News Release

26 March 2007

Interim net profit after tax up 3.5% in year of transition

- NPAT up 3.5%
- Food and Liquor EBIT up 5.7%
- Group ROI up to 29%
- Earnings per share up 7.4% to 41.9 cents
- Interim dividend maintained at 19.5 cents per share
- FY2007 earnings guidance in the order of \$787¹ million
- Update on ownership review process and protocols

Coles Group Ltd (CGJ) today announced net profit after tax (NPAT) up 3.5% to \$501 million for the 26 weeks ended 28 January 2007. Sales for continuing businesses increased by 2.4% to \$17.8 billion.

"The headline result is in line with our expectations as we transition the business through its transformation program and commence implementation of the new growth strategy," CEO John Fletcher said.

"The company's balance sheet continues to strengthen, with Group ROI up to almost 30% in the first half."

Mr Fletcher said that the Group remained on track to deliver earnings in the order of \$787¹ million for the full year but with a lower than anticipated contribution from supermarkets.

Mr Fletcher said the company had made strong progress in simplifying the Group following the divestment of Myer and in line with strategy to create one integrated retail business meeting the everyday shopping needs of Australians.

"We have identified opportunities to reduce costs in excess of our FY2007 target of \$70 million and our FY2008 target run-rate of \$363 million. To date, the number of roles above store has reduced by 905.

"Transformation is also progressing well, with one new distribution centre open in Victoria and another four coming on line during the second half as we begin to redesign our distribution network from over 40 DCs to around 26," he said.

Mr Fletcher said a number of initiatives were being implemented to strengthen the customer value proposition and boost sales in supermarkets re-badged from Bi-Lo to Coles.

"We have also put in place broader strategic programs to improve our fresh offer in supermarkets and to reinforce customers' perception of value, including the launch of our 'Love Fresh' program and re-investment in supermarkets," he said.

Directors have declared an interim dividend maintained at 19.5 cents per share.

Ownership review

In outlining the process and bidder protocols which the Board would apply in assessing alternative ownership options, Coles Group Chairman, Rick Allert, said: "We are very pleased with the level of interest which has been expressed by parties wishing to explore buying the business as a whole, acquiring Target and/or Officeworks, or buying the whole or a significant stake in the Everyday Needs Business."

Mr Allert said that the formal process would now commence with formal expressions of interest being invited for each of 100% of the Coles Group, the Everyday Needs Business, Target and Officeworks.

"The Board is also pursuing the potential demerger of Target and Officeworks, and will assess the value of those businesses as separate public companies as part of its evaluation.

"In addition, the Board will be considering the potential sale of a significant stake in the Everyday Needs business, which could result in the business continuing to be listed and shareholders being able to participate in the benefits brought to the business by a new investor.

"In short, we intend to leave no stone unturned in looking at all options that could be in the interests of our shareholders."

Mr Allert said preparations were well underway for due diligence, including a dataroom that would be made available to selected interested parties.

"The Company and its advisers have developed a set of bidder protocols that we believe will ensure a fully competitive process and level playing field for all interested parties, whether in relation to a 100% sale or a potential restructuring option, taking into account the size of the Coles Group in the context of the Australian financial markets," Mr Allert said.

He said the principal terms of the bidder protocols included the following:

- ◆ Parties bidding for the Coles Group or the Everyday Needs Business (including Coles supermarkets business, Coles Liquor business, Coles Express and Kmart) would be limited to:
 - ◇ a maximum of six equity consortium members per bidding syndicate;
 - ◇ a maximum of three exclusive banks/financiers and three non-exclusive banks/financiers in the banking syndicate.
- ◆ Arrangements for engaging legal and accounting advisers must not prevent the advisers working for other interested parties (non-exclusive advisers);

◆ Further details about the process protocols will be made available to bidders.

Trading Outlook

FY2007 earnings guidance remains unchanged with net profit after tax expected to be in the order of \$787m¹ as the business meets the peak costs of transformation initiatives. As previously stated, the contribution from Food and Liquor during the second half will be impacted by lower than anticipated sales growth in supermarkets and additional investment in value and fresh.

For FY2008, NPAT is expected to be in line with revised guidance issued on 23 February 2007, representing a growth of approximately 20%¹ on the prior year.

