PART I

Item 1. Description of Business

General

Old Point Financial Corporation (the "Company") was incorporated under the laws of Virginia on February 16, 1984, for the purpose of

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

acquiring all the outstanding common stock of The Old Point National Bank of Phoebus (the "Bank"), in connection with the reorganization of the Bank into a one bank holding company structure. At the annual meeting of the stockholders on March 27, 1984, the proposed reorganization was approved by the requisite stockholder vote. At the effective date of the reorganization on October 1, 1984, the Bank merged into a newly formed national bank as a wholly owned subsidiary of the Company, with each outstanding share of common stock of the Bank being converted into five shares of common stock of the Company.

The Company completed a spin-off of its trust department as of April 1, 1999. The newly formed organization is chartered as Old Point Trust and Financial Services, N.A. ("Trust"). Trust is a wholly owned subsidiary of the Company. The Company does not engage in any activities other than acting as a holding company for the common stock of the Bank and Trust. The principal business of the Company is conducted through its subsidiaries which continue to conduct business in substantially the same manner and from the same offices.

The Bank is a national banking association founded in 1922. The Bank has fifteen offices in the cities of Hampton, Newport News, Norfolk and Chesapeake, as well as James City and York County, Virginia, and provides a full range of banking and related financial services, including checking, savings, certificates of deposit, and other depository services, commercial, industrial, residential real estate and consumer loan services, safekeeping services.

As of December 31, 2001, the Company had assets of \$518.8 million, loans of \$346.5 million, deposits of \$412.3 million, and stockholders' equity of \$50.9 million. At year end, the Company and its subsidiaries had a total of 241 employees, 27 of whom were part-time.

The Company's trade area is Hampton Roads, which includes Williamsburg, Poquoson, Newport News, Hampton, Chesapeake, Norfolk, Virginia Beach, Portsmouth and Suffolk. The area also includes the Isle of Wight, James City, Gloucester and Mathews counties. According to the 2000 Hampton Roads Statistical Digest, there are more than 1.6 million people in the area with 30% of all jobs linked to the military. The service industry, which employed approximately 194,000 in 1999, is the biggest provider of jobs in Hampton Roads.

The banking industry is highly competitive in the Hampton Roads area. There are approximately twenty commercial and savings banks conducting business in the area. Six of these are major statewide banking organizations.

The Bank encounters competition for deposits and loans from banks, saving and loan associations, and credit unions in the area in which it operates. In addition, the Bank must compete for deposits in some instances with nationally marketed money market funds, brokerage firms and on-line or internet banks.

The Company and its subsidiaries are subject to regulation and examination by the Federal Reserve Board ("the Board"), the Office of the Comptroller of the Currency and the Federal Deposit Insurance Corporation ("the FDIC").

As a bank holding company within the meaning of the Bank Holding

Company Act of 1956, the Company is subject to the ongoing regulation,

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

supervision, and examination by the Federal Reserve Board (the "Board"). The Company is required to file with the Board periodic and annual reports and other information concerning its own business operations and those of its subsidiaries. In addition, prior Board approval must be obtained before the Company can acquire (i) ownership or control of any voting shares of another bank if, after such acquisition, it would control more than 5% of such shares, or (ii) all or substantially all of the assets of another bank or merge or consolidate with another bank holding company. A bank holding company is prohibited under the Bank Holding Company Act, with limited exceptions, from engaging in activities other than those of banking or of managing or controlling banks or furnishing services to its subsidiaries.

Recent Legislation

The USA PATRIOT Act (Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism) was signed on October 26, 2001. It comprises ten titles aimed at providing stronger surveillance powers, strengthening criminal laws against terrorism, improving intelligence and combating money laundering. Title III of the USA PATRIOT Act contains the provisions that have the greatest impact on financial institutions. Title III amends the Bank Secrecy Act and provides the Department of the Treasury and federal agencies with enhanced authority to combat international money laundering. Title III applies to all financial institutions regardless of charter or size and expands the reach to organizations not previously covered.

OFAC, the Office of Foreign Assets Control, is a division of the Department of the Treasury. OFAC is responsible for helping to insure that United States entities do not engage in transactions with "enemies" of the United States, as defined by various Executive Orders and Acts of Congress. Financial institutions, along with other entities, are expected to comply with these regulations. Due to these regulations, the Company has implemented additional OFAC filtering solutions. The Company actively checks high-risk OFAC areas such as new accounts, wire transfers and customer files. The Company performs the checks utilizing software, which is updated each time a modification is made to the lists provided by OFAC and other agencies of Specially Designated Nationals and Blocked Persons.

