AMERICAN SAFETY INSURANCE HOLDINGS, LTD.
(Exact name of Registrant as specified in its charter)

Bermuda
(State or other jurisdiction
of incorporation)

Not Applicable
(I.R.S. Employer
Identification No.)

The Boyle Building, 2nd Floor
31 Queen Street
Hamilton, HM 11, Bermuda
(Address, zip code of principal executive
offices)

(441) 296-8560
(Registrant's telephone number,
including area code)

Indicate by check mark whether registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or such shorter period that registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required

to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer. See definition of "accelerated filer" and "large accelerated filer" in Rule 12b-2 of the Exchange Act. (check one)

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
 Yes No

The aggregate number of shares outstanding of Registrant's common stock, \$0.01 par value, on November 3, 2010, was 10,336,898.

American Safety Insurance Holdings, Ltd. and Subsidiaries
Notes to Consolidated Financial Statements

September 30, 2010
(Unaudited)

Note 1 - Basis of Presentation

The accompanying consolidated financial statements of American Safety Insurance Holdings, Ltd. (“American Safety Insurance”) and its subsidiaries and American Safety Risk Retention Group, Inc. (“American Safety RRG”), a non-subsidiary risk retention group affiliate (collectively, the “Company”), are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) as established by the FASB Accounting Standards Codification® (“Codification” or “ASC”). The preparation of financial statements in conformity with GAAP requires management to make estimates, based on the best information available, in recording transactions resulting from business operations. Certain balance sheet amounts involve accounting estimates and/or actuarial determinations and are therefore subject to change and include, but are not limited to, invested assets, deferred income taxes, reinsurance recoverables, goodwill and the liabilities for unpaid losses and loss adjustment expenses. As additional information becomes available (or actual amounts are determinable), the recorded estimates may be revised and reflected in operating results. While management believes that these estimates are adequate, such estimates may change in the future.

The results of operations for the three and nine months ended September 30, 2010, may not be indicative of the results for the fiscal year ending December 31, 2010. These unaudited interim consolidated financial statements and notes should be read in conjunction with the financial statements and notes included in the audited consolidated financial statements on Form 10-K of the Company for the fiscal year ended December 31, 2009.

The unaudited interim consolidated financial statements include the accounts of American Safety Insurance, each of its subsidiaries and American Safety RRG. All significant intercompany balances as well as normal recurring adjustments have been eliminated. Unless otherwise noted, all balances are presented in thousands.

Certain balance sheet and statement of operations items have been reclassified for the 2009 periods. The presentation is consistent with the presentation for the three and nine months ended September 30, 2010, and did not result in any impact to net earnings or shareholders’ equity.

Note 2 - Investments

The amortized cost and estimated fair values of the Company's investments at September 30, 2010, and December 31, 2009, are as follows (dollars in thousands):

	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value
September 30, 2010				
Securities available for sale:				
Fixed maturities:				
U.S. Treasury securities and obligations of U.S. Government corporations and agencies	\$69,433	\$4,846	\$-	\$74,279
States of the U.S. and political subdivisions of the states	23,472	2,086	(2)	25,556
Corporate securities	313,111	36,249	(19)	349,341
Mortgage-backed securities	235,425	9,577	(81)	244,921
Commercial mortgage-backed securities	29,212	7,208	-	36,420
Asset-backed securities	30,450	1,192	-	31,642
Total fixed maturities	\$701,103	\$61,158	\$(102)	\$762,159
Common stock	\$7,582	\$32	\$-	\$7,614
Preferred stock	\$2,789	\$230	\$(38)	\$2,981
December 31, 2009:				
Securities available for sale:				
Fixed maturities:				
U.S. Treasury securities and obligations of U.S. Government corporations and agencies	\$101,638	\$1,936	\$(316)	\$103,258
States of the U.S. and political subdivisions of the states	35,253	1,058	(228)	36,083
Corporate securities	260,511	13,937	(378)	274,070
Mortgage-backed securities	196,738	7,483	(537)	203,684
Commercial mortgage-backed securities	28,739	4,813	(21)	33,531
Asset-backed securities	21,034	618	-	21,652
Total fixed maturities	\$643,913	\$29,845	\$(1,480)	\$672,278
Common stock	\$7,582	\$-	\$(63)	\$7,519
Preferred stock	\$3,273	\$179	\$(81)	\$3,371

The amortized cost and estimated fair values of fixed maturities at September 30, 2010 by contractual maturity are shown below. Expected maturities may differ from contractual maturities as certain borrowers may have the right to call or prepay obligations with or without call or prepayment penalty.

