Report of Independent Registered Public Accounting Firm

The Administrative Subcommittee of
The 401(k) Plan and the Employee Stock Ownership
Plan of CVS Caremark Corporation and Affiliated Companies

We have audited the accompanying Statements of Net Assets Available for Benefits of The 401(k) Plan and the Employee Stock Ownership Plan of CVS Caremark Corporation and Affiliated Companies as of December 31, 2013 and 2012, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The 401(k) Plan and the Employee Stock Ownership Plan of CVS Caremark Corporation and Affiliated Companies at December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental Schedule of Assets (Held at End of Year) as of December 31, 2013, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements
Years Ended December 31, 2013 and 2012

Note 1 - Plan Description

The following description of The 401(k) Plan and the Employee Stock Ownership Plan (the “ESOP”) of CVS Caremark Corporation and Affiliated Companies (the “Plan”) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan’s provisions.

(a) Background

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The general administration of the Plan and the responsibility for carrying out the provisions of the Plan are maintained by a committee (the “Benefit Plans Committee”) of not less than three persons appointed by the Board of Directors of CVS Caremark Corporation (“CVS Caremark” or the “Company”), the sponsor of the Plan. In accordance with the provisions of the Plan, the Benefit Plans Committee has appointed a plan administrator (the “Administrator”) and trustees (the “Trustee”). The Administrator maintains participant account records and instructs the Trustee to execute transactions such as benefit payments to participants. The Trustee holds the assets of the Plan and executes transactions at the direction of the Benefit Plans Committee and the Administrator. Effective January 2009, the Benefit Plans Committee further named an Administrative Subcommittee and an Investment Subcommittee and delegated certain fiduciary duties to each of the Committees.

The Plan was established as of January 1, 1989.

Effective December 31, 2012, the CareSave 401(k) Retirement Savings Plan was merged into the Plan. The CareSave 401(k) Retirement Savings Plan (“CareSave”) was the defined contribution plan established in 1998 by Caremark Rx, L.L.C. to provide benefits to eligible Caremark employees, not otherwise eligible to participate in this Plan. Caremark employees who were eligible to participate in the CareSave plan on or before December 31, 2012 became eligible to participate in the Plan effective January 1, 2013. The merger resulted in a transfer of assets with a value of \$675,081,688 into the Plan on December 31, 2012, which have been included in the Statement of Net assets Available for Benefits and Statement of Changes in Net Assets Available for Benefits.

(b) Eligibility

Employees are eligible to participate in the Plan upon attainment of age 21 and on the earliest of:

- The first payroll period of the first month after completion of 90 continuous days of service as a full-time employee;
- Completion of 12 months of service beginning on the employee’s hire date with at least 1,000 hours worked; or
- Completion of at least 1,000 hours of service in the course of one calendar year.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

(b) Eligibility Continued

Employees referred to above are defined as regular employees of the Company other than:

- ✦ A nonresident alien receiving no United States ("U.S.") earned income from the Company;
- ✦ An individual covered under a collective bargaining agreement (unless the agreement provides for membership);
- ✦ A leased employee (as defined in the Internal Revenue Code (the "Code"));
- ✦ A temporary employee (as determined by the Company); or
- ✦ An independent contractor or consultant (as defined by the Company).

(c) Contributions

Participants may elect to have the Company contribute to their accounts from 1% to 85%, as a whole percentage or dollar amount, of the eligible compensation that would otherwise be due to them, in multiples of 1%, pursuant to a salary reduction agreement. Each participant's total elective deferrals for any calendar year may not exceed 85% of annual compensation or the maximum allowed by the Code; whichever is less, as specified in the Plan document. The maximum elective deferral allowed by the Code was \$17,500 and \$17,000 for 2013 and 2012, respectively.

On a quarterly basis, the Company matches in cash 100% up to 5% of eligible pre-tax compensation contributed, up to an annual maximum per employee of \$12,750 and \$12,500 for 2013 and 2012, respectively.

All employees at least age 50 in the calendar year that contribute the maximum amount to the Plan are permitted to make additional pre-tax catch-up contributions. Catch-up contributions may be made up to an additional \$5,500 for 2013 and 2012.