Statistical Information

The following statistical information is furnished pursuant to the requirements of Guide 3 (Statistical Disclosure by Bank Holding Companies) promulgated under the Securities Act of 1933.

I. Distribution of Assets, Liabilities and Shareholders' Equity; Interest Rates and Interest Differential

The following table presents the distribution of assets, liabilities, and shareholders' equity by major categories with related average yields/rates. In these balance sheets, nonaccrual loans are included in the daily average loans outstanding. The following table sets forth a summary of changes in interest earned and paid attributable to changes in volume and changes in yields/rates.

The Company was liability sensitive as of December 31, 2001. There were \$125 million more in liabilities than assets subject to repricing

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

within three months. This generally indicates that net interest income should improve if interest rates fall since liabilities will reprice faster than assets.

It should be noted, however, that savings deposits; which consist of interest bearing transactions accounts, money market accounts, and savings accounts; are less interest sensitive than other market driven deposits. In a rising rate environment these deposit rates have historically lagged behind the changes in earning asset rates, thus mitigating somewhat the impact from the liability sensitivity position.

II. Investment Portfolio

Note 2 of the Notes to Financial Statements found in Item 8. Financial Statements and Supplementary Data of this Report on Form 10K presents the book and market value of investment securities on the dates indicated.

The following table presents information concerning the aggregate amount of nonaccrual, past due and restructured loans as of December 31 for the years 1997 through 2001.

TABLE VII

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

NONACCRUAL, PAST DUE AND RESTRUCTURED LOANS

| As of December 31, Dollars in thousands | 2001 | 2000 | 1999 | 1998 | 1997 |
|---|--------|-------|--------|--------|--------|
| Nonaccrual loans | \$ 351 | \$ 37 | \$ 514 | \$ 253 | \$ 660 |
| Accruing loans past due 90 days or more | 450 | 470 | 1,351 | 641 | 455 |
| Restructured loans | none | none | none | none | none |
| Interest income which would have been recorded under original loan terms | 41 | 25 | 49 | 52 | 205 |
| Interest income recorded during the period | 83 | 9 | 68 | 123 | 485 |

Loans are placed in nonaccrual status if principal or interest has been in default for a period of 90 days or more unless the obligation is both well secured and in the process of collection. A debt is "well secured" if it is secured (i) by collateral in the form of liens on or pledges of real or personal property, including securities, that have a realizable value sufficient to discharge the debt in full or (ii) by the guaranty of a financially responsible party. A debt is "in the process of collection" if collection of the debt is proceeding in due course either through legal action, including judgment enforcement procedures, or, in appropriate circumstances, through collection efforts not involving legal action which are reasonably expected to result in repayment of the debt or in its restoration to a current status.

Potential problem loans consist of loans that, because of potential credit problems of the borrowers, have caused management to have serious doubts as to the ability of such borrowers to comply with the loan repayment terms. At December 31, 2001 such problem loans, not included in Table VII, amounted to approximately \$2.0 million. There were no relationships in excess of \$500 thousand.

IV. Summary of Loan Loss Experience

The determination of the balance of the Allowance for Loan Losses is based upon a review and analysis of the loan portfolio and reflects an amount which, in management's judgment, is adequate to provide for possible future losses. Management's review includes monthly analysis of past due and nonaccrual loans and detailed periodic loan by loan analyses.

The principal factors considered by management in determining the adequacy of the allowance are the growth and composition of the loan portfolio, historical loss experience, the level of nonperforming loans, economic conditions, the value and adequacy of collateral, and the current level of the allowance.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to assist readers in understanding and evaluating the consolidated results of operations and financial condition of the Company. This discussion should be read in conjunction with the financial statements and other financial information contained elsewhere in this report. The analysis attempts to identify trends and material changes which occurred during the period presented.

EARNINGS SUMMARY

Net income was \$5.71 million, or \$2.20 per share in 2001 compared to \$5.13 million, or \$1.98 per share in 2000 and \$4.82 million, or \$1.87 per share in 1999. Return on average assets was 1.14% in 2001, 1.12% in 2000 and 1.14% in 1999. Return on average equity was 11.48% in 2001, 11.87% in 2000 and 11.81% in 1999. For the past five years return on average assets has averaged 1.17% and return on average equity has averaged 11.81%. Selected Financial Highlights summarizes the Company's performance for the past five years.

