, government publications, industry participants and other sources was analyzed as the basis for our estimate. This estimate includes import and export data and key end-use markets, such as residential repair and remodeling, and nonresidential construction and maintenance. This data also includes a wide range of categories relevant to our business, including major appliances and garden supplies.

As we continue to monitor economic data and the home improvement marketplace, there are many indicators demonstrating continued strength in consumer demand for the products and services we offer. The key indicators we monitor include personal income, employment growth, housing turnover and home ownership levels. Demographic and societal trends also remain supportive of home improvement industry growth.

- § Personal disposable income continues to grow, which is supported by data from the March 2007 Blue Chip Economic Indicators™, which forecasts real disposable income growth of 3.3% for calendar 2007, compared with 2.6% for calendar 2006.
- § Employment growth is a strong indicator of home improvement sales. The historically low unemployment rate of 4.5% suggests Americans will likely be more confident in calendar 2007 about employment prospects than in the past several years.
- § Housing turnover has slowed from the record pace of calendar 2005, according to The National Association of Realtors®, but the most recent data suggests encouraging signs of stabilization in housing turnover in calendar 2007.
- § Near record U.S. homeownership levels provide an established customer base for home maintenance and repair projects. The vast majority of our customers are homeowners and they are not willing to let what is often their most valuable financial asset deteriorate.

The home improvement retailing business includes many competitors. We compete with a number of traditional hardware, plumbing, electrical and home supply retailers, as well as other chains of warehouse home improvement stores and lumberyards in most of our trade areas. In addition, we compete, with respect to some of our products, with discount stores, mail order firms, warehouse clubs and online retailers. The principal competitive factors are customer service, location, price, product and brand selection, and name recognition.

Information Systems

We are continuously assessing and upgrading our information systems in an effort to support growth, augment new sales initiatives, control costs and enable better decision-making. During the last several years, we have made a substantial investment in developing and purchasing new computer systems.

We have a point-of-sale system, electronic bar code scanning system, various design systems, a wired and wireless network, and dual UNIX servers in each of our stores. These systems provide the stores with real-time perpetual inventory information, support all in-store selling, provide labor management, and provide support for a variety of store administrative functions. In addition, these store systems provide the customer support center functions, including inventory replenishment, finance, human resources and merchandising with information needed to support the stores. Store information is communicated to the customer support center's central computers via a terrestrial based (MPLS) network with back-up provided by a satellite-based wide area network. These corporate systems provide customer checkout with automated credit card and check approval, host a variety of centralized design and specialty order systems for the stores, provide store-based perpetual inventory information, provide sales performance reporting, and support accurate processing of all store sales transactions. In addition to the store and corporate office computing infrastructure, we also have significant computing capacity at each RDC to support these highly automated facilities.

9

Index

We have invested significant resources to safeguard sensitive employee and customer information. We work closely with industry standards groups to incorporate security best practices into our technology environment. Our state-of-the-art data center provides many additional fail-safe features to improve system availability and mitigate risks associated with unplanned outages. We expect to open a second Lowe's owned and operated data center in fiscal 2007. This facility will allow us to in-source our current disaster recovery capabilities and provide more robust capabilities to support our future growth.

Employees

As of February 2, 2007, we employed approximately 157,000 full-time and 53,000 part-time employees, none of which are covered by collective bargaining agreements. Management considers its relations with its employees to be good.

Available Information

Our internet website address is: www.Lowes.com. Our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, are made available free of charge through our website as soon as reasonably practicable after such documents are electronically filed with, or furnished to, the Securities and Exchange Commission.

Item 1A. - Risk Factors

We are exposed to a variety of risks and uncertainties. Most are general risks and uncertainties applicable to all retailers, but some are more particular to retailers serving the home improvement industry. Our operations may also be affected by factors that are either not currently known to us or which we currently consider immaterial to our business. We describe below some of the specific known factors that could negatively affect our business, financial condition and results of operations. All forward-looking statements made by us in this Annual Report to the Securities and Exchange Commission on Form 10-K, in our Annual Report to Shareholders and in our subsequently filed quarterly and current reports to the Securities and Exchange Commission, as well as in our press releases and other public communications, are qualified by the risks described below.

Our sales are dependent upon the health and stability of the general economy.

General economic factors and other conditions, both domestically and internationally, may adversely affect the United States, the global economy and our financial performance, including, but not limited to, acts of terrorism, developments in the war against terrorism in Asia and the Middle East, natural disasters, increasing fuel and energy costs, inflation or deflation of commodity prices, recession, consumer debt levels and the volatility of financial markets.

Adverse changes in economic factors specific to the home improvement industry may negatively impact the rate of growth of our net sales and comparable store sales.