	Amortized cost	Estimated fair value
Due in one year or less	\$7,515	\$7,629
Due after one year through five years	120,465	128,339
Due after five years through ten years	210,872	235,155
Due after ten years	107,949	119,739
Mortgage and asset-backed securities	254,302	271,297
Total	\$701,103	\$762,159

The following tables summarize the gross unrealized losses of the Company's investment portfolio as of September 30, 2010 and December 31, 2009, by category and length of time that the securities have been in a continuous unrealized loss position.

	Less than 12 Months		12 months of longer		Total

We routinely review our investments that have experienced declines in fair value to determine if the decline is other than temporary. These reviews are performed with consideration of the facts and circumstances of an issuer in accordance with the Securities and Exchange Commission ("SEC"), Accounting for Non-Current Marketable Equity Securities; ASC-320-10-05, Accounting for Certain Investments in Debt and Equity Securities, and related guidance. The identification of distressed investments and the assessment of whether a decline is other-than-temporary involve significant management judgment and require evaluation of factors including but not limited to:

- percentage decline in value and the length of time during which the decline has occurred;
- recoverability of principal and interest;
- market conditions;
- ability and intent to hold the investment to recovery;
- a pattern of continuing operating losses of the issuer;
- rating agency actions that affect the issuer's credit status;
- adverse changes in the issuer's availability of production resources, revenue sources, technological conditions; and
- adverse changes in the issuer's economic, regulatory, or political environment.

The Company routinely monitors and evaluates the difference between the cost and fair value of its investments. Additionally, credit analysis and/or credit rating issues related to specific investments may trigger more intensive monitoring to determine if a decline in market value is other than temporary ("OTTI"). For investments with a market value below cost, the process includes evaluating the length of time and the extent to which cost exceeds market value, the prospects and financial condition of the issuer, and evaluation for a potential recovery in market value, among other factors. This process is not exact and further requires consideration of risks such as credit risk and interest rate risk. Therefore, if an investment's cost exceeds its market value solely due to changes in interest rates, impairment may not be appropriate. For the nine months ended September 30, 2010 and 2009, the Company has not incurred any OTTI losses.

Note 3 – Segment Information

Our business segments are classified into insurance operations and other, with the insurance operations consisting of three divisions: excess and surplus lines (E&S), alternative risk transfer (ART), and assumed reinsurance (Assumed Re). E&S includes seven products: environmental, construction, products liability, excess, property, surety, and healthcare. During September 2010, we added professional liability as a product line and will be underwriting business in the fourth quarter. ART includes two business lines: specialty programs and fully funded. In our Assumed Re division, the Company assumes specialty property and casualty business from unaffiliated insurers and reinsurers.

Within E&S, our environmental insurance products provide general, pollution, and professional liability coverage for contractors and consultants in the environmental remediation industry and property owners. Construction provides general liability insurance for residential and commercial contractors. Products liability provides general liability and product liability coverages for smaller manufacturers and distributors, non-habitational real estate, certain real property owners, landlord, and tenant risks. Excess provides excess and umbrella liability coverages over our own and other carriers' primary casualty policies, with a focus on construction risks. Our property coverage encompasses surplus lines commercial property business and commercial multi-peril (CMP) policies. Surety coverage provides payment and performance bonds primarily to the environmental remediation and construction industries. Healthcare provides customized general and professional liability insurance solutions primarily for long-term care facilities. We broadened our product platform during the quarter adding a professional liability underwriting team that will underwrite Directors' and Officers' Liability, including employment practices and fiduciary liability, and miscellaneous professional liability.

In our ART division, specialty programs provide insurance to homogeneous niche groups through third party program managers. Our specialty programs consist primarily of property and casualty insurance coverages for certain classes of specialty risks including, but not limited to, construction contractors, pest control operators, auto dealers, consultants, restaurant and tavern owners, and bail bondsmen. Fully funded policies give our insureds the ability to fund their liability exposure via a self-insurance vehicle. Our fully funded product primarily offers general and professional liability for businesses operating in the healthcare and construction industries.

Our Assumed Redivision offers property and casualty reinsurance products in the form of treaty and facultative contracts. We provide this coverage primarily on an excess of loss basis targeting small specialty insurers, risk retention groups, and captives. We reinsure casualty business, which includes medical malpractice, professional liability for accountants and lawyers, commercial auto liability, general liability across multiple sectors, and small participations in property catastrophe treaties.

Our Other segment includes lines of business that we have placed in run-off, such as workers' compensation, excess liability insurance for municipalities, other commercial lines, real estate, and other ancillary product lines.

The Company measures geographic segments using net income, total assets, and total equity. The reportable insurance divisions are measured by underwriting profit (loss) and pre-tax operating income.

Edgar Filing: AMERICAN SAFETY INSURANCE HOLDINGS LTD - Form 10-Q

The Company conducts business in two geographic segments: the United States and Bermuda. Significant differences exist in the regulatory environment in each country.