NET INTEREST INCOME

The principal source of earnings for the Company is net interest income. Net interest income is the difference between interest and fees generated by earning assets and interest expense paid to fund them. Net interest income, on a tax equivalent basis, was \$20.34 million in 2001, up \$1.73 million, or 9% from \$18.60 million in 2000 which was up \$1.51 million, or 9% from \$17.09 million in 1999. Net interest income is affected by variations in interest rates and the volume and mix of earning assets and interest-bearing liabilities. The net interest yield decreased to 4.28% in 2001 from 4.30% in 2000, which was up from 4.28% in 1999.

Tax equivalent interest income increased \$1.18 million, or 3%, in 2001. Average earning assets grew \$42.47 million, or 10%. Total average loans increased \$28.27 million, or 9%, while average investment securities increased \$2.83 million, or 2%. The yield on earning assets decreased in 2001 by forty-eight basis points primarily due to declining interest rates.

Interest expense decreased \$551 thousand or 3%, in 2001 while interest bearing liabilities increased 9% in 2001. The cost of funding liabilities decreased fifty-five basis points. The market experienced eleven rate reductions by the Federal Reserve in 2001. The asset pricing did not experience as large of a reduction in rates as did the liability pricing.

PROVISION/ALLOWANCE FOR LOAN LOSSES

Provision for loan losses is a charge against earnings necessary to maintain the allowance for loan losses at a level consistent with management's evaluation of the loan portfolio. The provision increased to \$1.20 million in 2001 and was \$625 thousand in 2000 and \$650 thousand in 1999. The increase was due to an increase in the net charge offs from 2001 as detailed in the next paragraph.

Loans charged off during 2001 totaled \$1.46 million compared to \$752 thousand in 2000 and \$793 thousand in 1999. Recoveries amounted to \$504 thousand in 2001, \$665 thousand in 2000 and \$399 thousand in 1999.

-15-

The Company's net loans charged off to year-end loans were 0.28 % in 2001, 0.03% in 2000, and 0.14% in 1999. The allowance for loan losses, as a percentage of year-end loans, was 1.12% in 2001, 1.14% in 2000, and 1.10% in 1999.

As of December 31, 2001, nonperforming assets were \$1.35 million, up from \$787 thousand at year-end 2000. Nonperforming assets consist of loans in nonaccrual status and other real estate. The 2001 total consisted of other real estate of \$1.0 million and \$351 thousand in nonaccrual loans. The other real estate consists of \$165 thousand in commercial property originally acquired as a potential branch site and now held for sale and \$838 thousand in foreclosed properties. Nonaccrual loans consisted of \$229 thousand in real estate loans, \$64 thousand in commercial loans and \$58 thousand in consumer loans. Loans still accruing interest but past due 90 days or more decreased to \$450 thousand as of December 31, 2001 compared to \$470 thousand as of December 31, 2000.

The allowance for loan losses is analyzed for adequacy on a quarterly basis to determine the required amount of provision for loan losses. A loan-by-loan review is conducted on all significant classified commercial and mortgage loans. Inherent losses on these individual loans are determined and an allocation of the allowance is provided. Smaller nonclassified commercial and mortgage loans and all consumer loans are grouped by homogeneous pools with an allocation assigned to each pool based on an analysis of historical loss and delinquency experience, trends, economic conditions, underwriting standards, and other factors.

OTHER INCOME

Other income increased \$857 thousand, or 15% in 2001 from 2000 compared to an increase of \$299 thousand, or 6% in 2000 from 1999. Continuing the trend from 2000 the growth in other income is attributed to higher trust income and service charges on deposit accounts. In 2001 there was an increase in mortgage brokerage income of \$192 thousand over 2000 due to increases in volume. The increase in service charge income is attributed to a modified fee structure that was implemented mid-year.