(d) Participant's Account

Each participant's account is credited with an allocable share of their selected Plan's investments and any unrealized appreciation or depreciation and interest and dividends of those investments.

(e) Vesting

Participants are 100% vested in participant and Company matching contributions.

Participants whose account balances have been transferred into the Plan from other defined contribution plans maintain at least the degree of vesting in the account they had at the time of the transfer. Notwithstanding the foregoing, participants are fully vested in, and have a non-forfeitable right to (1) their accounts upon retirement, death or disability, and (2) any elective deferrals described in Note 1(c).

(f) Payment of Benefits

Upon termination of service by the participant, the Administrator will direct the Trustee to pay to the participant their benefit under one or more options, such as a single lump-sum, or in equal annual installments over a period not to exceed the participant's expected lifetime.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

(g) Administrative Expenses

Administrative expenses specifically attributable to the Plan and not covered by forfeitures were funded by the Plan for 2013 and 2012. Trustee's fees were paid by the Plan for 2013 and 2012.

(h) Forfeitures

On a participant's termination date, any unvested portion of their account is forfeited at the earlier of distribution or five years from the date of termination. If a former participant resumes employment and eligibility in the Plan within five years of termination, any amounts previously forfeited are restored to the participant's account, but remain subject to the vesting provisions of the Plan. Forfeitures during any plan year are applied as follows: (i) to restore amounts previously forfeited by participants but required to be reinstated upon resumption of employment; (ii) to pay administrative expenses of the Plan; or (iii) to reduce future CVS Caremark contributions. If forfeitures for any plan year are insufficient to restore the required forfeitures, CVS Caremark shall contribute the balance required for that purpose.

Cash forfeitures for 2013 and 2012 were \$38,632 and \$14,162, respectively. There were no cash forfeitures restored to participants upon resumption of employment in 2013 or 2012. The remainder of the forfeitures for each year was applied to the administrative expenses of the plan and to reduce the CVS Caremark contribution.

(i) Investment Options

Upon enrollment in the Plan, a participant elects to direct contributions or investment balances to the investment fund options offered by the plan. Participants may modify investment elections daily thereafter. The Plan's investments are comprised of guaranteed insurance contracts, securities of CVS Caremark and securities of unaffiliated issuers. The securities in unaffiliated issuers include marketable mutual funds, security-backed investment contracts, common collective trusts and separately managed funds, comprised of marketable securities. The following is a brief explanation of each fund's investment objectives:

Aggressive Lifestyle Fund

The fund invests in the following Future Fund investment options: Small Cap Growth, Small Cap Value, International Equity, Large Cap Growth, Core Equity, Growth & Income, Diversified Bond, and U.S. Bond Index Fund. This fund has the following composite benchmarks: Russell 1000 Index, Barclays Capital Aggregate Bond Index, Standard & Poors ("S&P") 500 Composite Stock Index ("S&P 500"), Morgan Stanley Capital International ("MSCI") All Countries World Index excluding the United States ("ACWI EX US") Index, and the Russell 2000 Index.

Conservative Lifestyle Fund

The fund invests in the following Future Fund investment options: Small Cap Growth, Small Cap Value, International Equity, Large Cap Growth, Core Equity, Growth & Income, Diversified Bond, U.S. Bond Index Fund, and Stable Value Fund. This fund has the following composite benchmarks: Russell 1000 Index, Barclays Capital Aggregate Bond Index, S&P 500 Index, 3-Year U.S. Treasury Index, Russell 2000 Index, and the MSCI ACWI EX US Index.

Core Equity Fund

The Institutional Vanguard Index Fund seeks to replicate the total return of the S&P 500 by investing in stocks that make up the index. The S&P 500 Index consists mainly of large companies and represents approximately 75% of the U.S. stock market value.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

CVS Caremark Common Stock Fund

CVS Caremark Common Stock Fund seeks long-term growth and dividend income by purchasing shares of CVS Caremark common stock.

Diversified Bond Fund

The PIMCO Total Return Institutional Class Fund is a core bond fund that seeks to outperform the Barclays Capital Aggregate Bond Index. Investments may include government and corporate debt securities, mortgage and other asset-backed securities, money market instruments, and derivatives.