The following table provides financial data about the geographic locations for the three months ended September 30, 2010 and 2009 (dollars in thousands):

	United States	Bermuda	Total
September 30, 2010			
Income tax	\$635	\$-	\$635
Net earnings attributable to American Safety Insurance Holdings, Ltd.	\$1,117	\$6,085	\$7,202
	United States	Bermuda	Total
September 30, 2009			
Income tax	\$446	\$-	\$446
Net earnings attributable to American Safety Insurance Holdings, Ltd.	\$676	\$4,278	\$4,954

The following table provides financial data about the geographic locations for the nine months ended September 30, 2010 and 2009 (dollars in thousands):

	United States	Bermuda	Total
September 30, 2010			
Income tax	\$1,486	\$-	\$1,486
Net earnings attributable to American Safety Insurance Holdings, Ltd.	\$3,331	\$16,541	\$19,872
Assets	\$658,436	\$562,276	\$1,220,712
Equity	\$111,390	\$211,008	\$322,398
	United States	Bermuda	Total
September 30, 2009			
Income tax	\$1,420	\$-	\$1,420
Net earnings attributable to American Safety Insurance Holdings, Ltd.	\$3,861	\$13,557	\$17,418
Assets	\$645,965	\$489,160	\$1,135,125
Equity	\$95,918	\$175,714	\$271,632

Note 4 - Income Taxes

United States federal and state income tax expense from operations consists of the following components (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Current	\$179	\$(918)	\$2,171	\$614
Deferred	456	1,110	(431)	208
Change in valuation allowance	-	254	(254)	605
Total	\$635	\$446	\$1,486	\$1,420

Income tax expense for the periods ended June 30, 2010 and 2009 differed from the amount computed by applying the United States Federal income tax rate of 34% to earnings before Federal income taxes as a result of the following (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Expected income tax expense	\$2,665	\$1,980	\$7,262	\$6,607
Foreign earned income not subject to U.S. taxation	(2,069)	(1,395)	(5,624)	(4,609)
Change in valuation allowance	-	(254)	(254)	(605)
Tax-exempt interest	(3)	(44)	(24)	(179)
State taxes and other	42	159	126	206
Total	\$635	\$446	\$1,486	\$1,420

Note 5 – Equity Based Compensation

The Company's incentive stock plan grants incentive stock options to employees. The majority of the options outstanding under the plan vest evenly over a three year period and have a term of 10 years. The Company uses the Black-Scholes option pricing model to value stock options. The Company's methodology for valuing stock options has not changed from December 31, 2009. During the first nine months of 2010, the Company granted 78,775 stock options compared to 155,576 for the same period of 2009. No options were granted for the three months ended September 30, 2010, and 20,000 options were granted for the three months ended September 30, 2009. Stock based compensation expense related to outstanding stock options was \$267 and \$155 for the three months ended September 30, 2010 and 2009, respectively, and \$709 and \$645 for the nine months ended September 30, 2010 and 2009, respectively, and is reflected in net earnings as part of other underwriting expenses.

In addition to stock options discussed above, the Company may grant restricted shares to employees under the incentive stock plan. No restricted stock was granted during the three month period ending September 30, 2010. During the first nine months of 2010, the Company granted 209,254 shares of restricted stock compared to 90,224 for the same period in 2009. Of the restricted stock granted, 56,754 shares vest on the grant date anniversary ratably over three years at 25%, 25%, and 50%, respectively, and 2,500 shares vest at the end of five years. The remaining 150,000 shares cliff vest at the end of three years and are subject to performance targets. Stock based compensation expense related to the restricted shares was \$312 and \$176 for the three months ended September 30,

2010 and 2009, respectively, and is reflected in net earnings as part of other underwriting expenses. For the nine months ended September 30, 2010 and 2009, \$829 and \$520 were recorded as compensation expense, respectively, and is reflected in net earnings as part of other underwriting expenses.

Additionally, the Company recorded \$80 in expense for both the three months ended 2010 and 2009 related to stock awards made as a portion of Director compensation. For the nine month periods, \$240 was recorded in both 2010 and 2009 related to Director compensation.

Note 6 – Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market. Market participants are buyers and sellers in the principal (or most advantageous) market that are independent, knowledgeable, able to transact for the asset or liability, and willing to transact for the asset or liability.

We determined the fair values of certain financial instruments based on the fair value hierarchy established in “Fair Value Measurements”, topic ASC 820-10-05. Valuation techniques consistent with the market approach, income approach and/or cost approach are used to measure fair value. The inputs of these valuation techniques are categorized into three levels. The guidance requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value.