OTHER EXPENSES

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

Other expenses increased \$1.19 million or 8% in 2001 over 2000 after increasing 9% in 2000 from 1999. Salary expense increased by 8% as a result of normal yearly salary increases, a full year of additional salaries related to opening a new branch and increased commissions paid to Trust personnel. The increase of \$129 thousand in equipment expense is a result of a full year's cost of equipment for a new branch and expenses related to the new proof imaging system. Other operating expenses increased \$238 thousand or 6%. Postage and Stationery/Supplies showed an increase in 2001 due to double mailing of statements during the conversion to image statements and also a result of Graham-Leach-Bliley Act privacy disclosure mailings sent to all customers. Courier costs increased as a result of servicing the new branch which opened in Norfolk. Ongoing technology advances and capital stock tax increases resulting from growth also played a role in the increase in other operating expenses.

ASSETS

At December 31, 2001, the Company had total assets of \$518.8 million, up 9% from \$477.1 million at December 31, 2000. Average assets in 2001 were \$502.0 million compared to \$459.6 million in 2000. The growth in assets in 2001 was due to the increase in investments, which were up 10% and loans, which were up 8% in 2001.

-16-

LOANS

Total loans as of December 31, 2001 were \$346.5 million, up 8% from \$319.9 million at December 31, 2000. The Company realized significant growth in the real estate category of loans. Footnote 3 of the financial statements details the loan volume by category for the past two years.

INVESTMENT SECURITIES

At December 31, 2001 total investment securities were \$136.0 million, up 10% from \$123.3 million on December 31, 2000. The goal of the Company is to provide maximum return on the investment portfolio within the framework of its asset/liability objectives. These objectives include managing interest sensitivity, liquidity and pledging requirements.

DEPOSITS

At December 31, 2001, total deposits amounted to \$412.3 million, up 10% from \$374.8 million on December 31, 2000. Non-interest bearing deposits increased \$14.9 million, or 23%, at year-end 2001 over 2000. Savings deposits increased \$13.2

million, or 10%, in 2001 over 2000. Certificates of Deposit increased \$9.4 million or 5% in 2001 over 2000.

STOCKHOLDERS' EQUITY

Total stockholders' equity as of December 31, 2001 was \$50.9 million, up 9% from \$46.5 million on December 31, 2000. The Company is required to maintain minimum amounts of capital under banking regulations. Under the regulations, Total Capital is composed of core capital (Tier 1) and supplemental capital (Tier 2). Tier 1 capital consists of common stockholders' equity less goodwill. Tier

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

2 capital consists of certain qualifying debt and a qualifying portion of the allowance for loan losses. The following is a summary of the Company's capital ratios for 2001, 2000 and 1999.

Year-end book value was \$19.58 in 2001 and \$17.95 in 2000. Cash dividends were \$1.6 million, or \$.62 per share in 2001 and \$1.5 million, or \$.58 per share in 2000. The common stock of the Company has not been extensively traded. The table below shows the high and low closing prices for each quarter of 2001 and 2000. The stock is quoted on the Nasdaq Small Cap under the symbol "OPOF" and the prices below are based on trade information. There were 1409 stockholders of the Company as of December 31, 2001. This stockholder count does not include stockholders who hold their stock in a nominee registration. The following is a summary of the dividends paid and market price on Old Point Financial Corporation common stock for 2001 and 2000.

LIQUIDITY

Liquidity is the ability of the Company to meet present and future obligations through the acquisition of additional liabilities or sale of existing assets. Management considers the liquidity of the Company to be adequate. Sufficient assets are maintained on a short-term basis to meet the liquidity demands anticipated by Management. In addition, secondary sources are available through the use of borrowed funds if the need should arise.

EFFECTS OF INFLATION

Management believes that the key to achieving satisfactory performance in an inflationary environment is its ability to maintain or improve its net interest margin and to generate additional fee income. The Company's policy of investing in and funding with interest-sensitive assets and liabilities is intended to reduce the risks inherent in a volatile inflationary economy.

Item 8. Financial Statements and Supplementary Data

The consolidated financial statements and related footnotes of the company are presented below followed by the financial statements of the parent.

The following are the summarized financial statements of the Company.

Independent Auditors Report
To the Board of Directors
Old Point Financial Corporation
Hampton, Virginia

We have audited the accompanying consolidated balance sheets of Old Point Financial Corporation and subsidiaries as of December 31, 2001 and 2000, and the related consolidated statements of income, cash flows and changes in stockholder's equity for each of the years in the three-year period ended December 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above, present fairly, in all material respects, the consolidated financial position of Old Point Financial Corporation and subsidiaries as of December 31, 2001 and 2000, and the consolidated results of their operations and cash flows for each of the years in the three-year period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1.SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of Old Point Financial Corporation and its subsidiaries conform to generally accepted accounting principles and to general practice within the banking industry. The following is a summary of significant accounting and reporting policies:

PRINCIPLES OF CONSOLIDATION:

The consolidated financial statements include the accounts of Old Point Financial Corporation ("the Company") and its subsidiaries The Old Point National Bank of Phoebus ("the Bank") and Old Point Trust & Financial Services N.A. ("Trust"). All significant intercompany balances and transactions have been eliminated in consolidation.

