Item 2.01 Completion of Acquisition or Disposition of Assets

On December 31, 2005, Virginia Electric and Power Company (Virginia Power) completed a transfer of its indirect wholly-owned subsidiary, Virginia Power Energy Marketing, Inc. (VPEM) to Dominion Resources, Inc. (Dominion), Virginia Power's parent company. Prior to the transfer, VPEM was a wholly-owned subsidiary of Virginia Power Services, LLC (VPS). The transaction was consummated through a series of dividend distributions of all of VPEM's common stock from VPS to Virginia Power, VPS's parent company, and subsequently from Virginia Power to Dominion. This resulted in a transfer of Virginia Power's negative investment in VPEM to Dominion in exchange for a capital contribution.

VPEM engages in price risk management activities on behalf of Dominion affiliates through the use of derivative contracts. Following the transfer, VPEM's results of operations will no longer be included in Virginia Power's consolidated financial statements and Virginia Power's consolidated financial statements for periods prior to the transfer will reflect VPEM as a discontinued operation.

Item 9.01. Financial Statements and Exhibits.

(b) Pro Forma Financial Information

On December 31, 2005, Virginia Power completed the transfer of its indirect wholly-owned subsidiary, VPEM, to Dominion, Virginia Power's parent company. The following unaudited pro forma condensed consolidated balance sheet of Virginia Power reflects the disposition of VPEM as if it had occurred on September 30, 2005. The accompanying unaudited pro forma condensed consolidated statements of income for the nine months ended September 30, 2005 and for the year ended December 31, 2004, reflect the disposition of VPEM as if it had occurred on January 1, 2005 and 2004, respectively.

The pro forma adjustments have been based on the operations of VPEM during the periods presented, the impact of the disposition of VPEM on December 31, 2005 and other transactions resulting from the disposition. The pro forma adjustments have been made to illustrate the anticipated financial impact of the disposition upon Virginia Power and are based upon available information and assumptions that Virginia Power believes to be reasonable at the date of this filing. Consequently, the pro forma financial information presented is not necessarily indicative of the consolidated results of operations that would have been reported had the transaction actually occurred on the dates presented.