Our Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the reporting date. The Company receives one quote per instrument for Level 1 inputs.

Our Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The Company receives one quote per instrument for Level 2 inputs.

Our Level 3 inputs are valuations based on inputs that are unobservable. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The Company receives fair value prices from its third-party investment managers who use an independent pricing service. These prices are determined using observable market information such as dealer quotes, market spreads, cash flows, yield curves, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and the security's terms and conditions, among other things. The Company has reviewed the processes used by the third party providers for pricing the securities, and has determined that these processes result in fair values consistent with the GAAP requirements. In addition, the Company reviews these prices for reasonableness and has not adjusted any prices received from the third-party providers as of September 30, 2010.

Assets measured at fair value on a recurring basis are summarized below:

As of September 30, 2010				
Fair Value Measurements Using				
(dollars in thousands)				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

There were no transfers in and out of Level 1 and 2 categories during the first nine months of 2010.

A description of the Company's inputs used to measure fair value is as follows:

Fixed maturities (Available for Sale) Levels 1 and 2

- United States Treasury securities are valued using quoted (unadjusted) prices in active markets and are therefore shown as Level 1.
- United States Government agencies are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.
- States of the U.S. and political subdivisions of the states are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.
- Corporate securities are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.
- Mortgage-backed securities are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.
 - Commercial mortgage-backed securities are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.
- Asset-backed securities are reported at fair value utilizing Level 2 inputs. These fair value measurements are provided by using quoted prices of securities with similar characteristics.

Equity securities (Level 1) – For these securities, fair values are based on quoted market prices (unadjusted) in active markets.

Equity securities (Level 3) – For this equity fund, the Company was unable to use observable market inputs and management used assumptions that market participants might use.

As management is ultimately responsible for determining the fair value measurements for all securities, we validate prices received from our investment advisor by comparing the fair value estimates to our knowledge of the current market and investigate any prices deemed not to be representative of fair value. We review fair values for significant changes in a one-month period and security values that change in value contrary to general market movements.

Short-term investments are reported at fair value using Level 1 inputs.

Cash and cash equivalents – The carrying amounts approximate fair value because of the short-term maturity of those instruments.

Premiums receivable – The carrying value of premiums receivable approximate fair value due to its short-term nature.

Reinsurance recoverables – The carrying value of reinsurance receivables approximate fair value. The Company has established an allowance for bad debts associated with reinsurance balances recoverable and is primarily related to specifically identified counterparties.

Loans payable – The carrying value of those notes is a reasonable estimate of fair value. Due to the variable interest rate of these instruments, carrying value approximates market value.

Note 7 – Credit Facility

On August 20, 2010, the Company increased its line of credit facility with Regions Bank to \$20 million. The facility is unsecured with a term that was extended through August 20, 2013. Any principal amount outstanding under the credit facility provides for interest at Libor plus 225 basis points. In addition, the credit facility provides for an unused facility fee of 15 basis points payable in monthly installments. The unsecured credit facility contains certain covenants and at September 30, 2010, the Company is in compliance with all covenants. The Company has no outstanding borrowings at September 30, 2010.

Note 8 – Loans Payable

Trust Preferred Offerings

In 2003, American Safety Capital Trust and American Safety Capital Trust II, both non-consolidated, wholly-owned subsidiaries of the Company, issued \$8 million and \$5 million, respectively, of variable rate 30-year trust preferred securities. The proceeds were used by the Company to support its insurance business. The securities require interest payments on a quarterly basis calculated at a floating rate of LIBOR + 4.2% and LIBOR + 3.95% for American Safety Capital and American Safety Capital II, respectively. The securities can be redeemed at the Company's option after five years from the date of original issuance.

In 2005, the American Safety Capital Trust III, a non-consolidated wholly-owned subsidiary of the Company, issued a 30-year trust preferred obligation in the amount of \$25 million. This obligation bears a fixed interest rate of 8.31% for the first five years and LIBOR plus 3.4% thereafter. Interest is payable on a quarterly basis and the securities may be redeemed at the Company's option after five years from the date of original issuance.

During May of 2009, the Company entered into interest rate swaps on the Trust Preferred debt that were designated as hedging instruments. On February 12, 2010, the Company terminated these swaps resulting in a \$2.1 million gain. For accounting purposes, the gain is reported in comprehensive income net of tax and recognized through earnings using the effective interest method over the time period the derivative was originally designated to hedge interest payments on the underlying debt.

