Section 8 – Other Events

Item 8.01. Other Events

As previously disclosed, LSB Industries, Inc.'s (the "Company") subsidiary operating in Pryor, Oklahoma ("Pryor Facility") began limited production of anhydrous ammonia in January 2010 and began limited production of urea ammonium nitrate ("UAN") in March 2010. Due to a fire on June 18, 2010 in its ammonia plant's reformer, the Pryor Facility is unable to produce anhydrous ammonia or UAN. The fire was immediately extinguished, and there was no environmental release as result of the fire. Also, the Company is not aware of any injuries resulting from the fire. The Company is determining the extent of the damages, and based upon its current assessment, anticipates that due to lead times for replacement parts, the repairs will be completed in approximately 90 days. The Company has notified its insurer of this event. The Company's insurance policy, which provides replacement cost coverage, has a \$1 million deductible for property damage. The Company's business interruption insurance covering certain lost profits and extra expense has a 30 day waiting period with \$250,000 deductible.

This report contains certain forward-looking statements within the meaning of the Private Securities Litigation Act of 1995. These forward-looking statements generally are identifiable by use of the words "believes," "expects," "intends," "anticipates," "plans to," "estimates," "projects", "appears" or similar expressions, and such forward-looking statements include but are not limited to, "based on its current assessment, anticipates that due to lead times for replacement parts the repairs will be completed in approximately 90 days". Investors are cautioned that such forward-looking statements are not guarantees of future performance and involve risk and uncertainties, and that actual results may differ materially from the forward-looking statements as a result of various factors, including, but not limited to, general economic conditions; weather conditions, equipment failure, obtaining replacement parts other interruptions in production, cash-flow requirements, and certain other factors set forth under "A Special Note Regarding Forward-Looking Statements" contained in the Form 10-K for year ended December 31, 2009 and quarterly report on Form 10-Q for quarter ended March 31, 2010, for a discussion of a variety of additional factors which could cause the future outcome to differ materially from the forward-looking statements contained in this press release.