Global Equity Fund

The American Funds New Perspective Fund seeks long-term growth of capital by investing in a variety of foreign and domestic companies. The fund tries to outperform the MSCI World Index, which measures the performance of U.S. and international stock markets.

Growth and Income Fund

This fund is co-managed by Columbia, Mellon Capital Management and Barrow Hanley and seeks long-term growth of capital and dividend income through participation in the stock market. This fund invests primarily in the common stock of U.S.-based, well-established, medium- to large-sized companies. This blended fund is benchmarked by the Russell 1000 Value Index ("RVI").

Inflation-Protected Fund

The Vanguard Inflation-Protected Securities Fund Institutional Shares seeks to provide investors inflation protection and income consistent with investments in inflation-indexed securities. This fund invests primarily in high-quality inflation-indexed bonds issued by the U.S. government, its agencies and instrumentalities, and corporations.

International Equity Fund

The Templeton Foreign Equity Series-Primary Shares Fund seeks long-term growth of capital through participation in stock markets outside the United States. The fund invests mainly in the common stock of companies based in more developed countries, but may also include investments in developing countries. It is benchmarked by the MSCI ACWI EX US Index.

International Equity Index Fund

The Vanguard Developed Markets Index Fund seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in the major markets of Europe and the Pacific region.

Large Cap Growth Fund

This fund is co-managed by Columbus Circle, T. Rowe Price and Mellon Capital Management and seeks long-term growth of capital through participation in the stock market. The fund invests primarily in the common stock of established large companies that are based in the United States and that represent industries expected to out-perform the stock market as a whole. This fund is benchmarked by the Russell 1000 Growth Index.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

Mid Cap Index Fund

The Vanguard Mid Cap Index Fund Institutional Plus Shares seeks to track the performance of a benchmark index that measures the investment return of mid-capitalization stocks.

Moderate Lifestyle Fund

The fund invests in the following Future Fund investment options: Small Cap Growth, Small Cap Value, International Equity, Large Cap Growth, Core Equity, Growth & Income, Diversified Bond, U.S. Bond Index Fund, and Stable Value Fund. The composite benchmark has been determined as follows: Russell 1000 Index, Barclays Capital Aggregate Bond Index, S&P 500 Index, MSCI EAFE Index, Russell 2000 Index, and the 3-Year U.S. Treasury Index.

Small Cap Growth Fund

The Vanguard® Explorer™ Fund Admiral™ Shares seeks long-term growth of capital and dividend income through participation in the stock market. The fund invests primarily in stocks of relatively small companies, making it a high-risk investment with potential for large rewards. This fund is benchmarked by the Russell 2500 Growth Index.

Small Cap Index Fund

The Vanguard Small Cap Index Fund seeks to track the performance of a benchmark index that measures the investment return of small capitalization stocks.

Small Cap Value Fund

This fund is co-managed by Dimensional Fund Advisors and Wells Capital. This blended fund seeks long-term growth by investing primarily in stocks of small to medium-sized companies, which are believed to offer superior earnings growth or appear to be undervalued. This fund is benchmarked by the Russell 2000 Value Index.

Stable Value Fund

This fund is managed by Galliard Capital Management and seeks to preserve capital while generating a steady rate of return higher than money market funds provide. The fund's investments consist of cash, highly rated insurance company contracts (guaranteed investment contracts ("GICs" and "synthetic GICs")), security-backed investment contracts and bank investment contracts (common collective trusts ("CCTs")).

U.S. Bond Index Fund

The Vanguard Total Bond Market Index Fund Institutional Plus Shares seeks to generate returns that track the performance of the Barclays Capital Aggregate Bond Index and will maintain a dollar-weighted average maturity consistent with that of the index.

OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies

(a) Basis of Presentation

The Plan prepares its financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), which includes the application of accrual accounting.

(b) Investment Valuation

The value of the investments held at December 31, 2013 and 2012 is based on their fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year end. CVS Caremark common stock and common stock owned directly in the Small Cap Value Fund, Growth and Income Fund, and the Large Cap Growth Fund separately managed funds, are valued based upon quoted market prices.

The fair value of most of the Plan's common collective trust funds represents the net asset value of the underlying investments.