Note 9 – Variable Interest Entity

American Safety RRG ("RRG") is a variable interest entity (VIE) which is consolidated in our financial statements in accordance with ASC 810-10-5, as through contractual relationships we are the primary beneficiary of the variability in the underwriting profits of the RRG. The Company has adopted guidance for topic ASC 810 which does not change our financial condition as the Company continues to consolidate the entity. The assets and liabilities parenthetically noted on the face of the balance sheet, represent separate assets and liabilities of the legal entity and there is no recourse to the Company for the obligations outside of obligations that exist due to contractual loss sharing or reinsurance arrangements that exist between RRG and other entities under common control in the ordinary course of the business. The equity of RRG is for the benefit of the policyholders and is considered a non-controlling interest in the equity section of the Company's consolidated balance sheet. Should losses persist and the equity of RRG decline below regulatory minimum capital levels or result in a deficit, there is no legal obligation of the Company to fund those losses or contribute capital to the VIE. The profit and loss of the VIE increases or decreases the value of the non-controlling interest on the balance sheet of the Company and does not contribute to earnings or equity attributable to American Safety Insurance Holdings, Ltd.

Assets and Liabilities of the VIE as consolidated in the Consolidated Balance Sheets (dollars in thousands):

	9/30/2010	12/31/2009
Investments	\$6,548	\$6,545
Cash and equivalents	270	54
Accrued investment income	47	50
Premiums receivable	1,319	1,058
Ceded unearned premiums	400	640
Reinsurance recoverables	13,194	13,886
Deferred acquisition costs	(35)	(22)
Other assets	1,782	1,614
Total Assets	\$23,525	\$23,825
Unpaid losses and loss adjustment expenses	17,696	17,733
Unearned premium	1,101	1,378
Ceded premiums payable	294	63
Funds held	211	191
Other liabilities	-	785
Total Liabilities	\$19,302	\$20,150

Note 10 - Sale of Subsidiary

The Company sold its subsidiary LTCIS, a brokerage operation, on September 1, 2010. Proceeds from the sale were \$500, made up of \$175 paid in cash and a note receivable of \$325. The sale resulted in a loss of \$222 after write-off of \$718 of goodwill.

Note 11 - Accounting Pronouncements

In July 2010, the FASB issued an accounting update that enhances disclosures and requires a greater level of disaggregated information about the credit quality of financing receivables and the allowance for credit losses. In addition, the amendments in the update require an entity to disclose credit quality indicators, past due information, and modifications of its financing receivables. The disclosures as of the end of a reporting period are effective for interim and annual reporting periods ending on or after December 15, 2010. The disclosures about activity that occurs during a reporting period are effective for interim and annual reporting periods beginning on or after December 15, 2010. The Company is currently evaluating this update to determine the potential impact, if any, the adoption may have on its disclosures.

In October 2010, the FASB issued ASU No. 2010-26, Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts, to address diversity in practice within the insurance industry regarding the interpretation of which costs relating to the acquisition of new or renewal insurance contracts qualify for deferral. This guidance modifies the definition of the types of costs incurred by insurance companies that can be capitalized in the acquisition of new and renewal contracts. This guidance specifies that a cost must be directly related to the successful acquisition of a new or renewal insurance contract in order to be capitalized. ASU No. 2010-26 becomes effective for the Company beginning January 1, 2012, and would allow, but not require, retrospective application. The Company is currently evaluating this update to determine the potential impact that adopting this standard will have on its consolidated financial statements.

Note 12 – Subsequent Events

The Company evaluated subsequent events through November 8, 2010, the filing date of this form 10Q and determined there were none.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our business segments are classified into insurance operations and other, with the insurance operations consisting of three divisions: excess and surplus lines (E&S), alternative risk transfer (ART), and assumed reinsurance (Assumed Re). E&S includes seven products: environmental, construction, products liability, excess, property, surety, and healthcare. During September 2010, we added professional liability as a product line and will be underwriting business in the fourth quarter. ART includes two business products: specialty programs and fully funded. In our Assumed Re division, the Company assumes specialty property and casualty business from unaffiliated insurers and reinsurers.

Within E&S, our environmental insurance products provide general, pollution, and professional liability coverage for contractors and consultants in the environmental remediation industry and property owners. Construction provides general liability insurance for residential and commercial contractors. Products liability provides general liability and product liability coverages for smaller manufacturers and distributors, non-habitational real estate, and certain real property owners, landlord, and tenant risks. Excess provides excess and umbrella liability coverages over our own and other carriers' primary casualty policies, with a focus on construction risks. Our property coverage encompasses surplus lines commercial property business and commercial multi-peril (CMP) policies. Surety coverage provides payment and performance bonds primarily to the environmental remediation and construction industries. Healthcare provides customized general and professional liability insurance solutions primarily for long-term care facilities. We broadened our product platform during the quarter adding a professional liability underwriting team that will underwrite Directors' and Officers' Liability ("D&O"), including employment practices and fiduciary liability, and miscellaneous professional liability.

