## Edgar Filing: PFIZER INC - Form 11-K

To the Administrative Committee - U.S. Plans  
Pharmacia Savings Plan:

We have audited the accompanying statements of net assets available for plan benefits of the Pharmacia Savings Plan (the "Plan") as of December 31, 2007 and 2006, and the related statements of changes in net assets available for plan benefits for each of the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2007 and 2006, and the changes in net assets available for plan benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Effective January 1, 2008, the Pharmacia Savings Plan was merged into the Pfizer Savings Plan, a defined contribution retirement plan of Pfizer Inc.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2007 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2007 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**PHARMACIA SAVINGS PLAN  
Notes to Financial Statements  
December 31, 2007 and 2006**

**1. Description of the Plan**

The following brief description of the Pharmacia Savings Plan (the Plan) is provided only for general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

## Edgar Filing: PFIZER INC - Form 11-K

The Plan is a defined contribution retirement plan with two component parts: a Section 401(k) plan and a Section 401(m) plan. The Section 401(m) plan consists of Employee Stock Ownership Plan (ESOP) funds (collectively, the Pharmacia ESOP Funds) and funds that do not constitute an ESOP. The Pharmacia ESOP Funds consist of a Preferred ESOP Fund (which holds Pfizer preferred stock released from a leveraged ESOP whose exempt loan was fully repaid in January 2007); and a Common ESOP Fund (which holds Pfizer common stock released from a leveraged ESOP whose exempt loan was repaid in June 2007). The Plan covers substantially all domestic employees of Pfizer Inc (the Company) not otherwise covered by another defined contribution retirement plan of the Company.

The Plan is part of the Pharmacia Retirement Choice Program (Choice Program) available to all employees, except those on long-term disability benefits, those employed by the Company in Puerto Rico, those covered under the Pre-Retirement Terminated Leave of Absence program, those covered under a specifically designated severance package, or those covered under another comparable Company program. The Choice Program is made up of a traditional pension plan and a 401(k) savings plan. Under the Choice Program, eligible employees select either Option 1, which provides greater pension plan benefits, or Option 2, which provides greater savings plan benefits.

Effective April 1, 2007, Pfizer Pharmaceuticals LLC (PPLLC), a subsidiary of the Company, adopted the Pharmacia Savings Plan for Employees Resident in Puerto Rico (Pharmacia Puerto Rico Savings Plan) which generally mirrors the provisions of the Plan. The Pharmacia Puerto Rico Savings Plan was established for the benefit of certain employees and former employees of PPLLC who legally reside in Puerto Rico and is intended to be a tax-qualified plan under the Puerto Rico Internal Revenue Code of 1994, as amended (P.R. Code). As of April 1, 2007, those employees were no longer eligible to participate in the Plan. Effective April 1, 2007, a Puerto Rico-based trust, the Pharmacia Savings Plan for Residents of Puerto Rico (PR Trust), was established with Banco Popular de Puerto Rico as Trustee, to hold the assets of the Pharmacia Puerto Rico Savings Plan, and assets in the amount of \$40.7 million, representing the account balances of all affected participants in the Plan and all assets attributable to such account balances, were transferred to the Pharmacia Puerto Rico Savings Plan and its underlying PR Trust.

On January 1, 2008, the Pharmacia Savings Plan was merged into the Pfizer Savings Plan. Participants eligible to participate in or who held balances in the Pharmacia Savings Plan became eligible to participate in the Pfizer Savings Plan. Participant balances were transferred into investment options offered by the Pfizer Savings Plan as of that date. The Company matching contribution formula elected by the participant under the Choice Program as of December 31, 2007, remains in effect under the Pfizer Savings Plan.

### ***Plan Administration***

The Administrative Committee - U.S. Plans of Pfizer Inc is responsible for administering the Plan operations in accordance with the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Global Benefits Investment Committee of Pfizer Inc is responsible for monitoring the Plan investments.

### ***Administrative Expenses***

The Plan pays certain outside service provider expenses (e.g., investment manager) incurred in the operation of the Plan. Certain other expenses are paid by the Company.