The Plan invests in fully benefit-responsive GICs and synthetic GICs, certain fully benefit-responsive Common Collective Trusts ("CCTs"), fully benefit-responsive security-backed investment contracts, and fully benefit-responsive insurance company separate accounts. Security-backed contracts are investment contracts issued by an insurance company or other financial institution, backed by a portfolio of bonds that are owned by the Plan. The portfolio underlying the contract is maintained separately from the contract issuer's general assets. In the case of insurance company separate accounts, the portfolio underlying the contract is maintained by the issuer, but segregated from general account assets. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the Statement of Net Assets Available for Benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(c) Benefits Paid

Distribution of benefits are recorded when paid.

(d) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities

at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

(e) Accrual Basis of Accounting

The Plan utilizes the accrual basis of accounting.

(f) Purchase and Sale of Securities

Purchases and sales of securities are made on a trade-date basis.

(g) Investment Income

Dividend and interest income is recorded when earned.

Note 3 - Fair Value Measurements

The Plan uses the three-level hierarchy for the recognition and disclosure of fair value measurements. The categorization of assets and liabilities within this hierarchy is based upon the lowest level of the input that is significant to the measurement of fair value. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy consist of the following:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 — Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active, or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument.

Level 3 — Inputs to the valuation methodology are unobservable inputs based upon management's best estimate of inputs market participants could use in pricing the asset or liability at the measurement date, including assumptions about risk.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

CCT funds: Valued at the net asset value ("NAV") as permitted by practical expedient and reported by the respective funds at each valuation date. The use of NAV is deemed appropriate as these types of investments do not have finite lives or significant restrictions on redemptions.

GICs and Synthetic GICs: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, and adjusting for the credit-worthiness of the issuer, if necessary. The discount rates range from 0.41% to 1.84% and from 0.05% to 5.56% as of December 31, 2013 and 2012, respectively.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

Security-backed investment contracts: Valued on the basis of the cumulative fair value of the underlying securities, collective funds, and wrapper contracts. Valuations for securities are furnished by independent pricing services, which determine valuations for normal institutional-size trading units of such securities using methods based on market transactions and various relationships, generally recognized by institutional traders, between securities (which includes consideration of such factors as security prices, yields, maturities and ratings). Valuation of collective funds are based on the number of units held multiplied by the net asset value of the fund. Valuations for wrapper contracts are calculated as the present value of the difference between the current wrapper fee and the contracted wrapper fee. Both the fees and discount rate used to calculate the present value are observable inputs.

Pooled separate accounts: Valued at the NAV of shares held by the plan at year end. The use of NAV is deemed appropriate as these types of investments do not have finite lives or significant restrictions on redemptions.

Mutual funds: Valued at the NAV of shares held by the plan at year end which are reported on an active market.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The market value of CVS Caremark Common Stock was \$71.57 and \$48.35 per share at December 31, 2013 and 2012, respectively.

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013 and 2012.

	Level 3 Assets Year Ended December 31,	
	2013	2012
Balance, beginning of year	\$170,146,150	\$242,024,341
Unrealized gains/(losses) relating to instruments still held at the reporting date	193,337	(20,722,111)
Purchases	230,363,172	45,782,204
Sales	(82,731,104)	(96,938,284)
Balance, end of year	\$317,971,555	\$170,146,150

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

Note 4 - Notes Receivable from Participants

Participants may obtain loans from the Plan utilizing funds accumulated in their accounts. The minimum amount which may be borrowed is \$1,000. Participants can borrow up to 50% of their vested account balance but not more than \$50,000, less their highest outstanding loan balance during the previous twelve months. The loans are repaid to the Plan through after-tax payroll deductions. The term of the loan is selected at the discretion of the participant, but may not exceed five years for a general loan and twenty-five years for a primary residence loan. Primary residence loans initiated under the former CareSave plan, which transferred into the Plan as of December 31, 2012, were permitted to have a maximum loan repayment period of up to ten years. Participants may have two loans outstanding at any time. Interest on loans is equal to the Prime Rate as of the prior month end plus 1%.

Note 5 - Investment Policy

At December 31, 2013 and 2012, most of the Plan's 401(k) related assets were allocated among the investment options discussed in Note 1(i) based on employees' elections. The investment options are recommended by an independent investment consultant and approved by the Investment Subcommittee. Employee contributions that are waiting to be processed are temporarily invested in a common collective trust fund. This common collective trust fund is also used to account for and administer notes receivable from participants. The note repayments and interest earned are allocated to each of the investment funds based upon the participants' contribution election percentages.