NATURE OF BUSINESS:

Old Point Financial Corporation is a two-bank holding company that conducts substantially all of its operations through its subsidiaries, The Old Point National Bank of Phoebus and Old Point Trust and Financial Services, N.A. The Bank services individual and commercial customers, the majority of which are in Hampton Roads. The Bank has fifteen branch offices. The Bank offers a full range of deposit and loan products to its retail and commercial customers. Substantially all of the Bank's deposits are interest bearing. The majority of the Bank's loan portfolio is secured by real estate. Trust offers a full range of services for individuals and businesses. Products and services include retirement planning, estate planning, financial planning, trust accounts, tax services, and investment management services.

USE OF ESTIMATES:

The preparation of financial statements in conformity with

generally accepted accounting principles requires management to make estimates and assumptions. The amounts recorded in the financial statements may be affected by those estimates and assumptions. Actual results may vary from those estimates.

The Company uses estimates primarily in developing its allowance for loan losses, in computing deferred tax assets, in determining the estimated useful lives of premises and equipment, and in the valuation of other real estate owned.

INVESTMENT SECURITIES:

Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities" (SFAS 115), addresses the accounting and reporting for investments in equity securities that have readily determinable fair values and for all investments in debt securities. Those investments are to be classified in three categories and accounted for as follows:

Held-to-maturity - Debt securities for which the Corporation has the positive intent and ability to hold to maturity are classified as held-to-maturity securities and reported at cost, adjusted for premiums and discounts that are recognized in interest income using the interest method over the period to maturity.

Trading - Debt and equity securities that are bought and held principally for the purpose of selling them in the near term are classified as trading account securities and recorded at their fair values. Unrealized gains and losses on trading account securities are included immediately in income.

Available-for-sale - Debt and equity securities not classified as either held-to-maturity securities or trading account securities are classified as available-for-sale securities and recorded at fair value, with unrealized gains and losses reported as a component of comprehensive income. Gains and losses on the sale of available-for-sale

-24-

securities are determined using the specific identification method. Premiums and discounts are recognized in interest income using the interest method over the period to maturity.

INTEREST ON LOANS:

Interest is accrued daily on the outstanding loan balances. Accrual of interest is discontinued on a loan when management believes, after considering collection efforts and other factors, that the borrower's financial condition is such that collection of interest is doubtful.

LOAN ORIGINATION FEES AND COSTS:

Loan origination fees and certain direct origination costs are capitalized and recognized as an adjustment of the yield on the related loan.

ALLOWANCE FOR LOAN LOSSES:

The allowance for loan losses is generated by direct charges

against income and is available to absorb loan losses. The allowance is based upon management's periodic evaluation of changes in the overall credit worthiness of the loan portfolio, economic conditions in general, and the effect of these conditions upon the financial status of specific borrowers and other factors.

The Bank is subject to regulation by the Office of the Comptroller of the Currency. They may require that the Bank adjust its allowance for loan losses upon request.

OTHER REAL ESTATE OWNED:

Other real estate owned is carried at the lower of cost or estimated fair value and consists of foreclosed real property and other property held for sale. The estimated fair value is reviewed periodically by management and any write-downs are charged against current earnings.

PREMISES AND EQUIPMENT:

Premises and equipment are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are calculated on both straight-line and accelerated methods and are charged to expense over the estimated useful lives of the related assets. Costs of maintenance and repairs are charged to expense as incurred.

INCOME TAXES:

Income taxes are provided based upon income reported in the statements of income (after exclusion of non-taxable income such as interest on state and municipal securities). The income tax effect resulting from timing differences between financial statement pre-tax income and taxable income is deferred to future periods.

PENSION PLAN:

The Company has a non-contributory defined benefit pension plan covering substantially all of its employees. Benefits are based on years of service and average earnings during the highest average sixty-month period during the final one hundred and twenty months of employment.