Sales of many of our product categories and services are driven by housing turnover and activity level of home improvement projects. Many of those sales are to consumers who are either doing the home improvement projects themselves or using our installation services, but many others are to professionals who are in the business of providing construction, renovation, and property maintenance services. Rising interest-rates, reduction in the availability of credit, increased heating and gas expenses, slowing housing turnover and slowing home-price appreciation could limit consumers' discretionary spending or affect their confidence level and lead to reduced spending on home improvement projects. The impact of these economic factors specific to the home improvement industry would be exacerbated by a weak job market.

Unseasonable weather and adverse weather conditions can negatively affect our net sales and comparable store sales.

Wet and cold weather, particularly during the spring and early summer months of the year when many of the products we sell are designed for outdoor use, are generally detrimental to our sales and can make it difficult to sell seasonal merchandise. Although the impact of adverse weather conditions is mitigated by the geographic dispersion of our stores, unseasonable weather is a risk to the performance of our business in any given season or year.

Our store expansion and relocation strategy depends upon our ability to successfully open, relocate and operate new stores each year.

Our growth in net sales depends to a substantial degree on successfully and cost-effectively implementing our ongoing, aggressive expansion program. We must adapt our merchandising, marketing and distribution initiatives to new markets, both domestically and, going forward, in Canada and Mexico. We also plan to increase the number of our stores in markets in which we currently operate. Our ability to open additional stores depends, in large measure, upon our ability to locate and acquire new store sites on acceptable terms. Local land use and other regulations restricting the construction of buildings in the formats with which we operate may affect our ability to open new stores in some markets. As we develop more new stores in metropolitan markets, we may incur increased costs to remediate environmental pollution on some of the sites we are redeveloping that was caused by previous owners of those sites. Increased real estate, construction and development costs could also limit our growth opportunities. Our ability to continue to expand our operations depends also on our ability to attract and retain a large and growing number of qualified employees. If we are unable to

open new stores at the rate we currently plan to do so and staff them with qualified employees, the growth in our sales and our competitive position could be adversely affected.

If we fail to hire, train and retain qualified managers, sales associates and other employees we could lose sales to our competitors.

Customers' perceptions of the quality of service provided by employees can determine any retailer's success or failure. Competition for qualified store managers and sales associates among retailers in the home improvement retailing business is intense, and if we fail to attract, train and retain qualified managers and sales associates our financial performance could be adversely impacted. Consumers shopping for goods and services for home improvement projects expect to have sales associates serving them who are knowledgeable about product categories located throughout our stores.

Excessive turnover, which has historically been high among employees in entry-level or part-time positions, increases the risk that sales associates will not have the training and experience needed to provide competitive, high quality customer service.

Our Commercial Business Customers demand a higher level of customer service that is challenging to meet on a consistent basis.

Commercial Business Customers in the home improvement industry expect to have their business handled by commercial sales specialists with an even greater depth of knowledge about the products these customers need. If we fail to staff our commercial sales desks with experienced and knowledgeable employees, we run the risk that we will lose Commercial Business Customers.

We have many competitors, who, if we fail to execute our merchandising, marketing and distribution strategies effectively, could take sales and market share from us.

We operate in a highly competitive market for home improvement products and services and have numerous large and small, direct and indirect competitors. The principal competitive factors in our industry include location of stores, price and quality of merchandise, in-stock consistency, merchandise assortment and presentation, and customer service. Our failure to respond effectively to competitive pressures and changes in the retail markets could affect our financial performance. Moreover, unanticipated changes in the pricing and other practices of our competitors, including the effects of competitor liquidation activities, may impact our expected results.

An unusual number of product liability or breach of warranty claims for defective products could expose us to expensive claims and damage our standing with our customers.

We are exposed to product liability and product warranty claims relating to the products we sell that could adversely affect our financial condition, results of operations and cash flows. Because we do not have direct control over the quality of products manufactured or supplied to us by our vendors and because we self-insure for such product liability and warranty claims, we are exposed to risks relating to the quality of such products. Product liability claims can be expensive to defend and can divert the attention of management and other personnel for significant periods, regardless of the ultimate outcome. Claims of this nature could also have a negative impact on customer confidence in the products we stock and in our reputation.

Our financial performance could suffer if we fail to properly maintain our critical information systems or if those systems are seriously disrupted.

An important part of our efforts to achieve efficiencies, cost reductions, and sales and cash flow growth is the identification and implementation of improvements to our management information systems to improve operations such as inventory replenishment systems, merchandise ordering, transportation, and receipt processing. Our financial performance could be adversely affected if our management information systems are seriously disrupted or we are unable to improve, upgrade, maintain, and expand our systems.

If the domestic and international supply chain for the products we stock is disrupted, our sales and gross margin would be adversely impacted.