In our ART division, specialty programs provide insurance to homogeneous niche groups through third party program managers. Our specialty programs consist primarily of property and casualty insurance coverages for certain classes of specialty risks including, but not limited to, construction contractors, pest control operators, auto dealers, consultants, restaurant and tavern owners, and bail bondsmen. Fully funded policies give our insureds the ability to fund their liability exposure via a self-insurance vehicle. Our fully funded product primarily offers general and professional liability for businesses operating in the healthcare and construction industries.

Our Assumed Re division offers property and casualty reinsurance products in the form of treaty and facultative contracts. We provide this coverage primarily on an excess of loss basis targeting small specialty insurers, risk retention groups, and captives. We reinsure casualty business, which includes general liability, commercial auto, professional liability, and workers' compensation, as well as property catastrophe.

Our Other segment includes lines of business that we have placed in run-off, such as workers' compensation, excess liability insurance for municipalities, other commercial lines, real estate, and other ancillary product lines.

For management reporting purposes, the Company allocates invested assets to its insurance and other operations and measures the insurance operations based on underwriting profit and pre-tax income.

The following information is presented on the basis of accounting principles generally accepted in the United States of America ("GAAP").

Less: Net Earnings Attributable to the Non-controlling Interest								421
Net Earnings Attributable to ASIH, Ltd.								\$4,954

Loss Ratio	56.4	%	54.0	%	68.9	%	NM	57.7	%
Expense Ratio	45.5	%	36.3	%	33.4	%	NM	42.5	%
Combined Ratio	101.9	%	90.3	%	102.3	%	NM	100.2	%

* NM = Ratio is not meaningful

** The U.S. GAAP combined ratio is a measure of underwriting performance and represents the relationship of losses and loss adjustment expenses, acquisition expenses, and other underwriting expenses net of fee income to earned premiums.

Three Months Ended September 30, 2010, compared to
Three Months Ended September 30, 2009

Net Earnings

Net earnings attributable to ASIH were \$7.2 million, or \$0.68 per diluted share, for the three months ended September 30, 2010, compared to \$5.0 million, or \$0.47 per diluted share, for the same period of 2009. The increase in net earnings was primarily due to increased investment income and a \$1.6 million receivable write-off in the three months ended September 30, 2009. The decrease in gross written premiums for the quarter was due to the non-renewal of a specialty program within the ART division that contributed \$40.9 million of gross written premium in the 2009 quarter. That program was 100% reinsured and therefore had no impact on earned premiums. The E&S and Assumed Re divisions both grew in the three months ended 2010 as compared to 2009. The E&S division has continued its growth in newer product lines while the Assumed Re division has been successful in expanding its business in existing classes of business.

Combined Ratio

Our underwriting results are measured by our combined ratio, which is the sum of (a) the ratio of incurred losses and loss adjustment expenses to net earned premiums (loss ratio), and, (b) the ratio of policy acquisition costs and other operating underwriting expenses net of fee income to net earned premiums (expense ratio). A combined ratio below 100% indicates that an insurer has an underwriting profit, and a combined ratio above 100% indicates that an insurer has an underwriting loss.

The combined ratio was 98.3%, composed of a loss ratio of 59.0% and an expense ratio of 39.3%. The increase in the loss ratio to 59.0% from 57.7% for the same quarter in 2009 includes \$0.8 million of prior year loss reserve development in the Assumed Reinsurance division which equates to 1.5% in the loss ratio. The improvement in the expense ratio to 39.3% from 42.5% is attributable to increased net earned premiums and the impact of the receivable write-off in 2009.

Net Earned Premiums

Net earned premiums increased 33% to \$53.2 million for the three months ended September 30, 2010, compared to \$40.0 million for the same period of 2009. Earned premiums increased in all three divisions during the three months ended September 30, 2010 versus 2009. The increases in E&S and Assumed Re relates to new products and penetration in existing classes discussed above. The ART division's earned premium also increased due primarily to a dealer open lot program written in 2010 and the non-renewal of a fronting transaction written in 2009. The fronted transaction is 100% reinsured and therefore has no impact on earned premiums while the dealer open lot program written in 2010 bears underwriting risk.

Net Investment Income

Net investment income is derived from earnings on the investment portfolio net of investment expenses. Net investment income increased to \$8.3 million for the three months ended September 30, 2010, compared to \$7.3 million for the same period of 2009 due to increased invested assets resulting from positive cash flow. Average invested assets increased to \$792.3 million at September 30, 2010, as compared to \$735.2 million for the same period of 2009. Pretax investment yield for the three months was 4.2% compared to 4.0% in 2009.