- Food and Liquor sales up 5.7%
- Bi-Lo conversions not performing to plan
- Fresh food program launched
- Liquor momentum continues

Food and Liquor reported a 5.7% increase in retail EBIT in a highly competitive market.

Food and Liquor costs of doing business increased by 45 basis points due to the lack of sales leverage and the impact of higher CODB in hotels.

ROI was diluted over the year by the acquisition of the Hedley Hotel Group, Pharmacy Direct, Talbot Hotel Group and Mr Corks Liquor Group. The total cost of these acquisitions was \$477 million.

"While we are pleased with the performance of the liquor business, Supermarkets' sales have not been in line with expectations," Chief Operating Officer, Mick McMahon, said.

Supermarkets

"As announced in February, initiatives to drive top-line growth in Supermarkets have not yet gained traction, leading to lower than expected comparative sales growth," Mr McMahon said.

"The rebranding of Bi-Lo to Coles has not achieved the expected sales and earnings uplift. We will now defer the final phase of the conversion program to enable us to get the customer proposition right before completing the program.

"A significant investment is being made to improve the fresh offer to address falling participation rates which have also affected sales.

"The Love Fresh program will focus on delivering improved product, pricing, execution, marketing and in-store communication, backed by Coles' 'No Worries Guarantee' which means that if customers are not satisfied with our fresh food they can bring it back for a refund or exchange.

"Love Fresh is primarily about providing customers with clean stores, no clutter and quality product at the right price," Mr McMahon said.

"This is not a one-off campaign; it is an ongoing journey for Coles. Improving our fresh offer will not happen overnight, but we are taking the first steps towards winning customer confidence in its quality and value," he said.

"Like other retailers which have undergone major transformational programs, consistent availability of product for customers has been affected as the business absorbs significant change. This includes the move to a centrally managed range which involves making adjustments to layout and range in stores and will ultimately benefit customers.

"The comparative sales trend in Food and Liquor has continued to decline with the expectation that strategic initiatives will begin to gain traction towards the end of the financial year. Earnings will continue to be impacted in the second half by the lower sales growth rate and as the planned cost of the transformation program peaks.

"As we move forward, we have clear plans in place to improve the customer experience and sales. Our priorities will focus on addressing the issues affecting Bi-Lo, improving fresh and the availability of product in store," he said.

Twelve new stores were opened in the half.

Liquor

"The liquor business performed well, generating strong sales growth, expanding 1st Choice and continuing to grow through acquisitions," Mr McMahon said.

"We are very pleased with the performance of liquor, with the business delivering against our growth objectives across retail and hotels," he said.

Six 1st Choice superstores were opened in the first half, bringing the total network to 25. In Queensland, 1st Choice has a strong presence with 17 stores trading. The rollout program for 1st Choice will continue in the next half and is on track to deliver the planned 15 new stores in FY2007.

The rebadging of Theo's stores in NSW has been completed to plan. In addition, nine Theo's stores were sold during the half and the remaining two Theo's stores in Queensland will be converted by the end of the financial year.

The hotel portfolio has grown to 83, with the completion of the acquisitions of Talbot and Mr Corks adding 11 new hotels, as well as six liquor barns, three large format stores and 25 bottle shops in Queensland.

The Hedley integration is progressing well and will be completed by April. This extensive program involves re-branding 119 stores to 1st Choice, Liquorland and Vintage Cellars and integrating back office systems.

Coles Express

NAE (\$m)	170	147	
ROI (mat) (%)	47.2 ⁴	23.0	2,420 bp

Coles Express reported retail EBIT of \$61.2 million⁴, a solid result achieved in an intensely competitive sector.

The result was driven by a very strong performance in the convenience stores and against a backdrop of competitor openings in key catchment areas and a store network upgrade program undertaken in the half.

"The launch of the 6cpl loyalty offer has exceeded expectations on all key measures, driving strong comparative sales growth in convenience. In addition, the continued focus on bringing Coles value to the convenience sector with 'You'll

Love Coles' product is delivering impressive growth for food to go, milk and bread," Mr McMahon said.

"Consistent with our strategy of growing convenience sales, Coles Express commenced a trial during the half of an improved convenience offer at eight pilot stores. The stores also trialed a number of new initiatives which have proved to be very popular and are now being rolled out across the network."