We source the approximately 40,000 products we stock and sell from approximately 7,000 domestic and international vendors. We source many of those products directly from foreign manufacturers. Political or financial instability among suppliers, trade restrictions, tariffs, currency exchange rates and transport capacity and costs are beyond our control and could negatively impact our business if they seriously disrupted the movement of products through our supply chain.

Our inability to effectively manage our relationships with selected suppliers of brand name products could negatively impact our ability to differentiate ourselves from competitors.

Part of our expansion strategy includes continued differentiation from competitors. To better distinguish our product offering, we form strategic relationships with selected suppliers to market and develop products under a variety of recognized and respected brand names. The inability to effectively and efficiently manage the relationships with these suppliers could negatively impact our business plan and financial results.

Item 1B. - Unresolved Staff Comments

None.

Item 2 - Properties

At February 2, 2007, we operated 1,385 stores in 49 states with a total of 157 million square feet of selling space. We are currently constructing two primary prototype stores, a 117K store for larger markets and a 94K store used primarily to serve smaller markets. Both prototypes include a lawn and garden center, averaging an additional 31,000 square feet for 117K locations and 26,000 square feet for 94K locations. Of the total stores operating at February 2, 2007, approximately 86% are owned, which includes stores on leased land, with the remainder being leased from unaffiliated third parties. Approximately 50% of our store leases are capital leases. We also own and operate 11 RDCs and 12 flatbed distribution centers for lumber and building commodities. We lease and operate one flatbed distribution center. We also operate four facilities to support our import business, special order sales, and internet fulfillment. We own two of these facilities, and we lease two of these facilities. In addition, we utilize two third-party transload facilities. These facilities do not hold inventory, but are the first point of receipt for imported products. We own our executive offices, which are located in Mooresville, North Carolina. We also own and maintain offices in Wilkes County, North Carolina.

Item 3 - Legal Proceedings

We are a defendant in legal proceedings considered to be in the normal course of business, none of which, individually or collectively, are considered material.

Item 4 - Submission of Matters to a Vote of Security Holders

None.

Part II

Item 5 -Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Lowe's common stock is traded on the New York Stock Exchange (NYSE). The ticker symbol for Lowe's is "LOW". As of March 23, 2007, there were 31,770 holders of record of Lowe's common stock. The table, "Lowe's Quarterly Stock Price Range and Cash Dividend Payment", on page 44 of the 2006 Lowe's Annual Report to Shareholders for the fiscal year ended February 2, 2007 sets forth, for the periods indicated, the high and low sales prices per share of the common stock as reported by the NYSE Composite Tape and the dividends per share declared on the common stock during such periods.

In January 2005, the Board of Directors approved a program under which the Company was authorized to repurchase up to \$1 billion of the Company's common stock through fiscal 2006. In January and August 2006, the Board of Directors authorized up to an additional \$1 billion and \$2 billion in share repurchases through fiscal 2007 and 2008, respectively. The Company expects to implement the balance of the program through purchases made from time to time either in the open market or through private transactions, in accordance with regulations of the SEC. An insignificant number of shares were repurchased during the fourth quarter of 2006. As of February 2, 2007, the total remaining authorization under the share repurchase program was \$1.5 billion.

Item 6 - Selected Financial Data

See pages 42 through 43 of the Lowe's 2006 Annual Report to Shareholders.

Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations

See "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages 18 through 25 and "Disclosure Regarding Forward-Looking Statements" on page 26 of Lowe's 2006 Annual Report to Shareholders.

Item 7A - Quantitative and Qualitative Disclosures about Market Risk

See "Quantitative and Qualitative Disclosures About Market Risk" on page 25 of Lowe's 2006 Annual Report to Shareholders.

Item 8 - Financial Statements and Supplementary Data

See "Report of Independent Registered Public Accounting Firm" of Deloitte & Touche LLP on page 27, the financial statements and notes thereto on pages 28 through 41, and the "Selected Quarterly Data" on page 43 of Lowe's 2006 Annual Report to Shareholders filed as Exhibit 13 hereto.

Item 9 - Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

14

Index

Item 9A - Controls and Procedures

The Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's "disclosure controls and procedures", (as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, (the "Exchange Act")). Based upon their evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the Securities and Exchange Commission (the SEC) (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

In addition, based on that evaluation, no change in the Company's internal control over financial reporting occurred during the fiscal fourth quarter ended February 2, 2007 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's report on internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) and the attestation report of Deloitte & Touche LLP, the Company's independent registered public accounting firm, on management's assessment of internal control over financial reporting are included in Lowe's 2006 Annual Report to Shareholders on pages 26 and 27 under the headings, "Management's Report on Internal Control Over Financial Reporting" and "Report of Independent Registered Public Accounting Firm," respectively, and are incorporated herein by reference.

Item 9B - Other Information

None.