Acquisition Expenses

Policy acquisition expenses are commissions paid to producers that are partially offset by ceding commissions or fronting fees. Policy acquisition expenses also include premium taxes paid to states in which we are admitted to conduct business. Policy acquisition expenses were \$12.4 million or 23.3% of earned premium for the three months ended September 30, 2010, as compared to \$7.8 million or 19.6% of earned premium for the same period of 2009. The percentage increase is primarily due to the non-renewal of a specialty program discussed previously which generated fronting fees in the 2009 period.

Other Underwriting Expenses

Other underwriting expenses were \$10.0 million for the three months ended September 30, 2010, compared to \$10.4 million for the same 2009 period. The 2009 three month period includes a \$1.6 million receivable write-off associated with the ART division. Other underwriting expenses, exclusive of this charge, increased due to investments in technology and increased staffing associated with new business initiatives.

Income Taxes

Income tax expense for the three months ended September 30, 2010, was \$0.6 million compared to \$0.4 million for the same period of 2009. The effective tax rate for the 2010 quarter was approximately 8% and is consistent with the same quarter of 2009.

Edgar Filing: AMERICAN SAFETY INSURANCE HOLDINGS LTD - Form 10-Q

The following table presents key financial data by segment for the nine months ended September 30, 2010 and 2009, respectively (dollars in thousands):

* NM = Ratio is not meaningful

** The U.S. GAAP combined ratio is a measure of underwriting performance and represents the relationship of losses and loss adjustment expenses, acquisition expenses, and other underwriting expenses net of fee income to earned premiums.

Nine Months Ended September 30, 2010, compared to
Nine Months Ended September 30, 2009

Net Earnings

Net earnings attributable to ASIH were \$19.9 million, or \$1.87 per diluted share, for the nine months ended September 30, 2010, compared to \$17.4 million, or \$1.65 per diluted share, for the same period of 2009. The increase in net earnings was primarily due to increased investment income and higher realized gains from sales of securities in the investment portfolio. The increase in gross written premiums for the nine months ended September 30, 2010, as compared to the same period in 2009 was due to growth in the E&S and Assumed Re divisions partially offset by the fronting program written in the three months ended September 30, 2009, that was non-renewed in 2010. The E&S division has grown in newer product lines, the ART division underwrote a dealer open lot program in 2010 partially offsetting the non-renewed fronted program, and the Assumed Re division expanded its business in targeted classes such as medical malpractice.

Combined Ratio

The combined ratio increased to 99.8% for the nine months ended September 30, 2010, from 99.5% for the same period of 2009. The increase was primarily attributable to an increase in the loss ratio to 60.0% for the 2010 period compared to the 2009 ratio of 58.9% due to increased property losses and unfavorable prior year loss reserve development of \$1.4 million in the Assumed Re division. The expense ratio improved to 39.8% from 40.6% primarily due to the write-off of \$1.6 million in 2009 which equates to approximately 1.2% on the 2009 expense ratio. Investments in technology and personnel to support new business initiatives will increase expenses in the short term and therefore impact the expense ratio.

Net Earned Premiums

Net earned premiums increased to \$143.4 million for the nine months ended September 30, 2010, compared to \$126.2 million for the same period of 2009. The increase in earned premiums is due to the increase in gross written premiums discussed previously.

Net Investment Income

Net investment income increased to \$24.1 million for the nine months ended September 30, 2010, compared to \$22.9 million for the same period of 2009 due primarily to increased invested assets partially offset by lower yields. Average invested assets increased to \$778.2 million at September 30, 2010, as compared to \$706.7 million for the same period of 2009, due primarily to increased cash flow from operations. Pretax investment yields were 4.1% compared to 4.3% in 2009.

Acquisition Expenses

Policy acquisition expenses are commissions paid to producers that can be partially offset by ceding commissions or fronting fees. Policy acquisition expenses also include premium taxes paid to states in which we are admitted to conduct business. Policy acquisition expenses increased to \$31.2 million for the nine months ended September 30, 2010, as compared to \$26.9 million for the same period of 2009. As a percentage of earned premium acquisition expenses were 21.8%, a slight increase over 21.3% for 2009, primarily due to a change in business mix.

Other Underwriting Expenses

Other underwriting expenses increased 7.2% to \$29.7 million for the nine months ended September 30, 2010, compared to \$27.7 million for the same 2009 period, primarily due to increased staffing to support our growth initiatives in addition to increased costs related to technology investments.

Income Taxes

Income tax expense for the nine months ended September 30, 2010, was \$1.5 million compared to \$1.4 million for the same period of 2009. The effective tax rate for the nine months ended September 30, 2010, was 7.0% compared to 7.5% for 2009.

