FOR IMMEDIATE RELEASE

LANDS' END REPORTS RECORD FOURTH QUARTER  
AND FISCAL 2002 EARNINGS

DODGEVILLE, WIS. ... March 14, 2002... Lands' End, Inc. (LE), the direct merchant of classically styled apparel and home furnishings, today reported record earnings for its fourth quarter and fiscal year ended February 1, 2002.

FISCAL YEAR 2002 RECORD RESULTS

## Edgar Filing: LANDS END INC - Form 8-K

Net income for the year ended February 1, 2002 was \$66.9 million, or \$2.23 per diluted share, compared to \$34.7 million, or \$1.14 per diluted share in the prior year. Total revenue for the year just ended was \$1.569 billion, compared with \$1.462 billion for the prior year. This represents a net income gain of 93 percent on a revenue increase of 7.3 percent.

The fiscal year just ended includes 53 weeks compared to last year's 52 weeks. On a comparable 52-week basis, total revenue increased 5.5 percent.

### FOURTH QUARTER RECORD RESULTS

Net income for the 14 weeks ended February 1, 2002 was \$45.9 million, or \$1.51 per diluted share, compared with \$31.8 million, or \$1.07 per diluted share in the prior year's 13-week fourth quarter. Total revenue for the fourth quarter was \$596.0 million, compared with \$538.6 million in the same quarter a year ago. This represents a net income gain of 44.3 percent on a revenue increase of 10.7 percent. On a comparable 13-week basis, total revenue increased 5.8 percent from the prior year.

In commenting on the results, company president and chief executive officer David F. Dyer said, "We are extremely pleased that we achieved record results, especially in the face of the challenging business environment this past year. The initiatives that we started three years ago, and the focused execution of the past year, contributed to our success. We are establishing the groundwork for future growth with programs such as enhanced customer segmentation, new catalogs and additional Internet innovations."

### FOURTH QUARTER HIGHLIGHTS AND COMMENTS

For the 14-week quarter just ended, sales of full-price merchandise to U.S. consumers rose 11 percent and Internet sales increased 40 percent, compared with the similar 13-week quarter in the prior year. On a comparable 13-week basis, sales of full-price merchandise to U.S. consumers rose 8 percent, and Internet sales were up 34 percent. As a percentage of total revenue, gross margin improvement of 1.1 percentage points was the result of significantly better vendor sourcing. As a percentage of total revenue, selling, general and administrative expenses declined 1.8 percentage points. Inventory investments in key items allowed the company to ship 88 percent of its merchandise immediately upon customer order, compared with 79 percent last year.

The following table shows segment data on both a fiscal and comparable calendar basis. The additional week in fiscal 2002 added \$24 million in merchandise sales to these periods.

### SEGMENT DATA

	FY02	FY01	53 weeks	52 weeks
Core business segment	\$ 873	\$ 814	+ 7.3%	+ 5.5%
Specialty segment	433	408	+ 6.0%	+ 4.2%
International segment	142	133	+ 6.8%	+ 5.4%
Total merchandise sales	\$1448	\$1355	+ 6.9%	+ 5.1%
 Internet	 299	 218	 +37.2%	 +34.7%

Segment merchandise sales data (full-price and liquidation sales) excludes shipping & handling revenue. Internet sales are included in the respective business segments.

On a comparable 13-week basis for the quarter, the strong growth of the core business segment was led by a 17 percent increase in women's and a 7 percent increase in coed, while men's was down 3 percent. In the specialty business segment, Home grew by 12 percent and Kids by 7 percent. Sales for the Business Outfitters division, formerly called Corporate Sales, were down 7 percent, due to adverse economic conditions. However, in U.S. dollars, international sales were strong, up 9 percent from the prior year, led by the German and United Kingdom businesses. Measured in their local currencies, sales in both Germany and the United Kingdom showed even stronger results.

Gross profit for the quarter just ended was \$267 million, or 44.8 percent of total revenue, compared with \$235 million, or 43.7 percent of total revenue in the prior year. Continued improved vendor sourcing resulted in higher initial margins.

Inventory was \$227 million as of February 1, 2002, compared with \$188 million at the end of the prior year. This year, the company invested \$30 million to accelerate receipts of spring merchandise. Fourth quarter liquidations of excess inventory were 7.5 percent of net merchandise sales versus 6.9 percent the year before, reflecting an additional week of clearance sales due to the calendar shift.

Selling, general and administrative expenses in the fourth quarter of fiscal 2002 were \$191 million, compared with \$182 million in the prior year. As a percentage of total revenue, SG&A was 32.0 percent, compared with 33.8 percent in the prior year. The improved leverage was primarily due to better fulfillment levels that allowed us to convert demand to sales at a higher rate.

### BUSINESS OUTLOOK FOR FISCAL 2003

For the quarter to date, on a fiscal basis, total revenue is up mid-single digits. For the full fiscal year 2003, the company currently anticipates a single-digit percentage increase in total revenue and a diluted earnings per share increase in the high-single-digit to low-double-digit percentage range. Gross profit margin is expected to improve by 30 to 70 basis points, and capital expenditures are currently planned to be about \$35 million.

### STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Statements in this release that are not historical, including, without limitation, statements regarding our plans, expectations, assumptions, and estimations for fiscal 2003 revenues, gross profit margin, and earnings, as well as anticipated sales trends and future development of our business strategy, are considered forward-looking and speak only as of today's date. As such, these statements are subject to a number of risks and uncertainties. Future results may be materially different from those expressed or implied by these statements due to a number of factors. Currently, we believe that the principal factors that create uncertainty about our future results are the following: customer response to our merchandise offerings, circulation changes and other initiatives; the mix of our sales between full price and liquidation merchandise; overall consumer confidence and general economic conditions, both domestic and foreign; effects of weather on customer purchasing behavior; effects of shifting patterns of e-commerce versus catalog purchases; costs associated with printing and mailing catalogs and fulfilling orders; dependence on consumer seasonal buying patterns; fluctuations in foreign currency exchange rates; and changes that may have different effects on the various sectors in which we operate (e.g., rather than individual consumers, the Business Outfitters division, included in the specialty segment, sells to numerous corporations, and certain of these sales are for their corporate promotional activities). Our future results could, of course, be affected by other factors as well. More information about these risks and uncertainties may be found in the company's 10-K filings with the S.E.C.

The company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.