In the half, Coles Express in conjunction with its Alliance partner Shell, also completed a national launch of Shell VPower, the latest high density, high performance premium unleaded fuel.

Kmart

	1H 2007	1H 2006	Change
Sales (\$m)	2,147.1	2,186.0	(1.8%)

Retail margin (%)	3.38	4.25	(87 bp)
NAE (\$m)	449	503	
ROI (mat) (%)	9.5	14.7	(520 bp)

Kmart sales and earnings were impacted as the business transitions and sets the foundation of its strategy to improve quality of sales, achieve better product margins and lower costs in a highly competitive environment.

Tyremaster (Wholesale) business and three Garden Supercentres were divested during the half, representing a reduction in sales of \$32 million for the half and \$74 million for the full year.

Kmart Managing Director Larry Davis said the business had improved product margins, eliminated two storewide sales, reduced inventory by \$130 million and eliminated no-deposit laybys.

There had been an increased focus on reducing costs during the half as retail support functions had been simplified and regional management realigned.

"Destination categories have performed well and this will start to show through as the range continues to be rationalised. We are constantly adjusting the mix in all categories to better meet customer needs.

"We will continue to deliver everyday value to our customers through an affordable and differentiated merchandise offer.

"Sales will continue to be impacted in the second half as further storewide sales are eliminated and as the business continues to exit categories that are not aligned to strategy. We are making the necessary changes in FY2007 to build a solid foundation for the future," Mr Davis said.

Kmart opened three stores and two KTAS outlets during the half and a further two Kmart stores and one KTAS outlet will be opened next half. Eight refurbishments were completed in the first half and a further nine are planned for the remainder of the financial year.

Target

Retail margin (%)	10.50	10.88	(38 bp)
NAE (\$m)	444	381	
ROI (mat) (%)	57.0	64.7	(770 bp)

Target's retail EBIT of \$188.8 million for the half was in line with expectations, coming off a very strong first half last year and absorbing costs from an accelerated store roll-out and refit program.

"Overall growth in Target apparel was solid even though the customer response to the seasonal ladieswear range was disappointing. Menswear, footwear and homewares in particular out-performed other categories," Target Managing Director Launa Inman said.

"Sales in the second half have started on a positive note as the brand continues to focus on its strategy of on-trend, affordable and high quality merchandise. In womenswear, both the City Dressing and 'Designers for Target' ranges have been well received and are bringing great fashion to all Australians at affordable prices.

"The customer and media response to the Stella McCartney range was incredibly positive, with purchases on opening day exceeding our forecasts. As well as generating sales at a very satisfactory margin, the range created even greater awareness of Target as a fashion destination," Ms Inman said.

Inventory levels are below last year despite opening eight stores and converting four Target Country stores to Target.

Target continues to accelerate its investment in stores in line with strategy, opening eight stores this half plus a further seven next half. Nine refurbishments were completed in the first half.

Officeworks

	1H 2007	1H 2006	Change

---------------	------	------	--------

The Officeworks portfolio reported an 8.8% increase in retail EBIT to \$32.1 million despite a highly competitive environment impacting sales within Officeworks Business Direct.

Officeworks Managing Director, Joe Barberis, said that the brand had delivered a solid interim profit by successfully executing its strategy of increasing its store network, building and expanding key categories, growing the web and improving the in-store experience.

"The core business performed well with key promotional events and merchandise offers continuing to excite our customers, with the highlights being our Christmas and Back to School events.

"We opened six new stores during the half, including South Yarra, our 100th Officeworks store. One Harris Technology store was refurbished. We are on-track to continue growing our store network, with a further 10 stores planned for the second half, as well as one new Harris Technology store.

"The pleasing first half performance positions us well for the second half, as we continue to cement our position as the leading provider of quality office and technology products for home offices and small to medium size businesses," Mr Barberis said.