### ***Contributions***

Participants (other than Puerto Rico participants) may elect to contribute on a before-tax or after-tax basis from 1% to 20%, in 1% increments, of their compensation, as defined in the Plan Document. Prior to April 1, 2007, Puerto Rico participants could elect to contribute on a before-tax basis or after-tax basis from 1% to 18%, in 1% increments, of their compensation, as defined in the Plan Document. Contributions are subject to certain restrictions under the U.S. Code, and for the Puerto Rico participants, contributions are also subject to certain additional restrictions under the P.R. Code. Participants who are eligible employees are permitted to roll over into the Plan eligible distributions from other employer sponsored savings plans that are qualified under the P.R. Code or U.S. Code or both, and certain IRAs.

For employees eligible for the Choice Program, the Company match depends on the amount of the participant's before-tax and after-tax contribution and whether Option 1 or Option 2 under the Choice Program is selected. Participants hired, rehired, or newly eligible after October 1, 2005, are automatically enrolled in Option 2. Under both Options, the Company will match 100% of participant contributions, from 1% to 5% of compensation, as defined by the Plan. Under Option 2 of the Choice Program, there is an additional \$0.25 to \$1.00 Company match for each \$1.00 contributed on the first 5% of eligible pay which is based on the participant's ages as follows:

- Under age 35: \$0.25 additional match
- Age 35 - 44: \$0.50 additional match
- Age 45 - 49: \$0.75 additional match
- Age 50 and older: \$1.00 additional match

The additional match under Option 2 is made in cash and allocated to the participant's current investment fund elections.

For Puerto Rico participants prior to April 1, 2007, the Company matched 100% of participant contributions, from 1% to 5% of compensation in the form of preferred stock or cash within the Preferred ESOP Fund.

## Edgar Filing: PFIZER INC - Form 11-K

The Company contributed to the Common and Preferred ESOP Funds cash amounts that were necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on each ESOP's outstanding debt and to release stock to cover allocations to participant accounts. Company dividends paid to each ESOP and certain other funds were also used to repay the outstanding ESOP debt.

### ***Participant Accounts***

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants are immediately vested in the full value of their account (i.e., participant's and Company's contributions).

### ***Investment Options***

#### **Choice Program Participants**

Participant contributions received by the Plan are invested at the direction of the participants in accordance with the terms of the Plan Document.

Plan participants eligible for the Choice Program were provided with fund options as outlined below.

- a) Income Fund
- b) BGI Core Bond Fund
- c) Value Stock Fund
- d) Large Company Stock Fund
- e) Large Cap Growth Fund
- f) Mid/Small Company Stock Fund
- g) International Stock Fund
- h) Pfizer Common Stock Fund
- i) Any combination of the above, provided that a minimum of 5% and a multiple of 1% is directed to each fund selected.

Participants may change their investment elections as often as once a day.

A self-directed brokerage account is an investment option. Participants can choose from about 4,600 mutual funds with varying degrees of potential risk and return.

In addition, the Plan includes four asset allocation funds, which allow Choice Program participants varying degrees of risk and return, including (in order of risk tolerance, least to greatest), the Conservative Pre-Mix Fund, the Moderate Pre-Mix Fund, the Moderately Aggressive Pre-Mix Fund, and the Aggressive Portfolio Pre-Mix Fund. Investments in the BGI Core Bond Fund, Large Company Stock Fund, Mid/Small Company Stock Fund and the International Stock Fund are used in predetermined mixes to form the asset allocation funds.

For Choice Program participants, Company matching contributions for up to the first 5% of compensation and earnings thereon are only posted to the Pharmacia ESOP Funds.

#### **Other Plan Participants**

Investment fund options available to all Plan participants currently not included in the Choice Program (primarily participants employed in Puerto Rico) are listed below.

- a) Income Fund
- b) American Balanced Fund
- c) Indexed Stock Fund
- d) Neuberger & Berman Guardian Equity Fund
- e) American Century Ultra Fund
- f) Templeton Foreign Fund
- g) Pfizer Common Stock Fund
- h) Any combination of the above, provided that a minimum of 5% and a multiple of 1% is directed to each fund selected.