Liquidity and Capital Resources

The Company meets its cash requirements and finances its growth principally through cash flows generated from operations. The Company has experienced a reduction in premium rates due to the entrance of new competitors and overall market conditions. The Company's primary sources of short-term cash flow are premium writings and investment income. Short-term cash requirements relate to claims payments, reinsurance premiums, commissions, salaries, employee benefits, and other operating expenses. Due to the uncertainty regarding the timing and amount of settlements of unpaid claims, the Company's future liquidity requirements may vary; therefore, the Company has structured its investment portfolio to mitigate those factors. The Company believes its current cash flows are sufficient for the short-term needs of its business and its invested assets are sufficient for the long-term needs of its insurance business.

On August 20, 2010, the Company increased its line of credit facility with Regions Bank to \$20 million. The facility is unsecured with a term that was extended through August 20, 2013 and is undrawn.

Net cash provided by operations was \$52.3 million for the nine months ended September 30, 2010, compared to net cash provided by operations of \$40.2 million for the same period of 2009. The increase in cash flow from operations is primarily attributable to increased premium levels partially offset by higher paid losses resulting from increased retentions.

On March 2, 2010, the Company's Board of Directors authorized the repurchase of up to 500,000 shares of common stock. Pursuant to this authorization, the Company has repurchased a total of 155,700 shares of common stock at a cost of approximately \$2.6 million through the end of the third quarter of 2010.

Our ability to pay future dividends to shareholders will depend, to a significant degree, on the ability of our subsidiaries to generate earnings from which to pay dividends. The jurisdictions in which we and our insurance and reinsurance subsidiaries are domiciled places limitations on the amount of dividends or other distributions payable by insurance companies in order to protect the solvency of insurers. Given the capital requirements associated with our business plan, we do not anticipate paying dividends on the common shares in the near future.

Effective October 1, 2010, the Company renewed its excess of loss reinsurance treaty on our casualty lines of business at substantially the same terms and conditions as in the prior treaty.

The Company also has catastrophe reinsurance for its open lot program. Catastrophe reinsurance protects the Company's net excess of \$5 million. The agreement covers \$5 million excess of \$5 million and \$10 million excess of \$10 million with 100% of the risk ceded to the reinsurers. There is an additional \$10 million excess of \$20 million which cedes 76.7% to reinsurers.

Forward Looking Statements

This report contains forward-looking statements. These forward-looking statements reflect the Company's current views with respect to future events and financial performance, including insurance market conditions, premium growth, acquisitions and new products, and the impact of new accounting standards. Forward-looking statements involve risks and uncertainties which may cause actual results to differ materially, including competitive conditions in the insurance industry, levels of new and renewal insurance business, developments in loss trends, adequacy and changes in loss reserves and actuarial assumptions, timing or collectability of reinsurance recoverables, market acceptance of new coverages and enhancements, changes in reinsurance costs and availability, potential adverse decisions in court and arbitration proceedings, the integration and other challenges attendant to acquisitions, and changes in levels of general business activity and economic conditions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For an in-depth discussion of the Company's market risks, see Management's Discussion and Analysis of Quantitative and Qualitative Disclosures about Market Risk in Item 7A of the Company's Form 10-K for the year ended December 31, 2009.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this Report, concluded that, as of such date, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company (including consolidated subsidiaries) would be made known to them.

Changes in Internal Control

There were no changes in the Company's internal control over financial reporting identified in connection with the evaluation described above that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company, through its subsidiaries, is routinely party to pending or threatened litigation or arbitration disputes in the normal course of or related to its business. Based upon information presently available, in view of reserve practices and legal and other defenses available to our subsidiaries, management does not believe that any pending or threatened litigation or arbitration disputes will have any material adverse effect on our financial condition or operating results.

Item 1A. Risk Factors

For an in-depth discussion of risk factors affecting the Company, see Part I, Item 1A. "Risk Factors" of the Company's Form 10-K for the year ended December 31, 2009.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On March 3, 2010, the Company announced a stock repurchase program for 500,000 shares of the Company's outstanding common stock. To date, the Company has repurchased a total of 155,700 shares of common stock totaling approximately \$2.6 for the nine months ended September 30, 2010.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Reserved

Item 5. Other Information

None

Item 6. Exhibits

The following exhibits are filed as part of this report:

Exhibit No. Description

- 11 Computation of Earnings Per Share
- 31.1 Certification Pursuant to § 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification Pursuant to § 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification Pursuant to § 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification Pursuant to § 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities and Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized, on the 9th day of November, 2010.

I, Stephen R. Crim, certify that:

- 1) I have reviewed this report on Form 10-Q of American Safety Insurance Holdings, Ltd.;
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3) Based on my knowledge, the financial statements and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, and cash flows of the registrant as of, and for, the periods presented in this report;
- 4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)), and internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - (b)

Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