The Company's policy is to fund the maximum amount of contributions allowed for tax purposes. The Bank accrues an amount equal to its actuarially computed obligation under the plan.

The net periodic pension expense includes a service cost component, interest on the projected benefit obligation, return on plan assets and the effect of deferring and amortizing certain actuarial gains and losses and the unrecognized net transition asset over fifteen years.

-25-

TRUST ASSETS AND INCOME:

Assets held by Trust are not included in the financial statements, because such items are not assets of the Company. In accordance with industry practice, trust service income is recognized primarily on the cash basis. Reporting such income on the accrual basis would not materially effect net income.

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

Advertising Expense
Advertising expenses are expensed as incurred.

RECLASSIFICATIONS:

Certain amounts in the financial statements have been reclassified to conform with classifications adopted in the current year.

NOTE 2, Investment Securities

At December 31, 2001, the investment securities portfolio is composed of securities classified as held-to-maturity and available-for-sale, in conjunction with SFAS 115. Investment securities held-to-maturity are carried at cost, adjusted for amortization of premiums and accretions of discounts, and investment securities available-for-sale are carried at market value.

The Bank has had, and may be expected to have in the future, banking transactions in the ordinary course of business with directors, executive officers, their immediate families, and companies in which they are principal owners (commonly referred to as related parties), on the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with others. The aggregate direct and indirect loans of these persons totaled \$2.0 million and \$3.0 million at December 31, 2001 and 2000, respectively. These totals do not include loans made in the ordinary course of business to other companies where a director or executive officer of the Bank was also a director or officer of such company but not a principal owner. None of the directors or executive officers had direct or indirect loans exceeding 10% of stockholders' equity at December 31, 2001.

NOTE 8, Indebtedness

The Bank's short-term borrowings include federal funds purchased, securities sold under repurchase agreements (including \$1.7 million and \$1.6 million to directors in 2001 and 2000, respectively) and United States Treasury Demand Notes. The federal funds purchased and securities sold under repurchase agreements are held under various maturities and interest rates. The United States Treasury Demand Notes are subject to call by the United States Treasury with interest paid monthly at the rate of 25 basis points (1/4%) below the federal funds rate.

NOTE 9, Stock Option Plan

The Company has stock option plans which reserve 242,348 shares of common stock for grants to key employees. The exercise price of each option equals the market price of the Company's common stock on the date of the grant and an option's maximum term is ten years. A summary of the exercisable incentive stock options is presented below:

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

NOTE 9, Stock Option Plan (Continued)

The Company accounts for its stock option plans in accordance with APB Opinion No. 25, Accounting for Stock Issued to Employees, which does not allocate costs to stock options granted at current market values. The Company could, as an alternative, allocate costs to stock options using option pricing models, as provided in Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation. Because of the limited number of options granted and the limited amount of trading activity in the Company's stock, management believes that stock options are best accounted for in accordance with APB Opinion No. 25. However, had the stock options been accounted for in accordance with SFAS No. 123, pro-forma amounts for net earnings and earnings per share would have been as follows for each of the years ending December 31:

| | 2001 | 2000 | 1999 |
|---------------------------------------|----------|---------|---------|
| Pro-forma net income (in thousands).. | \$ 5,510 | \$5,112 | \$4,793 |
| | ===== | ===== | ===== |
| Pro-forma earnings per share..... | \$ 2.11 | \$ 1.98 | \$ 1.85 |
| | ===== | ===== | ===== |

Pro-forma amounts were computed using a 6% risk free interest rate over a 10 year term using an annual dividend rate of between 1.29% and 3.15% and a .01% volatility rate.

The pro-forma effect of the potential exercise of stock options on basic earnings per share would be to increase the number of weighted average number of outstanding shares by approximately 18,000 in 2001, 1,000 in 2000 and 9,000 in 1999.

The Company also has an Employee Stock Purchase Plan which reserves 44,970 shares of common stock for eligible employees. The purchase

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

price is 95% of the lesser of (1) the common stock's fair market value at July 1 or (2) the common stock's fair market value at the following June 30. During 2001, 9,037 shares of common stock were purchased by employees.

NOTE 10, Income Taxes

NOTE 11, Lease Commitments

The Bank has noncancellable leases on premises and equipment expiring at various dates, including extensions to the year 2011. Certain leases provide for increased annual payments based on increases in real estate taxes and the Consumer Price Index.