Participants may elect to transfer or allocate their participant contribution balances and earnings thereon to any of the above funds.

From January 2006 to May 2006, the Company match for Puerto Rico participants was funded with shares of preferred stock. The Preferred ESOP Fund allocated shares of preferred stock to participants such that, at the time of allocation, the total value of the shares allocated was equivalent to the Company match. During June 2006, the match was partially funded in preferred shares and partially funded in cash. Beginning in July 2006, the Company match was funded to the Pfizer Common Stock Fund which was accomplished by contributing cash to the trust

## Edgar Filing: PFIZER INC - Form 11-K

which was then used to purchase Pfizer common stock in the open market.

Effective January 1, 2006, the Plan was amended to lower the minimum age requirement for diversifying Company matching contributions out of the Preferred ESOP Fund and/or the Common ESOP Fund from age 55 to age 40. A participant who has attained age 40 may diversify up to 25% of their total units in the Preferred ESOP Fund and/or the Common ESOP Fund. The amount of total units eligible for diversification increases 25% each 5 years through age 55 at which time the participant may diversify 100% of their units in the funds. U.S. participants who were age 50 as of December 31, 2005 continue to be able to diversify 100% of their units, as well as any future Company matching contributions.

Effective January 1, 2007, the Plan was amended to allow participants age 40 and older or participants under age 40 with at least three years of service to diversify all of their Company matching contributions into the other available investment fund options at any time after the contributions have been made to their account.

Effective March 1, 2007, the Plan was further amended to eliminate the age and service requirements so that all Plan participants can diversify 100% of their Company matching contributions into the other available investment fund options at any time after the contributions have been made to their account.

The Northern Trust Company (Northern Trust) is trustee for the Plan. The Plan's trust agreement provides that any portion of any of the investment funds may, pending its permanent investment or distribution, be invested in short term investments. To the extent any Plan assets are so invested, they are invested in funds managed by Northern Trust. Northern Trust is a party-in-interest and a related party to the Plan.

### ***Loans to Participants***

The Plan has a loan provision which allows participants to borrow from their fund accounts a minimum of five hundred dollars up to a maximum equal to the lesser of 50% of their vested account balance or fifty thousand dollars (reduced by the highest outstanding loan balance within the previous twelve months). Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate that is equal to the prime rate, as defined, at the beginning of the quarter in which the loan originates, plus 1%. Interest rates on outstanding loans ranged from 4.75% to 10.50% at both December 31, 2007 and 2006. Interest is credited to the account of the participant. Repayments may not necessarily be made to the same fund from which amounts were borrowed. Repayments are credited to the applicable funds based on the participant's investment elections at the time of repayment.

In the event of termination, participants will have 90 days to repay the loan before the loan is considered taxable to the participant. U.S. participants are subject to an additional 10% penalty tax.

### ***Benefit Payments***

Benefits are paid either in cash or in cash and common stock. Common stock is issued only with respect to the participant's accounts in the Pfizer Common Stock Fund and the Pharmacia ESOP Funds. Upon retirement or death, the full value of the participant's accounts is paid in either a lump sum or in installments.

### ***In-Service Withdrawals***

Participants may also elect to make in-service or hardship withdrawals from their account balances subject to the provisions of the Plan.

### ***Plan Termination***

The Plan merged with the Pfizer Savings Plan effective January 1, 2008. The Company expects to continue the Pfizer Savings Plan indefinitely, but reserves the right to amend, suspend or discontinue it in whole or in part at any time by action of the Company's Board of Directors or its authorized designee. In the event of termination of the Pfizer Savings Plan, each participant shall be entitled to the full value of his or her account balance as though she had retired as of the date of such termination. No part of the invested assets established pursuant to the Pfizer Savings Plan will at any time revert to the Company except as otherwise permitted under ERISA.