Item 10 - Directors, Executive Officers and Corporate Governance

Information required by this item is furnished by incorporation by reference to all information under the captions entitled, "Election of Directors," "Information Concerning the Nominees," "Information Concerning Continuing Directors," "Information about the Board of Directors and Committees of the Board," and "Section 16(a) Beneficial Ownership Reporting Compliance" included in the definitive Proxy Statement which will be filed pursuant to regulation 14A, with the SEC within 120 days after the fiscal year ended February 2, 2007 (the "Proxy Statement"). The information required by this item with respect to our executive officers appears in Part I of this Annual Report on Form 10-K under the caption, "Executive Officers of the Registrant. "

All employees of the Company, including its Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer are required to abide by the Lowe's Companies, Inc. and Subsidiaries Code of Business Conduct and Ethics (the "Code"). The Code is designed to ensure that the Company's business is conducted in a legal and ethical manner. The Code covers all areas of professional conduct including compliance with laws and regulations, conflicts of interest, fair dealing among customers and suppliers, corporate opportunity, confidential information, insider trading, employee relations and accounting complaints. A full text of the Code can be found at www.Lowes.com, under the "About Lowe's," "Investors" and "Code of Ethics" captions. You can also obtain a copy of the complete Code by contacting Shareholder Services at 1-888-345-6937.

We will disclose information pertaining to amendments or waivers to provisions of our Code that apply to our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions and that relate to the elements of our Code enumerated in the SEC rules and regulations by posting this information on our website at www.Lowes.com. The information on our website is not a part of this Annual Report and is not incorporated by reference in this report or any of our other filings with the SEC.

Item 11 - Executive Compensation

| Consolidated Statements of Shareholders' Equity for each of the three fiscal years in the period ended February 2, 2007 | 30 |
| Consolidated Statements of Cash Flows for each of the three fiscal years in the period ended February 2, 2007 | 31 |
| Notes to Consolidated Financial Statements for each of the three fiscal years in the period ended February 2, 2007 | 32-41 |

2. **Financial Statement Schedules**

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Lowe’s Companies, Inc.
 Mooresville, North Carolina

We have audited the consolidated financial statements of Lowe’s Companies, Inc. and subsidiaries (the “Company”) as of February 2, 2007 and February 3, 2006, and for each of the three fiscal years in the period ended February 2, 2007, management's assessment of the effectiveness of the Company's internal control over financial reporting as of February 2, 2007, and the effectiveness of the Company's internal control over financial reporting as of February 2, 2007, and have issued our reports thereon dated April 3, 2007; such consolidated financial statements and reports are included in the Company’s 2006 Annual Report to Shareholders and are incorporated herein by reference. Our audits also included the consolidated financial statement schedule of the Company listed in Item 15. This consolidated financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion based on our audits. In our opinion, such consolidated financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

Charlotte, North Carolina
 April 3, 2007

SCHEDULE II - VALUATION AND QUALIFYING ACCOUNTS AND RESERVES

| (In Millions) | Balance at beginning of period | Charges to costs and expenses | Deductions | Balance at end of period |
|--|--------------------------------------|--|-------------|-----------------------------------|
| February 2, 2007: | | | | |
| Reserve for loss on obsolete inventory | \$ 104 | \$ - | \$ (38) (a) | \$ 66 |
| Reserve for inventory shrinkage | 113 | 455 | (439) (b) | 129 |
| Reserve for sales returns | 54 | 1 (c) | - | 55 |
| Self-insurance liabilities | 571 | 674 | (595) (d) | 650 |
| Store closing liability | 23 | 2 | (6) (e) | 19 |
| February 3, 2006: | | | | |
| Reserve for loss on obsolete inventory | \$ 77 | \$ 27 (a) | \$ - | \$ 104 |
| Reserve for inventory shrinkage | 94 | 376 | (357) (b) | 113 |
| Reserve for sales returns | 37 | 17 (c) | - | 54 |
| Self-insurance liabilities | 467 | 608 | (504) (d) | 571 |
| Store closing liability | 24 | 9 | (10) (e) | 23 |
| January 28, 2005: | | | | |
| Reserve for loss on obsolete inventory | \$ 61 | \$ 16 (a) | \$ - | \$ 77 |
| Reserve for inventory shrinkage | 82 | 335 | (323) (b) | 94 |
| Reserve for sales returns | 26 | 11 (c) | - | 37 |
| Self-insurance liabilities | 366 | 480 | (379) (d) | 467 |
| Store closing liability | 19 | 16 | (11) (e) | 24 |

- (a): Represents increase/(decrease) in the required reserve based on the Company's evaluation of obsolete inventory.
(b): Represents the actual inventory shrinkage experienced at the time of physical inventories.
(c): Represents increase in the required reserve based on the Company's evaluation of anticipated merchandise returns.
(d): Represents claim payments for self-insured claims.
(e): Represents lease payments, net of sublease income.