Implementation of growth strategy

Significant progress has been made in implementing initiatives in each of the key components of the strategy. The following progress has been made:

Simplification

- cost reduction opportunities identified exceeding target of \$70 million in FY2007 and \$363 million run-rate by FY2008
 - 905 roles have been reduced to date
 - cost reduction targets set for each function
 - over 600 initiatives with 149 implemented to date

Transformation

- first new purpose-built national distribution centre in Somerton, Victoria, opened
- another four distribution centres will be completed in the second half
- implementation of roll cages has been completed
- roll-out of returnable plastic crates has been completed

Formats

- 124 Bi-Lo stores converted to Coles to date
- Theo's rebranding completed in NSW

- eight pilot convenience stores operated during the half
- nine Target store expansions
- two Kmart to Target store conversions completed

Customer and in-store experience

- increased investment in regional and store support teams
- new customer service standards progressively rolled out to supermarkets
- 30,000 new trolleys
- launched refreshed FlyBuys program
- launched Coles 'Love Fresh' program in stores on March 5

Product

- approximately 2,600 housebrand products rolled out to date
- new top-tier housebrand range, Coles Finest, introduced from December 2006
- Supermarkets' general merchandise sourced through Kmart
- category management structure introduced in supermarkets
- launched Designers for Target
- Stella McCartney for Target range launched mid-March

Interest and Tax

Net borrowing costs decreased by \$4.1 million to \$47.4 million. This reflects lower average net debt levels.

Income tax expense of \$188.8 million represents an effective tax rate of 27.4% due to a number of non-taxable items in the first half, including profit on sale of properties and investment.

The Group's balance sheet remains strong, with net debt / net debt to equity position at 12.6%. The strength of the balance sheet and cashflow position allow for the continued investment in the network to drive future growth, both organically and via acquisition.

Return on Investment increased from 28.6% to 29.3%, an improvement of 70 basis points on the prior comparable period.

Including new stores and acquisitions, inventory levels for continuing businesses were flat on a sales increase of 2.4%. Creditor support was 61.3% of inventory at the end of the half against 60.3% last year, with negative working capital of \$426 million.

Total capital expenditure was \$611 million, up \$60 million on the prior half year, largely driven by our investment in the store network. Continued investment in our store network expansion, transformation program and strategic initiatives remains a key priority for the Group.

Intangible assets increased due to acquisitions, primarily in the Liquor business and Pharmacy Direct, as well as the increased IT investment as part of the transformation program.

Note 1 Summary of significant accounting policies

(a) Basis of preparation

In this general purpose financial report for the interim half year reporting period ended 28 January 2007 (Half Year Report), the expression 'Coles Group' refers to Coles Group Limited (formerly Coles Myer Ltd.) and its controlled entities, and 'the Company' refers to the ultimate parent entity and legal entity Coles Group Limited. Coles Group Limited is a company domiciled in Australia.

This Half Year Report has been prepared in accordance with the Accounting Standard AASB134 *Interim Financial Reporting* and the Corporations Act 2001.

This Half Year Report is prepared in accordance with the historical cost convention, except for certain financial assets and liabilities, which are measured at fair value. The accounting policies applied by Coles Group in this Half Year Report are consistent with those applied in the Full Annual Report for the year ended 30 July 2006, including the treatment of operations as discontinued (refer (c)(ii) below), apart from those accounting policies impacted by the adoption of the following amendments to accounting standards and UIG Interpretations:

(i) UIG 4 *Determining Whether an Asset Contains a Lease* and the related changes in AASB 2005-5 *Amendments to Australian Accounting Standards (June 2005)*.

UIG 4 provides guidance for determining whether an arrangement is, or contains a lease, which must be accounted for in accordance with AASB 117 *Leases*. The adoption of this interpretation and amendment did not have a material financial impact on the current or prior period.

(ii) AASB 2005-9 *Amendments to Australian Accounting Standards* [AASB 4, AASB 1023, AASB 139 and AASB 132]

AASB 2005-9 requires that certain liabilities associated with the issue of financial guarantees must be recognised on the balance sheet. The adoption of this amendment did not have a material financial impact on the current or prior period.

This Half Year Report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the Full Annual Report for the year ended 30 July 2006 and any public announcement made by Coles Group Limited during the Interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

(b) Rounding of amounts

Dollar amounts have been rounded to the nearest one hundred thousand dollars unless specifically stated otherwise. Where the amount is \$50,000 or less, this is indicated by a dash ('-').