During 2013 and 2012, the Plan's investments, including investments purchased, sold, as well as held during the year appreciated in fair value as follows:

Asset Category	2013	2012
Common collective trust funds	\$56,764,264	\$10,405,449
Mutual funds	627,068,855	285,447,670
Common stock	582,471,001	206,574,506
	\$1,266,304,120	\$502,427,625

Note 6 - Plan Termination and Related Commitments

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Company terminates the Plan, all participants in the Plan become fully vested.

Note 7 - Federal Income Taxes

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated December 17, 2013, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

Subsequent to this determination by the IRS, the Plan was amended. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax exempt.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8 - Transactions with Parties-In-Interest

As of December 31, 2013 and 2012, certain Plan investments are investment funds managed by The Bank of New York Mellon and The Principal Trust Company. The Bank of New York Mellon is the Trustee as of December 31, 2013. The Bank of New York Mellon and The Principal Trust Company are the Trustees as of December 31, 2012, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 9 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per the financial statements	\$7,597,981,972	\$6,176,126,666
Adjustment from contract value to fair value for certain fully benefit responsive investment contracts	4,566,563	15,587,294
Net assets available for benefits per the Form 5500	\$7,602,548,535	\$6,191,713,960

The following is a reconciliation of total additions per the financial statements to total income per the Form 5500 for the year ended December 31, 2013:

	2013
Total additions per the financial statements	\$1,949,787,075
Add: Adjustment from contract value to fair value for certain fully benefit responsive investment contracts as of December 31, 2013	4,566,563
Less: Adjustment from contract value to fair value for certain fully benefit responsive investment contracts as of December 31, 2013	(15,587,294)
Total income per the Form 5500	\$1,938,766,344

Templeton Foreign Equity Series-Primary Shares Fund	441,863,482	—
EB Temporary Investment Fund II	—	538,850,429

Note 11 – Investment Contracts with Insurance Companies

The Plan invests in fully benefit-responsive GICs. The issuer maintains the contributions in a general account. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is fixed at the time the contract is entered into with the issuer and does not reset.

The Plan also invests in fully benefit-responsive security-backed investment contracts that credit a stated interest rate for a specified period of time. Investment gains and losses are amortized over the expected duration through the calculation of the interest rate applicable to the Plan on a prospective basis. Security-backed investment contracts provide for a variable crediting rate that resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The crediting rate is most affected by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the difference between the contract value and the market value of the covered investments. This difference is amortized over the duration of the covered investments. Depending on the change in duration from reset period to reset period, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened. The crediting rate can be adjusted periodically and is usually adjusted either monthly or quarterly, but in no event is the crediting rate less than zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events may include (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe

that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

THE 401(k) PLAN AND THE EMPLOYEE STOCK OWNERSHIP PLAN
OF CVS CAREMARK CORPORATION AND AFFILIATED COMPANIES

Notes to Financial Statements (Continued)
Years Ended December 31, 2013 and 2012

The GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date; however, the security-backed investment contracts generally impose conditions on both the Plan and the issuer. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default a breach of material obligation under the contract, a material misrepresentation, or a material amendment to the plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, has a decline in its long term credit rating below a threshold set forth in the contract, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. For GICs and security-backed investment contracts, payments for participant withdrawals would generally be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If a security-backed investment contract terminates due to a decline in the ratings of the issuer, the issuer may be required to pay to the Plan the cost of acquiring a replacement contract (that is, replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice. As GICs and security-backed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GICs and security-backed investment contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Additionally, the Plan can make deposit or redeem investments in security-backed investment contracts, with the issuer's consent, for portfolio reallocation as part of the ongoing management of Plan assets. No deposits may be made to a GIC contract. Except for benefit responsive participant withdrawals, no redemptions may be made to a GIC contract other than any payments scheduled in the contract before the maturity date.

Average Yields for GICs and security-backed investment contracts	2013	2012	
Based on actual earnings	1.2	% 1.3	%
Based on interest rate credited to participants	1.1	% 1.3	%