## **2. Summary of Significant Accounting Policies**

### ***Basis of Accounting***

The financial statements of the Plan have been prepared on the accrual basis of accounting, however, benefit payments are recorded when paid. For treatment of benefits payable, refer to Note 7.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would

## Edgar Filing: PFIZER INC - Form 11-K

receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the accompanying statement of net assets available for plan benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

### *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amount of increase or decrease to net assets during the reporting period, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### *Investment Valuation*

Common stock is valued at the quoted market price as of the last business day of the Plan year. Shares of mutual funds are recorded at fair value based on the closing market prices obtained from national exchanges of the underlying investments of the respective fund as of the last business day of the year. Common/collective trust funds are stated at redemption value as determined by the trustees of such funds based upon the underlying securities stated at fair value. Investments in money market instruments are generally short-term and are valued at cost, which approximates market. Fixed income investments consist of synthetic investment contracts (SICs) which are reported at fair value, with an appropriate adjustment to report such contracts at contract value, because these investments are fully benefit-responsive (see Note 5). Loans to participants, which are subject to various interest rates, are recorded at cost which approximates fair value.

Pfizer preferred stock provides dividends at the annual rate of 6.25% and is convertible at the holder's option into 2.57487 shares of Pfizer common stock. It may also be redeemed by Pfizer Inc at a per share equivalent stated value of \$40.30. Pfizer preferred stock is valued using the higher of the per-share equivalent stated value of \$40.30 or the quoted market price of Pfizer common stock multiplied by 2.57486 on the last business day of the Plan year (preferred stock share balances maintained by the Plan's trustee and recordkeeper are on a basis equal to a multiple of 1,000 of the share balance and one-thousandth of the \$40,300 stated value). Pfizer preferred stock was valued at \$58.53 at December 31, 2007 and \$66.69 at December 31, 2006 based on the closing Pfizer common stock price of \$22.73 on December 31, 2007 and \$25.90 on December 31, 2006.

The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation/(depreciation) in the value of its investments, which consists of realized gains and losses and the unrealized appreciation/(depreciation) on those investments, and the change in contract value of the SICs.

### *Risks and Uncertainties*

Investment securities, including Pfizer Inc common and preferred stock, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is possible that changes in their fair values could occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

### *Investment Transactions*

Purchases and sales of securities are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

### *Reclassifications*

Certain 2006 balances have been reclassified to be consistent with the current year presentation.

### *Recently Issued Accounting Standards Not Adopted as of December 31, 2007*

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard No. 157, *Fair Value Measurements* (SFAS 157) and in February 2008, issued Financial Staff Position No. 157-2, *Effective Date of FASB Statement No.157*. Those provisions relate to our financial assets and liabilities carried at fair value and our fair value disclosures related to financial assets and liabilities. SFAS 157 defines fair value, expands related disclosure requirements and specifies a hierarchy of valuation techniques based on the nature of the inputs used to develop the fair value measures. The provisions of SFAS 157 are effective for the Plan on January 1, 2008. The adoption of SFAS 157 is not expected to have a material impact on net assets available for plan benefits.

## **3. Tax Status of the Plan**

The Plan obtained its latest determination letter dated July 17, 2003 in which the Internal Revenue Service indicated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Company's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

#### 5. Investment Contracts with Insurance Companies

The Plan's fixed income investments consist primarily of fully benefit-responsive SICs. The contract value of the SICs represents fair value of the underlying asset plus the contract value of the wrapper contract associated with the underlying asset. At December 31, 2007, the Plan held SICs with a contract value of approximately \$577 million and a fair value of approximately \$581 million. At December 31, 2006, the Plan held SICs with both a contract value and a fair value of approximately \$626 million.

SICs consist of a portfolio of underlying assets owned by the plan, and a wrap contract issued by a financially responsible third party, typically an insurance company, bank or other financial services institution. The issuer of the wrap contract provides for unscheduled withdrawals from the contract at contract value, regardless of the value of the underlying assets, in order to fund routine permitted participant-initiated withdrawals from the plan's stable value fund. "Permitted participant-initiated withdrawals" mean withdrawals from the plan's stable value fund which directly result from participant transactions which are allowed by the plan, such as participant withdrawals for benefits, loans, or transfers to other funds or trusts within the plan. SICs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero.