(c) Restatement of comparatives

(i) Effect of Australian Equivalents to International Financial reporting Standards (AIFRS)

At 30 July 2006, Coles Group presented its first Full Annual Report in accordance with AIFRS. Finalisation of this Full Annual Report has resulted in a number of reclassifications to the balance sheet and income statement as reported at 29 January 2006. These reclassifications include:

- increases to current derivative financial instrument assets of \$0.7 million, non current derivative financial instrument assets of \$2.3 million, current derivative financial instrument liabilities of \$80.1 million, non current derivative financial instrument liabilities of \$4.4 million respectively, and a decrease to interest-bearing liabilities of \$81.5 million;
- a decrease in non current receivables of \$3.7 million, with a corresponding decrease to non current interest bearing liabilities;
- an increase in intangible assets for computer software of \$138.7 million, with a corresponding decrease in property, plant and equipment;
- a decrease in other non current receivables of \$56.5 million, with a corresponding increase in retirement benefit asset and non current receivables of \$21.5 million and \$35.0 million respectively;
- a decrease in other current assets of \$42.0 million, with a corresponding increase in trade and other receivables; and
- a decrease in other income of \$76.3 million, with a corresponding increase in other operating revenue of \$69.1 million, a decrease in selling and occupancy costs of \$1.6 million, an increase in administrative expenses of \$8.5 million, an increase in finance costs of \$2.0 million, and an increase in share of profit of joint venture accounted for using the equity method of \$16.1 million.

(ii) Effect of discontinued operations

A discontinued operation is a component of an entity that has been disposed of or is classified as held for sale, which represents a separate major line of business, and is part of a single co-ordinated plan to dispose of such a line or is a controlled entity acquired exclusively with a view to resale.

For the purpose of this Half Year Report, consistent with the Full Annual Report for the year ended 30 July 2006, the divestments of Myer and Megamart have been treated as discontinued operations, and accordingly the comparatives in the income statement for the half year ended 29 January 2006 have been restated.

(iii) Other reclassifications

Where applicable, certain comparatives for the half year ended 29 January 2006 have been reclassified to conform with current period disclosures. The effect of these reclassifications is not considered material.

Ordinary shares		
Final dividend for the year ended 30 July 2006 of 22.5 cents (2005 17.0 cents) per fully paid ordinary share paid on 13 November 2006 (14 November 2005). Fully franked at 30% tax rate (2006 30%).	268.1	210.0

Dividends not recognised at half year end

In addition to the above dividends, since the half year end the Directors have proposed an interim dividend of 19.5 cents per fully paid ordinary share, fully franked based on tax paid at 30%. The aggregate amount of the proposed ordinary dividend expected to be paid on 14 May 2007 out of retained profits at 28 January 2007, but not recognised as a liability at half year end, is \$233.0 million.

The interim dividend declared after 28 January 2007 will be fully-franked out of existing franking credits or out of franking credits arising from the payment of income tax in the year ending 29 July 2007.

The franked portions of the interim dividends recommended after 28 January 2007 will be franked out of existing franking credits or out of franking credits arising from the payment of income tax in the year ending 29 July 2007.

Franking credits

Franking credits of \$367.4 million (at 30%), are available for the consolidated entity and will enable the payment of franked dividends for at least the next year.

Dividend reinvestment plan

Dividend reinvestment plan has been suspended. The interim dividend will be paid in cash.

Share buy-back

On 23 May 2006, the Company announced and commenced a capital management program to buy back up to \$1.0 billion shares.

On 10 July 2006, the Company purchased and cancelled 81,816,534 Coles Group Limited fully paid ordinary shares under an off-market buy-back. The shares were acquired at \$10.23 per share. The total cost of the off-market buy-back was \$838.9 million, which included \$1.9 million of transaction costs.

As announced in the Coles Group Share Buy-Back offer document on 23 May 2006, all of the Buy-Back Price above \$3.00 per ordinary Coles Group Limited share acquired off-market has been treated for taxation purposes as a fully franked dividend. Accordingly, retained profits was reduced by \$591.5 million and contributed equity was reduced by \$247.4 million. In addition, the Company's dividend franking account was reduced by \$274.8 million as a result of the off-market buy-back.

