Explanatory Note

This amendment to the Annual Report on Form U5S for the fiscal year ended March 31, 2003 is being filed to restate the shareholder's equity of certain intermediate holding companies. In the Form U5S filed on July 29, 2003, certain intermediate holding companies included in shareholders' equity amounts equal to the excess of fair market value over book value of net assets with respect to companies that were transferred within the system. This amendment reflects adjustments to shareholders' equity to exclude those amounts in accordance with US generally accepted accounting principles. This change does not affect the financial statements of National Grid Transco plc nor does it affect the financial statements of National Grid USA, and the financial statements of those companies have not been revised. Except as required to reflect the effects of the restatement, no other substantive changes have been made to the Annual Report.