The crediting rate is based, in part, on the relationship between the contract value and the market value of the underlying assets, as well as previously realized gains and losses on underlying assets. The crediting rate will generally reflect, over time, movements in prevailing interest rates. However, at times the crediting rate may be more or less than prevailing rates or the actual income earned on the underlying assets. In most cases, realized and unrealized gains and losses on the underlying investments are not reflected immediately in the net assets of the plan's stable value fund, but rather are amortized either over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The average portfolio yields were approximately 5.2% for both 2007 and 2006. The crediting interest rates were approximately 5% for both 2007 and 2006.

## Edgar Filing: PFIZER INC - Form 11-K

The existence of certain conditions can limit the plan's ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of the plan which causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the plan, tax disqualification, certain plan amendments if issuers' consent is not obtained, improper communications to participants, group terminations, group layoffs, early retirement programs, mergers, sales, spin-offs, and bankruptcy.

In addition to the limitations noted above, issuers of investment contracts have certain rights to terminate a contract and settle at an amount which differs from contract value. For example, certain breaches by the plan or the investment manager of their obligations, representations, or warranties under the terms of an investment contract can result in its termination at market value, which may differ from contract value. Investment contracts may also provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law. SICs may also provide issuers with the right to reduce contract value in the event an underlying security suffers a credit event or terminate the contract in the event certain investment guidelines are materially breached and not cured.

### 6. Nonparticipant-Directed Investments and Notes Payable

The Plan includes the following nonparticipant-directed funds: *Pfizer Common Stock Fund*, *Preferred ESOP Fund* and *Common ESOP Fund*. These funds and their related activity were as follows:

#### *Pfizer Common Stock Fund*

Effective April 1, 1999, the Pfizer Common Stock Fund (formerly known as the Pharmacia Common Stock Fund) was added as an investment option into which participants can direct their contributions and/or transfer existing balances. However, prior to March 2007, certain Company contribution balances (and earnings thereon) within the Pfizer Common Stock Fund could only be transferred out of the fund into other investment options after participants satisfied certain age and service requirements. All assets and activity within this fund have been disclosed as nonparticipant-directed for purposes of this report.

Below are the net assets available for plan benefits and significant components of the changes in net assets available for plan benefits relating to the Pfizer Common Stock Fund:

**Preferred ESOP Fund**

The Preferred ESOP Fund entered into a financing agreement with the Company on February 1, 1997 which provided access to up to \$95 million in financing at the rate of 7.00% per annum. The Preferred ESOP Fund had drawings of \$10 million with unpaid interest of \$6.4 million outstanding as of December 31, 2006. The Preferred ESOP Fund debt was fully repaid on January 31, 2007.

The Pfizer Inc preferred stock was maintained in the Preferred ESOP Fund as unallocated. As principal and interest on the borrowings were paid, the preferred shares became available to be allocated to participants' accounts as Company matching contributions. All previously unallocated preferred stock was allocated to participants in January 2007.

The Preferred ESOP Fund held 2,168,281 preferred shares as allocated and no unallocated shares as of December 31, 2007. The Preferred ESOP Fund held 3,095,843 preferred shares as allocated and 400,065 preferred shares as unallocated as of December 31, 2006. **7. Reconciliation of Financial Statements to Form 5500**

Amounts allocated to withdrawing participants are recorded as benefits paid on Form 5500 for benefit claims that have been processed and approved for payment prior to December 31 but not yet paid as of that date. Deemed distributions, representing withdrawing participants with outstanding loan balances for which no post-default payment activity has occurred, are not reported on Form 5500 in net assets available for plan benefits. Also, investments in fixed income funds representing SICs are reported on Form 5500 at fair value, whereas the net assets available for plan benefits in the financial statements report such investments at contract value.

The following is a reconciliation of net assets available for plan benefits according to the financial statements to the Plan's Form 5500 filed for 2006 and expected to be filed for 2007.

| (in thousands of dollars)  | <b>December 31,</b> |             |