On 10 July 2006, the Company announced that the balance of the \$1.0 billion capital management program (being \$163.0 million) would be conducted by an on-market buy-back. At balance date, 5,454,538 Coles Group Limited fully paid ordinary shares had been purchased and cancelled under this program. The shares were acquired at prices ranging from \$13.23 per share to \$13.48 per share. The total cost of the on-market buy-back was \$73.2 million, which included \$0.1 million of transaction costs. Between balance date and reporting date, no additional shares have been purchased under this program.

Note 3 Business combinations

Summary of acquisitions

During the 26 weeks ended 28 January 2007, the acquisitions as set out below were undertaken by the Coles Group.

On 8 December 2006, Liquorland (Qld.) Pty Ltd, a controlled entity of the Coles Group, acquired 100% of the issued capital of six shell companies. On 11 December 2006, each of these companies acquired the net assets of one hotel business and the related bottle shops from the Talbot Hotel Group in Queensland. The total purchase consideration was \$55.6 million. Goodwill recognised on the acquisition was \$48.6 million. The accounting for the acquisition of the net assets from Talbot Hotel Group is provisional, and is awaiting finalisation of the fair values of the net identifiable assets and consequently the purchase consideration.

On 11 December 2006, Liquorland (Qld.) Pty Ltd, a controlled entity of the Coles Group, acquired the net assets of Pippas Hotels Group, including five hotels and 13 bottle shops in Queensland, for \$55.6 million. Goodwill recognised on the acquisition was \$47.8 million. The accounting for the acquisition of the net assets from Mr. Corks Liquor Group is provisional, and is awaiting finalisation of the fair values of the net identifiable assets and consequently the purchase consideration.

During the 26 weeks ended 28 January 2007, Coles Group Property Developments (formerly Coles Myer Property Developments Ltd), a controlled entity of the Coles Group, acquired 100% of the net assets of two hotel businesses, located in Victoria and South Australia, for a total consideration of \$27.5 million. Goodwill recognised on these acquisitions was \$8.5 million. The accounting for the acquisition of the net assets from the two hotels is provisional, and is awaiting finalisation of the fair values of the net identifiable assets and consequently the purchase consideration.

During the 26 weeks ended 29 January 2006, Coles Group Property Developments Ltd acquired a hotel business in New South Wales for a total consideration of \$17.4 million. In addition, Liquorland (Qld) Pty Ltd acquired the net assets of two Queensland hotels for a total consideration of \$14.2 million, and other net asset acquisitions of \$0.3 million were completed.

The contributions to revenue and profit for the businesses acquired during the 26 weeks ended 28 January 2007 is not significant to the results of the Coles Group. Further the revenue that would have been earned by the Coles Group should the results of all acquisitions have been included from the start of the financial year does not vary significantly from that disclosed in the Income Statement for the 26 weeks ended 28 January 2007.

	2007 \$m	2006 \$m

Total purchase consideration	138.7	31.9
Fair value of net identifiable assets acquired (refer to (c) below)	(33.8)	(14.4)
Goodwill	104.9	17.5

The goodwill is attributable to the high profitability of the acquired businesses. Liquor licences, acquired as part of the acquisitions made by Liquorland (Qld) Pty Ltd, have been recognised as part of goodwill on acquisition. Whilst the liquor licences meet the definition of separable intangible assets, these assets were not able to be reliably

INDEPENDENT AUDITOR'S REVIEW REPORT

to the members of Coles Group Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Coles Group Limited, which comprises the condensed balance sheet as at 28 January 2007, and the condensed income statement, the condensed statement of recognised income and expenses and the condensed cash flow statement for the half-year ended on that date, other selected explanatory notes and the directors' declaration for the Coles Group Limited Group (the consolidated entity). The consolidated entity comprises both Coles Group Limited (the company) and the entities it controlled during that half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 28 January 2007 and its performance for the half-year ended on that date; and complying with

Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations*

2001. As the auditor of Coles Group Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. It also includes reading the other information included with the financial report to determine whether it contains any material inconsistencies with the financial report. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

For further explanation of a review, visit our website www.pwc.com/au/financialstatementaudit.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our review was not designed to provide assurance on internal controls.

Our review did not involve an analysis of the prudence of business decisions made by directors or management.

Independence

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Coles Group Limited is not in accordance with the Corporations Act 2001

including:

(a) giving a true and fair view of the consolidated entity's financial position as at 28 January 2007

and of its performance for the half-year ended on that date; and

(b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and Corporations Regulations 200
