### ONE LIBERTY PROPERTIES, INC. ANNOUNCES RESULTS OF OPERATIONS FOR THE QUARTER ENDED MARCH 31, 2007

Great Neck, New York - May 8, 2007 - One Liberty Properties, Inc. (NYSE: OLP) today announced that it had rental income for the three months ended March 31, 2007 of \$9,593,000 and net income of \$3,146,000, or \$.31 per share. Net income for the three months ended March 31, 2007 includes the Company's equity in earnings of unconsolidated joint ventures of \$144,000, or \$.01 per share, gain on disposition of a property owned by an unconsolidated joint venture of \$583,000, or \$.06 per share, interest and other income of \$584,000, or \$.06 per share, and income from discontinued operations of \$105,000, or \$.01 per share. This compares with rental income, net income and net income per share of \$7,281,000, \$3,070,000 and \$.31 per share, respectively, for the three months ended March 31, 2006. Net income for the three months ended March 31, 2006 includes equity in earnings of unconsolidated joint ventures of \$774,000, or \$.08 per share, interest and other income of \$216,000, or \$.02 per share, gain on sale of option to purchase property of \$227,000, or \$.02 per share, and income from discontinued operations of \$138,000, or \$.01 per share. The weighted average number of common shares outstanding was 10,001,000 and 9,897,000 for the three months ended March 31, 2007 and 2006, respectively.

One Liberty also reported funds from operations for the three months ended March 31, 2007 of \$4,748,000 (\$.47 per share), compared to \$4,953,000 for the three months ended March 31, 2006 (\$.50 per share). Funds from operations, calculated in accordance with the NAREIT definition, adds back to net income depreciation of properties, One Liberty's share of depreciation of its unconsolidated joint ventures and amortization of capitalized leasing expenses, and deducts from net income net gain on sale of real estate including One Liberty's share of gain on disposition of real estate of its unconsolidated joint venture.

Commenting on the results of operations and funds from operations, Fredric H. Gould, Chairman and Chief Executive Officer noted that rental income increased by \$2,312,000, or 32%, quarter over quarter. The increase in rental income is primarily a result of property acquisitions.

On the expense side, operating expenses increased by \$1,233,000, or 45%, quarter over quarter, due primarily to an increase in depreciation and amortization as a result of the ownership of additional properties and an increase in general and administrative expenses. Mr. Gould noted that general and administrative expenses increased by \$593,000, or 54%, quarter versus quarter, due to an increase in (i) professional fees (legal and accounting fees and fees of a compensation consultant retained by the Compensation Committee), (ii) the compensation of the chairman of the board and CEO pursuant to a compensation and services agreement entered into effective January 1, 2007 and other payroll increases, and (iii) restricted stock expense. Also contributing to the increase in general and administrative expenses were fees paid under the compensation and services agreement, which replaced the Company's former allocation of certain operating expenses and the payroll of "as needed" employees. The compensation and services agreement provides that for a fixed annual fee Majestic Property Management Corp., an affiliated entity, will provide to the Company the services of executives and employees (included, but not limited to, legal and accounting services) whose payroll was allocated to the Company in prior years under a shared services agreement and for services previously provided by Majestic on a fee basis, including, among other things, property management, mortgage

## Edgar Filing: ONE LIBERTY PROPERTIES INC - Form 8-K

brokerage, sales and leasing commissions, and construction supervision services. In prior years, a portion of the fees paid to Majestic were capitalized or treated as additional costs of properties sold.

Interest expense increased by \$1,042,000, or 39%, quarter versus quarter, primarily a result of mortgages placed on acquired properties.

One Liberty's equity in earnings of unconsolidated joint ventures decreased by \$630,000, or 81%, quarter versus quarter. The decrease in equity in earnings of unconsolidated joint ventures is primarily due to the sale by the Company's joint ventures of their movie theater properties in the last quarter of 2006.

One Liberty Properties is a real estate investment trust and invests primarily in improved commercial real estate under long term net lease.

Certain information contained in this press release, including information with respect to factors which may improve our future results of operations together with other statements and information publicly disseminated by One Liberty Properties, Inc. is forward looking within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended. We intend such forward looking statements to be covered by the safe harbor provision for forward looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for the purpose of complying with these safe harbor provisions. Information regarding certain important factors that could cause actual outcomes or other events to differ materially from any such forward looking statements appear in the Company's Form 10-K for the year ended December 31, 2006. You should not rely on forward looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond our control and which could materially affect actual results, performance or achievements.

	=====	=====

- (a) We believe that FFO is a useful and a standard supplemental measure of the operating performance for equity REITs and is used frequently by securities analysts, investors and other interested parties in evaluating equity REITs, many of which present FFO when reporting their operating results. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate assets, which assures that the value of real estate assets diminish predictability over time. In fact, real estate values have historically risen and fallen with market conditions. As a result, we believe that FFO provides a performance measure that when compared year over year, should reflect the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs and other matters without the inclusion of depreciation and amortization, providing a perspective that may not be necessarily apparent from net income. We also consider FFO to be useful to us in evaluating potential property acquisitions.

FFO does not represent net income or cash flows from operations as defined by GAAP. You should not consider FFO to be an alternative to net income as a reliable measure of our operating performance; nor should you consider FFO to be an alternative to cash flows from operating, investing or financing activities (as defined by GAAP) as measures of liquidity.

FFO does not measure whether cash flow is sufficient to fund all of our cash needs, including principal amortization, capital improvements and distributions to stockholders. FFO does not represent cash flows from operating, investing or financing activities as defined by GAAP.