The total approximate minimum rental commitment at December 31, 2000, under noncancellable leases is \$1.3 million which is due as follows:

| | Year (Dollars in Thousands) | |
|--------------------------|-----------------------------|-------|
| 2002 | \$ | 293 |

NOTE 13, Profit Sharing

The Bank has a defined contribution profit sharing and thrift plan covering substantially all of its employees. The Bank may make profit sharing contributions to the plan as determined by the Board of Directors. In addition, the Bank matches thrift contributions by employees fifty cents for each dollar contributed. Expenses related to the plan totaled \$280 thousand, \$232 thousand and \$ 246 thousand in 2001, 2000 and 1999 respectively.

-33-

NOTE 14, Commitments and Contingencies

In the normal course of business, the Bank makes various commitments and incurs certain contingent liabilities. These commitments and contingencies represent off-balance sheet risk for the Bank. To meet the financing needs of its customers, the Bank makes lending commitments under commercial lines of credit, home equity loans and construction and development loans. The Bank also incurs contingent liabilities related to irrevocable letters of credit.

Off- balance sheet items at December 31 are as follows:

| | 2001 | 2000 |
|---|------------------------|----------|
| | ----- | |
| | (Dollars in Thousands) | |
| Commitments to extend credit: | | |
| Home equity lines of credit..... | \$11,931 | \$11,422 |
| Construction and development loans committed but not funded.. | 18,101 | 7,625 |
| Other lines of credit (principally commercial)..... | 28,196 | 44,603 |
| | ----- | ----- |
| Total | \$58,228 | \$63,650 |
| | ===== | ===== |
| Irrevocable letters of credit..... | \$ 2,539 | \$ 781 |

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank, upon extensions of credit is based on management's credit evaluation of the customer. Collateral held varies but may include accounts receivable, inventory, property, plant and equipment, and income-producing commercial properties.

Standby letters of credit and financial guarantees written are conditional commitments issued by the bank to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support private borrowing agreements. Most guarantees extend for less than two years and expire in decreasing amounts through 2003. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers. The Bank holds various collateral supporting those commitments for which collateral is deemed necessary.

The above presentation of fair values is required by the Statement of Financial Accounting Standards No. 107 "Disclosures about Market Values of Financial

Edgar Filing: OLD POINT FINANCIAL CORP - Form 10-K405

Instruments". The fair values shown do not necessarily represent the amounts which would be received on sale or other disposition of the instrument.

The carrying amounts of cash and due from banks, federal funds sold, demand and savings deposits and securities sold under repurchase agreements represent items which do not present significant market risks, are payable on demand or are of such short duration that the market value approximates carrying value.

Investment securities are valued at the quoted market price for individual securities held.

The fair value of loans is estimated by discounting future cash flows using current rates at which similar loans would be made to borrowers.

Certificates of deposit are presented at estimated fair value using rates currently offered for deposits of similar remaining maturities.

Federal Home Loan Bank advances are presented at estimated fair value using rates currently offered for advances of similar remaining maturities.

NOTE 16, Regulatory Matters

The Company is required to maintain minimum amounts of capital to "risk weighted" assets, as defined by the banking regulators. At December 31, 2001, the Company is required to have minimum Tier 1 and Total capital ratios of 4.00% and 8.00% respectively. The Company's actual ratios at that date were 13.97% and 15.05%. The Company's leverage ratio at December 31, 2001 was 9.77%.

The approval of the Comptroller of the Currency is required if the total of all dividends declared by a national bank in any calendar year exceeds the bank's net profits for that year combined with its retained net profits for the preceding two calendar years. Under this formula, the banking subsidiary can distribute as dividends to the Company in 2002, without approval of the Comptroller of the Currency, \$7.0 million plus an additional amount equal to the Bank's retained net profits for 2002 up to the date of any dividend declaration.

Item 13. Certain Relationships and Related Transactions

Some of the Company's directors, executive officers, and members of their immediate families, and corporations, partnerships and other entities of which such persons are officers, directors, partners, trustees, executors or beneficiaries, are customers of the Bank. As of December 31, 2001 borrowing by all policy making officers and directors amounted to \$2.0 million. This represented 3.5% of the total equity capital accounts of the Company as of December 31, 2001. All loans and commitments to lend included in such transactions were made in the ordinary course of business, upon substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and did not involve more than normal risk of collectibility or present other unfavorable features. It is the policy of the Bank to provide loans to officers who are not
