Item 2.06 - Material Impairments

During the fourth quarter of fiscal 2005, the Company received an offer to sell its building located at 925 South Niagara Street, in Denver, Colorado. This building was acquired in 1999 with the acquisition of Denver Technical College. On June 15, 2005, the Company entered into an agreement to sell this building and concluded that, based upon the expected selling price, a charge for impairment to this asset was required. The sale was contingent upon completion of due diligence by the prospective purchasers. Upon sale of the building, DeVry University would relocate classes held at this facility to other Denver-area sites.

On August 11, 2005, the Company was notified by the prospective purchasers that they were terminating the sales contract because of their assessment of the condition of the building. The Company has not actively marketed this building nor has it received any further offers of purchase.

Based upon the original offer to purchase, the Company estimated that it would take a charge of approximately \$1.0 million in the fourth quarter of fiscal 2005, reflecting the contractual selling price less estimated selling costs. With that offer now terminated, the Company believes it is appropriate to take an additional charge of \$0.5 million for a total of \$1.5 million in the fourth quarter of fiscal 2005 to reflect the building value contained in a recent real estate appraisal of the property.

No future cash expenditures are anticipated related to this impairment charge.
